BIRMINGHAM'S RECORD.

The St. Martin's Guild for the Diocese of Birmingham cherishes many records in the ringing annals, and now another record has been set up on the bells of St. Martin's Church—the home of the Guild. We publish this week the one hundredth peal of Stedman Cinques upon the bells, truly a unique record, for we should imagine that there is no other twelve-bell tower where there has been rung anything approaching this large total of peals in the method. The first of them goes back to 1820, and what stalwarts in the Art are recalled to mind when one thinks of those who, in the past, have taken a share in the building up of this record. Birmingham has possessed many great men, who have helped to make history in the Exercise, and the peals which were the foundation of the present record were performances by no means so often accomplished as are peals in these days. There was a time when the ringers were surprised if they rang a peal, to-day it is almost a case of being surprised if they lose one. Certain it is in Birmingham that the peals have been added to at a very rapid rate within the last quarter of a century.

That this is so may be judged from the fact that among the band who rang the century peal were no fewer than half-a-dozen who can claim to have taken part in more than 50 peals of Stedman Cinques, and they are not all veterans either who shared this distinction. Altogether 155 peals have been rung on St. Martin's bells, and by a curious coincidence this number is almost exactly the equivalent of one peal for every year since the first was rung in November, 1758. It was a further coincidence that the "century" peal of Stedman Cinques should have been rung in the same week as the Johnson commemoration dinner, for the late Henry Johnson did as much as any individual to build up the reputation of St. Martin's. Saturday's gathering was typical of the many by which the memory of this great ringer has been perpetuated, and it was only natural that the new record set up in the tower as well as the realisation of that other project—the recasting of the second bell—accomplished since the last annual gathering should be a matter of much felicitation.

St. Martin's Guild, even in its long and successful career, was never in a stronger or healthier position than it is to-day, and while its members—particularly those who are responsible for the ringing at St. Martin's Church—retain the same active interest and patriotic fervour in their Guild the prospects of the future are not likely to be dimmed by the brilliant records of the past. We hope the society will long continue to hold its present honoured position in the Exercise, and continue to add to the laurels it has won during nearly a century and a half of existence.

WULFRUN CHAMBERS, WOLVERHAMPTON,
MESSRS. GILLET and JOHNSTON, CROYDON. 4th March, 1912
Gentlemen,

The re-casting of the peal of ten bells with the addition of two new ones in the tower of St Peter's Collegiate Church, Wolverhampton, recently carried out by you has proved most successful, and given general satisfaction.

I am authorised by the Rector and Wardens to say how pleased they are with the result. In the opinion of those well qualified to judge, we have now, undoubtedly, one of the best peals in the Kingdom.

Yours faithfully, F. T. BECK,
Architect, Diocesan Surveyor

MODERN WORK.

**OPINION OF OUR
MODERN WORK.**

Broomfield Vicarage,
Chelmsford

Sir Sirs,

I have great pleasure in stating that we are perfectly satisfied with the manner in which you have carried out the work entrusted to you of re-arranging and re-hanging the Broomfield Church Bells.

We consider that the work reflects great credit upon your firm, and believe that your system of hanging the bells reduces the vibration of the steel frame supplied by you to a minimum.

The CHURCHWARDENS unite with ME in this expression of opinion. The BELLRINGERS are also unanimous in their praise of the alterations effected by you.

Yours truly,

CHAS. EDMUNDS,
Vicar of Broomfield.

Messrs. C. CARR, LTD.
Smethwick.

Kindly ask us to inspect, Report and Tender before deciding your Contract,—we may be able to assist you.

TWELVE BELL PEALS.

BIRMINGHAM.

ST. MARTIN'S GUILD FOR THE DIOCESE OF
BIRMINGHAM.

On Tuesday, February 24, 1914, in Three Hours and Forty-six Minutes,
AT THE CHURCH OF ST. MARTIN,

A PEAL OF STEDMAN CINQUES, 5019 CHANCES;

Tenor 36 cwt., in C.

CHARLES DICKENS 1	JAMES GEORGE 7
THOMAS H. REEVES 2	JOHN NEAL 8
ALBERT WALKER 3	ALF. PADDON SMITH 9
JOHN CARTER 4	SAMUEL GROVE 10
THOMAS MILLER 5	JAMES E. GROVES 11
EDMUND J. HYLAND 6	JAMES H. SHEPHERD 12

Composed by JOHN CARTER, and
Conducted by JAMES E. GROVES.

This is the 120th peal of Stedman Cinques rung in the tower, and is a record. It was rung on the 66th birthday of the tower-keeper (Mr. F. Banks), to whose careful attention is due the fact that the bells always "go" like the proverbial fiddle. It was also Mr. A. Paddon Smith's 60th peal of Stedman Cinques.

LONDON.

THE ANCIENT SOCIETY OF COLLEGE YOUTHS

On Saturday, February 28, 1914, in Three Hours and Forty-eight Minutes,
AT THE CATHEDRAL CHURCH OF ST. SAVIOUR, SOUTHWARK,

THE "CENTURY" PEAL OF STEDMAN CINQUES

The 100th peal of Stedman Cinques at St. Martin's, Birmingham, is recorded elsewhere. Of the men who rang in this peal it is interesting to note that no fewer than six have rung over fifty peals of Stedman Cinques. Below are the names of the ringers, with the number of peals in this method rung by each man: Charles Dickens 53, Thos. H. Reeves 27, Albert Walker 61, John Carter 19, Thos. Miller 47, Edmund J. Hyland 33, Jas. George 51, John Neal 55, A. Paddon Smith 60, Samuel Grove 38, Jas. E. Groves 56, Jas. H. Shepherd 32; total, 532. The aggregate age of the band is almost identical with the aggregate number of peals, being 523.

A member of the Guild, who wishes to remain anonymous, has generously offered to defray the cost of erecting a marble tablet to record the peal.

PRESENTATIONS TO POLICEMAN RINGER.

P.C. A. B. Wiffen, of Rickling, has been raised to the rank of sergeant in the Southend Police Force, and while congratulating him upon well deserved promotion, the Rickling ringers are extremely sorry to lose him. When Mr. Wiffen first went to Rickling bell ringing was quite unknown, but to celebrate the Coronation of King George the bells (a peal of five which had been silent for 30 years) were rung, and Mr. Wiffen started a new band, and took in hand their instruction with the result that they can now ring Doubles in two methods.

