## HERTS COUNTY ASSOCIATION

## Northern District

A successful ringers meeting was held at St. Nicholas'. Norton, on April 2nd. After a late start many people enjoyed a ring before the Rev. G. G. S. Kenyon conducted the service, with Mr. K. Rooke as organist. This was the last ringers' meeting during Father Kenyon's incumbency.
Another -last time was for Mr. G. Debenham. president of the Association. whose current term of office ends this month. He honoured us by his presence, and took the chair at the business meeting which followed the excellent tea provided by Mrs. H. Werrcit and friends. Miss H . Pound. of Norton, the Misses J. Carling and H. H. Starte, and Mr. M. Trigg. all of Hitchin, were elected ringing members. The next meeting will be it Anstey. not Ashwell. and the next quarterly business meeting at Knebworth.
Later, ringing continued in methods to suit all. from rounds to Bristol Surprise Major.
J. S.

### 5.024 KELSHALL SURPRISE By JOHN R. MAYNE

EDIIOR: T. W. White.

Bells will be heard prior to the broadcast of the morning service on Sunday, 24h, at 9.45 a.m. in the West Home Service. from Sutton Veny Parish Church, near Warminster, Wiltshire. The service will be conducted by the Rector, the Rev. D. V. Evening, and the captain of the ringers is Mr. A. Eyres.

Mr. Alfred Ballard, of Leicester, rang his 800th peal on March 22nd.

South Wales Nomads at their meeting at Llanfrechfa, elected three new members. Despite the rain, which persisted all day, the meeting was well attended. A motor-cycle shuttle service was operated at the conclusion to get all ringers home.
Immediately after the wedding of Miss Elizabeth Sams, at Nazeing, on April 2nd, six members of her family rang the bells for a short touch, her father being the tower captain. A peal of Plain Bob Minor followed and afterwards the band was kindly entertained by Mr. C. Sams.

Winchester Cathedral band informs us that there will not be a practice either in Holy Week (which is usual), or in the following week. They expect to be open to visitors on April 27 th at 7.30 p.m. and on subsequent Wednesdays. The College Youths are attempting a peal on the Cathedral bells on Saturday, April 23 rd.

Mr. Seymour R. Barker, tower captain of St. John the Baptist, Cardiff. has been ill for the past five months, but is now on the road to recovery. He has been associated with this tower since 1906, and has rung over 100 peals in its belfry. Perhaps his most memorable peal was that of Stedman Triples, rung on January 20th, 1938. in this tower, by Past Masters of the Llandaff and Monmouth Diocesan Association. The band consisted of John Phillips (Master, 1931) treble, S. R. Barker (1932) 2, Fred Atwell (1901) 3, J. W. Jones (1898) 4. Frank Bailey (1922) 5, Charles Perry (1928) 6, Albert Pitman (1926) 7. Tom Pige (1910) tenor.

GOSSIP
The Coventry Diocesan Guild are making their first contact with the new Cathedral and its authorities at their annual meeting on April 23rd. The service will be held in the Chapel of the Cross in the new Cathedral, and tea served in huts in the Cathedral precinct.
After being silent for ten years, the bells of Stow Bardolph, Norfolk, were rung to a quarter peal on March 30th.

The late Mr. Harry E. Wills, concerning whom information was recently requested, rang in three peals at St. Patrick's Cathedral, Dublin. in 1927, when he was a member of St. Patrick's Change Ringing Sociey.

We are still receiving quarter peals for the birth of Prince Andrew. The latest to be received is from Eastham, Wirral, Cheshire, rung on February 19th. Methods rung were Platn Bob Minor and Single Oxford and the band consisted of B. C. W. Jenks (first quarter) 1, G. Halford 2, Mrs. F. R. Ferris 3, R. E. D. Hamn 4. K. C. Edwards 5, F. R. Ferris 6.
Mr. Hugh Falkner, of the College of Technology, Kingston, Jamaica, is never certain of the sequence of the arrival of his "Ringing World ': This is how his copies have arrived this year, January 1 st , January 15 th, February 5 th, January 22nd, February 12th, January 8th, January 29th and February 19th. He writes: - I really wouldn't know what method of change ringing could produce that order from normal rounds.' He send; greetings to Cirencester and Croydon ringers.

In St. Patrick's Cathedral, Dublin, on February 28th, the Very Rev. J. W. Armsirong, Dean of the Cathedral, dedicated a memorial brass peal board in the ringing chamber, erected in memory of Mr. R. S. F. Murphy, P.C., who was a member of the St. Patrick's Society of Change Ringers for 59 years and president for nearly 25 years. Members of the family and his fellow ringers were present at the ceremony.

## THE WHITECHAPEL BELL FOUNDRY

## WEDDINGS

Two Slough Ringers Married
Slough ringers went all festive on Sunday, April 3rd, when two of their number, Mr. David Livingston and Miss Janet Adamson, were married at Slough Parish Church by the Rev. E. W. Perkins, Rector, and chairman of the East Berks and South Bucks Branch of the Oxford Diocesan Guild.

Mr. Livingston came to Slough a few years ago from Sidcup, Kent, in connection with his work in the Post Office Telephone Engineering Department, and was taught to handle a bell by Mr. George Gilbert, of Burnham, but later joined the Slough band. Miss Adamson began ringing at Slough, while still a pupil at Slough High School, and has rung a number of peals in various methods

The wedding was held on Sunday as no choral services or wedding bells are allowed during Lent, and the Rector very kindly broke a year-old ban on Sunday weddings in the parish to please both David and Janet, and the ringers. The congregation included well over twenty ringing friends, and it was a great pleasure to have with them Mr. W Hibbert and Mrs. Pat Lewington, of St Laurence's, Reading, with whom the bride and bridegroom had rung a 'quarter' of Stedman Cinques a few days previously: Among the hymns chosen was "The Ringers" Hymn,' and the choir was certainly not needed to help with that, as the 'ringers' choir made their presence heard in no feeble manner.

After the ceremony the Rector, as president, made a presentation of china-ware to the happy couple, beneath the tower, on behalf of their ringing colleagues. They arrived at the church to the tune of Grandsire Caters and Bob Royal and left to the sound of Grandsire Caters and Cambridge Major. A quarter peal of Plain Bob Royal was rung in the evening, details of which appear elsewhere.
The reception was held at the bride's sister's home at Widbrook Common, near Cookham, where all the ringers present vated it the most enjoyable wedding they had ever been privileged to attend. The best man was Mr. John Norsworthy, captain of Bray-on-Thames ringers. and Miss Mary Adamson, sister of the bride. and also a Slough ringer, was bridesmaid. The happy couple are spending their honeymoon in South Devon. and on their return will live in Maidenhead.

## A Blunsdon Wedding

Two well-known ringers-Mr. Brian Bladon and Miss Lesley J. Hawes-were married at Blunsdon, Wilts. on April 2nd, the ceremony being ittended by local ringers and certain Friends of the Exercise.' The bridegroom taught the bride to ring at Stamford Hill, Tottenham.

The bride. dressed in ivory satin brocade, and wearing a coronet with short veil, was attended by two bridesmaids dressed in blue satin brocade. The best man was Anthony R. Peake.

The reception took place at 'The King's Arms, Swindon. and the honeymoon is keing spent in Somerset.

The bells at Blunsdon were rung before and after the service. A 720 of London Surprise Minor was rung by: B. S. Sheppard. Mrs. P. Mayne. W. H. Trueman. Miss F. Secker, Miss J. Secker and J. R. Mayne.

## Tips For Beginners-16

If you wish to start conducting you will find it a help to remember that you can call three bobs in the same position in consecutive courses to give a complete touch in any' method in which three bells are affected by a bob.

## SERVANTS OF THE EXERCISE - No. 16

MRS. P. J. STANIFORTH,

## President of the Ladies' Guild.

Mrs. P. J. (Jill) Staniforth can only be described as the gifted and talented daughter of brilliant parents, and the devoted wife of another equally brilliant ringer, Peter J Staniforth. Her record is so remarkable that it should stimulate all ringing members of her sex (aye, and the other sex, too!) to emulate her achievements. Yet in spite of all this Jill is a most modest and unassuming young lady. She stands high up in the affections of all who know her.

## UNIVERSITY OF BRISTOL SOCIETY

On March 12th. members of the Society were very fortunate in being able to hear a most interesting talk given by Mr. YorkBramble on the instruction of those learning how to ring. The meeting was held at Christ Church at the kind invitation of the Rector, the Rev. Mr. Calderwell, the University tower of St. Michael's being too small for the occasion. Professor Brocklehurst, the president of the Society, was in the chair.

Mr. York-Bramble, who is the Principal of the College of Campanology, gave a most instructive talk-a talk which, being delivered with such attention to important detail and covering the ground from teaching the beginner how to handle a bell to when he learns change ringing, was divided into two parts, the second half following after a most delicious tea in the Church Hall. to which the Rector had very kindly invited us.

Another popular occasion was the coach outing of the term which took place the following Saturday and was attended by most of the Society. Towers visited were Stone. Tewkesbury Abbey, Quedgeley and Dursley, all of which gave us much enjoyment and new experience. especially Tewkesbury Abbey, where although the tenor sometimes required three people to handle it, there was still polite rivalry as to who should ring t.

After admiring the Abbey we had tea in one of the many picturesque cafes in the town and finished up at Dursley after visiting Quedgeley on the way. We arrived back at Bristol at about 11 p.m. after what, I think, all would have called a very enjoyable outing.

Born in 1928, she commenced her education in the County Primary School, and from there went to Newark Grammar School, finishing at Leicester Commercial School. After working for the Leicestershire County Council she took up secretarial work with the organiser of the County Council's Home Help Depart ment, at the age of 21 .

Because of the 1939 war, Jill had to learn her ringing the hard way, for the bells had been silenced. Not to be deterred, however, she learned to ring on handbells, and rang her first peal (Stedman Triples) with her parents and A. H. Pulling in 1942, before she could ring on tower bells. Indeed, she rang nine peals ' in hand ' before her first tower bell peal, again Stedman Triples, in 1944. She could only learn on silent tower bells-for. in spite of the war restrictions, the Leicester Cathedral band held regular silent practices.

The first opportunity she had to ring with the bells 'open' was when they were ordered to be rung for the El Alamein victory. Then she went forward with a rush, and in October, 1944, rang a peal of Cambridge Surprise Maximus-being only 15 years old. and the youngest of her sex to ring a peal of Maximus. Among the many other noteworthy performances of this extraordinary young lady are a peal of Stedman Sextuples the second ever rung) and a peal of Treble Bob 14 in. on handbells. She is the only lady who has rung Cambridge Surprise on handbells from Minor to Maximus, and in November. 1954. conducted a peal of London Surprise Major which was her parents' 100 th peal that year. She has rung peals in 19 Maximus methods. plus Spliced Surprise in 2, 3, 4, 6, 7, 8 and 10 Maximus methods. Bristol Surprise Maximus is also amongst her achievements.
She married Peter John Staniforth in 1951. and they have one daughter, Rosemary, who was made an honorary member of the Ladies Guild when three weeks old. At the time this young lady was born, Jill was listening to a peal of Gartree Maximus, which was being rung at Leicester Cathedral, not far from the Nursing Home. Naturally, a lady with such fine accomplishments would soon be preferred for high office, and she served as secretary. Midland District, Ladies' Guild, from its formation; Central Council representative Ladies' Guild from 1951 to present date: District Committee member and District chairman. Leicester Diocesan Guild. and in 959 was elected President, Ladies' Guild. Her peals total is tower 266, conducted 16, handbells 108 , conducted one, 374 in all.
It is safe to predict that under Jill's capable leadership and example the Ladies' Guild will progress to even greater heights.

JAFUS.

## WEST DORSET RINGERS' GIFT TO CANON C. C. COX

Bell ringers from eight West Dorset towers gathered in Bridport Church House recently o make a presentation to Canon C. Carew Cox, who retired in December. after 31 years as chairman of the West Dorset Branch of the Salisbury Diocesan Guild. Canon Cox recejved a wrist watch from the ringers, the presentation being made by Mr. J. Barrett, the West Dorset Branch secretary.
Mr. Barrett said that looking back through the minute book. he realised that considerable progress had heen made by the branch during Canon Cox's 30 years as chairman. It was largely due to his untiring work for the branch that it was in its present healthy state.

There were about 50 members present and Mr. Barrett said the size of the gathering was indicative of the respect in which Canon Cox was held.

Thanking the members for their generosity and good wishes, Canon Cox said it had been a pleasure to work for such a smooth-running branch with such able officers and loyal members.

Members rang the bells of St. Mary's Church before and after the presentation.

## A STAFFORDSHIRE VILLAGE TOWER

[Photo by permission of 'Stone Guardian.'

This picture is given as typical of English ringing in our villages today. It was taken on a practice night at St. Mary's, Swynnerton, near Stone. Left to right in front are three juveniles, Derek Howard, Leslie Howard and Malcolm Skiffins. In the centre is the Ringing Master (Mr. W. H. Watkins). Miss E. Hotston and Miss Ann Vickery, and behind is Mr. A. Vickery. Two other members of the company, W. Warrillow and Miss Antonie Vickery, are not in the picture.
Swynnerton was at one time the living of the late Rev. J. B. Frith, who was a member of the Central Council from 1932-35 as the representative of the North Staffordshire Association and was instrumental with Mr. W. R. Frith in getting the bells rehung in 1926, the work being done by James Groves. of Birmingham. He rang in a peal (Grandsire Doubles) on the bells on February 23rd, 1929. the other members of the band who came from Stone being Willis Buckley, Harry Hodson. Jack Heal. Arthur Rowley and Claude Templeton.
In 1939 the present tower master took over and Mr. Watkins has remained in office ever since. The hells were rehung in February, 1954. and were rededicated by the Bishop of Lichfield.
The weights of the light six are: Treble 4 cwt ., second 4 cwt. 23 lbs.. third 4 cwt . 2 qr. 2 lbs.. fourth 4 cwt. 2 qr. 8 lbs., fifth 5 cwt .19 qr . 4 lbs ., tenor 7 cwt . 19 qr .8 lbs . in A.

## GUILDFORD DIOCESAN GUILD Chertsey District

Owing. perhaps, to the warm spring weather. the meeting at Ottershaw on April 2nd attracted representatives from most towers in the district and also several visiting ringers from places as far distant as Amersham.
Prior to the service. conducted by the Rev. D. Hiam. those present stood in silence in memory of Mr. Bob Andrews, who had passed away during the week. Until his retirement. due to ill-health, five years ago. he was a faithful and respected member of the Ottershaw band. and it was with deep regret that all those who knew him received the news of his passing. He was a regular attender at Guild meetings and always inspired every. one with his friendly attitude and words of advice.
Following a very good tea at the Otter Hotel. a short business meeting was held. Mr. F. Hawthorne thanked the Vicar. organist and all those concerned in organising the meeting. Before returning to the belfry. where ringing continued until $8.45 \mathrm{p} . \mathrm{m}$.. a collection was made for the Cathedral Bells Fund.
H. E. P.

A different clergyman came to the village. On meeting a veteran in the churchyard, he said: "So you are one of the ringers. John?" John replied: "Yes, sir:" Clergyman: You have been ringing a good many years?' John gave the same answer. He then asked: "Did ever you ring the old year out and the new year in?' John quickly replied: 'Oh yes, sir, hundreds of times. - G. E. SYmonds.

IT IS WHAT THE RINGER SAYS THAT COUNTS:

‘. . ARE WEARING WELL - NO TROUBLE FROM STRETCHING

## LETTERS TO THE EDITOR

## STRAIGHT WORDS TO 'BIG FOUR' OF VARSITY RINGING

Dear Sir-If, as Mr. Lakin believes, the other University Ringing Societies have been neglected by the 'hig four,' how can he be certain of our ringing standards?

Where do our Southern contemporaries find cause 10 class themselves as the "big four from the peal columns? The number of peals. relatively speaking, is no true guide to the standard of a ringing society. Some of the best striking in the country comes from ringers who have never taken part in a peal attempt. A well struck peal of Plain Bob, also. is often a much better achievement when people are learning (which is, I am told, what we come to University for) than one of a new Surprise method fired round-this despite the views of a certain well-known ringer who thought peals of Plain Bob were rung by some people as "safe" to assist their peal totals.

If people were to read further into their Ringing World " they would not find the other Universities lagging so far behind. Of the advertised tours that of Manchester seems. besides heing the longest. by far the most ambitious. Also a peal week is being planned for the early summer. and tours of the Lake District and Scotland have already been enjoyed this year.
Our handbell ringers at . Tech' may not have the time or inclination to ring peals but their one achievement this year has been very great. To ring non-stop for 11 hours, whether or not the ringing followed Central Council decisions. is magnificent, and we must also remember it helped to raise moncy for very deserving charities-and who hold the record for Rag collections?
Although we cannot claim to be of the same resident size as Cambridge and others. eight bells are always rung at Salford and attendances of over 20 are normal at Tuesday night practices when up to 12 -Spliced is rung. Members also avail themselves of the practices in the area, especially at the Town Hall and Cathedral. where opportunity is provided 10 learn proficiency on the higher numbers.

Manchester are bringing themselves up (or perhaps it's down) to the level of the other four by contemplating Central Council affiliation. Any idea the Southerners have that they form. the big four should here and now be scotched. And Manchester are sure there are other Societies as well as themselves who could scolch the theory.
As far as the Universities Association is concerned it provides little more than a marriage hureau (that's what you said. Mr. Roaf, I believe). Normally all their activities are definitely southern. both in origin and location. It is with some delight we see that they are coming as far north as Sheffield this year. I hope they bring plenty of soap!Yours sincerely.

## A BELL RINGER'S ADVENTURE

Dear Sir.-With reference to the article Bell Ringer's Adventure on page 236, the original story was named. The Man in the Bell: and was written by W. E. Aytoun, who lived from 1813-1865.
Incidentally. I first read this story in hed at 12 midnight. with a howling gale outside!Yours faithfully.
Penarth. Glam

## FIRST PEAL AT HALKYN?

Dear Sir.-With reference to the peal at Halkyn. Flintshire. I am given to understand that a peal has never previously been rung at this tower. We did make an attempt in 1953 but were defeated hy one of the ropes slipping wheet and the excessive noise in the ringing chamber. Since that time the bells have been overhauled and the wheels. which were in a bad condition. renewed. This "go is now quite good. although they are still somewhat noisy in the ringing chamber
A further attempt was made last summer but unfortunately our visit coincided with the village fete, and as the noise of the bells interfered with the performance of the band. the attempt had to be abandoned. Another band also made an unsuccessful attempt.
It is understood that this church was built by the first Duke of Westminster, and it is interesting to note that with one exception they were all dedicated to St. Mary. The churches concerned are: St. Mary, Eccleston: St. Mary the Virgin. Pulford: Si. Mary without the Walls. Chester: St. Mary the Virgin. Halkyn. and St. John the Baptist. Aldford.-Yours faithfully.

## Upton-by-Chester

JOHN W. GRIFFITHS.

## THE 1911 PEAL AT VANCOUVER

Dear Sir.-The letter from Mr. Weatherby of Los Angeles. in your issue of April lst makes interesting reading. but the information Which he gives concerning the peal at Vancouver in 1911 needs some correction.

Mr . Weatherby rightly mentions that all the band were Englishmen who were then resident in Canada. The ringers. however. were not as he states. but were as follows: Alfred C. Limpus (Windsor) treble. George W. Foster (Borden) conductor 2. Frank M Bressy (Wanstead) 3. Gilbert Pearce (Bristol) 4. William R. Warner (South Weald) 5. Matthew G. Bennett (Burbage) 6. Reginald J. Carrier (Bedford) 7. Farrington Jones (Wolverhamp(on) tenor

The time taken was 2 hours 59 minutes
The full story of this peal and the history of the bells appeared in .The Ringing World of August 18th and 25th. 1916.-Yours faithfully.
P. L. PEARCE.

Filton. Bristol.

## THE ROYAL MAUNDY

## An Historic Occasion at Windsor

Last year for the first time since the Middle Ages the Royal Maundy-the Sovereign's gift of specially minted silver coins-was distributed by the Queen it St. George's Chapel. Winasor Castle.

Among those privileged to receive the traditional purses was William Welling, of Old Windsor. I wonder if this is the jirst time a ringer has been so honoured?

It was a simple ceremony. not to be forgotten By those present-the warm sping sunshine filled the Chapel as the colourful procession of Military Knights, children of the Chapcl Royal, choristers. clergy and almoners followed by the slight figure of Her Majesty the Queen passed up the nave into the Quire to the strains of Praise to the Holiest in the height.

The great dishes containing the alms in little green and white and red and white purses were then horne on high by the Yeomen of the Guard.

The service proceeded and the Queen came down into the nave and gave away the litule purses to her people of Windsor.

The triumphant strains of Praise. my soul. the King of Heaven ended the ceremony and the Queen passed on her way leaving sunshine in the hearts of her people

The distribution of alms and the washing of feet on the Thursday of Holy Week is ol great antiquity. The Maundy can be traced back in England to the 12 th century, and there are records of the distribution having been made on Maundy Thursday from the reign of King Edward 1 .

The service derives its name from the Latin word 'mandatum meaning a commandment. and its opening words have always heen A new Commandment give I unto you, etc.

From the beginning of the 15 th century. the recipients have numbered as many old men and as many old women as the Sovereign is years of age. Fach of them receives, in the specially minted Maundy money, as many pence as the Sovereign is years of age. The Maundy is distributed in the traditional red and white purses. They are placed on the silver gilt Maundy dish which dates from the reign of King Charles 11 and is part of the regalia.
The Lord High Almoner and his assistants are girded with towels in remembrance of the feet washing which was once part of the service. and they carry nosegays of sweet herbs. The service used to be held whenever the Sovereign was in residence. For many years it took place in the old Chapel Royal (now the Banqueting Hall) at Whitehall Since 1890 it has usually been held at Westminster Abbey. In 1955. however, it was held at Southwark Cathedral to mark the golden jubilee year of the diocese of Southkark. and in 1957 at the Cathedral and Abbey Church of St. Alban.
In medixval limes the Sovereigns sometime:s - kept their Maundy at Windsor. but this would appear to be the first time that the service has been held in the existing Chapel of St. George. G. E BARKFR.

## SUNDAY SERVICE NEWS

## Sapente, Leies.

On April 3rd. six lady members of All Sitints. Sapcore. Sunday service band rany a course of Cambridge Surprise Minor. They were: Dorothy Page 1. Mrs. M. E. Brown 2. Christine Stralford 3. Jennifer Siratford 4. Dorothy Stratford 5. Rita Stratford 6. Five of the above also rang a touch of London Surprise Minor, with Michael Brown to make the sixth. Our ladies grace our belfry with brains as well as beaty: writes M. F. B.

## ALPHABET FOR BEGINNERS

By T. J. LOCK

We continue our new series of arricles dealing with terms and words met in change-ringing which will be of great help to beginners and also to many other readers. This list has been compiled by a member of the Central Council. who would like in the preparation of this glossary to acknowledge the help given by other well-hnown ringers.

CENTRAL COUNCIL OF CHURCH BELL RINGERS. - This is an advisory hody which meets annually. its deliberations and conclusions being designed for the benefit of the Exercise ats a whole. The Council consists of representatives members elected by affiliated societies; honorary members: and life members. Affiliated societies are required to subscribe to an undertaking loyally to abide by the rules and decisions of the Council. The first mecting of the Council was held on Easter Tuesday. 1891. and-well much more can be read in the Central Council Handbook containing seventy pages. on sale at two shillings and sixpence per copy.
CHANGE:-A change implies a different order in which the bells strike-a change from the previous order. To explain with figures 123456 or rounds
214365 first change as in Plain Bob Minor 213456 is also a change from rounds and could be rung in a tower where call changes are used to produce the music of the bells In method ringing the rules require that to produce a change any bell may move only one striking position at each change.
CLEAN PROOF SCALE.-This term is applicable to Treble Dominated methods: that is, to methods in which the treble takes on a special work, different from that of the other bells, defining the structure of the method by periodically returning to lead. The LEAD is used as the unit for the proof of such methods, the process of proving being essentially that of determining whit leads contain changes common to the first lead of the method: i.e.. the lead beginning with rounds.
Confining our attention to symmetrical methods, the arrangement of places in the second half of the lead is a mirror image of that in the first half. This symmetry always makes it possible to ring one and the same lead both forwards and backwards. To put it another way. it is always possible to choose two leads beginning with different rows which are actually identical. the rows in one being arranged in the opposite order to those in the other.

Now in the case of methods where the treble plain hunts it is easy to show that the above kind of repetition is the only one that can occur-apart, of course, from the even more obvious pne of ringing the same lead over again in the same direction. Such methods. e.g.. Double Norwich Court Bob Major. are said to have a Clean Proof Scale and this is the first sense in which the term may be used. The second sense, which is more complex, concerns methods where the treble hunt contains dodges. It is then possible for duplication of rows 10 occur by a mechanism different from that described above. The process of proof is still the same in essentials but more complicated in practice since it will often be found that there are many leads which share rows with the first lead. When these leads have been found the proof of the methods is strictly finished. but it is usually convenient to proceed a stage further and rearrange the information so that it is known to what courses the leads belong which are false against the leads contained in the plain course. Sometimes it will be found that no falseness occurs in courses where the tenors occupy the same relative position as they do in the plain course. In such cases. e.g.. Bristol Surprise Major. the method is said to have a Clean Proof Scalc with the tenors together. or often more briefly. it is simply said to have a Clean Proof Scale.
It should now be easy to understand other more specialised uses of the term. As an
example, consider London Surprise Major If calls are made at In and Fifths a composite course is formed comprising a section with the tenors parted sandwiched between two sections with the lenors logether. This arrangement has the property that none of the leads false against the course beginning with rounds occurs in any of the other possible courses. Thus. provided only this type of course is employed, there is no possibility of falseness. This is expressed by saying that - In and Fifths London has a Clean Proof Scale.'

COURSING ORDER.-Coursing order is one secret ol success. so if you have desires of becoming a complete ringer. study this subject as much as you can by grasping the fundamentals from available literature, putting your pen to paper and then applying your knowledge in a practical way in the ringing chamber. It is an interesting subject and undoubtedly adds pleasure in the execution of ringing, moreover, it is so important that if each ringer knew only his coursing bell then there would be just nothing (indisposition. a broken rope, conductor miscalling, or the like excepted) which could go wrong in the completion of any touch or peal. Coursing order simply means the order in which the various bells are coursing each other. Admittedly it becomes complicated in some methods, particularly Surprise methods. but it will grow with you as you gain experience.

Write out the Plain Hunt or Original on six bells and you will see that the bells come to lead in the order 2.4.6.5.3, 1. This is the coursing order. Imagine you are ringing the second, you will see that the fourth takes you off lead, you then strike over or after the sixth. then the fifth. then the third, then the treble. when you will be up behind or at the back striking last. As you hunt down to lead you again strike $4.6,5,3,1$, in that order which is the coursing order to the exclusion only of your bell. Now, imagine again that you are ringing the second, still to Original, and, we will say, the fifth took you off lead. you would be entitled to call to the fourth to take you off lead and to call to the fifth that he should be behind and coursing the sixth and certainly not be taking you off lead. To press one of my points, the fifth would not attempt to take you off lead if he knew the coursing order as the only bell he takes off lead is the sixth.

Have a look at Plain Bob-which is similar to Original up to the time the treble gets back to lead-but do not include the treble as this hell continues plain hunting and does not do the work of the method as the other bells.

CROSS SECTION.-This term means the point at which the treble passes from one dodging position to the next. e.g.. from 1-2 to 3-4 going up or in reverse when coming down to the lead. The following diagram should make it clear:-

## OBITUARY

## MR. ROBERT J. ANDREWS

In our last issue we briefly announced the death of Mr. Robert J. Andrews, of Addlestone, Surrey.
Mr. Shepherd writes: Mr. Andrews came to Addlestone from the Dorking district and was a keen worker and supporter of the Chertsey District of the Guildford Diocesan Guild. While working as a welder he met with a serious accident in a gas explosion and this affected his eyesight, caused a serious illness and cut short his ringing career.
Affectionately known as 'Boh.' he did what he could in his quiet, but thorough, way and his love for a quarter peal on six or cight bells was great. He was only 48 when he was called to higher service and he was silently remembered on the day of his funeral iApril 2nd), when his District met at Ottershaw, the tower where he loved to help. teach and conduct.

## MR. H. E.. WILLS AN' APPRECIATION

In our issue of March 25th. R.F. L. paid tribute to the memory of Mr. H. E Wills. who died on March 5th. Mr. T. A. Blow. leader of St. Peter's Society, South Croydon. sends the following appreciation of Mr. Wills' work for ringing during the years he was at Croydon:
For many years Mr. Wills was a member of St. Peter's band. South Croydon, joining in 1916. He held. at different times, all the offices of the Society and was elected leader in 1939. When the war came. he had to go to Yorkshire on Government work. During the periods he was able to spend in Croydon. in those years. he taught some of the members of the Girls' Club, attached to the church. to ring handbells and siient bells. This was of great help in forming the nucleus of a band to ring the open bells immediately it was allowed: the 1939 team being weakened through losses by death and members being retained in the forces.
In the belfry of St. Peter's Church. his name is recorded as having rung a peal of Kent Treble Bob Royal in May. 1931, and a peal of Stedman Caters in November, 1935. There is no doubt that he rang other peals. but his great interest was to help keep a band logether for service and practice ringing.

## MR. W. BAYLISS

With the death, at the age of 80 . of Mr. W. Bayliss. Bradley. Staffs, has lost the last remaining link with past activities at St. Martin's Church.

Bradiey Bill. as he was affectionately known locally. was a most conscientious service ringer. and until a few years ago could be seen at every meeting in the district. Although not a great peal ringer himself, his love of bells would take him almost anywhere to hear a peal.'
As the only survivor of the Bradley band. his joy was unbounded when, after a silence of some fifty years. the bells rang out again from this tower. just over two years ago. and a long cherished ambition became a reality as he took part in a few rounds on the new cight.

The same eight bells rang out half-muffied. for the funeral service, which took place on March 25th. conducted by the Rev. J. F. Heighway. Vicar of St. Martin's, assisted by the Rev. C. H. Barker, honorary clerical secretary. of the Archdeaconry of Stafford Society.

