BRISTOL SURPRISE

IN H. G. Wells' entertaining fantasy, 'The New Accelerator' (which, by the way, should be read by anybody who has enjoyed Folkestone Leas), the narrator opens his story with the remark: 'Certainly, if ever a man found a guinea when he was looking for a pin it is my good friend Professor Gibberne.' The unfolding of the fantastic little drama justifies the comment, and the comment serves to remind us that many important discoveries in this world have often been either accidental or else by-products of some other line of investigation. Examples of these may be found in the history of changeringing, and it may be noted how often the significance of a discovery has not been fully realised until some considerable time has passed. The origin and first appearance of Bristol Surprise illustrate this point.

Towards the end of the 19th century there was a great revival of activity in the theoretical field of change-ringing and a manifestation of much enterprise among leading ringing bands in a desire to break away from the existing standard methods. Surprise ringing of the time was confined almost entirely to Superlative, Cambridge and London, and the first of these enjoyed a popularity that has since considerably diminished. A number of clever composers of the time were, however, busy behind the scenes, and much new material was already born and much more conceived. In 'The Bell News' of December 4th, 1897, Frederick Dench published Brighton Treble Bob, a method which he explained was to provide an improvement on Kent, and for which he claimed the distinction of being the first Treble Bob method with a lengthening lead and a clear proof scale. A peal in this method does not appear ever to have been rung, and the method itself has lapsed into obscurity. But in the long line of change-ringing tradition it has importance in that it led directly to the appearance of Bristol Surprise.

On December 11th there came a letter from that very shrewd investigator and innovator, E. Bankes James. He pointed out that Mr. Dench's method had not a clean proof scale and that no method up to that time had been published showing the combination of lengthening lead and perfect freedom of composition. He went on to say, nevertheless, that many such methods were to be had, and that in seeking for Gloucester Surprise he had come across a whole group bearing a strong family likeness.

As an example of what he contended, he published a lead of what we now know as Bristol, although he appended no name to the figures and left it purely as an illustration, so that we do not know whether or not he appreciated just what he was offering to the Exercise.

Bankes James added at this point some remarks on the classification of methods that should be interesting to us who are so used to what has now become accepted in method nomenclature. He says: 'I would distinguish Treble Bobs from Surprise methods by a rigid adherence to the bell in the Slow (as in Oxford and Kent) in the former. And again, no method should be classed under the title of Court Bobs in which consecutive places are made. This, of course, is only my personal opinion. . . .' The personality' and achievements of Bankes James are apt to be somewhat obscured by the more prominent public activities of his brother, Law James, but we now see him as a brilliant investigator and student, reaching out far beyond the times in which he lived.

The important figures published by Bankes James attracted no immediate attention, and it was more than three years before the first peal of Bristol was rung. On March 22nd, 1901, the famous Brighton band, under their remarkable conductor, George Williams, rang 5,088 at the Church of Peter in three hours and nine minutes. In 'The Bell News' of April 6th George Baker, who rang in the peal, republished a lead of the method, commented on its qualities, and concluded his letter with the assertion: 'For complexity in ringing, all the band agree that Bristol Surprise stands first, and London Surprise must for ever take a back seat.' Time has proved the worth of Bristol, and whether or not George Baker was right there can be no doubt that the method, first put forward to demonstrate an academic point, has achieved a popularity that perhaps its author himself did not foresee. E. C. S.

BELFRY

Entering St. Margaret's
Church, Whitnash, for her
wedding on Aug. 27th, Miss E.
A. Trindall passed through the ringing chamber,
which had been decorated for the occasion.
The bride was one of the original band of postwar ringers at this church and had lately been secretary. After the ceremony she returned to the ringing chamber to start a quarter peal of Plain Bob Minor, which was successfully brought round.

To mark the christening of Andrew John Housden at Burwell, Cambridgeshire, a handbell peal was rung by the father and godfathers and umpired by the two godmothers.

Starting to ring in February, Valerie Ford and Martyn Fordan, of Tewin, Herts, rang their first quarter on August 31st. Congratu-

The Rev. R. P. Farrow has resigned the living of East Lulworth and left the district. His address now is Ramsey Hall, Byron Road, Worthing. Tel. Worthing 580.

Worthing. Tel. Worthing 580.

The band who rang the peal at Stapleton. Bristol, on September 3rd, would like to associate it with the memory of the late Mr. Frank Skidmore, who learnt to ring on these bells, which are hung anti-clockwise.

Mr. Wilfred Williams has now conducted a peal of Surprise in each county in England and Wales and is the first ringer to do so. The last was Co. Durham.

A peal attempt of Yorkshire Surprise Major at East Grinstead on July 30th broke down after nearly three hours' ringing. The attempt had been arranged as a compliment to Miss June Clements and Mr. Dennis Mitchell, who were married that day at Worthing.

Mr. Walter Ayre informs us that his first

Mr. Walter Ayre informs us that his first peal as conductor was Bob Minor at Thornton Curtis, Lincs, on October 19th, 1912, in which there were four first peals. He adds that he tried hard to persuade the conductor of his first peal at his home tower, St. Peter's, Bartonon-Humber (April, 1911), that he wanted to call his own first peal, but he would not hidge his own first peal, but he would not budge,

band.

By ringing the tenor to the peal at Aspenden on September 3rd, Mr. F. Aldridge has become the first member of the local band to ring a peal at Aspenden since October, 1746, when a peal of Triples was rung by a resident

Mr. John C. Baldwin expresses his thanks to ringers of Newbury and district for their hospitality during his stay there.

Mr. A. Patrick Cannon has now rung 99 peals of Double Norwich Court Bob Major in 99 different towers.

Mr. Michael Hobbs, of St. Ambrose's, Bristol, while on holiday in the New Forest organised a quarter peal of Cambridge Surprise Minor at Brockenhurst on September 2nd.

Mr. P. Newing, of Littlebourne, Canterbury, is entering Rochester Theological College. On August 23rd he and John C. Baldwin, with friends, rang three quarter peals—at Chislet, St. Nicholas-at Wade and Minster-in-Thanet.

The Church of St. Andrew. Puckington. near Ilminster. Somerset, has lost its tower captain by the death, on August 29th, of Mr. Harry Bungay, aged 80. To his memory a quarter peal of Grandsire Doubles was rung on September 1st.

