POINTS FROM RECENT SPEECHES

THE dinner season is now upon us, and as is customary at these functions the toasts are usually accompanied by speeches. Let us take a brief review of some of the points made at recent gatherings. At the College Youths' dinner it was said that 'The Ringing World' is reputed a dull journal. Using a famous phrase, it all depends on what you mean by dull. Nobody, for instance, could call the recent articles by Ernest Morris in any way dull, and their human story is amusing and interesting.

What do readers expect from their journal?—Peals and quarter peals, the activities of the 56 affiliated Guilds and Associations, compositions, personal items, instruction for the beginner, arguments and theories for the advanced ringer, and a first-class front page article written by the pen of the late Mr. J. A. Trollope or by the founder editor, Mr. John S. Goldsmith. The fact is that so wide are the attainments and interests of our readers that there are bound to be pages that do not appeal to them. Theory or composition is not understandable to more than 10 per cent of our readers, but such is the unusual position of 'The Ringing World' as the only weekly medium devoted to our art that space has to be given to this and other sections. At times attempts are made to brighten the pages with a little humour—but here again there are invariably protests. Nevertheless, this article is brightened at the end by one of those stories which delight ringers of the old time school.

The second point, also from the A.S.C.Y. dinner: That the Exercise has never realised its responsibilities towards 'The R.W.' The odds against this ever happening are very great. For a modest sum anyone can have a choice of newspapers delivered to the door every day of the week, and there is no responsibility at all. These daily papers are backed by a huge staff of reporters and agencies linked up throughout the world. There is no such organisation behind 'The Ringing World,' which is dependent on the goodwill of a comparatively few ringers, a number of whom act as local correspondents. The Editor also attends a number of gatherings and reports the proceedings. So unconsciously a person compares what he gets for his

money in one place and in another—it is just human nature.

At the Yorkshire Association Snowdon dinner the point which stood out was the stirring message from Miss M. Snowdon. It was a restatement of the ringers' ideal, and it came from the living representation of the two famous brothers. Jasper Snowdon had the knowledge and his brother saw to it that this knowledge was presented to the Exercise in concise terms.

Lastly, there was the Leicester Guild dinner, and the theme was success. There is no doubt that Leicester is on the top of the ringing world. I do not know if all the bells in Leicester are rung Sunday by Sunday, but one church can manage Surprise Maximus for service. The other week, at Liverpool Cathedral's open day, there were present about 50 ringers from Leicester; there's real enthusiasm for you, travelling 100 miles to ring at a new tower. Well, we hope they keep up this success story and be an inspiration to us all.

Old stagers will enjoy the story concerning the late Harry Withers, of Birmingham, told to me by Arthur Knights. Harry Withers was a clever man; he could tap any method which he knew on the piano or the dulcimer. He would sometimes invite someone to call a touch of Stedman Triples and he would tap it out. Even more remarkable, he could sit and listen to a peal and present the conductor with the figures of the composition when the band came outside. Like most clever men, he had a weakness and he occasionally went on the spree.

It so happened that Arthur Knights was in Birmingham one Saturday for a peal or meeting, and who should he meet in the street but Harry Withers, obviously inebriated. Recognition was mutual, and they stopped for a chat despite Harry's condition. It should be here explained that Grandsire Caters was at the time a popular method for peals, most of which were brought home from the course end 42563978. However, A. K. was secretly worried about Harry, thinking that if he got any more drink he would fall foul of the police. So as he prepared to leave he said: 'And where are you going, Harry?' 'Well, Arthur,' he said, 'I have just got as far as 42563.' 'I am glad to hear it,' said A. K., 'and see that you go straight home.'

A HALF DAY IN NORTH-WEST STAFFORDSHIRE

The ringers of St. Mary's, Stafford, and friends from nearby towers had an enjoyable half day's ringing recently on bells on the Staffordshire-Shropshire border.

The tuneful, easy-going eight at Holy Trinity, Eccleshall, were very different from the former very rough six. Everyone fell in love with the light eight at St. Swithun's, Cheswardine, where a near-perfect touch of Stedman Triples was rung. Other touches rung were Treble Bob, Plain Bob and Spliced Oxford Bob and Treble Bob.

After a quick tea at Market Drayton we rushed off, full of enthusiasm, to ring on the four bells at St. Margaret's, Adbaston. Most of the band gave a sigh of relief when these bells were eventually lowered! The beautiful church of High Offley was next visited. Although the rope-ends were again knotted, the bells ran well and the ringing was quite good. The treble in this tower was given by the Barron Bell Trust in 1941.

It was dark when All Saints', Forton, was reached. Here the ringers stand on a platform in full view of the congregation. These six were the heaviest ring of the day with a tenor of 144 cwt. Methods ranged from Cambridge to Plain Bob, and everyone enjoyed the pleasant tone, though they had to work harder than in the previous towers. In every tower we were made welcome and we hope that our efforts in some cases have encouraged the local bands to have another try. R. V. M.

The band who rang in the peal at Chester-le-Street in honour of the birth of Penelope Elizabeth Nicholson consisted of six local and two students from Durham University. A previous attempt was lost after two hours' ringing.

BEVERLEY & DISTRICT SOCIETY

When the Barnsley District Society held their monthly meeting at Kirkthorpe, Wakefield, on November 9th, Mr. David Cubitt, in seconding the vote of thanks to the Vicar and churchwardens and to Mr. Robinson and Miss P. Handscombe for making the arrangements, made some interesting observations on the east window of the church. This, he said, had survived the Reformation and Cromwell; then about 200 years later it was broken by a ringer who had a grievance against the Church. The present window was going to be replaced by one featuring the Resurrection.

