NOTES BY THE WAY.

Mr. E. H. Lewis suggests that Col. Jerram should bring to England a team of Cornish ringers to show us change ringers how bells should be raised and ceased and rung in rounds. If the band does come they can be assured of a hearty welcome. The West Country round ringing is a direct survival of the very oldest form of ringing in this country, the first kind that distinguished English ringing from the merely promiscuous clashing of bells. It goes back at least to the time of Henry VIII., probably much earlier. In those days bells were hung with a stock and lever, or sometimes a half wheel. The sport consisted in raising the bells frame high, and then lowering them again. That was the sort of ringing done by the early societies and they had definite rules as to how it should be done. At the first pull the bells were 'swayed' but not struck, at the second pull all of them, from treble to tenor, had to strike. Failure to do this was reckoned a great fault and sometimes punished with a fine. On a light ring at the third pull all the bells had to strike both at hand and back. With heavier rings, the bells might be 'swayed' for two pulls without striking, and it was usual to strike them double at the fourth pull, but the rule that 'all the notes should strike round at one pull' still held whatever the weight of the tenor. If a bell was too heavy, or went too badly for one man to manage, as many more were put to it as the case required. The aim was to raise the bells as quickly as possible. Ringing was a sport for strong and lusty men, and was classed with 'manlie sports' like football and wrestling.

Shortly after 1600 changes were introduced, and in London and Oxford and Cambridge the intellectual appeal of change ringing quickly eclipsed the athletic appeal of raising and falling, and soon after 1660 the Londoners had forgotten how to raise and cease properly. Round about 1620 bells were being fitted with three-quarter wheels instead of half wheels, so that they could be rung higher, or as the phrase went, at a greater compass, and as soon as it was possible to ring them at a sett-pull (i.e., high enough to be held on the balance at hand) it was possible to develop changes. As yet there were no sallies, all the pulling was done from back, there was little control from handstroke, and the bells could not be rung high enough at back stroke to change there. It was not until after 1660 that whole wheels were fitted and then half pull ringing became possible. Stay and slider were not known until after Stedman wrote. Throughout all these years the round ringing of the West remained exactly the same thing. Though gradually improvements in bell hanging were introduced there, as elsewhere, there was

no difference in the ringing. Unless I am much mistaken the genuine old West County ringer never rang Call Changes. Stoney had an entirely different genesis from round ringing. It is a degenerate survival of the old Plain Changes, the earliest form of 'scientific' ringing. Plain Changes were mathematically constructed and by no means easy to ring, but they were monotonous and were quickly abandoned in favour of Cross Peals, as our present form of change ringing was first called. I think I am right in saying that Stoney is a comparatively recent importation into Devon and Cornwall.

Among change ringers there is very little raising in peal, the first comers get the bells up so they may be ready as soon as a full band turns up. But it would be a mistake to suppose that there is no ceasing in peal. I know at least one tower where the bells are dropped every Sunday in a way which would not disgrace the Cornish men. Now service ringing has become the regular thing a good cease should be done by every band, for it is by no means a difficult art to acquire.

BYGONE RINGERS AND THEIR HABITS.

To the Editor.

Dear Sir,—The correspondence on the habits of ringers in bygone days is very interesting. No doubt there have been dark spots in the Exercise in days past, but I would like to illustrate to the readers of 'The Ringing World' a somewhat different picture.

Over 50 years back there lived in the small village of Wilberton, Cambridgeshire, three brothers, James, Joseph and Henry Markwell, who rang for Sunday services at the village church for 50 years without a break. When they commenced ringing there were five bells, the treble being badly cracked, and the remaining four badly needed the bell hanger. These three men, with the help of two others, learned to ring by memory Bob and Stedman Doubles. Nearly 40 years ago another bell cracked while ringing out the old year, caused, it was said, by the severe frost during that season.

Change ringing, therefore, was at a standstill for a period of two years, awaiting the collection of funds for their restoration. In due course the two cracked bells were recast and a treble added to make a peal of six. Meanwhile, four sons of the three brothers (all quite young) were drafted into the company and began in real earnest to learn change ringing by the aid of Ropsight, by Mr. W. Snowden. These four sons brought up the number to seven, all the same name and related. With the help of Mr. A. Hazel and Mr. H. Sharp they could be seen in the belfry twice on Sunday calling the people to worship, and they were never known to have stayed away from a church service to which they had called others.

In about five years the whole band by constant practice had made rapid progress, and in the year 1896 rang 64 complete 720's in 12 methods, besides one 5,040 in six different methods.

PAINSWICK VETERANS.

To the Editor.