The ringers of St. Peter's, Pentre. Rhondda, wish to thank all persons connected with the following towers for the hospitality extended to them while on annual outing to Somerset on September 3rd: St. Andrew's Banwell: St. Mark's, Mark; St. Cuthbert's, Wells; St. Andrew's, Burnham; St. Mary's, Wedmore.

Richard Brown, of Kessingland, Suffolk, was unfortunate, whilst on holiday in Lincolnshire, in losing a peal of Minor (his first on six) on September 1st at Whaplode. Having rung two extents each of Oxford T.B., Kent T.B. and Plain Bob, his rope broke 130 changes from the end of the third and last extent of plain. The band were sorry to see him go away emptyhanded after ringing so well, and wish him greater success in his next attempt. greater success in his next attempt.

GOLDEN JUBILEE OF BUCKFAST ABBEY BELLS

ABBEY BELLS

IN September, 1910, the Community of Buckfast Abbey received from the late Sir Robert Harvey, of Dundridge, near Totnes, the munificent gift of a ring of 14 bells. These bells, cast by Warner, with a tenor of 28 cwt. in D flat, were solemnly blessed on Michaelmas Day, 1910. The bells were first hung 'dead' in the old Abbot's Tower. In autumn of 1920 the tower of the present Abbey Church was sufficiently advanced for the bells to be hoisted into position and hung for ringing. The bells were hung in what is now the ringing chamber and were rung from the lantern gallery; an experience which many visitors found disconcerting as there was a sixty foot drop from the gallery to the chancel pavement. The bells were first rung by a band from Buckfastleigh for Christmas, 1920. Only one peal was ever rung on these bells; in 1930 a peal of Stedman Cinques, conducted from the tenor by the late Mr. William Pye. In 1935. with the commencement of the completion of the tower, the bells were taken down and sent to Messrs. Taylor's foundry, at Loughborough. Here they were recast—considerable metal was added so that the present tenor is 41 cwt. in C. In March. 1936, the 14 bells returned to Buckfast. together with a new bourdon bell—'Hosanna,' which weighs 7½ tons, and strikes F, a fifth below the tenor of the ring. All fifteen bells were rehung on steel frames and were first rung for Easter, 1936. Since the hanging of the original bells in 1920, the community band had always rung call changes, until in 1955 the Rev. Oswald Mowan, O.S.B., became captain of the Abbey band. Greatly encouraged by the late Mr. J. E. Lilley, the Abbey ringers made a determined effort to master half-pull ringing. In the last few years great progress has been made, due mainly to the help received from members of the Devon Guild, among whom special thanks are due to Mr. E. M. Atkins, of Teignmouth

Two years ago one of the community rang the treble to a peal of Grandsire Triples, at

Teignmouth

special thanks are due to Mr. E. M. Atkins, of Teignmouth

Two years ago one of the community rang the treble to a peal of Grandsire Triples, at Wolborough, and six of the Abbey band rang a quarter of Plain Bob Doubles without any outside help. During the present year three of the community rang in a peal of Plain Bob Minor and in a quarter of the same method, whilst in the last few weeks four of the community have rung in two quarters of Plain Bob Triples. The same four monks are also enthusiastic handbell ringers and ring touches of double-handed Plain Bob Major.

Since the bells were hung in their present permanent home, six peals of Stedman Cinques have been rung on them, also one of Grandsire Cinques and one each of Yorkshire and Cambridge Surprise Maximus, and one each of Plain Bob Major and Minor.

September 29th of this year will mark the golden jubilee of the Blessing of Buckfast Abbey bells. It is to be hoped that the event will be marked by at least one more peal, in which some at least of the ringers will be members of community.

SERVANTS OF THE EXERCISE - No. 38

Master, Worcestershire and Districts Association.

Mr. W. B. Cartwright is a most valuable member of the Central Council. His advice and help, often sought, are ungrudgingly given, and he has piloted the Council through many a knotty problem. He is a solicitor of the Supreme Court, practising in the city of Birmingham, and is held in very high esteem in the ranks of his profession. The story of his progress is fascinating and shows what can be done by sheer hard work and perseverance

He was born at Selly Oak, Birmingham, in 1900 and was educated at St. Mary's and Bournville Schools. He entered a solicitor's office in 1915, and by hard work qualified, passed his final examination, and was admitted as a solicitor, in 1940. This year he is taking part in the American Bar Association's annual conference and also the Commonwealth Law Conference at Ottowa.

Conference at Ottowa.

Mr. Cartwright learned to ring at Selly Oak in 1919, and rang his first peal at Harborne. Birmingham. in 1920. This was Stedman Triples, conducted by the late George Pigott. Bill Cartwright has always been unswervingly loyal to the Worcestershire Association. and early in his ringing career he conducted many peals of London and Bristol Surprise Major. His work prevented him from building up a huge peals total, but he has, nevertheless, achieved a total of 272, of which he has conducted 105. He served the Association as Ringing Master of the Northern Branch from 1922-1924, and as secretary from 1934-1936. He was made an honorary member in 1937, and was appointed Master in 1956, which office he still holds.

Elected as Central Council representative in

Elected as Central Council representative in 1951, he was soon preferred for service on the Standing Committee, where he is able to give invaluable help and guidance. He is a good churchman, and has held a number of offices at St. Mary's, such as churchwarden, sidesman, and secretary of the P.C.C. for well over 20 years. He has done nearly everything, except take a service, and has even played the organ! Since 1922 he has served as Ringing Master at St. Mary's, ringing regularly for service there. He is married and has two children.

Such men as Bill Cartwright are the salt of the Exercise and we count ourselves fortunate to possess him in our ranks. He is remarkably modest and unassuming, a shining example to all of us.

JAFUS

UNIVERSITY OF LONDON SOCIETY RINGING WEEK

QOR the second year in succession the University of London Society was fortunate in finding accommodation for the annual ringing week which combined comfort with scope for the youthful mind of the company to find expression. Situated on the outskirts of Birmingham, Fircroft Theological College forms part of the Cadbury Trust, and adheres strictly to the Ouaker temperance ideals which were written in when the Trust and the Bournville village were first established.

At this headquarters some of the more notable ringers of the area stepped from the pages of 'The Ringing World' and joined us for dinner on the first evening. For those of us who had not previously done so, it was a pleasure to meet Messrs. George Fearn, Frank Perrins, Edgar Shepherd and William Cartwright, who later joined in ringing handbells with members of the Society.

