GILLETT & JOHNSTON

CROYDON, Surrey.
BELLS, CLOCKS, CARILLONS.

St. Peter's Collegiate Church, Wolverhampton. **Tenor** (33 cwt.) of the New Ring of 12.

WULFRUN CHAMBERS, WOLVERHAMPTON, MESSRS, GILLETT and JOHNSTON, CROYDON, 4th March, 1912. Gentlemen,

The re-casting of the peal of ten bells with the addition of two new ones in the tower of St. Peter's Collegiate Church, Wolverhampton, recently carried out by you has proved most successful, and given general satisfaction.

I am authorised by the Rector and Wardens to say how pleased they are with the result. In the opinion of those well qualified to judge, we have now, undoubtedly, one of the best peaks in the Kingdom.

Yours faithfully, F. T. BECK,

Architect, Diocesan Surveyor.

MODERN WORK.

THE CENTRAL COUNCIL MINUTES.

Elsewhere in this issue will be found the "official minutes" of the Central Council meeting held on May 28th last, and, on the strength of their appearance, we venture to put forward a few ideas which occur as to the futility of their publication. These minutes reached our office exactly fifteen weeks after the meeting was held, and they are merely, as of course they could only be, a brief summary of all that has been previously reported in extenso. They contain no information of value which was not far more elaborately dealt with at the time, and there is no need to hide the fact that in our opinion, and we believe, in the opinion of the majority of our readers, the publication of these minutes is a waste of labour and a waste of space. It is a waste of the labour and of the time of the hon. secretary in having to copy them out, and it is a waste of our space to have to utilise it for something which has appeared in our pages before.

which has appeared in our pages before.

The honorary secretary has sent us the minutes, we presume, under rule 12 of the Council's constitution, which provides that "the names of the members present, and the business transacted at each meeting be entered in the minute healt and reported to the ringing papers" but

minute book, and reported to the ringing papers," but surely this rule was only framed to ensure the publication of the Council's business. Now, the Council already pay for an "official" record of the proceedings, which made its appearance in due course, and "The Ringing World," which alone sent its own representative to the meeting, published a report which covered more than twenty of our columns of small type, or about 22,000 words, in the issues

immediately following the meeting. If this is not enough to satisfy the most exacting, without the necessity of publishing another summary some months after, we do not

know what is.

We publish the minutes as an act of courtesy, and because of the labour which the honorary secretary has had to bestow upon the task of copying them for publication. We feel sure, however, that the Council, with the facts brought to their notice, will relieve the honorary secretary of the unnecessary work which this matter thrusts upon him. All the while the proceedings are adequately reported at the time no possible service can be rendered to the Exercise by publishing these minutes so long after the event. It needs but the addition of a few words to the rule, in order to save the time and labour to which we have referred, and, at the same time, provide for the issue of the minutes to the ringing papers when they have provided themselves with no other report, because it is only in that event that the publication of the minutes can be of value. Such an alteration to the rules would ensure the Council's proceedings being brought to the notice of the Exercise and save the papers the need of giving more than one report of the meeting.

OPINION OF OUR MODERN WORK.

Broomfield Vicarage, Chelmsford, February 19th, 1912.

Dear Sir

I have great pleasure in stating that we are perfectly satisfied with the manner in which you have carried out the work entrusted to you of re-arranging and re-langing the Broomfield Church Bells.

We consider that the work reflects great credit upon your firm, and believe that your system of hanging the bells reduces the vibration of the steel frame supplied by you to a minimum.

The CHURCHWARDENS unite with ME in this expression of opinion. The BELLRINGERS are also unanimous in their praise of the alterations effected by you.

Yours truly,
CHAS. EDMUNDS,
Vicar of Broomfield.

COLLEGE YOUTHS AT SOUTHGATE.

The College Youths had a well-attended meeting at Southgate on Saturday, ringers being present from Barking, Walthamstow, and neighbouring towers.—Mr. T. Faulkner was elected Master for the occasion in the absence of Mr. Taffender. Touches in the Standard and Surprise methods were much enjoyed on the five bells during the evening.—Tea was provided at the Cherry Tree Hotel, where a social gathering was afterwards held under the presidency of Mr. Faulkner. Songs by Messrs. Johnston (Croydon), Miller (North Brixton), Armstrong (Southgate), Rumens (Walthamstow), Hazell (Tottenham) enlivened the proceedings, and Mr. G. Wild kindly accompanied on the pianoforte.—Mr. J. Thomas also tapped a course of Double Norwich Major on the piano. A vote of thanks to the Vicar, churchwardens, and steeplekeeper, proposed by Mr. W. LIVERPOOL DIOCESAN GUILD.