To mark their appreciation of his services, the ringers, at a supper to which the choir and ringers were entertained in the parish room, presented him with a handsome set of carvers, while the Vicar's warden, Mr. F. S. H. Judd, J.P., has given him a pocket knife and chain, suitably inscribed, as "a memento of the interest and trouble he has taken in helping and organising the church bell ringing at Rickling." Sergt. Wiffen has, in addition, received from the residents of Quendon, Rickling and Ugley a handsome black marble clock, with suitable inscription, as a token of appreciation of his services during the 34 years he has been stationed in the district.

PRESENTATION AT WISBECH.

On Sunday week, before evening service, a very pleasant yet regrettable duty was performed by the Vicar of St. Peter's Church, Wisbech (the Rev. W. T. R. Crookham, R.D.). It was occasioned by the fact that Mr. Thomas Haines was leaving Wisbech to take a position in London.—The Vicar, in the course of an interesting speech, stated that Mr. Haines had been a ringer since 1909, and since 1911 had only been away 32 times, which spoke of his keenness and hard work in the belfry. He hoped that Mr. Haines, whenever he wore the present (which consisted of three bells in the shape of a pendant), would think of the hours he had spent in the belfry at Wisbech.

Mr. Haines was also presented with a pair of military brushes, inscribed: "From the Bell Ringers of St. Peter's, Wisbech, as an acknowledgment of good and excellent service. W. T. R. Crookham, Vicar; A. Farham, curate; H. Banham, ringing master; Ralph Narborough, secretary."—Mr. Narborough said that Mr. Haines had not only been a regular member, but had put all his efforts into making himself as proficient as possible in the Art. When it was remembered that until 1911 Mr. Haines was like the rest, a "stoney" ringer (and if it had not been for that eminent ringer, Mr. Charles Goakes, of Peterborough, he supposed they would still have been ringing "stoney"), he did not think Mr. Haines would be thought lazy, for he had now rung seven peals of 5,000 changes and one of 10,080 changes, to say nothing of the scores of abortive attempts. Mr. Haines also would be greatly missed for one other reason which was more important than peals, namely, that he attended, without exception twice on a Sunday, the church he had so faithfully served, and also at Miss Jackson's junior Bible class in the afternoon. Everyone expressed regret at Mr. Haines' departure, but trusted he would find life more successful than he had done up to the present, and wished him every success in his new sphere.—Mr. Haines, who was taken completely by surprise, thanked the ringers for what they had done, and added that, as to his part, he considered he had only tried to do his duty, and trusted that those new ringers now coming on would do their utmost to make the gap that he was causing less keenly felt.—Afterwards a 720 of Bob Minor, with 6-8 covering, was rung for evening service, and a double-handed 5,000 for the Peterborough and District Association as recorded elsewhere.

LONDON COUNTY ASSOCIATION.
AGAINST INTER-AFFILIATION.

The annual general meeting of this Association was held at St. Andrew's, Holborn, where the magnificent ring of eight were kept going from 4 till 6 p.m., and subsequently at the "King of Denmark" a company of 36 sat down to tea.—The Master, Mr. T. H. Taffender, presided at the business meeting which followed, and was supported by the secretary and all the officers. The meeting ratified the election of the officers of the Northern and Southern districts, and received the balance sheet of the Bohemian concert.

The Secretary reported that during the past year the Association had rung 26 peals in ten different methods, 11 conductors and 71 members taking part. Thirty new members had been elected, but the Society had suffered loss in the deaths of some of their older members, notably Messrs. J. C. Coomb, G. W. Coombes and N. Alderman. During the year the old peal of handbells had been disposed of, and a splendid new set had been purchased from Messrs. Mears and Stainbank. The balance in the treasurer's hands of £3 18s. was eminently satisfactory, and it was resolved to place £2 of it in the bank. Great progress had been made in every department, the number of peals rung and members elected constituting records.

During the evening a letter from Mr. Attwell was read asking for the Association's opinion on inter-affiliation. This evoked much adverse criticism a resolution being passed that the Association should have nothing whatever to do with the scheme.

The following were elected as officers during the ensuing year:—Master, Mr. T. H. Taffender; hon. secretary, Mr. Alec S. Miller; treasurer, Mr. W. G. Matthews; senior steward, Mr. H. Burton; junior steward, Mr. W. J. Nelder; trustees, Messrs. R. A. Daniell and T. H. Taffender.—It was agreed that a subscription list should be opened for the widow of G. W. Coombes, late steeplekeeper at Hammersmith.

The next quarterly meeting will be held on Monday, 27th April.

Will "Cyko" communicate, in confidence, his name and address to us.

We have recently given some particulars of some striking performances in the way of "raising" heavy bells. Mr. Bert Hughes, whose association with the Whitechapel Foundry is well-known, has done several things of merit in this direction as well. Although under ten stones in weight, he has raised Bow tenor (53 cwt. 2 qrs. 22 lbs.) several times, once in 3 mins. with the clapper tied, and in 3 mins. 45 secs. with the clapper loose. He has also raised the tenors at Southwark (50 cwt.) and Cornhill (41 cwt.) single-handed.

BELLS OF FAMOUS CHURCHES.

ST. MARTIN'S, BIRMINGHAM.

BY A. PADDON SMITH.

The Church of St. Martin, the Parish Church of Birmingham, was originally erected in the thirteenth century. As first built, it was "a lofty and nobly proportioned structure in the Gothic style," but about the year 1690, the old church, having become unsafe, was, with the exception of the tower, pulled down, and a "hideous brick building" erected on the site. In 1853 the tower and spire were restored at a cost of £6,000, and in 1873-5 the ugly brick church was entirely demolished, and the present magnificent edifice built upon "its unworthy ruins" at a cost of over £32,000. It was recently (1913) completely repainted from the ground to the roof of the spire, at a cost of about £2,000. The height of the tower is 72 feet 6 inches, the octagonal spire rising to a height of 127 feet 6 inches above the tower, the total height to the top of the golden cross being thus about 220 feet.

Our illustration shows the spire as it appeared during the repainting, and it is interesting to note that while so enscaffolded, two peals of Stedman Cinques were rung on the bells.

Records of the early bells of St. Martin's are, unfortunately, not available, but it is known that there were six bells in the tower from 1682 to 1758, when a new ring of

ten was put in. In 1771 two trebles were added, making them twelve. That there were bells in the tower long before 1682 is evidenced by the fact recorded on a board that "Jno. Billingsley, A.D. 1629, left a croft of land to provide bell ropes." This "croft" is now situated in one of the busiest thoroughfares in Birmingham, and having been built upon and duly appreciated in value, it is unlikely that the bells of St. Martin's will ever be silent for want of ropes.