Having settled in, we began our programme in earnest on Sunday, when bands were dispatched to aid or impede various of the Birmingham towers, and two quarter peals were scored. The afternoon of Sunday was something of a lull before the Warwickshire countryside was stormed, and gave us an opportunity to be good tourists and visit places of interest in the area.

During the memorable week which followed, our routes took us as far east as Rugby and south-east to Coventry, Leamington, Warwick and the lovely town of Stratford-on-Avon with its equally-lovely bells. Here we disguised ourselves as cultured human beings and, contrary

to the forebodings of those in whom the dis-guise was most thinly applied, spent a most enjoyable evening in the Shakespeare Memorial Theatre, watching 'Twelfth Night.'

The itinerary was planned to select bells of quality rather than to achieve a large total, and in this we were highly successful and generally managed to do justice to the bells by selecting bands for each touch rather than issuing a general invitation to 'catch hold.' The technical highlights of the week were courses of London Surprise Royal, Glasgow Major and various touches of Spliced up to a maximum of nine methods. Four peals were attempted, of which two succeeded, a slightly higher proportion than the previous year. higher proportion than the previous year,

On Tuesday morning we were entertained on the Bournville carillon by Clifford Ball, B.Mus., who gave a most impressive and energetic re-cital and showed us 'the works' as well.

Friday night of a U.L.S. tour is traditionally Friday night of a U.L.S. tour is traditionally party night, and proves a most successful way of reaching that final stage of exhaustion which a week of late nights and climbing steps just, fails to produce. As usual, to the continued amazement and admiration of the entertainments committee, members accepted the most fiendish forfeits the aforesaid committee could devise, and emerged in good voice for the equally traditional sing-song which both ends the party and begins the next day.

The week concluded with a night in Dudley and after a final dinner there, we were enter-tained by Dennis and Margaret Layton at their new home in Kingswinford. Thanks are due to Dennis and Margaret for all their work to arrange the week and make it a success, and also to all correspondents and local ringers met or helped us in any way,

CHESHIRE RINGERS IN WORCESTERSHIRE

SATURDAY, August 13th, found us bound for Walsall, the main body of the party having assembled at Macclesfield, before calling at Newcastle to pick up Fred Wilshaw. The delightful bells at Walsall sounded well to the music of Yorkshire Maximus, which was John Worth's 100th peal on 12 bells; incidentally, he has a fine record of having rung over 100 peals on each of 6, 8, 10 and 12 bells. On leaving Walsall it was raining quite heavily, but it had eased a little when we stopped in Birmingham for a meal, before continuing on our way to Great Malvern, where we were to spend the week.

we were to spend the week.

We awakened on Sunday in time to see the early morning mist rising from the surrounding lowlands, revealing some truly magnificent countryside, in which the Malverns sit like miniature Himalayas. Breakfast over, we made tracks for the Parish Church at Malvern Link, where we enjoyed ringing for morning service. After lunch, a leisurely ride was made to Hanbury, where 'the youngsters' rang a peal of Cambridge Major in 2 hours and 59 minutes. We didn't meet any of 'The Archers,' of course, but the bells alone at Hanbury are worth 3 hours of any peal ringer's time. Meanwhile, the critics in the form of Messrs, Jenkins, Morris, Wilshaw and Worth had listened until 'the rains came down,' then they departed to ring for Evensong, at Dodderhill, another fine Worcestershire eight. Dinner at eight was 'par excellence' and it was at this point we were joined by Denis 'Umbala' Mottershead, making our number for the week up to 13.

Clent was the tower for our first attempt, Yorkshire, on Monday and we found that these bells moved along quite well, with very little effort. Those who had missed the morning attempt left Clent to go swimming at Stourbridge, but they returned in time to hear us come round. Time for a quick meal, then on to Hartlebury, where a peal of London was successfully accomplished on a ring of bells which have been returned to the 6th and bells which have been returned to the 6th and as a result blend very well. After dinner the more energetic members of the party took to table tennis and handbell ringing.

BROKEN ROPE

It was an early start for us on Tuesday morning as we had to travel to Birmingham, to attempt a peal of Bristol at Erdington Abbey. Here we suffered our first loss of the week when the rope on the 6th bell broke after 1 hour and 50 minutes' enjoyable ringing. Our attempt at Birmingham St. Martin's was not due to start until 5.30 p.m. so we spent most of the afternoon 'window gazing.' We were late starting, which necessitated rather fast ringing and a peal of Cambridge Maximus was brought round in 3 hours and 32 minutes. We joined several of the well known Birmingham ringers for refreshment in the local. before returning to Great Malvern 'and so to bed.'

The following morning. Wednesday, we travelled in brilliant sunshire to Salford Priors and subsequently rang a peal of Bristol, which was followed by refreshments in the nearby inn. We were due to attempt a peal of London at Mickleton in the afternoon, but with the exotic weather continuing (and sunbathing in mind) we were destined to ring for not more than a quarter of an hour. Returning to the hotel, there was time to go swimming in the open air pool before dinner, which in turn was followed by one or the other of the two more leisurely pastimes (depending upon the taste of the individuals concerned!!!).

Just to prove to ourselves that we were still

Just to prove to ourselves that we were still capable of ringing London we rang a 'tenors parted' peal in the method at Norton (Glos),

most pleasant surroundings and the bells have unusual interest in that the treble and second have the same strike note.

THE HIGHEST RING

THE HIGHEST RING

The members of our party who had not been ringing at Norton remained at Malvern on Thursday morning, hence they travelled directly to Upton-on-severn for the afternoon peal attempt, which was to be Pudsey. Leslie called a delightful composition by Arthur Knights to a brisk peal, in which incidental 6-5's seemed to appear from nowhere. There was time for us to visit Stoulton, near Worcester, where we rang on the lightest ring (tenor 108 lbs.) of six in the world, also we were able to have a pull on the six at the Parish Church. It was a dash back to Malvern, where we arrived just in time for dinner. Surplus energy was once again used up on table tennis and handbell ringing. John Worth showed us that he can still move round a table tennis table at great speed.