Later in the evening a last tribute 10 his memory was paid by the ringing of a quarter peal of Grandsire Triples with the bells halfmuffled. Those taking part were W. Davies (first quarter) 1. E. E. Speake 2, C. R. Godfrey 3. E. Stitch 4. A. D. Collins 5. G. Hughes 6. J. D. Holden (cond.) 7, F. Holden 8.

The sympathies of his fellow ringers go out to his two sisters with whom he lived throughout his life.
J. D. H.

## THE BELLS

Miss Jean Sanderson has compiled a brief history of the Church of St. Nicholas, Norton, Hertfordshire, which has been published by the Friends of the Church. With the growth of Letchworth Garden City this old church, dedicated between 1109 and 1119, is likely to be engulfed in the spread of urbanisation.
The tower was not built directly against the west end of the nave. but about eight feet away. and by 1453. when the towers three stages were completed. the natve had been lengthened to join the tower. the extension giving more than forty square feet extra space. The tower has an internal staircase as far as the bells, after which access to the low, pyramidal roof with what is commonly called it Hertfordshire spike, is over the bell-frame and up ladders. In common with the rest of the church the tower was repaired in 1908.

## THREE ORIGINAL BELLS

The bells of Norton have rung for centuries and their history is quite well recorded. In 1552 there were iij helles in the steple and : Siutice Bell.' W'as this Sanclus bell hanging in the cote above the chancel arch?
The bell which is now the seventh of the ring of eight was certainly one of the original three. This is one of the earliest bells of the Four Evangelists. so described because on its crown it bears four emblems. a man. a lion. an ox, and an eagle. It is dedicated: Sancte Petre ora pro nobis.' Between 1420 and 1440 lived Richard Hille. a London bell-founder. He died and his wife continued the business, placing a lozenge-shape above the founder's stamp. This bell has the diamond above the cross and ring' shield. so it should really be credited to Joanna Hille.
The present tenor is unlikely to be one of the bells there in 1552, although it is impossible to tell exactly when it was cast. or by whom. From its lettering and ornamentation it is probable that Robert Oldfield ( $1605-1640$ ) cast it. perhaps using a relative's stamp, for the style of the IHS closely resembles that of Henry Oldficld II, who died in 1619.

There is a long gap; then a treble bell was cast by John Briant, a Hertfordshire founder of very good reputation. The inscription is short: John Briant Hertford Fecit 1815.
This may have been the original treble recast and not an entirely new bell, because in 1813 the Archdeacon recommended that 'a new bell be also provided in the room of the old one which was crackt and spoilt.'
In 1827 the bell-frame was repaired by William Saville, of Barley.

Apparently the bells did not form a regular sict of three. for the interval between the rrehle and tenor was a major third, and between treble and second a minor third. Perhaps this grated upon someone's ears, for in 1908 a suggestion was put forward that the bells should be rehung and new ones should be provided. Nothing more happened until 1940. when the estimates were revised for work including turning and tuning. and the belfry steps were repaired. The bells and frame were dismantled and rehung.

## AUGMENTATION

In 1946 five more bells, were cast by Messrs. John Taylor and Co. and were hung in June. 1947.

The new five all have inscriptions. Each has the inscription John Taylor and Co., Founders. Loughborough. 1946, in addition to the individual one.
Treble: In loving memory of Polly and Cornclius Smith. the beloved parents of Gypsy Sniith. the Evangelist.

Second: To the glory of God and a thank-offering for our mother and father. Thomas B. Raban and Margaret. his sister.
Third: This hell was presented by Mrs. Annie Elizaheth Ashton (nee Chamberlain) in memory of the Chamberlain family, of Norton.
Fourth: Given by the people of Norton and their friends to the glory of God and in thankful remembrance of the men and women who served during the war, 1939 to 1945

Fifth: Presented by the British Tabulating Machine Company and their employees in this Parish, as a thank-offering to God, for

## OF A HERTFORDSHIRE TOWER

preservation from injury during the years of war, 1939-1945, and for ultimate victory.

A large share of the credit for this augmentation must be given to the late Thomas Werrett, whose enthusiasm did much to kindle local interest.

There are a few local customs at Norton. The 'sermon bell,' a single bell sounding just before the service begins, was rung here even in Elizabethan times. The bells were rung for the New Year, as in many places, but less common usage was the "vestry bell" chimed
before the annual vestry meeting. This has had to be abandoned in the last few years ats the meetings have been held in St . Georges Hall.
Details of the first peal on the bells, in 1948, are given on the memorial tablet to Mrs. 11. Banley on the east face of the tower arch. The oak board, bearing details of the Coronation peal. hangs on the south wall above the ringers gallery. This gallery was erected late in 1950: access to it is by a vertical ladder as it was inadvisable to pierce the wall of the internal steps.

## SUGGESTIONS FOR

It is greatly to be desired that suitable prayers be used before ringing for service, and before practice. It is suggested that the captain of each tower shall use one or more of the following prayers. and that on some occasions all present shall join in the Lord"s Prayer.

## BEFORE RINGING FOR SERVICE

Almighty God. may the sound of these bells. which we ring 10 Thy glory, cheer the sick. comfort the sorrowful. warn the heedless, and call all willing hearts to praise, through Jesus Christ our Lord. Amen.

Almighty God. who by the mouth of Thy servant Moses didst command to make two silver trumpets for the convocation of solemn assemblies. grant that the church bells may continually call together Thy faithful people 10 praise and worship Thy Holy Name; through Jesus Christ our Lord. Amen.

Grant. O Lord. that whosoever shall be called by the sound of the bells to Thine House of Prayer. may enter into Thy gates with thanksgiving. and into Thy courts with pratise: through Jesus Christ our Lord. Amen.
Grant. O Lord. that all who are hindered by sorrow or sickness. or any other adversity. from assembling themselves together for Thy worship may, hy the bells. be reminded to their exceeding comfort. of the prayers of the church. and may rejoice in the communion of saints; through Jesus Christ our Lord. Amen.

## BEFORE PRACTICE

Almighty God, who hast called us to fulfil the office of bell ringers in the Church: grant us to be of one heart and mind in Thy service, that the pealing of the bells may be dedicated to Thy glory and to the benefit of

## BELFRY PRAYERS

Thy Holy Church; through Jesus Christ our Lord. Amen
Grant. O Lord. that they who with their outward ears shall. in their daily calling, hear the sound of the bells, may be stirred inwardly in their hearts. and draw nearer in spirit unto Thee, the God of their salvation; through Jesus Christ our Lord. Amen.

Grant. O Lord. that all they who shall minister to Thy service by ringing the bells of Thine House of Prayer may be filled with all reverence and godly fear; and, mindful of the sacredness of Thy Housc, may both in the discharge of their service, and in the whole course of their daily life, keep themselves pure. both in word and deed; through Jesus Christ our Lord. Amen

## FOR THE ASSOCIATION

Almighty God. giver of strength and skill. who alone makest men to be of one mind: Bless we beseech Thee, the work of our Association. Do Thou so guide us in the excrcisc of our art. that we may ring prosperity to Thy Church. peace and good ncighbourhood to all our menibers. and cternal glory to Thy Holy Name: through Jesus Christ our Lord. Amen.

## GENERAL

Prevent us. O Lord. in all our doings. with Thy most gracious favour : and further us with Thy continual help: that in all our works begun. continued. and ended in Thee, we may plorify Thy Holy Namec, and linally, by Thy mercy. oblain everlasting life; through Jesu Christ our Lord. Amen.

## THE GRACE

The grace of our Lord Jesus Christ. and the love of God. and the fellowship of the Holy Ghost. he with us all evermore. Amen.

## RINGING IN SUFFOLK

THE year 1960 is an important year in the annals of the Suffolk Guild of Ringers, as it saw the birth of the reorganisation of the Districts. From 15 the number has been reduced to six. Some of the old Districts were woefully short of members-Hadleigh had six, Framlingham eight and Eye nine. Organisation on such basis is not justified. The new arrangement has the full backing of the members, and the general secretary (Mr. John W. Blythe) reports: 'Officers have been ready and willing to undertake the duties involved, and I wish them every success; if all members play their part the seal of success will be guaranteed.

The past year has been 'full of life and promise.' An increase of over 30 brings the total of honorary and ringing members to 493. The report continues: 'There are signs of youth coming along in many parts of the diocese, and it is up to the more experienced ringers to help, instruct and encourage them in the art and so build a foundation which will enable our work to be carried on in sure hands in the years to come.'

Mr. Leslie G. Brett, the Ringing Master, reports 78 peals rung for the Guild in 1959. These came from 39 towers in the county and five on handbells. Although four of these were peals of Doubles and one of Plain Bob Major, it is most encouraging that this interesting technique of the art has again been revived. The total for the year falls below that of the last four years-four less than in 1958 - and much below the vintage year of 1957, when no fewer than 135 peals were rung.

No ringer rang 25 peals for the Guild during the year. Heading the list is Robert E. Lester, of Stowmarket, with 18, while the table of conductors was headed by John W. Blythe with 11 peals, followed by Roderick W. Pipe with 10. Peals were called by 25 ringers. As to the quality of peals, these were rung on all numbers of bells, except Cinques. Worthy of comment was the peal of London Surprise Royal at Grundisburgh; although rung by a mixed band it was the first for the Guild. Personal praise goes to Frank C. Pipe in ringing $9-10$ and conducting Bob Royal, also at Grundisburgh. The report also congratulates George E. Symonds on again calling Holt's Original.

Financially the Guild is in a sound position, with a balance on the General Fund of $£ 152$, some $£ 4$ less than last year. The major expense is printing the Guild report, £63, but towards this cost peal fees produced $£ 1116$ s. and advertisements $£ 12$ 10s. In the Bell Restoration Fund there is a balance of $£ 366 \mathrm{~s} .6 \mathrm{~d}$., grants having been made to Marlesford ( $£ 1010 \mathrm{~s}$.) and Offton ( $£ 55 \mathrm{~s}$.). These were the only two restorations to take place during the year, but
it is hoped in 1960 to complete both Aldeburgh and Eye At Aldeburgh the work consists of rehanging in a new frame capable of taking another two bells, and retuning. It is hoped that the bells will be reinstated by the middle of this year. There was also a new treble to make six at Great Thurlow.

The Guild is fortunate in having a technical adviser in the person of Mr. R. W. M. Clouston. During the year he has submitted a further 46 reports on the church towers in the diocese, making a total of 187 . Of these reports, 15 covered rings of bells and, alas to state, only six are ringable. One of these towers was Covehithe, where changes were rung for the first time since 1939. Mr. Clouston's report concludes with this appropriate observation: " There are now quite a number of parochial authorities in no doubt about the unsatisfactory state of their bells. It must be the duty of every member of the Guild to do what they can to get the necessary work undertaken and to see that the bells are in good order and regularly rung for Sunday services.'

## ST. SIDWELL'S, EXETER

THE dedication is quite unusual and the writer has failed to trace a similar one. In 1942 the church was severely damaged and the tower had a hit which tore away half of it from top to bottom. The fine ring of ten bells fell and was buried in the debris, but the front nine were taken to Loughborough without the tenor, which remained buried for some years until discovered during clearing operations.

To see St. Sidwell in stained glass I used to visit Exeter Cathedral and look at the east window, where she could be seen with a scythe at her side and a well behind her. This window was a replacement (1381) of the original window, and the only other place where this British lady of high rank in the 8th century is commemorated in stained glass is in the north transept at Wimborne Minster

In order that readers can know something of St. Sidwell herself, the church now being restored, together with some bell history, here is the result of some amateur researches.

In Leland, Volume III, folio 34, the following is recorded: "The Suburbe that lyith without the East Gate of Excester is the biggest of al the Suburbes of the Towne, and berith the name of S . Sithewele, where she is buried, and a Church dedicate ther to her name.' St. Sidwell, or St. Sativola, was an Exeter saint, the eldest of four sisters. the others being Juthwara, Wilgitha and Eadwara. Baring Gould says she had a brother named Paul who founded the church of St. Paul in Exeter. Benna, her father, appeared to be a man of wealth who lived outside the city
walls early in the 8th century. After his death her stepmother coveted the fortune left to Sidwella by her first father, so she arranged with one of the servants, a reaper, to kill her. Tradition says that this was done while she was engaged in devotion at a spot beside a well near the church. Her head was cut off with a scythe in the year 740, but Professor Freeman gives the date as 678 . St. Sidwell was a Britisher who died for her faith, and a church was erected to her memory about the year 749 .

Bell history does not tell us much, but during the siege by the Parliamentarian Army the ancient church of St. All-hallows-on-the-Wall had a culverin (long cannon) placed on it by the Royalists, and it was practically demolished in the fight. Afterwards the Republican Governor ordered the three bells in its ruined tower to be melted down for cannon. Then it was that a worthy brewer of St. Sidwell's, a churchwarden named George Cheeke, went privately by night with his dray and several horses and, helped by some enthusiastic parishioners, carried them to his own belfry for safety. In the records of Allhallows-on-the-Wall. three bells, formerly in the old tower, were sold for $£ 30$, about 1657.

Those who assert that St. Sidwell's obtained the back eight bells from the old Allhallows Church in Goldsmith Street have overlooked one point. viz.: Did this church ever have eight bells? Tiverton had the first eight in the county. It is on record that Allhallows sold their bells to St. Sidwell's in 1767 because they were in debt, but the actual number is not known. That St. Sidwell's did have eight bells at that period is confirmed by an entry dated February. 1774, where a licence was decreed by the Bishop to take down the eight old bells and recast them into eight. Pack and Chapman supplied the back eight in 1773, and two trebles were added by Mears and Stainbank in 1891.

I hope the day is not far distant when the bells of St. Sidwell's Church will ring again.

WILLIAM SHEPHERD.

The peal at Norton, Yorks, though not arranged as such. was in a sense a farewell peal

## BELFRY

 was in a sense a farewell peal for the ringer of the second-Mr. Harold Spencer, of Scarborough-who is returning to Somerset after 14 years in Yorkshire. The peal also marked 50 years of ringing by Mr. John A. Robertshaw, the ringer of the fourth.The peal rung at Cullompton, Devon, on April 9th, was the third for the Society of Friends of the Exercise. It was a wedding compliment to two members, Mr. Brian Bladon and Miss Lesley Hawes.
The Central Council publication 'On Conducting' is now out of print.
One of those unexpected pleasures befell Mr. G. Arnold Moore, and his band after ringing a peal at Cheswardine. Staffs, as a 75 th birthday compliment to Mr. Frederick Cope.
Dr. R. J. Brocklehurst, president of Bristol University Society, who has been vicar's warden at Stoke Bishop, Bristol, for 21 years, has retired from office. He rang in a quarter peal to mark his retirement.
A sign of good progress comes from Woolton Hill, Hants, with the ringing of a quarter peal of Durham and York Surprise Minor, the outcome of regular practices in Surprise Minor. The band hope eventually to score a peal of seven Surprise Minor methods.
What we hope wilt be regarded as a 'good relationship, quarter was rung at Chalfont St. Giles, Bucks, on March 29 th. It was a compliment to Mr. G. S. Strode, general manager of B.B.C. Publications, on his retirement after 35 years' service. Will our friends at the B.C.C., please note!

Congratulations to Mr. and Mrs. Ernest H. Simpson, of Saltaire, Shipley, on their golden wedding anniversary on March 26th. The happy event was commemorated by a peal at Guiseley on April 9th. Mr. Simpson joined the Yorkshire Association as far back as 1906, being a member of Bradford Cathedral band. He has rung about 169 peals for the Association.

GOSSIP for eight weeks owing to a fall and ringit keep his legs up all day. His deputy at Burnham, Mr. Gordon Limmer, who hesitated to conduct in the presence of George, called a good peal of Bob Major on April 9th.
Mr. Yeter N. Bond is entering Rochester Theological College next September. He is an active licensed lay-reader.

Will the organiser of the outing party, who wrote to the Rector of Alverstoke, asking permission to visit St. Mary's, later in the year, please contact H. A. Nobes, 26, Peel Road, Gosport.

The tower of St. Mary's Church, Ely, is undergoing a repair which is estimated to cost about $£ 3,000$, and for which an appeal has been launched. The top 11 feet of the spire has to be rebuilt and this is now removed. Consequently, all ringing is suspended until the repairs are completed.
The veterans reunion being arranged in London on June 18th, by Mr. John Euston. is not a new venture to those most successful gatherings promoted by Mr. Albert Coles. What has happened is that the mantle of Elijah has falfen on Elisha. We hope the same enthusiastic support will be accorded to Mr. Euston as to his predecessor.
The fact that Mr. A. P. Cannon's braces broke during the peal at Stowting on April 9th was more probably due to the quality of the elastic rather than the weight of the tenor ( $6 \frac{1}{2} \mathrm{cwt}$.). In spite of this, and a five mile walk to Elham for a peal of Yorkshire, the tenor king produced a fine burst of speed when sprinting to catch his train home from Ashford.
An attempt was made at Hughenden on April 2nd to ring a new Plain Major method. The peal unfortunately was lost, but a good quarter "peal was rung. Our correspondent
writes: "As the peal "went west" we felt we couldn't name the method, and to send up the quarter as 1,260 C.C.C. 158 sounded a bit barmy, so we decided to forget it as far as official publication was concerned.'

## THE WHITECHAPEL BELL FOUNDRY

ESTABLISHED

## LONGEST PEAL EVER RUNG

A great achievement was accomplished at St. Michael's Church, Kirby-le-Soken, Essex, on Saturday, April 2nd, when a record length peal of 22,400 Plain Bob Major was rung, conducted by Mr. Frank B. Lufkin. This is the greatest number of changes ever to be rung to a peal. The time taken was 11 hours 45 minutes.
All peal ringers will join with us in giving our warmest congratulations to the band.

The full story of the peal has been promised for our next issue.

## CONGRATULATIONS

Dear Sir,-On behalf of the band who rang 21,600 Bristol Surprise Major on November $4 t \mathrm{~h}, 1950$, at Over, Cheshire, we congratulate Mr. F. B. Lufkin and his band on ringing the 22,400 Plain Bob Major at Kirby-le-Soken.-Yours respectfully,

JOHN WORTH.
Macclesfield, Cheshire.

## FORMER RINGER'S GIFT

The five bells at St. Peter's Church, Bentley, near Doncaster, are to be removed to the Loughborough Foundry shortly after Easter, where they are to be retuned and overhauled.

The present 3rd bell was cast by J. Warner and Sons in 1896, and the remaining four bells were cast by Mears and Stainbank Ltd., in 1902, with a tenor of almost 6 cwt .

The cost of the work is being met by a bequest from the late Mr. Percy Elton, onetime ringer at this church.

It was hoped to add a sixth bell, but owing to the Church Council's heavy financial commitments, it was not possible to augment the bequest.

## WINCHESTER \& PORTSMOUTH DIOCESAN GUILD

## Andover District

One of the most successful meetings in recent years was held at Thruxton on April 2nd, the fine weather and three towers open for ringing drawing a big crowd of over 60 ringers during the afternoon and evening.

Ringing took place during the afternoon on the good six at Thruxton, followed by the service conducted by the Rev. Mr. Crecy, Vicar. A good tea was provided by the local ringers and their wives.

Mr. A. W. Alliston presided at the business meeting. There is to be a three district combined meeting at Stockbridge on May 21st. when it is hoped to have eight towers open for ringing and a combined meeting with the Newbury District on June 18th, at Highclere, Thatcham, and, it is hoped, Newbury.
A motion brought by Mr. G. Dodd to alter Rule 18 so that members need no longer pay the 6d. peal booking fee unless they wish their peal to appear, in full, in the triennial report. was heavily supported and this will go before the annual general meeting at Whitchurch. on July 2nd.

Ringing followed at Amport and Abbot's Ann.
G. K. D.

## Tips For Beginners-17

When ringing Cambridge Major you will find knowledge of your course bell and after bell helpful. These are the only bells you dodge with out behind and are met in $3 / 4$ and 5/6.

## SERVANTS OF THE EXERCISE - No. 17

## MR. GEORGE E. SYMONDS,

## Ipswich.

Mr. George E. Symonds is living proof of the truth of the old assertion 'Ringing keeps you young.' He has been active in the art for 74 years, and is still able-even eager to learn and ring peals in new methods. Together with another famous Ipswich ringer (who will appear in this series shortly) he led the Ipswich band to such heights of achievement that could hardly have been dreamed of by Motts, Pemberton and others well-known in Ipswich history.

Born at Oakley, North Suffolk, in 1875, he learned to ring at Brome, in 1886, and took part in the ringing for Queen Victoria's Jubilee in 1887. He went to live in London in 1895, and rang his first peal at St. Giles',

## KENT COUNTY ASSOCIATION

 Tonbridge DistrictThe fair number of members who attended the Tonbridge District meeting at Penshurst on April 2nd noticed that the bells sounded much more pleasant outside the tower now that the louvres had been partially blocked up. Inside. however. the bells are still spoiled by a long draught, and they are very difficult to hear because of the rattle of the ropes in the rope-guides.
In spite of this, ringing was enjoyed until 4.15. when a service was held, conducted by the Rector. the Rev. W. S. Pears.
At 5 o'clock, 38 sat down to an ample tea in the Village Hall. and the large proportion of young members was very noticeable. After tea. the business meeting was held, and Mr. P. A. Corby was elected to the chair. A record number of new members was elected$25!$ Belfry elections prior to peal attempts of two non-resident members were also confirmed. Of the new members, a large number are from the new tower of St. Mark's, Biggin Hill. To these we extend a welcome, and hope to see them at our district meetings in the

## uture.

For the by-meeting in May, Sundridge had been afranged. and after some discussion it was agreed to include Brasted, if possible. A vote of thanks was proposed to the Rector and to Mr. L. Goater, for making local arrangements.
Members returned to the tower for further ringing, which ranged from rounds and callchanges to Bristol and a course of London, which produced the best striking of the day.

Camberwell, which was Kent Royal, conducted by H. N. Davis.

On returning to his native county he had, by 1919 , rung no less than 130 peals, of which he conducted 81 . He joined the St. Mary-leTower Society, Ipswich, and was appointed tonorary secretary, a position he has held for 40 years. On the death of James Motts he was appointed conductor of this famous 12 bell Society. Mr. Symonds has conducted all the different lengths up to 5,184 of Plain Bob, Double Norwich, Kent and Oxford T.B.. and Cambridge Surprise Major, also peals of Plain Bob on all numbers of bells from 5 to 12. He conducted the first peals ever rung of Superlative, New Cambridge, Pudsey and Rochester Surprise Maximus, and Little Albion Treble Bob Maximus. In 1926 he conducted three unique peals of Maximus. Short Course Plain Bob, Forward, and Duffield, which require 448 bobs and 6 singles, and peals of T.B. Maximus in 5, 6, 7 and 8 courses.
Early in his career he took part in Holt's Original (non-conducted) at St. John's, Waterloo Road, S.E. (1898). He conducted a 'George, peal of Kent T.B. Major on St. George's Day in 1927, and a peal of Double Norwich C.B. Major at Stowmarket in 1931, in which all the ringers were named Symonds. His peals total to date is 439 , conducted 253 , including, on handbells 37, conducted 27. He has conducted, on handbells, peals of Grandside Triples, Caters and Cinques, Plain Bob Major. Royal and Maximus, and Kent and Oxford T.B. Major, Royal and Maximus. The peal of Oxford T.B. Maximus was the first on handbeils for 112 years. From 1948 until 1957 he was a representative of the Suffolk Guild on the Central Council.
Mr. Symonds has travelled about the world, and a few years ago had the pleasure of listening to the carillons at Bruges, and at the Victory Tower. Niagara Falls. He has also rung on the Whitechapel bells at Christ Church Cathedral, Victoria, Vancouver Island. B.C. Mr. Symonds is the possessor of a yery deep sonorous voice, and the late Fred Tillett (famous tenor man) used to say he could see George's chest begin to swell in readiness for calling a deep down bob! What a pleasure it is to have known such a man as George $\mathbf{E}$. Symonds, and what a privilege to write about only a few of his wonderful achievements! He has set a most inspiring example to us all.

JAFUS.

## SOUTHWELL DIOCESAN GUILD <br> Mansfield District

Forty ringers, representing 10 towers, attended the Mansfield District meeting held at Farnsfield on March 26th. Ringing commenced at 3 p.m. and continued until $4.30 \mathrm{p} . \mathrm{m}$., when a short service was conducted by the Vicar, Rev. A. Medforth, with a local ringer, Mr. J. Bradbury, playing the organ. A very good but inexpensive tea was served in the Church Hall by the local ladies.

Mr. J. Raithby took the chair at the short business meeting. Apologies for absence were received from the chairman, Mr. S. W. Fossey, and the secretary, Mr. D. H. Rooke. It was decided to hold the next meeting at Selston on May 28 th . The Bell Fund collection amounted to 12 s .
Mr. J. Raithby showed members present the design for a new badge. It was agreed that the design was good but the size should be considerably reduced. Five new ringing members were elected viz:-Miss J. Robson and M. Bennett (Warsop), N. Cracknell. J. Bradbury and M. Clayton (Farnsfield). Votes of thanks were recorded to the Vicar for the use of the bells and to the ladies for providing tea.
Handbells were rung as an accompaniment for the singing of grace and also after the meeting, both in changes and tunes.
Ringing again took place until shortly after 8 p.m. Methods rung during the day included Plain Bob, Grandsire, St. Simon's, Stedman. and Reverse Stedman, with rounds and call changes for the learners.
S.J.

## ALPHABET FOR BEGINNERS

## By T. J. LOCK

"D"
DELIGHT Method-is a Treble Bob method having an internal place made at all but one cross-section in each half lead.

DODGING.-One essential condition of change ringing in order to produce anything more than a plain course of Original is what is termed "dodging." It has no sinister meaning such as dodging the column or dodging the truth in order to free oneself of some unwanted imposition or situation, but it means, correctly, by forethought and design. changing the striking position in a reverse direction for one blow only, at either handstroke or backstroke. Refer to Plain Bob Minor, which is the simplest variation of Original on six bells, and you will see that two changes before the first lead end of a plain course- 315264 -the second bell is fourth in order of striking. The next change -1 32546 -the second bell strikes third, the change following, which is at the lead end, it strikes fourth once more-1 35264 -and the next change- 312546 -the bell is once again the third to strike. This sequence is known as dodging in 3-4 down-down because the path of the bell is going down to lead. A bell. of course. cannot dodge on its own so now study the fifth bell and you will see that in these four changes it strikes third, fourth, third and fourth. This is known as dodging in 3-4 up-up because the fifth bell has just come from the lead and is hunting up to the back. Remember that dodging occurs only when a bell is hunting up or down as it moves from one striking position to the next at each successive stroke.

DOUBLE Method.- What may be the simplest way to explain a double method is by stating that the work the several bells do at the lead end so they do "upside down' at the half lead, but this may not be the simplest way to understand.

Assume that seconds place is made at the lead end whilst two bells dodge in thirds and fourths places from the front (a normal 3-4 dodge) as actually happens in Plain Bob. Now turn this upside down and you will get the treble lying at the half lead with one bell making a place under it-seconds from the back so to speak-and two other bells dodging together in thirds and fourths places from the back. An illustration will perhaps help:

> a b $1 \cdot \cdot \cdot 1$ b a
> $a 1 b c \cdot c b b 1 a$
> 1 acb - bca
lead end $0^{-1} 1 \mathrm{a} \mathrm{b}$ c. . c b a 1 half lead

$$
\text { a } 1 \mathrm{c} b \cdot \quad \mathrm{~b} c 1 \mathrm{a}
$$

## a c 1 . <br> 1 c a

Double Bob and Bristol Surprise Major are the best examples of Double methods.

IDUTY.-Progress in the art of bell-ringing depends so much upon team spirit wherein all who take part show a sense of duty. As a Christian you should work for God and His Church, and 1 always like to think we are each chosen to help in doing a certain section of this work. If you appreciate that the person who taught you to ring a bell was doing his part of a duty and that he was endeavouring to encourage you to make a better ringer than he. why not take up the challenge? But you will have to honour authority, do your best to comply with instructions, be reliable punctual and regular in attendance and exhibit keenness. And these attributes are catching you know.
A learner who starts with a local company having a good team spirit soon falls in line. or if the learner is of the "wrong type" he soon disappears, thus saving much valuable time to the instructor.

## AUSTRALIAN RINGERS OF MAXIMLS STANDARD

The band who rang the first quarter of Maximus outside Britain at St. Paul's Cathedral, Melbourne, in 1959 for the 25th anniversary of 'The Great Adventure.' Left to right: C. H. Bagot (Adelaide) 8, J. J. Cummins (Sydney) 9, W. Watson (Sydney), A. H. Fisher (Melbourne) 5, Miss E. L. Roberts (Adelaide) 4, G. W. Heyes (Melbourne) 10, R. Ferris (Sydney) 7, J. J. Roper (Melbourne) tenor, Mrs. G. W. Pipe (Melbourne) 3, G. W. Pipe (Melbourne) conductor 2, and daughter, Miss B. J. Beeson (Melbourne) 6, K. J. Minchinton (Melbourne) treble, J. Fryer (Sydney), T. W. Goodyer (Sydney) 11.

Just imagine eight ringers in an eight bell tower and the captain calls for a touch in a certain racthod which would be creditable for the band to ring but one, and only one, certain member does not care for the method and says, "No. I am not going to ring that.' So it is decided to ring the same method to Minor instead of to Major. compelling one other ringer to sit out. The alternative is to change the method to suit the one person who shows the least team spirit-not a happy situation, so please do not be anything like this one person.

Above all. as part of your duty, attend as regularly as possible the services for which you ring but do not stay away from ringing just because you will not be able to attend the service which follows. Silent bells give no message.

## SALISBURY DIOCESAN GUILD

## Devizes Branch

The quarterly meeting of the Devizes Branch was held at Holy Trinity. Bradford-on-Avon. on April 2nd. when 30 members attended with visitors from Swindor. The Guild service was conducted by the vicar, the Rev. Mr. Osborne.

At the business meeting new ringing members were elected from Melksham and Erlestoke. It was decided to carry on with the weekly practices for the month of April. Meetings were arranged for Chirton (June) and Westbury (July). Votes of thanks were passed to the Vicar for the use of the bells and to the ladies for providing tea. After tea the bells of Christ Church were available for ringing. Methods rung ranged from rounds ringing. Methods rung ranged from
to Double Norwich Court Bob Major.