Dear Sir,—As a veteran ringer who joined the Ancient Society of Painswick Youths in 1880, I have been interested in the correspondence in 'The Ringing World' re bygone ringers. Living close to Painswick Church as a boy, I knew well the Painswick veterans, viz., Estcourt, Morris, Savory, Birts and others, who made Painswick and its bells famous by their great prowess in campanology. I was always allowed to be present at practices and Sunday ringing, and dressed in their long black coats, cravats and top hats (they were a very highly respectable body of men who attended the church, and I was allowed to sit with them. Through the deaths of the veterans ringing fell to a low ebb. Several others started ringing in 1880, and we mastered Stedman Doubles. It was then and in the following years to gain experience that I visited many of the towers, viz., Gloucester Cathedral, Cirencester, Tewkesbury Abbey, St. Mary's, Cheltenham, Upton, St. Leonards, Bisley, Prestbury, Charlton Kings, Stroud, etc., and found at all the towers visited highly respectable bands of ringers who were always willing to do everything they could to help me forward. I am sure that all of them realised the dignity of their office. In looking back I recall the names of the grand old veteran ringers not only in Gloucestershire but all over the country, who stuck to their task manfully and set such an excellent example for us to live up to.

GOOD STRIKING.

To the Editor.

Dear Sir,—Mr. Trollope leads one to think that striking is generally lower than what it used to be, and I am going to offer a suggestion to him and everyone who is as keen as he towards its betterment. I see that he mentions Yorkshire. (Thank you, Mr. Trollope, for Yorkshire.) You may ask why am I for Yorkshire? It is because I am a member of that part of the country where a pride is taken in good striking, and could Mr. Trollope or anyone else who is interested attend a contest at Holmfirth, near Huddersfield, of the Halifax and District Association about midsummer (an advertisement will appear in the paper), they would appreciate every moment of listening.

May I suggest that ringers, whether in a strange tower or at home, open every obstacle between them and the bells and then listen. And when you have got the distinct changes off, be it Minor or Major, forget it, but keep it and listen again.

A START WITH MONTHLY MEETINGS

The first monthly meeting in connection with the Axbridge Deanery Branch of Bath and Wells Diocesan Association was held in the Parish Church, Bleadon, on Saturday. The following towers were represented: Worle, Weston-super-Mare, Congresbury, East Brent, Chilcompton, Chewton Mendip, Bath, Ilminster and Churchill.

ALL OPEN DAY AT PRESTON.

BIG COMPANY ENJOY THE AUGMENTED TEN.

The augmented ring at Preston Parish Church was rung for the first time on the evening of November 1st by the local band. The Vicar was present in the ringing chamber accompanied by two of the wardens, together with Mr. A. A. Hughes, representing the firm of Mears and Stainbank, and Mr. W. Ratcliffe, the bell hanger who has carried out the work. After the ringing the Vicar congratulated the firm on the great improvement in tone, and Mr. Hughes briefly replied for Messrs. Mears and Stainbank.

On November 10th an open day was held for visitors. The response was very gratifying, some 60 ringers turning up, and had a red-letter day. The Lanes Association was represented by the president (Canon H. J. Elsee) and the ringing secretary (Mr. A. Tomlinson). Also present were Mr. A. Knights (Chesterfield), Mr. B. Thorp (Ashton-under-Lyne), Mr. T. B. Worsley (Bolton), along with a good contingent from the Blackburn Branch, and practically most of the Preston Branch. The Vicar and curate, along with the local captain, appeared in the ringing chamber punctually at 2.30. Canon Wallis read the ringers' office and formally opened the proceedings. Three M.C.'s were appointed to take charge of the ringing, viz., Messrs. B. A. Knights, W. Sharples and E. R. Martin. This plan worked very well, and plenty of rounds and queens for beginners were mixed in with Grandsire and Stedman Caters, Treble Ten, Double Norwich and London Surprise Minor.

A short service was held at 5 p.m., at which Canon Elsee gave an address. After outlining the history of Preston bells, Canon Elsee urged all ringers to uphold the highest ideals in the performance of their sacred duties.

Tea was served in St. John's Mission Room close to the church. Accompanying the Vicar were three wardens, and after tea the Vicar gave the visitors a cordial welcome to Preston, and hoped their opinion of the bells would be favourable. Tracing the inception of the restoration scheme, the Vicar revealed his expert knowledge on tuning, and offered to talk or correspond with anyone present on the subject. Mr. W. Smirk (senior warden) also welcomed the visitors, and mentioned that he had been reading an old book which contained an account of prize ringing at Preston in 1815. (J. A. T. please note.) Mr. E. R. Martin (captain) also supplemented the welcome given, and contrasted the old lumpy-going eight with the augmented and beautiful ten.

Opportunity was taken to thank the Vicar and wardens for putting the restoration scheme into operation. Canon Elsee on behalf of the visitors thanked the Vicar and wardens for the splendid tea and welcome which had been accorded to everyone, and Mr. C. W. Eccles, J.P., supported Canon Elsee and expressed thanks to him for his splendid address. The tower was visited again and the bells rung until 8.15.

AN EXAMPLE FROM YORKSHIRE.

VISITING DAY AT THE BELFRY.

A fine spirit exists among the ringers of Ulverston, Yorks. When the bells were rebung they determined to attend to the steps which had been worn so badly through the ages as to be almost too difficult to climb. They chipped every one of them and concreted them to their original shape. They provided new linoleum for the belfry, creosoted the belfry frames and painted the belfry fittings. So much improved is the belfry that it can claim to be one of the best in the district.