Those listening to the peal of Bristol at

Those listening to the peal of Bristol at Badsey on Friday were alarmed when it was suggested that the ringing should be interrupted so that an inspection of the tower could be made by an architect. Fortunately 'Arris,' so that an inspection of the tower could be made by an architect. Fortunately 'Arris.' using a little decorum, was able to persuade the architect to postpone his inspection, and the peal was completed without further ado. Great Hampton bells were one of the most pleasant surprises of the week and gave us no trouble in completing a peal of Lincolnshire in 2 hours and 55 minutes. We had a meal in Evesham, and with an hour to spare we accepted the invitation to ring on the 12 at the bell tower, where we enjoyed a half course each of Yorkshire and Cambridge Maximus. We rang on the majestic eight at Pershore Abbey in the evening, where some had to pluck up courage to go into 'the cage' for the first time!! After ringing at the Abbey we had a ring on the six at Pershore. Highlight of the evening was when Ted rang with the very young local ringers, the sum total of their ages not adding up to his age; and he still showing us how to ring tenors!!

Saturday arrived all too soon, we set out for

Saturday arrived all too soon, we set out for Bromsgrove, where we scored a peal of Cambridge Royal. We were more than pleased to learn that, by a pleasant coincidence, the peal was to celebrate the birth, on the previous evening, of a son to the Rev. and Mrs. C. F. Pilkington Pilkington.

Our thanks are extended to all incumbents Our thanks are extended to all incumbers, tower captains, and ringers who had made this tour possible: to Mr. Basil Jones, for his superlative arrangements, and to Messrs. Dunkerley, Worth and Jones for the use of their cars. It ail passed so quickly, but time always does when you're having fun.

R. B. S.

ARCHDEACONRY OF HALIFAX **GUILD**

A meeting of the Guild held at Marsden on September 3rd was very well attended. Ringing ranged from rounds and call-changes to Bristol, Superlative and other Major methods, with one or two rings with the ten going. Quite a few learners attended and the committee were pleased with the result. A short service was held in the Lady Chapel of this 'Colne Valley Cathedral,' conducted by the Vicar of Marsden, who gave a warm welcome. A fine tea was provided by the local ringers, and quite a lively business meeting followed in the School Room. Ringing was had until the late evening, and handbell ringing followed. Next meeting probably Longwood in November. D. S. A meeting of the Guild held at Marsden on

NEWS FROM VANCOUVER, B.C.

NEWS FROM VANCOUVER, B.C.

On July 30th. members of the Vancouver Society of Change Ringers were guests of the ringers of Christ Church Cathedral. Victoria. B.C. The group travelled on the new ferry service linking the two cities, from Tsawwassen (pronounced (Chaw-wassen), 20 miles south of Vancouver to Swartz Bay, 25 miles north of Victoria.

Touches of Grandsire and Stedman Triples and Bob Major were rung at this first visit of the Vancouver group to Victoria. Visiting ringers were Mrs. Sally Luttrell, Mrs. Frances Bodie, Miss Maureen Good, Mr. Anthony Collins. Mr. Ronald Hyatt, all of Vancouver.

Other visitors were Mr. Fred Westlake, of Port Coquitlam, B.C., Mr. Peter Crook, of Botton, Lancashire, and his daughter, Mrs. Paines, from Kelowna, B.C.

Later, at the beautiful Brentwood home of Mr. and Mrs. Arthur Izard, the group enjoyed a buffet supper and a plunge in Brentwood Bay.

A second outing was held on Avgust 12th

Bay.

a bunct supper and a plunge in Brentwood Bay.

A second outing was held on August 13th when both the Vancouver and Victoria groups journeyed to the ten-bell tower at the Benedictine Monastery, Mission, B.C. On this trip the Vancouver group were accompanied by their Ringing Master, Mr. Edwin Lee, formerly of Newark, Notts, Visitors from Victoria were Mr. E. W. Izard, Miss Margaret Izard, Mrs. Mary Barlow, Mr. Arthur Izard, Mr. Douglas Boniface and Mr. Ved Donaldson, Other visitors were Mr. and Mrs. Harold McDonald, of Ireland, Mr Westlake and Mr. Crook, Touches of Plain Bob Minor, Grandsire Triples and Caters were rung. An attempt was made at Stedman Caters. Guests were received by the Rev. Father Dunstan, Ringing Master, of the Abbey, Members toured the Abbey, after which tea was served.

E. G. WHITE, Chairman, Vancouver Society of Change Ringers.

A SHALFORD WEDDING

A romance in Shalford (Surrey) tower was sealed by the wedding at the Parish Church on September 3rd of Mr. Alan Charles Arthur Hunter, only son of Mr. Leslie C. Hunter (captain of the tower) and Mrs. Hunter, of Chilworth, and Miss Pamela Ann Purdue, only daughter of Mr. and Mrs. E. W. Purdue, of Shalford. Both bride and bridegroom are keen ringers, and the bride is also Sunday School superintendent. superintendent.

superintendent.

The Vicar and Rural Dean (Rev. W. R. Horth) officiated, assisted by the Rev. Cadoc Davies. The bride was attended by three child bridesmaids. Mr. Paul Butler was best man and Michael and Peter Johnson groomsmen. The reception, attended by 100 guests, was held at the Parrot Inn, Shalford, and the honeymoon is being spent at Dunsford, Devon.

OBITUARY MR. ARTHUR HARDING AN APPRECIATION

AN APPRECIATION

It was with deep regret that I read of the passing last month of Mr. Arthur Harding, as I well remember him coming forward to help the South and West District of the Middlesex Association. A few of us found plenty of spade work to do in the District, and one of my rewards was a peal of Kent Major with Arthur in his own tower of St. Mary's, Ealing, in February, 1910. He proudly told, me it was the first peal of Major on the bells since 1798!

Arthur was fond of Major on the tenor or seventh, and he loved good striking; but what a wonderful record of service in his own tower, 60 years! One could write at length about Arthur, but the words 'well done' were never more deserving, and he will not easily be forgotten.

LETTERS

NIGHTINGALE T.P.B. MAJOR

Dear Sir,—With reference to the Florence Nightingale peals, I did not produce a new method. Nightingale T.P.B. Major. This method was first produced by William Sottanstall and pealed at Liversedge in 1868. The method is an example of a class in which the work of the treble consists of dodging and place making (without plain hunting). place making (without plain hunting).

Students of change-ringing will know that, strictly speaking, a 'place' is made internally, and that the original word for dodge was 'bob.' For these reasons I think these methods could be all grouped under the heading Treble Place Bob.