On Saturday last a meeting of the Liverpool Diocesan Guild was held at Rainford, and a good muster of members attended from various parts of the diocese. A short service was held, at which the Rev. B. parts of the diocese. A short service was held, at which the Rev. B. H. Watts read the prayers, and an excellent and practical address was given by the Rev. E. C. Collier, Birkdale. Service over, a move was made to the Golden Lion Hotel, where an excellent tea was provided.— Afterwards, the business meeting was held, the Rev. E. C. Collier presiding (in the absence of the Vicar), supported by the Rev. B. H. Watts, Messrs, Ball (churchwarden), Hall, etc.—The Chairman expressed regret at the absence of the Master (the Rev. W. S. Bulpitt, who was still far from well, not having completely recovered from the accident he met with in London. Although he was not with them in the body, he was with them in the spirit, and he (the chairman) knew they all regretted his absence.

Several suggestions of a practical nature were discussed by the members, and the proceedings were enlivened by a few stories by the chairman, and songs by one of the ringers.—One honorary member was elected, and the usual vote of thanks to the Vicar for use of the bells and the unknown donor of the tea, brought a most pleasant and harmonious meeting to a close.

A CYCLING TOUR.

AMONG SURREY HILLS AND VALES.

The annual cycling tour of the Sonning Deanery branch of the Oxford Guild took place on Saturday, the following towers being represented: Sandhurst, Easthampstead, Binfield and Hurst. Towers in Hants and Surrey were selected for the day's ringing, Aldershot being the first on the programme. The light ring of six there was set going as early as 9.15 a.m., to the tune of Kent. One of the clergy came in, as early as 9.15 a.m., to the tune of Kent. One of the clergy came in, much to the delight of the band, and greeted them with words of congratulation upon their striking, an action which convinces one of the interest which is growing on the part of the clergy for the ringers' part of Church work. After a touch of Oxford Treble Bob, a start was made for Crondall, which was reached after a long rise and a quick run down. After a "plain course" of bread and cheese, the visitors all admired the splendid avenue of lime trees, planted in 1759, which shades the path leading from the gate to the church. Inside the belfry is a heavy ring of six, tenor 18 cwt., all very discordant, three of them being very much out of tune. The "go," however, is not bad, and Plain Bob and Kent were rung, but the sound was curious. After a course of Grandsire Triples on a fine set of handbells, a start was made for Bentley, where there is a splendid ring of six by Messrs. Gillett and Johnson, recently hung in an iron frame with all latest improvements, and beautifully toned, the tenor weighing 12½ cwt., in E. The bells were rung up in peal, and set going to Plain Bob, Kent and Double Oxford. A course of London Surprise was unfortunately lost, and also a touch of Cambridge. It is to be hoped that in the near future the two new trebles will be hung in the places provided for them, thus making a grand peal of eight. After dinner, at the Red Lion, which was much enjoyed, a start was made for Froyle, where the party were delighted to be injured by Mr. H. Chaffey. much to the delight of the band, and greeted them with words of conthem, thus making a grand peal of eight. After dinner, at the Red Lion, which was much enjoyed, a start was made for Froyle, where the party were delighted to be joined by Mr. H. Chaffey. A little difficulty was found in getting to the belfry, which was discovered by going up a flight of stairs, and getting through a small doorway behind the organ. Once there, the light peal of six were set going to Plain Bob, Kent and Oxford, and Oxford Single Bob, Cambridge again being lost in the last lead. The journey was then resumed to Binstead, where the visitors drew a blank, the incumbent refusing permission to ring, because, he said, the ringing of the bells broke the chiming wires of the clock. The man in whose charge the clock chimes were placed happened to be present, and his request that the bells were placed happened to be present, and his request that the bells should be rung to enable him to see if everything were in order was met with a blunt refusal. Next came the ordeal of facing the camera, and tea at the White Hart. Much refreshed, the cyclists continued the journey to Frensham, where they were joined by Mr. C. Edwards. The bells were rung up in peal, and touches in Kent, Woodbine, Double Court, Oxford and Plain Bob, were successfully brought round. After the bells had been lowered in peal, Mr. Randell, by means of the chiming apparatus, struck off six hymns, which were very much admired. The last place on the programme was Farnham, where the fine peal of eight soon went off to the music of Kent and Bob Major, and brought the day's ringing to a close. Thank are due to Mr. C. and brought the day's ringing to a close.—Thanks are due to Mr. C. Edwards for making all arrangements, to the incumbents of all towers opened to the party, for the use of their bells, and to Mr. W. Horne for piloting the cyclists through the beautiful scenery of the Surrey hills and vales. After leaving Farnham, each wended his way home, some having to travel 20 miles, thoroughly satisfied with the day's pleasure.—H.B.

RINGERS' OUTINGS.

SWAINSWICK.

The ringers of the parish of Swainswick, near Bath, held their annual outing on Thursday, Sept. 12th, when a trip was taken to Westonsuper-Mare. The pleasures of the seaside were indulged in during the super-mare. The pleasures of the seaside were indulged in during the day the party meeting for dinner and tea. Afterwards they visited Uphill Old Church, where they were met by the local company. Change ringing was found to be rather difficult, owing to the way in which the ropes were brought down, but several good six scores of Grandsire and Bob Doubles were brought round. The party spent a most enjoyable day, and reached Bath about 10.30 p.m.

HANDSWORTH.

