TO LEAD. OR NOT TO LEAD?

The article which appeared in this column a month ago, describing the action of the Midland Counties Association, in laying down its own rules as to what, in future, the association will record as a peal, as a 'lead and a challenge ' to the Central Council, elicited two replies which we regret it has not been possible to publish until to-day. They are both arguments justifying the attitude of the Council in adopting a 'do nothing' policy on this question of what should constitute a peal. Obviously, of course, we do not agree that it is wise of the Council to refuse to express an opinion on this subject even though it be a thorny one. If the Council had never laid down any rules governing peals it might have been a different matter. But almost from the days of its inception the Council has, and rightly so, concerned itself with the standard that should be required for peals. It has not hesitated from time to time to lay down rules, and these rules are to be found in the official "Decisions" under the heading of 'Conditions required for peals.'

Our point is that the Council, having set up a standard—a minimum standard if you like—should not be afraid to amend these conditions as and when required. Our previous article did not attempt to suggest what those conditions should be, but to emphasise the need that the Council should be the body which should define the regulations and thus lead the Exercise, instead of being led by it. It will be far easier for the Council to retain the lead which it has set in the past than to regain it, once the associations have established their own standards for peals—standards which might possibly be extremely difficult to reconcile.

Unless the standard of peals is to fall, there can surely be no objection to specifying a minimum, but once lose the hold upon a standard of some kind and chaos may creep in which will undo all the good which forty years of work has done in the way of creating uniformity in the Exercise. If the Council is to wait indefinitely upon circumstance; if it is to wait to see which way the cat jumps, then it cannot be said that the Council is any longer the head of the Exercise, and the existing 'conditions' required for peals would be better expunged from the Decisions.' Either they exist to unify practice or they are useless; and unless the Council is prepared to move with the times and amend its rules where necessary and reinforce its own definitions when called upon to express an opinion, its operations lose the force of authority and the Council will lose prestige among those who only have a superficial knowledge of its work but look to it to give a lead to the Exercise.

Rung in honour of the birthday of H.M. the King. First peal for the ringers of 2nd, 3rd and 4th. All three are only 15 years old.

LINCOLN DIOCESAN GUILD.

NORTHERN BRANCH ANNUAL MEETING.

The annual meeting of the Northern Branch was held at Grimsby on Saturday, May 31st, and, taking into consideration that this is one of the extreme districts of the branch, there was a good attendance. Among the towers represented were Bigby, Branston, Burton-on-Stather, Elsham, Gainsborough, Grimsby (St. Andrew's and St. James), Kellingholme, Lincoln (Cathedral), Scotherne, Scunthorpe, Thornton Curtis and Ulceby. The Rev. J. Barber, of Great Coates, and Mr. and Mrs. Richardson and Mr. G. Ladd, from the Elloe Deaneries Branch, were also present. The two rings of eight were available, and kept going to various methods during the afternoon and evening, rounds being also rung for the learners. The bells at St. James' were rung half-muffled as a tribute of respect to the late Archbishop Lord Davidson. Archbishop Lord Davidson.

Service was held in the Parish Church, the Vicar, Rev. H. R. Burrows, officiating and giving an appropriate address. Mr. H. Rushby, one of the local ringers, presided at the organ, and the singing was led in a most efficient manner by the choirboys. Mr. F. F. Linley, president of the Northern Branch, read the lesson. This was followed by a course of Grandsire Caters in the chancel by the following: Mrs. R. Richardson 1-2, F. S. W. Butler 3-4, R. Richardson 5-6, H. Marcon 7-8, C. W. Taylor 9-10.

Fifty-eight members and friends afterwards sat down to an excel-

lent tea in the Church House.

Mr. Linley presided at the business meeting, and was supported by the Vicar of Grimsby, Rev. H. T. Parry, president of the Grimsby District, and members of the committee.

District, and members of the committee.

An apology for absence and good wishes for a successful meeting was read from Mr. J. A. Freeman, Northern Branch Ringing Master.

The balance sheet and secretary's report for 1929 were passed, and the whole of the officers reappointed. Two new members, Messrs. G. Atkinson and H. Cawkweil, Thornton Curtis, were elected. The arrangements for the next annual meeting were left in the hands of

A suggestion was made that the number of bells, with name of correspondent for each tower, should be inserted in the next report.— It was decided to leave this matter in the hands of the committee.

It was decided to leave this matter in the hands of the committee. In a very witty and humorous manner the Rev. Burrows gave the branch a most hearty welcome to Grimsby.

Mr. Linley proposed a comprehensive vote of thanks to the church authorities for the use of the bells, the organist and choirboys for their services, the caterers for the splendid tea provided, and all others who had in any way helped toward making the meeting such a success, at the same time making reference to the excellent manner in which the boys of the choir had rendered their assistance at the service.—This was carried and responded to by the Vicar, who alluded to the loyalty of his ringers as churchworkers.

A vote of thanks to the chairman concluded the business, after which further ringing took place, and a very successful meeting

which further ringing took place, and a very successful meeting brought to a finish.

ALDERSHOT'S ACTIVITIES.

To the Editor.

Dear Sir,—Aldershot may well be called a nursery for ringers. Four years ago the Aldershot band was broken up, leaving only four of the old band to carry on. These, instead of taking things lying down, looked round and roped in three choirboys and three girls whose ages then averaged 13 years, all of whom have since rung a quarter-peal. To-day the Aldershot band is 17 strong, and is, I

think, one of the youngest and keenest bands in the country.

It is not at all a strange sight to see as many as thirty at one of their Friday night practices. Everyone gets some ringing, some in rounds and some being coached in changes, according to the stage they have reached.

No meeting in the district is complete without the Aldershot band, who make their presence felt, especially at tea time.