Mr. Noel F. Moxon presided at the meeting, when one new member—Mr. Dyson Seargill, of Thornhill, Dewsbury—was elected. The next meeting at Monk Bretton, near Barnsley, on December 14th, will be of special importance.

Mr. Frank Robinson gave the Society a hearty welcome to Kirkthorpe, and said it had been decided to place a new oak altar with frontal in the lady chapel as a memorial to the late vicar (Rev. H. E. Jarman).

The ringing in the afternoon and evening was most useful.

THE LADIES' GUILD

Kent Branch

Numerous methods were attempted at the meeting of the Kent Branch of the Ladies' Guild at SS. Peter and Paul's, Tonbridge, on November 16th. Tea in the Parish Room was served by the gentlemen members of the local band.

After votes of thanks had been offered to all concerned, the gentlemen returned to the tower while the ladies held their meeting. At 6.45 p.m. the service was held, conducted by the Vicar (Canon Russell B. White), assisted by the curate and attended by 23 ringers.

A READING VETERAN'S FAREWELL

Farewells were said at St. Laurence's Church, Reading, on Sunday, November 17th, to Mr. 'Ted' Foster, who is leaving Reading to live with his son at Farnborough. 'Ted,' who is the last member of the famous band of this church, will be 80 on Boxing Day, and has an association of 70 years with the church, which he joined as a choirboy at the age of 10.

'Ted' learnt to ring at Tilchurst and rang there before joining the St. Laurence company over 30 years ago. He was always in the tower for Sunday ringing at both services, and until his eyes began to fail a few years ago most regular at the practices.

Of the few peals he rang, he was most proud of being in the first of Grandsire Cinques rung at St. Laurence's by an entirely Sunday service band, conducted by the late R. T. Hibbert, ringing the 11th to Stedman Cinques, conducted by the late Bill Pyc, and ringing in a peal of Grandsire Triples with one of the five lady members of the Ancient Society of College Youths.

At his final appearance he took part in call-changes on the back ten, and rang the treble to a well-struck 168 Grandsire Triples before letting the bells down. Three old friends besides the writer were in the touch—Mrs. Catterall, Mrs. Lewington and Bill Rampton—the younger friends being Ray Burton, Mrs. Morley and 'Topper.' After the service, his good health was toasted in 'The Elephant' (well known to members of the A.S.C.Y.'s), and so 'goodbye' to one of the old brigade. W. H.

The band who have been ringing Spliced Surprise Minor in peals recently for the Ely Association would like to express publicly to Mr. C. W. Cook, of Harston, their thanks for his assistance in splicing and proof of composition.

The bells of Lydney, Gloucestershire, are due to be broadcast prior to a service on the B.B.C. Overseas Service on Sunday next at 5.30 p.m. The service is to be 'made live' to South Africa and the Middle East and then 'recorded' to Canada, U.S.A. and the Caribbean at 2 o'clock the following morning.

We learn that there is a prospect of Wonersh, Surrey, bells being recast into a ring of eight.

An idea for a Christmas present—a year's subscription to 'The Ringing World,' price 28s. post free. Details on this page.

The bells will be heard prior to the service to be broadcast from St. George's Parish Church, Greenock, on Sunday, December 15th, at 9.45 a.m., in the Scottish Home Service. These bells are for chiming only and are a ten with a tenor of 18 cwt. 1 qr. in F.

A tape-recording was taken of a peal attempt of Cambridge Surprise Maximus at Southwark Cathedral on Saturday week. We hope the recording of the 'fire out' which occurred after the second course had been completed will be helpful evidence if an inquest is held!

An attempt was made on November 23rd to ring a peal of Double Norwich Court Bob Major on the middle eight at Worcester Cathedral to welcome the new dean. The attempt unfortunately broke down after three-quarters-of-an-hour; had it been successful this would have been the first peal on the middle eight.

Mr. Louis A. Wilson, the doyen of ringing at Wootton Bassett, Wilts, took part in a quarter peal of Grandsire Triples at Wootton Bassett on November 6th to mark the 60th anniversary of his association with this tower. Now in his 83rd year, he is still able to take an active part in ringing, despite two serious illnesses. And many more years of active ringing, Mr. Wilson!

BELFRY GOSSIP

St. Cuthbert's, Benfieldside, has had its six bells restored by Messrs. John Taylor and Co. The rededication of the bells and dedication of a book table to the memory of Mr. Thomas Westgarth took place on November 9th. A report will appear in our next issue.

Congratulations to Mr. George E. Fearn, who rang his 1,400th peal on November 22nd. It was a peal of London Surprise Major, rung at Caythorne, Lincs.

Will Mr. R. G. Leale kindly send details of 720 Superlative Surprise Minor and 540 Yorkshire Court rung in a quarter peal to Mr. Walter Ayre, The Old School House, Leverstock Green, Hemel Hempstead? It is generally thought that no true 720 can be obtained of either method.

Four young ringers from West Buckland, North Petherton and Ashcott had a half day's outing on November 9th, ringing in Somerset and Dorset. With local ringers they had Stedman, Kent and Cambridge on the six at Ever-shot. Most of the towers visited had four bells.

Spliced Doubles on handbells is being practised at Radstock, under the conductorship of Mr. David Hoare. We are hoping to have the pleasure of recording a peal in 47 methods shortly. One in 47 methods was rung, but alas, on a recheck of the composition it was found to be false.

