SLOW PROGRESS

OST readers of this journal will have noticed the announcement that the first hundred new postal subscribers have been enrolled. That is an indication that interest has been stimulated in the efforts of 'The Ringing World' Committee to keep the paper at its present price. Some readers are of opinion that we are fighting a losing battle and that we should follow the present trend and increase the price at once. If we thought it was a solution of our difficulties we should be wrong in delaying to do so—but is it? Let us look at the position squarely. Many readers think that the price is high enough already—and we have to remember that a large number are men in quite humble circumstances. Some of this number would, as a protest against increased price, cease to take the paper. Previous experience, when the price was raised to 4d., has proved this to be so. We have no reason to suppose that would not happen again if the price were increased to sixpence, and if it did we should be very little better off, financially, and worse off by the loss of these readers. That, at any rate, is the conclusion reached by the committee.

Alternatives have to be found to keep the paper solvent, and already the advertisers have been called upon to pay more for space. The results from this are gratifying, but still not sufficient to make up the weekly deficiency. An appeal for 1,000 more postal subscribers has been launched and the first hundred have been enrolled—we are hoping the remaining 900 will come in due course—but every week that goes by with that target not reached makes the deficiency greater. We need all the help from the rank and file to rope in these other 900 subscribers, and earnestly appeal to every reader to do his utmost to influence any waverers.

Many suggestions have reached us from well wishers as to how the difficulties of the present time can be overcome. One was that we should offer 5s. shares in the paper to anyone who cared to take them up. Another was to raise a loan free of interest. Scores of letters have been received from all quarters suggesting a levy of varying

amounts on peals published, and we should like to say a word or two on this matter. As was mentioned in a footnote to a letter published recently, the committee, whilst possessing full powers to act, do not feel empowered to take such a step. It is possible that objectors to a levy would not send reports of their performances and the peals analysis would therefore be an incomplete record of peals achieved.

Some readers object to the idea of such a levy, on the ground that it is not usual for news contributors to pay for publication, whilst others think that as peal ringing is a kind of self-advertisement, those ringing them should help to defray the cost of printing.

The committee is of opinion that an **imposed** levy is impracticable, but they point out there is nothing to prevent well-disposed peal ringers from voluntarily levying themselves if they care to do so. All peal reports, whether accompanied by a donation or not, will be published, and the same applies to quarter peals, so far as space permits. It is not, and never has been, a condition that payment should be made to ensure insertion in this paper. Times have changed, however, and we now very gratefully accept donations which are sent in to help tide us over the weekly deficiency. The committee deeply appreciates the help accorded by those far-seeing readers who have sent donations, and now appeal to all who value the paper to make a united effort to increase the number of subscribers. That 900 more **must** be obtained, and we believe it is within the capabilities of the Exercise to get them.

We shall continue to make every effort to provide interesting articles and news, and hope in the near future to commence a series of articles of an elementary nature which will be specially intended for beginners. A very prominent ringer, who is one of the most accomplished conductors in the Exercise, has promised to contribute these and is already at work on them. We headed this article 'Slow Progress,' and we hope readers will agree that with the necessary effort all round progress could be speeded up.

Any suggestions or constructive criticisms will be carefully considered by your servants, the committee. Are we in too much of a hurry? Well, the debt is piling up and it's your help we want to get that other 900.

GILLETT JOHNSTON

LIMITED

No matter in which corner of the country you happen to be, as likely as not you will come across Gillett and Johnston bells or tower clocks.

Gillett and Johnston craftsmanship is embodied in an all-embracing service—as much in the preservation and restoration of old rings of antiquarian interest as in the installation of new.

PRACTICAL ENCOURAGEMENT

With one in three of the quarter peals and one in five of the peals published in this issue, a donation was sent to meet the added cost of production. This is practical encouragement to 'The Ringing World' Committee,

As has been customary in past years, we are reserving a page in the issue of December 21st for Christmas greetings. The charge is 3s. for 30 words. BELFRY

Errata:—The peal at Waltham Abbey on November 17th was Mr T. J. Lock's 150th peal for the Middlesex Association and not his 150th

on the bells

The six bells of St. Michael's, Tunstall, near Woodbridge, Suffolk, have been retuned and rehung in complete new fittings and will be dedicated on Sunday, December 9th, at 2.30

Latest applicant for stuffed owls to keep bats out of his belfry is the Rev. Arnold Mallinson, Vicar of St. Frideswide's, Oxford, and the adjoining parish of St. Margaret, Bilsey. We were under the impression that bats were blind and gained their sense of direction by sound. Such an application coming from the 'seat of learning' probably will cause us to amend our knowledge.

raning probably will cause us to amend our knowledge

The Editor thanks Mr. T. Marshall, of Wrightington, near Wigan, for his letter. The organisation of the event was outside the jurisdiction of local ringers. There are hopes that by a process of education in the ways of the big fraternity of church bell-ringers a better understanding will be eventually established and when the building is completed opportunities for ringing will be available.