## REDEDICATION

## LANGDALE, WESTMORLAND

An important event in the life of Holy Trinity Church. Langdale, took place on the evening of April 4th with the service of dedication of the new frame and the rededication of the rehung ring of six bells. The church was packed to capacity, with parishioners, friends and visiting ringers
The service was conducted by the Vicar. the Rev. G. W. Ellison, assisted by the Vicar of Hawkshead, the Rev. R. Lindsay, and the dedication was performed by the Rt. Rev. S. Bulley, Bishop of Penrith.
These bells were found to be in bad condition about two years ago, and have been silent for over a year. Langdale is a very thinly populated country parish, and it looked a formidable task to try to raise the $\$ 1,300$ required to carry out the necessary work. However such was the interest aroused and the willing effort of everyone concerned that the required amount was to hand before the completion of the work by Messrs. Jolin Taylor and Co.. of Loughborough
After the service the bells were made available to visiting ringers, about 30 of whom had gathered from a wide area. Everyone was delignted with the improved "go of the bells. Refreshments were provided by the ladies of the parish. for all who cared to partike.
N. M. N.

## A DATE TOUCH

TUNBRIDGE WELLS, KENT.-On April 10th. 1.960 Grandsire Triples: Miss P. Spring (first guarter) 1. Ann George (first in the method inside ') 2. G. Fry 3. Margaret A. Ladd 4. E. J. Ladd 5. E. J. Jenner 6, S. Jenner (cond.) 7, B. V. Collison 8. For Evensong.

## LETTERS TO THE EDITOR

## NOISE ABATEMENT BILL

Dear Sir.-Officers of the Council, together with Mr. W. B. Cartwright, have given serious consideration to the above Bill during the past few weeks. A Diocesan Bishop was ilso consulted. It was decided that as bells are a matter of concern to the Church as at whole. the best course would be to ask the Archbishop of Canterbury if he would be good enough to arrange for a watch to be kept on the Bill during the remainder of its passage through Parliament. I am glad to say the Archbishop's secretary has replied that His Grace bade him say he would certainly do so.
We are most grateful to Mr. W. B. Cartwright for his advice and assistance in this matter.-Yours faithfully,

## E. A. BARNETT. <br> Central Council of Church Bell Ringers

## A REQUEST TO LEICESTER GUILD

Dear Sir.-I must thank Mr. Mayne for correcting me regarding the Surprise Royal methods rung by the Leicester Diocesan Guild. As he points out, Lyme and Whitwick Surprise Royal are not extensions of Lyme and Whitwick Surprise Major. but Morecombelake and Coalville Surprise are extensions of Lyme and Whitwick Surprise Major. The late Harold J. Poole conducted a peal in a new method and named it Rutland Surprise Maximus. The Methods Committee informed him that it was not an extension of Rutland Surprise Major or Royal, so he changed the name to Belvoir Surprise Maximus. Is it too much to hope that the present leading conductor of the Leicester Diocesan Guild will change the names of the above Royal methods, thus following the excellent example set by his truly great predecessor?

Mr. A. Cutler and Mr. J. Mayne have informed me of the following important corrections which should be made in Corrigan's Collection and also in Campanologia.
Woodston Surprise Major:
-58-16-56-36.14-14.58.16-16.h.1. 78, 1.h. 12d Elstree Surprise Major:
-38-14 58.12-38-14-38-16.34 h.l. 18. 1.h. 12a Napsbury Surprise Major:
$-38-14-56-16-14-5814.56 .14$ h.l. 38 , l.h. 12 e
Mr. Mayne has given me a complete list Mr. Mayne has given me a complete ist methods 1821 to 1950 . and I can let others have this if they will send me a stamped addressed envelope.

Regarding Derwent Surprise Major, regardless of Professor Dodge's statement, this was the first published regular Surprise method. being given by Stedman in his Campanologia of 1677 under the title of Imperial Major. Mr. Moreton is correct in saying that this method has been included in peals. but as far as being renamed a precedent has already been set. by the Yorkshire ringers, when they unnecessarily renamed Lindoff's London as Elford Surprise Major.
Mr. G. B. Thompson should realise that hunt controlled methods are no longer invented or composed, hut are simply written down. Of the methods he gives. the first is useless, the second is absolutely irregular. and the third was first rung several years ago. spliced with Stanwell Litile Bob, and has been included in four peals, as Shepperton Alliance Doubles. These and other Little and Alliance Doubles have been published and are still available from me.
Mr. York-Bramble is correct in his criticism al Professor Dodge's Questionnaire. Also it should be pointed out that Cambridge Surprise Minor was not the first published regular Surprise method. The first was Derwent Surprise Major. Also it is impossible to prove that peals of Grandsire Triples without singles are not possible. Shipway composed 5.040 without singles before 1813 . W. H. Thompson proved that 5.040 could not be obtained using common bobs only, but we should remember that Rev. C. D. P. Davies arrived at the same result just after Thompson.-Yours sincerely,

FRANK T. BLAGROVE.
57. St. Andrew's Crescent,

Windsor.

## BAKEWELL BELLS AT FOUNDRY

Dear Sir.-Bakewell. Derbyshire, will be without their octave (tenor $17 \mathrm{cwt} .2 \mathrm{qr}, 26 \mathrm{lb}$. ) for nearly six months. The bells have been removed to the foundry of John Taylor and Co., at Loughborough, for retuning, quarter turning and to be fitted with new headstocks. Owing to being unsafe the tenor has not heen rung since last October. Water dripping from the spire has rotted the headstock and tne seventh was being affected.

There is a record that The new bells were opened by the Sheffield ringers on February 2nd, 1797, so these bells will be approximately 160 years old.-Yours truly,
c. COMAIN.

## Bakewell, Derbys.

## AND IT WAS GOOD

Dear Sir,-My exhortation- Ring what you like. so long as it is good'-quoted on page 250 of The Ringing World, in the account of the visit of the Manchester University Guild to Scotland, requires the addition of three words: 'It was good.'
It was a pleasure to have our bells rung on a Sunday morning as, unfortunately, our ringing has been limited to Sunday evenings for many years.

Thank you. Manchester. Come again.Yours faithfully.
E. BOUMPHREY.

St. Mary's Cathedral.

## Glasgow

## A WRONG NAME

Dear Sir,-In reply to Mr. Woodruffe's request for details of Northchurch Surprise Major. it was originally rung as Lessness at Erith on February 22nd. 1937, and then as Northchurch, at Northchurch, on February 11th. 1939.
Lessness: $-38-14-56-16-12-58-14-58$. 1.e. 2 nds pl . Yours sincerely.
Prittlewell. - D. E. BELCHAM.
NOTE.-D.' Peter J. Bruce, of Idle. gives the method as -38-14-56-16-12-58-14Editor.

## NETHERTON SURPRISE MAJOR

Dear Sir-In reply to Messrs. Pattison and Woodruffe. I would like to say that the above method was first rung to a peal on October 14th. 1954. But it had previously been rung and published as Oxfordshire. There is no 8 ths place variation of the latter method. The notation for Wicken is correct. (See page 253.) --Yours sincerely.

Lutterworth.
E. W. TIPLER.

## HERTFORDSHIRE GRIEVANCE

Dear Sir.-Is it not time to bury the Hatchett?-Yours, etc..

## DOSTOXEVSKI AGAIN

Dear Sir--Sceiry that Mr, R. G. Leale and Mr. P. I. Chapman have. in past issues of The Ringing World: both made use of the term - Bolshevik revolutionary in connection with Dostoyevski and the Rothwell peal, I am at a loss to fathom out why Mr. Wilfred E Box has thought fit to pick on myself in particular to refute this.
Is a little bit of spite or personal prejudice behind his letter in your issue of April 8th? If this be so. he'd best put it in a Box. (Dostoyevski with it), tie it with a ribbonyes you know the rest of the sentence I suppose. Wilfred?
Or perhaps he would oblige by putting in writing what his 'spite,' 'prejudice, or otherwise is. in the form of a letter to me personally.-Yours sincerely, P. AMOS.
Weston Favell.
NOTE.-Had we thought there was spite behind Mr. Box's letter we would not have published it. It was, in our opinion, a gentle leg-pull.-Editor

## THE BOOMERANG

Dear Sir.-I have just visited the Professor in order to ascertain his views on 'the Boomerang ' in the issue of April 8th. To my surprise i found him quite unperturbed. I would like to make public the gist of his observations on this unprovoked aggression.

He is very grateful to Mr. York-Bramble for his masterly interpretation of the rules of the C.C. with respect 10 Grandsire and similar methods and for his quotations from the Handbook.
Had he been aware of the correct position of the lead-heads and lead-ends in such methods, his statement No. 7 in his Questionnaire would have been worded quite differently. e.g.
(7) There are methods in common use to-day that (a) ring the last row before the first. or (b) do not begin with rounds, or (c) start with the treble in 2nds place or similar apposite, but cqually stupid statements.

He has no doubt, he says, that this would have showered upon him a whole series of Boomerangs (including one from Mr. YorkBramble). not that this would have worried him but. he maintains. he always likes to upset the minimum of people and is very sorry if he has upset Mr. York-Bramble.

It amuses me." said the Professor. 'to speculate in my idle moments (and he has very few) whether Mr. York-Bramble would have had to refer to the answers to see what on earth I was talking about!'
In view of the now evident correct position of the lead-heads and lead-ends he wonders (he says) why all publications containing Grandsire. including those of the C.C., still continue to print rounds at the head of the column of figures. Surely this is now an unnecessary, illogical. not to say misleading, procedure?
Concerning the effect of a 'Single' in Plain Bob he says that Mr. York-Bramble's arguments are based on mere word-quibble. He is. however. quite prepared to believe that after the first Single, has been called in Bob Minor. Mr. York-Bramble will continue 10 ring in-course lead-ends whilst everyone else rings out-of-course lead-heads.

In reply to Mr. York-Bramble's generous offer with regard to joining the College of Campanology, he is, he says, prepared to take over the leadership of the college when the present Principal relinquishes it. The instruction. he says. might not be quite so erudite but he will endeavour to make it more interesting.-Yours sincerely,

Ryhill. Wakefield
H. CHANT.

## NEW CUMBERLAND SLIRPRISE

Dear Sir-New Cumberland does appear in Corrigan's Collection under the list of lrregular Methods. Its notation is
j $56 \times 56.8 \times 56 \times 36 \times 34 \times 1.34 \times 34.7$
What makes New Cumberland an irregular method. apart from the fact that Corrigan indicates a fiths place hob (i.c. similar to Kent Treble Bob)? If a tiths place bob is used. surely there isn't anything irregular about the method.
Rarely) Mr. Amos, have I read such unmitigated nonsense as your concluding paragraph in the current 'Ringing World' (April 8th) How can you possibly compare April Day and Plain Boh with Yorkshire and Braunston? April Day is a variation of Plain Boh Doubles in that the former is the latter with a Grandsire Douhles bob. Braunston is a variation of Yorkshire in that the construction of the plain courses differs and therefore the two qualify as different methods.
Therefore. Mr. Amos, back to your variations and let those who want to ring on higher numbers without interruption from jealous five-bell ringers get on with it.-Yours sincerely.

Bedford.
BRYAN PATTISON

## ON THE USE OF CALLS

## BY 'JUNIOR'

When the handstroke of the whole-pull lead of the treble has been rung, the next blow may be one of two, according as we elect to pass by the mode termed "bob" or by that termed "plain-lead," but when once this has been settled, we have entered on a new lead. and nothing can infringe its integrity. .

This passage. from Davies' 'Surprise Methods,' sound though it is, leaves untouched, or only hinted at, the fact which forms the basis of my argument: namely, that, except in the case of a plain-lead, no rules of the Exercise govern 'the changes by which we elect to pass,' and that for this reason there would appear to be no valid argument against ranging the form of bobs and singles. or introducing new and even revolutionary calls into our methods in the interests of music, interest. or variety. The main innovation, needless to say, would be free licence to use 4ths place and 6ths place bobs indiscriminately in methods with either 2nds or 8 ths place at the lead-end. The newfangled bob, I would call a 'hic,' borrowing an expression from the primitive practice of Grandsire, and its corresponding single, a "double." A few examples will make this clear:

| Bob Major: | Bob | Single |
| ---: | :---: | :---: |
| Handstroke | 13254768 | 13254768 |
| Backstroke | 12357486 | 13257486 |
| Double Norwich: | Bob | Single |
| Handstroke | 16847253 | 16847253 |
| Backstroke | 18674235 | 18674253 |

To these calls I will return later. However, more unusual lead-end combinations are possible, and are denoted below, the figures referring to the places made at the lead-end.
(a) In-course changes: $12,14,16,18$.
(b) Out-of-course, or single changes:
1456. 1458 , 1478 , 1678.
(c) In-course stagnation changes: 123456.123458 .123478 . 123678 $1234.1236 .1238 .1256,1258,1278$ $125678 . \quad 145678$.

While, of course, most of these calls will never or only seldom be used. some very pretty touches are possible by their employment. of which 1 give some specimens below:

96 changes Bob Major
12345678
$13527468 \quad 1278$
135724681458
Twice repeated.
128 changes Bob Major
12345678
$12354678 \quad 1458$
123547681678
$12346578 \quad 1478$
$13246578 \quad 1238$ Repeated.
Such calls could. of course, also be used as openings to touches or peals. But to return to the more serious business of using 'hics' (for which there is precedent in a peal of Cambridge by Thackrah). I believe that the music. the flexibility in composition, and the interest offered by these calls is more than adequate justification for their introduction The hic 1 mark, eitner by a double dash similar to an 'equals' sign. or where more than one is in question (as in the case of calls Before, by Roman numerals to distinguish them from bobs. The touch of 832 changes which is given below illustrates, I think, the merits of this type of call when used together with common bobs. The touch may be extended to 1.664 changes, by calling single for bob ' W' at corresponding positions in the two halves of the touch. or may be shortened by calling W. 2B. H for the last two courses of any part. which cuts out 112 changes. By this
means, an excellent quarter peal of 1,328 changes may be had.
832 changes Bob Major
W B I
W
I
I
-
I
-
I

A neat bob-course may be had by calling the same bell to make the place at a bob and a hic and several variants of this 128 are shown below:
23456
23456 W . I with a hic
23456 V with a hic, M .
23456 B . H with a hic (or B with a hic, H)
Variants and extensions of these touches may be rung by the substitution of singles and doubles for bobs and hics: such touches could provide a uscful introduction into the use of unorthodox calls.

The use of hics 10 provide new and more varied peals is a field of study rewarding both in interest and in music. A peal of Major (any method with a 2nds place lead-end) may he had by the use of calls ' $H$ ' alone, and in methods, with an 8ths place lead-end by calls at ' B alone. The peal of Major given below is on this plan, and contains the 6th

| Hic | Double |
| :---: | :---: |
| 13254768 | 13254768 |
| 12345786 | 12345768 |
| Hic | Double |
| 6847253 | 16847253 |
| 18642735 | 16842735 |

her extent right and wrong with each of 3, 4. 5, 6, and 2 never in 5-6.

It proved impossible to obtain a regular 5-part peal of Cambridge using calls $\cdot \mathbf{H}$, alone, but while experimenting with this end in view, I stumbled across the following. which. as may be seen, will go true to Superlative

5,600 changes Superlative Surprise Major
23456 H
49356
$34625=$
63425 —
46325 -
$34562=\quad$ Four times repeated.
These few notes are 100 scanty 10 do more than throw a few ideas haphazardly into circulation. in the hope that some of our more penetrative composers may make better use of them than myself. But if they lead only to more interesting touches and peals of Bob Major for a few enterprising. if not expert, bands. I shall be amply rewarded. One further note. If any of the peals I have composed should prove to be false I would be grateful if someone would publish this fact as soon as possible, to avaid a mournful 'peal withdrawal. For the reward of the enterprising should be distinction. not ignominy, and I would be unwilling so to 'let down' any band hold enough to attempt one of these compositions.

INVITATION TO EVESHAM
Come on Cannon, on your toes,
Let's see how Evesham tenor goes,
The quickest time is three thirteen, For real fast ringing she's a Queen.
You ring a good peal, not too slow, And strike the tenor, 'Go man, go.'
The Cannon time should be three ten,
If not give up and chime • Big Ben.
And with the energy still in store,
Do your usual hand presses on the floor,
There's only been one Tenor King,
Who can a heavy tenor ring.
It's all laid on, we only wait,
For you to hurry and choose the date;
Until that time the record stand,
With Stephen Ivin and his band.

## FENLAND TOWERS

## BY T. A. BEVIS <br> ST. ANDREW'S CHURCH, SUTTON-IN-THE-ISLE

IN an area famed for the excellence of its church towers, a place to the fore must undoubledly be given to St. Andrew's Church Sutton-in-the-Isle. Greatly enhanced by its prominent position on a high ridge of landan island in mediaval days-this immensely impressive tower lends strength and grace to the countryside and its unique silhouette is quite oulstanding from great distances in the surrounding fen
The tower. with the church nave, was crected in the 14 th century and consists of four stages. surmounted by an octagonal stage o which is added a small lantern structure The bell-frame is a good example of the olden-day bellhanger's craft. and several of the timbers are at least three-hundred years old. They support a heavy ring of six bells (tenor 18 cwl. 2 yr. in E), and these, with the frame, were last overhauled by A. Bowell, in 1931. The tower clock occupies an uncommon position, being contained in a cage above the bells.
Four founders are represented at St Andrew's. The oldest bell (the second) was cast in 1654 by Miles Graye, who had his foundry at Colchester. Charles Newman cast the third and fourth bells in 1691 and 1700 respectively, the latter bell hearing an ornate border. This ounder was introduced into the craft by Christopher Graye at the Haddenham foundry and after a time moved to King's Lynn.
Henry Penn. of Peterborough, made the fifth and tenor bells in 1722, and inscribed them (5) 'I call the people, convoke the priests'; (6) 'I bewail the dead. I warn the living.

Penn had a very unfortunate end to his career. He was responsible for casting a ring of bells for St. Ives, Hunts, but the parishioners were evidently dissatisfied with the bells unreasonably so) and a tedious lawsuit commenced between Penn and the churchwardens After a time it was decided in favour of the founder, who had ridden from Peterborough to St. Ives in order to be present at the Assizes. As Penn mounted his horse for the journey home, he fell down dead from over-excitement at his acquittal.
The treble is by William Dobson, of Downham Market. Norfolk, 1819
A peal in seven methods (believed to be the first on the bells) was rung on Sunday. Apri 29th. 1934. and was conducted by the late Frank Warrington

## HOLY TRINITY CHURCH, HADDENHAM

HADDENHAM also occupies an 'island ' in the Fenlands. and is situated but a few miles from Sutton. It is regarded by many as being the most attractive village in the Fens.
Thomas Nowman had a soft spot in his heart for this place, and considered it to be a suitable locality for his thriving bellfoundry business.
The fine tower of Holy Trinity marks the highest and southernmost part of the Isle-ofEly and is attached to a church (mostly rehuilt) founded in 673 A.D. by Ovin, steward to Etheldreada of Ely. Originally consisting of three stages built in the 13 th century, the tower was completely taken down and rebuilt with the old material in 1876, and it is adorned with very elaborate tracery and ballflower decorations.

The spacious ringing chamber is reached by climbing a turret stairway entered from the church exterior
Four of the six bells (treble, second. third and fifth) were cast by Thomas Newman in 1706. and the fourth was cast in 1741 by Jeseph Eayre. who had a brick foundry at St. Neots, Hunts. in the shape of a bell; he has been referred to as being a first-rate founder of dish-bells, and he had a tendency to inscribe his bells with 'Labor Ipse Voluptas "(Work itself is pleasure), as is the case at Haddenham.
The teno: (14 cwt. in F). inscribed 'All glory be to God on High " carries the stamp of G. Oldfield. Nottinghanı.

St. Andrew's, Sutton-in-the-Isle.
[Photo: A. M. French.

It is unusual that a founder cast his bells in a church. This occurred at Haddenham. where there has been found evidence of foundry work beneath the tower. when during renovations a certain amount of mussel shells and bell metal was brought to light. The founder concerned was most probably Thomas Newman who resided at Haddentham for several years in the late 17th and early 18 th centuries. Originator of the Haddenham foundry is supposed to have been Christopher Graye. who passed on the business to Charles Newman. Thomas Newman, born at Haddenham in 1682, toek over the foundry from his father.

An amusing incident is recorded as having taken place in the village to the effect that there lived a bell founder in this place in the olden times and that on one memorable occasion, when the operation of melting the metal had reached a critical stage. it was found that there was a deficiency in the supply of materials: a few moments more and the process would he endangered if not ruined. Acting at once oll the maxim "The end justifies
the means.' our traditional man of metal rushed frantically from his foundry and made his way to a neighbouring inn. making an unceremouions raid on the establishment, -whipping up' the pewter pots and measures as. well as the culinary vessels available for the purpose. These were hurriedly conveyed home and east into the furnace, in time, let us hope, to meet the exigencies of the case

## ANOTHER RECORD

THE tale of progress in human achievement seems continuous, and we as ringers can take a just pride in the performance of Mr. Frank B. Lufkin's band in giving to the Exercise a new long-length record peal by ringing 22,400 Plain Bob Major at Kirby-le-Soken on April 2nd It will be talked about for a season wherever ringers meet. It has taken nine-and-a-half years to surpass the record of 21,600 changes of Bristol Surprise Major rung at Over by Mr. John Worth's band, and the first letter of congratulation we received on the performance was from Mr. Worth. Such is the friendliness and chivalry of the Exercise.
Apart from bell ringers, Mr. Lufkin has received the congratulations of the people of his own county. The East Essex Gazette ' devotes its first leader to the performance and appropriately heads it 'Well done-long may they ring!' Their congratulations are happily phrased as follows:
' The sound of church bells ringing has been one of the pleasantest sounds associated with the English scene for many years. In town and country, city and hamlet alike, their melodious message is heard-but never before so continuously as at Kirby-le-Soken last week-end.
' On Saturday last bell ringers at Kirby played 22,400 changes of Plain Bob Major-a record. Congratulations to them. Not merely upon their record, though that is a fine achievement, but also because they are exponents of an art which is being threatened, as so many traditional arts are, by way of " progress."
'Soon after the Kirby triumph, one of television's most popular programmes. "To-night," was talking about the decline of "live " campanology. The ringers are being superseded by electronic bells. What a horrid substitution-and how pleasant to know that at Kirby at least there are still men who take pride in this ancient and honourable art.
'Long may they ring.'
Straight away we refute the suggested decline of 'live campanology.' Had any of these electronic people examined the issues of this journal dealing with the congratulatory ringing for the birth of H.R.H. Prince Andrew they would have taken a different view. True, they have a wonderful field for exploiting their mechanical contrivances in the tiny turrets of many of our new churches. but the ringers' meetings of today, with eager and enthusiastic boys and girls joining our art, speak volumes as to the continuity of the Exercise. And after all, change-ringing
is not an art where proficiency is gained in six lessons. It is a long and arduous process.

Is the hold that change-ringing has today associated with the fact that ringers are the servants of the Church? We know that there are black spots over Sunday service ringing and much spade work has to be done before all the ringable bells of this country sound out on Sundays their call to worship. On the other hand we are encouraged by the large number of proficient Sunday service bands as the Survey indicated. Not all bell ringers are peal ringers: there are some people who take an uncharitable view about peal ringing and do not hesitate to condemn peal ringers. If they had their way, the performance at Kirby-le-Soken would be relegated to a paragraph in small type, and the part peal ringing has played in the advancement of the art completely ignored.

These people, who profess to be so keen about the ringing of bells on Sundays, are not behind the Sunday Service Survey. This survey, one of the biggest things the Central Council has undertaken, was initiated by ardent peal ringers. A member of the small committee who undertook this work was Mr. Frank B. Lufkin, the conductor of the Kirby-le-Soken peal. In fact, if the personnel of this committee is examined. there is not a man who is not an ardent peal ringer and an enthusiast in the art of instruction.

We are living in a period when a number of eyes and hearts are fixed on the possibility of achieving the extent of Major. One effort has reached 28,500 changes, which is a longer ring than the latest record, but it was not a true peal. There are certain lessons to be learnt from Mr. Lufkin's performance. The first was the discipline while ringing, when for hours the only voice heard was that of the conductor. There are some people today who do not approve of this strict discipline; we have heard of peals being rung where there was quite a conversation between ringers. The writer might be old-fashioned but he was brought up in the traditional school that in all ringing. whether for Sunday service, peal or practice. the conductor was the only person allowed to speak, and if any correction was necessary it would be done by him.

The next thing was in the selection of the men who participated. The average age was 42 years. In the recent attempts at Loughborough the average age of the bands has been very much lower. The youngest ringer at Kirby-le-Soken was 23 and the next 30 . while the senior member was 58 . and he, incidentally, had already a long length of 18.000 to his credit. While in no sense disparaging the young ringers of today-and this age has as fine a coterie
of young ringers as in any period-we are of opinion that the age range between 30 and 45 is the best period of life for entering upon such an exploit. Maturity and discipline are very big factors as an aid to concentration.

Many peal ringers would question the selection of the method. 'The monotony of ringing Plain Bob Major hour after hour would cause me to break down,' remarked a well-known peal ringer. 'Why did they not attempt Bristol like John Worth's band?' Is the idea of selecting Plain Bob to turn the ringer into an automaton that would eliminate mental fatigue? We do not know; but this we do know, it was a jolly fine performance, and congratulations to all the band. In the present mood of the Exercise we feel certain that the laurels of Kirby-le-Soken will soon be wrested from them-perhaps even by a young band to refute the arguments mentioned above!

## TWELVE BELL PEALS

mark of respect to Mr. R. W. Smith. retiring after 33 years service as churchwarden.
TEWIN, HERTS.-On April 9th. 1.272 Cambridge Surprise Minor: Audrey M. Balley 1. Monica E. Horseman 2, P. Wooster (first
of Cambridge) 3 D. S. Harris 4. R. D. Short 5. M. J. Horseman (cond.) 6. Rung as a Ithth hirtidiav compliment 10 Mr . Harry Shire. WALKLNGTON, E. YORKS.-On April 18th. 1.260 Plain Bob Minor: R. Ducker 1. K. Goldthorpe ${ }^{2}$ 2, Mrs. R. Ducker 3, J.
Perrett 4. R. Gibson (first of Minor) 5, J. Perrett 4. R. Gibson (first of Minor) 5, J.
Rank (cond.) 6. First quarter peal on the bells.

WOOLTON, LIVERPOOL.-On April 10th. 1.260 Grandsire Triples (from Hole's Original):
N. Ashworth 1. Miss W. Kenyon 2. M. N. Ashworth 1. Miss W. Kenyon 2. M.
Rogers 3. D. Jenner 4. D. Lyon 5, J. Wilton Rogers 3. D. Jepner 4. D. Lyon S, J. Wilton
6. E. L. Humphriss (cond.) 7, R. Glover 8. First quarter for all except 5 and 7.

## ALPHABET FOR BEGINNERS

## By T. J. LOCK

## 'E,

ERIN.-This arrangement is regarded a Principle. similar to Siedman, as distinct from a Method. The reason is that all the moving bells do the same work whereas in methods the treble does not do the same work as the remaining bells. Erin was composed by the late Gabriel Lindoff just over fifty years ago. but has so far not been popular. A few peals in this arrangement have been rung although touches of it are rarely called for at ringing meetings. I wonder why? The work is straightforward, there is enough movement with no long dodging on the front. it is not unmusical as the plain course of Doubles contains, the changes 153246.135426 and Triples 13572648 , and there is the tenor behind to keep a beat. It may be said to be repetitive. but probably conductors in general have not sufficiently studied the arrangement from the construction and calling points of view. Erin is divided into "sixes. or six changes per round block. and herein is comprised the whole of the work. A plain course of Doubles contains $30(5 \times 6)$ changes: a plain course of Triples contains 42 ( $7 \times 6$ ) changes. The first six changes of Erin Doubles are-

## 12345 <br> 21435 <br> 12453 <br> 14235 <br> 41253 <br> 42135 <br> 24153

-continue this and see if you can get rounds at the end of the fifth 'six.' Also write or prick out the first six changes of Erin Triples and see if you get 2416375 if so. continue for seven 'sixes' when rounds should be the last change.

EROSION:-This word, meaning the state of being eaten away, is used in place of corrosion and also to even out the alphabet.

The actual belfry, being not very frequently visited by anyone, is too often a place where destroying agents such as worm, beetle and rust are left to do their work undisturbed. Bells swing in frames and fittings made of timber and ferreous metal and these require a certain amount of attention from time to time. a minimum say of twice in a year or before and after the winter period. Timber can be adequately treated with a preservative such as paint or creosotc. whilst the fron and steel can. after scraping, wire brushing and cleaning free from rust deposits, be coated with an anti-rust paint or a bituminous solution. A word of warning must be given here, that hefore you enter the belfry for your own personal safety see that all bells are hanging down. and never attempt to go near a bell that is set up.

EXERCISE Method.-This Treble Bob method has an internal place made at all cross-sections but two. three or four in each half lead. In the 1907 Collection of Methods. those with an internal place at all crosssections but two were called Exercise Methods. those with an internal place made at all cross-sections but three were Pasallatria Method; and those with an internal place made at all cross-sections but four were Pasallatessera Methods. The present classification was adopted in 1956.

EXTENDING LEAD.-The many regular methods available. some of which have been rung and thousands more which have not yet been rung, have a limited variation in lead ends. Those methods which have 142635 in Minor 14263857 in Major: 1426385079 in Royal and 142638507 T 9 E in Maximus as the first lead end may be in the class of an extending lead method. The proof is that if a
bob is called at the first lead end, such lead end would be 142356 ; 14235678 ; 1423567890 and 1423567890 ET respectively. So. in other words, an extending lead method is one which brings all bells, except the bell making the bob and those below it. back to the same position they were at the previous lead end. As you will see from the above figures three bobs at successive leads will bring the bells back into rounds, and this would be known as a three lead bobbed course. Kent Treble Bob would, probably, be the best method to check up on this.