When their task was completed they held a congregation's visiting night with a twofold purpose. Firstly, to do their bit towards the great effort for clearing the church's debt, and secondly to interest the people in their bells and change ringing.

Although only about 20 people could be accommodated in the ringing chamber at once, the full programme was carried out. The captain welcomed the visitors and then one of the ringers who had made a full model of a bell demonstrated this and also explained the church's history and ringing. The bells were raised in peal, a plain course rung, and then lowered, and so interesting was this that without exception everyone climbed the rickety wooden ladder to the bell chamber where the inscriptions on the bells were explained. This programme was carried out three times during the evening, and the collection towards the great effort realised £1 7s. 6d.

For years the bells in this quaint little town were rung only for services, and then the limit was the first dozen in Minor. In latter years a younger band have had the ropes and are making gradual but certain progress in spite of the difficulty that members are constantly leaving the town to take up work in other parts of the country.

Such is the enthusiasm of this young band, writes 'Interested,' that all will agree they deserve every encouragement in their effort to master Treble Bob, which they are just commencing.

BELFRY GOSSIP.

Congratulations to Mrs. J. Bray, of Lincoln, who has rung 100 peals, 50 being on handbells.

Mr. G. Lewis was the composer of the peal of Yorkshire Surprise Major rung at Sutton-on-Trent on November 10th; the conductor was Mr. A. Nash.

Next Tuesday Mr. James George, of 44, Cuckoo Road, Nechells, Birmingham, will be 81 years of age. Since his 80th birthday Mr. George has taken part in 23 peals. Has any other veteran such a distinguished record between the ages of 80 and 81?

For bellringers' Sunday at Birstall, Leicestershire, a quarter-peal of Grandsire Triples (1,260 changes) was rung by F. Graham 1, F. Sharman 2, G. Tillson 3, G. Walker 4, J. Udale 5, L. Whitehead 6, R. Barrow 7, A. Skinner 8.

Mr. W. W. Wolstencroft conducted five Stalybridge (Cheshire) ringers through their first 720—Plain Bob Minor—on November 15th. The ringers were: R. Rees 1, J. Parks 2, G. H. Shaw 3, S. Hodgson 4, W. W. Wolstencroft (conductor) 5, A. Roberts 6.

Mr. F. W. Goodfellow, joint hon. secretary of the Middlesex Association, who has been in the Middlesex Hospital, was removed to the Schiff Home of Recovery, Knowle Hill, Cobham, Surrey, last week. He will be convalescing there for a fortnight. We all wish Mr. Goodfellow a speedy recovery.

Another band that have surmounted their first obstacles is at North Mimms, Herts. On November 6th, six of the company rang their first quarter of Stedman Triples, viz., G. R. Spencer, B. Spencer, F. Currell, F. Nash, C. Nash and W. Tyler. The conductor was W. Nash, and A. W. Coles made up the eight.

Good progress is being made by the ringers at Yardley Parish Church, Birmingham. During October five of the band rang their first quarter-peal of Grandsire Doubles, viz., John N. Lindon, William H. Cox, J. W. Mulcock, George H. Taylor and James Bacon. We await their first peal with interest.

Mr. F. S. Wilson, of Lloyds Bank House, Wincanton, will be extremely obliged to the ringer who borrowed a year or two ago two volumes, bound in green cloth, entitled, 'Ringers of the Ringing World,' if he will kindly return same as soon as possible. These books were made up with single pages taken from 'The Bellringer,' 'The Bell News' and 'The Ringing World.'

Will the conductor of the peal at Grundisburgh, Suffolk, on November 17th, kindly forward his name so that the peal may be inserted? This peal was rung with bells half-muffled, in memory of Francis George Drake, member and son of the secretary of the Suffolk Guild, and also in memory of Mrs. Clark, the mother of Mr. C. Clark, a member of the band.

Mention was made in this column recently about the enthusiasm of ringers in North Kent at local practices. The finest practice outside London is that at Crayford, where Spliced Surprise in four methods is a regular feature, and it is very gratifying to see how happy those 'princes of the art' are in helping the young ones along all the evening, being more than content themselves with one touch of 'applied' to finish up with.

In the East Berks and South Bucks young conductors seem to be fairly abundant, as six very junior Cumberlands from the St. Peter's Society, Burnham, Bucks, were successful on Saturday last in ringing a peal of Doubles at Hitchin, Bucks, Parish Church, the conducting being shared by the ringers of 2, 3, 4 and 5, none of whom are yet 15 years of age. The youngest has not even attained the age of 13. Average age of band is 14 years and seven months. Further particulars will be found next week of this performance.

Among our promising young ringers is Cyril E. Lanxon (aged 16), of Truro Cathedral, who, despite very limited opportunities which are to be had in Cornwall, has rung this year his first three eight-bell peals, viz., Grandsire Triples, Bob Major (first touch in the method) and Stedman Triples. In addition he has conducted a peal of Grandsire Doubles (10 callings) and has composed two quarter-peals of Stedman Triples. His enthusiasm should lead to more change ringing in 'the Delectable Duchy.'

