## PROGRESS:

THROUGHOUT the first half of its span this twentieth century has been an age of progress. Travel by land, sea and air has improved and science seems bent on providing even more speedy means of going from one place to another. Records have not however been confined to machines, for athletes of all countries have improved the achievements of their predecessors.

Neither have advances been confined to the field of speed. Medical science has produced much for the general benefit of mankind, whilst research and experiment have in many directions lightened human labour and improved living amenities. All in all one can say that man to-day has much for which to be thankful.

In ringing also time has not stood still, and much earnest work by some who have interested themselves in our complicated art and science is evident in the increased range of methods and compositions now available to ringers themselves.
Despite all the improvements and developments which many have followed from their commencement and as many accept without thought as part of our daily life, one thing at least remains without change-the method of ringing a bell.

Frames and their constructions have been developed, cannons have disappeared to be replaced by headstocks and bearings have been improved, but the actual method of ringing is as it has been for centuries. The sally still ' bobs' as of old, and even the most competent of ringers break stays.

Time was when every belfry in town and countryside had its full complement of ringers and some to spare, but now it is sad to have to say in this 'Ringing Isle' many bells are silent and the Church's call to worship is unhearu.

Many reasons are put forward for this decline in the number of recruits. Blame is placed on alternative attractions in the form of the cinema, radio, television and the better organisation of activities for young people. Again one hears of the general drift from the Church, and this is a matter which has for some time been exercising the minds of our ecclesiastical dignitaries.

Two aspects of the problem of obtaining recruits undoubtedly are here to stay and it would be interesting to learn how these have been faced throughout the country.

The first of these problems is National Service. At the age of eighteen a promising ringer is becoming a useful member of a band. In many cases the enforced interrup-
tion of instruction and the companionship of his fellow ringers, coupled with the training schedule and what has long been known as the 'exigencies of the Service,' are often more than enough to result in his losing contact with ringing.

Wherever the young National Serviceman is posted a church is never far away, and all units have their padre. One wonders how many tower masters take the trouble to write either to the local incumbent or to the padre telling them about the boy and his interest in ringing and asking for their help in putting him into touch with nearby ringers. Much could be achieved and all for the cost of a stamp and a few minutes writing a letter. How does one find the nearest church? All churches and incumbents are contained in Crockford's Clerical Directory, to be found at all public libraries, and if this source is not available the padre is sure to know.

The second problem to the dearth of recruits is one for which it is more difficult to find a solution. To-day a boy's education extends beyond normal school years, and in many cases young men are studying for years the better to fit themselves for their particular job. Homework when a boy is at school and evening classes when day school life is ended seriously affect a boy's leisure and are matters to which no thoughtful person must place any obstacle. It is usual to find several members of a band attending different courses on varying evenings, thus making extremely difficult the fixing of a practice night suitable to all. Scientific improvements are compelling young men to seek more and more knowledge of their particular profession or craft, and the position is one for which one cannot see any easement.

Thus then appears the picture of present-day ringing so far as concerns new learners and what must be our ultimate aim-the ringing of every church bell in our land morning and evening every Sunday. There are, of course, towers with excellent bands, but these must be exceptions to the general position, for we have recently read of ringers in London who ring at several churches each Sunday.

These few thoughts were engendered by the series of articles setting out the first part of the manual of the proposed College of Campanology. What place in our Exercise does the proposed college hope to fill? Has it any answer to the problems outlined and, if so, what is its solution?

It was intended to deal with these questions in a general review, but the pen has wandered far afield and the rest must await next week.

## GUILDFORD DIOCESAN GUILD

The nomination meeting was held at Stoke-next-Guildford on November 24th. Ringing commenced at 3 p.m. and mainly Grandsire and Plain Bob were rung until the service. Mr. Roland W. Morant officiated and gave an unusual address.
The tea and meeting followed, and out of the 31 ringers present only a few were from the District, four towers being represented. The meeting, with the Guild secretary (Mr. G. L. Grover) in the chair, was short, the retiring officers being renominated.
Ringing in the evening was at Stoke and Holy Trinity, and apart from a course of London and Bristol the methods were mainly Grandsire, Plain Bob and Stedman to suit the large number of young ringers. Ringing ended with a good lower on the back six at Holy Trinity.

## HERTS COUNTY ASSOCIATION

The North Herts District met at St. Nicholas', Stevenage, on November 24th, and the eight bells rang from 3.30 p.m. until the service, taken by the Rector, the Rev. E. Cordingley. Mr. M. Eldridge accompanied on the organ. An ample tea was provided in Dr. Gullick's home, and the business meeting was held there after some handbell ringing.
Two non-resident life members-Mr. and Mrs. E. Munday, of Flitton, Beds-and a ringing member, Rev. G. Heath, of St. Andrew's Stevenage, were elected. The next District meeting will be in February at either Royston or Baldock, the special method being Hitchin Surprise.

Ringing began again, and the methods ranged from rounds to Hereward Bob, the special method, and Superlative Surprise. J. S.

## SUSSEX COUNTY ASSOCIATION

A quarterly meeting of the Sussex County Association (Eastern Division) was held at Hailsham on November 24th. At the business meeting Mrs. B. Pefcy (wife of the general secretary, who was unable to be present) was elected to the chair. The most lively discussion of the afternoon centred on the published agenda of the forthcoming special general meeting re finance.
The meeting also elected several new members and approved the list of meetings for 1957 prepared by the divisional secretary. Following the usual practice, this list included one unaffiliated tower.
The chairman proposed a vote of thanks to the Vicar for the use of the bells, Mr. E. Breed, the local captain, for making the excellent tea arrangements, and Mr. F. Beeney (a ringing member of the Association) for accompanying at the organ the somewhat lusty singing.
Ringing during the day catered for all present, including a good percentage of young ringers. It varied from rounds to Double Norwich C.B. Major, with a short break during the evening for the traditional daily curfew bell.
H. R.

## GLOUCESTER AND BRISTOL ASSOCIATION

The annual dinner of the Gloucester Branch was held on November 24th at the Saracen's Head Hotel. Gloucester. Sixty-one members and friends attended this function and had a pleasant evening's entertainment. Thanks are due to Mr. Harry Newman, who made all the arrangements, and also to the various speakers, most of whom spoke at very short notice.