Below are half-leads of each type of method in this group. As will be seen from their false course ends, peals in these methods are very difficult to obtain. Nightingale T.P.B., which is the first example below. has 12 f.c.e. and when Mr. Savory asked me to produce a simple composition I found it easier to use both 4ths and 6ths place bobs.

THE CENTRAL COUNCIL AND PEALS OF MINIMUS

FRANK T. BLAGROVE.

Dear Sir.—Having never attended a Central Council meeting, one can only wonder how they must be run after reading Mr. E. A. Barnett's letter on the voting for or against recognising peals of Minimus.

Surely the matter of whether or not peals of Minimus should be recognised was important enough to deserve a vote of its own; obviously Mr. P. H. Whitaker and Peter Border thought so from their recent letters, whilst Mr. E. A. Barnett was in complete agreement with them from the start, as it was on his guidance that the first peal of Minimus in five methods was published as a Miscellaneous Performance.

I am in complete agreement with Peter Border. When two Surprise ringers ring a peal of Plain Bob Minimus on handbells, there is a detertion of the steedard and the start that

Plain Bob Minimus on handbells, there is a degrading of the standards, and it is on this basis that the motion should be based.

I am sure that when the Standing Committee recommended that Minimus peals be recognised they had in mind ringers of 4- and 5-bell towers who may wish to ring peals, certainly not handbell ringers who wish to amuse themselves for an hour or so.

handbell ringers who wish to amuse themselves for an hour or so.

If, as now seems to be the case, the Central Council have to discuss the same motions year by year, there is still hope for Erin and Saturn Treble Bob Doubles, not to mention 9-bell peals. Put them all on next year's agenda and let us test members' opinions once again.—Yours sincerely, GEOFFREY K. DODD. Highelere Highclere.

COLLEGE OF CAMPANOLOGY ANNUAL MEETING

The reunion this year, at Staines on Augsut 27th, although not a triennial elective meeting, took the form largely of a conference on the many matters of importance now arising in College activity. Attendance, though not large, included members from districts up to 300 miles on the state of miles apart.

The vice-president (Mr. Harry Miles) presided. Messages of good wishes and/or apologies for absence included the president (Mr. Ernest Morris), the College chaplains, the belfries consultant (Mr. Frederick Sharpe), the carillonneur of Chicago University (Mr. James Lawson), the Misses Marie Cross. Marion Lidgey and Kathleen Knight (the retiring registrar), and others at home and abroad. Acknowledgment of gratitude was made to Mr. and Mrs. R. I. Shepherd, who kindly made all local arrangements for ringing and for the meeting, and generously provided attractive refreshments. freshments.

To fill vacancies arising from retirement, Professor R. J. Brocklehurst (Somerset) was elected as a governor, Comdr. C. F. Jackson, R.N., registrar, and Dr. R. G. T. Bennett press and public relations officer. Other officers continue as hitherto, with registrar's office remaining at 40 Parkstone August Southern ing at 40, Parkstone Avenue, Southsea.

THE ANNUAL REPORT

THE ANNUAL REPORT
The annual report showed steady progress, the 100th membership registration having been effected during the year. Other interesting results for the year included (with numbers in brackets as totals since foundation—less than 40 per cent, so achievement is probably of a higher rating all round) correspondents 6 (19), tutors 6 (38), examiners retired 1 (15), College representatives in 29 counties in Britain, and in Eire, Northern Ireland, U.S.A., Tanganyika, Southern Rhodesia and—awaiting confirmation—New Zealand: schools of ringing now affi-New Zealand: schools of ringing now affiliated 2, learners instructed 143 (581), learners helped 187 (431), centres of instruction 44 (125), courses run 12 (34), talks and lectures given including one B.B.C. broadcast, 61 (131). Efforts to advance the work of ringing training and practice in 1960 are recorded in a list of and practice in 1960 are recorded in a list of some two-dozen interesting varying activities. Participation in a municipal arts and crafts exhibition, with a ringing 'stall' and handbell demonstrations and a lecture, proved most successful. The belfries consultant gave valuable help and advice during the year. The report features the standard of instructional work being carried out. being carried out.

COURSES.—Three types are now being run: (1) The 'serial' 10- or 12-session introductory course in bell-handling and control in the ele-

PEALS OF MINIMUS

Dear Sir,-Now that the Central Council has committed itself to the recognition of peals on four bells, will it please—to prevent further lowering of the standard of ringing—take steps as soon as possible to obviate peals on three and two bells?—Yours faithfully,

CHAS. J. SEDGLEY.

Dear Sir,—I should be very grateful if Mr. J. M. Jelley, who recently asked for suggestions as to a better way for two men to spend 1 hour and 25 minutes than in ringing a handbell peal of Minimus, would communicate with me at my home address.-Yours sincerely,

O. WILDE.

10, Peyton Place, London, W.1.

ments of change-ringing; (2) The week-end residential course in two or three ringing subjects; (3) The one-day instructor's course in elementary training. The numbers of courses quoted above are mainly of type (1). The first of type (3) course was given successfully by the College in Bristol in March last. The College also assisted, through one of its tutors, in the Oxford Diocesan Guild's course at Bigwood (type (2)). A College type (2) course is being considered for next spring in the South being considered for next spring in the South

The report also emphasised the need for re-porting activity and for correcting any false impression that the College is anything but altruistic in its work and publicity, and was adopted.

STATEMENT OF ACCOUNTS

The bursar, Surgeon-Captain A. Lawrey, detailed the accounts, which showed a credit position of about double that of the preceding year, but stressed the need for co-operation of all members in prompt payment of dues and prompt response to notices, etc., to avoid unnecessary postages and other expenses, since the organisation is entirely voluntary. The statement was adopted.

A reissue of the College Constitution, revised to correct minor points to date, was authorised. to correct minor points to date, was authorised. Copies will go automatically to new members, and to old members on application, enclosing 3d. postage. In respect of the rising status of the College, proposals were discussed for its public recognition. These are to be initiated in part immediately, with consideration later of the remaining proposals, depending on the maintenance of College achievement.

AFFILIATION TO CENTRAL COUNCIL

AFFILIATION TO CENTRAL COUNCIL
At its foundation the College Constitution
enjoined its loyal adherence to the Rules and
Decisions of the Central Council, to the support of 'The Ringing World,' and it provided
for application for affiliation to the Council,
but as to the latter only when the College
should be demonstrably attaining its objectives
and its numeric qualification for membership
of the Council. As the College is now entering
its fifth year of progress, it was resolved to
consider such application at the close of the
year.