The peal of Double Norwich Court Bob Major at Wolborough, Devon, on November 22nd, was of special interest to the county and the Guild of Devonshire ringers as it was only the second time that a peal in the method had been rung by resident members of the Guild. The first time was on January 20th, 1937, at Buckfastleigh, and was conducted by Mr. C. R. Lilley. Mr. E. J. Taylor and Mr. T. G. Myers rang in both peals.

Our overseas mail this week contains a chatty letter from L.A.C. Weare, GOSSIP B.A., who formerly rang in the Wells, Somerset, district, and whose address is now No. 395 M.U., R.A.T.G., Bulawayo, S. Rhodesia. He tells us the timing signal on Radio Rhodesia is the record of Grandsire Caters by St. Margaret's, Westminster. 'You can guess how much this record means to me and I listen to it at every chance I get,' he adds. He enquires when the record was made. when the record was made.

A peal attempt for Cambridge Surprise Major at Longstanton, Cambs, on November 24th. was brought to an abrupt end with only two and a half courses to ring. A man rushed into the belfry shouting we should be responsible if anyone got killed. It was found one of the band had left his car with no lights on. The band was as follows:—C. W. Cook 1, C. A. Hurst 2, G. Crisp 3, T. R. Dennis 4, R. Brooker 5, J. G. Jipson 6, H. L. Martin 7, E. G. Hibbins (conductor) 8. It was a big disappointment for 2 and 7 as it was their first attempt for a peal of Surprise Major.

of Surprise Major.

Mr. Edward ('Ted') Harding, of Fulmer.
South Bucks, celebrated his 84th birthday on
Saturday, November 24th, in true ringer's style.
The bells were kept going from 3.30 p.m. until
8 p.m. excepting for the break for tea. This
and handbell ringing were thoroughly enjoyed
by 17 of his ringing friends, several of whom
are members of Chalfont St. Peter's band and
included Mr. G. Swift, their captain, and Mrs.
Swift. Mr. Harding did not achieve his ambition to score another quarter peal of Bob
Minor, but consolation was forthcoming by a
successful attempt at 720 Plain Bob, the ringers
being Mrs. Swift 1, E. Haiding 2, George
Swift 3, Kenneth Vickers 4, W. W. Wolstencroft 5 and William Gutteridge (conductor) 6.

RECORD PEAL OF 21,600 BRISTOL

Anniversary Gathering

On Saturday, November 3rd, the record peal of 21,600 Bristol was commemorated by a peal of 5,408 Bristol, at Over, taken from the original peal, by the band standing in the same

After the peal had been rung, touches were

After the peal had been rung, touches were rung by visitors and a short service held to dedicate a tablet recording the record peal. The service was conducted by the Vicar (the Rev. E. Victor Dawson), and the tablet was unveiled by its donor, Mr. Fred Dunkerley. The Master of the Chester Guild, Mr. J. W. Clarke, and its secretary, the Rev. J. Kingdon, were present at the ceremony, as well as many other ringers and friends, including Mr. S. Jones, jun., of Chester, who took part in the 17.280 Kent Treble Bob rung at this church and conducted by Mr. R. Sperring.

Later in the evening a commemoration dinner

Later in the evening a commemoration dinner was held in the Wheatsheaf Hotel, Winsford, was held in the Wheatsheaf Hotel, Winsford, at which the Vicar, wardens and local ringers, the Master and secretary of the Guild, the peal band and their wives and friends were the guests of Mr. Dunkerley. After an excellent meal had been partaken of and the loyal toast honoured, the gathering became more informal. The theme of the speeches was, of course, the achievement of the previous year, and in his speech the Vicar referred to the numerous letters he had received from all over the country expressing appreciation of his permission for the attempt and he felt that Winsford was now on the map.

on the map.

The churchwardens in their speeches also re-ferred to the widespread interest in Over which the peal had caused and one of them referred to the fact that Over Church serves two parts of the township of Winsford, between which there is keen rivalry, but he was glad to say that the half which contained the Parish Church now had something which the other half could not surpass since they had no ring

During the evening handbells were rung but the real high spot of this part of the proceedings was the attempt to ring a course of Grand-sire Triples by the long-peal band. The system used was that seen at the Central Council meeting at Chester in which each member has one bell. The bells are struck in order from right to left in every change, the changes being produced by the ringers changing places. After a few practices the band succeeded in almost reaching the first lead end but as a bob was called there a trip followed which proved impossible to sort out.

Just to show, however, that they could ring Grandsire Triples, four of the band rang a course double-handed. The gathering broke up at about 9.30 with expressions of thanks to Mr. Dunkerley and regrets that Mrs. Dunkerley had been prevented at the last moment by sudden indisposition from being present.

DEDICATION

NEWTON ST. CYRES (DEVON) BELLS

The beautiful Church of Newton St. Cyres was filled to capacity on November 10th when the rededication of the eight bells by the Bishop of Crediton took place

The Vicar (the Rev. D'Arcy Ward) conducted the service which was very impressive; Preb. E. V. Cox, president of the Guild of Devonshire Ringers, was present.