The December issue of 'Surrey W.I. News' contains an interesting article headed 'Bell-ringer Extraordinary,' by N. B. M. P., on ringing at Westminster Abbey and of the services of an Institute husband, Mr. Harold Pitstow. Apart from being secretary of Westminster Abbey ringers Mr. Pitstow has been in charge of the Banstead tower since 1926. He is also musical director of Banstead Amateur Operatic Society.

Christmas Bells On The Air

From 9.20 to 9.30 a.m. on Christmas Day, immediately before the broadcast service from Nunton Parish Church, Wiltshire, a round-up of bells from seven churches will be heard in the Home Service.

The bells will be introduced and the various towers linked by Stuart Hibberd, and the churches will be St. Peter's, Colchester; St. Mary's, Brecon; Yardley Parish Church, Birmingham; the West Church of St. Nicholas, Aberdeen; St. Andrew's, Plymouth; St. George's, Doncaster, and St. Mark's, Dundela, Belfast.

PORTSMOUTH HAS NEW GUILD

On the principle that good bells are of little use without good and sufficient ringers, the recent efforts to get Portsmouth Cathedral bells rehung and augmented to ten have been followed by efforts to reconstitute and augment the original band of ringers.

Under the presidency of the Provost of Portsmouth (Very Rev. E. N. Porter Goff), there has now come into being the Guild of Ringers of St. Thomas of Canterbury, Portsmouth, with a carefully-framed constitution and duly elected officers. These are: Tower captain and steeple keeper, F. W. Burnett; chairman of the Guild and deputy tower captain, Albert York-Bramble; secretary-treasurer, Miss S. K. M. Knight (35, Brighton Avenue, Gosport); committee—Surgeon-Captain A. Lawrey (R.N., ret.); Russell Parker and F. J. Edwards. Remaining members, including learners, complete a present total of 24 ringers. There is also 'associate' membership.

The bells, now being rehung and augmented by Messrs. John Taylor and Co., of Loughborough, are to be dedicated on Sunday, December 22nd, by the Bishop of Portsmouth during the 11 a.m. matins.

The bells will be open to local and visiting ringers that day from 2 to 4.30 p.m., and all interested in this new ring of ten will be welcome during those times. Contributions to the 'Augmentation Fund' will be gratefully received and should be addressed to The Cathedral Office, St. Thomas' Street, Old Portsmouth.

BRISTOL UNIVERSITY SOCIETY

Bristol University Society had an enjoyable outing to Gloucester on November 9th. Ringing on the six at St. Mary-de-Lode preceded the visit to the Cathedral, where Mr. Les Barry met the party. The enormous ringing room with louveres for windows surprised those who were making their first visit. Most of the space in the centre was taken up by Great Peter, the 58 cwt. Bourdon clock bell, and this struck while the back eight of the ten (tenor 25 cwt.) were being raised in peal. Touches of Grandsire and Stedman Triples and Caters were rung before the back eight were lowered in peal. We had been warned that no bad ringing was allowed on the bells: we hope we did not disgrace ourselves.

After attending Evensong, the party took a bus to Barnwood, where touches of Grandsire and Stedman Triples, Plain Bob, Double Norwich C.B. and Bristol Surprise Major were rung (tenor 10½ cwt.). Mr. Barry met us again afterwards at St. Mary-de-Crypt. Here an over-enthusiastic member overturned her bell at the command 'Stand!' which delayed ringing about ten minutes. Cambridge Surprise Major was among the touches rung here. Thank you, all.

DEDICATIONS OF BELLS THAT WILL RING FOR CHRISTMAS

Bradley, Near Bilston, Staffs

It is almost exactly 50 years since the bells of St. Martin's Church, Bradley, were last heard, but this long silence has now been broken. For some time efforts have been made to raise the necessary funds for the restoration of the bells, and this was finally accomplished when the Bishop of Lichfield (Dr. A. S. Reeve) dedicated the new ring of eight on November 23rd.

The church was crowded for the service, which was conducted by the Vicar (Rev. E. A. Dentith), with the Rev. C. H. Barker, the clerical secretary of the Stafford Archdeaconry Society, acting as bishop's chaplain. The Society's lay secretary (Mr. F. Bennett) was also present, together with other officers, and the bell-founders were represented by Mr. Paul Taylor. A public address system had been installed in the ringing room in order that the actual dedication prayers spoken by the Bishop could be heard by the congregation in the nave below and also by other parishioners in the school nearby. This was followed by a few minutes' rounds by a band drawn from towers in the surrounding district.

In his address, the Bishop outlined the contribution made by the bells to both national life and Church work, and praised the efforts of ringers who were trying to maintain regular Sunday ringing. He also paid tribute to the amount of work done by the Vicar and his helpers in achieving their objective, as the whole cost of the restoration had been paid. Immediately following the service a touch of Grandsire Triples by the same band was successfully brought round, in spite of the sudden reappearance in the belfry of the Bishop and the church officials, headed by the indefatigable Press. His Lordship spoke a few words of appreciation and encouragement to the ringers before leaving.

The tower was then open until 8 p.m., and a large company, which included many ringing notabilities of the Midlands, enjoyed themselves on the new bells in a variety of methods from rounds to six-spliced Surprise Major. In spite of catering for a dance later in the evening, the ladies of the parish had arranged a bountiful tea in the school, which was greatly appreciated by all the visitors.

One person for whom this was a red-letter day was Mr. William Bayliss, now aged 78, who is the sole survivor of the original band. Although he does not enjoy good health and his sight has begun to fail, he took part in some rounds during a silent practice on the previous evening, when an excellent photograph of him was taken. He could not, however, be persuaded to take a rope for the dedication ringing.

