IT RESTS WITH RINGERS.

Among the subjects discussed on report by the Central Council was that of 'The Ringing World.' The question of securing the future of a ringing journal by providing a satisfactory circulation has been before the Council at two or three previous meetings, but very little of a practical nature has ever come out of the discussions, and it was so on this occasion. We know, as well as most people, how the circulation of 'The Ringing World' might be increased, but we have not yet found anyone who is able to tell us how the compensating financial support is to be assured. We also know, probably as well as most people, how 'The Ringing World' could be made to cater for even wider interests than it is able at the moment to do. Many folks are ready to advise us on this score, but what they always fail to do is to give us any practical suggestions to ensure that the increased cost would be met by a corresponding increased sale among the ninety per cent. of ringers who do not at present buy the paper, although there are large numbers who do not hesitate to read a copy which someone else has purchased. The example quoted by Mr. Percy Johnson, who said he knew of one twelve bell tower where the ringers shared one copy between them, is a typical instance of what happens in many places, but 'The Ringing World' is not alone in suffering from this attitude of ringers towards ringing. The associations themselves suffer badly from the type of individual who refuses to join because he looks at everything from the attitude of what he is going to get out of it, instead of what he can put into it. If ringers would think more of what they could contribute to the advancement of the art by supporting 'The Ringing World' and enabling us to make it more worthy of the Exercise, the difficulties would rapidly disappear and the future of the ringers' journal would be secured.

We appreciate very much the goodwill of the Council in the interest they have shown, but it is really not surprising that so few practical proposals have been forthcoming from the opportunities which have been offered. Business men know that business developments are impossible without an expansion of capital, unless profits have provided an ample reserve. If the Exercise wishes for an expansion of its paper either by way of a larger journal or a reduced price it must provide either capital or profits to enable it to be done. That, when it comes to rock bottom, is the position, and until some practicable steps in this direction are possible the Exercise—we say it with regret—cannot be given what it does not pay for. Criticism of details in a matter of this kind are worthless in solving the larger problem. The Council has not yet

been able to find a solution—neither have we. We doubt if the associations can do so. Their help is invaluable, but the crux of the whole matter rests with the ringers themselves. If, as a body, they will take the larger view and give 'The Ringing World' their support, not only for their own personal interest, but in furtherance of the art and the interests of all the other members of the Exercise, something could and would quickly be done.

DEATH CURTAILS RINGING.

The Shropshire Association met at Oswestry on May 29th, but owing to the very recent death of the Rector (the Rev. A. R. Langford Brown), only a short half-muffled touch was rung and a short service held.

After tea some members and visitors went to Whittington, where permission to use the bells was very kindly given at a moment's notice by the Rev. Thursly Peilham.

The half-muffled touch was 420 of Grandsire Triples. At Whittington methods up to Cambridge Minor were rung. There were 19 members present for tea.

DEATH OF A SWINDON RINGER.

We regret to record that Mr. Robert W. Hyner, a member of Swindon Parish Church company, and one time district secretary of the Gloucester and Bristol Association, passed away suddenly on Thursday, June 3rd.

The funeral took place at Swindon Parish Church on Monday week.

LEEDS AND DISTRICT SOCIETY.**OPEN-AIR MEETING.**

Batley tower is of the convenient type for a meeting in warm weather, such as prevailed on a recent Saturday, when Leeds and District Society held its May gathering. The tower door is on a level with the churchyard, and, with only two steps down, ringers are in the ringing chamber. The fact that there were no steps to climb was greatly appreciated by those who chose Batley from the three meetings held adjacent to Leeds. During the afternoon and evening, ringers waiting for a touch were able to sit on forms outside the belfry door, and, while listening to the ringing, to see into the belfry.

The business meeting was held just outside the tower. The president was chairman, and members were present from Arnley, Burley, Birstall, Bradford Cathedral, Caiverley, Drighlington, Elland, Earlsheaton, Holbeck, Idle, Rothwell, Shipley and the local company, also Mr. Brothwell, of Rotherham, and Mr. Dove, of Headingley.

Mr. H. Burton, of Batley, was elected a member of the society.

Mr. F. Rayment, in proposing a vote of thanks to the Vicar, churchwardens and the local company, said that while thanking the church authorities for allowing the use of the bells, he would like to thank the president for his kindly thought in providing the forms to enable the meeting to be held in the open air on that lovely day.

At the express wish of the ringers at Idle, it was agreed to hold the next meeting there on Saturday, June 19th. Will members please note this will be one week earlier than the usual meeting day.

NORTH STAFFS AND DISTRICT ASSOCIATION.**A DINNER TO BE ORGANISED.**

A meeting of the North Staffordshire and District Association was held at Kingsley on Saturday, June 5th. Forty members and friends were present from Burslem, Bucknall, Buddulph, Cheadle, Draycott, Kingsley, Leek, Longton, Norton, Newcastle and Stoke-on-Trent. A service was held, which was conducted by the Rev. W. Williams (Rector of Kingsley), who also extended a warm welcome to all present.

A vote of thanks was accorded to the Rector and ringers for the use of the bells and for the splendid way the visitors had been catered for.

Two new members were elected, viz., Mr. F. Box, of Burslem, and Mr. J. Ryles, of Norton.

A committee meeting was held after tea, with Mr. Thomas Hurd in the chair, supported by Mr. Andrew Thompson (hon. secretary) and Mr. Kenneth Thacker (assistant hon. secretary).