Mr. Frank Weeks, captain of ringers, asked the Bishop to bless the bells. Mr. Weeks has completed over 50 years' ringing at this tower. The Bishop gave a most delightful address which was much enjoyed by all present.

which was much enjoyed by all present.

Newton St. Cyrcs had a ring of five bells, which were cast by William Evans, of Chepstow, in 1733, until 1908 when a new treble was addded. During the past 30 years this grand ring of six has been rung most regularly twice a Sunday and every Tuesday evening. It was found necessary to have the bells rehung, the bearings having become worn; at the same time it was decided to complete the octave.

The new treble was given by Mrs. W. M. Pearce in memory of her daughter Helen; the new second was given by the ringers and the work entrusted to Messrs. Gillett and Johnston.

The great gathering of ringers from all over Devon was unanimous in the opinion that a

Details of the bells are as follows:-

After the service at 2.30 the bells were kept going until 9 o'clock

A splendid tea, served by the ringers' wives. was enjoyed by well over 100 visitors, and the event was followed by an entertainment in the Village Hall.

HOW GOLDHANGER SAVED THE BELLS

'The very small village of Goldhanger (population less than 400) was faced with the task of raising the sum of £900 to restore its ring of six bells,' writes Mr. E. C. S. Johnson.

A fund was launched on December 5th, 1950, and was given a good start by a local resident. R. Wakelin, who gave £100 on condition that five others would give £25 each. This was immediately forthcoming and with various concerts, whist drives, collections, etc., the sum of £635 had been raised by Saturday, December

£635 had been raised by Saturday, December 1st, 1951.

'Then came our great effort in the form of a "Bells Fair" held in the Village Hall, Goldhanger, on December 1st. Never before in the history of the village has there been such a wonderful show. All the stalls were laden with good things made and given by local residents and their friends.

The sale was given a great send-off by Miss Rachel Kempson, the well-known actress wife Mr. Michael Redgrave, the actor, who declared the fair open. This wonderful display, not only of articles for sale, but also the great spirit of co-operation and goodwill, realised the sum of £278, a wonderful achievement for so small a

'I think that a special mention should be made of the bell-ringers' effort. Last Christmastide they toured the district "carolling" with the handbells, raising no less than £50. Their mastide they toured the district "carolling" with the handbells, raising no less than £50. Their part in the "Bells Fair" was very noteworthy. Under the supervision of Mr. Charlie Mann (father of ringers) the ringers set to work. With the aid of some pit saws nearly 100 years old. resurrected and skilfully sharpened by Mr. Mann, the ringers sawed up the huge oak beams (350 years old) of the old frame. Then other ringers, assisted by Mr. W. H. Mann and Mr. C. H. Briggs (son and son-in-law respectively of Mr. Mann, but not ringers), turned the pieces into standard and table lamps, trays, stools, candlesticks, etc., and sold them as souvenirs of their old frame; this effort raised £54.

'We now have a very nice ring of six bells hung in a good metal frame, which will be dedicated on December 15th by the Archdeacon of Southend.

IMPRESSIONS OF LIVERPOOL CATHEDRAL BELLS

By Mr. Albert Walker

As one of the visiting bands invited by the Dean and Chapter to take part in the ringing of the new Cathedral bells following the Hallowing of the Bells service, the St. Martin's Guild band arrived in Liverpool at 11.50 a.m. and no time was lost in getting to the Cathedral where we were due to ring at 12.20 p.m. for twenty minutes.

We were more fortunate than the College Youths, apart from the walk from and to the station, that we had the use of the tower lift to the first landing stage with still a long climb to the vast ringing chamber above, where we were welcomed by that famous Liverpool ringer. Mr. George R. Newton, and his band and a host of ringing friends with orders to start the host of ringing friends, with orders to start the ringing.

Our effort was three courses of Stedman Cinques which, on completion, we were informed was the first touch on the bells. The band was as follows:—G. W. Critchley 1, A. Walker (conductor) 2, G. Shepherd 3, W. C. Dowding 4, T. H. Hampton 5, A. V. Pearson 6, S. O'C. Holloway 7, F. E. Haynes 8, H. H. Fearn 9, J. Pinfold 10, G. E. Fearn 11, W. F. Moreton and R. Edwards tenor. This was followed after lunch by two courses of Stedman Cinques with Wilfrid Moreton ringing the tenor single-handed.

The acoustics in the ringing room at present are none too good as it is not easy, when ringing, to hear the bells individually.

The hanging of this mighty ring is perfect and the bells themselves go splendidly: a worthy tribute to those responsible for the design and support of the reinforced concrete frame and to the bellfounders. The writer would have no hesitation in expressing the opinion that the bells are at once pealable with two men on the tenor.