The restoration consisted of lowering the bell-frame about 18 ft. in the tower and recasting the bells, their total weight being reduced by some 25 cwt. They are now a tuneful eight with a tenor of 11½ cwt. in G, and are a typical product of the Loughborough foundry, the interior acoustics being first-class. A local team is at present undergoing training, directed by Mr. D. Holden, of Coseley, and it is a source of satisfaction that one of them was able to take part unaided in rounds during the evening. Practices have been fixed for Friday evenings, at which any helpers will be gratefully welcomed.

Dereham, Norfolk

A large congregation of parishioners and ringers filled the Parish Church of St. Nicholas, Dereham, on November 16th, for the dedication of the recast tenor by the Bishop of Norwich. The occasion was saddened by the sudden death of Major John Wormald, who was churchwarden when the Bell Fund was launched, and whose name is inscribed on the bell.

In his address, the Bishop said: 'Our natural joy at the successful conclusion of the work must be overshadowed by the death of Major Wormald, who by his uprightness and integrity was an example to all. It is fitting that Major Wormald's name is inscribed on the tenor bell, for it does mean some small but lasting memorial of his care for this church and the project which brings us here today.'

Continuing, the Bishop said that, without bells, the bell tower was nothing more than a relic of the past, dead and useless. Now they had given life back to the tower, and although it might be fanciful, he thought the tower itself was glad to be able to be true to the purpose for which it was built.

The Bishop referred to a discussion at the Church Assembly on the necessity for bringing the Church into touch with present-day life, and the idea which had been suggested of a national mission to call the people back to God. 'Whether that vision is practicable I am not going to discuss,' he said, 'but it does draw attention to the necessity for the voice of the Church being heard by the world outside.'

'I always think of the bells of the church as to some extent fulfilling that purpose. Just as the church bells are a kind of voice, bringing a message of something higher and purer than this life, so they help us to realise that in some kind of way we have to shine forth among men, to be witnesses and, if you like, advertisements, of what our religion means.'

After his address the Bishop left the church and crossed to the bell tower, accompanied by other clergy and the churchwardens. In the tower he dedicated the new work, and his words were relayed by loudspeakers to the congregation.

The opening touch, a course of Grandsire Triples, was rung by officers of the Association. The Rev. H. G. Lillingston (president) 1, C. Bird (Branch secretary) 2, W. Love (general secretary and treasurer) 3, F. C. Goodman (Branch committee) 4, A. G. Bason (Branch chairman) 5, G. Sayer (Branch Ringing Master) 6, N. Golden (vice-president) 7, H. W. Barrett (Association Ringing Master) 8.

The service was conducted by the Vicar (Canon Noel Boston), prayers being led by Rev. A. A. Eden and Rev. A. G. G. Thurlow (Vicar of Great Yarmouth). One of the lessons was read by Mr. Frederick Sharpe, president of the Central Council. Also present were the Rev. G. G. E. Dodson (rector of Gressenhall), the Rev. A. R. Walter (rector of Scarning) and Mr. John P. Fidler, of the Loughborough Bell Foundry, who carried out the restoration.

A new steel frame has been installed and the other bells retuned. Weight of the tenor is

23 cwt. 3 qr. 2 lb. The cost of the work is estimated at £2,400 and the parish has already raised over £2,000 for it.

The bells were available to the many ringers—approximately 80 to 100—after the service till 9 p.m. The Suffolk Association was represented by Mr. and Mrs. C. W. Pipe, Mr. Chas. Sedgley (former Ringing Master of the Suffolk Guild) and Mr. Ronald W. Clouston. Mr. Norman Harding represented the Ely Association.

Our thanks and appreciation are recorded for the hospitality extended to us by the Vicar and parishioners after the service, and for the use of the bells. W. L.

Trumpington, Cambridge

The Church of SS. Mary and Michael, Trumpington, Cambridge, now has eight musical bells, installed by Messrs. John Taylor and Co. The dedication by the Lord Bishop of Ely was on November 16th in the presence of a large congregation of parishioners, ringers and friends.

During the singing of the hymn 'Lifted now within the steeple, All our bells are set on high,' the Bishop, clergy and churchwardens proceeded to the west end. After the dedication and prayers, rounds were rung by the local band, assisted by Mrs. F. E. Haynes (a member, until her marriage) and Mr. Peter Border (who learnt the rudiments of ringing in this tower). The signals for starting and standing were given by Mr. F. E. Haynes (who also first handled a bell rope at Trumpington) with Miss Ruth Jackson at the foot of the stairs flashing lights.

In his sermon, Dr. Noel Hudson said he brought the love and prayers and congratulations of all the churches in the diocesan family. He knew, he said, what enterprise, offerings, prayers and vision were behind the accession of the peal.

As the congregation left the church a touch of Grandsire Triples was rung, followed by Stedman, with Mr. Paul Taylor and Mr. T. R. Dennis taking part.

After tea, ringing ranged from rounds to London and Bristol Surprise, and continued until 9 p.m. Amongst the visitors were Mr. and Mrs. Heazel, Mr. F. Sharpe (president of the Central Council), Mr. and Mrs. C. W. Pipe, Mr. and Mrs. Coles, Mr. Sedgley, Mr. Clouston and Mr. Fordham.

That it would be hard to find a better ring for its weight was the general verdict, and the 'go' was perfect. Five of the old bells have been recast, more metal added to replace the mediæval bell, now on view in the church. The new trebles have been given as a memorial by one of the local band—the treble for her parents and the second for her four grandparents.

