## OUR COVER PICTURE

## St. Mary's Church, Andover, Hampshire

By D. F. KING

THE Parish Church of St. Mary, Andover, is on a dominant site in the centre of the town and yet is more easily seen from the approaches to the town. Both parish and town are ancient and yet the church is comparatively new. As with other parishes in England, this is a history of two churches, but with common features—the dedication, the site and the bells!

The parish must have existed well before the Norman Conquest, though the church is not mentioned in the Domesday Book. However, at the end of the 11th century the church, with all its lands and possessions, was given to a Benedictine abbey in Anjou. By 1413 the Priory at Andover was dissolved, England being at odds with France at this time, and the church with its property was given to Winchester College, in whose gift the benefice still remains.

Unfortunately, many of the early vestry minutes and accounts are missing, but an alert vicar of Andover discovered one of the missing volumes at a London sale, which he promptly bought. This volume, covering the latter part of the 17th and early 18th centuries, has many references to payments to ringers for their services, particularly during the later part of the 17th century. Several of these payments were for what can be called royal occasions ("when the King was in Towne"), and it is also apparent that the burgesses of Andover were supporters of the seven bishops who defied the King in 1688 and who were tried for sedition. The bells in this year were rung when the bishops "were bayl'd out of the Tower" and when acquitted. There is an earlier reference to the bells being rung: this was in 1471 when the town was visited by the Duke of Clarence who, it is said, lost his life drowned in a butt of malmsey!

## SPIRE COLLAPSES

The old church had a central tower topped by a spire 80 feet high, but this was blown down during the heavy gales of 1705. The spire was not replaced and the repair work not completed until 1712. There was a payment to the bellfounders of £11 13s. for repair of the bells. It is fairly certain that the tower had six bells at this time, because a nearby inn was the Five Bells in 1697 and the Six Bells by 1713. One wonders whether the augmentation took place after the damage. It is unlikely, however, that the bellfounders' bill would cover repair and an additional bell. In 1758 a ring of eight was cast by Messrs. Lester and Pack with a tenor of 16 cwt.

By the late 1830s concern was expressed

about the inadequacy of the seating in the old church, and a plan was drawn up to provide more pews. This was submitted to an architect to find out if it was practical; not only did he turn the scheme down but he also said that all ringing must stop as the tower, in his opinion, was unsafe. It was eventually decided to build a completely new church. This decision was no doubt helped by the fact that the money for rebuilding was not to fall on the parish but would be provided mainly by a wealthy local clergyman.

## BUILDING THE SECOND CHURCH

Work on the demolition and rebuilding started in 1840, and by the middle of 1842 it was expected that the end of the year would see the completion of the church. Then part of the clerestory walls fell, to the consternation and anger of the local population. The furore which followed eventually quietened down and the church was sufficiently completed by August, 1844, to enable services to take place. Two years later the tower was completed. The architect had wanted to have a spire, but the clerk of works, taken on at the time of the collapse of the walls, was adamant that this was not possible. The builder's wishes prevailed, no doubt because the architect's reputation was a little less soundly based after the collapse!

In May, 1846, a few months after the tower was finished, the bells were rung in honour of Queen Victoria's birthday. It seems from the records that striking was not always good in those days, and "The Hampshire Chronicle" considered that the ringers had not done justice to this "fine peal of bells". Charitably, the paper put this down to the ringers' "advancing years" and their lack of practice during the rebuilding.

Sunday service ringing continued but the tower does not appear to have attracted many peals at this time. The year 1899 saw a peal of Grandsire Doubles rung for the first time by a local band and in 1905 the first peal of Grandsire Triples.

In 1947 the bells were retuned and re-hung on ball bearings with a metal frame, the third being recast and inscribed with the name of the vicar (the Rev. A. C. Fletcher Mard) and the churchwardens (J. A. Acherman and A. E. C. Macey). The work was carried out by Messrs. Taylors, of Loughborough, at a cost of £2,000, the whole being found by public appeal.

## THE BELLS

The bells are as follows:—

Treble.—5 cwt. in F. Lester and Pack of London fecit 1758.

## Andover District's Wonderful 40th Anniversary

**A**N unprecedented celebration has taken place in rural North West Hampshire in honour of the 40th anniversary of the Andover District. No fewer than 35 peals have been rung in 23 different towers. A principle observed was that every ringer capable of ringing a peal was invited to stand in the peal in his own tower.

With such a wide invitation it can be truly regarded as a District's own rejoicing. There were 18 ringers taking part in their first peal and six conductors scored their first peal in this capacity out of the nine who conducted peals. Altogether 46 ringers took part in peals, whilst at least eight more stood in the tailures and were unsuccessful in scoring a peal.

Of special note were the all local band peals—Plain Bob Triples at Highclere in their own tower, Grandsire Doubles at Broughton by Andover band, Plain Bob Doubles at Thrupton by Kingsclere local band and the local peal of Grandsire at Andover. "All those scoring a peal were Andover District members, and the enthusiasm shown has been well worth the effort," writes the District chairman, Mr. G. K. Dodd. "1968 will be a year to remember for Andover District members—a combined effort in which everyone played his part."

### THE DAY TO DAY STUDY

Two attempts were planned for January 1st—at Andover and Kingsclere. The former was turned into a practice when the conductor arrived with a heavy cold. At Highclere the first all-local eight-bell peal was scored with Plain Bob Triples. Friday's attempt in the only ringable four-bell tower in the District was successful. The 15-year-old conductor, Robert Crocker, rang his first in that capacity. Here the treble is rung under the clockcase and can be troublesome if a straight pull is not used.

Saturday was a day of failures. The popular and easy-going six at Longparish suffered a broken rope after ten minutes; to Jack Wimlett, making his first attempt as conductor, this must have been disappointing. At Abbot's Ann in the evening Albert Green, also making his first attempt as conductor, lost a hunt-bell in Grandsire only eight extents from the end and, in the confusion, had to stop.

#### BROKEN ROPES

By now icy conditions prevailed, but the attempt to ring the first peal on the five bells at Wherwell went ahead as planned. These bells, previously unringable, now go well, but the ropes of 4 and 5 have had the clockcase built round them and these bells play up. Two false starts through broken ropes were made; both being replaced, the third attempt fared better, but with 18 extents behind us, down came No. 3 rope, and another failure was chalked up.

Tuesday night of the second week was down for Longstock, a first on the bells, but further snow on Monday made road conditions treacherous. We started out and got as far as the nearest phone box, where a call was put through to the Vicar of Midgham, who gave permission for the attempt to be made here. Twenty Doubles methods were scored on the back five there. The conductor, taking a tumble in the Vicarage, drove on thick ice. However, Berkshire road conditions were better and we arrived home safely.

On Wednesday the band got through to Goodworth Clatford and a first-class peal of Grandsire Doubles was rung on the good six, a portable tape recorder recording parts of it. Bradley Murduck was congratulated on his first as conductor.

#### "WOULD REJOIN!"

At Amport on Thursday Geoffrey Dodd was down to conduct a peal of Grandsire Doubles with five firsts. Before the start the tenor man said that he might have to rush outside, but to carry on without him and he would join in when he returned! Geoff told him not to worry. However, on the 22nd extent his worst fears were confirmed, and before he could call the bells into rounds Bill was gone—and so another failure.

The annual meeting on the Saturday (January 13th) prevented any further peal ringing, but on Sunday the Andover ringers were successful in ringing Grandsire Doubles at Broughton, only the second peal on the bells, which are not easy to ring. A further attempt at Burghclere was again put back because of flu, but Wednesday's (January 17th) attempt on the heavy-going six at St. Mary Bourne was successful, with Reg Crook doing his stuff as conductor and with three first peelers in the band. A first-class effort.

Thursday's attempt on the quiet six at East Woodhay was also successful. Doubles methods were rung with Philip Taylor calling his first peal as conductor. Albert Green's attempt at Leckford on January 20th failed in the first quarter peal, but the second attempt, at Longparish, was successful, Jack Wimlett calling his first peal. Another success was on the light six at Stockbridge on January 21st, when Phil Murduck called his first of Bob Minor as conductor, this being the second peal on these bells.

The peal at Tangley (a light ground-floor ring of five) was of Bob Doubles. This was on January 23rd, and George Beavis, the local captain, was attempting his first peal. Philip Taylor was deputising for Geoff Dodd as conductor and brought the peal to a successful conclusion with a nice steady beat on these good-toned bells.