The weight of the tenor is 36 cwt. in C natural, and the following are the inscriptions on the bells:—

There are twelve circles representing impressions of coins on the tenor, one of which is a Spanish dollar:

Of the tenor it is said that "when the bells were in the churchyard, before they were hoisted into the tower (1758), someone noticed a large blister on the tenor just above the sound-bow. This was broken, when a large hole appeared, about 3 by 2 inches, but it did not go quite through the bell. Some of those in power wished to send it back to the founders as imperfect, while others advised that it would be better to hear its tone first. The advice of the latter was acted upon, and a very fortunate thing it was, for there are few, if any, better bells of its weight."

Several of the bells have been recast, as will be seen by their dates, for the improvement of the peal, and they are now an exceedingly musical, well-balanced ring of twelve, on which it is a true pleasure to ring, every bell being heard distinctly in the belfry.

They are known probably to a larger circle of ringers than any other ring of twelve in the country, owing to the central position of Birmingham, and the fact that it is visited annually by a large number of ringers from all parts.

The first peal on the bells—Grandsire Caters—was rung on November 19th, 1758, and 155 peals have been rung to date. Of this total no fewer than 100 have been Stedman Cinques, the first peal in this method on the bells being rung on December 28th, 1827. This peal is some-

what historical, as it was the first out of London, the fourth ever rung, and the record at that time (6600).

The following is a complete list of the peals rung in the tower:—

Stedman Cinques	100	(including 11,111 record and only two short course peals ever rung).
Grandsire Cinques	8	
Kent Treble Twelve	8	(including first ever rung).
Stedman Caters	7	
Grandsire Caters	7	
Kent Treble Ten	4	
Stedman Triples	3	
Bob Royal	2	
Bob Maximus	2	
Oxford Treble Twelve	2	
Grandsire Maximus	2	
Forward Maximus	2	(only two ever rung).
Kent Treble Bob Major	1	
Kent Treble Bob Cinques	1	(first ever rung).
Duffield Maximus	1	(only one ever rung).
Double Norwich Major	1	
Superlative Surprise Major	1	
Oxford Treble Bob Caters	1	(first ever rung).
Oxford Treble Ten	1	
Cambridge Surprise Royal	1	

ODD CHANGES.

The hearty congratulations of the ringing Exercise will go out to Mr. William Banister, who on Sunday completed his 90th year. Mr. Banister is one of those who has a "real" birthday only once in four years, for he was born on February 29th, 1824. He resides with his daughter at Fulham, after a life of great activity, and though advancing years prevent him taking part in ringing, he has by no means lost his interest in the Art. The College Youths on Saturday rang a peal of Stedman Cinques at St. Saviour's, Southwark, in honour of Mr. Banister's birthday, and of that of another veteran, Mr. Ted Horrex, who, at 76, is still hale and hearty, and took part in the performance.

* * *

As long ago as 1849 Mr. Banister took part in a peal of Stedman Cinques at Southwark, but he is the only survivor of that band, which included John Cox, William Cooter, James Mash, George Ferris, Jameson, Bob Haworth, Mat. Wood, Jimmy Dwight and others, who were giants in those days. Mr. Banister was a pioneer in Surprise ringing, and he took part in the second peal of London Surprise ever rung—a peal which he composed and conducted.

* * *

Rarely, if ever, do we read of ladies being in the majority in the belfry, but such is often the case at Portishead, Somerset, where they take their places regularly twice every Sunday, and on Sunday week for morning service six took part in a quarter-peal of Grandsire Triples, viz., Misses Elizabeth A. Tippet 1, Blanche Mitchell 2, Nellie Gillingham 3, Doris Coles 4, Mary Jukes 5, Edith Hole 6, William Gillingham 7, Albert Colbourn tenor. The touch was conducted by Miss D. Coles, who is only 14 years of age, and we believe her to be the youngest lady to conduct a quarter-peal. It is the first quarter-peal rung in which six ladies have taken part.

* * *

Will Portishead also be the first society to claim a peal by a local band of ladies? It certainly is not beyond the bounds of possibility. Five out of the six ladies whose names appear above were associated in a peal of Grandsire Triples on Tuesday week (recorded in another column). Miss Tippet is capable of ringing the treble, so that the rest should not be a very difficult matter.

Chelmsford Cathedral Tenor Bell.

The new ring of 12 bells (Tenor 34 cwt. 2 qrs. 22 lbs.) for Chelmsford Cathedral was dedicated by the Lord Bishop of St. Albans on Saturday, September 27th, 1913.

MESSRS. JOHN WARNER & SONS, Ltd., of the Spitalfields Bell Foundry, London, have in hand the restoration of the following ring of 12 bells:

YORK MINSTER (Tenor 50½ cwt.)

HERE AND THERE.

The new trebles to complete the ring of twelve at Newcastle Cathedral are to be dedicated on Easter Day.

GLOUCESTER AND BRISTOL MEETING.

A successful meeting of the Gloucester and Bristol Association was held at Horfield and Filton Churches on Saturday week, and was attended by about 20 members. The Rector of Horfield, who presided over the meeting, was elected an hon. member, and two performing members were also elected. Some touches of Grandsire Caters were rung on a fine peal of handbells kindly lent by the Emmanuel ringers.

HELP FOR RESTORATION FUND.

Towards the restoration of the bells of Upton Snodsbury, Worcestershire, the debt upon which fund is £90, the following amounts have been received by the Vicar, the Rev. W. J. Holden: Per Mr. W. Page, of Worcester Cathedral Guild, 12s.; Hallow Ringers, 4s. 6d.; St. John's, Worcester, 6s. 6d.

ST. PETER MANCROFT, NORWICH.

At the annual meeting of the St. Peter Mancroft Guild, Mr. F. H. Phillips was elected ringing master, and Mr. C. Thompson, hon. secretary, while Mr. D. O. Holme was re-elected as hon. treasurer. No less than seven new performing members were elected, and this was considered one of the most satisfactory results of the past year's work. During the discussion of general business, one or two alterations were made in the rules, and a suggestion was made as to insuring the bells against cracking and other accidents, and it is hoped this will be carried out.

THE PAST YEAR'S WORK.

In his annual report of the work and doings of the Guild, the Secretary referred to the three peals rung on the bells by members during the year past, viz.: Bob Royal, Grandsire Caters and Kent Treble Bob Royal. The two latter peals had been arranged for visitors, but the peal of Bob Royal, which was the first in the method on the bells, had been rung by members of the Guild only. It had also been at last found possible to undertake the much-needed work of cleaning and varnishing the peal boards in the belfry—a matter involving some considerable expense, which had been, however, defrayed entirely out of the funds of the Guild. At the close of the meeting, the Vicar thanked the members for all they had done as volunteers, and referred to the regular ringing of the bells on Sundays, morning and evening, and for the early celebrations on all the great festivals of the Church.