Canon C. C. Marshall, president of the Yorkshire Association, participated in a peal rung at Far Headingley, Leeds, as a compliment to his daughter, Miss I. H. Marshall, who is to be married at Calcutta on November 26th. The ringers tender their best wishes, and, in the words of our correspondent, 'hope the new venture will be as harmonious and successful as the ringing of this peal.' Would the conductor of this peal kindly forward his name and also the date of the peal so that the compliment might be published in the appropriate column?

Through a motor-cycling accident, North Dorset's popular Ringing Master, Mr. W. G. Shute, is at present lying in the Yeatman Hospital, Sherborne. His many friends will be pleased to hear that he is making good progress, and hopes to be ringing again before Christmas. Mr. Shute is the ideal voluntary instructor. He has travelled thousands of miles—four or five nights a week, summer and winter—to teach and help young and struggling bands of ringers. It is fairly safe to say that no man has done so much for change ringing in Dorset as Bill Shute.

MR. E. P. DUFFIELD'S UNIQUE DISTINCTION.

MASTER OF TWO SOCIETIES.

By his election as Master of the Ancient Society of College Youths Mr. Edward P. Duffield has achieved a unique distinction. He holds the Mastership of two important societies at the same time. He was elected Master of the Essex Association, on the retirement of Mr. Charles H. Howard, last Whitsun, and his elevation to the chief office of the College Youths gives him a dual role never previously, we believe, held by one man.

Mr. E. P. Duffield was born at Tasburgh, Norfolk, on December 21st, 1898, and started learning to ring on the peal of five bells when about 10 years of age, under the tuition of Mr. Albert G. Warnes, and, later, under the late Mr. Philip Sadler, both of Norwich. His father, Mr. William L. Duffield, now of Saxlingham Nethergate, Norfolk, and an uncle, the late Mr. Arthur E. Fuller, were both

enthusiastic ringers. Four brothers—Messrs. William C. (Buxton, Norfolk), James F. (Norwich), Harry T. S. (Tharston, Norfolk) and Dr. John R. (South Africa)—all took up ringing, with the result that father and five sons completed the band for a peal of Minor at Long Stratton, Norfolk, rung on December 27th, 1927.

Mr. 'Ted' Duffield's first eight-bell practice was obtained by visiting Pulham Market, some eight miles from Tasburgh, where, eventually, at the age of 13 years, his first peal was rung, viz., Bob Major, conducted by the well-known ringer, Mr. Fredk. R. Borrett, to whose perseverance Mr. Duffield owes a great deal for his early ringing progress.

He went in 1915 to reside at Sharnbrook, Beds, and eventually succeeded the Rev. A. Rust as hon. general secretary and treasurer of the Bedfordshire Association, which office he retained until just prior to taking up residence at Alton, Hants, in 1922. During his stay at Sharnbrook both the standard and the variety of the ringing advanced, and seven Surprise Minor methods were regu-

larly rung by the local band, whose first peal on the bells he conducted. Mr. Duffield married in 1920 Miss M. A. Willoughby, of Sharnbrook, herself something of a ringer, although she did not continue seriously with the art.

At Alton, Hants, Mr. Duffield had the privilege of conducting the first peal of Stedman Triples on St. Lawrence's bells to be rung by a resident band. He removed to Colchester in 1925, and, becoming associated with the band at St. Peter's Church, eventually conducted the first peal of Surprise Major (Superlative) ever rung by a resident Colchester company.

He was elected Divisional Master of the North-Eastern Division of the Essex Association in 1931 on the retirement from office of Mr. William J. Nevard, the well-known ringer of Great Beniley. On Whit Monday last Mr. Duffield was elected Master of the Essex Association in succession to Mr. Chas. H. Howard, who had held the post for as long as 25 years.

Shortly after the termination of the war, and, although having had no practice in Surprise methods, Mr. Duffield was invited in September, 1919, by Mr. William Pye to join a ringing week in Cheshire. This resulted, on the Monday, in ringing two first Surprise peals, both in the one day, viz., Bristol Surprise Major at Bunbury in the morning, followed by Superlative Surprise Major at Middlewich in the evening. On the day following he rang a peal of London Surprise Major at Tarporley and Cambridge Surprise Major two days later at Frodsham. Thus he had the unique experience of ringing his first four peals of Surprise in four different Major methods within the space of four days with scarcely any previous practice.

Mr. Duffield has many interesting peal performances to his credit. He rang Southwark Cathedral tenor to Stedman Cinques at the age of 20. He rang 11th in the 15,312 Cambridge Maximus at Ashton-under-Lyne, a peal which occupied 1½ hours. He helped Mr. Wm. Pye to ring the Exeter Cathedral tenor to the only peal (Cambridge Maximus) in which she has been rung in changes. He also rang in the first and only peal at Buckfast Abbey. On three occasions he has rung in two peals of Cambridge Surprise Maximus in one day, and on three occasions has taken part in three peals of Surprise Major in one day. He rang in three peals (one false) rung by officers after the Great War (in which he served for a short time in the Royal Air Force during the latter part of the war). In 1913 he was a member of bands which at that time were the youngest to have rung a peal both of Minor and Major. He conducted the first peal of Surprise Maximus rung in Ireland at St. Patrick's Cathedral, Dublin, a peal which was preceded by an all-night journey from London to Dublin, and followed by an all-night return journey to London.