How many other towers are there, I wonder, who devote three-quarters of their practice hight to helping learners from other towers, and so to helping change ringing along in this country?— Yours faithfully,

E. BRAGG, Grenadier Guards.

FOOD FOR THOUGHT.

To the Editor.

Sir,—It is good to sit and think. I do sometimes, and perhaps my subject may be the leading article in 'The Ringing World.' Week by week we get a topic to consider, and without doubt every single article interests some members. It would be absurd to state that the whole Exercise reads, marks, learns and inwardly digests every one, and it is, therefore, all to the good that we have such a diversity of topics. Sometimes it is highbrow for those that can appreciate it. More often it is a plain-spoken piece of advice, or oven, perhaps, a rap over the knuckles of more or less severity, a gentle word of warning or a generous word of praise. I repeat, it is good to sit and think. It is, however, better to take action.

Consider for a while the first of the second thousand, 'Peals and Peal Ringers.' Here is food for thought to begin with. What does it show? Less ringers? Less enthusiasm? Less opportunities? Apparently less something. Should we be content with less? It is good to sit and think. It is better to take action. What action? I would suggest that the object to attain should be to change the degree of comparison from less to more in each of the above. That will be something to attain. However, as everyone knows, this will mean spade work for some. How many? Why not all. Many hands make light work. It is good to sit and think. It is, however, better to take action.—Yours sincerely,

'LAYMAN.'

SUSSEX COUNTY ASSOCIATION.

A very successful quarterly meeting was held at Warnham on Salurday, May 31st, when about 40 members and friends attended from Billingshurst, Heene, Guildford, Brighton (St. Peter's and St. Nicholas'), Itchingfield, Horsham, Kirdford, Lindfield, West Grinstead, West Tarring, Rudgwick, Warnham, and Dr. E. L. Taylor, of Sevenoaks. The bells were available from two o'clock onwards, and were kept busy in the standard methods until five o'clock, when the company took tea at the good old Sussex Oak Inn.

At the business meeting, with Dr. Taylor in the chair, the following non-resident members were elected: Mr. C. Geary (Nottingham) and Mr. H. E. Andsley (Crayford).

Votes of thanks to Dr. Taylor for presiding, and to the Rector for granting the use of the bells, concluded this part of the programme, and another visit was paid to the belfry for further ringing.

BEDFORDSHIRE ASSOCIATION.

LUTON DISTRICT.

A very pleasant and successful meeting of the above district was held on Saturday week at Westoning and Flitwick, about 20 members being present from Barton, Silsoe, Luton, Weburn, Kempston, Dunstable and Totternhoe,

Ringing took place during the afternoon at Westoning, where hangs a good peal of six, with a tenor about 13 cwt., in good-going order, and of good tone, in spite of being a mixed lot. The treble and fourth are by Mears, second and fifth by Chandler, third and tenor by Russell. These bells were kept busy during the afternood in methods ranging from London Surprise to Grandsire Doubles.

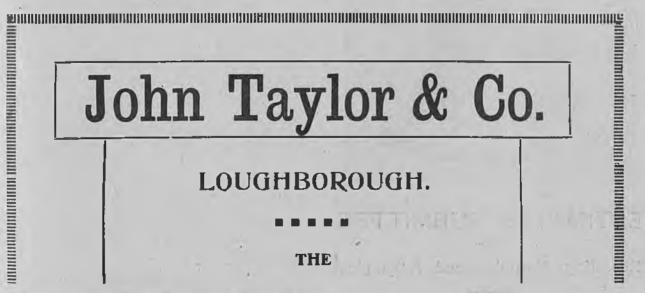

The tea and business meeting were held in the Bell Inn, the chair being taken by Mr. A. King, vice-president. Five new members werelected, and Woburn selected for the next meeting on June 28th.

After tea, Flitwick was the venue. This was the first time the association had ever paid a visit to this tower, where there is a very ancient ring of five bells: The treble, 1637, Taylor, recast 1867; 2nd, John Clarke, 1608; 3rd, John Keene, 1631; 4th and 5th, Miles Graye, 1653 and 1654; rehung by Bowell some years ago. Members were delighted to find the tower in first-class condition, it being, from bell chamber to floor, in a well-cared-for condition, and the bells going like tops. Grandsire, Stedman, and Plain Bob Doubles were rung. Members thoroughly enjoyed their first visit to this church.

SUDDEN DEATH OF WELL-KNOWN OLDHAM RINGER.

On Sunday night, just before starting to ring for evening service. Mr. Isaac ('Ike') Schofield, aged 68, of St. Mark's, Glodwick, passed away very suddenly in the tower.

Mr. Schofield was secretary to the Oldham and District Society, and his loss will be greatly felt. He was never tired of giving of his service to further the cause of ringing, especially to the young ringers. Mr. Schofield had rung a good many peals in different methods. He was one of the band that rung the record peals of Kent Treble Bob at Mottram about 26 years ago. He was a member of the Lanes Association, Chester Guild, Ashton-under-Lyne Society and the Oldham and District Society. He was well known and respected in all these associations. Mr. Schofield lost his wife 14 months ago and his son last Christmas. He leaves behind three daughters to mourn their loss.

PHOTOGRAPHS WANTED.

PICTURES OF CHURCH TOWERS FOR PUBLICATION IN 'THE RINGING WORLD.'

The Editor of 'The Ringing World' will be glad to receive photographs of churches, with a view to their future publication when suitable occasion arises.

The photographs should be accompanied by brief particulars of the bells, with their inscriptions and dates if possible, and any other interesting information about

Pictures should, for preference, be photographic postcards, and, where there is any choice, the tower should be a feature.

Obviously, of course, all the pictures cannot be published at once, the object of getting a collection being that the photographs may be ready at hand for use when fitting opportunity occurs.

Will each tower secretary be good enough to send a photograph of his own tower? It should be forwarded in an envelope for protection, and addressed to The Editor, 'The Ringing World,' Woking, Surrey, and the sender should enclose his name and address.