The Barton Stacey peal on January 25th was also successful. Eleven-year-old David Goss rang the treble in fine style for his first peal, whilst his father, still suffering the after-effect of flu, was able to listen to the last six extents. Robert Crocker called his first peal on the easy-going six. On the same night the new six at Upper Clatford were pealed for the first time by a mixed team. Walter Mulford, a past captain of the other Clatford tower, fulfilled a lifelong ambition in ringing the tenor to three Doubles methods, Jack Wimlett having kindly reserved this attempt for Geoff Dodd to call the first peal on the bells.

The Saturday (January 27th) peal at Kingsclere was one of the best on the bells, also one of the quickest. The recording on the tape recorder of the last three courses was ringing of the highest order. Philip Murduck called Pritchard's popular peal of Bob Major. Another unfortunate failure was the Woolton Hill all-local band attempt on January 29th, when the treble rope broke in the last 720. This included two first peal attempts and a first as conductor.

The Tuesday (January 30th) peal was at Burghclere, but was again elusive. On Thursday night the difficult bells at Hurstbourne Priors were tackled, but with three of the bells sticking troublesome with slip wheels and sticking pulley wheels, it was called round at the quarter peal. So with January completed, 13 peals were successful, almost halfway to our objective, with a good number of first peelers and firsts as conductors.

#### INTO FEBRUARY

Into February, and the first peal on the Longstock bells, another ground-floor ring, with no unusual characteristics, where 12 Doubles methods were rung with the bells well spaced out; this was on the Saturday afternoon (February 3rd). At Whitechurch, another ground-floor ring of eight, the attempt for Grandsire Triples the same day hardly got off the ground.

Sunday, the anniversary of the District, found five of us again meeting at Wherwell, but with more broken ropes and three splices later there was only time for a quarter peal, probably the first on the bells. Tuesday, at Leckford, was more successful, with Robert Crocker again conducting. Difficulty with four and five in the last quarter peal was suspected as the bells were going dry. Nevertheless, they are the best-toned five in the District. Thursday (February 8th) at Amport again brought success with a well-struck peal of Grandsire Doubles and three first peelers performing. The bells are rung from the chancel and were rehung and tuned by Taylors.

An all-Kingsclere band attempt had been planned for Thrupton on February 10th and it gave great pleasure to the participants and to the organisers when Bob Doubles was successfully rung with two first peelers, one first "inside" and a first peal as conductor; all credit to this band. On Tuesday (February 13th), at Longparish, a 34 Doubles method attempt was reduced to 25 as one of the band was ill and a last-minute replacement was found. A very pleasing peal was scored. Thursday (February 15th) at last found us at Burghclere, where a joint Highclere/Burghclere band successfully rang Bob Minor. There were two firsts of Minor and one first pealer took part.

#### A WEEK OF FAILURES

The second attempt at Andover on Monday (February 19th) had every look of success until, just before the halfway, a late call put the bells into some confusion. However, all the band felt that the next attempt had every chance of success. The unusual toned five at Over Wallop also registered another failure on the Wednesday. A further attempt, again at Andover, on February 18th to ring Grandsire Triples failed through a shift course around the quarter peal mark and it was decided to strengthen the band before the next attempt.

Success came on February 21st with a peal in two Minor methods at Barton Stacey, Philip Taylor ringing his bell with two crushed fingers received when the car door was shut on them the previous night. Further success the next night was the first peal of Stedman Minimus at Newtown with three firsts of Stedman. Bernard Doe replaced Philip at the last minute when his fingers were too painful to ring a difficult treble.

The second attempt at Abbot's Ann was successful on February 24th, again a late replacement when David Goss was roped in 30 minutes before the start, and a good peal was successfully rung.

#### READY MONEY!

On the following Tuesday evening the first peal of Ready Money was scored at Tangley; one wonders where the name originated. It is quite tricky until one gets used to the bobs. This enabled George Beavis and Geoff Dodd to ring one together, both being well satisfied with the results.

Thursday evening proved rather a disappointment—the Bob Major planned at Whitechurch for the second attempt was changed to Bob Minor when we met short. However, a very good peal was achieved in the quick time of 2 hours and 45 minutes with some pulling on the back end, the long draught not making things easy.

So the second month of our peal anniversary was completed with 11 successful peals and three failures out of 14 attempts, a good average on the whole.

#### INTO MARCH

We entered March with a good peal of Doubles on the unusual five at Over Wallop, the second attempt here, and were congratulated afterwards by the Rector on some excellent ringing, this being a Saturday afternoon peal.

The Andover District officers, taken at the annual meeting at Whitchurch on January 13th. Left to right: Archibald W. Allston (deputy chairman), Rev. Hamilton Lloyd (auditor), Geoffrey K. Dodd (chairman, seen cutting the 40th anniversary cake), Jack C. Wimlett (hon. secretary and Executive Committee representative), Reginald Crook (Ringing Master). Afternote: The treasurer, Terry Tarrant, was busy collecting subscriptions.

The second attempt at Highclere, on March 4th, was specially organised for the regular practice night visitors to take part. A pleasing peal of Bob Major was scored with two firsts on eight and one first of Major, and a fast time with a good beat was set up with an experienced band.

Wednesday night's peal at Woolton Hill included three bandaged hands, one ringer suffering a sprained wrist, another with crushed fingers and the conductor also having a fractured finger in plaster; however, the two first peelers were in one piece and another successful peal was scored.

Into the second week and the wedding peal for Chris and Leslie on Tuesday night at St. Mary Bourne was the first in 42 Doubles variations for all the band.

#### 12 DOUBLES FOR 12-YEAR-OLD

Ill-luck, however, dogged us on Thursday (March 14th) at East Woodhay, when at the end of the sixth extent of an excellent peal of Oxford Treble Bob Minor in what would have been a first for all the tenor rope parted below the sally.

Into the third week, and on Tuesday night another successful peal in 12 Doubles methods at Longparish, specially arranged for David Goss, now 12 years old, to ring his first peal "inside." On this performance he will definitely be one of our future Up-and-Coming Youngsters. However Wednesday night met with another disappointment when at Woolton Hill an attempt to ring four Minor methods failed after ringing an excellent 720 of Cambridge.

Thursday proved more successful with Plain Bob Minor at Upper Clatford. A mistake here is fatal, the bells being more than just noisy; a good peal was rung—the first of Minor on the bells.

To enable Reg Rex to call his peal of Grandsire Triples, a special attempt had been arranged at Kingsclere on Marsh 23rd. with four firsts in the method taking part. All went well until the end of the fourth part, when a late call caused confusion and "Stand" was called.

Sunday proved more successful, Kent Minor being rung in fine style on the light six at Stockbridge, again with three firsts in the method and a first in the method on the bells, both of the other two peals being Bob Minor.

#### A FIRST AT NETHER WALLOP

Afterwards we visited Nether Wallop. Here the movement of the frame against the tower walls prevents long ringing but we were able to obtain permission for a quarter peal and a good one in four Doubles methods was rung on this heavy five, no peal or quarter having previously been rung on the bells.

The peal in 42 Doubles variations all with a plain course of Plain Bob had been planned for some time and the different calls had been a regular feature of recent practice nights. It was in June, 1958, that the conductor first recorded a peal of Bob Doubles in six variations, thinking this was the limit. Times have changed and at least 20 more calls could have been produced if required. A good peal was rung at Burghclere by a mixed band from Highclere and Burghclere on March 26th. The next evening a peal of Oxford Treble Bob was rung at East Woodhay, Mr. Webb having repaired the rope, the cause of our failure the previous fortnight.

Two attempts had been fixed for Saturday (March 30th) at Wherwell to ring the first peal on this anti-clockwise light ring of five, and at Woolton Hill for the first by an all-local band since 1938. It was a matter of regret that the latter attempt had to be cancelled. At Wherwell, after a further check of ropes, a good peal was rung with little difficulty on bells that will run away if allowed to do so. We would like to associate Phil Mudduck and Jack Wimlett with this peal, both having stood in the previous attempts.

All that was left was Andover, and further attempts on Saturday and again on Monday (April 1st) each came to grief. However, Andover band are proud at having scored a quarter of Grandsire Triples with an all-local band, the first on record, and have vowed that a peal will be scored before the year is through.

G. K. DODD.

#### DEDICATION

##### NEWHEY, LANCASHIRE

At the foot of the Pennines, high on a hill above the village, stands the Church of St. Thomas, Newhey. The original bells, which were installed in 1877, have for many years been in such a poor condition as to render them dangerous to ring. It was therefore a proud moment for the local ringers and parishioners on Sunday, March 31st, when, before a large congregation, the Lord Bishop of Manchester dedicated the new ring of eight bells. These bells, which have been cast and installed by Messrs. John Taylor and Co., are lighter than the old ring, the tenor now weighing 4 cwt. 1 qr. 17 lb. (Note C sharp.)