Mr. Duffield has rung just over 300 peals in about 220 different towers, including nearly 90 peals on 12 bells, about 60 of which were in Surprise Maximus methods, including every Surprise Maximus method in which a peal has yet been rung. He has also rung peals of Spliced Superlative and Cambridge Maximus and Spliced Surprise Major in four methods. His peals have been rung in every English county except Notts and Derbyshire, and included in the list of towers are more than 40 twelve-bell towers. In spite of his rather large proportion of 12-bell peals, Mr. Duffield has never lived within 18 miles of a 12-bell tower. The peals have been rung under the auspices of more than 30 different ringing societies.

In business life, Mr. Duffield, in common with several others of his family, is engaged in the flour milling industry. He is well known in many parts of the country by reason of his activities in connection with the sale of Vitbe flour, as used in the manufacture of the now well-known Vitbe bread.

THE BRIGHT FEATURE OF MANCHESTER MEETING.

TWO LEARNERS SCORE THEIR FIRST 720.

The quarterly meeting of the Manchester Branch of the Lancashire Association at St. Elisabeth's Church, Reddish, on Saturday was one of the poorest from point of view of numbers that the branch has held for some time. A service was conducted by the Rector, the Rev. R. W. Watson, who also gave an address, the music being provided by the deputy organist, Mr. English.

One bright feature of the day was the fact that two learners were enabled to score their first 720 of Plain Bob Minor, so let it not be said that nothing was accomplished. The remainder of the ringing time was spent with touches of Stedman and Double Norwich.

At the business meeting, which was presided over by Mr. C. Ollier, it was decided to hold the next quarter's meetings as follows: December 15th, Manchester Town Hall; January 19th, 1935, Manchester Cathedral; and February 16th, quarterly meeting at Stretford. Votes of thanks to the Rector for the use of the bells, conducting the service, and for his address; to the organist, and the local ringers for their services closed the meeting.

It is to be sincerely hoped that meetings of the branch, and especially services, will in future be much better attended.

REV. ROBERT HERRICK'S CHURCH.

RESTORATION OF THE BELLS.

For several years the tower and bells at the church where Herrick the poet used to be Vicar, Dean Prior, Buckfastleigh, Devon, have been in a state of dilapidation. The bells were five in number, the treble having been recast by Warners, of London, in 1886, the second recast by Hamblyn, of Blackawton, in 1836, whilst the remaining three were cast in 1734, the tenor by Mudge and the other two by Pennington. Incidentally this year is the bicentenary of these three back bells.

In June, 1929, it was deemed advisable to discontinue all ringing, as it was considered too dangerous, and a fund was opened for their restoration, whilst Lady Yarde-Buller promised to give a new treble bell to increase them to six in memory of her husband, Sir Henry Yarde-Buller, who was buried in Dean Prior Churchyard in 1928. Thanks to the interest and energy of the present Vicar and other friends, the fund has grown, and among the generous contributors were Miss Violet E. Willis who gave £130, Lord Churston £100, and the Vicar, Rev. Canon the Hon. R. J. Yarde-Buller £25. Mr. J. H. Thorpe's recent appeal also brought many contributions from abroad.

This summer it was found that enough funds were available to put the work in hand, and the Parochial Church Council decided to place the work of the restoration of the bells in the hands of Messrs. John Taylor and Co., of Loughborough. It was afterwards found with dismay that the roof on the top of the tower was in a state of decay, and after a further appeal by the Vicar and Churchwardens sufficient money was obtained to renovate the tower. Messrs. Jackson and Son, of Buckfastleigh, were responsible for carrying out this work, which consisted of a new roof for the tower covered with lead on the top, a new floor under the bells, a new second floor, and the ringers' gallery. Whilst the bells were at the Foundry the old second was recast and the remainder retuned, and the whole peal, with the addition of the new treble bell, has been rehung on heavy rolled steel girders with all the latest modern fittings, and Messrs. Taylor and Co. have carried out the work in their customary efficient manner.

The dedication service took place on Saturday, when there was a very large and representative congregation present, and about 80 ringers came from Swindon, Exeter, Sidmouth, Buckfastleigh, Ashburton, Dartington, Staverton, Holne, Rattery, Plymouth, and Lanhedroch, Bodmin, and Brixham. The Bishop of Exeter performed the dedication ceremony. The Vicar of Dean Prior (Rev. Canon the Hon. R. J. Yarde-Buller) intoned the service. During the singing of the first hymn the Bishop and his chaplain and the Vicar and Churchwardens proceeded to the tower, where the Bishop dedicated the bells and afterwards set the tenor bell in motion. Immediately following this, rounds were rung by Messrs. A. L. Bennett, E. Hoare, G. E. Stone, W. J. R. Boyer, F. J. Emmett and B. Hest. After further prayers and a hymn, the Bishop addressed the congregation, and congratulated the parish on rehanging their bells in that ancient tower. During the last hymn a collection was taken for the tower and bell fund, there being £67 left to raise, and the collection amounted to just over £70, so that the scheme is free of debt.