After a short discussion it was proposed by Mr. E. Steele, of Longton, seconded by Mr. W. Fradley, of Bucknall, that the association should hold a dinner, and it was pointed out by the secretary that it would most probably take place in February, 1938. The following committee was set up to make the arrangements: Messrs. E. Steele, C. H. Page, T. Hurd, K. Thacker and A. Thompson.

A report of the Central Council meeting was presented by the hon. secretary.

After moving the adoption of the report, a vote of thanks was proposed to the secretary by Mr. E. A. Ridgway, of Leek, seconded by Mr. J. E. Wheeldon, of Norton, the latter remarking that it was the first time they had had a report of a Council meeting from a representative.

A suggestion was made by the secretary regarding the advertising of meetings of the association in 'The Ringing World' that meetings should be advertised for two weeks, the association to pay for one and the tower where the meeting was to be held to pay for the other.

Eventually it was decided that this be left to the discretion of the ringers where the meeting is to be held.

Mr. Alan D. Steel, of Stoke-on-Trent, was unanimously elected Ringing Master for eight-bell towers on the motion of Mr. H. Carnwell, seconded by Mr. C. H. Page. Nominations had been sent to the secretary from four towers, all of which nominated Mr. A. D. Steel for the position.

Under the heading of 'any other business' it was strongly suggested that the association should have its name changed to 'The North Staffordshire Association of Change Ringers,' and the matter was left to be decided at the next committee meeting.

BELFRY GOSSIP.

The Chester Guild band which has been helping to break records in the number of methods rung in a peal of Minor, have carried the total a step further, by scoring on Saturday a peal in 73 methods. Five of the extents have been rung previously, but the peal included two new ones, one in six methods arranged from Mr. A. G. Driver's tables, and one which Mr. Driver has compiled, with 13 methods changed at every lead. In all, the peal contained 142 changes of method.

The 'ringing tour' season starts next week, when some of the old stagers will ramble through Hampshire 'seeking what they may devour' in the way of peals. Other tours in contemplation are in Devon, Lincolnshire, Oxfordshire and Somerset.

Here is an opportunity which all the young lady cyclist-ringers should jump at: Wanted, girl, age 17-25, to join a band of young people on a cycling-ringing holiday in Somerset, August 21st to 28th. Must be a good cyclist and preferably a ringer. Apply to Edna Bedford, 52, The Greenway, Uxbridge, Middlesex.

Congratulations will be extended to Mr. W. H. J. Hooton (hon. Librarian of the Central Council) and Mrs. Hooton upon the birth of a daughter, and to the president of the Central Council and Mrs. Lewis upon the arrival of their first grandchild.

Mrs. F. M. Mitchell, wife of the general hon. secretary of the Kent County Association, gave a talk to the members of the Milton Branch of the Gravesend Constitutional Association on Tuesday week on 'Church Bellringing,' with demonstrations by a working model of a bell. The listeners were greatly interested, and Mrs. Mitchell was asked to give a longer talk on the subject in the autumn.

Mr. C. H. Howard, of Braintree, formerly Master of the Essex Association, has recently presented to St. Michael's belfry his most interesting collection of ringing books, chief among which are 'Church Bells of England,' 'Clavis,' 'Among the Bells,' 'The History and Art of Change Ringing,' Stedman's 'Tintinnalogia,' 'Church Bells,' Shipway's 'Campanologia,' 'Stedman' and a collection of books on various methods, etc.

At one of the Leeds towers, it is the practice of the members to take turns in tolling for the 8 a.m. Communion service on Sunday mornings. Last week the Vicar and the vergier, also the neighbouring residents, were roused from their slumbers at a quarter to seven by the vigorous tolling of one of the bells.

The Vicar upon investigating was amazed to discover the lady member (whose turn it happened to be) of the local band performing her duties in the usual manner, being under the impression that it was a quarter to eight. After the Vicar had assured her as to the correct time, she spent the remaining hour improving her knowledge of the art of ringing by reading old copies of 'The Bell News' which were available.

Strange to say, the tower in question has a very good clock with four faces, all of which have recently been gilded, but as there have been numerous questions in recent weeks from her colleagues regarding the date of the wedding peal, the reason for this remarkable oversight on the part of the lady is, perhaps, not far to seek.

The peal of Grandsire Doubles rung at All Saints', Weston, Bath, should have been credited to the Bath and Wells Association.

The ringer of the 5th in the peal at Eckington on May 18th was John W. Sykes, not John W. Knights as printed.

HALF A CENTURY OF RINGING.

THE LATE MR. F. W. THORNTON.

The funeral took place on Friday last, June 11th, of Mr. F. W. Thornton, whose death on the previous Monday we briefly recorded in our last issue. There was a service at the Parish Church, Greenwich, and the interment took place at Shooters Hill Cemetery.

For many years Mr. Thornton was a member of the Greenwich Parish Church bellringers, and his name appears on numerous tablets now in the belfry recording notable peals. The last time he rang was as recently as May 31st, on the occasion of the annual Pepys commemoration service at St. Olave's, Hart Street, E.C.

Mr. Thornton's interest in ringing had extended over 50 years, and as a member of the now defunct Trinity Youths, represented the society in the first Central Council (1891-1893). Afterwards, from 1897 to 1902, he represented the Kent County Association.