Sales of recently-issued 2nd edition of Part I of the Ringers' Manual of Reference were reported as 'steady.' It was agreed to sponsor the publication of Part II—' Method Structure in Change Ringing,' which it is hoped to issue by the end of the year, booking of copies being invited. The other six 'Parts,' in various states of notes, etc., by specialists, are to be issued as soon as circumstances permit. It was resolved that one or more pamphlets, as interim resolved that one or more pamphlets, as interim publications in lieu of the complete 'Parts,' shall be issued, starting with one on Part III—' Practical Method Ringing.'

Resolved that leaslets be issued as follows: Leaslet 'N'—A revision of old leaslet No. 3, on the organisation and work of the College for the Exercise (Information); Leaslet 'M'—On the nature of the Parts of the Manual of Reference, but specifying the relevant Central Council and other publications, recommended for College study and practice; Leaslet 'C—On the three types of course now being run and/or sponsored by the College. Type (I) course being detailed as to initiation and checking to completion.

The next reunion was proposed for London on Saturday, September 30th, 1961, when the triennial elections will be held.

ROVING & RINGING IN FIVE COUNTIES

(14th annual tour of the Society of Roving Ringers, July 23rd-August 1st)

IT had been a week of thunderstorms and as Saturday approached we crossed our fingers and waited anxiously. We weren't to know then that the 1960 tour was to be one of the driest ever; in fact, we were not to don our cycle capes until the final Saturday, and then only for a few minutes.

Because railway time-tables were not devised for our convenience alone, only half of us arrived on time at Newark and we contented ourselves with some pleasant Grandsire Caters. Nineteen assorted ringers took part in the cour including one young lady, whom we found was regarded by the Y.H.A. as

juvenile.

'juvenile.'
Six youth hostels were visited and the appearance of that at Southwell assured us that our Sunday morning duties would be casily disposed of. Accordingly, we arrived at the Minster on time. The difficulties of ringing on this anti-clockwise eight are appreciated by many, but the local ringer present assured us that the striking in at least our initial touch of Grandsire had not been beaten by a visiting band. Spurred on we attempted Cambridge—with regret! Some of us attended morning service and the rost adjourned to the ringers' room for handbell ringing. We prefer to think that the course of Grandsire Cinques came to grief purely because of the choir's efforts in the same building.

SUNDAY'S MEAGRE RATIONS
Food is always difficult to find in the countryside on Sundays and all we could scrape together for lunch were a couple of pieces of bread each, some cheese and an omon. This was to be the scaple diet of some of us for the rest of the week but the proprietors of 'Evenden's Enterprise' had not then opened shop. However, we were assured that one pint equals 250 calories and made do accordingly. accordingly

We were due to ring at Bingham after lunch but the vestry key had unfortunately been taken out for an afternoon spin. However, through the kindness of the locals, we eventually rang at Whatton (6), instead. We were now behind schedule as we crossed the tip of Leicestershire into Lincolnshire and arrived for evening service at Barrowby (6), feeling rather peckish. The Vicar had kindly offered refreshment afterwards but the hostel meal had already been booked and we regretfully had to decline. However, having been given precise instructions as to the quickest approach, we all stayed until immediately before the sermon. On Monday morning the Cambridge Royal at Grantham gave a good start to the day although our Master soon realised that attention to striking, particularly of the little

at Grantham gave a good start to the day although our Master soon realised that attention to striking, particularly of the little bells, would be the order of the week. Billing-horough followed and, to the metronomic accompaniment of the clock pendulum, we rang our first London on this light eight. From here we could see the 'Stump'—our destination the following day. As expected, good striking was again lacking at Surfieet, our only twelve, and after some indifferent Stedman and Grandsire we resorted to Bob Royal. Left to our own resources we had no little trouble in removing the 'drum' mechanism at Holbeach and ringing here was greatly curtailed. By a stroke of genius Mr. Joint Secretary had arranged two nights at the local 'Do it yourself' hostel. Have you ever slept in a courtroom? Not every hostel can boast a coffin in the vaults, a theatre, a cinema, and a gymnasium all rolled into one.

BOSTON STUMP

BOSTON STUMP
Without saddlebags now we started on Tuesday for Algarkirk (6)—pronounced quite differently—another anti-clockwise ring in the midst of the transepts. At Kirton-in-Holland we accomplished our first full courses of Bristol and Double Norwich with incidentally, the treble up the wrong way! We have still to decide how many steps there are to the top of Boston Stump but none of us felt inclined to make the journey downwards to listen to the outside effect of the half course of Cambridge. At Sutterton, after ascertaining we could ring neither Spliced nor Superlative we rang a good course of York-

shire. On reflection some may suggest that the quality and variety of this year's ringing was not difficult to surpass, but at least one veteran was heard to say that no tour had been more enjoyable.

We passed the 100 mile mark on the way back to Holbeach and when we left on Wednesday morning, not without regrets, the Warden and his entourage raised no objection to our small mementoes of the visit. Before ringing at red-bricked St. Paul's, Fulney (8), at the approach to Spalding, we relaxed in the sun on the banks of the Welland. The mere 15 cwt. of the tenor at St. Mary and St. Nicholas', in the heart of Spalding, gives little indication of the majestic tone of this eight but, although they are easy to ring even from the ground floor, the difficult hearing produces a tendency to rush these bells. We followed the Welland south-west and collected more midges than we care to remember as we headed for Market Deeping (6). The metal facings bridging the very worn steps coupled with the narrow staircase required careful negotiation as we entered the chamber here. The local capiain, who, incidentally, conducts a peal of Spliced every birthday, called us off to a good course of London.

We were now leaving the Fens—perhaps two days there on bicycles are enough—and after exchanging greetings with several hundred black sheep we met the Al—and the traffic—in Stamford. The mellow six at All Saints' are rung from a spacious chamber whose decor is second to none, and our first touch of Double Court was again called by the locals.

GRAND SOCIAL EVENING

GRAND SOCIAL EVENING
The thought of a mere 20 miles the follow-The thought of a mere 20 miles the following day spurred us onwards as we tackled the climb south into Northamptonshire and the hostel at King's Cliffe. The warden(ess) here had planned a grand society evening (until 10.30 p.m.!) and so after the usual nightcap pleasantries. we redescended upon our hosts an jovial mood. To Uncle Victor's music we did our best with the Slow Bobtrot, the Sixscore Reel, and the extent of Highland Surprise, and we only hope the unfortunates who had by chance chosen to share our roof that night enjoyed it as much as we did.