The dedication service, which took place in the morning, was followed by ringing, when a well-struck touch of Stedman Triples and a course of Cambridge Surprise Major showed how delightfully rewarding this light ring is. The tower was open throughout the afternoon until Evensong and, despite the adverse weather conditions, over 60 ringers visited the tower. Some difficulty was experienced in controlling the trebles but, after a few minutes' ringing, most people adjusted to the weight of the bells (or should it be the lack of weight).

Practice night is Tuesday, 7.30 to 9 p.m. and Sunday service ringing 9 to 9.30 a.m. and 6 to 6.30 p.m. All ringers welcome.

(The full story of the restoration of these bells will be the subject of a later article.)

WASHINGTON, U.S.A.—At the National Cathedral, 1,260 Grandsire Triples: Emily Paine 1, Janis Hensley 2, Martha Windrem (first Triples) 3, Ashton Applewhite 4, Marjorie Batchelor 5, R. S. Dirksen 6, W. Theobald (cond.) 7, J. G. Fanfani (first Triples) 8. A welcome to Mr. W. Theobald to U.S.A. and to Mr. E. Curran to the Cathedral Close. Also on March 30th, 1,259 Grandsire Caters: Emily Paine 1, Janis Hensley 2, Betsey Proctor 3, Judy Alexander 4, Quilla Roth 5, Ashton Applewhite 6, Sarah Irwin 7, Marjorie Batchelor 8, R. S. Dirksen (cond.) 9, J. G. Fanfani 10. First of Caters by an American band and of Grandsire Caters in N. America. First of Caters by all except the conductor, and his first of Caters as conductor.

# Andover District History and Who's Who

By J. C. WIMLETT

ON Saturday, February 4th, 1928, a meeting was convened at Whitchurch for the purpose of forming a new District of the Winchester and Portsmouth Guild to be called the Andover District. Present were Mr. G. Williams (Master), the Revs. E. Jones, A. Lewis and M. S. Douglas and ringers from Basingstoke, Bramley, East Woodhay, Fareham, Highclere, Kings Somborne, Laverstoke, North Stoneham, Oakley, Overton, Portsmouth, St. Mary Bourne, Steventon, Wherwell, Whitchurch, Winchester and Woolton Hill. The Rev. M. S. Douglas, Vicar of Whitchurch, having been elected to the chair, called upon Mr. G. Williams to give reasons for forming the new District.

Mr. Williams outlined briefly that as the new Diocese of Guildford had decided to form a separate Guild following the division of the old Diocese of Winchester, a largely attended meeting of ringers from the Dioceses of Winchester and Portsmouth was held at Southampton on October 22nd, 1927, when it was unanimously decided to form a joint Guild and recommended that the area should be divided into eight Districts and that the Andover District should comprise the following towers: Eight-bell—Andover and Whitchurch; six-bell—Amport, Burghclere, Highclere, Hurstbourne Priors, Laverstoke, St. Mary Bourne, Sydmoncton and Woolton Hill; five-bell—Abbot's Ann, East Woodhay, Longparish, Nether Wallop, Over Wallop, Tangle, Thruxton and Wherwell.

## FIRST OFFICERS

This resolved, the following were elected to be the first officers of the new District: Chairman, Rev. A. Lewis (Rector of Wherwell); secretary, Rev. F. C. Sear (Vicar of Echingham); auditor, Mr. O. Smart (Andover); Central Council representative, Mr. Knapp (Highclere); Ringing Master, Mr. R. Rex (Woolton Hill).

It is to these gentlemen that we now say "thank you" for starting this new family named the Andover District of the Winchester and Portsmouth Diocesan Guild of Church Bell Ringers. The early years were not easy, travelling around the scattered towers was at best by push bike, but early records show that a great effort was made and by the end of 1929 eight towers remained in union with the Guild, and there were seven honorary members, one life member, three compounding members and 60 full members.

At Highclere, now having eight bells, a peal was rung on February 23rd, 1929. The pre-war years saw enthusiastic periods of activity and occasional changes in officers—Mr. O. Smart was elected Ringing Master in 1931 and the Rev. F. S. H. Marle elected secretary. Of interest, the local Press recorded a quarterly meeting at Abbot's Ann on September 12th, 1931 when special mention was made that despite the bad weather and the Schneider Cup race 30 enthusiasts turned up for this meeting.

In 1935 the Longparish bells were rehung and a treble added, and in 1937 Goodworth Clatford added three bells to make a new ring of six, which was dedicated by the Bishop of Winchester on December 18th, 1937.

## BREAK DURING WAR YEARS

Records lapsed after a meeting at St. Mary Bourne on April 18th, 1940, until a meeting at Whitchurch on July 15th, 1944, when 48 members attended from 15 towers covering a large area of the Guild just to be told there would be a combined practice at East Tytherley on August Bank Holiday (no doubt this was some Bank Holiday!).

The District began to function again with a meeting at Whitchurch on March 24th, 1945. The same officers were all re-elected and quarterly meetings arranged for Goodworth Clatford on June 23rd and Longparish on

September 27th. At the next annual meeting, on December 15th, 1945, the following new officers were elected: Rev. B. C. Taylor (Whitchurch), chairman; Mr. R. A. Hill, Executive Committee; Rev. T. Marsden, auditor. The next change came the following year, when the Rev. S. A. Gidlow (Goodworth Clatford) was elected chairman.

In 1947, three weeks after Andover bells had been rehung, the death occurred of Mr. O. J. Smart, who had then been Ringing Master for 17 years. His place was filled jointly by Messrs. N. V. Andrews and A. L. Mitchell; other changes were Miss M. Tanner to secretary, followed by Mr. J. A. Hill later that year, Mr. N. V. Andrews auditor, and Mr. O. Smart to Executive Committee. A new appointment was introduced in 1951, Rev. P. K. Venner to vice-chairman, and two years later Rev. P. Simcock was elected chairman, Mr. G. K. Dodd secretary and Mr. A. J. Hill treasurer.

## NEW ENTHUSIASM

Geoffrey K. Dodd soon took over both offices and stirred up new enthusiasm and by the next annual meeting a vast increase in membership was reported, ringing members from 48 in 1953 to 84 in January, 1955, and honorary members from 18 to 29. This meeting saw another change, the Rev. J. P. Walton was elected chairman, to be replaced two years later by the Rev. P. K. Venner, with the Rev. Ann Large as vice-chairman. Because of the increased membership, Mr. A. W. Alliston, Mr. O. Smart and the secretary were all appointed Executive Committee representatives. The year 1958 saw the arrival in the District of the Misses Hazel and Cherry White, who were immediately elected treasurers, once again splitting the secretary/treasurer duties. Mr. A. W. Alliston took over the duties of chairman in March, 1960, which was subsequently ratified at the annual meeting the following year, appointments by this time being for three-year periods. In 1962 Mr. R. Crook was elected Ringing Master, the Rev. Hamilton Lloyd vice-chairman and Mrs. T. Tarrant treasurer.

Good progress was made during the next three years, striking competitions being arranged annually for the Aird Cup. This cup was originally donated by Malcolm Aird, of Tile Barn, Woolton Hill, prior to 1922, for competition between Woolton Hill, Highclere and East Woodhay. January, 1966, saw the next change of officers, Mr. G. K. Dodd to chairman, with Mr. A. W. Alliston deputy chairman, Mr. R. Crook Ringing Master, Mr. P. Murduck Deputy Ringing Master (a new appointment), Mr. J. C. Wimlett secretary and Executive Committee representative, and Mr. and Mrs. T. Tarrant treasurers. Since these appointments the accent has been on preparation for making this 40th anniversary a year to be remembered, and with the inspiration and leadership of our chairman, Mr. Geoffrey K. Dodd, such an epoch could not be allowed to pass without being well and truly celebrated, hence the attempt to ring a peal in every tower in the District during the first three months of the year.

## ONE EXCEPTION

The peal programme is dealt with separately in an article by Geoffrey himself, but this history would not be complete without saying that peals or quarter peals have been scored in every tower in the District with the exception of Sydmoncton, where, alas, the fabric of the tower is now crumbling so badly that the bells must remain silent until repairs are carried out. Summing up the peals: Peals rung, 35; ringers taking part, 46; first-peal ringers, 18; first as conductors, 7; first on the bells, 4.