BELFRY GOSSIP.

Messrs. Taylor and Co. installed a peal of eight at Great Baddow in 1924. Since that time they have rehung the peal of eight at Great Dunmow, augmented the peal at Great Bardfield to complete the octave, and the peal at Great Easton to six, and now the Loughborough Company is to instal another new peal in Essex. This is to

be a fine new ring of eight, tenor approximately 15 cwt., at Great Holland Parish Church.

The first peal at Winchester Cathedral was rung forty-five years ago to-day, when Mr. F. G. Dawe conducted a peal of Grandsire Triples and Murray Hayes performed a herculcan task in keeping

the tenor going.

Jasper Snowdon was born at Ilkley on June 18th, 1844.

A DEAN'S APPEAL FOR MORE RINGERS.

At the annual conference of the Rochester Diocesan C.E.M.S., held at Chatham on Saturday week, the Dean (the Ven. Donald

held at Chatham on Saturday week, the Dean (the Ven. Donald Talbot) appealed for more bellringers.

'I am informed,' he said, 'the it is becoming increasingly difficult to enrol young men as bellringers. This is a great pity, because bellringing is one of our proud national possessions. You won't find it anywhere else in the world. I appeal to you members of the society to interest yourselves in it so that this possession will not be lost. Bellringers are as important in the worship of God as the men in surplices. The ringing of church bells is worship.'

THE PEAL AT PORTSMOUTH.

THE PEAL AT PORTSMOUTH.

The peal of Double Norwich Major rung at St. Mary's, Portsea, and recorded elsewhere in these columns, was rung at the special request of the Vicar (Rev. G. C. L. Lunt) to welcome past members of the clergy staff, who were assembling during the Whitsuntide for a great reunion at Portsmouth. The Archbishop of Canterbury (Dr. Cosmo Gordon Lang), a former Vicar of Portsea, was unable, owing to medical advice, to preside over this gathering of nearly seventy clergy, but those present during the week-end included the Bishops of Southwark and Kingston, Bishop Norman Lang, Canon Southam (Chester Cathedral), the Vicar of Fareham, the Rector of Beaconsfield and several other prominent clergy. The company were also favoured by the presence of the Bishops of Winchester, Portsmouth and Southampton. and Southampton.

VISIT TO OXFORDSHIRE TOWERS,

The Heyford bellringers had a most enjoyable outing on Saturday, May 3rd, when they journeyed by bus through Wootton, Bladon and Cassington, indulging in their art in each village; then on through Eynsham to Oxford, where they enjoyed a good tea, and rang at St. Giles' Church before leaving. They reached Islip at six o'clock, and rang there, and then at Ambrosden, Launton and Middleton Stoney, and returned home at 9.45. It is hoped this outing will be the forerunner of others. The arrangements were in the hands of the captain, Mr. F. Pritchett. The ringers wish to thank all those who so kindly helped, and the various incumbents for the use of the bells.

THE CENTRAL COUNCIL.

TUESDAY'S MEETING AT LAMBETH.

ELECTION OF A NEW PRESIDENT.

The first session of the newly-elected Council was held by the courtesy of his grace the Archbishop of Canterbury in the Guard Room at Lambeth Palace, London, on Tuesday, where there was an attendance of nearly one hundred members.

The chair was taken at the outset by the retiring president, Capon G. F. Coleridge, and the Council was welcomed on behalf of the Archbishop (who is now away by the sea recuperating his health in view of the forthcoming Lambeth Conference) by his secretary, the

Rev. A. Sargent.

Canon Coleridge then informed the Council that he felt compelled through advancing years to retire from the office of president, and as there had been only one nomination for the office he declared Mr. E. H. Lewis, who had for many years been a representative of Cam-

bridge University Guild, elected.

Mr. Lewis took the presidential chair amid applause, and cheers having been given for Canon Coleridge, on the call of the hon. secretary, Mr. Lewis acknowledged the honour done him by his election to the office.

MR. E. A. YOUNG. Re-elected Hon. Secretary and Treasurer of the Council.

No nominations having been received for the offices of hon, secretary and treasurer and of librarian, Mr. E. Alexr. Young and the Rev. C. W. O. Jenkyn were re-elected to the respective offices. Mr.

Nov. C. W. O. Jenkyn were re-elected to the respective offices. Mr. Young stated that during his contemplated absence from England Mr. W. A. Cave had kindly undertaken to carry on the work.

The Hon. Secretary and Treasurer presented the accounts, a summary of which has already been published, and these, having been audited, were adopted, as were also the accounts of the librarian, who presented the following report:—

ONLY MODERATE SALE OF PUBLICATIONS.

The hon, librarian's report for the year ending April 30th, 1930, The hen, librarian's report for the year enumy april 50th, 1550, was as follows: This has been an uneventful year, both for the library and the sale of publications. Few books have been borrowed, and the only addition to the library has been the peal composition books of the late Mr. John Carter, which were presented by the honsecretary. As to the publications, shortly before Easter the revised issue of 'Rules for a Local Company' came from the printers, and notice of its being on sale was at once given in 'The Ringing World,' but up to the present only a few copies have been sold, though it

has been much in demand while it has been out of print. The new issue of 'Minor Methods' has not yet reached the librarian. There has only been a moderate sale of other publications, amounting to £4 16s. 5d. The book 'On the Preservation of Bells, etc.,' is in the process of revision preparatory to reprinting, for which it should be ready before long. The cost of advertising and postage was £9 10s. 6d., so that there was an adverse balance on the year of £4 14s. 1d.

The following honorary members were re-elected: Rev. C. D. P. Davies, Alderman J. S. Pritchett, Major J. H. B. Hesse, Messrs. J. A. Trollope, J. Griflin, E. A. Young, J. S. Goldsmith and C. F. Johnston. The Rev. A. T. Beeston, the other retiring hon. member,

did not seek re-election.