In 1928, a splendid oak frame was put in by Messrs. R. White, of Appleton: this has been used with the necessary additions. The eight bells just fit perfectly into the tower on one level.

Now an intensive drive is being made to find recruits and train them, in order to have all the bells ringing for morning and evening prayer on Sundays.

TWIN HUNT AND SINGLE HUNT TRIPLES METHODS

Dear Sir,—At the Central Council meeting this year it was agreed that the new collection of Triples methods should include all symmetric twin-hunt five-lead and single-hunt three-lead pure Triples methods.

The complete list below of such methods will no doubt prove of interest to the Exercise, especially the purists and those who remember the outcry against irregular methods from certain learned gentlemen.

The single-hunt regular methods can be found in 'The Ringing World,' August 17th, 1956, and their classifications April 12th, 1957.—Yours sincerely,
Windsor.

THE CENTRAL COUNCIL OF CHURCH BELL RINGERS

Preliminary Notice

The next meeting of the Council will be held in Dublin on Whitsun Tuesday, May 27th, 1958. Headquarters will be the Central Hotel, Exchequer Street. Terms are 23s. bed and breakfast to members and friends. Those booking should mention the Council meeting.

Further details will be given later.

F. T. BLAGROVE.

E. A. BARNETT, Hon. Secretary.

DUTCH SCOUTS' CAMPANILE

SCOUTS' 'CAMPANILE.'—This novelty at the Scout Jamboree at Sutton Coldfield was erected by one of the Dutch contingents. The bells were 'rung' by means of ropes attached to the clappers and leading to a small frame similar to those used for Ellacombe chimers. Mr. C. T. Blundell, who submitted the picture, regretted that he was unable to grab the tower.

DEVONSHIRE GUILD HOLD A BEGINNERS' MEETING

A most successful by-meeting, primarily for learners, was held at Lamerton on Nov. 23rd. Members came from Lifton, Kelly, Plympton St. Maurice, St. Andrew's and Emmanuel, Plymouth. The president (Preb. Cox) made the journey from Exeter and Miss Boyle brought two of her young ringers from Combe Martin.

The bells were going continuously from 2.45 to 8.30, except for a break for the service, tea and short meeting, and two spells to 'splice' broken ropes; but the Vicar was pleased to tell us new ropes were on order.

The Vicar conducted the Guild service, and the president read the lesson. An excellent tea with home-made pastries was provided by the ladies of the church.

After the Vicar had extended a very cordial welcome to the Branch, the president said that on seeing the advertisement in 'The Ringing World' of the meeting, with emphasis on 'learners,' he felt he must come, and he had been most impressed by what he had seen that afternoon and congratulated the Branch on such a forward movement.

The chairman (Mr. H. N. Thomas) expressed thanks to the Vicar, the organist, local ringers and ladies; carried with acclamation. The chairman added that he felt that sincere thanks and congratulations were due to Mr. W. Harvey for his work in the Lifton area in training beginners in change-ringing.

Ringling was under the direction of the Ringing Master (Mr. T. G. Myers), who is also the Branch secretary, and consisted of Grandsire Doubles with a beginner on the treble each time and two or three others who were able to ring 'inside' at each touch. The Ringing Master proclaimed that six of the 'learners' had passed the test and he would recommend them for Guild certificates. Mr. R. Lyndon, of Emmanuel, was presented with his certificate by the president, and two new members—Messrs. Wells and Fice, of Stowford—were admitted.

A touch of Stedman Doubles and Plain Bob by the experienced ringers present brought to a close a most successful meeting. H. H. T.

LETTERS TO THE EDITOR

TRANSPOSITION AND TRANS—?

Dear Sir,—Many thanks to the readers who answered my appeal. Mr. York-Bramble's comments agree with my ideas, but I do not see the necessity of inventing new terms more than is necessary. My definition of 'transposition' concurs with a generally accepted one; it is only the other term which is new. One cannot express either idea without comparison with an arbitrary row, be it 12345678 or abcdefgh, and the generally accepted first method need not be confused with just a row.

Mr. Marshall seems to have gone off the rails, as his stated values for $A \times B$, $B \times A$, $A + B$, $B + A$ all seem incorrect. $B \times A$ is not equal to $A + B$, and I adhere to my point, stated more correctly as Mr. Carlisle points out, that transpositions and transfigures are 'co-fundamental,' and that they are exactly complementary. A. Y.-B.'s term 'transfix' seems to me to waive this relationship, although it has the merit of not approaching the devotional term 'Transfiguration.'

The 'something deeper' that I have in mind is the theory of part-composition, which admittedly is mainly academic, but does sometimes produce new peal plans. It may be proved that a group of rows used as part-ends is sufficient to generate the extent of a method; but the converse, that a group is necessary, has not been proved to my knowledge. The first proof involves the fundamental property I stated, and I venture to suggest that 'transfiguring' is a process which is often done by composers and conductors, e.g., in working out (I will not say transposing!) rows in a peal by the coursing order.

I do hope that a decision will somehow be reached, as a definite term will remove ambiguity from the term 'transposition.'—Yours faithfully,
BRIAN D. PRICE.

A LONG CLAWSON MEMORY

Dear Sir,—I was delighted to read in 'The Ringing World' of October 4th of the meeting of Melton Mowbray District at Long Clawson in the lovely Vale of Belvoir. When the secretary prepared his report he little thought that his paragraph would give a thrill to a former member living 12,000 miles away.