There are some methods with 142635 , etc., as the first lead end. but which are not extending lead methods. London Surprise is one and if you study the line diagram you will see why. Or. to be soft hearted, I will explain. At the critical moment the bells are hunting the wrong way-up instead of down-which prevents them dodging back to their previous lead end position. If the back bells did get to their previous lead end positions it could only be by jumping two places, and you know this is not permissible within the rules of change ringing.

EXTENT:-This term literally means the cmbodiment of all the possible changes, but it is sometimes applied loosely.
Extent of changes on 2 is

| $1 \times 2$ | $\cdots$ | $\cdots$ | $\frac{1}{6}$ |
| :---: | :---: | :---: | ---: |
| $1 \times 2 \times 3$ | $\cdots$ | $\cdots$ | 6 |
| $1 \times 2 \times 3 \times 4$ | $\cdots$ | $\cdots$ | 24 |
| $1 \times 2 \times 3 \times 4 \times 5$ | $\cdots$ | 120 |  |
| $1 \times 2 \times 3 \times 4 \times 5 \times 6$ |  | 720 |  |
| $1 \times 2 \times 3 \times 4 \times 5 \times 6 \times 7$ | $\cdots$ | 5040 |  |

I have stopped at seven, because a peal on seven bells (Triples) shall consist of 5.040 changes. whilst a peal on eight or more bells shall comprise not fewer than 5.000 changes. Peals of Doubles and Minor shall consist of 5.040 or more changes, and there is no provision for peals on four or less bells. The loose application of the term Extent is when used instead of the word peal.

The Bath and Wells Diocesan Association has decided as from January 1st

## BELFRY

 next to issue a further minimum charge of 6 d per rope for every peal rung for the Association. the money to be forwarded to. The Ringing World, to help the paper in its financial difficulty. Thank you, very much, Bath and Wells.Congratulations to Kent School. Connecticut. U.S.A., on their first quarter peal for 26 years.
Mr. Charles J. Sedgley rang his first peal of Surprise Maximus on the treble on Easter Monday. He has, however, rung 62 peals of Surprise Maximus inside!
Five years ago Northiam. Sussex, had a call change band. On Easter Day Wendy Hughes was the 13 th member of the tower to ring her first quarter. Six members have also rung their first peal.

The clergy are not placed in charge of cures to run parishes to recruit ringers; their job is primarily to take care of the souls of the ringers and parishioners.'-Irish Bell News.
The peal of Stedman Caters at Newark-onTrent on Easter Monday was the first peal at Newark since 1897 when Grandsire Caters, conducted by Gabriel Lindoff, was rung. Only five peals have been rung at Newark, the other three being Grandsire Triples-last in 1913.

Artful Dodger,' of Huddersfield. writes for confirmation of the rumour he has heard during the past week that the six-bell contest to be held at Felkirk, Barnsley, on June 11th. is to decide who are the champions of England. He asks if 'Bill Sykes' or himself or anyone else interested could compete in this championship contest for a small fee.
Mrs. P E. Marriott and not Mrs. P. J. Staniforth was the youngest lady to ring a peal of Maximus. As Miss Phyllis Tillett she took part in a peal of Oxford Treble 12 at Ipswich on November 18th, 1933, at the age of 14 years 10 months. and her first of Cambridge 12 at the same tower just under at year later.

## GOSSIP

The Guild of Clerical ancashire their ringing week in Aotel. Iytham headquarters at Fairhaven wim St. Anne's. The party consists of: the Rev. J. H. B. Andrews, E. G. Benson (Presteigne). N. F. D. Coleridge (Tatworth). Canon C. C. Cox. Preb. E. V. Cox (Axminster), $\mathrm{K} \quad \mathrm{C}$. Davis (Nateley Scures). S. E. Evans (Ramsgate), K. W. H. Felstead (Southampton), J. B. T. Homfray (Cheltenham). M. C. C. Melville (London), I. J. Richards (Llanarth), G. Ruming (Penzance). F. A. Sanders (Overion), Canon B. F. Sheppard (North Petherton), R. D. St. J. Smith (Astley Bridge). A. Webb (Kidderminster) and E. B. Wood (Leatherhead). Mrs. Felstead. Mrs. Richards. Mrs. Sanders. Mrs. Wood. and Miss Homfray accompany the the party.
By missing the peal at Blewbury. Berks, on Easter Monday. owing to being on holiday, Mr. A. R. T. Greenough broke a run of 28 consecutive peals on these bells with Mr. R. B. Blond.

Mrs. Mary Wells, who took part in the quarter peal at Blewbury. Berks. on Easter Sunday, was one of the post-war band of girls taught by Mr. George Gilbert at Burnham. and it can be confirmed that. although her opportunities for ringing these days are infrequent. her ringing is still of a high standard.

A band of Newcastle on Tyne ringers made an attempt for three peals in a day on Easter Monday. Two were successful but the third at Newburn on Tyne failed at the beginning of the fifth 720 after $1 \frac{3}{7}$ hours owing to a movement of the clock hammer throwing the treble rope off the wheel.
At the tenth or twelfth attempt Woolton. Liverpool. ringers have rung a quarter from Holt's Original, which is the first quarter by the local band since 1930. All the other attempts were called off with a single and the bells brought round except one which came round at the end with a bit of straightening up. It was decided not to claim this. For six of the band it was their first quarter.

## THE WHITECHAPEL BELL FOUNDRY

ESTABLISHED

## CONDUCTOR'S INSIDE STORY OF RECORD PEAL OF 22,400 CHANGES

The fine performance of establishing a new. record length of 22.400 Plain Bob Major at Kirby-le-Soken. Essex, on April 9th, was briefly referred to in our last issue. Today we give the inside story of this great achievemeent, written by the conductor, Mr. F. B. Lufkin. This peal is the longest yet recorded by the same band of ringers.

## THE CONDUCTOR'S IMPRESSIONS

I ARRIVED outside the church, on a nice sunny morning, at 7.40, to find five of the band already waiting. The other two members arrived before 7.45, the appointed time, which I considered a good omen. Everybody was fit and well, so without delay we entered the belfry for a punctual start.
There was. little to do as the tower captain (Mr. Urban Wildney) and I, the previous day, had prepared everything as far as possible. Whilst Urban gave a spot more oil to the plain bearings, a photographer appeared and took two pictures. I was rather short with him and said I would be more pleased to see him after the peal.

A few rounds were rung, and after a few adjustments, and some instructions to the band and the photographer, Urban went down and locked us in. We pulled off into changes at 8.10 a.m.
At once the bells settled down to a nice heat and not too fast, my thoughts being, - Take it steady, there is a long way to go.' The clock striking gear told me that it was 9 o'clock, and then 10 o'clock was on us, very quickly it seemed. The speed of ringing quickened and between 12 o'clock and 1 o'clock it really was going apace until I thought, but did not say, a trip and all would be up.

## REFRESHMENTS

Most of us had something to eat on small tables placed around the belfry, and I at one oclock thought fit to partake of a little refreshment. which brought smiles from the remainter of the band. I was worried in case everyone thought of having some refreshment, which may have been disastrous. However this was not so. Peter Eves. Dennis Symonds and Howard Egglestone seemed experts in taking refreshments and they in turn took scme.

About 2.30 p.m. Ron Steward took something to eat and his rope jumped around, which made me feel required to say something. "Tenor go down after the 4 th,' who I thought was a little out of place. These were the first words spoken other than calls. Even these words may have not been necessary.
Everybody had had enough refreshment and they settled down. and the ringing went on and on very well indeed with no incidents, except once, when I called a bob slightly late. and I said Sorry!, but the band seemed to take no notice, in fact I think one or two of them had the composition in mind. I noted Norman Harding had one of his sweets. All he had were two or three sweets during the whole time.

## SCATTERED ON THE FLOOR

The next incident was provided by our tenor ringer. Walter Arnold. He had some eats on his table. but all he had done was several times to have a look at them. About 6 p.m. he made a grab for a piece of chocolate. which he was unsuccessful in getting. but scattered the food on the floor. No comment from the rest of us. Ten minutes or so later he successfully got a piece and put it in his mouth. and from somebody. I think Peter Eves, we heard. - Cheers.

Everybody had the eye on the finish and the ringing progressed very smartly. and I thought fit near the end to say 'Steady lads. don't chase it.' but perhaps I was nervous, getting near the end
The peal came round at 7.55 p.m.. all the ringing in my opinion been excellent. not one bad trip throughout, and I should think there were only about six missed dodges, and the very few bad blows were caused by members getting refreshments. We congratulated each

The band who rang the record length at Kirby-le-Soken (left to right): Norman V'. Harding, Howard W. Egglestone, Frank B. Lufkin (conductor), Peter J. Eves, Walter Arnold, Ronald W. Steward, Alan R. Andrews and Dennis A. S. Symonds.

IPhoto by W. P. Mullen, 99, Vista Road, Clacton-on-Sea.
other, the younger ones saying they could have gone on further. and I ought to have extended so we could have at least run round the clock. but I explained we must keep to the published figures.

## TAPE RECORDING

After a little while the vicar (the Rev J. W. Thomas) came into the belfry, followed by many ringers who had been listening for some time. One of them had taken a tape recording of the last hour of ringing and soon we were hearing some of it.

Now for a pint, and for tales to be told in the local. Discussion took place about whether it is a fiddle to put a course of Oxford T.B. with the London Scholars group. or to include methods of Alliance and little methods in multi-method peals of Minor. Soneone said it was more worthy to have a course of a real method such as Oxford T.B. than two methods which individually would not produce a 720 .

How nice to see all the young folk from the Chelmsford and Danbury area to welcome us down and their enthusiasm speaks well for future ringing in their area. Then the band from St. Leonard's, Colchester, a 6 bell tower. came in. after successfully ringing an 8 bell peal at the next tower at Great Holland. What a happy day it was, and such an enjoyable time we all had. and although sometimes we think these long peal attempts silly, the enthusiasm it makes and calls for I feel is well worth while in the interest of ringing generally and in helping to maintain Sunday Service ringing.
The Vicar asked us to give him the details as he wishes to place the performance on record in the church. so the enthusiasm has spread to him as well.
When all tales had been told and I made my way home. I thought just another peal for the book and wondered what next we must do and there is much. and I thank God for all his goodness.

## THE BAND

Treble rung by Ronald W. Steward. Aged 39 years. Learnt to ring at All Saints . Sproughton. Suffolk, during 1936. under the guidance of the late Charles Mee, and his first peal was of Minor in 3 methods. August. 1937. He has rung 264 peals ranging from Doubles to Royal and his longest previous length was of 10.080 of Minor. Being, a blast furnaceman on night work, his ringing is limited, but he is a Sunday service ringer of St . Mary's, Grundisburgh, and also a member of St. Mary-le-Tower Society, Ipswich.

A pleasing feature of Ron Steward's ringing is that he is ever willing to do that bit extra to make ringing comfortable; overalls, the oil can, spanner and rope splicing seem part and parcel of his work to the general benefit.

Second rung by Alan R. Andrews, aged 43 years. He is a native of Thorington, Essex. where he learnt to ring under his father. at a very early age, and rang his first peal in 1929. and his first as conductor in 1933. He has since rung some 200 odd peals, in methods ranging from Doubles to Surprise Maximus. His previous longest length was one of 6.000 of Grandsire Doubles, 50 different 120 s .

Alan is a farm worker. Like his father before him. he has maintained an excellent Sunday service band at Thorington. A visit to his practice on a Wednesday provides a surprise as to what methods are rung by this local company.

Third rung by Peter J. Eves, aged 30 years. Commenced ringing in 1945 at Galleywood. Essex. after interest was aroused with lunchtime handbell ringing with a schoolboy band at the Mid-Essex Technical College, under the late A. L. Simmonds, Engineering Master. Now belongs to the Chelmsford Cathedral band.

He has been a trustee of the Essex Association for six years and in 1959 was elected as a Central Council representative. Has rung 129 peals from Doubles to Cinques. including Spliced Surprise Major and up to 60 multi-method Minor, and has conducted 10 peals. His previous longest length was that on the second in Bob Royal. 12.740 changes, at Prittlewell. 1950.
He is employed at Marconi Works, at Chelmsford. as a test engineer in the Radar department.

Fourth rung by Norman V. Harding, aged 51 years. Began his ringing at the age of 12. at the then 6 bell tower at West Clandon. Surrey, under the stern guidance of Fred Bennett, and later learning eight bell ringing at Holy Trinity, Guildford. under Alfred H. Pulling. Rang his first peal in 1927 and has now rung 260 peals. of which 57 he has conducted. He rang in the 11.568 Double Norwich at Debenham in 1950.

Norman has been in four attempts to ring the 40,320 at Loughborough, having failed at $20.000,21.800,28.500$ and 5.000 . so he has had wide experience recently in long peal ringing.

## RECORD PEAL-Cont.

He has represented the Norwich Diocesan Association on the Central Council for six years, and was captain of St. Margaret's, King's Lynn, from February, 1952 to February, 1960. He is a local government official employed by the Freebridge Lynn Rural District Council.
Fifth rung by Dennis A. S. Symonds, aged 44 years. Started ringing at Lavenham in 1925. and rang his first peal on handbells in 1932 and on tower bells in 1933. He has now rung 191 peals. He is a member of the famous ringing family of Symonds and his father still leads the ringers at Lavenham, Suffolk

He works at the Marconi Works, Chelmsford, and he is one of the leading peal ringers of Essex, and is a member of the young Essex multi-method Minor band.

Sixth rung by Howard W. Egglestone. aged 23 years. He has been ringing 11 years and was taught by Sam Everitt at Boreham. Essex. At present he is captain of a young band of ringers at Purleigh. Essex. Has rung approximately 150 peals and called about 30 of them. Very keen on the multi-method Minor. and most of his peals have been on 6 bells. but he has rung peals on all numbers: His previous longest length was 18.000 Minor rung at Stisted in 1957.

Howard was the main enthusiast for this long peal attempt. and it is anticipated that much more will be heard of this young man in Essex ringing.

Seventh rung by Frank B. Lufkin, aged 49 years. He was taught ringing by William Judd, at Prittlewell, in 1928, and has since rung 470 peals. of which he has conducted 307. from Doubles to Maximus. His previous long lengths have been 9.000 and 12.740 of Bob Royal at Prittlewell. 11.568 Double at Debenham in 1950 and 18.000 Minor in 25 methods in 1957. He was Ringing Master at Prittlewell for 25 years until leaving there in 1955.

He has represented the Essex Association on the Central Council since 1945 and serves on the Sunday Service Committee. He has served on the Essex Association committee for many years and is at present its peal secretary. His employment is that of an officer in the Essex County Fire Brigade, which, because of shift work restricts his opportunities for much ringing. His chief delight in ringing is that of Grandsire Caters on a moderately heavy ring of bells.

Tenor rung by Walter Arnold, aged 58 years. He has rung between 300 and 400 peals and has been ringing at Earls Colne since 1914 where he is verger. His previous longest length was that of 18,000 Minor at Stisted. in 1957. He has rung many peals with the late William Keeble and with Lewis Wiffen and he is a most reliable method ringer.

## NO TALKING

Mr. Norman Harding informs us that he wishes it to be placed on record that in his opinion the success of the long peal was entirely due to the capable way in which the conducting was carried out. coupled with sheer determination by each member of the band. and the fact that during the whole of the peal the only words that were uttered were those of the conductor, and when he called the Bobs, and Singles. He thinks this last little bit is very important.

Mr. Lufkin comments: "My impressions give exactly what things were said, which was very little indeed, but it appears to Norman Harding that the absence of any talking and incident was a feature of the peal, and I agree with him.'

SERVANTS OF THE EXERCISE - No. 18

## MR. JOHN E. CHILCOTT

Secretary, Ancient Society of College Youths
There was a time when mention of the College Youths conjured up in certain minds visions of ancient. greybearded gentlemen, fierce and formidable, who did not approve of the "goings on' of the younger generation. This idea is an entirely erroncous one, and hardly does justice to the present day Society.

Mr. John E. Chilcott. who typifies the younger men now in control of the Society's affairs, is one of the most popular young men in the Exercise. He entered into ringing when it was easily possible to capture the fine traditions of the Ancient Society and he is making a first class job of not only maintaining-but even enhancing them.

Born in 1931, he was educated at Isleworth Grammar School. learned to ring at St. Leonard's. Heston. in 1944, and rang his first peal (Boh Minor) in 1946 at St. Dunstan's. Cranford, conducaed by W. J. Paice.
Being a youth who showed great promise, he was quickly noticed by that great spotter of talent. Mr. Horace Belcher. who introduced him to London ringing circles in 1945. Under Mr. Belcher's able guidance John was very soon ringing Stedman Cinques at St. Paul's Cathedral. and proved himself to be an excellent exponent on 12 bells. Then service in the Forces interrupted his ringing somewhat, but not completely-as he was at the War Office from 1950 to 1952. He was able to continue (when his duties permitted) with his ringing activities.
In 1948 he rang his first peal of Stedman Cinques at St. Paul's, which was conducted by Mr. H. Langdon. In 1949 he composed and took part in a peal of 5.000 Stedman Cinques at Birmingham. and in the same year he conducted a peal of Stedman Caters at Beddington when the average age of the band was $18 \frac{1}{2}$ years. Also, he conducted his own composition of 5.021 Stedman Cinques as an in memoriam peal for Canon Coleridge, at Southwark Cathedral.
In 1953 he conducted the Coronation peal of Stedman Cinques at St. Paul's. and in 1956 a Past Masters peal of Stedman Caters at Stepney, followed in 1958 by a peal of Stedman Cinyues by Past Masters at Croydon. He was elected Master in 1953. being one of the youngest Masters the Society has ever had. carrying out his duties very efficiently and with the dignity customary in the Ancient Society.
He was elected secretary in 1957. in succession to Mr. A. B. Peck, and in 1958 he was elected conductor of the St. Paul's Cathedral Guild in succession to Mr. H. Langdon. His total peals to date are approximately 177. conducted 52.
In 1953 he married Eileen Mary Ricketts. whose father John E. Ricketts was at that time tower captain at Heston. She is also a ringer.

## SUNDAY SERVICE NEWS THORPE MALSOR

The six bells of All Saints'. Thorpe Malsor. Northamptonshire. were rung by a resident band of ringers for the Sung Eucharist on Easter Sunday. This is the first time that all the bells nave been rung for a service since before the 2nd World War. although for the past two months some of the bells have been rung for both services on every Sunday. The newly formed band hope to report further progress in the field of change ringing in the not too distant future.

## Suffolk Guild

It was disappointing that the attendance was low at a mecting of the North-East District held at Bungaty or April 2nd, hut the bells were kept going during the afternoon and evening. The Rev. Mr. Tarvis, Vicar, held a service for the few and had also obtained an organist.

At the business meeting after tea it was proposed to hold a District full day's outing on Saturday, July 9th. if sufficient names were received. Next meeting, July 23 rd, at Southwold. and a practice meeting at Theberton and Yoxford, on June 25th.

Writing in appreciation of the Easter Message that appeared in "The Ringing World.' a reader orders three copies to be sent to friends who have lost dear ones lately-in preference to Easter cards.

## Tips For Beginners- 18

If you can ring Cambridge and want to learn Yorkshire, you may find it helpful to realise that the work in both methods is identical above the treble.

## OBITUARY

## MRS. E. T. P. FIELD

It was a great shock to us at Kenwyn to hear of the sudden passing of Mrs. 'Flo' Field, wife of E. T. Paul Field. of Langport, Somerset.

Although herself not a ringer. Mrs. Field was an ardent supporter of her husband's art. and often accompanied him on his numerous marathon outings. She had an appreciative ear for good striking and was always ready to give a word of praise as we came out of some lonely country church after, quite often. disturbing the rooks in a long silent belfry.

All who knew her will. I am sure, remember her ready hospitality of a cup of tea and a bite to eat at a moment's notice.

We extend our deepest sympathy to Paul at his sudden sad loss and assure him of a warm welcome in Cornwall when next he visits us.

## LETTERS TO THE EDITOR

## MANCHESTER UNIVERSITY SOCIETY'S INJURED PRIDE

Dear Sir- $\because$ response to Mr. Johnson's glowing account of the Manchester University Guild's progress and ringing standard. a full apology is surely all that can sooth their injured pride in being compared with societies such as London and Bristol. which cannot boast of 12 -Spliced on practice nights.
However. I would submit, with all respect to Manchester's secretary: that he has strayed from the point of my so inept description. As Master of the University of London Society. 1 received a complimentary ticket to the annual dinner of each of the other three societies embraced by the hapless description which has offended Mr. Johnson. The same courtesy is accorded to the other three Ma ters and this practice has been regular for about ten years. Thus perhaps I may be granted the right to say that some form of closed shop exists? I wonder.
The benefit of these dinners comes from discussion with members of whichever society is host at the dinner, in which interesting and instructive differences in the running of the various societies are often discovered. This year I discovered several.
Therefore. tentative plans were put forward 10 include on the list of guests members of University Societies which had been formed recently or were small and unnoticed by the larger ones. Of course. Mr. Johnson. though you are welcome to London at any time. this category of infant societies' is not applicable to Manchester and no umbrage need be taken on behalf of other societies I do not agree with you that my theory can be scotched by other University Societies in a position similar to your own, if indeed there are any.
My impression is that the Societies of Southampton. Birmingham. Leeds, Durham and Leicester. to quote a few. are small and could benefit from discussion with contemporaries of larger size and thus more advanced organisation. Naturally any of the above five societies who feel that I am being unjust to them are also offered my apology.
If Manchester University Guild wishes to ignore the opportunity of even offering help to these societies, I think it has little to be proud of. In fact, I believe the Universities Association-in its other role than as a marriage bureau-has approached Manchester and sought to make this a centre for a dinner, at which some of the other Northerners could convene. Certainly the University of London Society will include at least two of the smaller University Societies at its dinner next year. unless of course. there are no small ones by then, and I feel sure that no harm and a lot of good can come from this custom. which is also being adopted by Oxford. Cambridge and Bristol.-Yours sincerely.
J. M. LAKIN

## Brixton, S.W.9.

## YARMOUTH BFLLS

Dear Sir, - Yarmouth bells. recorded on Easter Day, will be heard at the beginning of the Epilogue following the 11 p.m. News on Anglia I.T.V.. May 2-8 inclusive: rounds only. I fear. as time permitted is short on these occasions.
I wonder if Todmorden ringers realised what a thrill they gave Yarmouth. when they joined with the locals in early morning ringing on Easter Day-the first here on Easter Day since 1440 .-Yours sincerely.

GILBERT THURLOW
Great Yarmouth.
Vicar.

## JUDGING RINGING CONTESTS

Dear Sir.-Since Mr. Harold Chant, as a contest judge. may be assumed $t 0$ be inipervious to defamatory remarks ' (to quote his words in his article in the ' $R$. W.' for April 8th. page 246). perhaps he will not mind this expression of opinion on one paragraph in his article. This paragraph reveals how it is possible for a team which all but 'fires out ${ }^{\text {to }}$ win a contest. judged under Mr Chant's system.

Most contest rules state that the test piece (normally 360 changes at least) must be rung true. Yet Mr. Chant is prepared to pass a piece in which there is a succession of jumbled changes,' 'loud bangs, and 'martial music, and what is more. never to give more than two faults for such changes-even if shots are included. I fail to see how such a piece can be true, or how a row, where all the bells come down nearly together, can have more than one bell in its correct place. Yet Harold has no intention of ever giving more than 2 faults for such changes. His argument for doing this is that he concludes that at least four people know what they are doing in these jumbles-or the conductor would stop the ringing, i.e. four must be right. so will only give two faults. It is just as sensible to argue that the ringer who makes sensible to argue that the ringer who makes
a had blow KNOWS where the bell SHOULD be. but the fault is counted just the same.
Granted. these contests are striking contests. Striking requires much concentration and uses mental energy. but so does ringing the method.
If a ringer concentrates on one of these requirements. to the exclusion of the other, for instance, on striking. until he forgets what he is doing in the method, the faulty changes resulting should be given, if necessary , 3. 4. or 5 faulis per change. It is up to the judge to assess the exact number.-Yours etc.

Rotherham.
N. CHADDOCK

## PEALS OF MAJOR AT WOOLTON

Dear Sir.-Your correspondent (page 162) is quite right. In reply to him and numerous others who have contacted me, there have been many peals of Major in this tower during the last 30 years. The mistake was made on the Saturday the young Liverpool University ringers rang a peal there.

Speaking to some of the residents near the church on the evening of the peal. I was seriously 'taken to task" for not providing tea for the visitors. I was told very definitely. - If in future you won't. let us know. and we will."

The church at Woolton would he horrified if they knew that some our towers actually charge for a rope. (Correspondence page 74). I can only think that where a peal rope charge is made the striking must be bad.

May I also thank those writers whose exchange of derogatory personalities has helped io amuse us during the last three months.-Yours faithfully,

Woolton. Liverpool. E. L. HUMPHRISS.

## BFLFRY' PRAYERS

Dear Sir--Reference ' Suggestions for Belfry Prayers. ("The Ringing World page 269). I still have copies of these prayers and a few others on foolscap paper. suitable for mounting on a card. I shall be pleased to send a copy to anyone on receipt of a stamped addressed envelope.-Yours etc..

N. CHADDOCK

17. Herringthorpe Grove, Rotherham.

## IRISH ASSOCIATION

## Southern and Eastern Districts

THHE annual meetings of the Southern and Eastern Districts were held jointly in Kilkenny. on St. Patrick's Day (March 17th). In the unavoidable absence of the president (Mr. W. Pratt). through illness, who had been invited to preside over the joint meeting. the chair was taken by Mr. Cyril W. Galbraith (chairman, Southern District), supported by Mr. James McManus (chairman, Eastern District).
The following towers were represented amongst the 110 members present: Bandon. Bray. Cork. Doneraile. Drogheda. Dublin (SS. Augustine and John's and St. George's). Kilkenny, Limerick (Mount St. Alphonsus and St. Mary's Cathedral), and Waterford.

The bells of St. ${ }_{6}$ Canice's Cathedral (8) were put to good use prior to the meeting and afterwaras the contests for the R.R. Cherry and Gabriel Lindoff Cups were held.

After lunch in the Clubhouse Hotel, Kilkenny. the Dean of Ossory (the Very Rev. John G. Gash) welcomed the visiting ringers. to which Mr. James McManus suitably replied. The business meeting then proceeded during which much was agreed to in quick time. This did not mean that everybody agreed with everything. There were some controversial issues which were amicably settled.

Both District Committees had done good work. such as electing new members. nominating persons for various offices. They also had the minutes, reports and accounts printed. These were all taken as read and adopted.
Greetings were brought from the Northern District by Mr. J. T. Dunwoody, and at telegram of good wishes was sent from the meeting to Miss Jean Stewart, who was married on that day.

NEW OFFICERS
The chairman of the Southern District then dealt with the election of the officers for the Eastern District. which resulted as follows: Chairman. Mr. James. McManus: Ringing Master. Mr. Paddy Mills: secretary. Mrs. F. E. Dukes: assistant secretary. R. Huber: treasurer. W. D. Graham; vice-president for Eastern District on Executive Council, Mr. H. J. Johnson: two other members to act with secretary, Messrs. J. McManus and G. McGregor

The chairman of the Eastern District presided over the election of the officers for the Southern District. which resulted as follows: Chairman. Mr. C. W. Galbraith; Ringing Master. Mr. Richard Walsh: secretary and treasurer. Mr. G. Bingham: assistant secretary. Mr. P. Hanley: vice-president of Executive Council. Mr. F. Bogan: two other members to act with secretary, Messrs. C. W. Galhraith and G. H. Ellis
The judges for the cup contests were Messis J. T. Dunwoody. R. McCormach and J.
McManus. Eight teams competed and the results were announced as follows:
R.R. Cherry Cup (Southern District) Bandon (holders) and Mount St. Alphonsus, Limerick, tied with 11 faulis each: St. Mary's, Limerick, were second with 19 fauls.
G. Lindoff Cup (Eastern District): Drogheda (holders). for sixth year in succession. 42 faults St. George's. Dublin, second, with 94 faulis.

The test was a real one. as three bells gave trouble due to ropes slipping wheel. also the lower is very noisy.
The three winning teams will compete with the winners of the Northern District for the Murphy Cup on May 14th in Dublin

After tea in the Clubhouse Hotel. the two cups were presented 10 the winners by Miss Daphne Sunderland, local tower secretary. She also presented the Attendance Shield to Mount Si. Alphonsus. Limerick, and Bandon. hoth of whom scored 100 per cent along with St Mark's. Dundela. Belfast.

## CENTRAL COUNCIL MINUTES

The first session of the 24th Council (63rd annual meeting) will be held on Whitsun Tuesday. June 7 th . 1960, in the Town Hall. Folkestone, at 10 o'clock.

Will members please sign the roll and be in their seats by $9.45 \mathrm{a} . \mathrm{m}$.

The morning session will be adjourned at $12.30 \mathrm{p} . \mathrm{m}$. and the afternoon session will commence at 2 p.m.. or as may be decided. AGENDA
Report of the Hon. Sceretary as to representation of Socicties and as to subscriptions

Application by the University of Bristol Society to affiliate to the Council.
Apologies for absence.
Presentation of new members to the President.

1. Election of President for 1960-1963. Mr. F. Sharpe, pronosed by Mr. E. H. Lewis, seconded by Mr. A. A. Hughes.
2. Election of Vice-President for 1960-1963. Rev. A. G. G. Thurlow. proposed by Mr. R. S. Anderson. seconded by Mr. F. I. Hairs
3. Election of Hon. Secretary and Treasurer for 1960-1963. Mr. E. A. Barnett. proposed by Mr. J. F. Smallwood, seconded by Mr. A. A. Hughes.
4. Election of Hon. Librarian for 1960-1963 Mr. F. W. Perrens, proposed by Mr. F. I. Hairs. seconded by Mr. J. F. Smallwood.
5. Election of Honorary Members.