## ESSEX ASSOCIATION

## Meeting at Earls Colne

In typical November weather, 43 members of the Northern Division met at St. Andrew's Church, Earls Colne, on the 17 th . This church stands close to the main road from Colchester to Halstead, and has a large west tower which contains a good ring of eight with a 15 cwt . tenor in F .
The Vicar (Rev. B. A. Whitford), who conducted the service, welcomed the members to Earls Colne, and his address was based on Devotion, Discipline and Dedication.
Tea was prepared in the school dining hall, and Miss H. G. Snowden, the District Master, presided over the meeting. One new member from Stisted was elected, and the next meeting, which will be the annual District, will be held at Coggeshall on January 26th. Members were reminded that nominations for the District officers must be sent to the secretary one month before the meeting.
The collection at the service for the Bell $\mathrm{Re}-$ storation Fund amounted to $£ 113 \mathrm{~s}$. 4d.

Mr. L. Mills was congratulated on his teaching at Bures where he started from scratch in 1950, and now they can ring London Surprise Major.
Votes of thanks were passed to the Vicar, Mr. W. Arnold and Mr. B. Smith (organist). The various methods rung during the afternoon and evening on the tower- and handbells were by members from Bures, Braintree, Halstead, Pebmarsh, Kelvedon, Witham, Black Notley, Earls Colne, Stebbing, Harwich, Bocking, Colne Engaine, Stisted, Coggeshall, Goldhanger, Colchester and Newmarket.

Editom: T. W. White.

A peal of some interest is the 5,000 Little Bob Maximus by Mr. G. W. Debenham, rung at St. Albans. According to the sources at our disposal this is the first ever 5,000 of Maximus rung. Ten peals of Little Bob Maximus have been rung-all 5,016 except one $(5,104)$. There have been one peal of Spliced Plain Bob and Little Bob $(5,040)$, three of Duffield Maximus (all 5,040 ) and four of Forward Maximus (three 5,040 and one 5,088 ).

On November 25th the local band at St. Ann's, Stamford Hill, London, rang their 30th quarter peal on the bells this year-a good example of Sunday ringing.
Members of the Reading University Society rang a quarter peal of Grandsire Triples at Wargrave on November 24th as a compliment to their Master on her engagement.

With the peal of Stedman Doubles at Dunkerton on November 1st, Mr. Richard J. Bowden, of Bristol, has rung peals in the method from Doubles to Cinques.
Now 75, Mr. J. Wells, who since the age of 12 has been closely connected with Kimpton, Herts, church as a choirboy and ringer, has rung his first quarter peal. He has several 720's to his credit, but hitherto has been unsuccessful when attempting a quarter peal.

Ringers in North-East Essex learnt with regret of the forthcoming departure from Colchester of Mr. J. H. (Jim) Edwards, who is going to live at Bedford. He learnt to ring on the five at Little Horkesley (destroyed in the Blitz), and shortly after the last war joined the St. Peter's, Colchester, company, where he made rapid progress in Surprise Major ringing. His many friends wish him well in his new appointment, and hope that he will continue his ringing activities in the Bedford district-he will be a big asset to any tower he joins.

## BELFRY GOSSIP

It has just come to light that the Rev. J. G. M. Scott participated in the call-change festival at Ashburton on Michaelmas, and rang the seventh in 'Doctor Miner's Mixture.' Afterwards he was presented with a certificate which 'the Mixture ${ }^{\text {? }}$ achieved. Gratified with the honour bestowed on him Mr. Scott remarked that the certificate will probably be the only one to hang on the wall of a private house as distinct from finding a place on the wall of a ringing chamber
For general guidance.-Peals and quarter peals cannot be rung half-muffled in memoriam to an individual and at the same time as a birthday compliment to a ringer.

A Claines (Worcester) householder recently succeeded in his application for a reduction in rates. His chief complaint was the bells on Sundays and peals which lasted six hours!
We regret to hear of the passing of Mr. C. E. Gregory, for many years captain of Blewbury, Berks, lower. To his memory a quarter peal was rung on November 19th.

At Bures, Suffolk, a quarter peal of Yorkshire Surprise Major was rung on November 20 th for a special service to commemorate the 1,100 th anniversary of the coronation in Bures of Edmind, $K$. and $M$.

Twelve peals have now been rung at Frome, as far as is known. Five of the seven peals of Triples while the bells were on plain bearings needed two men for the tenor ( 31 cwt .). Since then she has been turned in four times-by A. P. Cannon in 1938, E. J. Chivers in 1953, David Hoare in 1955 and now by Roger O. Fry. general secretary of the Bath and Wells Association. The peals are these: Stedman Triples, 1890, 1907, 1926 ; Grandsire Triples, 1902, 1913. 1919. 1930, 1954; Bob Major. 1955; Cambridge Major, 1953; Double Norwich, 1938 and 1956.

## NEWARK HONOURS DELIGHTFUL MYTH

## The Gopher Dinner

THE fourth annual Gopher Dinner of the Newark Parish Church Ringers' Society was held at the Clinton Arms Hotel, Newark, on November 16th.

The Dinner this year marked the 60th anniversary of the formation of the present local Society. The Society was, however, an original subscriber to The Clavis, and as long ago as 1816 a peal of Grandsire Triples was rung in the tower by the local company, and there is strong evidence to support the view that the Society dated back to the 18 th century, and that after a somewhat chequered existence towards the end of the last century was given a new constitution in 1896. That year was a landmark in the history of the Society, which throughout this long period rendered much voluntary service to the church and borough.

The toast of 'The Society' was proposed by Mr. J. H. Jennison, an old member, who recalled the happy days he had spent in the belfry and the comradeship he had enjoyed, and he wished the Society continued sucrese.

Mr. W. L. Exton, the deputy Master, in reply, recounted the past year's activities, and stated that five quarter peals had been sung for service since the last Dinner. He spoke of the 'Down Your Way, programme a few years ago when the Gopher legend was featured and the present Master, Mr. J. W. Raithby, mentioned that Gopher was lost in a fog on the Great North Road in the approaches to Newark and was guided to safety by the sound of the bells.