The ringers of St. Mary's, Handsworth, had their annual outing on Saturday week, when a visit was paid to the pretty village of Tettenhall, a short halt being made at Wolverhampton to listen to the start of a peal of Caters on the beautiful bells of St. Peter's. At Tettenhall a few touches of Grandsire Triples were rung, and the picturesque church was then inspected. After tea and a stroll round the village, a musical evening was spent under the chairmanship of Mr. Faux. The handbells were brought into use, many excellent relegious being rendered on them. of Mr. Faux. The handbells were brought into use, many excellent selections being rendered on them. Among those who contributed to the programme were: Messrs. F. Banks, E. Starkey, T. Verry, C. Starkey, E. Wood, Roper, S. Danby, Palmer, Ward, and the Chairman.—The proceedings terminated with thanks to the host and hostess, and the party then returned to Birmingham, after a very enjoyable

ST. EDMUND'S, NORTHAMPTON.

The annual outing of St. Edmund's Society, Northampton, was held on Saturday, Sept. 7th, when a visit was made to Loughborough to inspect the bell foundry of Messrs. Taylor and Co., the founders of the peal at St. Edmund's Church. Through the courtesy of this enterprising firm the visitors had the pleasure of seeing three small bells cast for a peal now in hand for Burton-on-Trent, and after making a tour of the various workshops, which the party found very interesting, a short halt was made for lunch, kindly provided by the firm. A visit to the foundry tower was the next order, and the light but musical peal was set going to Stedman and Grandsire Triples. After according Mr. D. Taylor a vote of thanks for the hospitable manner in which the party had been received and entertained, the company dispersed for dinner. Through the kindness of the Rector, the bells of the Parish Church were available for a short time in the afternoon, and with the assistance of Mr. W. E. White, hon secretary of the Midland Counties Association, who happened to be paying a visit to Midland Counties Association, who happened to be paying a visit to Loughborough, and one or two of the local ringers, touches of Stedman and Grandsire Caters were indulged in. The party then proceeded to Leicester, and made their way to Aylestone, where an excellent meat tea was awaiting them, kindly provided by the Rector (Canon H. S. Sedge). After disposing of the good things provided, a visit was paid to the church, and touches of Kent Treble Bob and Plain Bob Minor were rung. Returning in the evening to St. Saviour's, Leicester, the party had the pleasure of meeting Mr. W. Willson and Miss Willson, Mr. J. S. Needham, Mr. Buttery, and other Leicester ringers. Touches of Double Norwich, Stedman, and Grandsire Triples, were brought. of Double Norwich, Stedman and Grandsire Triples were brought round, with the assistance of Leicester friends. Altogether a most instructive and enjoyable day was spent, the weather having been ideal for holiday-making.—The members of the society wish to thank the clergy of the various churches for the use of the bells, and also the steeplekeepers for their assistance.

OUR ILLUSTRATION.

MR. JOHN AUSTIN, OF GLOUCESTER.

Few ringers have done more to advance the Art in the West of England than Mr. John Austin, of Gloucester, whose efforts have not only been devoted to raising the standard of peal ringing, but to helping beginners, and many a man owes his success in the Exercise to the early encouragement he received from Mr. Austin. With a few kindred spirits Mr. Austin was the pioneer of Surprise Royal and Maximus ringing, and thus set an example of progress which has doubtless not been without its effect in other parts of the country.

Mr. Austin is a native of a town famous, among other things, for campanological performances, having first seen the light at Burton-on-Trent on November 19th, 1863. He began his ringing career, however, at the village church of Winshill, and there, on the pretty ring of six,

Mr. John Austin.

he learnt to ring Grandsire Doubles and Minor, and scored his first 720, in the year 1885. In December of the same year he rang his first peal, which was conducted by Mr. John Jaggar. Mr. Austin took to ringing like a duck to water, and his progress in the Art was rapid. He joined the St. Paul's Society, Burton-on-Trent, which about that time was at the height of its fame, and within a couple of years Mr. Austin had rung several Surprise peals, including New Cumberland, Superlative, Cambridge and London.

His first peal as conductor was rung on August 11th, 1888, when he called Holt's Original, and it has been in this department that Mr. Austin has since made his name, for he has proved himself one of the most capable "pilots" that ever entered a belfry. After five or six years with the St. Paul's company, his occupation took him to Gloucester, where he joined the then young company known as

St. Michael's Juniors. He signalled his arrival by conducting Holt's Original, and in assisting in the society's first peal of Double Norwich. After only six months in the West, however, Mr. Austin removed to Lincoln, where he became a member of the St. Peter-at-Arches Society. Six months later he returned once more to Gloucester, where he has remained ever since. Mr. Austin helped to lift the Juniors to the top of the tree. Peals in a number of methods were accomplished, including the first of Double Norwich Caters, which Mr. Austin conducted. Then came the first peal of Gloucester Surprise ever rung, and, as a crowning effort, the first peal of Cambridge Royal. When this had been achieved attention was turned to Cambridge Maximus, the Revs. H. L. and E. B. James and Mr. F. G. May, with other enthusiasts, being in On three occasions a band was got tothe company. gether and met for the Maximus at Cirencester. On one occasion they got well into the second course. The effort made to accomplish this task was all the more praiseworthy and remarkable because at that time St. Michael's Juniors had only eight bells, and if they wanted to tackle big things above this number they had to do it without practice. Had there been twelve bells in Gloucester Cambridge Maximus would probably have been rung there long ago. Indeed, when Mr. Austin started calling a peal of it we doubt if any other band had thought of ringing the method.