The effect outside when the twelve bells are being rung is that the four back bells are more subdued than the front bells and no doubt this will be corrected in due time; also it may be the vast Cathedral itself may prevent hearing all the bells clearly in the vicinity of the building.

However, it was a memorable day. The honour of being privileged to take part in the ringing as a band, a hearty welcome and meeting of many old and new friends, the excellent lunch at the Adelphi Hotel, kindly provided by the Dean of Liverpool, all was very worth while. After our second touch we had to dash to the station for the return train to Birmingham, the sound of these grand bells following, and it was very noticeable that approximately threequarters of a mile away the bella came over the air much more clearly than in the immediate vicinity of the Cathedral.

Birmingham was reached at 9.30 p.m., just in

time for a very welcome refresher!

LETTERS TO THE EDITOR

'REBELLION'

Dear Sir,—After reading paragraph 4 of the leader in the issue of 'The Ringing World' dated November 23rd (several times), I was amazed to read 'Many, indeed most, of the quembers go to the Central Council meeting. knowing that it is most unlikely that they will have an opportunity to speak But the primary function of every member is not to speak, not to vote, not to serve on a committee, not to submit a report, but directly or indirectly. to represent the ringers in every belfry.' Having not had the opportunity to be such a member, I would indeed like to know why a member of a Council is to keep silent, being his primary function.

his primary function.

If all members took up this attitude, we should have a most peculiar Council, all sitting up looking at one another and doing nothing.

Is it a fact that a member of the Council. attending the annual, has to refrain from

If the contents of para 4 are as recorded, then it is high time that we had a Council of Church Bell Ringers who are permitted to voice the feelings of those they represent, with whom they do their Sunday duty and who are, after all, the people that really matter. What a state of affairs!

CROMWELL.

Note.—The right of comment is open to any member of the Central Council providing the customary rules of debate are observed. We feel certain that P. A. C., who himself made useful contributions to the debate at Chester. never intended the paragraph to indicate a passive, non-voting Council, but to emphasise that the Council is truly representative of all the ringers of the land.—ED.

THE CATTISTOCK CARILLON

Dear Sir,—The incumbent at Cattistock is Dear Sir,—the incumbent at Cattistock is reported in your journal as saying at a recent meeting of ringers that the task of reinstating the tower and bells has been completed. As there is yet no sign of the replacement of the carillon—the only one in an Anglican church—it is difficult to understand how the work can be regarded as finished; it was the expressed intention to recast the carillon. Has this project been abandoned?—Yours very truly,

HERTFORD BOR ROYAL

Dear Sir,-I have written to the Methods Committee in order to check the names of the methods here called Medium Bob Royal and Hertford Bob Royal but I have not yet received notice of their findings so I am submitting the report as it stands.

Medium Bob Royal is a plain seconds place method with the treble hunting to 6th place and back again. It has been rung by the Cambridge University Guild (and probably by others). Hertford Bob Royal, to the best of our knowledge, has never been rung before, so we have named it oursives. A lead is given below:

YORKSHIRE SURPRISE AT RATBY

Dear Sir.—The composition of the 5,088 Yorkshire Surprise Major which I called at Ratby on August 27th, 1951, is a transposition of a peal by Gabriel Lindoff.

Mr. Nolan Golden (over whose name the

above peal was published) has discovered this since giving me the figures and has asked me to make it known, so that those concerned may make the necessary alteration in their records.

—Yours, etc., NORMAN CHADDOCK.

A RINGERS' PRAYER'

Sir.—May I make a suggestion that the following prayer be adopted as the 'Ringers' Prayer'? It has just been written by 86-year-old Alfred Worth, A.T.C.L., for many years a ringer and still an accomplished organist.—Yours faithfully, F. STUART WORTH.

A CALL TO WORSHIP

Go when the morning shineth Go when the noon is bright, Go when the day declineth, Go in the hush of night; Go with pure mind and feeling, Cast earthly things away, And in the chamber kneeling, Do thou in searct pray. Remember all who love thee, And all that are loved by thee. And pray for those that hate thee. If any such there be; Then for thyself in meekness, A blessing humbly claim. And link with each petition. Thy Great Redeemer's name.

COUNCIL'S DECISIONS

Dear Sir,—With reference to the Decisions published on October 26th, may I make the following observations:

Conditions required for peals: The figure of 6,000 for peals to surpass previous peals should be 6,720, i.e., the length of 30 courses in Major, and as agreed by the Committee at Chester. In further condition (iii) the Committee agreed that the word conductor should be de-

Spliced Peals: A pedantic point here; for 'sixes' read 'divisions.'

I would also point out that the wording of the Decision on peals of Minor has been altered from that agreed upon but I have no quarrel

with the alteration.

With regard to Mr. Barnett's letter in your issue of November 9th according to my notes the Committee agreed to the following amendment: 'Singles in Treble Bob methods MAY only be used when the DESIRED result cannot be obtained by bobs.'

As all this took place towards the end of a lengthy session, I am not surprised the Committee have missed these small but important points.—Yours faithfully.