The following retire and are eligible for re-election:-The Rt. Hon, the Earl of Shaftesbury. Messrs. J. T. Dyke, J. P. Fidler. A. A. Hughes, D. Hughes, Mrs. C. C. Marshall. Messrs. C. W. Roberts. E. C. Shepherd, R. F. B. Speed, L. Stilwell. P. L. Taylor. A. Walker T. W. White and J. Willis. There are threc vacancies.
6. Election of Hon. Auditors. Messrs. A. A. Hughes and H. N. Pitstow retire and are eligible for re-election if still members of the Council.
7. Loss of members through death.
8. Minutes of the last meeting.
9. Report of the Hon. Secretary
10. Report of the Hon. Librarian.
11. Balance sheet and accounts for the year ended December 31st, 1959.
12. Report of the Trustees of the Carter Ringing Machine.
13. To receive. discuss and, if thought fit, 10 adopt the reports of the following committees :-
To pass such resolutions as may be necessary on matters arising out of the reports.
To reappoint the committees or alter the constitution as may be considered desirable.
(a) Standing Committee

The following retire and are eligible for re-election if still members of the Council:-
Messrs R. S. Anderson. W. B. Cartwright. P. A. Corby. F. E. Dukes, J. T. Dyke. J. Freeman. F. I. Hairs. C. K. Lewis. T. J. Lock and A. Walker
There are two vacancies
The ex-officio members are the President. Vice-President. Hon, Secretary Hon. Librarian. Hon. Auditors, Conveners of Committees and past holders of the office of President Hon. Secretary or Hon. Librarian of of the Council.
(b) Other Committees.

In all cases the members retire and are eligible for re-election if still members of the Council.
(i) The Ringing World Committec.
Messrs J. F. Smallwood. F. I Hairs. R. S. Anderson and W. N. Park.
(ii) Literature and Press Committee. Messrs. E. C. Shepherd and F. E. Dukes.
(iii) Biographies Committee.

Messrs. A. C. Hazelden. W Viggers. L. Stilwell and J. Willis
(iv) Peal Boards Committee

Messrs. J. W. Clarke, W. Ayre and J, P. Fidler.
(v) Broadcasting and Television Committee.
Messrs. H. J. Sanger. N Chaddock. G. E. Fearn, J. T Dunwoody. A. A. Hughes and the Rev. A. G. G. Thurlow
(vi) Records Committee.

Mrs. G. W. Fletcher and Mrs. C. C. Marshall.
(vii) Peals Analysis Committce. Mr. W. Ayre. Rev. K. W. H. Felstead. Messrs. H. Miles and H. L. Roper
(viii) Peal Collection Committee Messrs. W. E. Critchley, G. E. Feirn. C. W. Roherts and A. J. Pitman.
(ix) Sunday Service Survey Commiltee.
Messis. N. Chaddock. P. M. J Gray, Dr. D. N. Layton. Messrs. F. B. Lufkin. W. F. Moreton. the Rev. J. G. M. Scott and the Rev. A. G. G. Thurlow.
(x) Towers and Belfries Committee Messrs. F. Sharpe. J. W. Clarke. F. E. Collins. J. Freeman. E. H. Lewis. W. Osborn and the Rev J. G. M. Scott.
(xi) Methods Committec. Rev. K. W. H. Felstead. Messrs. F. N. Golden. C. H. Kippin and C. K. Lewis.

## ALTERATION TO RULES

14. To amend the Rules as follows:-
15. To add the following new Rule 2, and re-number the existing Rules 2 to 18 as 3 to 19 respectively:-
16. The Council shall:-
(i) Use its best endeavours 10 guard the rights and generally promote the welfare of the Exercise both in its scientific aspect and as a branch of church work
(ii) Encourage and assist the development of the Art in its scientific, matnematical and historical branches. (iii) Arbitrate so far as may be deemed advisable in such matters of dispute or perplexity as shall submitted to its judgment.
17. To amend Rule 14 (Procedure at Meetings) by inserting the words representing Territorial Societies ' between the words " Twenty members ' and shall:
The Rule to read:-At the meetings of the Council and President or VicePresident siall take the chair, and in the
event of their absence the members present shall elect a Chairman for that mecting. The Chairman shall have a casting vote. Twenty members representing Territorial Societies shall form a quorum. Every new member. whether Representative. or Honorary or Life, shall. before taking his seat. be introduced by a member to the President or Vice-President. or, in the absence of the President or Vice-President, to the Chairman of the meeting.
Proposed on behalf of the North Staffordshire Association by Mr. R. S. Anderson seconded by Mr. E. H. Edge.

## MOTION

15. This Council reaffirms the principle that a peal may not be credited to more than one affiliated Society, It accordingly instructs the Editor of The Ringing World and affiliated Societies to keep their records in line with the Council's Peals Analysis, adopting the procedure laid down in the Councils handbook of 1956.
Proposed by Mr. D. A. Bayles, seconded by Mr. W. Ayre.
16. To fix the place of the next meeting.
17. Any other business.
E. A. BARNETT.

Hon. Secretary.
26 Iron Mill Lane,
Craylord. Kent.

## Ringers In Timken Factories

Timken. the illustrated monthly of The Timken Roller Bearing Company with factories at Duston and Daventry, has a well-written article on Campanology in its March issue.
It is surprising the number of ringers employed by this company. Perhaps the best known is Mr. P. I. Chapman. Master of the Peterborough Diocesan Guild, of Daventry. In his tower are also Messrs. F. Hutt, S. E. Smith. D. Jones and C. Ashworth. At Duston Parish Church there are Messrs. S. Mundy (31 years a ringer). H. C. Downie (40 years). and G. J. Smith ( 17 years).

Other Timken employees who are ringers at other Northamptonshire churches are Messis. S. Sibley ( 35 years). E. Jones 132 years). E. Watson (is years). G. Roome (16 years). A. Hammons (5 years) and W. Waldon (5 years).

In an appeal to would-be recruits, the article assures the reader that in the company of church bell ringers he (or she) will find a warm welcome and a great feeling of comradeship. - Moreover. while participating in a most enjoyable pastime. he will be helping to preserve, a well-loved part of our English heritage:

## K.C.A. PROMISE WARM WELCOME TO CENTRAL COUNCIL

THE year 1960 is a great year for the Kent County Association and the large attendance of members at the Association's annual meeting at Bromley on Easter Monday, heard from Mr. John Willis. whe presided, of the warm welcome the Central Council would receive when they met at Folkestone at Whitsun.

I feel it will be a very warm welcome,' said Mr. Willis. 'and I hope many of you will come along and see the Central Council at work. I think the Mayor and Corporation are being very liberal to the Council. They have granted them free privileges 10 many things under the control of the municipality. and their generosity has lightened the load on the funds of the Association.'
The service was held at Bromley Parish Church, conducted by the Vicar (Canon W. H. Murray Walton) and attended by the Deputy Mayor of Bromley (Councillor G. W. Brown) and the Deputy Mayoress. Mr. John Willis read the lesson and Mr. J. R. Cooper was the organist. The Canon preached from the text. Let us make a joytul noise unto the Lord. "If we remember that text, said the Canon, we would get very few complaints about church bells. It is very natural in our Christian faith that we should have church bells, for after all Christianity is a religion of joy, It was the poet Hood who said that bells are music's laughter.",
The Associations luncheon followed at the Royal Bell Hotel. The chairman. Mr. John Willis. welcomed the Deputy Mayor and Deputy Mayoress. Canon Murray Walton, the Rev. J. B. Short (West Wickham), Mr. Ivan Page of St. Patrick's R.C. Cathedral, Melbourne, ringers from Colchester. Essex, and the Editor of "The Ringing World:
In reply the Deputy Mayor recalled the last visit of the Association to Bromley in 1954 and how on that occasion handbells were rung. Short speeches were also made by Canon Murray Walton and Mr. T. W. White.

## LOSSES BY DEATH

Mr. J. Willis presided at the business meeting. and following the minutes the honorary secretary read the list of those members who had died since the last report, the company standing in silence. They were: the Ven. W. M. Brown (Tunbridge Wells), a vicepresident: C. Farnsworth (Ospringe). M. J.
Holness (Herne). W. J. Jarman (Aylesford), R. A. Constant (Gravesend). G. Billeness (Hawkhurst) and H. Markwell (Tunbridge Wells). Non-resident life members included: G. F. Carter (London), C. V. Ebberson (King's Lynn). G. King (Salehurst), C. J. Matthews (Southfields). G. N. Price (Watford) and A. H. Pulling (Guildford).

The report gave the names of 26 members who had completed 50 years' membership. Hopes were entertained of ringing a peal by 50 -year members during 1960.
Regarding the report of the Central Council Committee on Sunday Service Ringing, a request was made that all members of individual lowers consider how best the recommendations may be implemented. 'If the spirit is right.' (said D-. Hatcher) 'all else will follow. which is not to deny that good insiruction, leadership. enthusiasm, hard work, perseverance. tradition. discipline. opportunities. all the myriad components of human activity, all have their part to play. Rather. if there is a fecling that "it does really matter that some bells are not rung on Sunday" then everyone. ringers. clergy and congregation. will do all in their power to see that they are all rung. In such an atmosphere all the many facilities available through the Association can be tapped most effectively and technical progress made.'

## INDIVIDUAL RESPONSIBILITY

That there are many and varied hindrances to the effective engendering of this "right spirit" is only too evident, and my plea now to each individual member of the Association is to examine his own heart-motives and to rededicate himself to the office of ringer, that the bells may each Sunday more adequately ring forth their message?

By the end of the year subscriptions had been received from 1,034 practising members 11 fewer than last year. New members totalled 142-Ashford District 7 adults, 5 juniors, Canterbury 20 and 15, Lewisham 14 and 1, Maidstone 15 and 19, Rochester 21 and 18, Tonbridge 6 and 1.

The report was adopted on the proposition of Mr. B. Collinson, seconded by Mr. G. H. Spice.
Mr. B. W. May (hon. treasurer) presented the accounts. which were adopted. These showed the following balances: general account $£ 151$ 4s. 2d.. Belfry Repair Fund $£ 266$ 19s. 3d.. Benevolent Fund $£ 179$ 15s. 6d. The total assets of the Association were $£ 1.1639 \mathrm{~s}$. 5 d .

## LOW PEAL TOTAL

The peal secretary (Mr. Ian H. Oram) reported 106 peals rung for the Association during 1959, the lowest total since 1945. There were no handbell peals, and all but one of the tower bell peals were rung in the county. the exception being a peal at Addington. Surrey. Eighteen members rang their first peal. There were 31 conductors, six less than last year, three of whom were conducting their first. Pliilip A. Corby headed the list of conductors with 17 , followed by Ralph Bird (a non-resident member) with 15 , Ian H. Oram 13 and George J. Butcher 10.
The peal at Biggin Hill was the first on the bells. at Great Chart the first since restoration. and at Frinsted the first since 1927. Of special interest was Holt's Original at Eltham by the local band in which the lady conductor (Brenda U. Slack) was calling her first peal, and the longest peal yet rung of Cambridge Surprise Major. 13,280 changes at Quex Park.

The President (the Archbishop of Canterbury) and the vice-presidents were re-elected en bloc. On the proposition of the chairman. Mr. A. G. Hill. who had retired from the honorary secretaryship of the Lewisham District after 35 years, and Mr. B. J. Luck, who retired after 23 years as honorary secretary of the Canterbury District, were elected vice-presidents, in appreciation of the long service.

CHANGES IN CENTRAL COUNCIL
With the best thanks of the meeting Dr E. S. J. Hatcher was re-elected honorary secretary, Mr. B. W. May honorary treasurer. and Messrs. F. S. Macey, G. H. Spice and J. Willis trustees. Messrs. E. Barnett, G. J. Butcher. P. A. Corby, E. J. Ladd, A. E. Richards (hon, auditor) and A. J. Russell were elected to the committee. There were seven nominations for the Central Council and the following were elected: Messrs J. R. Cooper 90 votes. I. H. Oram 84. P. A. Corby 79 and T. Cullingworth 79. Unsuccessful candidates included two former members-Dr. Hatcher and Mr. T. E. Sone

Mr. C. T. Hillis announced that Mr. E. Ruck, the only surviving foundation member of the Association, desired to present his copy of - Clavis ' to the Association's library. The offer was accepted with gratitude.
Mr. M. Downes reminded the meeting that the 200th anniversary of ringing the extent of Major at Leeds Parish Church would take place on April 7th. 1961. He hoped the Association would mark the occasion by a commemoration peal.

The chairman thought it would be a fine thing if a number of commemoration peals were rung. The Association maintained the grave and headstone of the conductor James Barham. If he had still been alive. he felt certain that Philip Corby would make the greatest use of his services.
A vote of thanks, moved by Mr. G. H. Spice. to all who had assisted in the meeting included Mr. Percy Spice and Miss H Andrews for local arrangements, the incumbents of the 11 towers open, Canon Murray Walton for conducting the service and Mr. John R. Cooper, the organist.

## ST. MARTIN'S GUILD

A quarterly meeting of the St. Martin's Guild for the Diocese of Birmingham, was enjoyed by a numerous assembly of ringers in the pleasant old town of Solihull on April 2nd.

Full use was made of the fine ring or 10 bells. ringing ranged from rounds to Spliced Surprise Major, and for the first time at a meeting of the Guild a course of London Surprise Royal was rung.

The Guild's Form of Service was conducted by the Curate. the congregation being seated in the beautiful chancel.
The following were elected full members: V . Roy Tallis and Victor H. Nash. of Packwood. Roderick W. Pipe. Bournbrook. Tonie J. Critchley. Linda M. Hughes, Susan Funnell. and Veronica M. Miles. all of Kings Norton. Margaret Bragg. Shirley, and David J. Purnell. of Birmingham Cathedral.
Mr. A. J. Pitman, of Leamington, who was a welcome visitor. was elected a life member. and the tower elections, also as life members, of Philip G. K. Davies, Nuneaton. R. George Morris. Malvern, and Miss Eileen Fearn. of Hazel Grove, were duly ratified.
The next meeting of the Guild will be held at Shirley on July 2nd.

The Youth Hostellcr; official publication of the Youth Hostels Association, has an article by Hugh Makins, of Nazeing. Essex. describing a 'learners' ringing tour during which 27 churches were visited. Three photographs illustrate the article-a ringer demonstrating handstroke. a picture of the party in the massive ringing chamber at Milton Abbey. and of a raised bell at Whitechapel Foundry. We feel certain that such propaganda is helpful to the Exercise.

## THE DUKE WHO LOVED BELLS

EATON HALL, situated in the parish of Eccleston. Cheshire, has been very much in the news of late and its fate the cause of much speculation. This stately mansion, completed in 1873, was built for the first Duke of Westminster by the famous Victorian architect Alfred Waterhouse and replaced a previous hall erected by Porden only 60 years previously. The present building shows Waterhouse in his most: flamboyant and expensive mood. The Duke was probably the richest man in England, and this fact was clearly expressed by the architect, the design being in the style of a French chateau with steep roofs and many gables. The dominating feature is the lofty clock tower adjoining the chapel and which in silhouette resembles Barry's tower at Westminster, famous as the home of Big Ben. The tower at Eaton, however, contains one of the few forcign carillons in the British Isles, the 28 bells' being. cast by Chevalier Severin Van Aerschodt of Louvain in 1877. The Louvain foundry was opened by Peter Van Den Ghein about the middle of the 16 th century and developed into one of the greatest of the Low Country bell foundries. In the 19 th century it was in the hands of Van Aerschodt, who succeeded to it by marriage.

In the tower at Eaton the bells are hung in a framework of oak which occupies the space between the operating room and the clock dials above, the bells being arranged in tiers with the bourdon at the base. An iron spiral staircase ascends through the centre of the frames, giving access for adjustments to the striking mechanism. Both clock and carillon are weight-driven, and 31 turtes can be played from the five hardwood barrels, each of which is'ten inches in diameter and studded with brass pins. Barrels 1 and 2 are set for hymn tunes (for use on Sundays) while the others produce secular tunes ranging from a Bach fugue to "The Bluebells of Scotland.' The carillon is set in motion by the clock mechanism which causes one tune to be played after the hour has struck. This music was formerly much enjoyed by the many visitors who walked in the park, but the cariiton has not been heard for a number of years now. The tone of the bells, however, can be judged from the chimes which are still heard from 8 a.m. to 8 p.m. daily, and from the deep note of the bourdon as it marks the hours. All the bells are inscribed with an ornamental $W$ on the waist, and the bass bell bears the following inscription:-

## this pleal of 28 blles was cast at louvain fur

his grace the duke of wesiminster by van alrschodi a.d. 1877
The bourdon. which is 60 inches in diameter with a strike note $C$, must weigh at least three tons. In contrast, the smallest bell has a diameter of only 12 inches.

In 1884 it became necessary to create a new parish in Chester on the south side of the Dec, and the Duke immediately offered to build a church. largely at his own cost. He did not forget the bells, and at the dedication on June 18th. 1887. the fine cight were heard for the first time when, according to a contemperary report. "they attracted much favourabie comment for their remarkable sweetness of tone." They: were cast at Whitechapel and hung, in the iron frame which is still in use. In 1894 the Duke was considering the construction of a narrow-gauge railway to link the Hall with the Great Western mrin London line at the village of Balderton, some four miles distant. His arent was sent to Duffield to discuss the proiect with Sir A. P Heywood, Bart., who had for a number of years been experimenting in
this branch of engineering and had, in fact, laid down seven miles of track on his own estate. He had also designed and built the locomotives. The name of Sir Arthur is an honoured one among ringers for as a ringer and conductor he was outstanding, and in the field of composition no less distinguished. It was he who was largely responsible for the founding of the Central Council, and he became its first president in 1891, an office which he held for nearly 30 years. Sir Arthur readily agreed to visit Eaton to discuss the project. and so it was that a Duke who loved bells and a great ringer came together.

A careful survey was made and eventually Sir Arthur agreed to build a track of 15 -inch gauge, together with special rolling stock and locomotive, at an estimated cost of $£ 6.000$ ). The work of laying the track was completed within the year, using local labour under professional supervision. In the meantime Sir Arthur had designed and built the first locomotive, 'Katie.' One of the engineers associated with the project was Mr. Henry W. Wilde, and on the completion of the work he was appointed to the post of resident engineer, a position which he held until his death in 1932. Those who were present at the Central Council meeting held at Chester in 1925 will remember with pleasure the runs on this miniature railway which Mr. Wilde was able to arrange and which formed one of the distinctive features of that meeting. Henry Wilde was a talented ringer, composer and conductor, and was well known in ringing circles all over the country. His compositions are still popular. A house was built for him at Belgraver near the railway, and on taking up residence he joined the tower at Pulford nearby, where a keen band rang a variety of Minor methods.

In 1896 the Duke decided to build a new church at Eccleston, although the existing building had only been standing since 1802. Bodlcy was chosen as, the architeet, and the design was in the Perpendicular style, with vaialted roois, flying buttresses and a massive western tower. The old church-except part of the south wall, - which was left as a - picturesque ruin --was laken down to provide foundations for the new which was built on an adjoining site. As the building grew and Bodley"s drawings were translated into stone His Grace visited the site almost daily, frequently viewing the scene from a coppice opposite. As might be expected. the bells were given very careful consideration, and it has always heen held locally that Mr. John W. Taylor was summoned 10 Eaton to discuss the matter and confronted with the suggestion that a ring of eight should be cast with a tenor in C 10 match the lower bells of the carillon in Eaton tower. Mr. Taylor no doubt emphasised the fact that such a scheme was impracticable, with the result that a fairly heavy eight hung at one level wis decided upon. It is sad to relate that the Duke never heard these bells or saw his church completed for he died at Christmas. 1899. five months before the consecration. Neither mumlied peal nor passing bell was'heard when he was laid $t 0$ rest in the shadow of the harm sandstone wall which marked the stie of the ofd church.
The new church was completed in May of the following year and dedicated on Ascension Day with duc ceremony. At this disance of time it is difficult to understand why the organ bellows should be placed in the ringing chamber some 40 feet above the instriment and the bells sounded by a manual chiming apparatus, but such was, the case. It was not until seven years later that matters were put right. The organ was moved to the east end, the ringing clamber cleared, and at last this glorious cight was properly heard-a Taylor masterpiece. Mr. H. W. Wilde was invited to form a band: the invitation was accepted, and in due time the bells were rung regularly for serviecs. Mr. Wilde's death in 1932 was a great loss not only to this tower but to the Exercise generally.

Since that time ringers from far and wide have visited Eccleston, the picturesque village on the Dee. with its beautiful church and bells. Many more will visit it in the future. Before the peal or touch perhaps they will spare a few monments to think of Hugh Lupus, the duke who loved bells.

## KENWYN RINGERS' OUTING

There is a saying. 'The devil looks after his own.' and this certainly rang true when Easter Monday dawned fine and clear. A coach wending its way through the deserted streets of Truro at 07.30 hours announced the commencement of a pilgrimage of ringers to England. The Kenwyn band were supported by members of the "enemy" tower of the Cathedral. and of Kea. St. Gluvias. Carbis Bay. Redruth. Cheltenham and Hartley. Kent (no bells). Indeed they needed "supporting." for it wis a haggard lot that met outside the post office, the six o'clock ringing on Easter Sunday morning having had its effect.
We soon crossed the border to the cheers of the Englishmen and the groans of the Cornish peasants. Our first call was at Appledore (8. tenor 10 cWt .) a picturesque church situated near the water's edge and with an almost "al fresco' belfry. I think these bells grow on you after a while and we succeeded in ringing quite a respectable touch of Stedman. On then a mile or so 10 Northiam ( 8 , tenor 17 cwt.). One or two of these fine bells are a little tricky to handle but I don't think we actually disgraced ourselves. We discovered the second stay missing. so our poor long suffering Vicar was put to work on this
A highlight of the day was the glorious octave (tenor 18 cwt .) at Bideford. "Scientific. ringers catch hold here in fear and trepidation after viewing the numerous first class. ringing certificates on the walls. Here we met Norman Mallett. who. complete with tape recorder and seemingly miles of cable, asked if he could make a recording of a touch. We obliged with a quite good touch of Grandsire. Afterwards we proceeded to lower vast quantities of roast chicken. 'idddy oggies ( (pasties to you!) and ale.

Next came the only six bell tower of the day, at Fremington (tenor 9 cwt .). These bells are somewhat out of tune and one or two go a bit sluggishly. As one remarked. Those bells have characier.: he didn't say what sort of character though!

To get to Tawstock (8. tenor 17 cwt ) we had to make a detour to avoid a low bridge. The ringing chamber situated in a central tower is reached via a curious gallery and a narrow chute through the tower wall. It was here we met the rivals of Bideford as the bells are magnificent. both in 'go. and tone. The church possesses a quaint two and a half-gallon ringers" "jugge* decorated with paintings of bells.

Our next hells were the heaviest of the day. the octave (tenor 25 cwt.) at Pilton. They can be described as a becfy. full toned ring, which cannot be hurried. It was here that one young lady. in the words of Dorothy Sayers. got "embrangled" with the tenor. and had to be relieved while the bell was still double clappering.

By this time our capacious appetites had once more been aroused. and a move was made to Barnstaple for food. A slightly longer run now to our last tower. and after crossing a deserted airfield. we arrived at Winklcigh (8, tenor 20 cwt ).

All too soon it was time to leave, and after a lamentably brief stop for liquid refreshment at Okehampton we eventually arrived in Cornwall's sprawling metropolis it midnight. Our thanks are due to the incumbents and ringers of the various towers visited, for their welcome, and last but not least to our vice-gaffer Alan Carveth. for so kindly making all the necessary arrangements.
R.A.S.

## SALISBURY DIOCESAN GUILD

Silent tribute was paid to two well-known and loved mombers at the Salisbury Branch meeting at Tisbury on St. George's Day. They were Mrs. Blanche Hibberd, a benefactor of ringing. and Mr. Frank Taylor. of Wylye. Certificates of proficiency were presented to Mrs. M. Baverstock (Damerham). Alan Chalk (Broadchalke) and Terry King (Hindon). Denis Chalk gained his during the afternoon's ringing. Thare was also ringing at Barford St. Martin.

## DERBYSHIRE ASSOCIATION

The Lord Bishop of Derby (the Rt. Rev. G. F. Allen) preached at the service in St. Peter's Church. Derby. held in connection with the annual meeting of the Derbyshire Association on April 23 rd. Ringers from all parts of the county attended and visitors from Manchester. The bells of the Cathedral. St. Peter's and St. Luke's Churches were availahle.
Tea was served in St. Peter's Parochial Hall and was followed by the business meeting with the Very Rev. R. A. Beddocs, Provost of Derby, who is president of the Associstion, in the chair. In his address he stressed the importance of recruitment and giving publicity to the art.
The Bishop was elected patron and Messrs. A. Mould and G. A. Halls Central Council representatives.
The general secretary (Mr. B. P. Morris) in his annual report referred to the Association's performances in peal ringing. of which he said it could feel justly proud, but, at the same time if the Association was to flourish all must play their pars in encouraging new members. A grant of $i 5$ was made from the Bell Repair Fund to Chelmorton, where the ring of four bells was being restored and augmented to five.
Mr. D. A. Carlisle said the Association was very honoured by the forthcoming visit of the Ancient Society of College Youths to Derby. On behalf of the Ancient Society Mr. J. F. Smallwood extended an invitation to Associa: tion members to attend the luncheon at which the guests would be the Mayor and Bishop of Derby.
The president presented a watch to Mr. A. B. Cooper as an appreciation of his services as general secretary of the Association over a period of eight years.
Thanks to all who had contributed to the success of the ineeting were expressed by Mr. smallwood.

Editor : T. W. Whitb.

Mr. George E. Feirn has set handbell ringers a new objective. A peal of Spliced Surprise Major in nine methods has been rung with 461 changes of method. No other peal has yet been rung with so many changes of method.

The successor to Miss Evelyn Steel as president of the Bedfordshire Association is president of the Bedfordshire
Mr. Alfred Rushton. of Luton.

The latest addition to the list of school peals at was that at Horsham on April 3th by ex-members of Collyers Grammar School, Horsham.
Mr. G. Dodd points out that the composition of Mr. Nolan Golden for Rose of England Treble Bob (page 284) is also true to Rutland Surprise.

Mr. J. W. Clarke has written Part VI of 'Cheshire Bells ' dealing with the deaneries of Mottram and Stockport. They make interesting reading and we hope to publish a review it a later date.

Next Sunday morning service from Waltham Abbey. Essex. is to be televised on I.T.A. (all regions). Prior 10 the service, which commences $2811.15 \mathrm{a} . \mathrm{m} .$. the twelve bells will be rung by the local band.

A peal of Yorkshire Surprise was losi at Oswaldtwistle on April 20th, which was to have been a silver wedding compliment to Mr . and Mrs. T. Ogden. of Oldham. To them the band offer their congratulations.

Hurstpierpoint ringers appeared on B.B.C ; Television recently in "Town and Around ; programme. Three of the tower's four veterans were shown ringing-Harry Richardson (started 1898). Charlie Diplock (1898) and George Mansbridge (1911). Jack Dearlove unfortunately was unwell.
Amongst the first to congratulate Mr. Henry O. Baker. general secretary of the Chester Diocesan Guild. on his election to the office of churchwarden. were the members of his own tower at St. Mary-on-the-Hill. Chester, who prefaced their ringing on Palm Sunday with an expression of good wishes.

Members of St. Mary's. Handbridge, tower rang changes on handbells from bchind the organ screen before the consecration, by the Bishop of Chester (Dr. Gerald A. Ellison. who is himself a ringer). of the new Church of Holy Trinity-without-the-Walls, Chester. on Easter Even. as a compliment to the Rector. the Rev. Arthur L. Minns. a ringing member of the Chester Diocesan Guild. The church. which is situated on a new housing estate, is of traditional design, with the fabric clad in brickwork, and has a tower designed to accommodate six bells.

Congratulations to Mr. Albert Walker on his 84 th birthday last Tuesday. On Saturday he will have completed 63 years' service at St. Martins. Birmingham.
St. John's. Eastbourne, which was badly damaged during an air raid during the war. has been fully restored and the Parochial Church Council have under consideration the installation of a ncw ring of bells.
An interesting peal at East Crompton, Lancs. on April 9th was a silent and nonconducted peal of Plain Boh Major. The band believe this is the first non-conducted peal of Major for the Lancashire Association.
The beautiful bells at Godshill. Isle of Wight, have been recorded by the B.B.C. and will be included in a programme to be broadcast next Sunday at $9.45 \mathrm{p} . \mathrm{m}$. on the West Regional programme. The broadcast is an excerpt from the quarter peal.

Mr. Norman Chaddock writes enthusiastically about the success of the course at Grantley Hall. near Ripon. His regret is that so many students had to be turned down. but the warden. Mr. C. Rigg. has promised another course next year. Full story later on.

When Mr. Geoff. Parting, of Dodleston. Ringing Master of the Chester Branch, leaves to start his National Service at the haginning of May, he will take with him to Aldershot the good wishes of a host of ringing friends in Cheshire and North Wales.

Members and visitors wishing to take part in peal attempts are requested to communicate as soon as possible with Mr. J. R. Cooper at the ahove address. stating any preference regarding method. number of bells. etc.

## NAMES OF REPRESENTATIVES

Would Secretaries who have not
forwarded their Representatives hames and addresses for the new session. please do so at once. or papers will be sent to last year's members.

Hon. Secretary.

SERVANTS OF THE EXERCISE - No. 19

MR. E. MORRIS,

## F.R.Hist.S., F.R.G.S., M.R.S.L..

Mr. Ernest Morris can be described as the undoubted historian of the Exercise. For years he has been a kind of Public Relations Officer between ringers and the public. His books are well known amongst the older members, but for the benefit of new-comers his work on - The History and Art of Change Ringing is outstanding. It is a mighty tome and represents many years of hard and painstaking work Others of his works are "Legends o' the Bells. Bells in English Life. . Chimes and Chime Tunes. and Towers and Bells of Britain. Ilis latest work "Tintinnabula," is the most authoritative work yet published on bells. He has witten articles dealing with door knockers. fire backs. horse brasses. wool weights. locks and keys. church fonts, and village crosses
Mr. Morris had only the advantage of elementary schooling at St. Margaret's. Leicester. He left at the age of 14 and went to work in a leather warehouse. His father was not in a position to send him 10 high school. being a shoemaker by trade. His mother died when he was only eight years old. So it can be scen that Ernest Morris is a self-taught

## WEDDING OF DR. D. HEIGHTON <br> AND MISS B. MUTIMER

The wedding took place on Easter Monday at Saxlingham Nethergate of Dr. David Heighton. son of Mr. and Mrs. W. E. Heighton. of Thorpe Hamlet. Norwich. and Miss Bridget Mutimer. daughter of Mrs. Mutimer and the late Mr. H. F. Mutimer, of Saxlingham.
Dr. Heighton, who is now at Bristol, commenced his ringing at Norwich and was also a server at the Cathedral at the time the Rev. Gilbert Thurlow was Precentor. His bride has been a regular Sunday service ringer at Saxlingham and took an active part in village affairs including the drama group. The Saxlinghan ringers gave her a barometer.