Mr. Austin is a member of a great many ringing societies, and for a number of years has filled the office of honorary secretary of the St. Michael's Juniors, and has been one of the district secretaries of the Gloucester and Bristol Diocesan Association. Unfortunately Mr. Austin has lost the record of several of his peals, but the list, so far as it can be compiled, is a striking tribute to his ver-

satility as a ringer and conductor.

ODD CHANGES.

Collected from all Quarters.

Owing to the pressure on our space this week, one or two reports are unavoidably held over.

Both the tours which have just concluded in the West of England met with splendid ringing success—it is needless to add that socially they were also equally enjoyable. Members of the Cambridge University Guild rang eight peals in Devon, made up of four peals on tower bells and four on handbells, six of the total being placed to the credit of the University and the other two to the Devon Guild.

No fewer than twelve out of the fourteen attempts made during the Somerset and Dorset trip were successful. Our readers will be able to examine the records for themselves in our peal columns, but a week which includes two peals of Stedman Caters, one of Stedman Triples, three of Superlative, one of Cambridge, three of Bristol and two of London Surprise Major is not a bad record.

The best performance was on the Tuesday, when Stedman Triples was rung at Sherborne (tenor 46 cwt.), followed by a peal of Stedman Caters at Yeovil (tenor 42 cwt.). In the first of these two Mr. E. Pye rang the 7th, and Mr. W. Pye the tenor, and in the second one they reversed their positions at the back end. This is what you might call a day's work.

Sherborne was the 300th tower in which Mr. William Pye has rung a peal, and, speaking off hand, we should say this is a record in number, except for that held by the late Rev. F. E. Robinson, whose 1,250 peals were rung in about 450 towers.

Our peal records this week include one at Devizes in which a blind ringer took part. Mr. Richard Phillips, who has lost the sight of both eyes, rang the 19 cwt. tenor at St. John's Church to a peal of Triples in an extremely The number of blind ringers who have creditable way. accomplished a peal must be very few. We should like to hear of any others.

In the record which we published of the late Mr. Matt. Wood's career we stated that he took part in the first peal of Stedman Triples ever rung on handbells, but Mr. W. Ayre, of Gainsborough, points out that it was the first nonconducted peal of Stedman Triples that Mr. Wood rang in. He writes: "On looking at Elements Campanologia," by W. Sottanstall (published 1867) I find on page 178 that the first in hand of Stedman Triples was rung on December 19th, 1853, in 2 hrs. 40 mins. by J. Cox 1-2, T. Powell 3-4, H. Haley 5-6, T. Britten 7-8, conducted by H. Haley. On March 11th, 1854, the first non-conducted peal of Stedman Triples was rung in 2 hrs. 41 mins. by J. Cox 1-2, Wm. Cooter 3-4, H. Haley 5-6, M. Wood

The Church of England Men's Society conference is to be held at Leeds on October 16th and 17th. The agenda is very full, but if any delegates, who are ringers, can find time and would like a pull, arrangements will gladly be made on receipt of a post card giving particulars to H. Williams, New Wortley Cemetery, Leeds.

Who among the veterans can beat Mr. Gosling, of Mansfield, who on Saturday, at the age of 85 years, rang a peal of Treble Bob and rang it well, too? This must be almost if not quite a record for age. We often talk of it being never too late to learn ringing. Mr. Gosling rang his first peal of Stedman after he was 83!

A friend of the Editor will do his best to find situations for three or four good fitters or turners (change ringers) at trade union rate. Applicants should address their letters in the first place to this office.

The tower of St. Michael and All Angels Church, Warfield, Berks, is to be restored and the bells rehung at the expense of Field Marshal Sir Charles Brownlow, G.C.B., of Warfield Hall, in memory of the late Lady Brownlow. These fine old bells, with a tenor said to be 28 cwt., have not been rung for over forty years.

Mr. G. H. Dorrington has been appointed to succeed the late Mr. M. A. Wood as steeplekeeper at St. Matthew's, Bethnal Green.

Ringers will be somewhat amused at the description, which appears in "Home Words" this month, of the feeding " of the band that rang the 16,800 Treble Bob at Mottram. It says:

Refreshments in the shape of dry toasted cake scaked in meat extract, pieces of meat fresh from the gravy, and juicy fruit were placed in the men's mouths at intervals. The feeding process required skill, for every "change" involves mental reckoning on the ringer's part. The feeding process was undertaken by a Stalybridge ringer, who would take up a piece of food and pitch it forward; there would be a movement of the ringer's head, like a dog catching a bone, and the morsel disappeared,

A PLEASANT MEETING.