R. Crocker took part in 29 peals (conducted 4), G. K. Dodd 22 (21), P. Taylor 21 (2), R. Newman 14, R. Crook 10 (2), J. Wimlett 9 (1), P. Murduck 9 (2).

Earlier, mention was made of the Aird Cup, which until last year was competed for by round ringers and method ringers in a combined competition, but last November, for the first time, the Aird Cup was open to competition among method ringers only, whilst teams capable of ringing rounds only competed for a new "Andover District Round Ringers Challenge Cup." This cup was generously donated by Mr. F. Gosling, of Newtown, to foster a keener interest among newcomers to the Exercise.

Kingsclere are the present holders of the Aird Cup with an excellently struck extent of Plain Bob Doubles, whilst Whitchurch were the first winners of the new cup with their band of ringers who all had less than 18 months' experience at the time of the competition.

It is coincidental that new District boundaries came into effect on January 1st, 1968, extending the Andover District further south towers, covering a total area of approximately 250 square miles of attractive Hampshire countryside.

## SWANSEA AND BRECON GUILD

### Southern District

Although only 20 attended the meeting at Newton Nottage on March 16th the ringing during the afternoon and evening was very satisfactory.

After the service a splendid tea was provided by the local ringers. At the business meeting the Morriston bells were discussed, and matters concerning their future were left to the District secretary to deal with.

The usual three meetings in each year were reduced to two—the annual general and the other during the early part of the year, the date and place to be left to the District secretary.

A vote of thanks was accorded to all those concerned in making the excellent arrangements. J. A. H.

## HERTS COUNTY ASSOCIATION

### Northern District

The quarterly meeting of the Northern District was held at Baldock on April 6th. There was some delay in getting into the tower, since the key could not be found until 4 o'clock. Ringing lasted for only half an hour before the service, which was taken by the Rev. K. G. Martin. Tea followed the service and then came the business meeting, at which Mr. M. D. Tagg took the chair. Apologies for absence were received from the secretary, Mrs. Anne Agg, who was in bed with a sprained back.

It was decided to hold the next quarterly meeting at Aston and Benington, recently transferred to the District. The intermediate evening meetings will be at Wallington and Offley—all pending confirmation. Members were reminded that the C.C. Hospitality Fund was now open and that so far only £11 had been received by the secretary.

Ringing continued until 8.30 with methods including Cambridge, Yorkshire and Stedman. M. R. W.

ST. ALBANS, HERTS.—At the Cathedral, on March 30th, 1,346 Cambridge Surprise Maximus: F. W. Ellis 1, Katherine Hardy 2, B. C. Johnson 3, Julia A. Fellows 4, C. Forster 5, A. W. R. Wilby 6, G. Dodds 7, J. E. Ewer 8, A. R. Carter 9, K. J. Darvill 10, G. Penney (cond.) 11, R. E. Hardy 12. First of Cambridge Maximus 2, 3, 5, 6, 7, 8, 9. Rung after the installation at Evensong of E. Charles, C. Earle, K. Hart and H. Senar as honorary canons of the Cathedral.

TICKNALL, DERBS.—On March 23rd, 1,260 Plain Bob Minor: H. Soar 1, Annette Cooke 2, Susanne Cooper 3, T. J. Marriott 4, A. J. Marriott 5, P. Marriott (cond.) 6. First Minor 1, 2, 3.

# Letters to the Editor

## ST. CLEMENT DANES'

Dear Sir,—I feel sure I will not be the only person to point out a slight inaccuracy in the text of H. W. R.'s otherwise interesting article on St. Clement Danes' bells.

The eight bells cast in 1693 certainly did not originate from the Whitechapel foundry, as mentioned, but were cast by William and Philip Wightman at their foundry on Windmill Hill, Clerkenwell. The same foundry also cast bells for St. James', Piccadilly, and both sets of bells were ornately decorated with running borders of crosses, fleurs-de-lis and flowers alternating.

The augmentation to ten took place in 1843, the new bells being cast by one C. Oliver, who had charge of a small foundry at Wapping. Oliver also recast the second of the old ring of eight at the same time.

Little information seems to have remained about Messrs. C. and J. Oliver. Walters ("Church Bells of England") notes the existence of a foundry at Wapping, and gives the dates 1810-1845. However, in conjunction with the casting of a ring of six bells at Worth, Sussex, in 1844, Oliver's foundry is stated to be at Bethnal Green! It would be interesting to learn of the exact whereabouts of Oliver's foundry. It would seem very likely that Oliver learned his talents at Whitechapel before migrating elsewhere. A family of that name has been associated with the foundry since the late 18th century, and I gather that a lineal descendant is still in charge of the handbell shop.

In conjunction with St. Clement's bells, mention should also be made of the old Sanctus bell, cast by Robert Mot (1570-1604). It happily escaped the ravages of the Fire of London and the blitz, and has been restored to its original place in St. Clement's steeple.—Yours faithfully,

N. J. DAVIES.

Ashford, Kent.

## LADIES AT THE ABBEY

Dear Sir,—Miss Florrie Wyman is not correct in stating that she is the only lady to have ascended to the belfry and rung at Westminster Abbey. There must be other ladies who, like myself, have had this honour and pleasure, and were graciously received by the Abbey ringers.—Yours sincerely,

KATHLEEN M. LOCK.

North Mymms.

## A LEARNER AT THE ABBEY!

Dear Sir,—I do not wish to disillusion Mr. Tonge (page 242) or Mrs. Wyman (page 262) but the Abbey is not the only church authority that does not allow many visiting ringers, and Mrs. Wyman is not the only woman to ring there. Whilst on tour in Hampshire a few years ago our band was refused permission to ring because "only the locals are allowed to ring here."

At about the same time as this I was granted the privilege of being allowed to ring at the Abbey, and both the young lady who was with me and I, together with another visitor, were given the full V.I.P. treatment, and the ringers would not hear of the young lady going without a ring, though only a learner at the time.—Yours faithfully,

R. GEORGE MORRIS.

Malvern Link.

## LADIES AT THE ABBEY

Dear Sir,—Like Florence E. Wyman, I, too, have rung at Westminster Abbey. It was in June, 1924, when the Central Council met in London. I went up with the late Mrs. Fletcher, who was then Miss Edith Parker; I was Miss Phoebe Upshod. We both rang in a touch of Stedman.

I would not be surprised to learn that other ladies, too, have had the same good fortune.—Yours faithfully,

PHOEBE A. TOMLINSON.

Southgate.

## YOUNG CONDUCTORS

Dear Sir,—With reference to the comment on Bellfounders' Gift Page in the issue of March 29th regarding a 12-year-old calling a peal, away back in 1904 a 12-year-old called a peal at Arklow, Co. Wicklow. The conductor was James Washbrook jun., who rang the 2nd to a peal of Grandsire Triples. The composition was Holt's ten-part; the peal took 3 hours and 12 minutes on Saturday, December 31st, 1904. The conductor scored his first peal on June 17th, 1903.

As a matter of interest, his brother Walter scored his first peal at the same tower on January 21st, 1905, when only 10½ years old.

The last peal in which any Washbrook took part in Ireland was on September 11th, 1909, when five of the bells in the peal of Grandsire Triples were handled by four Washbrooks: Harry (2), James W. senior (3 and 4), Walter (5) and James junior (7). James senior conducted the peal as well as ringing Nos. 3 and 4.—Yours sincerely,

FRED E. DUKES.

Drogheda, Co. Louth.

## A MEMORY OF EDINGTON PRIORY

Dear Sir,—Your enjoyable article on Edington Priory in a recent "Ringing World" brought back vivid memories of Saturday, July 30th, 1949, when I was fortunate to join an outing arranged (I think) by Mr. E. G. Caple, of Clevedon.

After ringing at Seend, Keevil, Steeple Ashton and Bratton, the band began to apologise about the next tower, which we were visiting for the experience rather than the pleasure. And experience it certainly was—ringing with the criss-cross timbers creaking and groaning all around you and, at intervals, when the bells got in a certain position, the bell frame hit the wall of the tower with a resounding smack.

At that time the tenor rope had a second rope-end spliced in, and it was just as much as two men could do to keep her going behind to Doubles. The locals knowingly left me the fifth.

To my ear, the bells were the middle six of eight, with the tenor half a tone flat. On reading the bell notes in your article it would seem that the fourth was also half a tone flat.

Mr. Caple dropped me in Bristol just after eleven; from there I was able to catch a train to Yatton and walk three miles in pitch darkness, along strange roads, to Wrington.