FORTY YEARS ON

FORTY YEARS ON

Dear Sir,—May I say how interesting I found 'Forty Years Ago' in your issue of November 16th? Mr. L. Duffield, who with his sons, took part in the peal at Tasburgh, Norwich, on Sunday, October 22nd, 1911, is still, happily, with us with an undiminished zeal for ringing our lovely church bells. His name and ringing reputation are well known to ringers throughout the diocese of Norwich. Sunday by Sunday, unless prevented by untoward circumparts. by Sunday, unless prevented by untoward cir-cumstances, he is to be found in the ringing chamber of his parish church, Stratton St. Mary's, and his advice and guidance in the

matter of the bells are freely given.

May I say, as a footnote, how much I enjoy 'The Ringing World,' to which I was introduced by Mr. Duffield, and I enclose a small donation to help with its continued existence.—

Yours sincerely,

(REV.) H. W. ST. LEGER-CHAMBERS. Rural Dean of Depwade.

THE EXETER PEAL

Dear Sir,—My knowledge of the work of the Central Council and its members is very small but I do support the excellent leading article in 'The Ringing World' of November 23rd. For briefness. I will take only one quotation: 'Firstly, by writing a letter in reasonable terms for publication in "The Ringing World," remembering always that it is useless to criticise a thing unless you have something better to put in its place.'

The Exeter peal of Grandsire Triples could not be published because the men engaged on the tenor did not comply with 'he Central Council rules, not that the pear was false in the ringing or composition.

bells has taken place.

In honour and fairness to every ringer who took part in the Exeter 'peal,' and all ringers in Devonshire and the West of England. I suggest that you publish this 'peal' on the back page of 'The Ringing World' with a footnote 'not to be included in the Peal Analysis report.' By this means you will win the esteem of the whole band, the ringers of the West Country and beyond; it may also help to achieve the extra 1.000 readers—who knows? Give encouragement, do not withhold it.—Yours faithfully,

ARTHUR PRINCE

DITCHED IN DORSET

Adventures of Bristol University Band

Friday, November 16th, witnessed the start of a week-end's ringing outing to Dorset for six Bristol University students—Heather J. Tesson (the organiser), Mary I. Kennelly, Frank D. Mack, Robert J. Stokes, Ivor H. Trueman and 'the scribe.' Our means of transport was a seven-foot-high ex-Metropolitan taxi of 1934 vintage, which caused much amuse-ment to all and sundry throughout the week-end, and, despite our faith in it, it was due to disorganise the programme more than once.

Leaving Bristol late Friday evening, the party stopped en route at Radstock for a short ring on the easy-going six, but not before becoming involved in the Midsomer Norton Carnival when we were mistaken by some as the head of the procession! Thence on to Wimborne, our headquarters, the party being billeted at Heather's homestead

An early start was arranged for Saturday morning when we joined forces with Brian Bladon and Tony Peake, from Swindon, and Winnie Cox and Stan Weekes, from Wimborne. But we had not reckoned on the taxi! start with, 'the scribe' neatly reversed it into a ditch, entailing the services of a break-down lorry, and then the starter motor jammed ! While these troubles were being rectified. Stan's car was sent on to the first tower, Lytchett Matravers, with a full complement on board and we joined them later on at Milton Abbas to ring the noisy octave. At Haselbury Bryan we rang the newly-retuned and rehung six which are to be rededicated next January. Many a favourable comment was passed on the new ringing gallery made of light oak (the bells were formerly rung from the ground floor).

After a hearty lunch at Sturminster Newton. the deep-toned Dobson six (tenor 16 cwt.) were soon echoing their sound across the countryside. A short trip, this time without speed wobbles, brought us to Okeford Fitzpaine, where the treble of the light six badly needs re-At Shillingstone we were welcomed by the Rector (6 feet 8 inches in height), who joined us in some rounds and Queens. Thence to tea at Blandford and afterwards a visit to the belfry of SS. Peter and Paul's. The 'go of the eight (tenor 19 cwt.) was excellent; a though the striking to Triples soon settled down, a regular 'beat' to Major was never attained (this in the opinion of 'the scribe' being the fault of the band, despite their vigorous

Once again the taxi comes into the picture. A puncture prevented a few unfortunates from visiting Sturminster Marshall while the others. not to be outdone by such a mishap, squeezed into Stan's car and left us to our fate. On the way to Corfe Mullen, where we once again joined forces, the taxi was stopped by a police patrol car on the pretext of a fused rear light but chiefly. I suspect, so that the young police officer could examine the 'wreck' at close quarters! Parting on amicable terms, Corfe Mullen was soon reached. The stiffness of the ropes caused some consternation at first—one member in particular was very nearly hanged

by the rope of the next beil!