As a youngster, I learned to ring on these bells. They are very difficult for a learner owing to the long draught of rope. I fully agree with Mr. Pat Cannon in the report of his visit here about a year ago that the bells can be well struck in changes, including Stedman, but the ringers must be expert in handling and bell-control and ring at a steady pace.

The bells have a lovely deep tone with a tenor of 194 cwt. The fourth bell is pre-Reformation, being cast about A.D. 1400. Mr. Harry Bartram, of Melton, used to warn visiting ringers that 'you can't ring these bells with your wrists.'

The bells have a very interesting history, and it was good of your correspondent to recall the only peal to be rung on them, conducted by Mr. Ernest Morris, and in which I took part during my last visit to England in 1927.

Like Mark Twain, I have to smile when he mentions me by name and adds 'who was a native of Long Clawson.' I think that it would have been correct to have written who is a native of Long Clawson.

May I congratulate the captain of Long Clawson (Mr. Edward Tinsley) upon having completed 50 years of continuous service with this tower. This is the type of steadfastness and loyalty of which the Exercise is so justly proud.

With all good wishes.—Yours sincerely,

W. SMITH (Capt., ret'd.).

PEAL FEES TO ASSOCIATIONS

Dear Sir,—Many Associations which do not already charge a peal fee seem to be trying to introduce this extra source of income, and some have succeeded, so I think that an appeal for a certain amount of sanity over the question is now out of place, after so much sense and non-sense has been said on the subject.

The usual reason put forward for a peal fee is the high cost of annual reports. Many Associations publish peals in 'The Ringing World' style, which requires a lot of space. As far as the peal ringer is concerned, this is quite unnecessary, as the peals have already appeared once in 'The Ringing World.' Peals are published in 'The Ringing World' as news; by the time a report is printed they have become past history. Consequently the only obvious reason for printing them again is as a record for the Association. If the Association wants to keep a record of peals, surely it, i.e., every member, should pay for it. After all, an annual report should ideally be an account of all the activities of the Association, not just the peals, and would thus be of interest to all its members.

Much has been said about peal ringers and Sunday service ringers. Let me say now that I know many service ringers who are not peal ringers, but only two peal ringers who are not service ringers. It would seem from this that the deciding majority of ringers are biased against peal ringing, or are indifferent. It is easy to vote that somebody else pays. The essential financial difference between the peal ringer and the Sunday service ringer is that while the former spends a considerable amount travelling and usually gives (or should give) a donation to the church he visits, the latter invariably just attends his own church, which the peal ringer does anyway.

In most cases it is up to the conductor to forward the fee to the Association. After a conductor has spent quite a lot of money and trouble arranging a peal, often for someone else's benefit, he is now asked to do even more. This is hardly an encouragement to the young conductor to arrange peals. I feel that the levying of a peal fee will discourage ringers to arrange peals, and that the resulting drop in peal ringing will in time cause a proportional drop in the standard of Sunday service ringing.

This letter is not intended as a criticism of any particular Association or body of ringers, so I feel justified in signing myself

'A SUNDAY SERVICE & PEAL RINGER.'

'THOSE I REMEMBER'

Dear Sir,—I read with great interest the article 'Those I Remember,' by Ernest Morris, especially the Birmingham memories, when I saw my own father's name, Bernard Witchell, mentioned (the name is Witchell and not Mitchell as printed in 'The Ringing World' dated November 15th); I felt very pleased.

I remember hearing my father speak of many of the names mentioned in the article, and how proud he would be if he were still with us to know that his only grandchild, my daughter, is a member of the Abbey band of ringers, Erdington.—Yours faithfully,

WINIFRED HAMPTON, née Witchell.
Erdington.

A COMPOSITION OF YORK GREEN'S

Dear Sir,—I should like to point out that the composition of Yorkshire Surprise Major published on page 764 of 'The Ringing World,' under the name of E. W. Tipler, was composed by York Green, a prominent London composer, over 50 years ago, as a peal of Superlative Surprise Major. It was rung at St. Mary's Church, Islington, on April 15th, 1902, conducted by W. Pye, and the figures appear in the Middlesex Association report for 1902, on page 82, peal No. 251.—Yours sincerely,

CHARLES W. ROBERTS.

DEATH OF MR. J. PILLING

At the advanced age of 93 years the death occurred on November 18th at Saddleworth Fold of Mr. Jonathan Pilling. A ringer at St. Chad's Church, Saddleworth, he was the second oldest resident of the district.

Though not a peal ringer, his chief delight was to hear bells rung well, and he was himself a good striker, though of recent years he had become slightly deaf. He often accompanied the ringers from Friesland to contests, and Jonathan and his contemporaries won many contests round about the latter years of the 19th century, both in Minor and Major towers. A much travelled man, he returned to Britain from America to volunteer for the Forces at the outbreak of the Boer War.

The funeral took place on November 22nd, and Mr. Joseph Burgess and Mr. George Perrin attended on behalf of the Friesland tower.

On November 24th a team consisting of Messrs. J. Smith, J. Hulme, G. Perrin, J. Burgess, A. J. Bennett and A. Farrand rang 720 Oxford T.B., fully-muffled, at the conclusion of morning service, and afterwards adjourned to the Church Inn, to obey one of Mr. Pilling's last instructions—to 'have one on me.' We've lost a grand old gentleman.