That version of the story, said Mr. Exton, did not find favour amongst a section of the public, and letters poured in averring that Gopher was lost at Langford, Muskham, Kelham and Farndon Fields. Further, that he lost his way in the forest, or in a fog, and was saved from robbers, from falling into the River Trent and from the marshes. There was even controversy about the epelling of his name, and no one knew what year or century he was lost. Of course, the story was a myth, but a very delightful one, and the Society still rang in his memory for a period of six weeks, commencing the twelfth Sunday before Christmas.

THE THREE P's OF RINGING
Mr. Exton commended the three P's of ring-ing-patience, practice and perseverance-and stated that ringers were judged by what they put into ringing and not what they took out.

The toast of 'The President ' was given by Mr. D. N. Sellars, who mentioned that last year the president, the Rev. J. H. D. Grinter, had stated that at his induction scrvice he had purposely chimed himself in 21 times so that people would know he had come to stay. Mr. Sellars remarked he now had only another 20 years left !
The president. in reply, spoke in very appreciative terms of the services performed by the Society.

Past Members' was proposed by Mr. J. W. Raithby, the Master, who stated that a Society was what its members made it. In the course of time traditions and customs wero developed, and if the development had been on the right lines esprit de corps automatically followed.

Members came and went. Some stayed over a long period-others flitted across the soene. Succeeding members stood on the shoulders of former members and the wealth of experience

A happy picture at the Kent County Association dinner of the Archbishop of Canterbury presenting Mrs. F. M. Mitchell with a framed picture of SS. Peter and Paul's Church, Milton-next-Gravesend, their church for many years. Behind stands her son, Mr. F. A Mitchell. To the regret of the company, Mr. F. M. Mitchell, who is now 78, was not well enough to attend the dinner. His services to the Kent County Association have been conspicuous. When Mr. Mitchell had completed 25 vears in senior office- 17 years as secretary and treasurer and eight as treasurer-his great service was recognised by a presentation of a cheque for $\mathbf{5 5 0}$.
Last Easter, because of age and indifferent health, Mr. Mitchell finally relinquished active office (he is now a vice-president). The Association dinner was regarded as an appropriate moment for the presentation to Mr. and Mrs. Mitchell.

The picture was specially taken by a 'Kent Messenger' photographer, and we are indebted to this newspaper for the above illustration.
culable. A member-and still an active onefor 60 years, and Master for 40 . A man of strong character; a keen disciplinarian; an accomplished ringer and conductor. He pursued his path resolutely and turned neither to the right nor the left. His motto could have been 'Service' if he ever thought of a motto. By sheer personality and doggedness he kept the band together and the bells ringing for services week in and week out, year in and year out, week (Continued foot of next column.)

## FOUR PEALS IN A DAY

$\mathrm{A}^{\mathrm{L}}$LTHOUGH four peals in a day have been rung at least five times before, it is still sufficiently uncommon to be worth attempting again. It was for this reason that Mr. G. K. Dodd, of Highclere, Hants, decided to get together a band from his own county, with additions from Berkshire and Surrey, to make an attempt on November 17th. All four peals were successful, and this was the first time that this has been achieved in Hampshire. Four of the company rang in all four peals, and three of them rang in three peals.

Three of the party arrived on Friday evening, November 16th, to stay the weekend with Geoff. Dodd and his wife Sylvia, and two others appeared early on Saturday morning.

A 6 a.in. rise was necessary to enable an early start for Cambridge Minor at East Woodhay at $7.13 \mathrm{a} . \mathrm{m}$., and the first peal of Minor on these quiet bells came round at 9.52 a.m. While ringing the last 720 , a lady appeared through the curtains, asking who was in charge. Fears of a stoppage were soon dispelled when the lady turned out to be the Vicar's wife, inviting us to coffec after the peal! The Rev. E. W. Ormerod welcomed us at the Vicarage, and the refreshment was much appreciated. At the next tower, Woolton Hill, Malcolm Cloke was waiting for us, having spent some time adjusting the ropes. Six methods were duly rung on a noisy ring, beginning at 10.43 a.m. and finishing at 1.22 p.m. The Rev. and Mrs. S. Culverweli kindly provided a sandwich lunch, which was quite sufficient to keep us going.
Mr. Reg. W. Rex was waiting for us at Highclere to enable us to ring a good and fast peal of Cambridge Major, starting at 2.43 p.m. and finishing at $5.23 \mathrm{p} . \mathrm{m}$
A very nice tea, provided by Mrs. Dodd, senior, was much appreciated and put us in good trim for the last attempt. This was at Burghclere, and the Vicar, the Rev. C. Legard. welcomed us in the church. He had asked that the bells be fully-muffled to avoid any complaints. Five methods were well ring, starting at 6.37 p.m. and finishing at 9.16 p.m., the first Minor on the bells.

At the finish of the peal the band were rather sorry that a fifth attempt could not be fitted in, as all felt very fit! The band are very grateful to the various incumbents for granting permission for the use of their bells, and to those who kindly provided refreshment.

To prove they had plenty of energy left, Geoff. Dodd and the writer rang another peal on Sunday at St. Mary Bourne, and believe themselves to be the first ringers to score five peals in two days in five different towers.
Altogether a very successful and enjoyable weekend. and the party thank Geoff. Dodd for his excellent arrangements, and his wife, Sylvia, for her kind hospitality.
A. P. C.
decade after decade. He literally kept the Society in being despite two world wars. That was a stupendous achievement.
In reply, Mr. Thrale related several anecdotes connected with the past 60 years, and wished the Society continued prosperity.
'The Visitors,' who included many friends from the Nottingham District and from Southwell and North Muskham. was praposed in delightful yein by Mr. F. $\dot{W}$. Midwinter and relightful yein by Mr. F. W. Midwinter and re-
plied to by Mr. C. W. Towers. J. W. R.

## KENT COUNTY ASSOCIATION

## Lewisham District

Lewiskam District held their annual District meeting at SS. Peter and Paul, Bromley, when just over 50 ringers, representing 14 towers, attended. The service in church was preceded by ringing, superintended by Miss M. Andrews. District Ringing Master.