A ringing meeting of the Burton-on-Trent District of the Midland A ringing meeting of the Burton-on-Irent District of Counties Association was held at Rolleston-on-Dove, on Saturday last, when upwards of 20 members and friends were present from Derby, when upwards of Rolleston Etwall. Tyrwhitt) an excellent tea was provided for all attending, the Rector himself presiding and giving a hearty welcome to the visitors. He said he was always pleased to help forward any good work connected with the Church, and he felt sure the different ringing associations up and down the country had done a great deal towards raising the tone of ringers and ringing generally. Nowadays ringers themselves made a point of attending the services of the church, whereas formerly in a great many cases, after calling others to worship, the ringers left the belfry, and never thought of attending the service.

Bitwall was selected for the next place of meeting on Saturday, Oct. 19th.—Mr. C. Draper proposed that a hearty vote of thanks be given to the Rector for the use of the bells, for presiding at the meeting, and for providing such a splendid repast.—This was seconded by Mr. Mitchell, and carried with applause.—The Rector, in reply, said he hoped that sometime another meeting of the district would be held at Rolleston, as he was always pleased to welcome ringers to his church.

THE PLEASURES OF THE "PYE" TOUR—AND SOME OF ITS HUMOURS.

Strange it may be, but we are actually going to praise the weather. The West Country is ideal under sunny skies, and the "Pye" ringing tour of 1912 was carried through under really settled atmospheric This fact no doubt had much to do with keeping us in solutions. This fact he doubt had much be do with keeping us in holiday mood, and light hearts are proverbially a gateway to success. Saturday, Sept. 7th, saw the invasion of Wrington, and under the introduction of Mr. J. H. B. Hesse we are seen on speaking terms with the neighbourhood. There are not many villages that can boast of such a fine ring of ten as repose in Wrington tower. We did not allow them to repose very long, and the first peal of the tour—Stedman Caters—was struck off in very good style. On Sunday morning the bells were set going to Treble Ten, Stedman and Grandsire Caters for service, while two of the party on borrowed bicycles ran over to sample the eight at Congresbury (tenor 30 cwt.). "Coongsbury we gather is the proper pronunciation, and Somerset folk must have it, of course, their way. Superlative was down for Yatton in the afternoon. This entailed a four-mile walk each way, and some good pedestrianism was witnessed. It was a heavy afternoon for those who rang, but peal number two was successfully brought round, and those of such a fine ring of ten as repose in Wrington tower. We did not rang, but neal number two was successfully brought round, and those of us who were not in the peal got back to Wrington in time to give the locals a hand in Grandsire Caters for evening service.

SHERBORNE ABBEY PEAL BAND.

T. Gofton, W. Pye. J. Flint. I. G. Shade, Rev. E. V. Cox. B. Prewett. E. Pye. K. Hart.

Up with the lark on Monday morning, we boarded the "Coongsiry" express, with Shepton Mallet as our first objective. The halt at Wells Station on the way called forth many regrets that we were not allowed to attempt a peal on the Cathedral ten. We had to content ourselves with a chat with one of the St. Cuthbert's men who had come down to seek us out. At Shepton Mallet our secretary and motor cyclist secut joined us. The log of his run from Walsall we dare not make public, but he looked quite cheerful and respectable when he arrived, and stood courageously through his first peal of London. The bells are a nice peal of eight, and lent themselves to some good striking. We say nothing about the county prison here, as the whole of the party We say nothing about the county prison here, as the whole of the party got away from the town safely—even the motorist—and we take it for granted that no ringer has any interest in such places. Then on to Evercreech, where a good peal of Cambridge, and the conductor's 800th, resulted. The question after that was how to get to Yeovil, and we all had luggage of some description. Happy thought! The motor bike. "I'll take the baggage," said the scout. "You walk to Castle Cary Station." It was a good long tramp this time, and the one cyclist of the party felt a little selfish, but then a push-bike without a side car is only made for one. However, we all met again in Yeovil, and slept the sleep of the inst. and slept the sleep of the just.

A BIG DAY.

Tuesday morning's task lay at Sherborne, and the Abbey bells were set going to Stedman Triples. There was no reason to hurry them, and 3 hrs. 35 mins, brought the finish of a very good peal. Two or three members sat in the belfry during the performance, and what must have been the feelings of those on the back end when one of the

non-combatants began pealing and eating juicy pears! How shall such a tantalising moment be revenged? In the evening we tackled the ten at St. John's, Yeovil, and they sounded well in Stedman Caters, rounds coming up all correct in due course. This was the heaviest day of the whole week, and the night's rest was felt to be well-earned. Wednesday was another walking day; West and East Coker, two light rings, being the programme. Three miles away and only one side car! Still there was not much fighting for the seat in this on the whole. The scout had an intense desire to go back to Evercreech, and took our there was not much infining for the scat in this on the whole. The scout had an intense desire to go back to Evercreech, and took our Brighton representative along with him. They managed to get to Coker in time to hear the end of a peal of Bristol, and, incidentally, in time to begin hunch. East Coker was the scene of much excitement, No, you're wrong!—it was not reckless driving—it was all the fault of the postman's cart and horse. Then the motor led us to the cemetery, and in we went, but there were no bells there. Eventually we located the church, and turned the bells into Superlative, our William electing to sit in the belfry. Before half an hour was out we were being made the targets for sundry missiles propelled by some of the rising generation without, and William left us to engage in a chase which had a rough termination for the youth in question. That him we were able to score a peal without further distraction. motor was in great requisition on the way home. Thanks to