Even the voice of the warden's daughter would have been lost in the local tower (6) next morning and it seems that ropes too have ears because one decided there and then that its working days were over. The rest of

ears because one decided there and then that its working days were over. The rest of Thursday was to be spent in Rutland and, as we entered through the fields of golden barley, we realised how well the weather was treating us. We found the bells at Edith Weston (6) still half-muffled (back-stroke) from the pressure days of the statement of the pressure of the statement of the stateme from the previous day's ringing at the interment of the old Vicar. To appreciate the delightful echo effect of ringing in whole pulls (we kept this to Plain Bob), one might pulls (we kept this to Plain Bob), one might advecate the repetition in the 'echo' of any trips arising at handstroke! Shopping at the local N.A.A.F.I. gave us a 5 per cent discount for lunch and the baker's van arrived just at the right time—and, one might add, at the right place too!

LANDLORD A RINGER

The 'Cuckoo,' at Wing (our first five), opened specially for the occasion: as well as having been a ringer for 40 years the landlord appeared to have the monopoly of several of the village's industries. From here to Glaston (6) and so to Uppingham, the second town and the other eight of Rutland. The long draught gave the usual difficulty but our course of Rutland was respectable by any standards.

Rutland may be small but it has its quota of short, sharp hills and we were glad to reach Loddington hostel just over the border in Leicestershire. Two unfortunate circumstances led to our first accident as we again approached the hostel later that night. Firstly, approached the hostel later that night. Firsly, the 'local' was not local enough and, secondly, the Y.H.A. Handbook warned us about the wrong hill! A few kicks and a subsequent professional three and sixpennyworth soon put right the buckled front wheel, but one can only hope that our Sherwood member involved will steer well clear of his merry 'Woe-men' We had not looked forward to breakfast at 7.30 on Friday, but we were soon glad to be out 'en bloc' (or so we thought) in the inviting sunshine, and Mr. Joint Secretary again showed his brilliant organising powers by arranging our 22 mile get-off-tor-coffee-only morning on this particularly glorious day. In keeping to the valleys we found ourselves opening no fewer than seven gates and finished up struggling into Northamptonshire along the mire of a cart-track. It couldn't have been a more su table day for a puncture and, sure enough, in between the gates and the mire we had our one and only.

Thrapston's was our only eight of the day

enough, in between the gates and the mire we had our one and only.

Thrapston's was our only eight of the day and, paradoxically, although there were but two fives to come, this last full day together was one of the most enjoyable. We entered Humaingdonshire and climbed away from the main road into picturesque Leighton Bromswold. There is little pleasure in ringing a heavy 'long-draughted' five on a 'sticky' afternoon but—who knows?—someone might be listening, somewhere. This parish has had no Vicar of its own for many years, and £500 is needed to rehang the bells. But the church with its two pulpits is kept spick and span by the local farmer's wife (a churchwarden), and the former was not long in showing her appreciation of our ringing on her birthday. The 'fee' her eligible daughter ('I hope I shan't be here next time you come') brought found its way by popular consent into the alms-box and the gallon of lemonade waiting for us outside was indeed welcome. Our Master asked the young lady to conveyour birthday greeting to mother and, permission having been volunteered, we departed over the farmlands and through the undergrowth towards Brampton (5).

On this trip our (hitherto) lively junior had growth towards Brampton (5).

over the farmlands and through the undergrowth towards Brampton (5).

On this trip our (hitherto) lively junior had a Ettle trouble with her sweater and as a result found herself sampling the road surface at close quarters. However, we eventually reached Houghton Mill (No Smoking) and passed our last night together over the sound of rusning waters. We exhausted our limited repertoire by midnight (with the kind indulgence of the Warden) and began to look forward to next year when some industrious member hopes to publish a 'Hostel Hanthology'—perhaps incorporating a 'Guide to the Juke Boxes of Britain'(?)

The drift homewards started on Friday evening but was more than offset by the weekenders (i.e. trousers and skirts), whose arrival gathered momentum as Saturday progressed. From Godmanchester (8) and Spaldwick (6) we passed the Three Shire Stone and entered Northamptonshire for the last time. As we approached Higham Ferrers (8), we reluctantly put on our capes, although not for long, and eventually arrived at Wellingborough (8), with only ten miles to go. We cycled these last few of our 250 miles against the wind dreaming of the luxurious hot baths waiting for us at The Angel and The Ram, in Northampton, and, as our weary bones descended into the soothing waters, our tour of 1960 was virtually over.

1961 REUNION—SHREWSBURY

After dinner that night we decided to hold our 1961 reunion in Shrewsbury and we look forward to our cine enthusiasts reminding us there of the things we did when we thought no one was looking.

The rest of the week-end was spent ringing at eight towers in and around Northampton (at least some of us were up and about by 7 a.m. on Sunday), where we received many warm welcomes. In particular it is worthy of note that Easton Neston (8) are again ringable due to the untiring efforts of local ringers, who have spent many hours working on these bells. A very good course of London at Moukton on Bank Holiday Monday afternoon brought the whole proceedings to a close. Refusal to give permission to ring is virtually unknown today but we good nevertake for granted this privilege, which is so unhesitatingly bestowed and we do appreciate the co-operation of all the incumbents and locals at the 36 towers visited this year. Our two joint secretaries again excelled themselves in carrying through the complicated arrangements without hitch and the maps and guides and assortment of mukti-coloured pins may again rest for another six months or so.

ST. CUTHBERT'S CHURCH. DARLINGTON

By ROBERT SCARR

Ring forth, Holy Bells, Ring forth from your Tower, With music that tells, of Christ's saving power, Proclaim "Christ is Risen" Exalted and Crowned And hath opened death's prison, And set free the bound."

TOR over seven-and-a-half centuries the bells of St. Cuthbert's have rung out over the town of Darlington, and at no time is their message more becoming and welcome to Christian people than

at Eastertide.

Built in the later years of the 12th century, the early church would no doubt have a low central tower with a single bell. When the spacious belfry and tower were added, nearly two centuries later, four bells would be introduced. In pre-clock days, people relied on the bells to tell them the time of worship, and for centuries the bells of the parish church were the only bells heard in the town.