The bright and enjoyable service was conducted by the Vicar, the Rev. W. Murray-Walton, who warmly welcomed his congregation to his church, in process of being so magnificently rebuilt. Mr. E. Barnett, of Crayford, read the lesson. The well-chosen hymns were sung lustily. thanks largely to the inspiration of the organist's accompaniments.
The local ringers and friends arranged an attractive, substantial tea in the Church Institute, at which the Vicar presided. Before leaving to attend to other duties, the Vicar reiterated his welcome; and hoped the members would again visit Bromley at not too distant a date.

Mr. A. S. Richards (West Wickham) presided at the business mecting at which nine ringers were elected members of the Association, and the election of one member was ratified. The chairman read a letter from Mr. I. Emery, of the local band and connected with the belfry there for 69 years, apologising for his absence.
A report of the past year's activities, read by the District secretary, was adopted. Arising from this report, Mr. J. Dafters (Lewisham) informed the meeting of the disturbing state of the tower at St. Margaret's, Lee, and of efforts being made to ensure the continuance of a ring of bells there. Mr. Dafters was warmly thanked for his work in connection with this matter.
Officers for the ensuing year were all reelected, viz.: Mr. A. G. Hill, hon. District secretary; Messrs. A. S. Richards and J. Dafters, District representatives, and Miss M. Andrews. of Bexley, District Ringing Master.
St. Nicholas', Chislehurst. was chosen for the next mecting on January 26th.
A cordial vote of thanks to the Vicar. the local ringers and their friends, the organist and the chairman, ended the business meeting.

## Ashford District

A good attendance encourged the new officers of the Ashford District at Bethersden on November 17th. Approximately 37 ringers and friends sat down to a good tea which had been arranged by Mr. Harry Jarvis and was served by the local lady ringers.

Canon McMichael, who welcomed the ringers in the absence through illness of the Vicar, conducted the service. Mr. Garner was at the organ and the lesson was read by the new Ringing Master, Mr. John Cooper.
After a short business mecting members adjourned to the pleasant ringing chamber, where ringing from rounds to London Surprise Minor was continued until $90^{\circ}$ clock.
C. T. H.

The new bells of North Stoneham will be dedicated by the Bishop of Southampton on Saturday, December 8th, at 3 p.m.
An attempt for a peal of Grandsire Cinques at Newcastle Cathedral was lost after 3 hours and 10 minutes. Some of the band, however, had a compensation with a peal of London Surprise Major.

## Plain' is Deleted

11 has been decided to discontinue the addition of the word 'Plain' 10 the title of peals and quarter peals of Plain Bob on all numbers of bells, thus reverting to the traditional usage.

This is in accordance with a resolution reaffirmed by the Central Council in 1955. part of which states that the Council is of the opinion that no alteration should be made in the names of old and historical methods, except where urgently necessary:
Will all concerned please nore.

## PEAL RINGING UNDER DIFFICULTIES

The peal at Ecclesfield reported this week was not uneventful. The tower door had been locked and the key left on the inside, but during the second 720 the ringing chamber door opened and a man walked into the belfry, removed a key from a hook and disappeared as strangely as he had come.
Some half-an-hour later he reappeared, walked across the ringing chamber, round the rope circle, eventually sat down on a bench behind the tenor and took out a packet of cigarettes! The conductor politely asked him to leave the belfry. It turned out that ne was a frustrated clock winder who had another key to a door from the church. He was in an aggressive mood and promptly entered into a lengthy argument with the conductor, only leaving when he learned that ringing was expected to continue for another two hours and that the band had every intention of ensuring that it would continue for that time.
Despite the fact that half the band had very little experience in peal ringing, the peal was successfully brought round with only a temporary disturbance of the ringing. E. H. E.

## Christmas Greetings

Our seasonal feature, 'Christmas Greetings.' whereby members of the Exercise send their good wishes to ringing friends, will appear in our issue of Friday. Dec. 21 st. The charge is $4 s$ s. per insertion of 36 words, afterwards $1 \frac{1}{2} d$. a word.

## Gratefully Acknowledged

## BATH AND WELLS DIOCESAN

Shortly after 7 a.m. on Sunday, October 28th, the six bells at Kingston Seymour were ringing for Holy Communion service, on the occasion of the Chew Deanery Branch's visit for their bi-annual Corporate Communion. Twenty ringers were present at Communion, when the celebrant was the Rector (Rev. P. W. R. Rowlands). After the service breakfast was provided by Mrs. Norton in the Village Hall. Towers represented were Wrington, Long Ashton, Nailsea. Yatton. Kingston Seymour and Clutton, with visitors from the Axbridge Branch (Bleadon and Uphill). Votes of thanks to the Rector and Mrs. Norton concluded the sociable brcakfast-table conversation.

A very well attended practice meeting of the Chew Branch was held on the six at Tickenham on Nov. 17th. The bells were kept ringing in methods to suit all from 5 o'clock until 8, and ringing included Cambridge and London Surprise Minor and about half a lead (!) of Oswald Delight. Ringing was under the direction of Mr. H. W. Knight, the Branch Ringing Master.

## YATTON RINGERS IN DEVONSHIRE

On October 10th the mail train with its reserved coach was specially stopped at Yatton for the main party. who found that eight who were to have joined the train at Bristol were missing. Further ringers were picked up en route to Devon, and on leaving the train at Totnes the stationmaster caused further concern with a message that two more had been left behind at Taunton (one of these was supposed to be our organiser, who was still with us!). A check showed none missing. so we set out to ring on Devon's heaviest eight.

At the advice of the local captain, two extras were put on the back end for rising, but this was not found really necessary at our speed as compared with the quick, energetic rises of the call-changers.'
After refreshments we journeyed by coach through the Dart valley to ring at Ashburton, where :he lights went out and stayed out during a heavy storm. A couple of miles brought us to Buckfast Abbey, where a slight delay gave an opportunity to look round this interesting building. Here our youngest ringer 'chimed ' the Bourdon.
After tea came Bovey Tracey with its somewhat lighter eight. The church was much admired and of special interest was a beautiful modern copy of Hunt's 'Light of the World.'
As often happens on outings, the heaviest ring came last; this time with no doubt-Exeter Cathedral. With plenty of help on the back end a creditable rise was made on the back ten, this being the first attempt to the knowledge of Mr. Wreford, who met us here.
A return to British Railways and almost all activity stopped at St. David's station, while handbells were rung on the platform. Further handbell ringing with happy company made the journey home seem very short.