RINGER'S SILVER WEDDING.

The silver wedding of Mr. and Mrs. J. H. Gallimore, the former being a member of the St. Mary's Society, Lichfield, was celebrated on February 19th by a quarter-peal of Grandsire Triples rung by: R. Phillips 1, A. Bowler 2, J. Key 3, J. W. Timms (Tamworth) 4, J. Pratt (Tamworth) 5, F. Cope, junr. 6, F. Cope, senr. (conductor) 7, J. H. Gallimore 8. Mr. and Mrs. Gallimore afterwards entertained the ringers, and in the course of a pleasant evening, good wishes for the long life and happiness of Mr. and Mrs. Gallimore, and the hope that they would live to celebrate their golden wedding, were expressed. Not the least enjoyable item in the programme was the capital ventriloquial performance by Mr. Ernest Gallimore.

A REPLY TO "ANXIOUS."

Mr. J. Ridyard, of Worsley, writes in reply to "Anxious," that he does not think a performance of Minor, even if seven 720's have been rung complete should count as a peal if a break-down occurs in a subsequent 720. He says this is also the opinion of other ringers, who have discussed the matter, as, according to the admission of "Anxious," the band set out with a certain idea in view which they failed to accomplish.

A WINCHESTER GUILD MEETING.

The Yorktown District of the Winchester Guild held their quarterly meeting at Outlands, this being the Guild's first official visit to the tower, and the proceedings brought pleasure to the Church authorities as much as to the 40 visitors, for the Vicar, in the March 'Parish Magazine' refers with evident appreciation to the fact that the bells had brought the parish into contact with another phase of Church work. After ringing in the afternoon, the Guild's form of service was held in Church, the ringing master (Mr. W. Shepherd) reading the lesson, and the Vicar giving an address on 'Their Ministry.'—Tea and the business meeting followed in the Girls' Schoolroom, and the rest of the evening was spent in music and handbell ringing.

FORTY YEARS SECRETARY.

Honorary secretary of the Faversham band since its formation over 40 years ago, Mr. A. Biggs, senr., reached his 71st birthday on Thursday of last week, and a peal of Grandsire Triples (recorded in another column) was rung in his honour. Under Mr. Biggs' guidance, the Faversham band, some years ago, became one of the best Grandsire Triples companies in the county. At the conclusion of the peal last

week, Mr. Biggs received the congratulations of the band, and in turn congratulated the ringers upon the excellent striking maintained throughout the peal.

SURREY ASSOCIATION'S PRACTICE.

Another successful combined practice of the Southern Branch of the Surrey Association was held on Saturday at Nutfield, members being present from Buckland, Burstow, Charlwood, Godstone, Mersham, Nutfield, Redhill and Reigate. Touches of Grandsire Doubles, Plain Bob, Oxford Treble Bob, London Scholars' Pleasure, Cambridge, Carlisle and London Surprise Minor were rung.

INTERESTING EVENT AT MIDSOMER NORTON.

On Sunday last, one of the old band of ringers at the Parish Church, Midsomer Norton, reached his 70th birthday. Having a few days previously expressed a wish to take a rope once again for "Auld Lang Syne" on his birthday, the veteran was accorded a warm welcome by the present ringers, who wished him "Many happy returns." He handled his bell with marked skill and evident zest, and it gave the other ringers unalloyed pleasure to have amongst them one of the "boys of the old brigade." Mr. Frank Tovey, the hero in question, had rung, he said, the Old Year out and the New Year in, on thirty-nine consecutive occasions. It is not everyone who can make such a boast as that. We hope Mr. Tovey will be seen in the tower on frequent future occasions. In contrast with this "old hand," it is interesting to note that the ringer of the treble was Percy Speed, a boy of 12 years of age, and a full member of the Bath and Wells Diocesan Association.

ANOTHER VETERAN'S BIRTHDAY CELEBRATED.

The birthday of another veteran was also celebrated on Sunday, when, at Handsworth, Birmingham, a quarter-peal of Grandsire Triples was rung for morning service in honour of Mr. Richard Faux, who completed his 77th year on that day. He took part in the ringing with the following band: E. Wood 1, C. Starkey 2, T. Verry 3, T. Westwood 4, W. Anker (Boldmere) 5, R. Faux 6, T. J. Bratton (Smethwick), conductor, 7, R. Speakman 8. Mr. Faux was the recipient of good wishes from fellow ringers.

THE LATE MR. N. J. PITSTOW.

At Burton-on-Trent, on Thursday week, the ringers paid a last tribute to the memory of Mr. Nathan Pitstow by ringing a peal of Stedman Triples with the bells muffled. The Stansted, Essex, ringers also attempted a peal of Cambridge Major with the bells half-muffled for a similar purpose, but failing, rang a 1120 in the same method: T. J. Watts 1, A. Jordan 2, W. Prior 3, W. T. Prior 4, J. Luckey 5, W. Watts (conductor) 6, T. Jordan 7, G. Jordan 8.

BELLS FOR THE MELTING POT.

The usual monthly meeting of the Manchester Branch was held at Prestwich, when there was a fair attendance. Mr. James Barratt occupied the chair at the business meeting, and gave a hearty welcome to the visitors. He intimated that ere long the bells at Eccles would be in the melting pot, as they were getting to work in real earnest.—Mr. Threadgold, of the local company, was elected a member, and Pendleton was the place chosen for the next meeting. The special practice for higher methods will be held at St. John, Miles Platting, a fortnight hence.—A hearty vote of thanks was accorded the Vicar, wardens and local ringers for having everything in readiness.

ROMNEY MARSH GUILD.

MEMBERS ENTERTAINED BY PRESIDENT.

The president of the Romney Marsh and District Guild (the Rev. A. O. Scutt) who was married last month, entertained the members at Appledore on Saturday week, 32 members representing eight towers accepting the Vicar's invitation. The Kent Association service was used. Mr. W. E. Pitman, Mus. Bac., of Lymington, presiding at the organ. Afterwards, at the Vicarage, the ringers were received by Mrs. Scutt and her mother, and inspected with pleasure the 200 valuable and handsome wedding presents which the Vicar and his bride had received. Wedding cake was then distributed to the visitors. Subsequently, at the Swan Hotel, the ringers parloked of the president's hospitality. The Rev. A. O. Scutt presided, and was heartily thanked, on the motion of Mr. Pitman, seconded by Mr. C. W. Player, the mover conveying the ringers' good wishes to the Vicar and his wife for many years of happiness in their married life.—The Chairman briefly replied, and on the proposition of Mr. G. J. Youngs, thanks were then accorded to Mrs. Scutt and Mrs. Palmer for their kindly welcome of the members.—The Vicar said he would convey the expression to the two ladies, and expressed the thanks of himself and his wife to the local ringers for welcoming them back from their honeymoon with a merry peal on the bells.