It certainly was a day to remember.—Yours faithfully,

CHARLES A. BASSETT.

Wadhurst, Sussex.

## DELAYED PEAL REPORTS NOT SUB-STANDARD

Dear Sir,—Mr. Baldam's contention in his letter published on page 262 that performances are not reported to "The Ringing World" within one week of accomplishment are sub-standard performances is, of course, completely absurd.

The main causes for late reporting are that with the modern postal charges it is more economic, as well as convenient, to submit several performances at one time; further, sometimes it is necessary to ascertain a ringer's correct name, also, as is usually the case, a human oversight occurs, but these are just a few of the many reasons. It is stupid to suggest, as does Mr. Baldam, that only bad performances are delayed from publication. Does the conductor of such a performance think that a delay will rectify the damage caused by the ringing?

I can only surmise from Mr. Baldam's letter that he personally has had experience of a sub-standard performance being published some time after the event and would suggest that if this is so it was surely his duty to inform the conductor that he felt he could not continue the performance, and stand his bell, thus preventing any damage in public relations which a sub-standard performance causes, or, as a last resort, withdraw his name from the performance.—Yours sincerely,

KEITH E. BEALE.

Taunton.

Note.—We certainly agree with Mr. Beale. A notable example is that on March 9th the Society of Royal Cumberland Youths made seven attempts at nine-Spliced Surprise Major with each bell doing all the work. We understand that only one attempt was lost, and that through outside interference. The report has yet to reach this office.—Ed.

## FIRST PEAL OF SPLICED SURPRISE MAJOR

Dear Sir,—In the interests of accuracy, I must point out that Mr. W. J. Robinson did not take part in "the first peal of Spliced Surprise Major ever rung," as stated on page 261. That peal was rung at Whitley Bay on May 14th, 1924; the peal in which Mr. Robinson took part was rung at Warnham on June 11th, 1927.—Yours sincerely,

RICHARD SPEED.

Rugby.

## A QUESTION TO BIRMINGHAM UNIVERSITY SOCIETY

Dear Sir,—I was pleased to see J. R. White's letter condemning the use of a pseudonym by one of his fellow members of the Birmingham University Society. Would he please now explain what tomfoolery lies behind the report of a quarter peal rung by the Society at Edgbaston Old Church for Evensong on March 10th (page 245), when the eight bells were rung by ten people (or nine, not counting the wretched J. P. Richards, who appears under his real name as well)? Furthermore, as I am informed that one of the ringers in this quarter is the Master of the Society, would he also please say how this exemplifies the Society's disapproval of such performances?—Yours faithfully,

C. A. BARRON.

King's Heath, Birmingham.

# BELL ROPES

## JOHN NICOLL

## SECOND PAGE OF LETTERS

## ST. CHAD'S TOWER

Dear Sir,—With regard to the letter dealing with the tenor bell at St. Chad's, Lichfield (April 5th, page 260), may I contribute some small detail from my forthcoming publication, "The Campanological History of Staffordshire," the product of 15 years' intensive study.

I first inspected the bell in question in January over ten years ago, and at the time took rubbings and detailed notes.

The imagined inscription and lettering are nothing more than a set of badly composed devices, shallow and quasi-medieval in form similar to most very early local-cast work. (It would be wise to dismiss the founder Michael de Lichfield at this point.) The forms are not placed in any logical or sequential order, thus it is impossible to determine any attempt at an inscription.

Arabic numerals certainly do not appear on the bell, which is of transitional contour, similar to two other bells in the county which came from the early Nottingham foundry, and are dated around 1500. The seventeen forms and sundry other indistinct marks defy interpretation. Alphabet bells were an early form of attempted decoration and scraps of casting gathered from here and there often sufficed.

During my studies I have come to place little faith in the work of Charles Lynam, whose Victorian publication contains numerous errors of dating and inscription. His attempts to find order in the forms present on the tenor of St. Chad's, Lichfield, are a projected ideal of that which he wished he had found!

A far more searching and informative examination of the bell, its history, documentation and probable casting are contained in my study of the county bells, from which the above paragraph has been constructed.—Yours faithfully,

TREVOR S. JENNINGS.

St. Margarets-on-Thames, Middlesex.

## POOLE WAS OVERLOOKED

Dear Sir,—I was rather surprised to read in "The Ringing World" on page 258, in the article on Edington Priory, that the only ring of ten bells in the Diocese of Salisbury is that at Wimborne. Surely E. C. S. has rung on or at least heard of the ring of ten at Poole, which cannot claim to be in any county other than Dorset, and whose band are loyal members of the Salisbury Diocesan Guild.—Yours faithfully,

JUDITH A. ROBERTSON.

Blandford Forum.

## DOUBLES CORRECTION

Dear Sir,—May I correct a few slips which crept into the list of names of Doubles variations on page 231, between naming and publication, and which several people have already been kind enough to point out. Reverse Grandsire with a Wallflower bob and Antelope single should be St. Clears, not St. Cleer, and Reverse New Grandsire with a Grandsire bob and Pink's single should be Ruyton, and not Ryton. Both Ryton and St. Cleer already exist, being Winchendon Place with a Grandsire single and St. Remigius with a P.L. of All Saints' respectively. Both these mistakes were also transmitted to the peal report, which should be amended correspondingly.—Yours faithfully,

RICHARD UNDERWOOD.

Manorbier, Pembro.

## MILES PLATTING BELLS

Dear Sir,—Since the announcement of the Joint Manchester Branch meeting with the N.W. District of the Ladies' Guild at St. John-the-Evangelist's, Miles Platting (see "Ringing World," page 194), the Rev. Timothy A. Baines (curate-in-charge) has received a letter from the Stroud area of Gloucestershire asking what price was being asked for St. John's bells. The letter went on to say that the writer had read in the columns of "The Ringing World" that the bells were for sale as the church was being demolished.

May I point out that no "For Sale Notice" has appeared in the columns of this journal, as the exact date of demolition is not known. At the time of writing the church is due to be demolished in five years' time, but this date could be brought forward at a week's notice to 12 months, depending on the city's financial position in obtaining compulsory purchase orders.

It is hoped that by the time the church is demolished the Manchester Branch will have found a home for the bells in the Manchester Diocese.—Yours faithfully,

ALAN WARD,  
Manchester Branch Secretary.

## NOT SUB-STANDARD

Dear Sir,—As a ringer in the peal at Hessele on July 22nd, 1967, I feel I must point out to Mr. Baldam (page 262) that this peal was by no means sub-standard; in fact it was of a higher standard than many of the peals that I have rung in and listened to.

I cannot vouch for the other five peals, but in our case it was presumed that the conductor had sent the peal off for publication; it was only whilst looking through some old "Ringing Worlds" that I realised he had not done so. As a result I mentioned that to R. H. Jordan, who consequently sent the peal for publication so that personal records could agree with official ones.

May I suggest that in future Mr. Baldam has first-hand experience of the standard of peals before he criticises them so unnecessarily; also that he leaves the Editor to make his own decisions about what should or should not be published.—Yours faithfully,

RODERICK R. HORTON.

Hessele, Yorks.

## KENT COUNTY ASSOCIATION

The meeting of the Ashford District at Hothfield on March 16th was surely a record-breaking one. In addition to the Ashford District officers, the secretaries of the Maidstone and Lewisham Districts, two other Ringing Masters and the hon. treasurer of the county were present. In all, over 60 ringers, representing 24 towers, were counted.

In the absence of a local Vicar the service was conducted by the Rev. P. T. Robbins, the lesson was read by Master G. Sparks and John Spree was the organist.

Tea was arranged in the Village Hall by the local ringers under the guidance of Mr. R. S. Sparks. A short business meeting was conducted by the chairman (Mr. A. S. Phelps), at which Master M. S. Davies was elected an associate member.

Ringing continued until 9 p.m. and consisted of standard and assorted combined methods. "Social life" was enjoyed in a nearby tavern, and it is known that several ringers were still journeying home in the early hours of Sunday morning.

A. P. S. B.

## PSEUDONYMS AND PEALS

Dear Sir,—Having gained a notable victory over the Glasgow long length issue, it would seem that Mr. Richard J. Parker now seeks further "fame" in your columns, probably on the ground that even bad publicity is better than none at all. I refer, of course, to his use of a pseudonym when reporting the peal of 23-Spliced Plain Minor rung for the Birmingham University Society, published on page 191 of "The Ringing World."

As a ringer in that peal I should like to endorse what Richard Parker says in his covering letter to you published on page 259: of "The Ringing World"—namely that the peal was not a hoax but was a true and complete peal. As such it was therefore a valid peal and the onus was on the conductor to publish it correctly.