The Rector (the Rev. C. T. Hearn) and the Rev. Gilbert Thurlow. of Great Yarmouth. officiated at the service. The bride was dressed in full length white flowered perlon over nylon taffeta. nine yards round the hem, and her headdress was a coronet of motherof pearl with elbow-length veil. There were five bridesmaids. Dr. Michael Sprackling was best man and Dr. Tudor Edwards and Mr. Patrick J. Bird ushers.
Saxlingham ringers, assisted by Mr. H. W. Barrett (Ringing Master of Norwich Diocesan Assn.) and Mr. A. G. Bason, rang before and after the ceremony. Later. a well-struck peal of Plain Bob Major was rung. the band including the best man and two ushers. The reception at. Caistor Hall Hotel was attended by over 100 guests and the honeymoon is being spent in the Lake District.
man. He did not have the facilities which were available to J. A. Trollope-another famous seli-taught historian. for Trollope was able to make countless visits to the British Museum, where he was able to get invaluable information, which made his work much easier than was the case with Ernest Morris. Josiah Morris. his father, was once dubbed by the late Harold Poole • The Rhythm King.' for his stıiking was faultless, and he always insisted on a very high standard.
Born in 1889. Ernest learned to ring when he was 13 years old. His first peal was at Grimsby in 1906. He has always borne in mind his father's advice and instructions which were - I want you to make the name of Morris revered here in the Church, up there in the belfry, and in the Ranging World: Everyone will agree that Ernest has lived fully up to that advice. for he has been always at the forefront in helping struggling tands in and around Leicestershire and has been equally happy to ring in Doubles and Minor as in Cinques and Maximus. He has been a devoted Sunday service ringer, hefore. during and after his 21 vears service as verger of Leicestershure's bargest church
He served as general secretary of the old Midland Counties Association for 20 years. and is now treasurer of the Leicester Diocesan Guild. He serves as consultant for bells on the Diocesan Advisory Committee. He is now rapidly approaching his 2.000 th peal (second only to the record of the late William Pye). and he has conducted over 670 of them. Included in these are 10.912 Kent T.B.. 7.840 Oxford T.B.. 6.720 Litte Bob, 6.720 Little Canterbury. 9.120 llkeston T.B.. and 9.600 Worcester T.B. He took part in the records of 12.896 Cambridge Major. 12.663 Stedman Cinques at Oxford, and 10.976 Bristol Surprise Major, also a peal of Stedman Cinques at Southwark, by 12 secretaries, and a peal of Cambridge Maximus on the old Bow bells: a peal of Stedman Caters on the old ten at Manchester Town Hall. conducted by James Washbrook. and a peal of Cambridge Maximus on the new bells there

Alhough now 70 years old. Mr. Morris is still actively taking part in many paals, and his enthusiasm is unabated. He has a truly remarkable record. and is well on the way to achieving the record of having rung more peals than anyone. We heartily wish him cuery success, and if his father were still alive, he would be the first to admit that his boy had not let him down.

JAFUS.

## Tips For Beginners-19

If you are able to ring Double Norwich and Cambridge you will find it easy to pick up Superlative, which is a double method like Double Norwich, and the places are like Cambridge with the addizion of an odd place and a dodge.

## MORE BELFRY GOSSIP

Through Mr. David Jewell. calling • This is all instead of "boh' at the end of the final lead a quarter of Grandsire Triples was lost at Stratton. Cornwall. It was to have been in honour of the birth of the first grandchild to the Vicar. the Rev. L. Dodid.

The ten bells of St. Michael's Church. Aylsham. Norfolk, are at present being yuarter turned. retuned and fitted with ball-bearings. and structural alterations are also being made to the frame. The date of the rededication service will be announced in The Ringing world.
A new serics by John Betjeman on B.B.C Television will commence on Sunday, May 15th at 7 p.m.. entitled. The A.B.C. of Churche:- The first talk will be on Aldbourne Parish Church. Wilts, and shots of the church and bells will be shown. The Aldbourne band of ringers has been grievously depleted since the photographs were taken and are indebted to the ringers from Swindon and district who supplemented the ringing, which consists of a bob course of Stedman Triples.

## NOT A DYING ART

The following correspondence, between the College of Campanology and the B.B.C., speaks for itself

Dear Mr. Michelmore.-In the television programme "Tonight" on Tuesday. April 12 th you included an item on the chiming of bells by one person (not unique) in which item it was stated-" Bellringing is a dying This
This. in fact, is far from .. the truth: particularly if, by " bellringing " is to be understood the more appropriate phrase-changing-ringing
This is a uniquely British art. dating from the middle of the 171 h century. since when there has been steady development not only in its practice but also in its science. It is true that in some rural areas difficulty is experienced in getting recruits: but changeringing, as such, is still advancing in what are known as the "higher methods": and ringers of all ages. in both sexes. and in all walks of life. are to be found.

There is country-wide organisation of ringers into " associations" - territorial. occupational and university: and their activitics are knit in the * Central Council of Church Bell Ringers." of which there is a Literature and Broadcasting Committee.

This College of Campanology: a voluntary organisation founded in 1956. exists to collect and disseminate information on the art and science of bellringing in all its branches. working in conjunction with ringers associations generally.

If further information is of interest we shall be most happy to co-operate.-Yours sincerely. A. YORK-BRAMBLE.

April 13th. 1960. Principal.
BRITISH BROADCASTING CORPORATION

- Dear Mr. York-Bramble.-Thank you for your letter of April 13th addressed to Mr. Michelmore about the item in "Tonight " on bellringing.

Your letter is being brought to the attention of the Editor of the programme in case it is possible to make us of the information it contains. for which we are most grateful. You will. however. appreciate that we receive a great many more suggestions for the programme than we are able to use and it is not often possible for us to return to a subject for this reason.

If, however. we are able to take advantage of your kind offer of assistance the producer concerned will get in touch with you direct.Yours sincerely. P. JOAN HYMANS,
April 19h. 1960.

## Gratefully Acknowledged

## EAST RIDING RINGERS ON TOUR

DICTURED above, outside East Witton Church. Yorks. are the East Riding Ringers during their successful tour. Left to right: J. Lumb (Rise). J. S. Rank (Kirk Ella). I. N. Goldthorpe (Kirk Ella). R. D. Gibson (Cottingham). J. I. Booth (Cottingham). J Singleton (Hessle) and K. Goidthorpe (Kirk EHa).

The tour started from Beverley on a typical East Yorkshire April morning-cloudy and windy. After an hour of steady cycling. Market Weighton was reached. Grandsire. Bob Doubles. Clifford's Pleasure and April Day were well struck despite the numerous fies which persisted in crawling up the legs of ringers wearing shorts. Ringing was not so good on the livisy six at Acomb. At Huntington. Peter Came joined the party and night was spent at York Youth Hostel.

There were more flies the following morning at the first tower. Whixtey ta very fine light six), where St. Martin's Bob Doubles was added to the repertoire. At Aldborough we were joined by our seventh member. who had cycled that morning from Sunderland. Stedman Doubles. Bob Minor and St. Simon's were rung on this delightful ring of six. After lunch at Boroughbridge. the noise of the clock in the church nearly overuhelmed a good touch of Stedman. At Kirkby Hill the rise and fall were good. but the band fell away in the middle. The night was spent at Ellingstring Youth Hostel. but the adjournment to the 'Boot and Shoe gave the party a shock: it turned out to be the pub with no beer. as only the first two could be served.

The nexi day was warm and sunny and a short ride brought us to East Wilton. After some well-struck louches there was an invitaion to tea and biscuits at the vicarage which was much appreciated. The fine eight at Middleham were much enjoyed. A hearty meal of youth hostel sandwiches and beer in an
ale-house ' was followed by the heavy and awkward eight at Bedale. where flies did not improve the ringing. Masham proved to be like Bedale and we were ready for the excellent meals there. where we stayed the night. There was an evening visit to Kirkby Malzeard.
On the next day at West Tanfield. R. G. called his first quarter and the band were so excited that at the next tower they repeated their performance with some perfect striking. After lunch at Ripon. Brafferton-Helperby bells proved to be an awkward ring. This was our last tower before our long ride to York and later to home. Thanks are due to I. G. and J.R. for their organisation and all the clergy and tower captains.
R. D. G.

## IN LIGHTER VEIN

A curate took his Sunday School class to a country village noted for its scenery and beautiful church. Walking along a lane the party met a very old man with a bent back trudging along. The curate plied him with questions and eventually asked him his age. Said die old man: 'I be nointy next birthday:' Whereupon the curate remarked: "I suppose they don't die very often in this part of the country: With a wry smile. the old man replied: No sir. only wonce.

[^6]
## LETTERS TO THE EDITOR

BRAUNSTONE SURPRISE AND APRIL DAY

Dear Sir.-When 1 read Mr. Pattison's letter. I straightway thought of that old saying aboul the pot calling the kettle black. for il ever there was any unmitigated nonsense printed in your journal, it is those last two paragraphs of his ietter on page 283.

Where be gets the idea from. that five bell ringers are "jealous" of nis peal performances. really gets me guessing. Is there any money or other prize at the conclusion of ringing a real. or any record value attached these days? The argument sounds very childish and unworthy of Mr. Paltison. who should also bear in mind that hecause one lives in a parish or altends a church on Sundays with only five hells it does not necessarily brand him ' a five leell ringer." If he goes to a parish some 12 miles from here he will find almost every nember of the rand rings peals on 6,8 , and some have dunc so on 10 and 12, yet five bells is their lot on Sundays-there is no slur 13 ringing five bells.
Mr. Paltison would do well to read (if he hasn't already done sol the opening words of Mr. Boumphrey's leiter on the same page is his own! The parable of the man with ten talent and the man with one has probably never struck Mr. Paltison-just as he has probably never recognised the stark fact. that not every church can have 8, 10 or 12 bells. or the tower built for these numbers?
Mr. Pattison is but a youth. with big ideas of himself. who would have done well to have lived in the days of the late William Willson. the Rev. A. Law-James. and a few more I well remember. These would soon have told him he was merely juggling with words to get round things-his favourite being the word variation.
I say again in reality, whether you alter a structure by way of the plain course by a mere difference of a place. or by a hob. does not alter the fact. that one is merely changand the position of the bells from that structure, and therefore creating a variation in both
instances. We can ignore the old worn-out argument about plain courses. as having little bearing on the truth of the meaning of the word variation.-Yours faithfully.

## Weston Favell.

NOTE.-Mr. Pattison desires to make a correction to his letter. The reference to April Day should read: 'April Day is Plain Bob Doubles whose Bob is a Grandsire Doubles single."-Ed.

Dear Sir-I am sure that Mr. P. Amos did not have any jealous nature in mind when he suggested that there was no more difference in the variation of Braunstone Surprise to Yorkshire than April Day 10 Plain Bob.

As one of the few ringers-in fact I would go so far as to say the only ringer-who has rung a full peal of April Day and Braunsione Surprise. I have always felt that there is more difference in the Doubles Variations than in these Yorkshire Surprise Variations of Braunstone and Biddenham (or should it be Biddenden? ) which only differ in the Yorkshire So6 triple dodge: in fact a number of the so called different Surprise methods only differ in the intermediate work in 1-2 and 3-4 places in Minor and 1-2 and S-6 places in Major.

The majority of the so called upper class of Surprise ringers look down on the Doubles rilggers, such as Mr. Amos, who practise these Doubles Variations, the only difference between them and the parent method being the type of bob used. However, as one staunch eight bell ringer once said. it lakes a really
good bind to ring a peal on five bells and strike them properly: he has never done so yet.

1 have the greatest admiration for conductors such as Brian Warwick. Pat Cannon and Derck Jones who have called peals on five bells including these Doubles variations and are also capable conductors on up to 12 bells. but none of whom comes under the category of ringing snobs.

So. Mr. Pattison, 1 agree with your explanation on the differences of Yorkshire variations and April Day, etc.. but still maintain that these Surprise methods are only slight variations of one another and to ring them is only just a matter of changing the name: the method is the same. the places difterent. - Yours sincerely.
Highclerc.
Dear Sir.-I hope I don't step on anybody's toes hy writing this letter. but I should like 10 fire what I hope will be the last bullet in the war between Mr. P. Amos and Mr. Pattison.
Perhaps Mr. Amos didn't chose a very good illustration of a viriation when he compared April Day and Plain Boh with Yorkshire and Braunstone hut I think we all know what was in his mind. and 10 my way of thinking a variation is a variation, whether the slight dalference be in the plain course or the call. Surely what's good for the goose is good for the gander.
Mr. Pattison. I thought. finished off his last letter in rather a distasteful way. He gave the imjacssion that ringing fancy Surprise Major methods is the thing and that ringing Doubles is something to be looked upon with contempt. but if the one peal of Surprise Major that I've rung, with what was supposed to be a crack band. is anything to go by then I'd rather ring a peal of Doubles any day.

One thing we should appreciate. whatever our stage of attainment. is that so much depends on opportunity. Some of us have been lucky and others not so lucky. but before we siait thinking less of the not so skilful in our noble art let us remember. There. but for the grace of God. go I.'
Finally, this childish 'slanging of paople is surely something to be deplored. It's so very unnecessary and what's more very unchristian. It's not a very good example of Christian charity and tolerance to set to our younger readers when the more mature of us have $t 0$ embark upon these nasty little outbursts of spite.-Yours sincerely,

## MICHAEL F. AMOS. C.A.

London. N.W. 1

## HANDBELL RECORDS

Dear Sir.-Further to my letter in your issue of February 19th. about the gramophone record of Spliced Surprise Major on handbells, I am pleased to say there was a good response and the records are now in my possession. The price (including postage) is 18s. 6 d. . and remittances should be made out to :The Central Council of Church Bell Ringers and not to me personally.
If anyone else is interested there are a number of spares available.

As this is a husy lime of year for me I must apologise in advance for any delay which may occur in despatch. hut perhaps anyone who does not hear within three weeks of writing would get in touch with me again.Yours faithfully. F. A. BARNETT.
26. Iron Mill L.anc.

Crayford. Dariford.
K゙ell.

## RINGERS AND BELFRY <br> MAINTENANCE

Dear Sir.-At the annual meeting oi the Worcestershire and Districts Change Ringing Association held on Easter Monday. I made at statement about ringers contributions towards rope maintenance ind general tower expenses when peals are attempted at this church. and I expressed the wish that such contributions should be made at the rate of 2 s . 6 6 . a rope.

This was reported, as I knew it would be, and I am told that such headings is "Mean ringers attacked by Rector of Hanbury ' have appeared. The popular press is already on the telephone and the usial storm is about to brehk. I shall not how my head to 11 . I did not use the word 'mean, nor did I intend to imply it. I merely pointed out that ropes are expensive, and that the cost of renewals (ahout $£ 36$ ) falls heavily on a country P.C.C.
I am always glad to welcome visiting ringers here. But let us face facts. Some people play golf, or cricket, or bowls and such like as a hobby. Ringers who come here on a Salurday afternoon ring mainly for their own enjoyment and for the pleasure of achieving a peal. Golf would cost them 10s. 6d. a head: the cinema at least 2s. 9d. A half-crown is a moderate contribution to ask for three hours ${ }^{\circ}$ enjoyntent. and I expect it to be honoured when a peal is booked.
My relationship with ringers in general, and the members of our Association in particular. has always been cordial. and I cannot see why my request should impair it. I stand by my statement. The bells at Hanbury are generally readily available for those who will co-operate with us. Others must ring their peals elsewhere-Yours sincerely.

LEONARD J. BIRCH Rector.
Bromsgrove. Worcestershire
NOTE--Interviewed by a Birmingham newsnaner. Mir. G. E. Fearn is quoted as saying. I think sixpence from each ringer is as much as the Kectur can reasonably expect."-Ed.

## A NEW NOTATION

Dear Sit.-I thank the correspondents who commented on my recent letter. If Mr . Wratten has a system of listing in Notation Order. the simple example he gives is not sufficient to show how he deals with the $x$ rows and double places. Perhaps he would give further details.

Mr. Pattison offers a logical system of classification. but as it takes the form of groups. each with branches, it is essentially a 'Filing Cabinet' system. and unless it could be adapted for printing. it would not serve the purpose I envisaged. of a single list in a known order.

Meanwhile, another critic has pointed out that recent methods have three adjoining places, and these should be included where applicable. The following amendments should therefore be made to the original Table of Places:
Change $\quad \underline{\text { Amendment }}$
$\begin{array}{ll}\text { 4-5 } & \text { Add } 1456 . \\ 6.7 & \text { Delete } 1258 \text { already lettered } \mathrm{rt} \text {. } \\ 8-9 & \text { Add } 1236.1238 \text {. }\end{array}$ 12-13 Add 1238. 1258, 3458 .
Should the system of lettering be adopted. would need extending accordingly.
Would one of your correspondents, please. verify that the Table of Places is now com-plete.-Yours faithfully.
T. G. HAWKINS.

Windsor. Berks.
NOTE:-For original letter see page 235 of March 25 th issue.-Ed.

## ALPHABET FOR BEGINNERS

## By T. J. LOCK

FALSE COURSE END.-The matter of proving the cruth of any composition is. to say the least. confined to those ringers who are used to putting pencil to paper. And. it need hardly be said, one finds that the first occasion a compusition is checked is tar more laborious than. for instance, the one hundred and firs!. Betore each compasition examined for truth certain preliminaries are necessary. For example, has the method to which the composition will be used a clean proof scale or any internal falseness? In Treble Hob and Surprise methods falseness may occur when the treble bell strikes in any similar position when going up away from the liad or coming down to the lead. To put it another way. in a lead of a reble hob method the treble bell strikes lour times in any one pasition so there are four rows which have to be examined for falseness or repctition. It thus may mean a detailed examination of the method, which entails marking the In course and Out of course rows. usually done with the signs $\%$ and - respectively. The next step is
to find the false lead heads, which are quite often numerous. But the majority of these false lead heads are when the two heaviest bells-the 'two tenors -are other than in their natural coursing order. and as nearly all compositions for cight bells and over are rung with the tenors not affected in their coursing order. the number at issue is very much reduced. Moreover, as we are now under the heading of False Course End we look down the list of false lad heads to see which of them have the tenors in their home positionthese are the False Course Ends.

To illustrate the diversity and complexity of falseness you will read in the article - Double Norwich Court Bob Caters " written by Edgar C. Shepherd that whenever a start is made to ring Double Norwich Court Bob Caters on the thirds place bob variation. threc rows occul that belong to the first lead 123456789 Thev are 214365879 .
241638597 and 426135879 These 241638597 and 426135879 . These three rows must inevitably be rung. for no calls can affect the method until the tourth row is reached. The false leads against these
three rows are two in number. 132645879 three rows are two in number. 132645879
and 152648379 . These two leads must never on any consideration appear in any composition.

FIRING.-If you have not yet heard firing. heing done properly, on bells you have. I think, a treat in store. Firing is when the
tenor takes the lead in striking and all the tenor takes the lead in striking and all the
other bells follow in quick orderly succession with trible last. It is done so quickly that it takes less than a second for all the batls to he heard at each stroke and the effect is. on a well tuned peal. a very pleasant reception in the ears of a humming octave. The firing can, of course, continue indefinitely with everyone following the lead of the tenor but it is not rung or practised much becalise. for one reason, much greater stresses and strains are set up in the bell frame and in the tower which would cause undue wear and tear and eventual damage.

FIXED BELL.-To produce figures for a peal a composer has certain matters to consider and certain conditions to comply with before the composition is proved true. But apart from these obstacles he usually strives to produce as musical a composition as is possible. This often means that at certain points in the composition the grealest number of the bells are kep: in their coursing o:der for as long as can he. For instance, in Major, the sixth could be a fifths plice bell in the ccursing order whilst the fifth and then the fourth would be called to bz sixths place bell in the coursing order, thereby producing, frrstly, as many changes as possible with course Inds this case the sixtli would be a fixed bill or, in other words. a bell undisiurbed in its coursing order by any calls.
A very good example for you to study is Superlative or Yorkshire Surprise Maior. It will be seen that the call Before is the only

## The Royal Wedding

Today (Friday), in Westminster Abbey, is being solemnised the marriage of H.R.H. The Frincess Margaret io Mr. Antony Armstrong-Jones. While the Abbey bells will be rung for the service, ringers everywhere will during the next yew days be ringing in celebration of this, the second big Royal event of 1950.
It seems especially appropriate, hou'ever, that the be!ls which will be heard during the Royal processions through Parliament Square io the Abbey will be those of St. Margaret's. Westminster. Since the time of Elizabeth I the bells of Si. Margarer's have been rung whenever the Sovereign has been going past the church, whether on the way in the Abbey; to the opening of Parliament or in commertion with State visits from foreign powers. Indeed, the last occasion was when H.M. the Queen was cscorting President De Gaulle from Victoria Station 10 Buckingham Palare.
St. Margaret's is also the parish church of Parliamemt. One of the first acts of eiery new Farliament is that the Lords and Commons proceed to their parish church for a service to ask God's blessing in their deliberations. As Parliament is the representative body of every one of tus in the United Kingdom of Great Briain and Northern Ireland. St. Margarei's can be said in onle sense to be a parish church for all of us. The ringers of St. Margarer's, under their conductor, Mr. W. H. Hewelt, will therefore be expressing the loyal sentiments of us all and our wishes for the future happiness of the Princess and her groom.
$W, G . W$
one to allect the sixits place bell. also that the sixth is the fixed ball in this position for one part. like fourth is the fixed $b=l l$ in this position for another part. and the fifth is the fixed bell in the remaining part.

The state of being a fixed bell can be protracted to a touch of three leads of. say. Kent Treble Bob Major, which can be brought into rounds by calling a bob at every lead end and in which the liith. sixih, sevantl and tenor would be said all to be fixed bells.
FORWARD HUNTING.-I have noted hefore that the treble is always considered to he a forward hunting bell with handstrckes making the odd numbers of changes and backstrokes the even numbers. Siedy the Plain Bob method and you will see that all the halls do forward llunting. It is most usually not until you have hid fair experience in change ringing that you will depart from forward hunting, but the departure should not worry you. in fact to many it presen:s no difficulty whatsoever, and even the mixture of forward and backward bunting will come and go as a matter of course.

FLRNITERE.-The contents of a ringing chamber does create impressions good or otherwise and to this extent has an effect upon the ringers and consequently upan the ringing. Some ringing chambers. even excepting those where ringing takes place around the font or imongst the choir stalls. have no room foi furniture thut where some is passible, do not croud it in. A table with drawers and a chair or two, seats or benches to provid: accemmodation for people numbering say three times as many ropes, plenty of hat and coat hooks (but not against a nonsashable distempered wall!) a rotice board fixed at the right height for all to read should be a mmimum aim. Items such as carpets. mats. lino. bookcases, cupboard, means of adequate lighting, lidded boxes or plat forms on which ringers of the beavy bells can stand. peal boards and tablets. lavatory accommodation are all incidental to each ringing chamber, but. ladies. don't you like to see a vase with a lovely spray of flowers in it?

## OBITUARY

## MR. E. W. BIFFIN

The funeral service for Mr. Edward W Biffin took place at St. Thomas' Church. Excter, on April 12th. Those present included the president and general secretary of the Guild of Devonshire Ringers. the chairmen of the Exeter and Mid-Devon Branches of the Guild, and many ringing friends and sympathisers. Muffled touches ware rung on the bells after the service.
Mr. iziffin came to the district about 1920 from Milverton. Somerset, being employed. until his retirement. as a railwayman of the Western Region. He joined St. Thomas' Exeter, band at the time of the restoration of the bells in 1923, and three years after was elected Ringing Master, a position he had most ably filled up to the time of his death He was also church councillor and sidesman.
Whilst there are no dates or figures avaitable immedrately. his other offices connected with ringing include being Central Council representative for about 20 years and Excter branen Ringing Master for about the same time. He has rung about 80 peals and con ducted quite a half of them. He was particularly proud of the peals of Stedman Triples he had called and his one and only of Surprise Major he had rung in the company of the late Mr. and Mrs. H. J. Poole. His last peal. which he also conducted. was at St. Thomas'. Exeter, of Grandsire Triples, in honour of his golden wedding on June 18th, 1958.

Ted had done more than his share of teaching recruits. travelling many miles to local struggling towers. and many of the leading exponents of the art in the Exeter districs owe much of their success the tarly ground work provided at St. Thomas The vicar. the Rev. J. P. Henton, who conducted the funeral service. apily summed up the life of Edward W. Biffin as one of Ioyalty - loyal to his church and family, to his own band, and to his Guild. St. Thomas'. Exeter and the Guild of Devonshire Ringers will find the gap, created ty his passing, ditficult to fill.

MR. GEORGE BLRDFIELD
Hurstpierpoint. Sussex. has lost a sincere churchman and loyal ringer by the death on April 7th of Mr. George Burdfield. aged 77.

His punctual attendance for both service and practice ringing perhaps sprang from his work as a railway signalman. He was a most genial companion Previous to coming to Hurstpierpoint he lived at Three Bridges and while there for over 30 years served Worth Parisl, Church as a chorister and bell ringer (His grandson is now carrying on in choir stall and belfry.)
It was at Worth that he was laid to rest on April llth. and as a token of respect-for he left behind an example worthy of emulation -that the bells of both Worth and Hurstpierpoint were rung half-muftled
S. W. B.

## MR. E. J. GOLDSTONE

Portishead has lost its oldest ringer and the Bath and Wells Association one of its longest serving members by the denth of Mr. Ernest J. Goldstone, following a short illness.

A life-long resident of Portishead. Mr. rioldstone had recently completed 60 years as a member of the local band. In recent years. he was partially crippled by a rheumatic complaint yct. despite this. his enthusiasm for ringing never diminished. Peal boards in Portishead belfry testify to Mr . Goldstone having taken part in about a dozen peals in his own tower, mostly of Grandsire Triples. several of which he conducted. As a lad of 14. he was present in the ringing chamber when the first peal of Triples on the bells was rung in 1900.
During the evening. on the day of the funeral. the Portishead bells were rung halfmuffled to some well struck Triples, as a token of respect to one who had. in all respzets. proved himself worthy of his calling as a ringer in God's service.
A.J.G.

## BATH \& WELLS DIOCESAN ASSOCIATION

SUPPORT FOR 'RINGING WORLD

Bridgwater was chosen as the venue for the 70th annual meeting of the Bath and Wells Association. and on. Easter Monday the lurgest company of ringers present for many years met there. Doubtlepsly, they were atracted by the glorious sunshine. the accessibility of the town, and the numerous
six bell towers available for ringing.
The servicc in St. Mary's Church was conducted by the Vencrable G. F. Hilder (Archdeacon of Taunton) who is a vice-president of the Association. and he was :assisted by the Mastor, the Rev. H. F. Warren. In his address, the Archdeacon traced the origin of change ringing, reminding those present boih of the integral part it plays in the preparation for worship, and of the great responsibility placed upon all ringers. Their duty was not complete when the last bell had sounded but they should he present for divine worship. regularly kneeling at the altar to receive their Holy Communion
After the service, members partook of luncheon at the Tudor Cafe. and from there made their way to St. Mary's Hall for the mecting, which was excellently conducted by the Master. who opened proceedings with prayer. Apologies for absence were received rom he Lord Bishop of Bath and Wells, the Bishop of Taunton, Messrs. J. T. Dyke.
R. O. Fry. W. A. Prescott. W. A. Osborn, E T. P. Field and Miss N. Williams
The secretary (Mr. D. Hoare) read the minutes of the previous annual mceting and hese were duly signed and adopted
In his remarks the Master expressed regret at his inability. through ill-health. to take a very active part in the affairs of the Association. However, he was delighted to say that he hud naw completely recovered. During the past year, he had been kept well informed of happenings in the Diocese by the secretary. who had. he said. spared no effort to keep the Association's affairs in good order.

ANOTHER RINGING PARSON
He then told members that their secretary had felt God's call to serve as a priest and was therefore commencing his training for Holy Orders later in the year. It was unfortunate that the Association would lose his services after only two years, but one more ringing parson would be a valuable asset! He wished Mr. Hoare well in his new-found vocation and coupled with this his sincere thanks on behalf of all for the work which he had willingly undertaken during his term of office
The secretary presented his report for 1959 which showed great activity throughout the Diocesc in all directions. Because Parochial Church Councils had responded so well to the requests for increased affiliation fees. the committee had been able not only to produce a booklet on the elementary principles of ringing ('Ringing a Bell.' price 6 d. ) but also to reintroduce organised courses of instruction which had so far been granted 10 four towers. Grants, too, had been increased and one P.C.C. had received a substantial amount which would be a great help in rehanging the bells. Mr. Hoare mentioned a restoration contemplated at Hemington.

One brunch. he said. 'which rcally deserves congratulations is the Glaston. It had for some years been a depressed are 1 but. due to local enthusiasm. it was now very flourishing.
In conclusion. he said that it had been a pleasure and privilege to serve as general secretary and thanked members for their unfalling support which hád greatly helped him.

## FINANCES BETTER

The treasurer (Mr. G. Salmon) presented the balance sheet which proved to he outstanding. Branch returns were considerably up and the general fund balance had increased bv about $£ 50$. Affiliation fees had totalled 885 . $50 \%$ of this had been retained for instructional purposes. while a similar ampunt had been transferred to the bell fund. which had also benefited by three branch collections totalling E 5 . Strangely enough, the pinted report had cost $£ 25$ less. This was
due to an increased number of advertisements and a change in printers.
Mr. Harry Sanger (peal secretary) reported that nine fewer peals had been rung during 1959 than during the previous year. Neverheless, the all round standard had greatly improved and this was very pleasing. The highlights were a peal of Doubles in 18 nethods at Ashcott, conducted by Mr. George Prescott. several peals of Surprise Major, conducted by Mr. John Gilbert. and a peal of Yorkshire Surprise Royal at Yeovil. Mr Sanger explained that the drop in numbers was due to certain members commencing study in connection with their careers and the transfer of affections by some members from the Doubles field to the Minor. He felt that the organised instruction would provide a good grounding for the future generation and secure an even higher all-round standard

## OLD BELLS AND SCRAP

Finally, the Tower Advisory Expert (Mr R. H. Gardiner) told members that he and Mr. W. A. Osborn had visited ten lowers during 1959 and in a comprehensive report he gave full details of the recommendations which he and his colleague had made. He impressed members that they should. as ringers. always condemn the selling of bells for scrap as they were often irreplaceable. They had succeeded in persuading one P.C.C. from doing such a thing and impressed upon that body the desirability of the use and purpose of bells.
Mr. S. G. Coles then proposed that the reports be adopted en bloc with grateful thanks to the officers for their able administr: tion. This was seconded by M
Mogford and carried unanimously.