The church records abound with references to the use of the bells. It is of interest to note that when the King's Commissioners visited St. Cuthbert's in 1553, to purloin what was of value, for the 'King's Highness use,' they left at the church—' four bells in the

stepell; a sance bell, two hand bells, three sacring bells, and a little bell that the clock smyteth on.'

The bells were used extensively during the Stuart regime, and they proved an expensive item in the churchwardens' accounts. One they proved an expensive item in the churchwardens' accounts. item in 1630 is for 'Soape to the belles 2d,' but it is quite evident from the subsequent expenditure that more than soap was required. The next year a new 'headyoake for the Great Bell'—six feet long and 26 inches square—was brought from Elm Park, 16 miles away, at a cost of 15s.

17th CENTURY RECASTING

In 1633 the Great Bell had to be cast anew, the bell founder and his men coming to Darlington to do the work. They set up a furnace near the church, and used 100 lb. of metal at 8d. a lb., 100 lb. at 7\frac{1}{2}d. a lb., 75 lb. at 7d. a lb. and 24 lb. of 'Pewther' at 11d. a lb. When the casting was successfully accomplished, the churchwardens expressed their entire satisfaction by giving the bell founder and his men 7s. to go and enjoy themselves for the rest

The local ringers were certainly broadminded in those changing times. In 1632 they received 2s. 3d. for ringing for Charles I, but 19 years later the Presbyterian Vestry paid them 5s. for ringing to mark the defeat of Charles II at Worcester.

In January, 1753, a notice was brought before the parishioners as follows: Whereas some of the bells of the Parish Church, Daribinton are broke and cracked, and others so dispressioned in

as follows: 'Whereas some of the bells of the Parish Church, Darlington, are broke and cracked, and others so disproportioned in six, and now hang so badly, that they are at present of little use, and the major part of the parishioners are very desirous to have a new and compleat set of a Ring of 6 Bells. Now we whose names are hereby subscribed do hereby severally promise to pay into the hands of Mr. Francis Holmes, of Darlington, afforsaid, on or before March 25, 1755, the several sums set down below.'

Among the subscribers were the Earl of Darlington, £21; the Duke of Cleveland, £10, 10s.; John Pease, £2, 2s., and the total was £163, 5s. 6d., a substantial amount in mid 18th century currency.

A record of August, 1755, states: 'Darlington has lately completed a New Ring of Bells, with Chimes, by subscription. The Bells were cast by Lister of London, and at the same time the chimes were added by J. Harrison, of Barrow.' It would seem that at that time four old bells were recast and two new bells added.

USES OF BELLS

The bells were used on many occasions in those early days. The 'Passing-bell' was tolled by the sexton immediately after every death in the town, even if it occurred at midnight. This melancholy procedure was to invite the prayers of the parishioners for a soul passing into eternity.

passing into eternity.

Spencer records the story of old Willie Hall, who lived in Church Row, who on hearing the 'Passing-bell' made his way to the belfry and inquired. 'Who are you ringing for now?' The sexton being exasperated by Willie's constant inquiry, reported, 'I'm ringing for the death of Willie Hall.' This so upset the old man that he never inquired again, and soon afterwards the bell tolled for Willie himself. The 'Sacring-bell' was used during the solemn parts of the Mass and was last heard in St. Cuthbert's on November 17th. 1569, at the time of the 'Northern Rebellion.' It would seem from the inventory of 1553 that, in addition to the small bell used inside the church a larger bell, in the 'Sancte-bell-cote,' was used to inform outsiders of the progress of the Mass.

was used to inform outsiders of the progress of the Mass.

The 'Curfew-bell' was rung for many generations at 8 p.m., and the 'Funeral-bell' was used for centuries, when the churchyard was the only sepulchre in the town. A church bell was rung in case of fire, and this continued until 1864.

RINGERS ON STRIKE
A local paper of May, 1860, records the following—'Tell it not in Yarm, whisper it not in Stockton, that at a recent confirmation service at Darlington—Darlington the con-

ventional, the respectable—no peal of bells was rung. The brass-bell was sulky, the tenor bell was gruff, the treble bell was cantankerous, and all were silent. The reason—because there

and all were silent. The reason—because there was no funds to pay the ringers.

At the great restoration of the church (1863-5) the bells were taken down and five of them recast. For some time the authorities had been desirous of providing a ring of eight bells. When the market tower was being built at that time, Mr. Joseph Pease (of the monument) made a gift to the town of the clock with its bells.

When the first two bell arrived they were found unsuitable, and on being informed that these bells were just what was required to make a ring of eight for St. Cuthbert's, Mr. Pease very generously gave them for the

make a ring of eight for St. Cuthbert's, Mr. Pease very generously gave them for the church belfry.

The name of the donor was inscribed on the bells, and the full ring of eight was first heard on June 22nd, 1866, which was Mr. Pease's 67th birthday.

This was a 'Bell Festival' for Darlington. Ringers came from Leeds, Ripon and Masham, to assist in the event. The Darlington amateur ringers led off at 6 a.m., the professional band taking up the ringing at 9 a.m. After a good dinner at the Bull's Head—when a toast to Mr. Pease was honoured with

detinor is battereston acclamation—ringing was resumed until 8 p.m. Crowds gathered near the church to hear the music by the increased ringing of 'Sweet Chiming Bells.'

Crowds gathered near the church to hear the music by the increased ringing of 'Sweet Chiming Bells.'

NEW YEAR CONSTERNATION

A former Vicar, the Rev. T. E. Hodgson, who considered the age old custom of 'ringing the New Year in' as 'nonsense and an antiquated custom,' ordered the ringers to cease their activities at 11.45 p.m. on December 31st, 1880. This caused great consternation on the High Row, where a large crowd waited in vain for the 'Midnight Peal'; when it was not forthcoming they jumped to the conclusion that another strike had disturbed the harmony of the belfry.

After being silent for 30 years the carillon was restored by Sir J. E. Backhouse and his brother Charles, in 1907, in memory of their father. Edmund Backhouse, who was the first M.P. for the Borough.

In 1937, under the Barron bequest, all the bells were recast at Croydon, and afterwards rehung on iron frames with ball bearings. The present captain, Mr. T. Cooke, has given over a quarter of a century of service to the church. His wife and daughter are also active members of the band.