Ringing on the tower bells ranged from rounds on 12 to Grandsire Cinques. Thanks are extended to all connected with the towers we visited and to Mr. Bert Price for so highly organising the outing (even the tickets were specially printed).

## LETTERS TO THE EDITOR

## COLLEGE OF CAMPANOLOGY

Dear Sir,-I must congratulate Dr. Richard Price on his letter concerning the self-styled College of Campanology. I feel sure that he has expressed most clearly the opinions of many ringers who have successfully trained muchneeded recruits for the belfry without all the much-padded and verbose instructions for the 'belfry schoolroom' which the Manual proposes. I also would be most interested to meet -it would have to be in about five years' time I would think-a beginner whose keenness and interest in ringing has managed to survive this appallingly stiff and formal course.

Concerning the whole affair, I find myself in full agreement with Mr. P. A. Corby. There can be only one body which is competent to sponsor a scheme of this type if it is to be recognised nationally-the Central Council; and if Mr . Corby makes his proposition at next year's meeting 1 , if still a member of the Council, shall certainly give it full support. There have been, and still are, many informal schools of ringing-the St. John's School of Ringing at Bristol is an example-but none of these has seen fit to set itself up as the one great authority in the teaching of ringing. If the pos session of a College 'Diploma' is now considered as essential before one can be considered a reasonable ringer and fit to teach others, then one can only assume that all the great ringers and instructors of this country are to be reckoned unqualified!

Incidentally, I wonder whether any of our Portsmouth friends would care to give us their opinions as to the organisation which is rising in their midst. One assumes that the belfries of the Cathedral or St. Mary's, Portsea, are being used for the instruction of trainees, and it would be most interesting to hear something from the leaders of these towers - including some statistics as to the number of broken stays, etc.-or is this an indelicate question
Yours sincercly.
Hildenborough.

## PETER N. BOND

## QUOTING SCRIPTURE

Dear Sir,-I see Y.-B. is quoting the scriptures: perhaps Habakkuk i, 5 (quoted in Acts xiii, 41) would be a little more typical, and no doubt an opponent will cite 1 Cor. $v$ with emphasis on 'Put away the wicked man,' or, perhaps more to the point. suggest that if ringing is ordained of God it needs no Y.-B. to help. Bible quoting is too easy to be really worthwhile except in a really fundamentalist world.Yours sincerely,

Christ Church. Oxford.
Note.-Habakkuk i, 5: Behold ye among the heathen, and regard, and wonder marvellously: for I will work a work in your days, which ye will not believe though it be told you. -Ed.

Dear Sir, - Apropos Mr. York-Bramble's letter, it is unfortunate that the chapter of his Biblical refence is omitted. Is it possible that the Book referred to is not the 'Acts' but that he intended to use Deuteronomy 28, vv. 38 and 39?

If so, may we hope that-although the nibbling is taking place-the sequel will not be the same?-Yours faithfully,
W. P. GARNER.

Willeshorough, Kent.
Note.-Deut. 28. v. 38 : "Thou shalt carry much seed out intc the field. and shall gather but little in; for the focust shall consume it.? -Ed.

## DIPLOMAS AND BADGES?

Dear Sir,-I have read with much interest, and sometimes amusement, the recent letters published in 'The Ringing World ' with respect to the College of Campanology and the arguments for and against its survival, and have realised that too much attention is being paid to the opinions of prominent ringers and not enough to the back-of-beyond ringers and the not-so-well-known ringers.

In his last letter ('R.W.', Nov. 23rd) Mr. A. York-Bramble states that amongst the people directing future activities of the College there are 11 members of the Central Council. Does he mean by this that we have got to resign ourselves to the fact that the College is established as having the backing of the majority of ringers? The fact that the Central Council representative of a Guild or Association is interested in the work of the College is entirely irrelevant as to whether its work will further the development of good ringing, or not. Incidentally, I wonder how many of these 11 people have made it known to the Guilds which they represent on the Central Council that they are backing the College and how many still keep it a dark secret unti they see which way the wind is! going to blow?

May I also express an opinion on the suggestion of Mr. N. Champness ( ${ }^{\text {R.W.W.' Nov. } 23 \mathrm{rd} \text { ). }}$ Is it necessary for a ringer to wear a badge to tell everyone how proficient he is?--that, to my mind, is just egotism. When a ringer visits a tower for the first time he is invariably asked what he is able to ring-that's belfry etiquette; surely, unless he is dumb, he is able to say what he can ring without having a badge to prove it. I agree that it would encourage the youngsters to attain a higher level of proficiency, but wouldn't it have the same effect that the diplomas, etc.. of the College of Campanology are likely to have in the future, namely, "Only holders of a Diploma or "silver bell" are permitted to ring here '?

In closing, may I point out to Mr . YorkBramble that if he thinks that this letter is longwinded, etc., will he please remember that it's not everyone who has regular practice at submitting letters to 'The Ringing World.'-Yours faithfully.

## JOHN A. SMITH

Leicester.
P.S.-It was remarked at a gathering of ringers a little while ago that the Cathedral System of training ringers was to teach one and to 'pinch' six. Food for thought? J. A. S.

## BATS IN THE BELFRY

Dear Sir, -In answer to your correspondent, Mr. F. A. Cluett. of Gravesend, we should like to point out that the bat which appeared in the advertisement to which he refers is not a local resident. When the artist requested permission to sketch our bell chamber he did enquire whether we could also provide the bat, but al though we suspect their existence we were unable to induce one to appear whilst he was at work.-Yours faithfully.
D. COLGATE.

## Sevenoaks

Dear Sir.-In reply to Mr. F. A. Cluett, a bat did appear in the belfry at Worplesdon. I was, at the time, just learning to ring a bell down when the other ringers present drew my attention to a bat which had descended the chute of the bell I was attempting to lower, and was circling round my head. Being rather tied up in knots I did not look up until my bell was safely downwards, but then, alas, the bat had disappeared, so I still haven't seen a bat in a belfry. Yours. etc.

Guildford. Surrey.

ANN M. COX.