After the service the bells were utilised by the Devon Guild of Ringers, and the following members rang a well-struck touch of Kent Treble Bob Minor: Messrs. W. G. Hiscott 1, W. J. Rundle 2, S. O'Shaughnessy 3, T. G. Myers 4, E. W. Marsh 5, G. H. Myers 6. Touches of Grandsire and Stedman Doubles and Plain Bob and Cambridge Surprise Minor were also rung, whilst call changes were rung by the less experienced visitors. Everyone was highly delighted with the tone and 'go' of the bells, and Messrs. Taylor and Co. are to be heartily congratulated on doing an excellent job. It was a red-letter day in the history of Dean Prior, and thanks are due to those who were responsible for carrying out the arrangements for the day.

RIPPINGALE BELLS FUND COMPETITION.

To the Editor.

Sir,—We are sure that many of your readers will be interested to know how we progressed with our effort for the restoration of our bells. About 25 per cent. of those appealed to answered, and in addition to a number of small but generous contributions we received most kind and encouraging letters. May we thank those who helped us in such a brotherly spirit, and so encouraged us to go forward. We are more than grateful to the winner, the Rev. E. V. Cox, of Bramford Speke Vicarage, Exeter, for most generously returning the prize to our fund. His kindness is very greatly appreciated. Whilst we did not receive nearly enough to carry on with the work, yet the amount received is most helpful. We would also thank the Editor of 'The Ringing World' for his helpfulness.

With fraternal greetings to all our ringing brethren.

PRESERVATION OF PEAL BOARDS.

GUILDFORD DISTRICT'S RESOLUTION.

The suggestion of Mr. R. Whittington at the meeting of the Guildford District of the Guildford Diocesan Guild at Womersley, on November 17th, although raised under the heading of 'Any other business,' is one that should figure prominently on the agenda of all ringing meetings in the near future (verb sap). Evidently inspired by a recent article in 'The Ringing World,' it was to the effect that the Guild should prepare a schedule of all peal boards and other boards containing matters of interest to ringers in its area, and that it should take such steps as may be necessary to preserve these boards. Mr. Whittington expressed the hope that, not only would such a record be kept by the Guild, but that it would be required very soon as part of a national collection. The members present pledged themselves to support a resolution to deal with the matter at the annual meeting of the Guild.

The Guild's proposed Benevolent Fund and the badge for members were also informally discussed at this meeting, over which the District Ringing Master presided, and, although the Executive Committee's proposal to raise a benevolent fund without increasing the annual subscription seemed to find general favour, its efforts to provide a cheap membership badge did not. Most of the members present were of opinion that if a badge were adopted it should be of a better quality than the specimens which had been considered by the committee. From the point of view of attendance the meeting was a little more heartening to the district officers than some have been in the past.

The following officers were duly nominated for office in 1935: District Ringing Master, Mr. C. E. Smith; secretary, Mr. G. Grover; auditor, Mr. C. Hazelden; hon. member on executive committee, Mr. S. Marshall, of Puttenham; and for two ringing members on that committee, Capt. H. J. Cann and Messrs. S. Elton, S. Petter, R. Whittington and W. R. Melville. The last-mentioned nominations will necessitate a ballot at the annual meeting.

The usual form of service was conducted by the Rev. A. L. Brown at Womersley, and the bells at that church (tenor 18 cwt.) and at the neighbouring church at Bramley (tenor 8 cwt.)—both peals of six within hearing of each other and forming a striking contrast in tone and weight—were in demand during the afternoon and evening. Some good touches were rung at both churches, but some of the striking it must be admitted was like the attendance of district members, distinctly patchy.

FIRST PEAL CONGRATULATIONS.

The following ringers rang their first peals this week:—

A. Wallace.	St. Helens, Lancs.

GLOUCESTERSHIRE RINGING.

The bells of St. Michael, Bishop's Cleeve, Glos, have been rehung by Messrs. Taylor and are now in excellent going order. On November 15th 720 of Kent Treble Bob Minor, the first on the bells, was rung by: Thomas Dyer 1, Fredk. Townsend 2, Walter Yeend 3, Harold Holford 4, William Dyer 5, John F. Ballinger (conductor) 6.

On Saturday, by the kind invitation of the Rev. N. E. Hope, Vicar of Shedworth, Glos, who is a very keen ringer, 720 Kent Treble Bob Minor was rung at the Church of St. Andrew: William Townsend 1, Rev. N. E. Hope 2, Walter Yeend 3, Walter Rose 4, George Kilminster 5, John F. Ballinger (conductor) 6. The Vicar kindly entertained the ringers to tea.

THE LATE MR. ALBERT WRIGHT.