## PEALS AND - RINGING WORLD

The Master then placed before the meeting the following resolution which was proposed by Mr. E. J. Chivers and seconded by Mr. R. G. Beck. That on January lst next. this Association institutes a further minimum charge of 6d. per rope for cvery pcal rung for the Association: the money to be forwarded to "The Ringing World "to help this paper in its financial difficulty. Also that no peal be recorded for the Association unless the peal booking fee and ". Ringing World" fees are fully paid. Considerable discussion followed and. in the course of this. it was pointed out that a good $60 \%$ of the Diocesan ringers already made a voluntary contribution and so this would no more than regularise what was happening alrcady.
Mr. Brain fel! that while the idea was admirable. a better alternative would bs for the Association to make a straightforward grant which could be reviewed annually. However. after onc or two other points had been clarified. he allowed his suggestion to remain open for the time being. It was interesting to note that not one parson present expressed unwillingness to co-onerate and so the motion was carried with great enthusiasm.
It should be placed on record that some months previously the subject of The Ringing World had appeared on the agend:a of every branch mceting and so the motion placed before the annual meeting hid been well discussed at a branch level and a real well discussed at a branch levil aind a real
inferest and feeling of responsibility towards the ringers' own paper had been created.

## P.C.C. AFFILIATION FELS

Mr. Hoarc then proposed and Mr. Salmon econded the following amendment to Rule 4. That the word's "Each tower is asked to pav an afiliation fee of not less than 2s. annually be deleted and the following words substituted That every Parochial Church Council be asked to pay an annual affiliation fec. the following amounts being the recommended sums: half-guinea for towers containing five or six bells and one guine: for towers conlaining eight bells or more.
The proposer explained that the purpose of this proposition was merely to regularise what was now handening because under that new scheme the old rule was obsolete.

The Rev. Dr. Pollard said that his own P.C.C. had raised no objection and that they had said that a body asking for only 2s. was not worth supporting. The resolution was therefore carried unanimously.
In the course of the annual elcctions, the fo!lowing officers were appointed to serve for the next twelve months. all of whom were recommended by the General Executive Com-

The Rev. H. F. Warren (Master): Mr. G. Salmon, of 9 , Kennion Road, Wells (general secretary): Mr. E. Naylor. of 7. Priory Close, Ralph Allen Drive, Combe Down. Bath (treasurer), Mr. F. Andrews (auditor): Mr. H. J. Sanger (peal scerctary) : Mess rs. R. H. Gardiner and W. A. Osborn (Advisory Expert and Assisiant. respectively): Messrs. G. $\underset{\mathrm{N}}{\text { Salmon. H. Williams (Central }}$ J. Souncil representitives).
Under Any Other Busincss. Mr. S. G. Colos proposid that the secretary be granted the usual honorariun, and coupled with this his thanks for past work. Mr. D. White seconded and the proposition was carried. Similarly. Mr. Chivers proposed a gramt of $£ 20$ towards the Central Council representatives' expenses. Mr. A. Lee seconded and this. too was carricd. In conclusion. Mr. H. Sanger thanked Canon Swan for so readily allowing members the use of the bells and church. the Archdeacon of Taunion for conducting the servico and speaking so delightfully, the organist for his kind help. Mr. R. Short. the local secretary, for making the many arrangements. and finally the Master for conducting the meeting.

After the Master had closed proceedings with prayer. members adjourned to the many neighbouring towers where ringing continued until 8 p.m

## EAST DERBYSHIRE \& NOTTS ASSOCIATION

Visitors from Lincolnshire. Lancashire Leicestershire and Staffordshire augmented members of the East Derbyshire and Nouls Association to enjoy the fine eight at Sutton-in-Ashfield on Easter Monday, when the Association's meeting was held. Young lady ringers of the home tower. under the guiJance of Mrs. B. A. Sollis, wife of the lozal captain. served a sumptuous tea.
At the bus:ness meeting the president (Mr. J. W. Price) presented the shiefd for Sunday setvice ringing, progress and attendance it meetings to Sutton-in-Ashfield. who has won it for the fourth year. It was receives by the youngest pup:l. Miss B. Gascoigne.

There was a change in the election of officers. Mr. C. M. Incathcote, who for almost 2 yuarter of a century had been honorary treasurer. retired owing to his iccent illness. and Mr. R. Mason. oi Shirland. was elecied as his successor. Mr. B. A. Sollis was again elected secretary and Ceniral Council represertative. Two ladies were added to the Execu: ve Committee - Miss Ashby (Shirland) and Miss Wharton (Sulton-in-A shlield).

Two very old members of rver 50 yzars' standing. Mr. A. Elliott (Kilturn) and Mr. W. Dobb (Selston). mored that the title of the Association oe changed from East Derbysinire and No:ts Association of Change Ringers to that of Church Bells Ringers and this was agreed to. Honorary life membership was conferred on Mr. J W. England and Mr. clected. Heathcole and 12 new members were clected. Further ringing ended a remarkably hanpy mecting.
A.B.S.

## Joint Mecting At Darlington

A most enjoyable inccting of the Southerm District of the Durham and Newcastle Association was heid at Iloly Trinity Church, Darlington. on April 23 rd . The service was conducted by the Vicar (the Rev. D. N. Goldie), who at the tea table afterwards stid the sound of church bells was one of the things lic missed most when awas from this country. He was delighted to find on coming to Holy Trinity. that it had a line ring of bills. A joint meeting with the Yorkshire Association at Barnard Castle was innounced for July 2nd. Ringing ranged from Pkin Bob to London Surprise.

## LLANDAFF AND MONMOUTH ASSOCIATION

## Invitation To Central Council Under Consideration

IN beautiful weather the 67 th annual meeting of the Llandaff and Monmouth Diocesan Association was held at All Saints*. Newport on Easter Monday. The attendance-about 7 -was not quite as large as usual. The bells were made good use of and Mr. G. I. Lewis. the Mister, saw to it that all had a chance to ring. The service was conducted by the Vicar. the Rev. H. R. Sproule-Jones, who wel comed the Association. Visitors were entertained to tea in the Parish Room, kindly catered for by the ladies of the parish.
The business meeting followed, presided over by the Vicar. The treasurer, the Rev. I. J Richards. presented the balance shect. which showed a credit balance of $£ 12 \quad 13 \mathrm{~s}$. 8 d on the year's working. He pointed out that the officers, including the Central Council representatives. had not claimed their expenses. If they had done so there would have been a debit balance.

The secretary in his report. stated that the membership at 286 was about stationary. but pointed out there must be a lot of wastage bearing in mind the number of new members elected at the quarterly meetings. He deplored the number of towers that were silent through lack of ringers. Thirty-seven peals had been rung, 26 by resident members and 11 by visiting bands.

Mr. G. Wiard. of Abergavenny, was elected Master for the ensuing year. The general secretary. C.C. representatives. auditors, and treasurer were ail re-elected. Mr. D. King reported that the annual dinner at Newport was a success-about 60 members having an enjoyable cvening.
The finances of 'The Ringing World' were discussed. The secretary read an answer to the questionnaire he had sent to the Editor regarding circulation. subscribers. etc. He appealed to all who did not already take a copy to start doing so and detailed the advantages of heing a postal subscriber.
It was decided to hold the next annual meeting at Cardiff. Mr. Clive Bryant asked if Abergavenny could nol be included in the rota for annual meetings in place of All Saints and at the next annual meeting he would muve that Abergavenny be included. Mr. D. King suggested that the Central Counct be invited to hold its annual meeting It Cardift in 1962. It was decided that the three secretaries. C.C. representatives. Masters and treasurer be appointed as a committec to make inquiries and report on the matter.

Mr. 1. M. Roderick said there were prospects of 2 extra bells being installed at Newton Nottage in the near future.
The secretary brought up the matter of doing something to accommodate the books left by the late J. W. Jones. No action was taken. He also sand that stocks of badges and - Beginners Handbook' were running low and asked for permission to order more.
Mr. D. King proposed a hearty vote of thanks to the ladies for the tea. and the Rev. I. J. Richards thanked the Vicar for taking the sergice and presiding at the mecting. Four niw miembers were elected.
F.J II.

The latest news of Eiaton Hall, the home of the Duke who loved bells.' the subject of our front page article, is that the chapel and belltower are to be left standing-the remainder demolished.

## QUARTER PEALS

ASFORDBY, LeICS.-On April 21st, 1.260 Plain Bub Doubles: Miss C. Wheeler 1. R. Smith 2. J. H Cook (cond.) 3. H. T. Bonshor 4, R. H. Cook 5. K. J. Panter 6. Rung for the birthday of H.M. the Qucen.

## BRISTOL CATHEDRAL <br> THE BELLS OF THE CENTRAL TOWER

TNTIL recently. Bristol Cathedral had been listed as our only cathedral church with less than five bells, having four "unringable bells in its central tower. This position has happily been rectified by the installation of the ring of eight in the north-west tower. The history and details of the new ring have already been published, and this has led to a study of the old bells, revealing a story much more interesting and reaching much further into the past than that of their successors.
Unfortunately, the Cathedral records yield Iftle information on the bells, but some references have been obtained from other sources. One of the earliest references appears in the settlement of the accounts of one Richard Poulet, Esq., who had heen 'generall receivor. concerninge all leads and belle metall' at the time of the Dissolution of the Monasteries by Henry VIII in 1539. It reads thus: "of the late monasterye of Seincte Augustyns by Brystowe in the Countie of glouc. x belles.' However it seems that the Receiver allowed the Cathedral to retain her ten bells for a time, as we read later: *The belles of the late monasterye of Augustyns in brystowe in the countie of glouc. remayning in the steple of the churche ther beinge a cathedrall churche being in nombre $x$ amounting in weighte to $x^{m l} v^{l i t}$.
Presumably the Cathedral kept these bells untit the time of Edward VI, as a receiver's account, dated May 27th. 1553, states that the Lord Mayor and Crown Commissioners allowed the Deane and chappitor wf the Cathedrall churche of Bristoll' to keep and sign for "One great belle for the clocke and iiij other belles."
Later 16th century accounts show that these bells were in frequent use, c.g., in 1581 -

> To Sadler for kecping the clock.......2-6 To him for rynging to sermons........ $1-6$.

## and later in 1591 -

Pd to the ringers on the Queene's daye 5
of them at $\mathrm{xx}^{d}$ a pece..................4.
The next recorded change is in 1670. when the present tenor was cast, or recast, hy Roger Purdue (the Bristol, hell founders), probably to replace the "great belle for the clocke." abqut which there is no further evidence.
In 1789 the historian William Barrett records that there were five hells in the tower, although his account of their origin is rather inaccurate, as is his explanation of the absence of the five confiscated bells: . . . here were designed to be five more as appears by five more vacant frames, out of which there is a tradition the bells were stolen. but others say they were sold to the church of Redclift. These five bells remained in the tower unti] 1802, when one of them was said 10 be cracked and useless and was sold by the Dean as scrap. In an invoice dated July 17th, 1802, we read: "for an old cracked bell wt 11-0-17@10 per lb 52-0-10.
The other bells were undoubtedly rung after this date. but only on half wheels: only the present tenor was ever hung for full circle ringing, and then only in a crude manner compared with present day standards. It is recorded that in 1859 a Christmas drunk got into the tower and tried to raise the tenor bell, but he had little success as the rope became entangled in the wheel. Could this have been our friend Arney, whose exploits were published in a recent Ringing World and who recorded a similar incident in the Cathedral?
A recent study of the belfry has revealed several interesting features. The bell frame itself is a massive structure ( $21 \mathrm{ft} . \times 26 \mathrm{ft}$.) of ancient design, and almost certainly dates back to pre-Reformation times. It appears to stand on the floor, supported by massive beams beneath. having no lateral support whatsoever. One visualises that with a ring of eight or more bells swinging, the frame might walk around the floor:- The structure is composed of five separate wooden bays running east-west, and two long bays running north-south. The frame is about 7 ft . high, and of the first five bays, three are 3 ft . 10in. in width, one 4 ft . 5 in ., and the other, containing the Purdue tenor, is 4 ft . 8 in . wide. The two long bays measure 2 ft . 11 in . and 3 ft . 4 in . respectively, and
each is long enough to accommodate two lighter bells, as indeed the smaller does at the present time.

A comparison of the sizes of the remaining bells, with the weight of $10,00 t \mathrm{lb}$. or about 90 cwt . suggests that in 1539 there was a ring of eight bells with two small bells, one possibly a Sanctus. These two * could have been hung in the ninth bay, but at no time could there have been ten bays as Barrett suggests. Eight bells would be an unusually large number for a church in 1539 : five was the usual maximum; but St. Augustine's was one of the great Abbeys of that time.
The history of the bells remaining in the rower is reasonably well known. The two smallest bells were cast in about 1500 by Abbot John Nulande (1481-1515). This appears from the embossed initials (I.N.) on the treble's side: also on this bell appears Nulande's 'rebus' -a bleeding heart pierced by three nails.

Treble (E flat).-Diameter $28 \frac{1}{2} \mathrm{in}$.. height 25 in . (first of clock quarters).
Sancte: Clement: ora : pro: nobis.
Second (D).-Diameter $31 \frac{1}{2}$ in., height 28 in .
It is believed that the bell sold in 1802 was a sister bell to these two as (according to Barrett) it bore the inscription. Sancta Catharina ora pro nobis.

The third is a tall, straight-sided bell with a rounded crown and thick lip. It has unusually well-spaced lettering and a peculiar Lombardic cross; it is said to date from about 1300 and 10 be the oldest inscribed bell in the county.

Third (C).-Diameter $35 \frac{1}{2}$ in.. height 33 in . (second of clock quarters).
+CLARA: VOCOR: ET: CLARIOR: ERO.
The tenor was cast with canons but has since lost them. This would seem to suggest a subsequent rehanging. of which there is no record. The bell is hung on a large wooden headstock and is the only one of the four bells without canons.
Tenor (E).-Diameter 49in., weight 20 cwt . (hour bell).

+ ECCLESIA + CATHEDRALIS + BRISTOLL + DOMUM + DUMINI + $1670+$ RP
+ +CONGREGATE + CETUM + SOLENNEM + IN + DOMUM + DOMINI
$1670++$ RP +
Our examination of the bells has raised more questions than it has answered. How and when were the bells last rung? Each bell, except the third, still has its clapper, hung by the hook and eye method. with at peculiar wooden sheath near the top. Only one of the three older hells now has a wheel ( $\mathrm{a} \frac{4}{8}$ wheel), but the tenor has a complete wheel and a pulley block in the floor. This was obviously rolled in the 1850 's, but it would have been impossible to ring it a full circle because of the short metal stay and peg to prevent it lurning over. It has recently been fixed to avoid damage to the electric chiming apparatus. Before the war the three old hells were 'clocked' by the verger scated in the lofty ringing chamber below. For at least the last cenfury the tenor would have been 'unringahle' as it is badly cracked.
Lying in one of the vacant hays is a huge oneel, luft. 3 in . in diameter. There is no evidence to show that this wheel was ever used. hut-it has been suggested that it may be the wheel from the great belle for the clocke.
The central hole through which the bells are drawn up is 4 ft .4 in . in diameter, and the beam of one of the 3 ft . 10 in , bays has been slightly cut away to accommodate this. Thus it appears that the "great belle could not have been much larger than the Purdue tenor.

On the inside of the third bell faint chalk marks have been found. These have teen deciphered as 'R. (P?) Taylor 1809 ' (59?) and "Feb 28.82.' The first agrees with the founders' family tree, but Taylor: have no record of anyone being sent to Bristol Cathedral in any of hese years.
There is still much work 10 he done on the history of these old bells, and many hlanks need to be filled in. Because of the lack of adecuate records much can only be theory, and we would welconte any opinion from other students of beil history. It is hoped that the bells will be open for inspection by anyone interested during the Bristol Ringing Festival on May 14th.
(Thanks are due to C. Godman and R. Gilbert, of the sixth form, Bristol Cathedral School, and to Frank Carter and other colleagues on the stalf. by whom researc! ior this article was largely carried out; also to John Taylor and Co. for information.) P. B. B.

## GUILD of DEVONSHIRE RINGERS

The annual meeting of the East Devon Branch was held at Honiton on Easter Monday and about 60 ringers attended. The service, which was held in St. Paul's Church. was conducted by the Rector, the Rev. A. A. Fane De Solis. At the business mecting four new members were elected - three from Buckerell and one from Honiton. Proficiency certificates were presented by the president. the Kev. Preb. E. V. Cox. to nine members.
Mr. G. C. Woodley was elected chairman. Mr. F. Paw vice-chairman. Mr. W. Webb secretary and treasurer. Mr. C. D. J. Wehb vice-secretary, and Mr. C. C. Turner Ringing Master. It v:as arranged to hold the next annual meeting at Sidmouth and the quarterly meering at Stockland.

Ringing at St. Paul's and St. Michacl's Churches included Grandsire and Stedman Doubles. Cambridge Minor. Grandsire. Siedman and Spliced Diford and Grandsire Triples. Plain Bob and Kent T.B. Major.

## KENT COUNTY ASSOCIATION

The first meeting of the Ashford District since the restoration and rededication of the bells at Great Chart attracted some 40 visitors to what is now one of the finest rings in the district. Ringing throughout the day was generally of a high standard. The service was conducted by the Rector, the Rev. D. Stowell. and the excellent tea was organised by Mrs. Day.

## A CANTERBURY OUTING

Organised by Miss Wendy Palmer, six ringers from Canterbury, later joined by two from Ashford. had a day's ringing around Tunbridge Wells on April 20th. Towers visited "ere Couden (6). Leigh (6). Brasted (6). Seal (6). Seal Chart (6). Shipbourne (6) and Peckham (6). Seven Minor methods were in the ringing programme.

## NORWICH DIOCESAN

Members of the Eastern Branch were particularly pleased to see their president (Mr. Nolan Golden) at their spring meeting at Acle on April 9th. as this was the first Eastern Branch meeting he had attended since his illness. Mr. Golden thanked the branch for inquiries made about him and congratulated the Rector on his ringing progress. He referred to the appeal being made throughout the Association for a memorial to the late Mr. C. V. Ebherson.

A silent tribute was paid at the meeting to Mr. George Crowe, of Gorleston and Basingstoke. Messrs. L. Raphael and B. Hinder (Lowestoft) were elected new members and Miss F. Woodgate (Reedham) a probationer.
Votes of thanks were passed to the Rector (the Rev. E. W. Alexander) who conducted the service and the organist (the Rev. M. Galley). Mr. H. W. Lidbetter, the hranch's youthful veteran. Who left a sick bed to be present, and the Misses Lidbetter for the ta arrangements.

## SALISBURY DIOCESAN GUILD

The quarterly meeting of the West Dorset Branch was held at Whitechurch Canonicorum on St. George's Day. Six towers of the Branch were represented with visitors from Yeovil. Yetminster. Leigh, and Corfe Mullen. The beautifully toned eight sounded at their best to Double Norwich. which was the method chosen for the day.
Canon Cox conducted the Guild service, while the Vicar of Whitechurch gave the address. He said that since he had arrived in the parish he had been taught to ring. He had learnt with some difficulyy to control his bell. and to make it fit in with the other seven. This he likened to our lives which we should control, and fit them in with the rest of mankind:
Mr. C. W. Powell presided at the business meeting. Arrangements were confirmed for travelling to the Guild festival at Wimborne. The next monthly practice will be at Netherhury on May 20th, and the next quarterly at Thornecombe on July 16 th . Chardstock iower also will be open.

## BISHOP'S DAUGHTER MARRIED

On April 26th. Miss Elizabeth Jane Leonard, second daughter of the Rt. Rev. M. P. G. Leonard. Bishop of Thetford, was married in Norwich Cathedral, to the Rev. Allen Rutter. son of the Rev. and Mrs. Norman Rutter, of Bickley. Kent.

Miss Leonard is a member of the St. Peter Mancroft Guild and fellow members rang handbells as the bride and bridegroam left the Cathedral.
In the evening members rang 1.260 Plain Bob Royal. at St. Peter Mancroft. The band was S. Boar 1. A. G. Bason (cond.) 2. C. Bird 3. S. Brothers 4. C Curson 5. S. Gall 6 W. Love 7. C. Goodman 8. W. Barrett 9, B. Gogle 10 .

Peal ringers will note the achievenient of Mr. Peter Border in ringing the 56 cwt . tenor of Wells Cathedral to a peal of Cambridge Surprise Royal. College Youth friends speculated at Derby on April 30th whether Mr. Wilfred Williams, the conductor, would have reserved the tenor for himself. There was certainly no dallying to bring the peal round in 3 hours and 39 minutes.

The bells of St. Mary Redcliffe. Bristol, will be heard prior to the evening service to be broadcast from there in the West and Midland Home Services next Sunday at 7.45 p.m. The captain of the ringers is E. F. Hancock.
The quarter peal al Braywood. Berks. was arranged by Mr. W. Birmingham so that some of his ringing friends could ring there before the church is demolished.

The Oxford Diocesan Guild's week-end ringing course at Big Wood was highly successful. There were 52 present all the time and four part-time. The demand already exists for inother course.

- The Ringers' Magazine for the April quarter contains articles hy Norman Phillips. Victor Shepherd, William Butler, Ernest Morris. A. James Glass. John F. Williams, William Birmingham and William Shepherd. All are very readable.

For the time being the treble and sixth bells at Tenterden are considered to be unsafe for ringing. It is hoped to launch an appeal shortly to have the repairs done. The quarter peals published this week were rung without these bells.
We are sorry to learn that Mr. Albert J. Hughes, of Bangor. who is now in his 791 h year, is shortly to be admitled to Bradford Royal Informary for an operation. He sends his congratulations to the band who rang the 22,400 Plain Bob Major
A new edition of 'Who's Who in Music' is in course of preparation for publication in early 1962 . Musicians among our readers who would like to be considered for inclusion in the biographical section should write to Burke's Peerage Litd.. Mercury House, 109-119. Burke's Peerage Lid.. Mercury
Waterloo Road, London S.E.I

The monthly practice meet ing at St. Giles-in-the-Fields, London, is maintaining its

## GOSSIP

 popularity and usefulness. We hear that at the last meeting a touch of Six Spliced was rung by a band comprising officers of the Ancient Society of College Youths, the Society of Royal Cumberland Youths. the Ladies Guild and the Middlesex County Association IVlembers of the London County Association and the University of London Society were also present. Alick Cutler. Ringing Master, also afforded one visitor rounds and call changes. in his endeavour to extend courtesy to all comers.An anonymous donor has given $£ 425$ to Aldeburgh Church. Suffolk, in order to procure a new eight-bell frame.
The silver wedding anniversary of the Vicar of Copt Oak, Leies, the Rev. F. R, S. Byfield. and Mrs. Byfield was honoured by a peal on his bells on April 30th. Mr. Byfield, who is chairman of the Loughborough District of the Leicester Diocesan Guild, is a ringer at his church.
After an hour and 40 minutes ringing, the Universities Association lost a peal attempt of Stedman Caters at Saffron Walden on April 30th. One of the party was not told to change at Audley End and was taken on to Cambridge. With considerable enthusiasm she chartered a taxi to drive her out on to the Saffron Walden road and then hitch-hiked.

Of the tive bell towers in Worcestershire. only Breden. Berrow and Broadwas have had peals, and none since 1938 (at Berrow). The silence was broken by a peal at Broadwas, the first since 1919. Of the unpealed fives in the county. only Birlingham's and the heavy hells at Honeyboume are now ringable. At Broadwas, the tenor was cast in about 1346: the front four were added by Carr. of Smethwick, in 1822. The bells are not in tune, but are more minor than major, and are somewhat oddstruck. Before the peal could be attempted, the bells were well oiled and ropes were replaced. When the band had lecome used to the unusual music of the bells, guite a good peal was rung.

## LEICESTER DIOCESAN GUILD <br> REVIEW, 1959

A
COMPANY of 150 ringers and wives attended the annual meeting of the Leicester Diocesan Guild at Aylestone on April 23rd. Some 11 towers were open for ringing and the service in the Cathedral was conducted by Canon F. W. Pratt with the Provost (the Very Rev. R. J. F. Mayston) as preacher. A special double-decker 'bus transported members after the service to Aylestone where an excellent tea was provided.
Opening the business meeting the president (Mr. Peter J. Staniforth) apologised for the absence of the Bishop and the Archdeacons and had a special word of welcome for Mr. W. H. Clarke, of St. John the Divine. Leicester. Twenty certificates of membership ere presented.
The secretary (Mr. Brian G. Warwick) in presenting the committee's report stated that 726 members paid or joined the Guild in 1959 and there were 115 members who owed one year's subscription The most outstanding event was the annual dinner with the Lord Bishop of Leicester as chief guest. A new venture during the year was the introduction of striking competitions.
From the District reports Hinckley District mentioned the performance of Martin Faulkes, of Hinckley, who rang 27 peals during the year. His first peal was rung as recently as December 30th, 1958. The Leicester District recorded with regret the deaths of Mr. John O. Lancashire and Mr. E. J. Jelley., and Loughborough District that of Mr . Charles Allsopp. Two old stalwarts of the Melton Mowbray District. Mr. Evandon Littlewood (Asfordby) and Mr. Joseph Gilson (Melton Mowbray), had been created life members. The Syston District mentioned that three members-Mr. W. Bott (Thurnby), Mr. P. Plowright (Rothley) and Mr. F. Bindley (Thurcaston), had been transferred to the honorary life members' list in recognition of long and valuable service to the Exercise.

Mr. Ernest Morris (the honorary treasurer) in his report mentioned that 1959 could be put down as a successful year, financially, as the General Fund of $£ 9316 \mathrm{~s}$. 1 d . had ended up with $£ 96$ 12s. The Bell Repair Fund slood it $£ 15014 \mathrm{~s}$. 3d and the Catering Fund $£ 114 \mathrm{~s}$.

## 186 PEALS

Mr. Shirley Burton presented the peal secretary's report, which recorded 186 peals ( 153 on tower- and 33 on handbells) during the year. Methods rung for the first time were Liversedge variation of Kent and Oxford Royal. Biddenden Surprise Royal, Braunstone Surprise Royal. Lyme Surprise Royal and Whitwick Surprise Royal. An 'Ernest', peal of Royal was rung for the first time, the Guild contributing five 'earnest' ringers. peal of Doubles was rung at Kirby Muxloe by a band whose average age was 15 years 2 months. A Sapcote ringer. John Watkins. aged 11. rang his first peal at first attempt.
The general secretary was the leading conductor with 47 peals called for the Guild. followed by John M. Jelley. 21, and John A. Acres and B. Stedman Payne with 13 each. The reports were adopted.
Officers re-elected were Mr. Peter J. Staniforth. president: Messrs. P. L. Taylor and F. K. Measures. vice-presidents: Brian $G$. Warwick. general secrelary: Ernest Morris. treasurer: and Colin Harrison and J. P. Fidler trustees. Mr. Shirley Burton asked to be relieved of the office of peal secretary, largely owing to his wife's illness and Mr. John A. Acres was elected his successor on a ballot. The other nominee was Mr. John M. Jelley. Conductors are reminded that peal fees and all compositions should be sent to 52. Luther Street. Leicester, within four weeks of a peal being rung. Messrs. W. J. Root and G. M. Brewin were elected auditors.
The election of 22 ringers. one non-resident. one honorary and one rejoined member was confirmed.
The Bishop and Provost had accepted invitations to the annual dinner at the Shakespeare Hotcl. Braunstone. Leicester, on October 29 hh . It was decided by a large majority that the dinner should not be known as the
Harold J. Poole Commemoration Dinner.' A grant of $£ 21$ to Blaby, towards the rehanging of the five bells, was confirmed.

## SERVANTS OF THE EXERCISE - No. 20

LESLIE W. G. MORRIS,

## Secre:ary, Yorkshire Association.

Mr. L. W. G. Morris has been for over 22 years secretary of the Yorkshire Association. He is the second Worcestershire man to serve in the capacity, and follows a line of distinguished men who have been secretary, such as Harry Williams, Clement Glenn and Percy Johnson. The Yorkshire Association has always possessed the knack of finding able and conscientious officers, and. having found them, soes not easily release 1 hem from office. Mr. Morris is no exception to the rule and there is no doubt that he holds the respect and admiration of all Yorkshire ringers.

He was born at Bromsgrove. Worcestershire. in 1909. and was educated at the Cathedral King's School. Worcester. He is an accountant by profession. He became interested in ringing when he was 13. and learned to ring at Upton Snodsbury. where Grandsire Doubles was the only method practised. He called his first 720 in this method when he was 14. Finding the orthodox six-scores rather monotonous. he started delving into the field
of figures, and eventually produced the double six-score, or 240, now generally accepted and rung, known as Morris's arrangement. There was some opposition at the time of its introduction. and prolonged controversy at Council meetings. round about 1930.
His work took him to the County of Broad Acres, and he joined the Yorkshire Association in 1927. He was soon ringing peals with the late George Barraclough, of Leeds, who was a founder member of the Association, and a close associate of Jasper Snowdon. Mr. Morris is proud to belong to that steadily diminishing coterie of ringers who form a link with those who founded the Yorkshire Association in 1875 . Since he was made secretary he has attended every general and committee meeting. He was elected to the Central Council in 1939, and has never missed a single meeting since his election
His interest in composition is mainly confined to peals of Surprise Royal and Maximus. and he has a peals total of over 640. of which more than 500 have been in Surprise methods. Of his peals 327 of them have been rung for the Yorkshire Association, and he has conducted 137. He has rung no less than 126 peals on twelve bells, in 47 different towers. and they include 86 peals of Surprise Maximus. Notable amongst these are Cambridge at Exeter. in 1949, the firsts of Cambridge Maximus at Wakefield (old ring) and the present ring at Leeds, Sheffield (conducted). St. Nicholas". Liverpool, Buckfast Abbey and Evesham (conducted). He also conducted the first of Yorkshire Maximus at Evesham, the first in the same method at Trowbridge, and the only peal of Southwell Surprise Maximus ever rung. This was at Halifax in 1954.
In 1959 he took part in the first peal of Londinium Surprise Maximus, and conducted the first of Cambridge Royal at Wells Cathedral. He has since rung London Surprise Royal there. In Scotland he took part in the first of Surprise Royal (Yorkshire) at Inveraray, and in the first of Royal (London) at Glasgow Cathedral. He was one of the hand which rang in William Pye's last peal at Heavitree. Mr. Morris holds the view that in the field of Spliced Surprise. the only plan that is worth while is that in which all the bells do all the work of each method. He has taken part in the whole Pitman series on this plan from four to nine methods and has conducted peals in up to seven methods.
In 1945 he rang peals on the four standard method plan in England. Wales. Scotland and Ireland. and in 1959 took part in a strictly silent and non-conducted peal, in which all but the treble ringer were members of the Central Council.