It was decided to hold the next meeting of the Guild at New Romney, and two new members (Messrs. W. Sherwood, junr., and D. Hooper, of Aldington) were elected. An enjoyable musical evening was then spent with songs and handbells, Mr. G. J. Youngs presiding.

AMERICAN IMPRESSIONS.

"Half way up a winding stair in the tower of the Perkins Institution for the Blind at Watertown is a square, high chamber. From eight holes in its ceiling hang eight ropes. It is a Sunday forenoon in mid-January, with an icy northwest wind to roar through the oaks and maples of that English-looking river bank below the quadrangles and terraces. But from the belfry out on the frosty air pours a drench of bell music, clang! jang! clash! as brilliant and as bounteous as the wintry sunshine itself. A succession of peals of eight notes, and no two changes alike. One tumbling out after another without a pause; a variety that challenges and fascinates the ear; here a crashing dissonance that is resolved by the next pour of sound into a brilliant harmonic sequence; next some snatch of impetuous melody that is caught back again into the stream of music which floods out of those metal throats. . . . Unlike any bell music ever heard in America . . . unlike any bell music heard outside of England. As a symphony orchestra to the performance of a child's forefinger on the piano, so is this change ringing to the plunk! plunk! of the sexton knocking out hymn tunes on rigid bells."

THE WELCOME TO YANKEEDOM.

Thus a writer in the "Boston Transcript," who in a lengthy article discourses in characteristic American style upon his impressions of the English method of ringing with which he made acquaintance under the guidance of Dr. Nichols. Unfortunately our space will not permit us to quote the article in full, but we give some extracts which will doubtless interest our readers.

Referring to the advent of the English ringers at Boston, the writer, Lucien Price, says:—

They have come, rung, and been conquered by several considerations worth imparting. As expert workmen their wages are generally double what they would have received in England; their position as the only musicians of their kind on this continent is unique, giving them a prestige which they would not enjoy at home where ringing is common; and, not least to them, though oddly to our ears, they are freed from the sharp distinctions of social caste that would confine them in England. Why men, whose bodies are tuned to the fitness of our college athletes and whose minds are keyed to performances which would baffle our first-rate professional men should be denied social equality in their own land only the unsearchable processes of British snobbery can explain. The fact remains that when, after ringing changes in the tower at Groton, they were, as a matter of course, invited to dine and take coffee and cigars with the masters, the contrast to being asked to "have a cold collation, or tea" (which would have been the programme in England) made a favourable opening for democratic influences. And Groton is not reckoned the last word of American democracy either. The fact is, they were being accorded the reception due to them as competent musicians.

EXPLORATIONS AND DISCOVERIES.

It was early in the nineties that Dr. Nichols, walking in London on a summer morning, heard for the first time a peal of bells ringing changes. He did not know the name of the process, to be sure; but he did know that it was scientific, that it was music of a high grade of complexity, and that such bell music was then entirely unknown to his compatriots at home, whose notions were comprised by a chime of "dead" bells tapped by a hammer whack! thwack! clank! in the Last Rose of Summer (slightly off the key) or a hymn tune. But he hardly guessed that summer morning in London that his studies would lead him through the higher mathematical formulae, and would conclude by admitting himself and his daughter as members of certain of the most expert guilds of ringers in England.

The study is a truly formidable one. It throws you back on whatever naked intellect you are lucky enough to possess. Nothing you studied at college is of the least assistance. It backs your mind up against a brick wall and bids that organ put up fists and defend itself. It is no respecter of persons. The plain workmen of Whitechapel are among the best ringers in London. These artisans have the mental acuteness to solve in their heads problems which baffle mathematicians working with formulae for a whole evening. Why should the untaught be better ringers than men of education? The only explanation is that they have naturally better heads, or perhaps are endowed with a special sense.

SUPERIORITY OF ENGLISH BELLS.

On the scientific side, the superiority of English bells is easily demonstrable. In an American chime, the largest bell of the octave will be ten times the size of the smallest. Though the greater bells may be mellow and resonant, the upper bells will be metallic and panny, without any blending or balance in the relation between the large bells and the small. The tones will range from a sonorous boom to a tinny clank.

The English bells are so cast that the largest of the octave are only three times the size of the smallest. They blend. Their sound waves travel in wider areas, and as between the relative carrying-power of the lower and upper bells there is little difference.

The magic is that the English founders put the extra weight in certain portions of the contour where the bell may be increased in size without deepening its tone. The American system is "strictly according to science"; it obeys the laws of acoustics. By the book, these

American bells should be better than those cast in England. The reason they are not is that the English, through long years of experiment, with frequent failures, long since discovered the method of producing the maximum of sound and sweetness. These methods, be it said, are not "strictly according to science"; but the explanation is that experiment has shown how to produce effects in practice which are not yet known in theory. There are laws operative which are not yet understood, but the English (as is their peculiar genius) have found a way to get around the law.

While the foregoing is a very slight scratch on a very large subject, it will have appeared that bell-music of the genuine sort is an element of community life which has as yet been wanting to us. Also it has appeared why bells have never had the associative value for us which they have had in England. Our bell music was not the right sort because our bells were not right for ringing it. The lack of enthusiasm for it on the part of musicians was easily traceable. When a chime clanked out "Lead, Kindly Light" with two bells off key, in a range that lacked one bell, and sounding a flat with the best grace in the world when a sharp was written, you could hardly blame anyone with a sensitive ear for declining to rhapsodize. The gulf between a ragtime ballad and an organ fugue is not more abysmal than the gap between bells chiming a tune off key and bells pealing music of their peculiar and proper character. Here is a whole world of music at our doors virtually unexplored. And, luckily, the exploring party is in our midst.

BELL FRAMES AND TOWERS.

ATTITUDE OF THE SOCIETY OF THE PROTECTION OF ANCIENT BUILDINGS.

To the Editor.

Dear Sir,—Reference has recently been made to this Society in issues of your paper in which were articles on the subject of bell frames and old towers.

The Society welcomes the attention now being given to the subject, and hopes that the result of the present investigations will lead to the clearing up of many points of difference which exist.