CHURCHMANSHIP AND. BELLRINGING.
Dear Sir,-Many thanks to J. T. D. for hisleading article, and with him I agree the time has come when some thought might be given tothis question.

I do, however, wonder whether, as a body, we are quite clear of criticism on one point. Whilst we deprecate the "lordly air of condescension on Sundays, etc.,' do we not somewhat condone this by accepting ringers as "unattached '? I may be sticking my neck out here as there may be good and sufficient reasons why some ringers register as such, although I must admit I can see none.

Is it wrong to suggest that ringers who enjoy the art should at least realise some degree of loyalty and take a little of the responsibility by attaching themselves to their own or other suitable tower? Surely this is not expecting too much. After all, someone has to keep the towers, bells and ropes fit for their use. If this form of membership was abolished it would, I think, be one step toward the realisation of the sentiments expressed by the final paragraph of J. T. D.'s admirable article.

I'm afraid I do not quite see eye to cye with him regarding footnotes, as I do not think quite as many peals are footnoted for Patronal Festivals as it would lead us to suppose. To my mind, far too many mundanc events are made the subject of a peal. Perhaps, one day, who knows, we may see a conductor take his courage in both hands and footnote a peal "To the glory of God.' After all, that's one of the main reasons why the bells are where they are.Yours sincerely,
W. J. GAIT.

High Littleton. Bristol.

## PRIVETTS SILENT BELLS

Dear Sir,-May I through your columns let those interested know that the bells of Privett Church, near Petersfield, are now silent owing to the state of the stonework of the tower. As many will remember, this church stands on the top of a high hill, and although less than a hundred years old, weathering in such an exposed position is extensive. Most of the damage is around the louvres at bell chamber level.

The cost of repairs is $£ 400$ and the local ringers are appealing for help to get the work done. Privctt is little more than a hamlet, and the money cannot be completely raised in the parish in time to prevent further decay.
If anyone has rung there or has any association with the parish and they feel they can contribute to the fund, their donation, however small, will be gratefully acknowledged by Mr. D. Pearce, churchwarden and secretary of ringers, 35. Church Cottages, Privett, Alton. Hampshire. -Yours sincerely,

CHARLES E. BASSETT (Hon. Sec.), Alton and Petersfield District. Winchester and Portsmouth Guild.
Southampton.

SPLICED ERIN AND STEDMAN TRIPLES
Dear Sir,-The first peal of Triples in these two methods was rung at Bushey, Herts, on August 26th, 1939, by the Hertford County Association, and was conducted by Mr. H. G. Cashmore. The composition was J. W. Parker's No. 1 and contained 3,960 Stedman and 1,080 Erin with 300 changes of method. Mr. Harris, please note.-Yours faithfully.

## H. V. FROST.

2 Hon. General' Secretary,
St. Albans.

## MANUAL OF RINGING TRAINING OF THE COLLEGE OF CAMPANOLOGY <br> (Copyright by the Governors) <br> PART I. - CATHEDRAL SYSTEM (Continued from page 765) <br> SECTION XIV. APPENDIX III.

## 149. Some Faults in Instruction.

Again, this is not an exhaustive list, but is fairly typical of what is, unfortunately, too general in ringing training. The appendix has been compiled as an aid to those who, while conscientious, yet find their training scheme to fall short of expected results. (All these points are covered in the Manual.)

1. Neglect to give a clear and interesting introduction to the whole subject.
2. Failure to appreciate pupil's type and treat accordingly. (Treatment not flexible.)
3. Neglect to follow a planned course of instruction, with modification for pupil types, as necessary.
4. Illogical arrangement of subject matter.
. Poor presentation and lack of illustration.
Failure to stimulate and maintain interest.
5. Omission of salient steps (often thought to be rather too "pernickety'), e.g., rope approach, orientation, proximity, stance, etc., which steps actually often make or mar a ringer.
6. Failure to check every fault and instantly. (Over 30 common.)
7. Neglect to ask and invite questions of the pupil.
8. Failure to train pupil's ear from the beginning.
9. Allowing 'bell to ring pupil' as soon as he can be left solo, instead of bell balancing.
10. Allowing pupil to attempt 'open' ringing in concert (in rounds, for example) before he has acquired real bell control. (At least $80 \%$ pulls 'balanced.')
11. Failure to stress PRECISION of striking from first ringing in concert, and to use the ear principally.
12. Failure to teach the elements of method ringing before beginning a set method.
13. Attempting to teach without the co-operation of the more experienced ringers in the later stages, no matter whether teacher or ringers are to blame. (Refers, of course, to towers where there are ringers.)
14. (A general criticism of the tower band.) Waiting until the band is one short, before starting recruitment and training of beginners.
[End of Part I of the Manual. Contents of remaining six Parts were indicated in Article 18 of Section II.]

## OBITUARY <br> CANON J. HUGHES

The Chester Diocesan Guild has lost a good friend in Canon J. Hughes, for 22 years Vicar of Rostherne. A faithful parish priest who went about doing his job in this country village, he was always ready to welcome ringers, and on the occasion of the last visit of the Stockport Branch to his church he conducted the service although he had been instructed by the doctor to take things easy.
He was laid to rest in Rostherne churchyard on November 14th, when the service was conducted by the Rt. Rev. D. H. Saunders-Davies, Bishop of Stockport. The bells were rung halfmuffled and the evening before an "in memoriam' extent of Bob Minor was rung by R. Smith 1, Miss A. P. Brown 2, Mrs. C. K. Lewis 3, A. R. Elkins 4, A. J. Brbwn 5; C. K. Lewis 6.

## AN AUGUST HOLIDAY IN DEVONSHIRE

$\mathrm{O}^{\mathrm{N}}$N August 18th a grey coach left Windsor, and as it passed through the towns of Slough, Beaconsfield, High Wycombe, Marlow and Reading it acquired, as a tramp steamer does, a very mixed cargo!-the freight being ringers of both sexes between 17 and 70 years young.

Heavy traffic and tank transporters combined, and we arrived at Sherborne Abbey about a quarter of an hour before the time we should have been leaving for Exeter. Thanks to the local ringers who met us, and the authorities at the Abbey, we were allowed to ring after a service ended. We did not do justice to this grand ring of bells, however. Probably the hurried nature of our visit had something to do with this.
We reached Exeter, our headquarters for the week, in time for tea before making our way to the Cathedral for the monthly practice.