I do not think Richard Parker could have intended you to publish this covering letter as it seems to be incompatible with his letter intended for publication, signed James P. Richards. It is abundantly clear that by reading the two letters together the only irregularity was Mr. Parker's use of a pseudonym in the report of the peal. His sole reason for this "childish behaviour" was, on his own admission, that he did not wish to be associated with a peal of Minor. Surely the time to consider association with a peal is before the peal begins, not after its publication in "The Ringing World."

Finally, I should like to apologise to your readers, who will no doubt have been amazed by the stupidity of this topic and annoyed at its use of valuable space, but I must emphasise that there is a fundamental principle at issue—for, if we are to allow the use of pseudonyms and the conductor's withdrawal of the peal when he refuses to reveal his identity, surely the publishing of peals in "The Ringing World" will become a farce.—Yours faithfully,

RUPERT A. CLARKE.

Harborne, Birmingham.

## AND IN QUARTER PEALS

Dear Sir,—I wish to dissociate myself from the "quarter peal" rung at Edgbaston on March 10th ("Ringing World," page 245). As published, this performance is two changes short of the requisite length for a quarter peal, and thus does not qualify as a quarter peal, anyway. Added to this, two of the names published were intentionally changed (T. Pryor should read M. Pryor, M. B. Tyres should read M. B. Jefferies). The conductor produced the composition out of his head as the performance progressed, and laughingly admitted at the finish that the composition was "as false as old boots." During the performance, there being nine ringers for eight bells, ringers on the treble and tenor changed over (the conductor appears under his "nom de cloche" of James P. Richards on the treble). All in all, the whole thing was of insufficient mathematical or musical quality to qualify as a quarter peal, and should never have been submitted to "The Ringing World" as such.

Regular readers of "The Ringing World" letters column will have little difficulty in guessing who the conductor of this quarter peal was—Mr. Richard J. Parker. I would like to add my condemnation of his action to that of Mr. James R. White ("Ringing World," page 259), who hopes "that the whole Society will not be judged by the childish behaviour of one member."—Yours sincerely,

H. J. BAKER.

Bournville, Birmingham.

# Some Caters Methods and Compositions

By M. S. BRUCE

NO ringer of Major or Royal would relish a constant diet of only two methods. In Caters ringing, however, there are no more than that—in common use, at all events. Grandsire and Stedman are the staple of our nine-bell ringing, varied only occasionally by Erin or Plain Bob; this despite the many excellent and musical methods which exist in all the established categories: single-hunt, twin-hunt and principles. I have listed a few of them as a starter, and a very little research will turn up dozens of equal merit, which for interest will rival most Major methods, and for music are comparable with Stedman Caters.

## A METHODS WITH A SINGLE HUNT

**New College Bob Caters.**  
This method is a straightforward extension from the Doubles and Triples method. Its peculiar merit is the arrangement of the music round the lead-end/head, when the 9ths place bell makes a double whole-turn, and the bells in 4-5 and 6-7 do lightning work, causing a repetition of the roll-up followed by a shift to the next musical phrase, itself repeated. The coursing order is well maintained, and while the method is simple, it has more interest than Plain Bob or Grandsire, and is well worth ringing.

The method:

3 1 9 3 9 3 9 3. h.l. 9. l.h. 129.  
135274968 4ths place bob.

All peals of Bob Caters are, of course, true for the method, and one is given as an example having courses of tittums, reverse tittums, back-stroke home, handstroke home, and — 57968; more variety, in fact, than the usual peal of Grandsire contains.

5,148 NEW C B CATERS  
V 1 3rd 4th W H M 23456789  
— 1 — 3 23457689  
5 S (6) 23457698 (6)=BBSBBS  
S (5) 24357968 (5)=BBSBB  
1 3 23457689  
Repeated.

For bands who want something more challenging, the next method, with lightning work on the front and London work (7-6-7 and 9-8-9) in the back places, may be worth a trial. It also has the coursing-order, while not undisturbed, at least partially intact in the middle places, and the double-dodging effect in 6-7-8-9 is musically valuable.

The method:

3 1 5 3 149 5 9 145. h.l. 9. l.h. 129  
35274968. 4ths place bob. Compositions as for Plain Bob.

As far as I know it has not been named; in any case it is only one of many which a few

moments' work with pencil and paper can produce.

## B TWIN-HUNT METHODS

These are produced (like Double Norwich Caters) by adding a hunt bell to an existing Major method. For instance, the simple Court method—

—14—38—18—h.l. 18, l.h. 18 "H"

adapts to produce an excellently musical Caters method, more musical than Grandsire, because of the extra dodging, and much more interesting to ring, without being likely to tax the ability of a moderate ten-bell company. But there is no need to be confined to right-place methods, and Double Mancroft Caters, in itself a useful method, is a member of a family which includes Double Sandringham Caters and several methods descended from "irregular" Major forbears. The peal below is also true to Double Sandringham.

## DOUBLE MANCROFT BOB CATERS

3 1 5 (169) 7 3 149 5 9 7 9 5 149 3 7  
169 5 1 : 25374968.

Bob, ring 369 for (169).

Single, ring 12369 for (169).

## C PRINCIPLES

The field here is wide open. I cannot off-hand recall more than half a dozen Caters principles, all of them closely related, and there must be thousands possible; so many that one hesitates to recommend any one above its rivals, or to deal with such a vast subject at all in such a short note as this. For practical and musical purposes, we can narrow the field somewhat; principles with plain courses too long or too short, which do not keep the heavy bells together at least part of

the time or whose composition is precarious will never find favour; so it will perhaps not appear unreasonable if my remarks are limited to a few structures of the Stedman family. For one thing, they are more familiar than most methods, and a band is likely to take to a method not far distant from one it knows rather than to a completely strange one. For another, the repeated dodging behind has a real musical value, and lastly few of them are difficult to compose or ring.

## CARTER'S PRINCIPLE

In Stedman, the first twelve changes form the equivalent of a lead in a treble-dominated method, and the first place in the middle of the quick six links one block with the next. An extra parting change—5ths place in Doubles 7ths in Triples and so on may be substituted to produce a principle very close to Stedman, but much more musical. Carter's Caters keeps the coursing-order behind throughout the course, and it is as musical to listen to as it is cacophonous to pronounce! Unfortunately, it is difficult to compose, but the rewards for success are even greater than in Stedman; it is also interesting to ring.

Another Carter principle which might be of interest is formed from a block of five bells plain-hunting on the front, alternately forwards and backwards, while the bells in 6-7 and 8-9 triple dodge. At each parting change there is Stedman work on the front and extra lightning work in 4-5.

The method:

5 1 5 1 5 1 5 9 1 5 1 5 1 5 1 9. Stedman calls.

Start with rounds the head of a quick 8.  
Course-heads are slow eight-heads.

—			S	—		321457896
2		S				1423
3		S				241357968
					(b)	241573968

(a)=1s, 4, 10s, 12s.

(b)=1s, 10s, 12s, 14s. Round 8 ch. previously. Omit either group of bracketed calls.

A version of this principle also exists with the work divided into tens—with four dodges behind—but although this is, theoretically, the purer method structurally, the long dodging, especially at a bob, makes it less desirable.

Enough has been said to show how much potential is untapped in this field, as in so many other less practised areas. I hope that some bands at least may be stimulated to experiment with new methods and new approaches to ringing, for there is more still to be discovered here than in the more explored paths of Major.

## ARCHAEOLOGY

## WERE THERE TWO LEWIS COCKEYS, BELLFOUNDERS?

Dear Sir,—A mystery surrounds the identity of Lewis Cockey, who cast the bell standing in the porch at Clevedon. and we at Frome would like some help in its unravelling.

Walters, in "Church Bells of Wiltshire," 1929, confidently calls him a British founder on the strength of an entry in Yatton churchwardens' accounts for 1690, but he, or someone of the same name, was in Frome from 1682-1684, when a bell was given to augment Frome's five to six, and again after 1690. He is apparently the father of the better known William Cockey, bellfounder of Frome, though we cannot check at the moment as some of our church records are away being copied.

This presents no particular difficulty as he could well be itinerant, but the L C bells themselves present another problem. The one at Farleigh Hungerford is of a quite different style from, for instance, Clevedon and Sutton Veny. Are there, then, two bellfounding Lewis Cockeys at the same time, one Lewis Cockey and someone of the same initials, or one bellfounder using two different methods?