We rang at All Saints', Hampreston, for Sunday morning service, a reasonable touch of Grandsire Doubles being rung by an all-ladies' band. The second bell, like the treble at Okeford Fitzpaine, is sadly out of tune. Arrangements had been made to ring at St. John's, Bourne-Arrangements mouth, for Sunday evening service, but due to ignition and lighting trouble, the taxi con-tingent regretfully had to return to Bristol with-

out that pleasure

Thanks must be extended to all those who met us at the various towers and especially to Heather and Stan for providing the accommodation. Methods rung were Grandsire, Bob Doubles, Stedman, Plain Bob, Kent. Oxford. Little Bob. Double Court and Cambridge.

LEEDS AND DISTRICT SOCIETY

The Society's November meeting was held at Ossett where the fine ring of ten was thoroughly enjoyed by the many visitors. The bells were rung up in peal at 3 p.m. and ringing con-tinued until the break for tea, which had been arranged by Mr. Fred Bennett. After tea further ringing was enjoyed in this spacious belfry where the old peal boards, recording peals rung in 1866 and the years following, were easily readable.

The president presided at the business meeting and members were present from Armley. Batley, Drighlington, East Ardsley, Headingley, St. Michael's, Leeds Parish Church, Ossett, Pudsey, Rothwell and Thorner and friends from Horbury.

The usual business details were completed and one new member, Mr. L. Schofield, of Drighlington, was elected.

Drighlington, was elected.

The vote of thanks to the Vicar, churchwardens and local company, especially Mr. F. Bennett, was proposed by Mr. H. Lofthouse, who referred to the difficulty of fixing the meeting and the splendid way in which Mr. Bennett had given permission and arranged tea at very short notice, This was seconded by Mr. Parkinson. Mr. Bennett acknowledged the vote of thanks and said ringing had been somewhat restricted owing to illness, but when he approached the owing to illness, but when he approached the Vicar for permission his concurrence was forthcoming immediately and any other effort he made was amply repaid if the visitors had enjoyed coming to Ossett.

The next meeting is due to be held on January 26th—the tower will be announced in 'The Ringing World.'

ASSOCIATION NOTES

Midland Counties

The many friends of St. Andrew's Society, Derby, will no doubt be glad to see the progress this band are now making. On Wednesday, November 29th, they rang their first peal of Superlative, this being the first Surprise peal by all except the conductor. . . We hear from a good source that Cambridge Surprise is to be next on the agenda. It is fortunate for St. Andrew's that they possess one or two good 'reserves,' as there are some people who, we hear, are not 'altogether reliable.'

[Let us hope this does not apply to the present band, who also are making very good

progress.]

REQUEST FOR LADIES' PAGE IN 'RINGING WORLD'

Southern District's Suggestion

To the historic and beautiful Church of St. Mary-the-Virgin, at Guildford, the Southern District of the Ladies' Guild, on November 24th, called the first ringers' meeting to be there since the bells, after keeping silent vigil in this ancient defence tower for more than fifty long years, were recently restored for

It was a gathering—in spite of torrential rain-to gladden the heart of any secretary. Fortyfour members and friends crowded in to the church and belfry, and after ringing, ably arranged by Miss C. C. Roberts, all attended the simple but moving service conducted by Canon R. G. Clitherow who in the course of his address reminded us that it has been the women of this country who, for the last fifty years, have kept alive our Christian heritage; and as we listened to his impressive appeal to the women who 'manned 'their ropes to use the occasion of their ringing to pray for the souls of their menfolk, we felt a renewal of that urge to service which has drawn so many of the women and girls of our land to an act of worship for many years barred to them. That, even now, the victory has not been fully is evidenced by the recent decision of a worthy Dean in connection with the opening of a new and famous ring of twelve, but happily we women realise that such evils as this in-tolerance can best be fought by the very weapon Canon Clitherow adjured us to use.

With spirits heartened by the Canon's address and appetites sharpened by our exertions in the belfry, all forty-four of us (including among other eminent visitors the Editor of 'The Ringing World' and Mr. A. H. Pulling) sat down to a sumptuous tea at the Y.W.C.A. Club. When the secretary was arranging the tea, some days beforehand, the manageress of the club demurred at providing two sandwiches and cakes as well as sausage rolls! 'When they've had a sausage roll, a sandwich and a cake,' she said, 'most people have had enough!' You don't know our members,' she was told, and when she saw the food rapidly melting under the onslaughts of a hungry crowd of ringers she had to confess herself disillusioned.

After tea, St. Mary's tower was again open and Shalford bells also were very kindly made available. The men were dismissed to the towers while the ladies held a short business meeting at which, among other things, several new members were elected and arrangements were discussed for the next meeting. The threat made by the secretary at the tea table to discuss the suggestion that a ladies' page dealing with current hat fashions should be included in 'The Ringing World' was only partly carried out; the meeting was, however, definitely of the opinion that women should be catered for in some way if only by the inclusion of half in some way, if only by the inclusion of half a column for 'Ladies Only.'