Mr. Thornton, who was 73 years of age, was a member of one of the oldest families in Greenwich, and macebearer to 18 mayors of the borough. He lived at Crooms Hill, Greenwich. He retired from the office of macebearer in 1929, when the then Mayor and eleven former Mayors of the borough joined in presenting him with a gold hunter watch. On the same occasion he received a luminous travelling clock, the gift of Mr. F. J. Simpson, town clerk at the time, and an oak clock from the Town Hall staff.

He leaves a daughter and three sons, the eldest of whom, an Engineer-Lieutenant in the Royal Navy, was made a Member of the Order of the British Empire in the Coronation Honours List.

GRAMOPHONE RECORD OF 'SPLICED' RINGING.

The order list will close on Wednesday next, after which no further applications will be considered. To cover actual costs of record, packing and postage it has been found necessary to charge 5s. 6d. per record. All remittances should now be sent to G. W. Fletcher, 45, Walsingham Road, Enfield, Middlesex.

THE CENTRAL COUNCIL.

(Continued from page 393.)

'THE RINGING WORLD.'

At the last meeting of the Council the following resolution was carried: 'That this Council requests all members and secretaries of affiliated societies to send in suggestions with a view to increasing the circulation of "The Ringing World," that the suggestions be considered by the officers of the Council and Mr. Goldsmith, and that a report be circulated to all members.'

The report has not been circulated because the response to the request contained in the resolution was extremely disappointing. Only three letters were received—one from an affiliated society containing a resolution passed at an annual meeting, one from a ringer, and one from a District Master of an association.

Among the suggestions were a reduction in price, if necessary, by means of subsidies or guarantees from the associations; payment for the publication of peal reports; also that all reports should be reduced to not more than half a column in length to make room for more items of news.

With regard to the financial suggestions, the report said that perhaps the following figures would assist members in their consideration of the present position: Taking the present circulation as a basis for each 1d. in the reduction of price, the annual sum of £866 13s. 4d. has to be guaranteed or subscribed, which, if apportioned between societies on the basis of their membership of the Council, is equal to £6 5s. 7d. per member of the Council annually. This does not seem to be a solution, for there are many societies who already have difficulty in paying current expenses.

The other main suggestions are that the contents need revision so that instead of long articles about one particular event a series of shorter articles covering a wider field would create more interest. In this, unless the Editor is to rewrite all reports, the remedy seems to be in the hands of those who send in the reports, etc., for publication by ensuring that the matter has the widest possible interest, and that those local details which are so often inserted are eliminated.

As regards payment for the insertion of peal reports, we believe this would to some extent result in non-publication unless members of societies were bound by the rules of their societies to do so, and this also applies to the payment suggested for the publication of reports of meetings.

INADEQUATE SUPPORT.

In considering this matter the following points must be borne in mind: (1) 'The Ringing World' is a privately owned venture, and the Council has no control over it. (2) The Editor, anxious for the continuance of the paper if he is compelled to give up, has called attention to the fact that with the present circulation it is improbable that anyone would undertake the financial responsibility. (3) The Editor regrets that he is compelled to charge 3d. per copy, but has generously agreed to give the Exercise the first benefits which arise from increased circulation, either by increasing the size of the paper or reducing the cost. (4) The Editor is willing to consider all practical suggestions, but cannot shoulder further financial burdens.

With regard to this last point, the officers of the Council feel that as the present support is so inadequate (under one-fifth of the annual subscribing members of societies represented by the Council), 'The Ringing World' cannot be expected to shoulder further financial burdens.

The officers think that a further opportunity should be given to members and secretaries to send in their suggestions, and propose that the final report in this matter be deferred. In the meantime, they would like to point out that adverse criticism if unaccompanied by constructive proposals tends to decrease rather than increase the circulation.

Mr. T. Clark asked if it was the business of the Council to deal with this matter. He thought it put the burden on the wrong shoulders. 'The Ringing World' did not do the Council as much good as it did the individual ringer, and he thought they should try and increase the sale through the associations. He brought the subject up at the meetings he attended, and he had sold a good number of copies in that way. They would do better by getting back to the associations.

Mr. P. J. Johnson said in Yorkshire ringers took a good deal of satisfying. When they talked to a Yorkshireman about spending 3d. he looked at what was on the other side. He knew of at least one twelve-bell tower that took one copy of the paper for the twelve ringers ('Shame'). He sincerely sympathised with 'The Ringing World.' When they realised that the Exercise numbered somewhere about 40,000 it was hopeless to expect that they were going to get a large proportion of them sufficiently interested to buy the paper. Another thing he was convinced of was that it was quite hopeless to expect they were going to get another enthusiast such as the present Editor to shoulder the responsibility and to pay for other people's luxury of getting their reports on the cheap. He thought, sooner or later, the Council would have to consider a scheme for the future of 'The Ringing World.' Those who were or had been secretaries of associations had been speaking on this matter for a good many years, but in looking round and seeing what they had done it seemed to him they were nearly as badly off as they were at the start. He had fought many battles for 'The Ringing World' and would be interested to know the experience of other representatives. He felt they would not get another man in all England with the enthusiasm of the present

Editor, and he shuddered to think what would happen when he lost his enthusiasm or the health to carry on.

The Hon. Secretary said on the basis of Mr. Johnson's estimate of 40,000 ringers he could amend his note and say, not that not one-fifth, but not one-tenth of the ringers supported the paper.

The report was adopted.

MUFFLED RINGING.