THE FIRST " DISASTER." Journeying to Crewkerne on Thursday morning, an excellent peal of London was scored, then on we went to Chard, where there is a nice peal of eight, but a little rough to handle. Cambridge had been going here about an hour when someone looked through the curtains at us, and on being told to "go away, sir, please," immediately proceeded to the organ and raised a cacophony that was not a little irritating. But although we survived this we did not survive a bad trip two courses But although we survived this we did not survive a bad trip two courses from home, and the first disappointment of the tour was experienced. It apparently preyed on our big man's mind all night, for in the small hours of Friday morning his bed companion heard these consoling words: "Never mind, Jack, we'll chuck him out!" Superlative was the arrangement at Axminster, and these bells—a rather fine ring—used to go very well. We were in for a struggle, however, and, with the fifth man not feeling very well, a muddle after three hours' ringing ended disastrously. Our motor scout was useful that day, a wire from Layra Regis told us that illuses pear the church prevented all from Lyme Regis told us that illness near the church prevented all ringing there, so up he got at 6.0 a.m., put the clutch in, and was off to Ottery St. Mary's in a jiffy. Yes, we could attempt a peal there, and back he came to breakfast at Axminster with the joyful news. Now Ottery Church is much frequented by visitors, and the ropes hang in the south transept, so Bristol Major looked like being attended with

in the south transept, so Bristol Major looked like being attended with difficulties. But a few good watch-dogs, in the shape of those not ringing, prevented any evil consequences, and the peal duly came round. It was a long cry to Birdport from there, and some lovely hills to negotiate. However, we were not out for any record breaking, so roads and distance did not matter. Our motorist and his luggage carrier again came almost to blows with the post office authorities at the entrance to the town, and again the post office must take the blame! The parson's language seems to have been splendidly controlled. An early start the next morning and the last day of the tour was entered upon. We Hervey Beams turned up to conduct us tour was entered upon. Mr. Hervey Beams turned up to conduct us to Bradpole, and soon after eight the bells were going merrily to Superlative, a first-class peal being the result. Back to Birdport for dinner, and then we made for Beaminster. Bristol Surprise was selected as the finale, and the peal was never in doubt. At tea after-Bristol Surprise was wards, ere the party dispersed homewards, the chaplain made a few appropriate remarks regarding the tour, and asked our indefatigable secretary of the week to accept the best thanks of the band for the secretary of the week to accept the best thanks of the band for the admirable arrangements he had made.—The Rev. E. V. suitably responded, as they say: and then a pleasant surprise awaited us. Mr. Beams announced that we were all his guests at tea, and of course he was warmly thanked. Thus the "Pyc" tour of 1912 came reluctantly to an end. Twelve peals out of fourteen attempts and plenty of heavy metal tackled, not to speak of the wanderings amidst delightful surroundings. We should like it all over again, and we are all going to have motors part time! have motors next time!

SALISBURY GUILD.

A meeting of the West Dorset branch was held at Maiden Newton, on Thursday, Sept. 12th. The number present was not quite so large as usual. Representatives attended from Beaminster, Bradpole, Litton Cheney, Maiden Newton, Nertherbury, Rampisham, and Whitechurch Canonicorum.—Canon Hankey was present to welcome the visi-

No visit to Maiden Newton seems complete without a stroll through the beautiful gardens and grounds of the Rectory, and although the roses are past their prime (the Canon is a noted resarian), still his

wonderful show of dahlias was well worth inspection.

In the absence of the Master of the branch (the Rev. C. F. Langford), who had to leave early, Canon Hankey presided at the tea and meeting, to which 21 sat down.

Ringing was indulged in both before and after tea, and also at Rampisham and Cattistock.

The various incumbents were thanked for placing the bells at the members' disposal, and Canon Hankey for the tea and arranging the short but beautiful service. Beaminster was selected for the October

meeting.

referred in feeling terms to the great loss sustained by the Exercise in the recent death of the late Mr. James Pettit. One of the safest of ringers and conductors, one of the most delightful of men, humble, courteous, and ever ready to help, he would be sorely missed, and had

left a void not easy to fill.

The President called attention to the fact that there was present as a visitor to the Council one of the oldest of veteran ringers, Mr. William Banister. He invited Mr. Banister to a seat on the platform, and assured him of the great pleasure that his presence among them afforded to all.-Mr. Bannister, notwithstanding his 89 years, made a spirited speech in reply, and was enthusiastically cheered on leaving the room somewhat later.