Argument about the oldness of fashions or the newness of methods is a digression, but it is one which is introduced by the writer in your paper, so that I will not apologise for referring to it here. Just because a system is either new or old, is no certain recommendation that it is good. As your readers no doubt are aware, the Society advocates "modern" methods of constructing bell cages and hanging bells in all, but the use of metal for cages and a few other rather experimental developments which, from the varied evidence before it, it believes to be bad. Indeed some of these have already fallen out of use.

The Society is glad to learn that scientific research is being made in various parts of the country, and will have pleasure in hearing the results when the time comes. In the meanwhile, it does not believe that good will come from detailed discussions in the press.—I am, Sir, yours faithfully,

A. R. POWYS,

Secretary of the Society for the Protection of Ancient Buildings.

HALIFAX ASSOCIATION.

CONTEST AT BRIGHOUSE.

The members of the Halifax and District Association held their quarterly meeting and contest at Brighouse Parish Church on the peal of eight bells (tenor 14½ cwt.), which had been kindly placed at the Association's disposal by the Vicar (the Rev. R. P. Whittington). Four companies took part in the contest, each set ringing a test peal of 640 changes of Kent Treble Bob Major. The judges were: Mr. Broadley and Mr. Kendall, of Bradford, and Mr. Whiteley, of Brighouse. Tea, which was much enjoyed, was served in the Church Schools by the local branch.

At the close of the ringing, the general meeting was held in the Schools, the chair being taken by the Vice-President (Mr. Lawson), who was supported by the Vicar and the officers of the society.—As no invitation was brought forward for the place of the next contest, it was decided to leave all arrangements in the hands of the secretary. It was decided to hold an informal meeting at Brighouse on Saturday, April 18th. Thanks were accorded to the Vicar and churchwardens for the use of the bells and schools, and the result of the contest was then announced as follows: Lightcliffe, 275 faults; Halifax, 331 faults; Pudsey, 289 faults; Earlsheaton, 145 faults, and the last-named were declared the winners.—A vote of thanks to the local company for their arrangements and hospitality, and to the ladies for presiding at the tables, was passed unanimously, and responded to by Mr. Drake.—The Vicar then presented the cup to Mr. Hardy, the captain of the winning team, and, replying to the vote of thanks, said how great a pleasure it was to have this visit from the Association. He was pleased to hear all the kind remarks that had been made about his bells, by so wide a scope of ringers. He thanked them for the vote of thanks.—Mr. Hardy thanked the Vicar for presenting the cup, and the judges for their services.—Mr. Broadley and Mr. Kendall responded, and a vote of thanks to the chair brought another successful meeting to a close.

DARESBURY'S NEW BELLS.

A CHESHIRE RESTORATION.

As has already been briefly recorded in our columns, a new peal of eight bells has been installed at Daresbury, Cheshire, by Messrs. Warner and Sons, of Spitalfields Foundry, and the dedication excited considerable interest not only among the people of Daresbury, Hatton, Moore and Preston Brook, but in many adjoining parishes.

The six old bells have been recast, and two new ones added, the latter being the gift of Miss Milner, of Moore, and of Mrs. Whitley and her son, Mr. J. J. Whitley, each of whom takes a deep and abiding interest in the welfare of the church and parish. The total cost of the work, which includes a new all-steel independent framework, steel rope guides and belfry floor, is over £500, and the whole amount has been subscribed by present and past parishioners.

The inscription on the new bells read: On the tenor, which is 16 cwt. 1 qr. 5 lbs., in E: "Given by Mary Milner, 1913, to commemorate the Coronation of George V, June 22nd, 1911." On the treble: "In memory of Rev. Thomas Whitley, Vicar 1834-1896. Given by his widow Anne Catherine Whitley and his son, John James Whitley, 1913." On the six old bells which have been recast and retuned are the following inscriptions: 2nd, "Peace and good neighbourhood, 1725"; 3rd, "Sir G. Greenall, Bart., patron, Rev. T. T. Lee-Jones, Vicar, J. J. Whitley and C. H. Tinsley, wardens, 1913"; 4th "Prosperity to the Church of England, 1725"; 5th, "Prosperity to the Parish, 1808"; 6th, "Peter Woods, gentleman, and Samuel Burrows, churchwardens, 1725"; 7th, "Cast by John Warner and Sons, London, 1874; recast by J. Warner and Sons, 1913." All the bells are fitted with Messrs. Warner's patent self-aligning oil bath bearings, which are so designed as to ensure efficient lubrication, and which eliminate all shock to the framework or tower. The total weight of the peal is 64 cwt. 3 qrs 7 lbs.

Messrs. John Warner and Sons were represented at the dedication by Mr. Robert Warner, who was spending the week-end at Daresbury Hall. The bells were dedicated by the Rev. Canon Binney, of Chester, who read a number of special prayers, after which the bells were rung for one minute.

The Canon took for his text the words, "He that hath ears to hear, let him hear," and pointed out that in God's creation, everything was meant to minister to His glory, and everything had a spiritual use—eyes, lips, hands, feet, ears. And they were responsible for the employment of their powers. There was the satisfaction and pleasure of listening to the sound of the bells, but there was, or should be, something more. There was the message of the bells through the ears to the innermost being. There was help in the bells to the spiritual life. What, then, had they to say to them? They were certainly a call to worship which they could all understand. They proclaimed aloud the importance and need of worship which was man's privilege. People had ceased to go to church, largely because the idea of worship had been lost, and the bells rang out their message "Come and worship, come and worship, Christ the King," but the response had been small. To hear their beautiful music, to listen to a popular preacher, to satisfy the dictates of conscience were reasons why certain persons were more or less regular in attending the house of God, but there was something higher and grander—the adoration which the whole being could give to the Creator, Redeemer, Sanctifier, the thankful remembrance of the inestimable love of God. The bells were also a call to remembrance. It was not possible for everyone to attend public worship whenever it was offered, but everyone might be reminded that he lived in a Christian country, and that there was the claim of God upon him when he heard the church bells. He might find inspiration and help in the knowledge that the needs of his country, his parish and his friends (some of whom might be among the sick) and his own needs were being placed before God. The bells were a reminder, a call to reflection, and helped them to realise that religion was not all a dull and gloomy thing, but could fill them with lasting joy and peace. They were also used to express their rejoicing on special occasions: they called upon them to rejoice with those who rejoiced, and to weep with those who wept. As they had just said in one of the special prayers—"they ministered to God's service."

A NEW FEATURE.