The Hon. Secretary reported on various matters that had come before the Standing Committee, the members of which were re-elected, with the addition of the 'conveners' of committees who were

not already members.

The Rev. H. S. T. Richardson, reporting for the Peals Collection Committee, which was reappointed, stated that the work now in hand and almost concluded was the proof of peal of Treble Bob with tenors parted.—Mr. G. R. Newton raised the question of having the whole of the Treble Bob Peals Collection made more readily available for use by printing it, but it was pointed out that the question of printing costs was to come up later on another committee, and the matter would have to be left over for a time.—The committee's report was adopted report was adopted.

The Literature and Press Committee's report was read by the Rev. F. Ll. Edwards and adopted, and the committee re-elected with the addition of Mr. C. H. Howard.

MINOR METHODS COLLECTION TO BE PRINTED.

The most important question in the Methods Committee's report was that of printing the collection of Minor methods. The Rev. H. Law James explained that the total cost of printing the work as it stood would be about £68, and to make it pay they could not publish it at less than Js. a copy. The committee suggested that if the cost was too much to enable the Council to publish the whole at once, it should be published in two parts-one consisting of the methods and the other of the compositions.

the other of the compositions.

Mr. Trollope said the committee had gone carefully through the transcript, and if the volume was to be what they wanted to make it they could not cut it down by so much as a comma.

Many suggestions were made as to what should be done to bring the cost of the work within reach of all ringers, including cutting down the contents, dividing the volume into a greater number of sections, giving only half-leads of the methods, and issuing it in several parts, but eventually Canon Coleridge moved a resolution to print the book as it stands, and sell out stock held by the Council in order to cover the cost. An amendment moved by Mr. P. J. Johnson (Yorkshire) to issue the work serially having been defeated, Canon Coleridge's motion was carried by a large majority. The committee were re-elected with thanks for their services.

The committee were re-elected with thanks for their services

feated, Canon Coloridge's motion was carried by a large majority.

The committee were re-elected with thanks for their services.

After lunch, the Council dealt with the reports of other committees. That of the Analyses Committee, already published, was adopted, and the committee thanked for their work and re-elected.

The individual reports of the members of the Towers and Belfries Committee was of considerable interest. The committee have revised the pamphlet on the 'Preservation of Bells, Frames and Fittings,' and it would shortly be ready for printing. The Rev. C. W. O. Jenkyn, the hon. secretary, and Major J. H. B. Hesse referred to the work done in belfry inspections during the year, and the President, arising out of an inspection he made at Barnet, gave a lucid and instructive address in regard to the ascertained strains and stresses on towers caused by the ringing of bells.

Rev. C. W. O. Jenkyn moved that the report be adopted and the revised edition of the book printed as soon as possible.—Canon Elsee seconded, and the motion having been carried, and the committee elected, Mr. F. E. Dawe suggested that the expense of printing should be met by subscriptions from among the members of the Council, which he offered to head with a donation of two guineas. Several other members at once offered to contribute, and the sum necessary is likely to be forthcoming in this way.

The Records Committee's report was read and adopted, and the Rev. A. T. Beerston having retired from the Council, the other members, the Rev. H. Law James and Mr. T. Hervey Beams, were re-elected, and Mr. George Grover (Guildford) added to the committee.

The Legal Committee, having completed its work last year, was discharged with thanks for its services, but Alderman Pritchett was asked to hold a watching brief for the Council in case any legislation detrimental to ringing should be introduced. The Rev. H. Drake offered to defray the cost of printing the committee's report, which was a very valuable one, to make it accessible to those who

charged with thanks for its services.

(Continued on page 382.)

(Continued from page 381.) HON, MEMBERS INVITED TO PAY.

The Council then dealt with the motions on the agenda. The Hon. Secretary proposed that in future the subscription for the third and fourth representatives of an association should be 2s. 6d. only, and that hon members should pay a subscription of 5s. per annum.

The first part of the motion was defeated, so that the subscription of 5s. will be payable for all representatives.

At the suggestion of Alderman Pritchett, the second part of the motion was amended to read that hon, members be invited to subscribe not less than 5s. per annum, and in this form it was adopted.

A discussion was initiated by the Hon. Secretary on the suggestions made in 'The Ringing Word' on October 18th last that the rules of the Council should be altered. He did not think there was a great deal in the suggested alterations, but thought they might well be considered.

Mr. W. A. Cave followed, and proposed: 'That, in order to bring Mr. W. A. Cave followed, and proposed: 'That, in order to bring ringing societies into closer communion and co-operation with the Central Council of Church Bellringers, every affiliated society be requested to include in their rules words to the following effect: "That this society be affiliated to the Central Council of Church Bellringers and loyally carry out the rules and decisions thereof." The Rev. H. Law James moved to leave out the words 'and de-

The Rev. H. Law James moved to leave out the words and decisions, but the motion was carried in the form proposed except that, at the suggestion of Alderman Pritchett, the words loyally abide by were substituted for the words loyally carry out. It was then further resolved: 'That the Standing Committee consider, and, if thought necessary, revise the rules of the Council and report to the next meeting.'

Notices stood in the name of the Rev. H. Drake as follows: (a)

That a collection of lantern slides be formed by the Council to illustrate ringing in its various aspects, and (b) that all notices of trate ringing in its various aspects, and (b) motions to be laid before the Council shall be sent in the names either of individual members or of affiliated societies, and shall reach the secretary in time for them to be published a week before Easter, as a preliminary agenda. Within a fortnight after Easter other resolutions or amendments may be sent to him, but in this case only in the names of the societies.