## SUNDAY AT TEIGNMOUTH

On Sunday the party assembled at St. David's to ring for service at 10 o'clock. Some went to St. Mark's Church, others to St. Thomas', and rang for services at 11 o'clock. After this ringing a good percentage stayed to the services. In the afternoon the coach conveyed the party to Teignmouth. Here the afternoon passed very quickly as swimming, walking, eating, boating or just lazing in the sun was indulged in. Ringing in the evening took place at St. James Church. Cambridge Major is quite interesting to ring with the congregation passing through the rope circle as they enter the church. Later on St. Michael's bells were rung for the holidaymakers' service at 9 p.m.
Monday's programme started with a visit to Broad Clyst, a lovely eight. Some fairly good rinying, rot a good fall, and a teeny-weeny bit of belfrymanship! At Silverton a lady came to the church for peace and quiet. She didn't mind the bells but she objected to some people walking very quietly round the church! Tiverton bells were much admired.
In the afternoon Cullompton, Bradninch and Ottery St. Mary were visited. Our 10 -bell ringing was poor, but at Ottery St. Mary we made amends for this with some really good stuff, followed by a lovely tea. In the evening we broke a rope at Clyst-Honiton and caused its successor to moult badly. After straying into a farmyard we found Sowton Church.
Tuesday's start from Queen's Hotel was delayed by a brewer's dray which blocked our way. Eventually, we made haste to South Molton. The rise here was led by a local ringer. His advice not to hang about too long had such an effect that a rocket-like rise resulted. Fairly good, too. as was the ringing and the lower. Pilton bellis were rung as we made our way to Bideford and lunch.

At Bideford we had a long wait for a local ringer who hadn't turned up, before the verger would allow anyone to enter the belfry. A good lower in peal here. At Northam a stay was bent by a young gentleman, whose enthusiasm for pulling up waned after this event. More key hunting at Great Torrington, but a good rise, tinging and fall when it was eventually found. Crediton, our last call, has a nice heavy ring of eight, and also a fish and chip shop. judging by the number of people eating this delicacy on the homeward run!
The very pleasant bells of Moreton Hampstead Church were rung on Wednesday morning as we journeyed towards Tavistock. The tenor clapper at Tavistock had broken a few days before so we did not experience the pleasure of the full octave. Minor and Triples on the front seven had to suffice. Buckland Monachorum was the next tower on the list. Between here and Compton Gifford we wandered off the beaten track. This resulted in our coach taking
us up a very narrow road with hairpin bends and high stone banks on each side. Rise, fall and ringing were all quite good at Compton Gifford; then on to St. Maurice, Plympton. The course of London here must surely have been the slowest on the bells. An irate lady living close to the tower expressed, in very plain, lucid language her opinion of bells and ringers! Ashburton bells were available after tea.

## A THUNDERSTORM

Early rising must have upset some of our folk on Thursday, because although the rise and fall were fairly good, most of the ringing was poor. The fault was not in Chudlcigh bells but at the end of the ropes. At Kingsteignton form was regained and striking improved. An early arrival at Wolborough came as a mild shock to all the occupants of the coach. At Totnes we received a watery welcome from the clerk of the weather. The welcome in the tower, the bells and ringing more than compensated for the thunderstorm. When we left Totnes the coach showed that it resented being left out in the rain and poured a few gallons on to the folk under its sunshine roof. Practice with the local ringers at Heavitree, preceded by Paignton bells and Upton, Torquay, made a very satisfying finish to the day.
Friday seemed to have arrived very quickly. We had a fairly long run to Hatherleigh. From here we went to Holsworthy, where the bells were ringing as we arrived. The bells here are quite famous, and an organ voluntary has been composed on the airs played on them by a carillon. Ringing not very good here. Then Stratton bells were enjoyed before going to St. Stephen's, Launceston. Two people rang in the first touch here, burried to view some carved pew-ends in another church the other side of the town, rushed back to the coach, having walked between one-and-a-half and two miles. Imagine their surprise when they found that the place selected for providing tea was about 20 yarts from the church they visited! After tea we had the real pleasure of ringing Lifton bells. A lovely mellow ring this. Our coach then wandered by way of a very narrow road again to Okehampton. This road joined the major road close to the church, but just before the two met a sharp bend and a drop of five or six fcet made things difficult for the driver. It looked impossible to get so large a vehicle round the corner, but our driver rose to the occasion and manoeuvred out on to the road amidst applause.
After ringing at Okehampton we returned to Exeter for the last night of the tour. Mr. Barker, on behalf of the company, expressed our thanks to Mr. Cox for organising such a happy week in a county so rich in really good rings of bells. Mrs. Barker then presented him with a set of door chimes and a biscuit barrel. Tony replied, and then the company were entertained by some tune- and change-ringing before dispersing to quench their thirst.
On the homeward journey ringing took place at Chard, Queen Camel and Bramley. To incumbents and local ringers we express our sincere thanks.

During the week between 1,200 and 1.300 steps were climbed. Our skill at embarking and disembarking increased, but for sheer speed we can never hope to equal some of the non-ringers on the way to their meals!
W. L.

LAVENFAM, SUFFOLK.-On Nov. 6th, 1.264 Bob Major: H. Pryke 1, Miss R. J. Seabrook 2. M. T. Symonds 3. S. H. Symonds (cond.) 4, S. J., Twitchett 5, W. A. Perry 6, P. Mayle 7, F. Kemp 8. Smith 8. Kung half-muffled for Remembrance serSmice.

## RINGERS' OUTINGS

## BARSHAM, SUFFOLK

On November 3rd a party of teenage ringers from Beccles, Barsham, Norwich and Mulbarton spent an enjoyable afternoon ringing in Norwich.

Owing to the fact that the eight bells of St. John-de-Sepulchre were found to be unobtainable at the last moment, the party proceeded somewhat ahead of schedule to the Church of St. George-in-Colegate ( $6,93 \mathrm{cwt}$ ).