The President submitted the report of the officers as to muffled ringing. He said he hoped the Council would adopt it as far as its main suggestions were concerned, and he then wanted them to leave it to the officers to add further details and allow them to circulate it and get it finally passed by the ecclesiastical authorities without delaying it to next year's meeting.

The report was as follows: The practice of muffled ringing for Royalty, or indeed for any person, is comparatively recent. As far as we can trace, ringing with bells half-muffled or fully muffled was first practised by ringers as a mark of respect to deceased ringers about the beginning of the 18th century, and was later introduced for persons other than ringers.

Various customs have grown up in different parts of the country, and we think it undesirable that these customs should be changed. Where there is no fixed custom we should recommend the following practice:—

1. That as a mark of respect bells should be rung half-muffled (open at handstroke).
2. That bells should not be rung muffled for a service on a Sunday or feast day, unless the service is a funeral or of the nature of a memorial service.
3. That if the death of Royalty occurs, or a death in a parish where a meeting has been arranged, either the bells should not be rung or be rung muffled in a few touches with carefully chosen hands. We deprecate the holding of an ordinary practice meeting with the bells muffled.
4. That all muffled ringing should be in as slow time as possible.
5. That certain local customs are worthy of more general adoption. For example, the Cambridge custom of setting up one bell at a time, gradually reducing the number and then tolling the age on the tenor, is very effective.

For this last reason we should like association secretaries to send us particulars of local customs in order that a selection might be added in our final report.

We suggest that this final report should be circulated to the Standing Committee, and, if approved of by them, circulated to all members, and finally sent to the ecclesiastical authorities. If they also approve it could be published without further delay.

The President added that he would be glad to hear any criticisms or suggestions on the five main points which were recommended for use in places where they had no established local custom.

Mr. J. Hunt said one vital thing was omitted from the report.

Muffled ringing should always be done with the tenor behind.

The President: No, I don't agree.

Mr. Hunt: As a ringer for over 40 years I have never heard ringing that sounded as solemn as when it is well struck with the tenor behind. I think that point ought to be added.

Mr. S. H. Wood: I disagree entirely. I think the most beautiful ringing is in Major when you get the minor changes, that is 6587 followed by 5678 coming up muffled.

Mr. L. J. Williams: What is the point of putting in Mr. Hunt's suggestion when a band can only ring one method?

Mr. P. J. Johnson said in the district in which he lived (Leeds) they generally muffled the bells at handstroke, the idea being that, in ringing Major, the tenors struck in their right order with an open backstroke. Another advantage was that it hid any bad leads at handstroke (laughter).

Mr. C. Mee said in Suffolk they always had the handstroke open.

THE OLDEST CUSTOM.

Mr. J. A. Trollope said the oldest custom in connection with ringing for funerals was the custom of ringing 'three times three' for a man, and 'three times two' for a woman. That was not only English, but European, and went back certainly to the early middle ages. What they did at his church was to ring three whole pulls slowly, before and after the other ringing, not only because it was rather effective with the bells half-muffled, but also because it helped to continue to some extent a custom which, like so many others, was dying out rapidly, especially since the war.

Mr. F. W. Rogers asked if the committee could give them any information as to the occasions on which to ring bells fully muffled.

The President said the committee and the Standing Committee did not recommend fully muffled ringing. Fully muffled ringing had, to a large extent, the same effect as shuttering up the windows—it reduced the carrying power of the bells, but had not the same appeal to the public as half-muffled ringing. They did not get the striking contrast between the two blows, which was so effective.

Mr. Crawley said that at his church they had rung two peals fully muffled and the bells were heard at a greater distance than when they were open (laughter).

The President: Very often, when windows are blocked up, the bells are heard better at a distance.

The Rev. H. Drake supported what Mr. Trollope had said, and added that 'three times one' was used for a child. He suggested that that be added to the report.

YORKSHIRE ASSOCIATION.

SUCCESSFUL MEETING AT KILDWICK.

Mr. Joe Broadley's Retirement From Office.

Although most of the country had been under the spell of thunder, which was already on its way to Yorkshire, the 'Clerk of the Weather' was able to postpone the downpour until the Western Division had concluded a most satisfactory meeting at Kildwick on Saturday, June 12th. Considerably over 80 members were present, representing more than 30 towers, and it was pleasing to notice the number of ringers who had brought their wives and friends to enjoy the beauties of this part of Yorkshire. Almost everyone took the opportunity of looking through the grounds and gardens of Kildwick Hall—one of the noted places in the district.

The bells of Kildwick are rung from the ground floor, and very full use was made of them from 2 o'clock until well after 9 p.m. A large variety of methods was rung, ranging from Bob Major to Cambridge and Superlative Surprise, and for a meeting the striking throughout the day was particularly good. Not a drop of rain fell during the day, and we have heard of at least two young ringers who were so thoroughly enraptured with Kildwick that it was only with great difficulty that they were able to tear themselves away after a little gentle persuasion by their bus driver.

A splendid tea was served in the Parish Room by the local company. The business meeting, which was held in the schools, was presided over by the association's president, Canon Marshall M.A., in the absence of the vice-president, Mr. P. J. Johnson, who was unable to be present.

The Chairman intimated that the main business of the meeting was the appointment of a Ringing Master in succession to Mr. Joe Broadley, who had recently resigned. Mr. Broadley had been a member of the General Committee over 44 years, and had been Ringing Master of the Western Division over 20 years. He felt that a great debt of gratitude was due to Mr. Broadley for the enormous service which he had given to the association. He was indeed sorry that the time had come when Mr. Broadley had to lay down the reins of office, but he knew that his interest would always be with the association and that his help and advice would always be available.