The Farleigh Hungerford bell was made by the older waste bell method. The outer surface of a clay bell was worked smooth and the lettering stuck on as thin squares and oblongs of clay, which had been pressed into moulds. The surface finish of the metal and the raised squares around the letters show how this was done. The other bells were made by smoothing the inside of the cope and stamping the letters into it. Is there any other bellfounder known who used both methods of casting?

Bellfounding is an art as well as a craft and one would expect, as in any other art, the style of the apprentice to be influenced by that of the master. The Farleigh Hungerford bell merely has L. C. William Cockey used W (bell) C, Lewis Cockey L (bell) C, in flat, sheet-metal lettering very much like the I (bell) L of John Lott the elder, of Warminster. John Lott used not only the lettering but the running vine and almost exact copies of the royal arms of Richard Purdew, R (bell) P, who was in Edington in 1615. There was a Richard Cockey, pewterer, of Warminster, who supplied brasses for Frome bells in 1624. Lewis may have been his relation, as later Frome Cockeys had Warminster connections.

L C bells are recorded at Holt (1695), Sutton Veny (1695-6) Bitton (1694), Farleigh Hungerford (1681), Hinton Charterhouse (1687) and Clevedon (1695), also Frampton in Dorset. The help we need, please, is a search in the churchwardens' accounts, if they are available, at these places and round about these times, for any mention of bells or of Lewis Cockey, and a check to see whether the bell itself is L C or L (bell) C, if it is still in existence. What exactly was written at Yatton in 1690, and is Lewis Cockey's baptism recorded at Warminster?

When we have been able to get all the facts together we hope we shall be able to send you the solution to the mystery.—Yours sincerely,

EUNICE D. OVEREND.

Frome, Somerset.

**PORTBURY, SOM.**—On April 5th, 1,260 Doubles (four methods): Helen Kirkpatrick 1, Susan Moore 2, S. Bateman 3, W. Willans (cond.) 4, V. James 5, R. Haskins 6.

**RIPPLE, WORCS.**—On April 1st, 1,260 Plain Bob Minor: P. Bennett 1, R. Hill (first of Minor) 2, T. Bennett 3, B. Spiers 4, D. Price (cond.) 5, J. Clements 6. A birthday compliment to Mr. Charles Haylins.

**WEST MALLING, KENT.**—On March 10th, 1,260 Doubles (five methods/var.): Susan Frankland 1, Anne Oakley 2, P. Carter 3, D. Parks 4, P. K. King (cond.) 5, S. Taylor 6. For morning service. Also on March 24th, 1,260 Pl. Bob Minor: Anne Oakley 1, R. Carter (first Minor "inside") 2, P. Carter 3, D. Parks 4, P. K. King (cond.) 5, S. Taylor 6. For Evensong.

## OBITUARY

## THE REV. F. H. S. MARLE

The Rev Frederick H. S. Marle died in March at the age of 80 years. He was ordained in 1910 and served curacies in Devonshire, Berkshire and the Isle of Wight before going to Hampshire, where the rest of his life was spent. He became curate of Burghclere, in charge of Newtown, and then moved to be Rector of Deane, near Basingstoke, in 1933, with charge of Ashe in 1935. For 35 years until his retirement in 1966 he served these two parishes. One of his predecessors at Deane was the Rev. C. D. P. Davies, of Stedman fame.

Mr. Marle was never a great peal ringer though his name is on a board at Burghclere, but he had a great love of music and delighted to ring and to be with ringers. He took an active part in the work of the Winchester and Portsmouth Guild in North Hampshire and, until age began to take its toll, shared in the Ringing Week of the Clerical Guild. He was a kindly man, with a pleasant sense of humour and a delightful chuckle.

On the day before his memorial service in Deane Church a band of neighbouring ringers honoured his memory with a quarter peal on the bells there. This was in his favourite method, Grandire Doubles, and was conducted by his friend and Rural Dean, Canon F. A. Sanders. May he rest in peace after his long and faithful ministry.

## MR. WILLIAM (BILL) KIRKPATRICK

On April 2nd the Chester Diocesan Guild, and St. Mary's, Lymm, in particular, lost one of its most stalwart members by the sudden death of Bill Kirkpatrick.

Although not a great ringer by peal ringing standards, Bill achieved greatness by his unselfish devotion to Sunday service ringing. Even at the age of 76 years Bill was one of the most regular Sunday ringers in the Lymm band and set a fine example in attending both morning and evening ringing. He rang at Lymm for 64 years, being for many years tower captain.

Bill had a full and active life. His sudden passing came as a great shock, since he had been ringing as usual on the Sunday previous and seemed in the best of health and spirits. His friendly face and cheerful disposition will be sadly missed by all his many friends.

At his funeral on April 6th the local band paid their last respects by ringing the bells half-muffled for the service. The Chester Diocesan Guild was represented by the Master, Mr. A. R. Elkins. Ringers from neighbouring towers, who rang handbells at the graveside, also joined members of the local band in two attempts at a half-muffled quarter peal, both of which, unfortunately, failed. J. M.

## BOOK REVIEW

## ANOTHER BOOK ON THE FENS

Mr. Trevor A. Bevis has now published a companion to "A Guide to the Fens and Fenland Churches," which is now entering its third edition. This is "A Letter from the Fens," which is a great novelty. In a sense it embodies the craftsmanship in the Middle Ages with the facilities of the modern Press. The book is handwritten and freely illustrated by the author. The pages were then photographed and produced on a litho-offset press.

The author knows the Fenlands from his youth. His boyhood was spent in Pinchbeck, in the tulip field county, recalling the tulip processions with dozens of pretty Lincolnshire lasses conveyed on ingeniously-designed floats. There are delightful character sketches of Fen folk—the most rural of rural inhabitants. They are descendants of a race who fought to survive. The relentless enemy was the winds, the rains, the seas, rivers and marshes. This has resulted in a defiant attitude: a law unto themselves and often rude and uncivilised behaviour to visitors.

The letter gives very personal impressions of Peterborough, Ely and Cambridge. It deals with the building of the magnificent Fen churches and the process of building these churches, abbeys and cathedrals, both as regards craftsmanship and finding the money for such undertakings.

There is a romantic side to "The Letter," the loss of King John's treasure in The Wash and the defiance of Hereward the Wake to William the Conqueror. Diagrams are used to tell the story of the Saxons' final fight against the Normans.

This book is a very worthwhile effort. To those who love the countryside and yet able to find entertainment in the town, "A Letter from the Fens" is an enjoyable companion. It is obtainable from Trevor A. Bevis, 150, Burrowmoor Road, March, Cambs, price 4s. 6d. post free.

## MR. E. BURNETT

The death occurred recently of Mr. Ernest Burnett, at the age of 85. Mr. Burnett learned to ring at Sharow, near Ripon, over 60 years ago and continued to ring until his health failed four or five years ago. He had read "The Ringing World" since it was first published and took "The Bell News" before that.

A railwayman, he had worked at Kirkby Stephen and at Hartlepool. Since his retirement he had lived in Darlington, and for several years was in charge of ringing at St. John's. Cremation took place at Darlington on April 7th, and the service was attended by some of his ringing friends.

**STOKE BISHOP, BRISTOL.**—On March 24th, 1,260 Grandire Doubles: Rosemary Snowdon 1, Rosemary Meyers 2, Gillian Thomas (cond.) 3, Margaret Powell 4, K. Bellew 5, F. Crofts 6. In memory of Mrs. R. J. Brocklehurst, a devoted church worker.

## BELFRY GOSSIP

March belfry has recently scored its 60th quarter, nearly 30 people having rung "firsts." We learn from Darley Dale that Mr. J. Frank Smallwood is shortly moving to Blackheath, an area in which he lived for many years.

Mr. R. C. Stevens informs us that the correct weight of Croydon tenor is 36 cwt. 3 qr. 18 lb. in C sharp. (Not C, as given in the peal of Londinium Surprise.)

Writing from Malta, Mr. G. E. Thoday states that he has visited St. Paul's Cathedral, Valletta, where the verger was kind enough to let him see the ring of six bells. These are hung dead for chiming. Unfortunately, as it was Saturday, Mr. Thoday was not allowed to ring them.

The ringer in the fourth in the peal at Conle on February 24th was David G. Carr, and not as printed on page 207.

Mr. W. H. Riddle, of Flixton (Manchester), has had to go into hospital for an operation. The Manchester Branch send Bill their good wishes for a speedy recovery.

We hear that there were drinks all round for the Clapton, Beds, band in the Golden Lion following the success of one of the members in our crossword competition.