Amid the applause of the Council, the President congratulated Mr. W. Pye and the band who had succeeded in ringing 15,264 Bristol

Surprise Major on the previous day.

The President proposed that: "The Central Council of Church Bell Ringers, representing 39 Associations, with an approximate aggregate of 10.000 members, protests against the Bill now before Parliament for the Disestablishment and Disendowment of the Church in Wales as a measure entirely devoid of justification."—This was seconded by Mr. A. T. King, and carried unanimously, and it was agreed that the President and Hon. Secretary decide to whom it would be best to forward copies of the resolution.

It was proposed by the Rev. A. H. F. Boughey, and seconded by the Rev. Canon Papillon, that the following be elected to form the Standing Committee, viz., the President, the Hon. For the Church Press Committee, Mr. R. A. Daniell reported that he hoped he should before long be able to place a draft report in the hands of the hon. secretary.—The Rev. Canon Papillon proposed, and the Rev. G. F. Coleridge seconded, that the committee be henceforth known as the Literature Committee. This having been carried, and the Rev. M. It was proposed by the Rev. H. Law James, and seconded by Mr. R. Richardson, that "a peal of Minor must consist of at least seven true 720's, and the bells must strike rounds only once at the end of each, and immediately go into the next. The peal may be lengthened by the addition of any number of 720's fulfilling the same conditions, with or without one touch of less than 720 changes to make up some definite number." After much discussion, an amendment proposed by definite number." After much discussion, an amendment proposed by the Hon. Secretary, and seconded by Mr. W. Snowdon, substituting the word "should" for "must" in the first sentence was carried by a large majority, and the resolution as thus amended was then unanimously passed as the substantive motion.

At this point, the Council received the report of the Peals' Analysis Committee, which, together with the consideration of the report of the Peal Values Committee previously read, had been deferred until they could both be discussed in connection with other kindred subjects on the agenda.

The report of the Peal Values Committee recommended the adoption of a schedule for points for peals on seven bells and upwards,

In the subsequent discussion. this report, moved by the Hon. Secretary, and seconded by Mr. J. work falling on the committee in the matter of points.

A proposal entered on the agenda was brought forward by the Rev. E. W. Carpenter, and seconded by the Rev. M. Kelly, to the effect that "a committee of five (?) six-bell ringers be appointed to draw up a scale of points for performances on five and six bells," but in consequence of the adoption of the report of the Peal Values Committee, this was withdrawn by permission of the Council, as was also a further proposal in the following terms, viz.: "That this committee, together with the Peal Values Committee, try and find a common denominator by means of which the value of such performances compared with that of peals on higher numbers can be fixed.'

It was proposed by Mr. J. A. Trollope, seconded by the Rev. H. Law James, and carried nem con.: "That this Council, in extending its hearty welcome to The Ringing World has heard with satisfaction from the hon. secretary that he has, from the first appearance of the paper, sent for secretary that he has, from the first appearance of the paper, sent for publication in its columns all essential official notices and reports of the Council, and notes with pleasure that the analysis of peals for last year has been compiled from and has appeared in identical terms in both ringing papers alike." After full discussion, it was thought that the objects in view would best be secured by the appointment of a comobjects in view would best be secured by the appointment of a committee to deal with the matter.—The motion was accordingly withdrawn, and on the motion of Mr. P. King, and carried unanimously, that "the Council, while itself declining to take part in the formation or subsequent management of such an enterprise, if set on foot, and without in any sense pledging its individual members, would nevertheless view with satisfaction the establishment on a sound financial basis of a benevolent fund for the benefit of any members of the Exercise who may stand in need of help.

In the absence of Mr. C. E. D. Boutflower, through indisposition, it was proposed by the Rev. H. A. Cockey, "That this meeting of the Council, while recognising the value of peal ringing generally, and the laudable desire of the members to assist in placing their own Association of the board of the real test of the results of the results of the second of the secon tion at the head of the peal table, wishes to express the strong conviction that the chief aim of all members should be the encouragemont in all towers of ringing rather than chiming the bells for Sunday services, thus helping to achieve the primary object for which sunday services, thus neighbor to achieve the primary object for which bells are hung, viz., the Glory of God and the calling of the parishioners together for His worship."—In seconding this the Rev. NEW RING OF SIX FOR BIGBY, LINCS. DEDICATION BY THE BISHOP OF LINCOLN.