Mr. Drake withdrew these proposals on the understanding that they would be taken into consideration by the Standing Committee. On the motion of Mr. J. S. Goldsmith, seconded by Mr. G. Grover, it was resolved: "That the Methods Committee be requested to review the Council's statement on "Regular Methods" contained in "Rules and Decisions" and report to the next meeting of the Council what if any appearance to the contained in "Council what if any appearance to the council what if any appearance is the council what if any appearance is the council what if the council what is the council when the council who council when the council who council when the council when the council when the council was the counc cil, what, if any, amendments they consider are necessary in view of present developments in method ringing.

Four places were suggested for the next annual meeting, which is due to be held in the North, viz., Ripon, recommended by the Standing Committee, Leeds, Dublin and Liverpool.

It was held that Dublin was ruled out under the scheme, and

would be considered when the meeting next fell to be held in the

West, and, on a vote being taken, Liverpool was selected.

A vote of thanks to the Archbishop of Canterbury for permitting

the meeting to be held at Lambeth, was passed, and the business concluded with a vote of thanks to the president.

In the evening a social gathering, attended by many of the representatives and their friends, was held at Auderton's Hotel, Fleet Street, which was the Council's headquarters for the week-end.

A full report of the proceedings will be given in future issues of 'The Ringing World.'

FRATERNISING AT LAMBETH.

The Middlesex Association and London Diocesan Guild, South and West District, were at Lambeth on Saturday, May 17th, as visitors to the London County Association and North Southwark Diocesan Guild (Southern District), and a pleasant afternoon and evening were spent, very useful practice being obtained in various methods. ance was by no means startling, and one wonders what becomes of the advocates of joint meetings on these occasions. Ringing commenced soon after three and proceeded merrily until six o'clock, by which soon after three and proceeded merrily until six o clock, by which time among other visitors were to be seen a vice-president and secretary of the over-the-water association. Unfortunately, the L.C.A. tary of the over-the-water association. Unfortunately, the L.C.A. District Master was prevented from being present by illness, and a letter of sympathy was directed to be sent to him with hopes for a speedy recovery. Mr. Essery, steward, L.C.A., and Mr. Mackrill, treasurer, shared the duty of M.C. quite skilfully in his absence. Some 22 sat down to an excellent tea, arranged by Mr. Hardy, the local steeplekeeper, to whom the best thanks of the company were given. Some of the 'giants' of the Exercise rang a service touch of Cambridge Major in fine style, and the company attended evensong, at which the Rector gave an address of welcome and advice, the musical side of the service being ably accompanied on the organ by Mr. Martyn, one of the Woolwich members, who stayed at some inconvenience to himself to help on the work. Members are indebted to him. A vote of thanks was accorded the Rector for the use of the bells, etc., and ringing was carried on till 9.15, concluding with a course bells, etc., and ringing was carried on till 9.15, concluding with a course of London.

THE NEW PRESIDENT OF THE COUNCIL.

MR. E. H. LEWIS' INTERESTING CAREER.

At the meeting of the Central Council, on Tuesday, Mr. Edwin Hugh Lewis, one of the honorary members, was elected president in succession to Canon G. F. Coleridge. The Council is fortunate in securing the services of such a capable chairman, for Mr. Lewis comes to the office with a wide experience gained through his association with important industrial undertakings, as well as an expert knowledge of ringing.

Born on June 13th, 1881, at the Vicarage of St. Ann, Nottingham, the youngest son of Canon J. D. Lewis, Mr. Lewis was educated at Cordwalles School, Maidenhead, Charterhouse and Trinity College, Cambridge. He first learnt to handle a bell and ring call changes when Canon Lewis was appointed Rector of Trowell, Nottinghamshire, in 1900. He joined the Cambridge University Guild on entering Trinity College in 1901, and was a contemporary of the Revs. H. S. T. Richardson and B. H. Tyrwhitt Drake. His first peal was 5,024 Bob Major at St. Andrew's, Cambridge, on June 17th, 1902.

After taking his degree (Mechanical Sciences Tripos) in 1904, Mr. Lewis was appointed assistant manager of the Liverpool Silver and Copper Co., Ltd., Widnes, and lived for two years in Liverpool, ringing during that period at various churches in South Lancashire.

In 1906 he moved to Frodsham, Cheshire, and rang regularly at St. Lawrence's Church, where there were then six bells by Rudhall. He took charge of the belfry when two trebles were added in November, took charge of the beirry when two trenes were added in November, 1911. In the meantime he had taught a band at St. Paul's, Widnes, where eight bells had been hung in September, 1907. Mr. Lewis married in 1909 the daughter of Archdeacon Richardson, Rector of Southwell, and sister of the Rev. H. S. T. Richardson. In 1914 he was appointed assistant manager of the Glasgow Iron and Steel Co., Ltd., Wishaw, Lanarkshire, in 1916 works manager, and in 1927 general manager. While at Wishaw he was responsible for starting up the cement works, where cement was made as a side line from the slag from the blast furnaces.

line from the slag from the blast furnaces.

Last year he was invited to join the boards of directors of the Tunnel Portland Cement Co., Ltd., whose works are at West Thurrock, Essex, and of Messrs. F. L. Smidth and Co., Ltd., who are

rock, Essex, and of Messrs. F. L. Smidth and Co., Ltd., who are associated with F. L. Smidth and Co., A/S, of Copenhagen, the well-known engineers and makers of cement making machinery. As a result he took up residence at Brasted, Kent, in November last.

Mr. Lewis is a member of the West of Sociand Iron and Steel Institute (filling the important post of president, 1922-26), the Iron and Steel Institute (member of Council, 1922-26), the Institute of Metals, the Ceramic Society, and the Institute of Fuel, of which he was appointed one of the first Fellows in 1928.

Until May, 1929, he was lay elector, lay representative and churchwarden of St. Andrew's Church, Wishaw, and chairman of the Wishaw Local Employment Committee from its inception.