Mr. W. Barton also spoke of the work which Mr. Broadley had done for the association and expressed his regret at the parting.

Mr. Broadley, in replying, said that he had only been too pleased to do what he could for the association. Although he was not in at the start, he had known Mr. Jasper Snowdon personally and had rung five peals with him. He would still continue to attend meetings wherever possible and would gladly give any advice whenever necessary.

MR. W. AMBLER PROPOSED AS RINGING MASTER.

The Chairman intimated that one nomination had been received for the Ringing Mastership, but that the nominee on being approached had felt unable to undertake the work. Mr. Barton thereupon proposed and Mr. Hardcastle seconded that Mr. William Ambler, of Queensbury, be approached. Mr. Ambler said that it was rather sudden and he would like a few days to consider the matter more fully, but he would make up his mind as soon as possible.

The secretary proposed a hearty vote of thanks to the Vicar and wardens for kindly granting the use of the bells, and expressed pleasure at the splendid response of the members in being present and making the meeting such a success.—This was seconded by Mr. John Cooper and also supported by the chairman, who expressed regret at the absence of the Vicar, who was unavoidably detained at a garden party.

Mr. J. W. T. Holgate proposed a hearty vote of thanks to the local company for their splendid arrangements, also to the ladies who so kindly waited at the tea tables.—Mr. A. West, of Sutton, also supported this resolution, which was carried in the usual manner.—Mr. Charles Law, in replying, said it had been a real pleasure to entertain the association at Kildwick.

(Continued from previous page.)

Replying to Mr. F. Warrington, the President said the committee was not concerned with customs of chiming; their reference was with regard to muffled ringing.

Mr. W. A. Cave pointed out that there was nothing in the report referring to the 'whole pull and stand.'

The President said that was one of the customs which they proposed to add at the end.

Mr. Cave said there was nothing more effective than this for a memorial service or when the coffin was being taken from the church to the grave.

Replying to Mr. Mee, the President said he did not think they should attempt to collect all the chiming customs. They were already recorded, as far as many counties were concerned, in the county histories.

Mr. G. Cross seconded the adoption of the report, which was agreed to, together with the recommendation that it should be completed and circulated before the next meeting.

This completed the committee's reports, and Canon Coleridge proposed a vote of thanks to all committees for their laborious work and for all they had done.—Mr. T. Groombridge seconded and the motion was carried.

RINGERS' DAY AT BIRMINGHAM CATHEDRAL.

A SURVIVOR OF THE 'FORTY THIEVES.'

A ringers' opening was held at Birmingham Cathedral on June 5th. Approximately 60 ringers and friends attended, and from 3 p.m. until 6 p.m. the bells were rung in various methods, including London Surprise Major and Cambridge Surprise Royal.

At the conclusion of the ringing, tea was taken at Kunzle's Cafe, Union Street, during which Mr. A. Paddon Smith, Mr. Albert Walker and Mr. T. H. Reeves all congratulated Messrs. Gillett and Johnston, Ltd., upon the excellency of their work, and also the Cathedral authorities on the delightful ring of bells which they now possessed.

Reference was also made to the old bells, which both from the point of view of 'go' and tone were among the worst in the country, and also to the now non-existent Birmingham Amalgamated Society, whose members were known as the 'Forty Thieves.' This society was formed by the ringers of the Cathedral in opposition to the St. Martin's Youths.

Unfortunately, the Provost of the Birmingham Cathedral (Bishop Hamilton Baynes) was unable to be present; and Sir Charles Hyde, whose generosity made the restoration possible, was prevented from attending by a previous engagement.

Mr. W. P. Waller, people's warden, represented the Cathedral; and Mr. G. E. Fearn, Ringing Master, said that Mr. Waller had taken a great interest in the scheme. It was due to his efforts that the ringing chamber had been redecorated.

Mr. C. F. Johnston, who represented the founders of the bells, mentioned that illness prevented him from being at the dedication service, but that he listened to the bells when they were broadcast, and he congratulated the ringers who took part upon the excellent striking during the touch.

After tea an informal social evening was held at the Tamworth Arms, Moor Street. Mr. Harry Withers tapped a course of Double Norwich on the piano and also sang his very popular song, 'Bob Major.' Several touches in various methods were rung on handbells, and tunes were played by Messrs. A. Walker, H. Withers and T. Miller. The last named was one of the 'Forty Thieves,' and he entertained the company with his quaintly-told stories of old Birmingham ringers.

Altogether the evening was typical of the sociability of ringers in general, and Birmingham ringers in particular.

OXFORD DIOCESAN GUILD.

NORTH BUCKS BRANCH SATISFACTORY POSITION.

The annual meeting of the North Bucks Branch of the Oxford Diocesan Guild was held at Bletchley on Saturday, June 5th. The weather was fine and the attendance about 70, representing the following towers: Beauchampton, Buckingham, Bladwell, Chicheley, Drayton Parslow, Emberton, Fenny Stratford, Loughton, Newport Pagnell, Newton Longville, Olney, Shenley, Stony Stratford, Whaddon, Weston Underwood and the local ringers. Service was conducted by the Rev. — Partridge, who gave a short address, which was very much appreciated by the members.