The composition of the peal of Stedman Triples rung at North Mymms, Herts, on March 16th, 1968, was Thurstan's four-part, and not Heywood's transposition, as recorded on page 268.

### CHANGE RINGING RESTORED TO WHERWELL

Some three miles from Andover is the pretty village of Wherwell, Hants, often depicted on calendars and postcards for its attractive thatched cottages, although motorists will know it better for the hairpin bend halfway down the 1 in 10 hill on the Andover approach into the village.

To ringers there is little significance except to those with an intimate knowledge of "Dove's," as the church has a light ring of five bells with a tenor of 7 cwt. hung in two tiers in a very small spire.

Andover District ringers had long given up the hope of ever ringing the bells; they had been chimed for many years by a keen young local learner, who played hymns as well as changes, and the previous incumbent was most unsympathetic to enquiries to inspect or look at them, his reason being that the shingled spire was unsafe.

Records of a District meeting having been held there in 1929 was the last indication of when the bells were last rung. However, application to the new incumbent in January, 1967, met with a very welcome reception, and we were met by the churchwarden and tower captain and given every assistance in the small amount of work that was required, and the bells were rung with no difficulty for 45 minutes to various Doubles methods. A splendid tea was given us before returning to Highclere for service ringing.

A further visit was paid a month later, when we rang the bells for service and we were given a welcome when we attended the service afterwards and were thanked from the pulpit for our services. A further survey of the tower was to take place, so we awaited the verdict of this before making a further visit. However, the Bishop's Waltham ringers were made welcome on their outing. I do not think they realised the bells had previously had a long silence and they found them a pleasant ring.

Our next visit was in January, 1968, in connection with the Andover District's 40th anniversary celebrations, but a spate of broken ropes and some difficulty with the fourth bell slip-wheeling prevented the successful peal being rung until March 30th—details elsewhere.

Details of the bells are as follows:—

Treble	Warner, T.	1858
2	Gilletts, recast	1950
3	William Cor	1707
4	William Cor	1707
5	William Cor	1707
Frame and fittings		1858

We hope they will prove a useful addition to the Andover District and that Mr. Carter and his enthusiastic young band will one day learn the art of change ringing and join our Guild of ringers. G. K. D.

### A FAMILY QUARTER

Family quarter peals are rare. Mr. and Mrs. J. H. Edwards, of 24, Mount Drive, Bedford, rang a quarter peal of Plain Bob Minor at Goldington on April 4th. The band consisted of the father and mother and four daughters. All are Sunday service ringers at Goldington Parish Church when they are at home.

### A RECTOR THEY ADMIRE

Bingham District of the Southwell Diocesan Guild have an admiration for the Rev. A. R. Hayward, Rector of Woodborough, which has a four-bell tower. A very good meeting with an attendance of upwards of 70 was held at his church on March 9th. He not only conducted the service (and his daughter, a learner-ringer, was a very good organist), but he paid for his tea and finally washed-up! "A real worker," comments our correspondent.

At the meeting four new members from Woodborough—the Misses L. Hoskins, S. Welch, P. Hayward and T. Sinfield—were enrolled. Ringing at Lowdham until 8 p.m. ended a very happy meeting.

Guild annual meeting, April 20th; June District meeting, Radcliffe-on-Trent.

### MELTON DISTRICT DINNER

Ringers and wives and friends held their annual dinner at the Kings Arms, Scalford, on Saturday, March 23rd. The excellent spread was served by candlelight owing to a failure of the electricity supply. The guests were the Vicar of Melton Mowbray (the Rev. G. H. Codrington), who proposed the toast "The Leicester Diocesan Guild," and Mrs. Codrington. The District chairman, Mr. R. Preston, replied.

An enjoyable social evening followed, which was organised by Mrs. D. and Miss A. Day and Mrs. Woodcock.

### NEW ORGAN FOR MR. H. BADGER

Recently we recorded a peal rung at Dorchester Abbey to mark Mr. Harry Badger's 50 years' membership of the Oxford Guild. Harry writes that he is afraid his Sunday ringing will be curtailed as he has just been appointed organist of St. Mary's, Bayswater, Headington. This church is a daughter church of St. Andrew's, Headington, where the ring of six bells has recently been rehung by Messrs. White, of Appleton.

### SILVER WEDDING AT WILLINGDON

The peal columns record an interesting achievement at Willingdon, Sussex, on March 30th. Specially arranged to mark the silver wedding anniversary of county secretary Bob Percy and his wife, Betty, it was called by their daughter, Janet (her first of Doubles as conductor). The inclusion of twins Susan (another first) and Charles nearly completed the band. At this initial attempt as a family they were joined by an old friend, Clive Brettell, to make the peal the first by a Sunday service band at the tower.

On the preceding practice night Mr. and Mrs. Percy were taken by surprise when the Vicar, the Rev. W. Greenfield, came into the belfry, and after some "speechifying" presented the couple with some wine glasses and an electric clock, tokens of regard from the clergy and ringers.

### A QUESTION FOR THE C.C.

Mr. John A. Acres writes thanking Mr. Frank Blagrove for his reply to the request for the extent of Bob Minor at Dorney (no singles). He adds it is now for the Central Council to decide whether such an extent can be accepted in their analysis.

### RINGING COURSE AT BISHOP'S LYDEARD

The rival attractions of the Grand National and an outing to Cornwall clashed with a second half-day ringing course of the Bath and Wells Association on March 30th. Bishop's Lydeard Village Hall provided first-class facilities for the lectures and tea, and ringing took place in the evening at Ash Priors and Halse. On this occasion there were only 18 students, half the number at Barrington last October.

Guidance was offered on the recognition and cure of basic handling faults; on bell, frame and rope maintenance and splicing; and some hints on the principles of conducting. The lecturers were Harry Sanger, Michael Horseman and John Gilbert, who hope that their work will prove useful to those who participated.

### BILL THEOBALD AT WASHINGTON

The first quarter by an American band was rung on March 30th at Washington Cathedral, conducted by Richard S. Dirksen. It was Grandsire and was the first of Caters by all the band except the conductor and his first as conductor.

Mr. William Theobald was at Washington on March 25th. After an unsuccessful attempt at Parker's 12-part, Bill called a quarter of Grandsire on the light eight at the Cathedral. It was a welcome to Mr. Edward Curran to the Cathedral Close and to Mr. Theobald to the United States. There was to be a return visit to Washington on Easter Monday, when Bill was to have another shot at the peal.

### WIRRAL BRANCH'S MEMORIAL PRIZE

"Good Ringers. Pull your Best . . .  
 And lo, the great bell farre and wide  
 Was heard in all the countryside  
 That Saturday at eventide."  
 (Ingelow.)

This was the quotation in the parish magazine announcing the March meeting of the Wirral Branch of the Chester Diocesan Guild held at St. Hilary de Poitiers, Wallasey. Ringing during the afternoon ranged from rounds to Lightfoot Surprise. The service was conducted by the Rector and Rural Dean, the Rev. W. N. Digby Thomas, assisted by the Rev. Bernard L. Ellison.

During the course of the meeting held in the Parish Hall, following an excellent tea served by the local ringers, the Thomas Rogers Memorial prize was presented for the first time. During the past 18 months, donations had been received from local ringers and from many towers in the nearby district in memory of the late Mr. Thomas Rogers. Ringing Master for over 15 years. The money donated has been invested and the annual income is to provide a prize. On this occasion the prize was awarded to a young, keen, progressive, regular Sunday service ringer, Thomas E. Howarth, of St. Mary's, Overchurch, Upton, Wirral.

After addressing the gathering, Miss Mary Rogers presented the award, which was a year's subscription to "The Ringing World." In reply, Mr. Howarth thanked the band at Upton for teaching him to handle a bell, together with his fellow members of the Branch who had helped him master the art of change ringing. M. W. H. J.

## TOWER BELL PEALS

## WINCHESTER &amp; PORTSMOUTH DIOCESAN GUILD

ALL RUNG TO CELEBRATE THE 40th ANNIVERSARY OF THE  
ANDOVER DISTRICT

HIGHCLERE, Hants.—At the Church of St. Michael and All Angels.  
On Mon., Jan. 1, 1968, in 2 Hours and 45 Minutes,

## A PEAL OF 5040 PLAIN BOB TRIPLES

Tenor 11 cwt 1 qr 27 lb.

Ann Newman .. .. Treble	*Robert Newman .. .. 5
Peter Furness .. .. 2	Philip G. Taylor .. .. 6
*William Furness .. .. 3	Geoffrey K. Dodd .. .. 7