After the meeting some of the ladies went on to Shalford, where they had a very enjoyable evening, while the remainder rejoined the men at St. Mary's where various methods were rung, as well as rounds for the beginners, until just after 8 o'clock. The numbers then began to thin out, the ringing gradually dwindled, and at about 8.30 we dispersed into the pouring rain feeling happily conscious that the meeting had been yet another Ladies' Guild success.

UNORTHODOX PERFORMANCES

Dear Sir,—I am pleased that the article 'Unorthodox Performances' has aroused interest in this important subject. May I trespass on your space to make the following comments.

I gather that the second paragraph of the article has caused some doubt as to what is meant by the same coursing order throughout. It was intended to mean the same coursing order at each lead head and lead end of the plain course and not, as some construed it, the same coursing order in the interior of the lead.

The excellent letter of Mr. Edgar C. Shepherd in your issue of November 9th raises the question of whether methods with irregular lead heads are prohibited since the Decisions published in your issue of October 26th make no mention of them.

The revised Decisions published on October The revised Decisions published on October 26th are only a portion of the Decisions included in the booklet 'Rules and Decisions of the Council,' published in 1927 and now in the process of revision. On pages 21 and 22 is the Council's statement on the subject of Regular Methods and includes inter alia the following:—'The working bells shall be in the same coursing order at each lead head and lead end in the plain course.' This is, of course, a Decision of the Council no less than the others and should receive equal respect.

It will be remembered that it is only in the

It will be remembered that it is only in the last year or two that peals with more than one cover bell and peals of Minor with a cover bell have been excluded from the peal columns of 'The Ringing World' because they do not conform to the Decisions of the Council. It follows, therefore, that any peal which fails to conform with any Decision of the Council must also be excluded.

also be excluded.

I have no fear that irregular methods will be rung a great deal neither were pecals with a multiplicity of cover bells or Minor with a cover bell frequently rung but we cannot admit the former and exclude the latter if we are to be logical and fair.

Added lengths. I feel this is in accord with the tradition of the Exercise. The length of a peal was fixed by the early ringers at that of the EXTENT on seven bells and I feel we should adhere to the principle of extents for peals on seven bells and under. I wonder whether Mr. Shepherd would agree to the addition of a B block at the end of a peal of Grandsire Triples for a special occasion? The principle seems to me to be the same as for Minor and Doubles. But this was not the reason which motivated Mr. J. Bray to propose the motion. His aim was to protect the Spliced Minor Records since by the addition of a plain Minor Records since by the addition of a plain course of Treble Bob Minor, four additional methods could be included for the extra 120 changes. The discerning would not be de-

methods could be included for the extra 120 changes. The discerning would not be deceived but many others would. I supported the motion for the reason I have given.

Mr. Butler asks why the Methods Committee has not written about the peals in which Reverse Canterbury Pleasure appeared. This is the province of the Analysis Committee but I included the warning as I believe the Analysis Committee will exclude them. (May I make it clear at this juncture that any views I have expressed are not necessarily those of the Methods Committee, but my own)

If Reverse Canterbury Pleasure or Woodbine is to be the seventh method in a peal I feel certain that a band could just as easily ring a regular method by using the knowledge they have of the other six and combining them as the following example will show:—After passing treble on the way up. ring Kent Treble Bob and after passing treble on the way in; ing Cambridge. The resultant method is Oswald Delight and the principle applies on all even numbers. even numbers.

I cannot understand his dislike of little methods with the treble as hunt bell, for if used in conjunction with Alliance Methods they

add variety to Minor ringing within the Council's Decisions. I share his abhorrence of little methods with the tenor or other bell as the hunt bell, but as the Council recommends the hunt bell, but as the Council recommends that 'for practical purposes the parting of the leads should always be understood to be when the hunt is before' (Rules and Decisions, page 27), this would mean that rounds would be in the interior of a lead if a bell other than the treble was the hunt. In view of this, I feel we are not likely to be troubled by these monstrosities and this also applies to Very Little Court (by E. Bankes James) in which the treble makes 3rds and 4ths alternately, and which is very interesting theoretically for the multiplicity of splices which it allows. By its use, 110 methods could be spliced into seven extents but wild horses will not drag the figures out of me.

As regards the bob in Kent, I would point out that it is not part of the method and need not be made when the treble leads, ('Ringing World,' October 26th. Decisions Calls, para. 1.) The late A. G. Driver and I discussed this years ago and while we agreed that it was best as it was, we had many alternatives, notably making the bobs when the treble was lying its whole pull. Apart from Kent however, the Reverse Canterbury Pleasure bob, which Mr. Butler champions, offends in this manner, also the Grandsire Doubles single.

Grandsire Doubles single.