THOSE I REMEMBER

By ERNEST MORRIS

(Continued from page 744)

AFTER my father had started me off on my ringing career when I was a schoolboy of about 12 years of age, I remember my grandfather—George Stedman Morris—telling me that in his young days he 'did a bit of bellringing.' He was a native of Cattistock, in Dorset, whose church at that time had a small west tower with three bells. This tower formed a porch entrance to the church through which the congregation passed. The ringers performed from the ground floor, their ropes coming down in a straight line near the side wall. The three ringers used to stand and face the wall, throwing their ropes down it, thus making an admirable guide, and it was well nigh impossible to miss the 'sally.' The congregation meanwhile passing into church behind the ringers' backs did not disturb them.

CATTISTOCK'S CARILLON

In later years a rector of Cattistock—the Rev. H. Keith Barnes—who came of a wealthy family, pulled the old tower down and had a new and very fine one erected (a miniature of the central bell Harry tower of Canterbury Cathedral). In this tower (1882) he had installed a carillon of 33 bells by Van Aeschodt, of Belgium, with eight hung for ringing in full swing. Every year he arranged for a carillon recital to be given by the late Mons. J. Denyn, of Malines Cathedral, and before he left, that Master of this art used to rearrange the chime barrel to play different tunes at the appointed hours by the clock.

During the second world war (1941) a fire occurred in this tower and the carillon was destroyed—not a war casualty—and although covered by insurance the authorities would not allow a carillon to be erected, deeming this to be a luxury! They did, however, allow the erection of the present light ring of eight bells.

AN UNBURIED CORPSE—NO RINGING

Recently (June, 1953) when on a visit to my brother, George Stedman Morris, of Lyme Regis, he arranged for a peal at Cattistock so that we both might ring at our ancestral home. After some difficulty he got a team together, some coming from long distances, and we met at the appointed time. Imagine our great disappointment, when all assembled, to be told: 'You cannot ring—there is an unburied corpse in the village!' It is an age-old custom here (and in other villages) that no bells shall ring while an unburied corpse lies around, and although we appealed to the rector to allow us to ring muffled he—very sorrowfully—informed us he dare not allow it; it would be looked upon as a scandal and an unforgivable sin! So, although I have visited the home of my paternal ancestors and been in the belfry, I have not rung there!

As a youth, and as soon as I had 'got going' as a change ringer, I remarked to my father: 'Anybody can ring bells—but how many of these fine gentlemen know all about the bells themselves—their founders, their inscriptions, their history, romance, legends, etc.?' There was no one in Leicester, certainly; so I set about finding out all I could from reference books and all other sources possible, eventually compiling—as the years progressed—a sort of library of campanology. I never regretted spending all the time and energy in this effort, fully realising that 'the more one puts into a thing, the more one gets out of it.'

Then shortly after I had begun to do all this came the great thrill of going to the bell-foundry and seeing the actual processes. This came at a time of a meeting of the old M.C.A., when—as

today—the foundry was opened for visiting ringers to wander around and see bells in every state of manufacture, and old bells in for restoration from all parts of the globe. That inspiration I got well over 50 years ago still keeps my attention and fascination even though I have visited the foundry hundreds of times.

JOHN W. TAYLOR

An even more—to me—wonderful and inspiring event was when I first saw the bell-founder himself—John W. Taylor, sen. I had read so much of and been told such a lot about him, I could not help but gaze with awe at this great little man with the shaggy small beard and twinkling eyes. He it was who had engineered the casting of so many noble bells and famous rings, and the great masterpiece 'Great Paul'—the largest bell in the British Empire. This famous bell, cast in 1881 (before I was born!), had a most momentous journey from Loughborough to the Metropolis by road, it being too large and heavy to be transported by rail. There at St. Paul's Cathedral it was hung in the south-west tower, where—in the north-west tower—the fine ring of 12 bells was hung four years earlier.

Mr. John W. Taylor, sen., died on November 20th, 1906, in his 80th year, and at his 'passing' many tributes to his great achievements were received. The Leicester ringers rang handbells over his grave and followed with a half-muffled peal of Caters at Loughborough Parish Church. My father took part in this. In his younger days Mr. Taylor was an enthusiastic ringer and was very proud of one unique performance when he and two of his sons and seven employees rang a peal of Caters in 1888.

JOHN W. TAYLOR, JUN.

Mr. John W. Taylor, jun., followed his father as head of the firm, being born on May 23rd, 1853, and in his prime became one of the leading Midlands ringers, taking part in some 220 peals, of which he conducted about half. He travelled considerably on the Continent and his knowledge of the carillons of Holland, Belgium and France was unsurpassed by that of anyone on this side of the Channel.

After serving the M.C.A. as vice-president for many years, upon the death of Sir Arthur P. Heywood he became president, and for over 25 years served on the Central Council. Four of his sons served in the great war, three of them making the supreme sacrifice while the fourth (Pryce) was wounded. Mr. Taylor (jun.) was a great figure in more ways than one: big in body and in mind and ability, his passing on June 14th, 1919, at the age of 66, was a great blow to the Exercise at large.

E. DENISON TAYLOR

He and his brother, E. Denison Taylor, had shared the management of the foundry, and now Mr. Denison carried on with the assistance of his nephew, Mr. Pryce Taylor. The latter unfortunately died while on a business trip to Canada in 1927, and I well remember the sad home-coming as I took part in the handbell tribute to his memory at the graveside. Mr. Pryce Taylor was a good ringer and took part in the first peal of Maximus ever to be rung in Leicester, which I conducted at St. Margaret's in 1922. At this time I met Mr. Denison Taylor on many occasions, he invariably taking me in his car to various meetings of the M.C.A. whenever I could not get otherwise. On one occasion he sent for me and explained that for some

GUILDFORD DIOCESAN GUILD

The Chertsey District held their nomination meeting at Chobham on November 16th. About 40 ringers attended, with ringing ranging from rounds to an attempt for Cambridge Major, which came to grief as some of the ringers could not see their Ringer's Diary! However, some were able to ring their first course of Stedman, others Double Norwich Court Bob, and yet others Plain Bob Major, so all was not in vain.