There was, of course, little opportunity of ringing in Scotland, even if business activities had permitted, but Mr. Lewis was able to attend occasional meetings of the College Youths (of which he has been a member for 27 years) when in London attending meetings in connection with iron, steel and coment trades.

Mr. Lewis has rung 154 peals (26 on handbells) from Minor to

Mr. Lewis has rung 154 peals (25 on handbells) from Minor to Maximus. He has been a representative of Cambridge University Guild on the Central Council since 1908. A few years before the war he called the attention of the Council to activities of the S.P.A.B., which resulted in the formation of the Towers and Belfries Committee, of which he is a member, and he contributed to Sir Arthur Heywood's book, 'Belis and Belfries,' much valuable information on strains and stresses, the result of scientific investigation and calculation. tion and calculation.

PRESIDENTS OF THE CENTRAL COUNCIL.

Sir Arthur Hoywood, Bart. 1891 to 1917.

BELL RESTORATION AT CHURCH OAKLEY, HANTS

The peal of six bells at Church Oakley, Hants, have recently been The peal of six bells at Church Oakley, Hants, have recently been retuned, quarter turned and relung with new headstocks and ball bearings by Messrs. Gillett and Johnston, of Croydon. The hells were rededicated on Wednesday, June 4th, by the Rector, the Rev. G. H. Jeudwine, at a simple but dignified service, of which the main note was praise and thanksgiving, the local band ringing a touch of Grandsire Doubles after the rededication and before the sermon. In the course of his sermon the Rector paid a tribute to the skill with which the bells had been removed and rehung and to the work of the local band of ringers, and appealed to his reconlette answer

with which the bells had been removed and rehung and to the work of the local band of ringers, and appealed to his people to answer the 'Come' of the bells by 'We will go to the House of the Lord.'

A number of other ringers from other parishes attended the service, including Mr. George Williams, the Ringing Master of the Winchester Diocesan Guild, and at the conclusion of the service they got busy in the belfry and kept the bells going till late in the

'RULES? FOR PEALS.

To the Editor.

Dear Sir,—No doubt many of your readers will heartily agree with your recent leading article, 'A Lead and a Challenge,' but there is another side to the matter. Change ringing is not like many other things—it has no vital need for a written code of definite and precise things—it has no vital need for a written code of definite and precise rules. In cricket, or football, or bridge, or tennis, or billiards—in all these and all things like them, you must have a set of rules which provide for every possible circumstance and which must not be broken. Without them you would speedily have disagreement and anarchy, and no game would be possible. It is not so in change ringing. Its essential rules are implicit in the art itself, because the art is based on one or two broad and strong principles. You cannot have change ringing unless you do keep to these rules, and therefore, broadly speaking, you cannot (at least, not seriously) break them. The proof of this lies in the fact that during two and a half centuries ringing began and developed without either a code of agreed rules or any central authority to make or enforce them. Every rule in ringing which matters arose spontaneously; it was never laid down by authority nor defined. And yet throughout its history ringing remained and must remain essentially the same thing.

You never had, and never can have, one set of rules for ringing

You never had, and never can have, one set of rules for ringing You never had, and never can have, one set of rules for ringing in one part of the country and another in another, in the same way that the primitive football has split into Association and the different forms of Rugby football. The fact that we have 'call changes' and 'cross peals' does not affect this.

The principles on which peal ringing is based were summed up by the ancients as Truth and Completeness. Now it does not require any definition to enable ringors to understand what is meant by a true and complete peal of Grandsiro Triples or Bob Major or Superlative. any attempt at definition would rather tend to cloud the Indeed, any attempt at definition would transfer the accumulated experience of the Exercise in these things, is a safe guide. It is far more likely to be sound than the considered opinions of any individuals, however eminent. Only in a very narrow borderland is there any ground for uncertainty. Our peals must be true and they must be complete. To this rule there is no exception; but there

they must be complete. To this rule there is no exception; but there is a little uncertainty as to what truth and completeness mean in a very small number of cases. It is here that people are so very anxious to rush in with definitions, and here that definition is much more likely to do harm than good.

For proof—twenty-five years ago spliced ringing was formally illegal. It was not merely forbidden by the precise wording of the adopted rule; if it had been submitted to the judgment of representative ringers it would have been condemned. Just that class of men who now want to bar the Bankes James arrangement of Cambridge Pilyon and the Morvie autorement of Grandiste Devides Pilyon and the Morvie autorement of Grandiste Pilyon and the Morvie bridge Minor and the Morris arrangement of Grandsire Doubles would bridge Minor and the Morris arrangement of Grandsire Doubles would then have tried to bar spliced ringing if the question had been raised. But the men who started spliced ringing followed their instinct, thinking nothing and caring nothing for the formal rule, but feeling that here was something which was a natural development, a new and precious gift for the Exercise's treasury. And so it was firmly established before anyone bethought themselves as to whether it was formally legal or not. And, of course, once established the formal rule was

impotent against it.

So, too, it would have been with these five and six bell compositions if the question had not been raised in an acute form before it bad been shown by experience whether they are good or bad, useful or otherwise. The discussion has perhaps delayed the final settlement, but this at least is certain, that the result depends not on any attempts at making rules or definitions, but on whether, in the long run, the instinct of the Exercise approves or condemns them, whether the six-bell ringers want them or not. And I certainly, for one, feel strongly that any attempts (mainly by eight-bell ringers) to forbid them, and so prevent them being put to the only fair and satisfactory test, are clean contrary to the best interests of ringing and of the Exercise.

the Exercise. Individual associations, of course, have the right and the duty to decide what standard they shall exact for the peals they book, though that duty should not be carried out in any narrow and partisan spirit. But the Central Council must look at these things with a broader view, and not for the sake of precise definition hamper the progress of ringing or seek to restrict the liberty which is the right of every band of ringers. In ringing we do not want precise rules. What we do want is a fuller understanding of the great unchangeable principles on which our art is based. If we put our trust more in the instinct of the Exercise and less in individual opinion we shall not go far wrong.—Yours,

J. ARMIGER TROLLOPE.

Sir,—If I am not able to support the line you have taken up in your article with the above title, you may say I am not consistent with the policy we both thought the right one on nomenclature. The reason, however, is this. As long as there are differing names, and differing technical terms in the Exercise, the development of the science of change ringing will be hindered. Only a central body can decide such matters, and, as you rightly point out, it is the duty of the Central Council to do this. It is not, however, its duty to decide all such questions. It is within its power and its duty to say that some questions are urgent, and should be decided at once, while others ought to be postponed. Now nomenclature was and is an urgent question, and some decision had to be made. The Council decided last year that the question of peals of Minor was not a question which ought to be settled at present.