To the memory of the late Mr. Albert Wright, a muffled touch of 504 Grandsire Caters was rung at the Parish Church, Stroud, on November 9th, by: C. Gardiner (conductor) 1, J. W. Jones 2, A. Hannis 3, P. Ponting 4, F. Ponting 5, H. Fussell 6, H. Newman 7, C. Dyson 8, W. Dean 9, A. Hanks 10.

At the Parish Church, Minchinhampton, on November 10th, a muffled quarter-peal of Stedman Doubles (1,260 changes), preceded by the whole pull and stand: F. Canter 1, H. Phelps 2, P. Ponting 3, F. Simmonds (conductor) 4, F. Ponting 5, E. Bailey 6.

FIRST PEAL OF CINQUES AT FAMOUS ABBEY.

By the ringing of a peal of Stedman Cinques at the Abbey Church of St. Mary-the-Virgin, Tewkesbury, on Saturday, the first peal on 12 bells was rung in this ancient Abbey. Mr. John Austin conducted the peal.

A DORSET RESTORATION.

ENCOURAGEMENT FOR A YOUNG BAND.

During the past two or three years a really praiseworthy effort has been made by the people of Corscombe, Dorset, led by their Rector, the Rev. A. N. C. Storrs, to raise some £300 for the restoration of their beautiful bells, and November 9th was a proud day for the village when the Lord Bishop of Salisbury came down to dedicate the work. Notwithstanding the awkward hour of 5 p.m., a large congregation assembled, including ringers and clergy from Buckland Newton, Evershot, South Perrott, Halstock, Kington Magna, Beaminster and Lyme Regis. The Bishop, in his sermon, warmly congratulated the Rector and his people on their zeal and its fine reward, and had a special word of encouragement for the local ringers, who are a young band of the keenest type, anxious for instruction in method ringing. He visited the belfry himself after the service and watched the locals at the ropes.

The bells are a fine six, with a 17 cwt. tenor. They have been entirely rehung on ball bearings and retuned by Messrs. John Taylor and Co., the firm being represented at the opening by Mr. Fidler. All who rang them were delighted in the excellent running and tone of the bells, the visitors contributing touches of Grandsire and Stedman Doubles, Kent Treble Bob and Plain Bob Minor in the way of demonstration. The West Dorset Branch of the Salisbury Guild look to this tower and its enthusiastic band in the hope that they will soon be affiliated and eventually become a useful ally to the progress of change ringing.

Last Saturday the first peal was attempted on the bells by a West Dorset band from Evershot and Lyme Regis, but unfortunately it failed after two hours' excellent ringing. However, three 720's of Kent Treble Bob Minor were brought round, these being the first on the bells, by the following: H. D. W. Bishop 1, H. Smith 2, H. G. Keeley 3, C. W. H. Powell 4, F. Price 5, Rev. C. C. Cox (conductor) 6. The band, together with the local ringers, were afterwards most kindly entertained to tea by the Rector and Mrs. Storrs.

THREE GENERATIONS RINGING TOGETHER.

Suffolk seems to be a favoured county for three generations ringing together. In response to the question asked last week, Mr. E. F. Poppy, of Stoke Ash, Eye, Suffolk, writes: 'There was rung at Grundisburgh a peal of Bob Major by three generations of Tilletts (Ipswich), three generations of Clarks (Grundisburgh) and two generations of Symonds. In addition the Suffolk Guild boasts of three generations of Symonds (Lavenham) and three generations of Filbys (Wingfield) as members, so there is a possibility of Cambridge Surprise Maximus at Ipswich by the four three generations.'

Mr. G. E. Symonds, Ipswich, writes: On November 16th, 1932, Miss Phyllis Tillet, aged 13, with her father and grandfather, rang a peal of seven 720's of Bob Minor at Rushmere, near Ipswich, also these same three rang a peal of Grandsire Cinques at St. Mary-le-Tower, Ipswich, on March 4th, 1933, Miss Tillet (aged 14) ringing the treble.

A SUFFOLK VETERAN LAID TO REST.

On Saturday evening a muffled peal was rung on the bells of St. Andrew's Church, Bramfield, as a last token of respect to the memory of Mr. John Punchard, who was laid to rest that afternoon, in the presence of many ringing friends and others. The handbells were rung over his grave with rounds on eight, and a course of Grandsire Doubles, by four members of the Suffolk Guild, Halesworth District: W. Kemp (Wissett) 1-2, H. Jillings (Heveningham) 3-4, F. C. Lambert (district secretary) 5-6, R. Gardiner 7-8.

Mr. Punchard was 86 years of age, and had been connected with Bramfield tower for over 70 years. He was also a life member of the Norwich Diocesan Association, and had rung numerous peals on five and six bells, his last being in 1926, when he rang Bramfield tenor bell for upwards of three hours in his usual vigorous style to a well-struck peal of Doubles. Mr. Punchard was well known in East Suffolk, and had walked hundreds of miles in the pursuit of his favourite art.

TRAINING OF YOUNG RINGERS.

To the Editor.

Dear Sir,—I have read from time to time in 'The Ringing World' how many ringers, having made a beginning eventually fall away, and are not seen in the tower any more.