During the afternoon a band of the Chester Diocesan Guild rang a peal of Bob Major, as already reported. The bells have been tuned upon Canon Simpson's five-tone principle. The new steel frame is one of Messrs. Warner's latest design, and a most unique feature is that the main girders have been entirely done away with, and the frame is only supported by diagonal steel set-offs, in each corner of the tower. Much discussion has taken place as to the correct position of main girders for bell frames, and certainly a better answer cannot possibly be given than by doing away with them altogether. Before this method was finally adopted, the opinion of many eminent church architects was ascertained, and one and all expressed their entire approval. It would be interesting to have other opinions in this new field for thought, as it may be found to be possible to instal bells in towers where hitherto it has been considered an impossibility. By this method all four walls are tied together, and it makes no difference if there are any weak walls, as the pull is in the length of the walls, and the weight is taken at the corners of the tower. The new type of bell frame now universally installed by Messrs. Warner and Sons is entirely independent of the walls and acts as a tie to the tower instead

of the walls acting as a tie to the frame as so often happens in the case of many existing frames.

HISTORY OF THE OLD BELLS.

The old parish account books show that the tower in 1684 contained a peal of four bells, but there is nothing to indicate where the bells had been cast or the time. From frequent repairs they must have been in a very dilapidated condition, and may have been placed in the tower quite a century before the date mentioned. It appears that one bell only was rung for the Sunday service at that time, all the bells being rung only on special occasions, such as the 29th May, 5th November, and when "Ye Bishop passed through ye town." In 1701, "Ye bell founder" was sent for, but no mention was made as to who he was or where he came from. Upon examination one of the bells was found to be cracked.

In 1702 a general meeting of parishioners was called, and a resolution passed that a new peal of six bells should be cast. During the two succeeding years the bell founder was often consulted, but for some reason not stated, 20 years elapsed before the work was done. In 1725 a peal of six bells was cast, and placed in the tower. By what means the bells were provided nothing certain is known, but from the church accounts book of 1702 it is stated that assessments should be collected throughout the parish "for and towards the necessary running down of ye old bells, casting, making, and completing of six new tunable bells," but as this did not then take place it is probable that in 1725 these same four old bells were recast into a peal of six.

In the year 1881 Daresbury had an excellent company of ringers, and a tablet in the belfry records the performances of the members of the society, and shows the methods, number of peals, touches, changes, etc., during that year. One item is of more than passing interest, for it recalls that on April 26th, the day of the funeral of the Earl of Beaconsfield, a deeply muffled peal of Kent Treble Bob was chimed from manuscript by Thomas Houghton, junr.

Mr. Thomas Houghton, whose work as a ringer dates back to the year 1862, and who at a vestry meeting at Daresbury in 1866 was appointed a regular ringer, has filled this position without a break up to the present time, and is now the captain.

The following rules appear on a board in the belfry:—

D are not to come to this sacred place
A ll you good Ringers but in awful grace,
R ing not with Hatt nor Spurs nor insolence,
E ach one that does, for ev'ry such offence,
S hall forfeit Hatt or Spurs or Twelvepence;
B ut who disturbs a Peal the same offender
U nto the Box his sixpence shall down tender.
R ules such no doubt in ev'ry Church are us'd
Y ou and your Bells that may not be abus'd.

DURHAM AND NEWCASTLE ASSOCIATION.

The pre-Lent meeting of the Durham and Newcastle Association was held at Cramlington, Northumberland. Good weather favoured those who made the journey, and all seemed to enjoy the outing. The peal of six at St. Nicholas' were kept going well up to train time. After the committee meeting, tea took place in the Parish Hall, and the President (Mr. C. L. Routledge) moved a hearty vote of thanks to the Vicar and wardens for the use of the bells and hall, to the Cramlington ringers, and the several ladies who looked after and provided such a capital tea. In the course of his remarks, he urged the ringers to "stick in," and let the Association know they could do something. They were very fortunate in having such an all-round ringer as Mr. Symm amongst them, and they should realise this and give him all the help they could.

The Vicar (the Rev. T. P. Allen), in responding, said what a pleasure it was to be honoured with a visit from the Association, and hoped it would not be long ere they visited them again. He took an interest in ringing and the ringers, inasmuch that he took an active part himself. It was a pleasure to him to visit the belfry on practice night, and he hoped some day he would be a ringer. Although the attendance of the ringers was not all that could be desired, he trusted the President's words would be an incentive to them to "stick in."

The President mentioned the fact that the two new trebles for Newcastle Cathedral were about to be cast at Messrs. Taylor's foundry, at Loughborough, and were to be dedicated on Easter Day. The bells would be available to all who cared to have a pull on twelve on Easter Monday, and he specially invited as many as possible to turn up and make the meeting a success.—Mr. and Mrs. Symm returned thanks on behalf of ringers and lady helpers respectively.—After new members had been enrolled, touches were rung on the handbells. Tower bell ringing was afterwards again indulged in.

ROYSTON.—At the Parish Church, 720 London Surprise: W. B. Manning 1, W. L. Darlow 2, E. Bonnett 3, R. Wilkerson 4, S. E. Roberts 5, R. G. King (conductor) 6.

ROUND THE FESTIVE BOARD.

ST. JOHN DE SEPULCHRE, NORWICH.

The annual complimentary dinner to the ringers and members of the choir of St. John de Sepulchre's Church, Norwich, took place at the Criterion Cafe. Several gentlemen of the congregation and friends from St. Peter Mancroft, were also present. Between 40 and 50 sat down to an excellent dinner, the Vicar (the Rev. G. N. Herbert, M.A.) presiding, supported by both churchwardens, Mr. W. B. Greenfield, J.P., and Mr. F. P. Pear; Mr. Geo. Smith, Mr. Chas. E. Borrett (secretary of the Diocesan Association of Ringers), Mr. G. Tyrrell (choir-master), Mr. F. E. Franklin (organist), Mr. Geo. Mayers (ringing master), Mr. S. Robertson, Mr. W. W. Goodbourn (deputy ringing master), Mr. Cogman, and others.—The toast of "The King" was proposed by the Rev. G. N. Herbert, M.A., after which Mr. F. P. Pear gave "The Vicar," Mr. Herbert responding.—"The Ringers, Choir and Officials" was proposed by Mr. Geo. Smith, and responded to by Mr. Platten, while Mr. Wellington gave "The Visitors," to which Mr. Sedley Robertson made a reply. A capital musical programme was contributed by Mr. F. Carrington, Mr. G. Tyrrell, Mr. C. Brundell, Mr. W. W. Goodbourn, Mr. H. Chamberlin, Mr. E. W. Cogman, Mr. Harry Carver, and Mr. Mobbs. The accompanist was Mr. F. R. Franklin.—A vote of thanks was accorded the Chairman, on the proposition of Mr. Chas. Borrett, seconded by Mr. W. Tyrrell, and this ended a most enjoyable evening.