There are several good reasons for this policy, besides those which have so far been produced. For instance, there has never been any uniformity of standards among the different societies, and I do not myself see only reason why there should be as long as they are not

myself see any reason why there should be, as long as they are not more closely federated than is now the case. This may, as you say, diminish the authority and prestige of the Central Council. these matters this authority and prestige do not matter, if the Council is right in saying that the time to decide these questions has not

yet arrived.

Again, one admires the action of the Midland Counties Association. They have taken a self-denying course which may injure them considerably, because they have the courage of their opinions. But it is very much better that this experiment should be tried by one is very much better that this experiment should be tried by ong society at a time, than by the whole Exercise. If the questionable compositions cease to be questioned, and are often rung, it is fairly certain that the society will retrace its steps—a fairly easy matter. But what is easy and advisable for one or more societies may be neither easy nor advisable for the Central Council.

Again, take my own case. As I have several times said, I do not

hold any very strong opinion on the matter at issue, and felt it well to get the opinion of the Guild of which I am secretary. It was accordingly well discussed at the largest meeting the Suffulk Guild has cordingly well discussed at the largest meeting the Suitalk Guid has ever had. Not a single voice was raised against these compositions. The only opposition to a motion in support was from a member who thought the discussion was premature—practically the same opinion as the Central Council ultimately expressed. Now it is possible, though not very probable, if the Central Council had decided differently, that we should have found ourselves cut off from them. Such a result can never occur now. It is clearly wiser for a central body to avoid decisions which may exclude any of its constituent societies.

You say that the M.C.A. knew what they wanted, and that the Central Council could have done the same. But that is just what they could not do. No doubt what you actually mean is that the M.C.A. had a sufficiently large body of favourable members to carry the resolution in question. The Central Council, however, had not. Moreover, such a decision could be made by a society by a narrow majority. It would be fulfile for the Council so to get. As long as Moreover, such a decision could be made by a society by a narrow majority. It would be futile for the Council so to act. As long as there is an influential minority in favour of certain compositions, those compositions would be rung whatever a majority of the Council might pass. By obstinately or tyrannically using a majority in such an event the Council might split the Exercise, or it might give the questionable compositions the very fillip which it did not wish to, but it could not prevent the tide rising, if its rise was due.

It is also futile to argue about a higher standard, while some of us are convinced that the compositions in question actually are of a higher standard than the others. To enlarge the field of operations is not necessarily to admit inferior specimens. They may be better. The principle underlying the idea of 'red tape' is that quality is better than quantity. Fortunately this is not always the case.

THE DEVON GUILD.

ANNUAL MEETING PROVOKES KEEN INTEREST.

The annual general meeting of the Guild at Exmouth on Whit Monday was attended by nearly 200 members from all parts of Devonshire. A service was held in the fine church of Holy Trinity, with popular hymns rendered by the full choir, the lesson being read by the president of the Guild, and an appropriate address given by the Rev. J. Dauglish, R.D., Rector of Lympstone, who spoke of the debt of gratitude which churchgoers owed to the ringers. The ringing of the bells, he observed, was inseparably bound up with English religion, and in these days, when Sabbath observance was so generally neglected, the call from the belfry was a challenge to those regarded the church services in their pursuit of pleasure. Therefore, he thought, the work of the ringers was more effective than any sermon; and the ringers themselves might take to heart the message of their bells, to practise what they preached.

Dinner was served in the Church Hall for 209 members and friends, the arrangements being carried out to perfection by a ladies' committee of Exmouth Hospital under Mrs. E. V. Cox.

The president (Rev. E. S. Powell) presided over a meeting which was animated and lengthy. The annual report and financial statement were adopted.

The report of the general committee of the Guild was as follows: A particularly encouraging feature of the year has been the attendance and interest shown at the many meetings which have been held. From the reports received from the various branches it would appear that the Guild generally has been marking time during the year 1929, and has not made such advance as might be expected to keep pace with the times. Only fifteen peals have been rung, compared with twenty-seven in 1928. While peal ringing is not the sole aim of the Guild, it is undoubtedly an index of progress, and this falling off, the Guild, it is undoubtedly an index of progress, and this falling off, together with a decline in membership, are factors that give the committee some auxiety. The committee desire to impress on all members that the Guild is a live organisation, and as such it must be either progressive or retrograde. Every single member can do something to help forward the work, but if any are apathetic then the burden laid on the officers to carry on the organisation is unduly increased. The monthly Cathedral practices have been sadly neglected, and the committee would urge all, who can, to attend these practices to acquire an insight into twelve-bell work.

The statement of accounts showed that the balance in hand was increased during the year from £50 10s. 8d. to £53 16s. 1d.

A proposal for an alteration of the rules governing the election of president of the Guild and chairmen of branches was abandoned.

A further proposition for altering the rule limiting the period during which the annual general meeting should be held was deferred until the next general meeting.

The Rev. E. S. Powell was re-elected as president, Mr. T. Laver as general secretary, and Mr. T. J. Stokes was elected general treasurer in place of Mr. T. G. Bartlett, who was cordially thanked for his ten years' service as treasurer.