These bells were very much admired for "go and tone. Ringing here consisted of 'Queens ' and call-changes, and some well-struck courses of Plain Bob Doubles were brought round on the back five. A course of Grandsire came to an abrupt end two changes before the bells should have come round. A method of rather doubtful composition, invented at Barsham's last practice night and named 'Barsham Bob,' was rung. Before we left we rang a course of Doubles on the front five to satisfy the treble ringer's passion for Minor fives.

The short journey to the church ot St . Michael-at-Coslany proved comparatively silent as the organiser produced some extraordinarily bulky home-made toffees (?), guaranteed to silence the most voluble member of the party for at least ten minutes. The glue-content of this type of sweet is obviously very high.

On arrival at St. Michael's we deemed it expedient to leave the front two of the eight (14 cwt.) unraised, as these bells have a 'reputation.' The tenor bell proved a source of amusement to a certain individual who rarely rings a bell weighing more than $6 \frac{1}{2} \mathrm{cwt}$. (Barsham tenor). Call-changes and Bob Doubles were successfully rung on these fine-toned, if somewhat roughgoing, bells. Having descended to the body of the church, an agonised wail was heard from the ringing chamber. It was discovered that the most diminutive ringer had been inadvertently locked in. After this incident the party went their several ways.

The thanks of the party are accorded to the clergy and to our organiser T. N. J. B.

## BOLSOVER

On November 3rd Bolsover Parish Church ringers, with friends from Chesterfield, Warsop and Worksop, enjoyed a half-day outing.

Mr. J. W. Cotton very kindly arranged for ringing at Ashby-de-la-Zouch, Netherseal and Overseal. The coach was delayed in Nottingham by the University Rag procession, but Mr. Beardsmore patiently waited to welcome the visitors at Ashby, and the bells were soon raised in peal. Methods rung included Bob Major, Double Norwich Little Bob Major, Cambridge, Superlative and Yorkshire Surprise Major.

At Netherseal a meeting of the Midland Counties Guild was in progress, and the two parties were provided with tea in the local Village Hall. Mr. W. H. Curzon welcomed the visitors and made friendly reference to former stalwarts from the Chesterfield District, including the Knights family and John Flint. Mr. Cooper suitably replied and thanked the ladies for the splendid arrangements made for tea.

By urrangement with the members of the Midland Counties Guild the visitors were able to make good use of the bells at Netherseal whilst a business meeting was in progress. Miss Joan and Mr. Peter Beresford, of Lichfield. were inviled to ring with the party at Netherseal and later at Overseal, where ringing continued until nearly $8 \mathrm{p} . \mathrm{m}$. The two light rings were pushed along at a merry pace to methods which included Stedman Triples, Kent Treble Bob Major, Forward Major, Double Norwich, Cambridge, Superlative and Yorkshire Surprise Major.

On the way home an excellent dinner was enjoyed at the Highfields Hotel, Ashby-de-laZouch, and the coach eventually reached Bol-
sover in the early hours of Sunday morning. The members wish to express thanks for the kindness of all who so readily assisted with the arrangements for this outing and a previous one in Lancashire in June.
A. B. C.

## EWELL, SURREY

The Ewell outing this year took place on the day commemorated as the Nativity of the Blessed Virgin Mary. It was therefore fitting that the ringers of St. Mary's should visit on this day five churches in Oxfordshire, each one also dedicated to St. Mary.

Our arrival at Henley-on-Thames 20 minutes early gave us time to explore the church with the Vicar, who had been inducted only a few days before. He made the 60 of us very welcome. By 9 o'clock we were ringing this fine eight (tenor $21 \frac{1}{2} \mathrm{cwt}$.), while from the top of the tower others were admiring the excellent view.
Another very pleasant 20 miles brought us to Thame, where we found the large church with its big square tower abounding in interest. In the centre of the chancel stands a huge white marble tomb with effigies of Lord Williams, of Thame, and his wife. There are eight bells (tenor 13 cwt .), and being easily accessible we look the opportunity of having a look at them. Coming to Banbury, 30 miles on, we had a very satisfying lunch before visiting our only 10 -bell church of the day, the quaint red-sandstone edifice with its huge round tower, dominating the town and appearing at first sight more like a town hall or museum.
The piecc-de-résistance was our next callHome Farm, at the small village of Balscott. Here we found the lightest ring of six in the world, cast in 1952 (tenor 1 cwt . $21 \frac{1}{2} \mathrm{lb}$.). The bells are hung in a small outhouse adjoining the kitchen and are partly visible from outside. Peals of laughter filled the farmyard when we first caught sight of them and the diminutive rope-ends hanging in the confined space below. Having left the spacious tower at Banbury only 15 minutes earlier, the contrast did seem comical. More laughter was caused when first attempts at ringing were made; we couldn't even ring them upl

Mr. Jarvis, our host, who had been looking on at the futile efforts of the experts, showed us how to do it. Calmly taking a rope in each hand, he rang up treble and second; similarly with $3 / 4$, followed by $5 / 6$. After a time, when they had recovered from their amazement, some of the party began to make a fair show; but even then, just as you thought you had mastered the technique, you found your bell involuntarily lowered!

We had left the Chilterns at Thame : this part of the county, bordering on the Cotswold Hills, we found most beautiful as we travelled on to Witney, where tea was waiting. Ringing at the church followed and was greatly enjoyed. A truly magnificent 156 ft . spire surmounts the cruciform church. which occupies a commanding situation, overlooking the green and the town to the north and spacious meadows to the south.

Bampton, 600 years famous for its horse fair on August 26th and Morris dancing on Whit Monday, is justly proud of its beautiful church. Like that at Witney, it is cruciform and has a spire 170 ft . high, with wonderful flying buttresses supporting large figures of saints, most impressive in the gathering dusk. The once coloured and gilded stone reredos is 600 years old; the three-storied Easter Sepulchre is 15 th century. We rang these splendid bells for a long time, finally groping our way out in the dark.

The 70 miles return journey gave us time to ponder on the things we had seen and heard and enjoyed, until one coach became wedged against the parapet of a narrow bridge across a stream. With this adventure and subsequent nocturnal meanderings we arrived at Ewell at midnight, a 17-hour day.

## NOTICES

Meetings: $3 / 6$ (minimum) for 30 words, afterwards $1 \frac{1}{2} d$. a word. Each additional insertion half charge.

## Other Notices: 4/- (minimum) for 36 words,