At the business meeting, held on the Rectory lawn, with the Rev. H. Byard in the chair, the hon. secretary (Mr. W. Sear) presented the statement of accounts, together with his report. He said that it was his 21st annual report and he was pleased to state that the branch was stronger now than it had been at any time during the period he had been their secretary. There was a membership of 225 and 29 towers in union with the Guild. Financially the branch was in good condition, and he was sure, with the same support in the future, it would grow stronger.

Both the chairman, the Rev. H. Byard, of Newport Pagnell, and the secretary and treasurer (Mr. W. Sear) were unanimously re-elected.

The Guild officials attending were the Rev. C. E. Wigg (Deputy Master), Mr. A. D. Barker (Guild treasurer) and Mr. R. T. Hibbert (Guild secretary).

The Deputy Master complimented the branch on the satisfactory way the work was being carried on, and felt sure it would give no anxiety for the future.

The Rev. Williams, of Stewkley, and six ringing members, were elected.

Votes of thanks were passed to the Rev. and Mrs. Partridge for kindly placing the Rectory grounds at the disposal of the members and for making all arrangements for such a successful meeting.

Ringing during the afternoon ranged from Grandsire and Stedman to Cambridge Major.

GLOUCESTER AND BRISTOL DIOCESAN ASSOCIATION.

MEETING AT BISHOPSTONE.

The half-yearly meeting of the Swindon Branch was held at Bishopstone on Saturday, June 12th. Favoured with beautiful weather there was a good attendance.

The hon. secretary gave a brief report of the Central Council proceedings at Canterbury, while the places for the next three meetings were provisionally fixed as Sevenhampton (for a Wednesday evening), Cricklade and Malmesbury.

Good practice was obtained in the standard methods, also Double Norwich and Cambridge Major. Members and visitors attended from Blunsdon, Rodbourne Cheney, Swindon, Aldbourne, Cirencester and Faringdon.

CORONATION BELLS.

CATERS, AND NOT CINQUES.

The peal in celebration of the Coronation at Haslemere was Major J. H. B. Hesse's 600th peal.

It was only natural that the Editorial 'leg' should be pulled for the error that crept into the report of this peal. We have seldom received so many postcards and letters over an error in our columns as over the slip which was allowed to creep in. But, then, we do not often make mistakes of this kind.

The peal was, of course, Stedman Caters and not Stedman Cinques; the two treble ringers did not also ring one handbell apiece; no congratulations are due to the first band to ring a peal of Cinques on ten bells, and the Editor has not taken part in the most unique performance of all time.

The Peals Analysis Committee will, doubtless, take note of all this, and there is nothing wrong with that wonderful little peal of bells upon which Major Hesse expends so much care.

The Coronation peal at Hughenden, Bucks, on Sunday, May 16th, also coincided with the christening of the daughter of Mr. E. Clark, a member of the choir, and the 74th birthday of Mr. J. W. Wilkins, who rang the treble to the peal. These two events are, therefore, coupled with the performance.

At St. Helens, Lancs, the Coronation peal was also in honour of the birth of a son to Mr. and Mrs. N. Heaps.

After meeting short for a peal of Major at Headcorn, Kent, on May 15th, a peal of Grandsire Triples was rung, Mr. W. H. Dartnell coming in to fill the gap at the last minute and ringing the tenor to his first peal on eight bells. Mr. J. W. Jones, of Newport, Mon., took part.

At St. Andrew's Church, Wiveliscombe, Somerset, on Coronation Day, a quarter-peal of Grandsire Triples was begun at 6.30 a.m. and rung by W. Hartnell 1, W. Hartnell, jun. 2, C. Tarr 3, C. Parkman 4, G. Sparkes (conductor) 5, J. Hartnell 6, D. Parkman 7, C. Bellew 8.

At Chipstable, Somerset, 1,440 Kent Treble Bob Minor was rung: S. Smith 1, J. Summerhayes 2, E. Purchase 3, C. Tarr 4, A. Turner 5, E. Quick (conductor) 6. This touch was rung after an attempt for a peal of Stedman Doubles had been called round at the seventh 120. On ringing the 120 again it turned out that the bells had been in order.

The bells at St. John's, Silverdale, Lancs, were fired at 6.30 a.m. on Coronation Day and touches of Oxford, Kent, Duke of York and Woodbine Treble Bob and a 720 of Cambridge Surprise were afterwards rung: J. Holme 1, D. Holden 2, T. Dobson 3, C. Hall 4, C. Lockwood 5, W. Bolton (conductor) 6. It was the first 720 of Cambridge Surprise by all but the treble ringer. The ringing also commemorated the birth of a great-grandson to the treble ringer and a son to C. Lockwood.

At St. Martin's Church, Fynsford, Kent, on Saturday, May 22nd, a peal of Grandsire Triples in honour of the Coronation was lost after an hour's good ringing, owing to a shift course. Not to be outdone, the band rang a quarter-peal of Bob Major: F. V. Crosskey (first quarter-peal) 1, G. W. Pogden 2, H. Mackinder 3, J. E. Lyddiard 4, A. J. Hopper 5, G. V. Murphy 6, D. M. Sharp (conductor) 7, P. A. Corby 8.

COMMEMORATIVE QUARTER-PEAL

At Redruth, on Coronation Day, a quarter-peal of Grandsire Doubles was rung, after meeting short for eight: Vivian Williams 1, Stephen Jeffery (first quarter) 2, Harold Seymour 3, William Reed 4, Frederic Harris (conductor) 5, Percy Williams 6.