In my opinion one of the first things a would-be 'change ringer' is daunted by is that he is not taught to count his place. Week after week he is told to 'follow' such and such a man, thus making it very difficult to learn how to ring. If someone stood by him and counted his place for him he would soon start to count his own. This was so in my case till a kind friend told me how to count my place. He said, 'It is like going up and down a staircase.' This helped me considerably.

Secondly, good men are often lost through poor attendance at practices. Many ringers come late, and the beginner has to 'hang about' doing nothing because only the 'faithful few' are there, and not sufficient ringers to do anything till time has passed, and only a very hurried practice ensues with no satisfaction and no joy. Therefore the 'would-be' makes up his mind it is not worth the effort and gives ringing the 'go by'.

I have been ringing for three years, and can manage about six methods. To attain this I have had to leave my books till next day, and I know there are others in the same boat. We all, more or less, leave something undone. Well then, let's 'get down to it'; have a good start, a full-time practice, a full-time ringing Sunday; in fact, a 'long pull and a good pull.' Just to close, may I tender my undying gratitude to those who have and do help me in my sometimes patience-trying efforts to become 'a change ringer'?

PRESENTATION TO NORTHFLEET SECRETARY.

Mr. Carrott who, in July, resigned the secretaryship of St. Botolph's, Northfleet, on leaving the district, after 15 years' service in this position, was recently presented with a silver bell inkstand, suitably engraved. Mr. G. Lingham, one of the oldest members of the band, made the presentation, and spoke of the amount of work done by Mr. Carrott, especially during the raising of funds for the renovation of the old six bells and the addition of two new bells as a war memorial in 1920.

Mr. Carrott, in thanking the ringers for their token of appreciation, said all he had done for the belfry in the past he had done because his whole interest was in the Northfleet bells, and he hoped the present band would 'pull' together and 'always keep the bells going.'

TRAGIC DEATH OF DERBY RINGER.**ELECTROCUTED WHILE AT WORK.**

The ringers of the Cathedral Church of All Saints, Derby, are mourning the tragic death of Mr. William Samuel Horace Hall, who was electrocuted on November 13th while following his employment in the winding department at Messrs. Haslem and Newton, Ltd. First aid was immediately applied, and for a few minutes there were hopes that Mr. Hall would be restored to consciousness, as his pulse began to beat, but afterwards it stopped.

Mr. Hall, who was 34 years of age, was a keen and respected member of the Cathedral Church Sunday service bellringers, and will be greatly missed by his many ringing friends. Although a member of the Midland Counties Association, he had not rung a full peal, which was his great ambition, as his heart and soul were in campanology. He was also a sidesman at the Cathedral Church.

Another interest of Mr. Hall was the Scout movement, he being scoutmaster of the St. Alkmund's Troop, Derby. He was also a member of the Derbyshire Conservative Club, a former chairman of the Castle Ward branch of the Junior Imperial League, a student at the Derby Technical College, and an associate member of the Institute of Electrical Engineers.

The funeral service took place at the Cathedral on Saturday afternoon, and was largely attended. The officiating clergy at the service were the Provost, the Very Rev. H. Ham, the Rev. J. S. Wilding (Vicar of St. Alkmund's), and the Rev. Desmond R. Pocock (chaplain at the Cathedral). During the service the hymns, 'For ever with the Lord' and 'Abide with me,' were sung. The interment took place at the Nottingham Road Cemetery. There were many floral tributes, including one from the Cathedral Sunday service ringers, and in the evening, with the bells half-muffled, a quarter-peal of Stedman Triples was attempted with 9.8.10 covering by local and other ringers who had come to pay their last respect to a most loyal friend, but was unfortunately lost in the last two courses.

The sympathy of many ringers is extended to his mother, Mrs. Hall.

HERTFORD ASSOCIATION AT APSLEY.

A very interesting meeting was held at Hemel Hempstead on November 10th, members and friends attending from Apsley, Berkhamsted, Northchurch, Tring, King's Langley, Redbourn, Harpenden, St. Albans, Watford, Linslade and the local tower. The bells were made good use of during the afternoon and evening, the ringing consisting of rounds, Grandsire and Stedman Triples, Plain Bob, Kent, St. Clement's, Gainsborough, Little Bob, Double Norwich and Cambridge.

The service was conducted by the Rev. Woods (curate), and the Vicar gave a very able and appropriate address for Armistice Day. Tea, very kindly provided by the Vicar, was served in the St. Mary's Hall. At the business meeting, presided over by the Vicar, one new probationer, from St. Albans, was elected, and Apsley was selected for the next meeting. A comprehensive vote of thanks to the Vicar for his kindness, etc., the curate and the organist was accorded with acclamation. Handbell ringing followed, after which the company adjourned to the tower for ringing until 8.30 p.m., the last touch being half-muffled.

INFORMATION WANTED!

I shall be glad if anyone can give me particulars of the performance of the first peal of Double Court Bob Triples.—J. Armiger Trollope (for Methods Committee), 52, Lammas Park Road, Ealing, W.5.