The pretty little village of Bigby, near Grimsby, has been visited by the Bishop of Lincoln for the purpose of dedicating a new ring of by the Bishop of Lincoln for the purpose of dedicating a new ring of six bells, which have been cast and hung in a steel framework, complete with all the most modern fittings, by Messrs. John Warner and Sons, Ltd., of the Spitalfields Foundry, London. The work has been carried out in the most efficient manner, and reflects the greatest credit upon the firm. For the service, the Bishop, clergy and choir robed at the Rectory, and passed slowly through the Rectory grounds and the village towards the church. The sun shone brightly on the white robed procession and on the Bishop in his cope and mitre, and the dark back ground of trees and the stormclouds all round the horizon enhanced the picturesque effect, which was heightened by the frequent reals of ground of trees and the stormclouds all round the horizon enhanced the picturesque effect which was heightened by the frequent peals of distant thunder. Near the church the procession was joined by the Sunday School children, the Guild, and the other members of the congregation, and Psalms 49 and 115 were repeated. On entering the church, the "Old Hundreth" was sung, and after Psalm 150, the Eishop proceeded to the tower, and in a solemn prayer dedicated the bells to the service of God. The beautiful hymn by the late Dr. Neale, for the consecration of Church bells, was then sung. The Bishop gave an earnest and stirring address, the hymn, "We love the place, O God," was sung during the collection, and the service was concluded with the Bishop's solemn blessing.

with the Bishop's solemn blessing.

During the afternoon the newly hallowed bells were rung, and their

sweetness and perfect tunefulness were universally appreciated.

In the "Gentleman's Magazine" for May, 1799, the bells of Bigby are thus described: "There are three bells in the steeple, but surely are thus described: "There are three bells in the steeple, but surely the jarring dissonance of ill-affording sounds never grated 'harsher music than they.'" These three bells have now been recast, three new ones have been added, and all six are now in perfect tune. On the largest and most ancient of the three old ones, the old inscription and date have been recast, viz.: "God save this Church." On the two other old bells the original date, A.D. 1680, has been reproduced, but, as they forward, had you inscriptions with the latin metrics had not not supported by the produced but. as they formerly had no inscriptions, suitable Latin motioes have now been inscribed on them as well as on the three new ones, together with the names of the Rector and the two churchwardens.

The five new inscriptions are as follows: 5th bell: Da Britanniæ, Deus, Pacem; Fidem Veram, Spem Tenacem.
4th: Colat Quisque Sanctum Patrem, Amet Quisque Frater Fratrem.
3rd: Gaudens Donum Deo Dari, Dedit Me Herbertus Parry.
2nd: Absit Rixa Diabolica Prosit Fides, Apostolica. Stet Ecclesia

Catholica.
Treble: Fraternitas.

DEATH OF MR. J. HAYWARD, KENSINGTON.

It is with deep regret we have to record the death of a well-known Kensington ringer, Mr. Jarrold Hayward, at the early age of 38 years. The deceased had arranged to cycle to Ashtead for a peal on years. The deceased had arranged to cycle to Ashread for a peal on August 17th, but acting on the doctor's advice made the journey by train. He took part in a peal of Stedman Triples, which unfortunately proved to be his last, ringing throughout without making a mistake. He was present as usual on the following day at St. Mary Abbots, but had to take to his bed on the 22nd with influenza. developed into pneumonia, and subsequently enteric fever, and he passed away on the morning of September 10th, after much suffering, at the residence of his uncle, Mr. Nunn, with whom he had lived for many years.

The funeral took place at his native village, Heveningham, Suffolk,

The funeral took place at his native vinage, rieveningnam, suncia, the service being conducted by the Rector (the Rev. R. Dewe). The chief mourners were his five brothers and two sisters, several other relatives being also present. The St Mary Abbot's Guild was represented by Mr. H. G. Miles. The parishioners, amongst whom deceased was very well known, were present in large numbers. At the conclusion of service, Grandsire Doubles were rung on the peal of five, with the bells deeply muffled, by W. Ransby, R. Ruckman, C. Woobner, J. Mower and E. Cook. Amongst the numerous floral tributes were wreaths from the St. Mary Abbot's Guild, and his shop mates, that from his fellow ringers taking the form of a cushion of white chrysanthemums, and a bell of many widels are disclosured in the numerous floral tributes.

from his fellow ringers taking the form of a cushion of white chrysanthemums, and a bell of mauve violets raised in the centre. Simultaneously with the funeral, the "whole pull and stand "was rung on the bells at St. Mary Abbot's by his fellow ringers: W. E. Garrard, A. Cutmore, W. A. Garrard, A. V. Selby, A. E. Bradley, P. L. Miles, W. J. Daubney, E. G. Stibbons, J. R. Mackman and C. H. Phipps, followed by a short touch of Stedman Caters.

The deceased same to Lendon about 1899 with a knowledge of five

The deceased came to London about 1899 with a knowledge of fivebell ringing, but practically let it drop until May, 1907, when he joined the Kensington Guild. From that time he came to the fore by leaps and bounds, soon being able to ring nearly all Standard methods. He was a member of the Ancient Society of College Youths and tho London County Association, and had taken part in eleven peals, viz.: Stedman Triples 3, Double Norwich Major 3, Stedman Caters 2, Grandsire Caters 1, Treble Bob Royal 2. He was not keen on ringing peals, but enjoyed visiting different towers on practice nights, where he could get touches in various methods. This, and Sunday service ringing, at which he was a most regular and punctual attendant, being more his ambition than peal ringing. His genial and kindly disposition won for him many friends. Always willing to oblige and help in every possible way, he will be greatly missed by his sorrowing colleagues, who realise that his place can never be filled.—R.I.P.