A 720 of Kent Treble Bob Minor was rung at Treeton, Yorkshire: James H. Haywood 1, John J. L. Gilbert 2, Frederick Cardwell 3, John E. Turley 4, Fred Watkinson 5, Leslie Haywood (conductor) 6.

At Barrow-in-Furness, for Coronation service evensong, on Sunday, May 9th, a quarter-peal of Grandsire Triples: G. Slack 1, J. Bagnall 2, M. G. Wheat 3, F. H. Crawley 4, A. Steadman 5, J. E. Burles 6, C. J. A. Cushing (conductor) 7, S. Hyder 8.

The Rev. R. F. R. Routh, who has recently been inducted Rector of Beaconsfield, rang in the Coronation peal at his own church on May 15th. It was his first peal of Cambridge Surprise Major.

A quarter-peal of Minor was rung at Holmer on Monday, May 10th, in honour of the Coronation. It comprised 720 of Oxford Bob, 360 Canterbury Pleasure and 180 Plain Bob: Charles H. Tomkins 1, George T. Cousins 2, Walter S. Evans 3, Joseph W. Downes 4, William Duggan 5, Ernest P. Salmons (conductor) 6. First quarter-peal of Minor in three methods for all the band.

At Little Shelford, Cambs, a quarter-peal of Grandsire Doubles was rung for service on Coronation Day: C. Hurst 1, A. Thorogood 2, T. Sherman 3, B. Dean 4, A. Hurst 5. All are members of the local band. Longest length by ringers of treble and 3rd.

Ringings commenced at Stowmarket, Suffolk, at 7 a.m. Touches of Grandsire Triples were rung and the bells were 'fired.' Ringing was continued at intervals during the day in touches of Bob Major, Kent and Oxford Treble Bob, Double Norwich and Cambridge Surprise, 12 ringers in all taking part.

As a prelude to the day's festivities, at Rickmansworth, Herts, the bells were rung by the St. Mary's Guild from 10 o'clock for one hour previous to the Abbey service broadcast in the church. Several touches of Grandsire Triples, including one of about 400 changes, 9-8-10 covering, by W. Crowsley 1, F. W. Elliott 2, B. Hookham 3, A. E. Millett (conductor) 4, A. W. Howlett 5, J. E. Jones 6, T. Long 7, T. Reeves 8, A. Walker 9, T. Gander 10.

A LANCASHIRE RESTORATION.

RECAST OCTAVE AT RISHTON.

The peal of eight bells which has recently been recast and rehung in Rishton Parish Church tower, Lancashire, was dedicated at a well-attended service on Saturday afternoon, May 22nd, the ceremony being performed by Canon G. S. Perry, Rural Dean of Blackburn, assisted by the Vicar (the Rev. W. I. Brown) and the Rev. A. Scott, of Bolton, president of the Lancashire Association. Among those present were Mr. R. Parkinson, of Blackpool, formerly of Oswaldtwistle, who had the privilege of conducting the first peal on the old bells at Rishton Church; Mr. A. Tomlinson, Blackburn, a joint secretary of the Lancashire Association; Mr. A. Blogg, secretary of the Preston Branch. Representatives also attended from the Todmorden, Rochdale and Fylde branches of the association. Mr. Cyril P. Johnston was present to represent the bellfounders.

In the ceremony the Rural Dean was requested by the churchwardens (Mr. F. Pickup, J.P., and Mr. G. H. Ashworth) to 'dedicate to the glory of God and the use of this church, this peal of bells,' and the Rural Dean, having received from the wardens the ropes of the bells, delivered them to the Vicar 'as a sacred trust, committed to thee as the appointed minister of Christ in this church and parish.'

The Vicar then called upon the ringers to ring a short peal, solemnly charging them 'to be good men and true, to uphold the honour of our belfry, and loyally to observe and keep all our rules and laudable customs.' The bells were then rung by A. Yates 1, F. Read 2, L. Williams 3, R. Atherton 4, B. Crabtree 5, R. Balderstone (capt.) 6, W. E. Wilson 7, L. J. Williams 8.

In his short address, Canon Perry emphasised that the highest of all purposes associated with the function of bells was that expressed by their use in the church. He congratulated the parishioners of Rishton upon their enterprise in carrying out this improvement of their belfry, which represented, he said, an undertaking of no inconsiderable difficulty, and one which had involved them in rather heavy cost. In these modern times, the sound of bells often fell on deaf ears. The answer to that criticism was that they always had done, yet the message of church bells, sounded through the ages, would continue.

Following the service the bells were rung to short touches in the following methods: Grandsire and Stedman Triples, Bob Major, Treble Bob Major, Cambridge Surprise Major and Double Norwich Court Bob Major, by ringers from Blackburn, Blackpool, Chorley, Church, Bolton, Oswaldtwistle, London, Whittle-le-Woods, Todmorden and Helmshore.

The new bells, which have been tuned on the latest principle, are hung in a massive cast iron frame, supported by steel girders. The tenor—note F sharp—now weighs 15½ cwt. The bells are hung on ball bearings with the latest type of headstocks and self-lubricating clappers, and are a fine example of modern bell founding and installation, reflecting great credit on Messrs. Gillett and Johnston, who carried out the work.

All present at the dedication service expressed delight at the 'go' and tone of the bells, and residents generally have voiced their appreciation of the musical qualities of the new peal.