The Vicar (Rev. O. R. Acworth) conducted the Guild office and gave an interesting address, taking his text from the first prayer of that service, 'So that by our service to Thee, in the art of bellringing, and in the manner of our lives, we may continually play our part.' Tea followed in the Church Hall, prepared and served by the ladies of the local band.

The Vicar took the chair for the business meeting. The following were nominated to serve for 1958: Ringing Master, Mr. R. Collins; assistant Ringing Master, Mr. J. King; hon. District secretary, Miss H. Hancock; executive committee, Mr. J. King and Mr. T. Luxford, the latter to serve for the remaining year of Mr. Goldstone's term, he wishing to retire.

The District Ringing Master gave a report on the meeting of the executive committee held the previous Saturday in Guildford. The question of restarting the Guild summer festival was also raised, and it was agreed to bring this before the Guild A.G.M. Mr. W. Horne proposed a very warm vote of thanks to the girls for such a grand tea, also to the Vicar, and Mr. P. Readings, the organist.

On view was the new tower peal record book, beautifully written by Mrs. B. Thompson. This would seem to be the answer to the high cost of peal books, as the Delight books seem good for a hundred years.

Ringings continued till 8.45, a complaint to the Bishop being threatened the next day by a local resident! (The Vicar ignored one made to him.)

R. C.

(Continued from previous column)

years he had been trying to write up a 'Chronology of British Bell-founders,' but time would not allow him to finish the work, and he requested me to do this. As a bell-founder Mr. Denison Taylor had a complete knowledge of the art in all its phases. His opinions on bells were sought by campanologists the world over, and during the time he directed the business many thousands of bells—large and small—were cast and sent out to all parts of the world.

He, in his younger days, rang quite a number of peals, but a hunting accident injured his left arm and so ended that side of his many musical attainments. He was a bachelor. At his funeral in September, 1947, a large and representative gathering mourned his 'passing,' and at the graveside on a large set of handbells a slow and solemn course of Grandsire Triples was rung by J. P. Fidler 1-2, Harry Withers (Birmingham) 3-4, Ernest Morris 5-6, Horace Stubbs 7-8.

Mr. John Taylor, jun., had a fifth son, Paul Lea Taylor, who now so assiduously carries on the tradition of this long line of bell-founders; and he—like his predecessors—is a ringer of no mean ability. I have had the great honour and privilege of taking part in a number of peals with him and (D.V.) hope to attain many more.

OBITUARY

THE REV. C. J. STURTON

The death occurred at his home, Orston House, Farndon, Newark, on November 19th, of the Rev. Charles James Sturton, who was Vicar of Orston-with-Thoroton from 1911 to 1935. He was 91.

Mr. Sturton, who obtained his B.A. at St. Catherine's College, Oxford, was ordained a deacon in 1904, and held curacies in Wiltshire and Lincolnshire, before going to Orston in 1911.

In his younger days Mr. Sturton was a noted ringer, and was held in high esteem by a large circle of ringing friends. He had rung many peals in his day, and although these may not have included 'Surprise' peals or peals on the highest numbers, they were rung at a time when peals were harder to get and all the sweeter when earned. He represented the Midland Counties Association on the Central Council from 1918 to 1920.

The Rev. C. J. Sturton was one of nature's gentlemen and his kindly nature and genial disposition endeared people to him. He is survived by a widow and two married daughters, Mrs. R. W. K. Parby and Mrs. Norman Smith, to whom much sympathy is extended.

MR. DAVID McINROY

The tragic death of Mr. David McInroy at Glasgow last week is regretted by many friends. Aged 24 years, and of a quiet and unassuming nature, David had studied at Glasgow University and held the degrees of M.A. and B.Sc. He was finishing his training and had decided to be a maths teacher. He had graduated from choirboy to bellringer at Dunblane Cathedral and was making steady progress in the art of change-ringing.

During his National Service with the R.A.F. he was stationed at Farnborough, where he attended the local tower and spoke of the happy times he sent there. Since he came to Glasgow some months ago he regularly attended service ringing and practices at St. Mary's Cathedral, and was a welcome addition to the band.

The funeral service was held on November 23rd at Dunblane Cathedral, at which the various Church organisations were represented, and included Messrs. E. Bumphrey (captain), E. A. Stafford (secretary) and D. Stephenson, from St. Mary's, Glasgow. The many mourners present testified to David's popularity. Afterwards the cortege proceeded to the local cemetery, and in accordance with an old Scottish custom was attended only by males. A suggestion that handbells be rung at the graveside was abandoned on the grounds that they might not be appreciated locally.

With the approval of the Provost, St. Mary's bells were rung half-muffled for service ringing. May he rest in peace.

E. A. S.

MR. RICHARD W. LOGIE

One of the last links with the Burton ringers of the last century was severed with the recent death in Leicester Infirmary, following an operation, of Mr. Richard William Logie.

Mr. Logie was in his 94th year and was for many years a ringer at Burton Parish Church, although he gave up active ringing some 40 years ago.

He had taken part in a number of peals for the Midland Counties Association and his name appears on early peal boards in Winhill belfry.