SCUNTHORPE AWARDS.

The annual supper of the Scunthorpe band was partaken of at the Crosby Hotel last week. In the regrettable absence of the Vicar, Mr. Clugston, the Vicar's warden, presided, and Mr. W. Robinson, the people's warden, officiated as vice-chairman. Both spoke in eulogistic terms of the voluntary services of the ringers.—After the loyal toast, Mr. Dickinson proposed "The Vicar and Churchwardens," both wardens making reply.—Mr. Miller gave the toast of the honorary members, which was responded to by Mr. Cheeseman; and the toast of the ringers, submitted by Mr. Robinson, was responded to by Mr. Bird.—Mr. T. H. Parkin (a gold tie pin), Mr. Vamplew and Mr. Hocknell (a silver match box each) were the recipients of these awards, given by Mr. Jackson, the Rev. T. Boughton and Mr. Robinson respectively, for best attendance, and each expressed thanks.—Songs were sung by Messrs. Miller, Parkin and Wiles, Mr. Ruberg acting as accompanist; and after Mr. Strickland had tapped off changes upon handbells, games were indulged in until the time for dispersal. The presence of several ladies greatly enhanced the enjoyment of the evening.—Hearty thanks were accorded the chairman and Mr. Beck, the host.

WORCESTER CATHEDRAL GUILD.

The annual supper, in connection with the Worcester Cathedral Guild, took place at the Hop Market Hotel, Worcester, on Friday last, about 25 members and friends sitting down, including ringers from Upton Snodsbury, Madresfield and Hallow.—The churchwarden (the Rev. F. L. Whitley), who presided, announced that apologies for absence had been received from the following: The Rev. Tupper, the Rev. Canon Wilson, the Dean, the Rev. Dr. Moore Ede, the Rev. J. E. Macrae, Mr. J. R. Newman, and Mr. A. Hill. After the company had shown that they could ring the changes on other good things besides bells, a musical programme was carried out. Courses of Grandsire Caters and Triples were rung on handbells, Messrs. W. C. Jones, W. H. Johnson, R. G. Knowles, G. Hinton and J. Morris taking part. Songs were rendered by the Rev. F. L. Whitley, G. Ritchings, J. Perry, T. Brown, W. H. Johnson and J. Clements; Mr. J. Morris and Mr. R. G. Knowles recited, and tunes were rung on the bells by Messrs. W. H. Johnson and G. Hinton. Mr. H. Johnson was the accompanist, and contributed two piano solos.

GOOLE PARISH CHURCH GUILD.

The Goole Parish Church bell ringers were entertained to dinner at the Sydney Hotel by the Vicar and churchwardens, a company of seventeen sitting down to an excellent repast, provided by Host Heptonstall. In the after-dinner speeches allusion was made by most of the speakers to the excellent relationship which existed betwixt the church and the belfry.—The Vicar, in a short but pointed address, said he was of the opinion that the day had gone by when the belfry was apart from the church.

A short business meeting followed, the officers being elected for the year. The remainder of the evening was given over to a musical programme. Tunes and changes were rendered on the handbells in excellent style, and other enjoyable items included solos on the violin and banjo, intermingled with songs by the vocalist section. Eleven o'clock brought to a close a most enjoyable evening.

HEAVIEST PEAL OF SIX IN LINCOLNSHIRE.

To the Editor.

Sir.—In answer to the query in the "Ringing World," I should say that Epworth is the heaviest peal of six in Lincolnshire. They were cast by Harrison, of Barton-on-Humber, in 1813. Like all Harrison's bells they are very thin, and are cast without canons. The tenor measures 54 inches in diameter, and had she been in the key of D, would have weighed 28 cwt.; but as her note is C, I should say one might put her at about 25 cwt. Anyhow she is somewhat heavier than the tenor at Brant Broughton.—Yours, etc.,

Salisbury.

J. R. JERNAM.

SHEPHERD.

BELLS DEDICATED at WATFORD, NORTHANTS

The re-dedication of bells at Watford, Northants, which have been rehung by Messrs. Day and Co., took place on Tuesday of last week, the ceremony being performed by Bishop Clayton. After the service, a band of ringers from Lilbourne (Messrs. J. Lawnian, R. J. Lawman, A. Price, W. T. R. Egan, J. Blipwell and W. Lawrence), who had been specially invited by the Vicar (the Rev. Sanders) rang ten courses of Grandsire and Bob Doubles, and were subsequently entertained by the Vicar, along with the local men and Mr. Day to a splendid tea provided in the Scout Hall in the Vicarage grounds.—The Vicar, in a short address, thanked the Lilbourne ringers for their service.—Mr. Day thanked the Vicar for his kindness, his remarks being supported by Mr. Price, on behalf of the Lilbourne band. After tea a return was made to the belfry, and several further six-scores were again rung in the same methods. The "go" of the bells is everything that can be desired, and a fine opportunity is now in the hands of the local ringers to become masters of the art.

LINCOLN DIOCESAN GUILD.

ELLOE DEANERIES BRANCH RECORD.

A record number of 40 new members was elected at the quarterly meeting of the Elloe Deaneries Branch of the Lincoln Diocesan Guild held for the first time at Bicker. These new additions to the strength of the Guild included the Rev. E. P. Gough and Mr. E. Cooley (hon. members) and ringers from the following parishes: Surfleet (15), Fulney (9), Gosberton (4), Deeping St. Nicholas (3), Bicker (1), Donnington (1), Pinchbeck (1) and Fleet (4). The meeting was a successful one, a company of 25 sitting down to dinner at the "White Swan." The accounts presented by the treasurer (Mr. R. Mackman) at the subsequent business meeting were considered very satisfactory, and a sum of £2 2s. was voted to the fund for providing an additional bell for Gedney Church. After the meeting, service was held in the fine old Norman Church, at which the Vicar (the Rev. G. H. Clark) gave an address. The collection was devoted to improvements in the Bicker belfry. Subsequently the Vicar and Mrs. Clark entertained the visitors to tea at the Vicarage.

GREAT WALTHAM.—On Jan. 17th, a quarter-peal of Oxford Bob Triples, in 52 mins.: G. Usher 1, J. Tarbun 2, W. Rowland 3, W. Wellington 4, A. Tarbun, junr., 5, G. W. Piper (conductor) 6, C. W. Davis 7, G. Day 8. The first quarter-peal on the bells in the method.