(Continued from previous column.)

TWO CONDUCTORS FOR A PEAL.

The band at Longparish, Hants, all rang their first peal in honour of the Coronation. Their first attempt failed after 1 hour 25 minutes, but the second was successful. They had two conductors, who each called 21 six-scores. It was rung on the birthday of F. Tonge, ringer of the 2nd bell.

Leatherhead's Coronation peal was rung on May 29th and was also a compliment to Mr. W. Mossam, who attained the age of 80 years on May 13th. He has been a service ringer at Leatherhead for 57 years and is still on the active list.

Mr. A. V. Davis, of Bournemouth, writes: By responding to your request for reports of lost 'Coronation' peals, I am afraid I have been guilty of sending a badly framed report of the unsuccessful attempt at Wimborne St. Giles on May 19th. May I, with all possible speed, explain that I did not wish to blame the treble ringer or any other ringer for the collapse of the peal. If any have read the report in this way I ask them to accept my sincerest apologies. I was in the unfortunate position of a conductor caught 'napping' by the unexpected in some very excellent ringing, and am prepared to take the blame, if any there be, for not rising to the occasion. I sincerely hope the matter has not strained any friendships and that we may score the peal at some future date.

The peal at Dodderhill, on Whit Monday, was rung for the Worcestershire and Districts Association.

In the peal of Doubles at Northmoor, the ringer of the treble was F. Trinder, not Friender as printed. It was rung as a Coronation peal.

On Coronation morning eight of the service band turned up at St. Mary's Church, Helmingham, at 8 a.m. and rang three courses of Cambridge Surprise Major and 504 Stedman Triples. Then, after 'firing' the royal salute, they went on to Framdsen and rang a course each of Superlative, Bristol and London, again firing the royal salute. Those taking part were J. H. Arbon, W. J. Button, L. G. Brett, T. W. Last, G. Pryke, L. C. Wightman, A. E. Whiting and G. Whiting. The remaining three of the band, J. Bennett, G. Bennett and W. G. Whiting, went to make up a band for the six at Otley.

YORKSHIRE ASSOCIATION.—Continued from page 410.

The following 14 new members were elected, and, as this was a record for some considerable time, a special resolution was made welcoming them to the association: A. Heald and B. Robinson, of Elland; H. Greenwood, of Oxenhope; A. E. Lambert, of Silsden; C. Parker and F. Gibbard, of Burley; and E. Holmes, Jonas Whitaker, J. Bracken, S. Tillotson, C. Law, H. Roe, H. Wilcock and T. Rogers, of Kildwick.

The Chairman made a preliminary announcement regarding the Snowdon Dinner, which he said had been arranged for October 9th at the Conservative Club, South Parade, Leeds. He said that the arrangements were well in hand and he hoped that this year would be even more successful than the last.

The Chairman also referred to the forthcoming meeting of the Central Council at Leeds next year, and mentioned that this would be the first time it had ever come to Leeds.

Mr. Paice, secretary of Sonning Branch of the Oxford Diocesan Guild, who was visiting the district for a conference, thanked the members for their kind hospitality to him, and brought greetings from his own association.

The Chairman said they were only too pleased to welcome Mr. Paice to their meeting, and asked him to convey the Yorkshire Association's greetings to the Oxford Guild upon his return.

Mr. J. W. T. Holgate proposed a hearty vote of thanks to the chairman for so admirably conducting the meeting, and this was supported by Mr. Ambler. Canon Marshall, in replying, said that he had been delighted to be present that afternoon, as vacant Saturdays were few and far between. He was hoping that a time would come when he would be able to come amongst the members more often as he thoroughly enjoyed the meetings.

The September meeting is due to be held on Saturday, September 4th, and it was decided that this should take place at Drighlington, where the last Yorkshire meeting was held in 1916.

A vote of thanks to the secretary was proposed by Mr. W. H. Senior for the arrangements made, and so ended one of the most successful meetings of the Western Division for some time.

The following towers were represented at Kildwick: Armley, Aysgarth, Batley, Bramley, Bradford Cathedral, Burley, Birstall, Drighlington, Denholme, Earlsheaton, Guiseley, Haworth, Holbeck, Headingley St. Chad's, Headingley St. Michael's, Idle, Ilkley, Keighley, Kildwick, Leeds Parish Church, Oxenhope, Pudsey, Queensbury, Rothwell, Silsden, Sutton-on-Hull, Skipton, Shipley and Wokingham (Berkshire).

DON'T SCRUB YOUR HANDS!

*Cleanse and preserve your
skin this simple way*

To many people, the problem of getting the hands really clean without harming the skin is a serious one. Grease and grime, which become deeply ingrained into the pores of the skin, are extremely difficult to remove, and ordinary washing with soap or even scrubbing will fail to remove them completely. Housewives, particularly, who complain that their hands get ruined by the nature of their work, will find the preparation called DERMAFOAM, a real "godsend." DERMAFOAM just smoothes away dirt and grease without effort. It gets right down into the pores and removes every particle of grime, leaving skin beautifully supple and healthy.

Men, too—when you've finished that dirty job on the car, DERMAFOAM will quickly banish all grease and oil from your hands. It acts almost magically—working under and around the nails and into every minute crease, removing all trace of dirt in a flash.

Engineers, Painters, Car Mechanics, Printers — *everyone* — will welcome DERMAFOAM, the modern method of cleansing and protecting the hands.