My sympathies are with those whose 'unorthodox performances,' whether it be a multiplicity of cover bells or irregular methods, are not published in the peal columns of 'The Ringing World.' and I would ask all members of the Council to consider whether it would not be better to publish them in the same type as the orthodox performances under a separate as the orthodox performances under a separate as the orthodox performances under a separate heading just as handbell peals are separated. The Council could instruct its Analysis Committee to exclude them from the Analysis and each Guild could decide how to record them among its performances. The matter is not insoluble with goodwill and a desire for the good of the Exercise at large, on both sides.—Yours faithfully,

C. KENNETH LEWIS.

MR. W. H. FUSSELL'S PEALS

WITH the completion of the series of articles by Mr. Ernest Morris culled from the diary of the late Mr. William H. Fussell's early ringing days it might be of interest to readers to publish his peal list which disappeared at the time of his death. Thanks to the perseverance of Mr. Leonard Stilwell, of Horsham. all Mr. Fussell's 1,151 peals have been traced

Mr. Fussell's first peal was rung at Bicester. Oxfordshire, in 1882, and readers will recollect how he walked the 38 miles from Slough to Oxford one day and the other 15 miles or so to Bicester next morning for the attempt. When one remembers the enormous distances ringers travelled on foot in the 19th century for a practice or an attempt for a peal in a humble method, it amazes one to know that such a huge total could be amassed. It also should serve as an example to us to-day, who have change-ringing almost planted on our doorstep, or have no travelling problems to overcome.

It will be seen that Mr. Fussell was not an ardent conductor, even if a prolific peal ringer, as he conducted only 21 peals—one of Plain Bob Triples and 20 of Grandsire Triples. He was a first-class treble man and whatever else was happening during a peal the band could rest assured that the treble would be in its place and clearly struck. His list shows that he rang the treble to no less than 23 Surprise Major peals.

Although almost all his first 100 peals were of Grandsire Triples, ultimately his second greatest total was of Cambridge Major, 144 against Grandsire Triples 118, while Double Norwich headed the list with 152. He rang only seven handbell peals—four of Grandsire Triples and three of Plain Bob Major.

Triples and three of Plain Bob Major.

Mr. Fussell was probably the most travelled ringer of all time as his list of towers shows. He rang peals in 548 towers in all parts of the British Isles as well as in Australia and Tasmania. He was always proud to have been privileged to ring a peal on all three State rings of bells, viz., Curfew Tower, Windsor Castle; Imperial Institute, South Kensington: Devonport Dockyard Church. He participated in five 'William' peals—Grandsire Triples (St Laurence's, Reading, 1885). Stedman Triples (Sunbury, 1913), London Surprise Major (St. Giles-in-the-Fields, London, 1924), Stedman Caters (Isleworth, 1935) and Cambridge Surprise Major (St. Mary's, Ealing, 1936). In 1936 Mr. Fussell rang a peal at Melbourne. Derbyshire, with a band all of whom rang a peal exactly two years previously at Melbourne. peal exactly two years previously at Melbourne, Australia.

Mr. Fussell's last peal in 1944 was published in the last instalment of Mr. Morris's series, but it might be of interest to single out three

more of his peals for publication with his peal list—his 'First,' his 'Thousandth' and a peal he rang with a band who were all 'thousand-

D. Farncombe 8.

On Thursday, September 13th, 1934, on the evening before he sailed to Australia he invited seven of his dearest friends to participate in his thousandth peal in his own home tower of St. Mary's, Slough. Mr. George Martin, of Maidenhead, conducted Pitstow's peal of Superlative in 3 hours and ten minutes, the band

The peal in which all the band had rung 1.000 peals was rung at St. Olave's: Hart Street, in the City—Cambridge Major in 3 hours 16 minutes conducted by Geo. GLOUCESTER & BRISTOL ASSOCIATION Bristol Rural Branch

The last meeting of this year was beld at the six-bell Church of St. Barnabas, Warmley, on November 24th where from 3 p.m. to 4.30 p.m.

the bells were rung in various methods.

Preb. Francis, the new Vicar of Warmley, conducted the Association service and gave an interesting address.

The business meeting, which followed tea, commenced with Mr. C. R. Harding in the chair. He mentioned how impressed he was at an attendance of about 50 on such a wet, in-

clement day.

Details of the branch social—on January 19th, at Henbury—were announced to members, and Preb. and Mrs. Francis welcomed into the Association as honorary members. Appreciation was expressed to the Vicar, the organit Mr. Turner and the ladies for all the work p. t.

360 ERIN TRIPLES By JAMES TOPP

By JAMES TOPP

Dear Sir,—Mr. Edgar C. Shepherd in his letter on page 714 refers to Erin Doubles and says that a peal in this method would be a very fine feat. Perhaps Mr. Shepherd is unaware of the fact that it is possible to obtain a 5,040 in this method which has only ordinary (Stedman) Singles. On page 272 of 'The Ringing World' he will find such a composition. I am enclosing another five-part composition of Erin Doubles which he will, no doubt, find interesting.

Although I would very much like to see a peal of these Doubles rung, I should hardly think it would be classed as an unorthodox performance if one or other (or both) of the com-

formance if one or other (or both) of the compositions produced by myself were used.

One of the Central Council's decisions at Chester this year was that a 5,040 of Doubles should contain complete 120's or multiples of the same.—Yours sincerely, JAMES TOPP.