Mr. W. J. Southwood and Major C. F. Jerram were elected vice-presidents with those already on the committee.

For the office of representative on the Central Council five nominations were received for four vacancies, and, on a ballot being taken, the Rev. E. S. Powell and Messrs. Marsh, Shepherd and Woodley were declared elected.

It was resolved that a sub-committee be constituted to consider a proposal to provide a permanent memorial to the late Rev. Maitland Kelly, in recognition of his lifelong and self-sacrificing devotion to the Guild.

Plymouth was selected as the venue of the annual meeting in 1931. One life member and three associate members were elected.

A proposal by Mr. Southwood that a special committee be appointed to examine certain alleged defects in the Guild's organisation was defeated.

The general committee was authorised to arrange a partition of the Exeter and North Devon Branches so as to constitute the area in the Deaneries of Holsworthy and Torrington a separate branch.

A vote of confidence in the Rev. E. S. Powell as president, proposed by the Rev. E. V. Cox, was carried with acclamation, the president in responding being visibly affected.

The keen interest shown by this large meeting in the proceedings would appear to belie the allegation that the Guild has reached its

'ODDS & ENDS OF GRANDSIRE TRIPLES'

Being mainly an explanation of the nature and working of the Q sets in ordinary ringing phraseology, with one or two other matters.

FOUNDATIONS OF THE OXFORD GUILD.

JUBILEE OF THE SONNING DEANERY BRANCH,

To the Editor.

Dear Sir,—In your account of this, in your last issue, you report me—quite correctly—as referring to a paper, read by the Rev. H. C. Sturges in 1879 to the deanery chapter, as being productive of the

Sonning Deancry Society.

I have, however, since learned, on excellent authority, that the paper in question, of which I hold the original, was read by the Rev. R. H. Hart Davis,

This paper was handed to me by Mr. Hart Davis, a before he died, with some words of explanation which left me with the impression that it was the work of Mr. Sturges.

I have been informed, also on good authority, that Mr. Sturges did read a similar paper to an informal meeting of clergy at about this

I write this as giving some reason, I hope, for my words at the jubilee meeting, and for the benefit of those who in after years will be searching after truth.—Yours truly,

CYRIL W. O. JENKYN

Master of the Oxford Guild.

TRURO DIOCESAN GUILD.

TRURO BRANCH MEETING.

St. Newlyn East, Cornwall, possesses a nice ring of six, tener 9 cwt. rehung about four years ago by Messrs. J. Taylor and Co., on hall bearings and in a new frame, when the present treble was added. The church, a beautiful edifice, possesses a fine screen. The Vicar, the Rev. M. May, M.A., extended a very hearty welcome to the fifty or so ringers from Truro Cathedral, Perranzabuloe, Illogan, Redruth, St. Gluvias and St. Budoch, who attended a Truro Branch gathering on Saturday, and the result was a very happy meeting enjoyed by all. The bells were started before two o'clock by the local band, and

an. The bells were started before two o'clock by the local band, and were kept going until late in the evening.

The service was conducted by the Vicar, who also gave the address. He was assisted by the Rev. W. H. R. Trewhella (diocesan secretary), who read the lessons. A splendid tea, provided by the Vicar and Mrs. May, was thoroughly enjoyed, a vote of thanks being proposed by the Rev. W. H. R. Trewhella and seconded by Mr. A. S. Reberts (district secondary). Roberts (district secretary).

It is hoped to hold the next meeting of the branch at Truro on Saturday, November 1st, when it is hoped the Lord Bishop will give the address

A LOSS TO TRURO CATHEDRAL RINGERS.

By the death of Mr. W. S. Sitwell, which took place suddenly on Saturday, May 31st, Truro Cathedral ringers have sustained a severe loss. Although it is seven years since Mr. Sitwell had a serious illness, which compelled him to resign the Mastership of the Cathedral ringers and give up active ringing, he had always taken a keen interest in their work, and at the time of his death held the position of Vice-Master and treasurer.

Mr. Sitwell was the senior partner of the firm of Messrs. Sitwell and Harvey, solicitors, and held many appointments, being secretary to the Dilapidations Board, legal secretary to the Bishop of Truro,

and Diocesan Registrar.
On Sunday, June 1st, the Cathedral bells were rung half-muffled on Sunday, June 1st, the Cathedral bells were rung half-mutifed in his memory, and after the evening service a touch of 504 Grandsire Triples was rung by Miss L. Willoughby 1, Miss E. J. C. Augwin 2, A. S. Roberts 3, F. W. Marshall 4, W. H. Southeard (conductor) 5, W. E. Minoos 6, W. H. Sleeman 7, P. Webb 8.

The funeral took place at Kenwyn Church on Tuesday, June 3rd, when the Rev. W. H. R. Trewhella, Messrs. W. H. Southeard and A. S. Roberts represented the Cathedral ringers. A wreath was also cent from the head

sent from the band.

AN ESSEX VISIT.

The ringers of St. Mary's Church, Burnham-on-Crouch, accompanied by the Vicar (the Rev. D. L. Williams), visited St. Nicholas' Church, Tillingham, Essex, on Tuesday, May 6th, and spent a most enjoyable evening. The Burnham ringers, by getting the Tillingham ringers to ring with them, helped them with the first stages of change ringing. They also very much admired the great keenness shown by the Tillingham ringers, which is ever needed by those about to take

up change ringing.

The ringers, of whom there were nineteen, were afterwards entertained to refreshments by the Vicar (the Rev. C. G. Gardner). The Burnham ringers would like, through 'The Ringing World,' to tender their heartiest thanks to the Rev. C. G. Gardner for his kind hospitality and allowing them the use of the bells, and also to the Tillingham ringers who attended and gave them such a cordial welcome.

working of the Q sets in ordinary ringing phraseology, with one or two other matters.