## LINCOLN DIOCESAN GUILD

## Presentation To The Rev. R. H. Nind

The Elloc deaneries branch met on Easter Monday at Pinchbeck. where the service was conducted by the Rev. R. W. H. Nind. who gave an address. The organist was Mr. North.
Tea and business meeting were at the Bull Inn. during which Mr. Nind was presented with a two tier filing cabinet. subscribed for by members. in appreciation of his services during the past four years. In making the presentation. Mr. J. G. Ames thanked Mr. Nind for all the good work he had done for the branch during his curacy at Spalding. wished him cvery success in the mission fields of Jamaica. and hoped that when he returned he would find time to visit the branch where there would always be a warm welcome.

Mr. Nind thanked all who had subscribed for such a wonderful and unexpected gift and said it would always be a reminder to him of happy times at Spalding and the many friends he had made during his curacy there.

Four new members were elected. all from the Pinchbeck tower. Mr. Ames proposed a vote of thanks to all concerned in the arrangements for the meeting.

Good use was made of the bells of the Parish Church in a variety of methods. There were many visitors.

## Tips For Beginners-20

If youl have a company capable of ringing Cambridge and Superlative bua experience difficulty in getting on to Landon and Bristol, you may find Ashtead very useful, particularly as it can be rung to very similar rules to Double Norwich.

## HALIFAX ASSOCIATION

One minute's silence was observed at the quarterly meeting of the Halifax Association, held at Elland on April 23rd. to the memory of Mr. Harry Roberts, of Kirkburton, a member and judge in contests for many years.
The president (Mr. E. Earnshaw) was in the chair and Mr. Trevor Tarbutt asked why so much Oxford Treble Bob was rung at Association meetings. The president summed up a lively discussion by stating that in some towers +Cambridge and similar methods were out of reach of many members and this precluded them from obtaining a thorough grounding.

The annual meeting will be held at Hoylandswaine on July 15 th . Mr. Frank Linfoot was thanked for the excellent arrangements for the meeting.

## ANCIENT SOCIETY OF COLLEGE YOUTHS VISIT DERBY

T
'HE country visit of the Ancient Sociely of College Youths to Derby on April 30th was made memorable by the cordiality of the welcome arranged by Mr. J. Frank Smaliwood a trustee of the Society, and Mr. B. Morris, the secretary of the Derbyshire Association.
No organisation could have received a better welcome for at the dinner, held at St. James's Hotel. the Master (Mr. J. G. A. Prior) was received by the Mayor (Celr. G. A. Collier), the Bishop (the Right Rev. G. F. Allen) and the Provost (the Very Rev. R. A. Beddoes). The London contingent. which accompanied the Master. included Mr. A. A. Hughes and the honorary secretary, Mr. John Chilcott, and they were joined by car loads from Birmingham. among whom was Mr. Albert Walker. In all about 60 members of the Society sat down to luncheon.

Wearing his chain of office, the Master said he would like to say how honoured they were to come to Derby and to be received by the Mayor, the Bishop and the Provost. Why had they come to Derby? About two years ago a well-known figure in London ringing circles came to live at Darley Dale. He wrote to the Society early in the year suggesting that shey should hold a meeting at Derby and that was the result. Frank Smallwood and Burley Morris had done all the work to make their visit most enjoyable.

## THE MOST OBJECTIONABLE BELL

The Mayor in his welcome said Mr. Smallwood had sent him their handbook giving the history of their old and very great Society. They thought of the part they had played over the centuries in the history of the country Without hells he thought they could not appreciate the traditions of the country

- I have tried to think of the first bell I heard: it was one I never liked to hear-the school bell. Now I think the bell I object to most is the telephone bell. It was very pleasant this morning, between telephone bells and people calling at the Mayor's parlour, to hear the bells of Derby ringing out their music
The Bishop said. "I know how much your work means in the life of the Church and 1 would add a very warm word of welcome to that of the Mayor's.
The Provost gave to the Society not only a personal welcome but one on behalf of the Derbyshire Association, of which he is president. It was often assumed, he said, that the clergy were not very interested in bells and ringers but they must not go away with the idea that they never did anything for them. When the Mayor asked for the bells

In the centre are the Mayor of Derby, Councillor G. A. Collier, and the Bishop of Derby, the Right Rev. Geofirey Allen. On the left are J. F. Smallwood and E. G. Fenn (trustees), the Master, J. G. M. Prior and M. F. Moreton (senior steward). On the right are the Provost of Derby, the Very Rev. R. A. Beddowes, John E. Chilcott (secretary), C. G. J. Watts (treasurer) and Burley P Morris (secretary, Derbyshire Association).

IPhoto by courtesy of
Derby Evening Telegraph.
to be rung on royal and other occasions he always replied. Of course. Mr. Mayor. you will pay for the bells to be rung.

Conducted by Mr. Albert Walker a very good touch of Stedman Cinques was rung on handbells, by: W. T. Cook 1-2, F. W. Perrens 3-4. A. Walker 5-6. J. F. Smallwood 7-8. M. V. Chilcott 9-10. J. Chilcott 11-12

## ELECTED AT 15

Later in the afternoon a meeting of the Society was held when the notification of the election of Mr. Roderick W. Pipe. prior to a peal took place. Other elections to membership were Harold Sherratt: F. N. Paling (aged 15) Nottingham: Brynley A. Richards. Mansfield: Frank Cook. Church Warsop: J. C Maxwell. London: William Sidwell. London.
The Master said he thought it would be very fitting if they entered in the minutes their proceedings that day. It was the first occasion they had beer to Derbyshire and it had been very successful. He thanked Mr. Smallwood and Mr. Morris for their work.
Mr. E. G. Fenn offered the Society's congratulations to the band who rang the peal at Norwich and the meeting joined in extending to Mr. Albert Walker hest wishes for an 84th birthday the following Tuesday
Mr. Walker said it was a real pleasure for him to be among them as he had heen a member for 63 years. Keeping good time and ringing had kept him reasonably fit.
Ringing during the day took place at St. Alkmund's, the Cathedral. St. Peter's. St. Luke's and St. Andrew's, and it was i reluctant party of happy ringers that said fircwell to Derby after a memorable day in the history of the Society.

Mr. John R. Mayne was elected Master of the Middlesex County Association at Feltham on April 29th.
During the Easter holiday Mr. Clive M. Smith. of Lichfield. rang in his 2.100th tower at Quedgeley. Glos

## SOUTHWELL DIOCESAN GUILD

The 14th annual meeting of the Southwell Diocesan Guild was held at Mansfield on April 23 rd. By permission of the various Apcumbents. Mansfield Woodhouse and Warsop and St. Peter's. Mansfield. towers were open and some good ringing was enjoyed.
A service was held in St. Peter's. Mansfield. conducted by the Rev. Hugh Pettinger. at which approximately 60 members were present. The hymns were accompanied by handbells rung by members of the Warsop band. Tea followed in the Church Hall.
In the absence of the chairman and vicechairman. the chair at the business meeting was taken by the Rev. Hugh Pettinger. A brief silence was observed in memory of Mr . C. Cook and Mr. William Stevenson.

The annual report having been in circulation for a month the various reports and accounts were adopted without comment. Grants of $£ 15$ each to Granby and Selston were made from the Bell Repair Fund during the year and the baiance now stood at $£ 88$ 12 s . 8 d .
The peal secretary's report showed that 53 peals were rung during the year. First performances were llkeston Surprise Royal and seven Surprise Minor methods. Seven members rang their first peals and the leading conductor was Mr. R. Hobbs with 23 peals.
The following new members were elected: Miss M. Rollin and R. Fanthorpe (East Retford). Miss E. McNeil, P. Halford. N. Pitkington. R. Pilkington and J. Womack (West Retford). and the Rev. John Banks (Warsop). Mrs. J. N. Keyworth. C. C. Keyworth. Miss N. Tasker. E. Tasker. D. Tasker and T. R. Cooke (Wheatley) and S. E. Denby (Mansfield). The Rev. Shorland Ball, of Mansfield, was elected a vice-president.

All the officers were re-elected and Mr. B. N. Buswell were elected Central Council represenMessrs. D. H. Rooke. J. D. Clarke and B. N. Buswell were elected Central Council representatives for the ensuing three years.

The design for a new hadge was approved and should be ready within the next six or eight weeks

Following a discussion on the Crawford Cup competition a commitiee, consisting of the vice-chairman of the Guild and the Ringing Master of each District. was appointed to run the competition. A collection for the Bell Repair Fund produced El 16s. 6d. A comprehersive vote of thanks 10 all concerned in the day"s proceedings was moved and honoured.
J. W. R.

## LETTERS TO THE EDITOR

STRAIGHT WORDS ON VARSITY RINGING
Dear Sit.-In spite of Mr. Johnston's betict ( R. W. April 15th. 1960) I have never sitid the Universities Association provided iitle more than a marriage burenu. Moreover. "all its activities are " NOT" normally .... definitely southern .... in location. $w_{1}$ the fifteen tours, five have heen north of Birmingfitteen tours, ilve have heen north of Birming-
ham and both the next iwo will be.-Yours sincerelv
D. J. ROAF

Trinity College. $\qquad$

## HIS LESSON

Dear Sir--Life gets tedious. don't it? All one receives for honest toil in an attempt to lighten a correspondence that was threatening to become as serious as a Victorian Sunday School is an accusation of 'spite.
This'll larn me! Let them. say 1. crack one another's pates end saints preserve em.Sincerely.

## Harborne. Birmingham.

W. E. BOX.

## JUDGING WITH A BEGINNER

Dear Sir.-May I thank H. Chant very much for his most informative article on the judging of competition ringing. Jusging of a practice touch with a beginner as marker might well he another way of encouraging our beginners to listen to the bells rather than jusi pull ropes.-Yours faithfully.

Willesborough.

## R. J. CARLTON

P.S.- All methods rung by the Willesborough hand for service ringing are to be found in the Central Council's Collections.-R.J. C.

## A GREAT ADVENTURER'S

Dear Sir.-May I congratulate. through your wonderful journal. the Australian ringers on their first quarter peal of Maximus at St . Paut's Catheilral. Melbourne.
I was delighted to sce the photograph of these keen young ringers on the steps of Si. Paul's. where I once stood with a band of Australian and English ringers afier a peal of Boh Royal.
As a voice from the past may I offer my hest wishes to all Australian ringers for the future. I shall watch with great interest. having such happy memories of the past.--Yours
sincerely.

## Farchim. Hants.

## QUARTER PEALS

Dear Sir.-In recent weeks there have heen several performances published under. Quarter Peals: which consist of less than 1.250 changes. For inst.ınce, 1.200 Doubles were rung at Chesssield on March 20th. 1.000 at Old Headington on April 3rd. and 1.200 Doubles. 1.188 Minor and 1.152 Major at East Grinstead. As a peal on up to seven bells should contian 5.040 changes and on 8 or more bells a minimum of 5.000 changes. surcly the minimum nurnher for a quarter peal should he 1.260 or 1.250 if on more than 7 bells.

Ate most of us ringing longer yuarter peals than necessary or should these shorter performances not be published?-Yours sincerely.

> D. A. R. MAY

## East Clandon. Surrey

NOTE.- A sympathetic eve is passed over tire quarter peals published. Many would come under the definition of performances.

WILLIAM LINTER.

Ed.

## YOUNGFST IADY TO RING Maximus

## JUDGING RINGING CONTESTS

Dear Sir-Mr. Norman Chaddock in hrs criticism of a paragraph of my article on Judging Ringing Contests attributes virtues to me which I never claimed to possess. My enumeration of the qualities required to julge a contest was in relation 10 an ideal jujge. Far he utrom me to claim thu I am ideal anything! Morcover, the system is not my system. as he slates, but one which has heen used, so far as I can ascerrain, sinee contests started: I have morely modified it a litule ia order to try and make it more accurate, chiefly in order 10 sort out with greater certainty the leading teams. May I also point out that it is no part of the judge's work in assess the truth of the lest piece: he is there 10 assess the striking. The rules of the contest alnost invariably state that the conductor ol another team must be in the helfry to see that the lest piece is rung true, and infringement leads to disqualification.
If, as Norman implies. iruth means that every bell in every row must be heard absolutely clearly and distinctly in the order in which it should appear. then if this rule was implemented there would be far more room in the 'R.W': for articles and letters. I have no doubt that Mr. Chaddock is well aware of contest rules since he was. I helieve. the chief compiler of the rules of the Shettieki and District Socicty: I have no doubt also that he has often been in the belfry as the conductor who watches to see (and hear: presumably) if the test piece is rung 'true: I don 1 . however, cuer remember him demanding ine disqualification of another team hecause of a jumble -and he must have sat through one or two!
If with my system it is possible for a team which all but fires out 10 win a contest. it is possible with his for a tcam with only two taules to lose it?

He can take his pick. but. of course. he needn't worry; neither is likely to happen.

His argument that the number of faults allocated should be one less than the number of bells involved in the chord (or discord) is far more valid. The argument, of course. is not new. and I have both discussed it and heard it discussed. One well known judge. with whom I was acquainted. stated most definitely. Two s enough at once.

Apart from the difficulty of having to decide on the number of bells involved. the main reason. I think. for the rejection of this multifault system are twofold.
(a) it is extremely unlikely to affect the winning team.
(b) It tends to punish. quite severcly. the less advanced teams.
Of Clem. Glenn I have heard Alhert Nash say (and Sid. Palmer will also repeat). "He saw the mistake coming and corrected it before It was made. No doubl Mr. Chaddock will know (as I do) several conductors of similar calibre to whom conducting a comparative simple method such as Plain Bob. Grandsire or Oxford in a six-bell contest is mere child's plyy, so that with a team of proficient ringers thine, seldom. if ever, reach the stage that Mr Craddock envisages.
On the other hand. with a notso-sure conciuctor with one or lwo rervous young "uns ringing in their first contest. anything can happen-and often does. Many times have 1 beard after a coniest the remark by membery of such a team. Well. we got through. anyHay! sometimes said with a great deal of pride.

There are of course exceptions to borh these examples but. as I said before. no sysiem is infallible.
I am all for the underdog and so, in spite of Norman's logic. I shall still continue to give 'two for these chords. Even with this il is still possible to nave four faulis in one change.-Yours sincercly.
Ryhill. Wakefield

## LETTERS-Continued

## A TEACHING AID

Dear Sir,-I have produced a script of over 30.000 words entitled 'Learning and Teaching How to Handle the Rope and Ring and Control a Church Bell.' This script contains clear instructions on a proved and successful system of learning and teaching bcll control, including raising and lowering the bell. In it will be found much useful advice on the methods of training a group of pupils, also some suggested exercises leading to better bell control. and a chapter on the use of handbells in initial instruction.

This script. which deals with the subject in detail. will be invaluable to anyone who wishes to improve their style, as well as to pupils and tutors.

Various sections of the script are numbered to relate them to a $35 \mathrm{~m} . \mathrm{m}$. film strip on the same topic and specially prepared to illu:trate the script. The film strip has 63 pictures and a list of these with short descriptions or captions is also available. A black and white print of the film strip is available too. The film strip is suitable for cutting up to make two inch slides which can be shown on most projectors or any of the simple devices used for viewing colour photos.
An advertisement about the above appears at the back of this issue.-Yours etc

## Rotherham.

## NORMAN CHADDOCK.

## ERIN

Dear Sir.-Mr. Lock in his interestıng articles. 'Alphabet for Beginners,' is not quite accurate when he credits Lindoff with composing Erin as a method. It is very much older What Lindoft did. I think. was to give it its name when he published a peal of Caters soon ifter the went to Dublin in either. The Bell News or "The Ringing World.
Seventy years ago this method was very popular in our tower as 'Stedman, all slow sixes' and as such five years later I took part in many touches of it. I think it was used as a stepping stone towards getting us on to stedman proper.
About filty years ago Law James took up nearly the whole of a Central Council meeting trying to persuade the Exercise that Stedman was composed as Erin and the quick six was the bob. He was finally silenced when an old ringer from Ashton-under-Lyne proposed 'that we continued to ring Stedman as our grandfathers tid. - Yours etc.
B.

## LEEDS \& DISTRICT SOCIETY

Methods in Major and Royal were rung at the annual meeting of the Society, held at Leeds Parish Church on April 23rd. Mr. D. Thorp. the honorary secretary. reported that membership had increased and that the finances were healthy. New members ciected were the Misses Judith Green and Averil Woolston. Messrs. R. Brier. S. Rhodes, Ian Vicary, Tolly Stamp and S. Carson. The clergy and local company were thanked by Mr. K. Lumley and Mr. Arnold Cole replied.

## YORKSHIRE ASSOCIATION

About 35 members attended the spring meeting of the Eastern District at Howden Minster on April 23rd. Mr. L. M. Woodhead presided at the business meeting in the absence of the vice-president, Mr. A. E. Sellers. Elected as members were Miss Mary Carpenter (Hessle). Miss C. N. Harrison. Messrs. J. I. Bath and G. W. Pybus (Coltingham). Bridlington was chosen for the anntial meeting on June 1lth.

## CAMBRIDGE UNIVERSITY <br> GUILD

Officers of the Cambridge University Guild of Change Ringers for the year 1960-61 are: President. the Rev. A. C. Blythe (Selwyn): honorary treasurer. Mr. S. J. Ridgman
(Oueens'): Master. Mr. J. R. Taylor (St. (Queens'): Master, Mr. J. R. Taylor (St.
Cath's): honorary secretary, Miss F. A. Secker (Girton); Jibrarian, Mr. H. E. Bishop (Selwyn).

REV. DOUGLAS BALLARD
The beautiful old church at Stoke-underHam was almost full for the memorial service 10 its former vicar. held immediately after his ashes had been interred in the churchyard on April 27th. During Mr. Ballard's long incumbency. of 27 years. great improvement; had been made to the old Parish Church, and not least among them was the restoration of the bells in 1949 . Four of the existing five rells were retuned. one recast. and a new treble added in memory of the Rev. E.S. Jowell, and all hung in a new metal frame by Taylors. Since then the parish has been justly proud of its lovely ring of six. with a tenor of 17 cwt., and its well-kept belfry.

Completely uninterested in either bells or ringers up to that lime. Mr. Ballard found himself caught up in the local enthusiasm for the work of restoration, and finally asked to he taught to ring. For a man of 69 this was no easy matter, and few people can have worked harder than he did to make himself a useful meniber of the tower. After his retirement in 1954 he had more time to give to ringing, and until his last illness he was frequently to be found at neighbouring practices, always eager to learn just a little more.

Mr. Buallard found and gave much happiness in his comparatively shori career as a ringer. The friendship of his fellow ringers meant a great deal to him, and he himself was a uelcome visitor to any tower. It was litting that the bells of Stoke Church should be rung half-muffled before and after the funeral, ir memory of one whose joy it was to offer his humble service as a ringer to God.

## MR. F. W. CANNINGS

The Bath and Wells Association has lost one of its oldest members by the death of Mr. Francis Wilitam Cannings. of Bathford. Bath, at the uge of 95 .

Frank joined the Bath and Wells on June 6th, 1903, and in 1926 he joined the College Youths. He was towermaster at Bathford for nearly, 50 years and was verger from 1913-55. Frank's interest in ringing never faltered and although in the last few years he could not climb the belfry steps he always listened when the bells were rung. By trade he was a carpenter and joiner: an example of his skill are the altar rails in Bathford Church.

Frank was laid to rest on Easter Saturday in the churchyard and under the tower of the church he loved so much. The service was conducted by the Vicar (the Rev. K. B. Kenley). Ringers present included his old friends Horace Taylor, Jim and Maurice Smart and local ringers. A coursc of Grandsire Triples was rung on handbells by Me:isis. S. A. Read 1-2, W. J. Prescott 3-4, K, O. Fry S. A. Read 1-2, W. J. J. Hawkins $7-8$.

## MRS. FLORENCE FIELD

On April 22nd the parish church of Long Sutton (Somerset), was still beautifully decorated for the Easter Festival when a large congregation assembled to pay their last respects to Mrs. Florence Field.

The service, which was fully choral. was conducted by the Vicar. the Rev. H. S. Hale. Two of Mrs. Field's favourite hymns. On the Resurrection Morning and 'For all thy Saints, were sung. To the lovely strains of IIl walk beside you. the cortege left the church for the churchyard where the Ven. j. C. Chute (Archdeacon of Sherborne) conducted the committal.
It was at Piddlehinton. The Archdeacon's former parish. where Mr. and Mrs. Field first attended a service after their marriage. As reported elsewhere, an 'open' quarter peal Wus rung there later in the day. In accordance with her known wish, there were no wreaths but kind friends were asked instead to send a donation to the People's Dispensary for Sick Animals.

## MR. F. M. MITCHELL

With deep regret we report the death of Mr. Frederick M. Mitchell at Milton, Gravesend, on May 5th. He was 82 . His service to the Kent County Association was conspicuous and among the offices he had held were secretary. Rochester District, general secretary and treasurer. treasurer and vicepresident. The funeral was at Milton on Wednesdiay.

## MR. JOSEPH D. HARRIS

St. Marys. Portsea, has lost its oldest ringer by the death of Mr. J. D. Harris, who died on May 5th. a fortnight before his 88th birthday. About four years ago he met with an accident and this prevented him from doing any active ringing but before this he was a most regular and enthusastic member of the band.

He was very proud of the fact that during his 68 years as a ringer he had rung for the induction of six vicars of Portsea. including the late Archbishop of York and others who was subsequently elected Bishops. In the beliry of Portsmouth Cathedral is a framed copy of Holt's Original. written in full by him. which he was always proud to show to anybody visiting the belfry. He was a member of the Ancient Socicty of College Youths and manv Diocesan and County Associations. including his own Winchester and Portsmouth Criocesinn Guild.
F. W. R.

## MRS. ADA TAYLOR

Ringing friends in the Rochester District and Ladies Guild (Kent Branch) will be sorry to hear of the passing of Mrs. Ada Taylor. beloved wife of Thomas E. G. Taylor, on April 30.h.

Ada, as she was known to her ringing friends, came from a ringing family in Northern Ireland and learnt to handle a lell at Banger. where her brother $1 . s$ leader. For somic years. prior to her marriage in 1946. she was a Sunday service ringer at St. Thomas. Bclfast.

Her first peal (Grandsire Triples) was rung at Northfleet. Kent. in 1946 and a year later she rang her second peal. Grandsire Triples. at Lurgan. Northern Ireland. On Easter Monday she was present at Bromley. and Hie following Saturday attended the Rochester District meeting at Tunstall. On the Sunday prior to her death she rang for Evensong at Milton-next-Gravesend. where she rang regularly on the 2nd and 4 h Sundays in the month and at St. Cicorge's Chapel of Unity when a service was held there. She was a nimember of the Kent County Association. the ladics Guld, the Society of Royal Cumberlind Youths and the Irish Association. She look a keep interest in missionary work. and st. James Hospital where her cheerful and friendly manner will be sadly missed.

The funeral service took place at St. James (nitich. Uraveserd. on May 4th. conducted by Canon Selwyn Gummer. R.D. Cremation was at Eltham arid the ashes are to b: interred in the family grave at Bangor Abbey: Wicatls were sent from the ringers of Swanscombe. Northfleet, Gravesend and Milton.

Wood (first quarter) 6. To welcome Canon F. M. Cray (Rector of Ayiestone) who preached at Evensong, Also on Eastcr Day, 1,320 Plain Bob Doubles:
M. G. Wood (first away from tenor) 1 D. J. M. G. Wood (first away from tenor) 1, D. J. (cond.) 4, B, M. Smith 5, P. Norman 6. For Evensong.

## ALPHABET FOR BEG <br> By T. J. LOCK <br> ' G "

GARTER HOLE.-There is one hole in the wooden wheel attached to the headstock to which the bell is fixed. This garter hole is made in the rim of the wheel to allow the rope to pass through and it is at this point where the rope is usually subjected 10 most wear. As the bell is rung the wheel turns in a complete circle. first in one and then in the opposite direction, forward and reverse continuously. Conscquently the garter hole goes with the wheel and the rope is bent one way on one side of the hole and then bent the other way on the other side. this being in addition. of course, to the strain on rope the ringer imposes in pulling the bell first at handstroke and then at backstroke. So it is important that the garter hole is properly formed and that the two sides in contact with the rope the hole has two straight sides and two curved sides) are rounded with the largest possible curves and finished with polished smontliness. Sometimes you will find wooden blocks fixed next to the garter hole to give greater bearing surface to the rope.

GLOSSARY of Technical Terms for the use of learners.' published in 1901 and now out of print. It was written by the Rev. H. Earle Bulwer, assisted by such eminent members of a committce as $\operatorname{Sir}$ A. P. Heywood. William Snowdon. Rev. C. D. P. Davies. H. Dains and N. J. Pitstow. The hook contains some 600 terms (some cross referenced and some described as obsolete) set out in Divisions-I. The Belfry and its contents : II. Preliminary Definitions: III. The Science of Change Ringing: IV. The Practice of Change Ringing. These Divisions are followed by an Appendix giving several systems and methods then practised.

GOLDSMITH.-This alphabet would not he complete without mention of John S. Goldsmith. who died in 1942 and who was the uriginal founder proprictor and editor of - The Ringing World. His pioneer work in the cause of campanology was immense hut cannot be assessed. for what do you consider is the value of this paper to you and to the Exercise? He was also a ringer of no mean ability and without the slightest doubt devoted a great deal of his lifetime towards the furtherance of our art. A sanctus bell in the new Guildford Cathedral is the memorial to this great man.
GLIDE-Guides arc very nice, aren't they? Think of the good work done by mountaineering guides. girl guides, guide dogs and even guides for our bell ropes. When ringing chambers have a very high ceiling. the length of rope left free is too long for the sally to fall straight down to enable the ringer to catch it properly and so maintain full control of his bell. Morcover. there could be the danger of two or more ropes becoming entangled in each other. So for the better. this with a limited application in some cases, guides are fited approximately half way between floor and ceiling. but always above the highest point reached by the sally. Unfortunately guides (for bell ropes) have their disadvantages. such as when they are set to cause the length of rope above them to rise and fall out of the perpendicular. this idea being to make a better circle at floor level where the ringers stand. and also such as when they are fixed to a not too robust iron frame the resultant noise making it difficult for the ringers to hear the bells striking.
The guides are made of iron or limber. though sometimes of hardwood set in an iron ring or collar, but when you get a number of ropes each in turn passing through their guides. the background of noise far 100 often prevents the ringers from hearing the bells at all clearly. Surely an improvement could be made if the hole in the guide could be made two or threc times larger and if a more resilent material, such as leather, rubber. cord or matting were uscd either instead of, or to line. the guide.

GLOUCESTER \& BRISTOL ASSOCIATION

Presentation To Mr. F. Skidmore MEMBERS from all parts of the territory of the Association-there were 175 present al tea-attended the annual meeting of the Gloucester and Bristol Diocesan Association held at Swindon on April 23rd. The occasion was marked by a presentation to Mr . Frank Skidmore, who was re-elecled Master, of an armchair.
In making the presentation. Mr. W. H. Trueman said Mr. Skidmore had held every office in his own branch and all except that of treasurer in the Association. Mrs. Skidmore was given a handbag for her very great help to the Association.

The Master in his report said the affairs of the Association were in a very satisfactory state. the cotal membership being 1.212. of which 1.131 were riuging members. The treasurer reported an increase in finances.
Peal activities warranted special mention. as about 73 peals were rung on tower bells and two on handbells, an increase of about 50 per cent. of which total 41 were Doubles and Minor. Pride of place must go to the Swindon Wizards who rang the first peal of Swindon Surprise Royal and what is believed to be the first peal of London Minor. A handbell peal was rung for the Association in Aistralia.
There had been 15 losses hy death. viz: H. R. Acock (former captain. Fairford). O. G. Altwood (Ringing Master. Bredon's Norton, for half a century). Albert Ball (Coaley). Arthur W. Baldwin (Cirencester), D. Gardiner (Mangotsfield), Amos Hall (tower captain. Winchcombe). Alfred Pearce (oldest member. Bristol City Branch), Henry John Price (Bibury), Heatrice Emily Richards (Portishead). Horace V. Robinson (tower captain, Wickwar). Thomas Townsend (Swindon). H. J. Vallender (Hartpury), E. J. Webber (60 years servioc ringer at Purton). Dr. Clifford Salisbury Woodward (joint president of the Association for 20 vears). Canon Sydney Robert Wortes (Bristol Rural).

Mr. Philip M. J. Gray had agreed to organise a course of ringing instruction for the North Forest Branch

Mr. S. G. Riches, the honorary treasurer. in his report stated that the balance sheet showed an increase of the lotal funds of the Association to $\pm 500$ from $£ 416$ in 1958. This comnared with a total value of funds in 1952 of $£ 265$ points to a steady consolidation of the
finances of the Association during the past seven years.
All the officers were re-elected as were the vice-presidents with the addition of the Rev. W. A. Peel, of Tortworth. Central Council representatives are Messrs. R. Hooper. A. L. Barry. C. Wratten and W. B. Kynaston.
A number of alterations to rules were passed. The subscription is to be increased to 3s. 6d. next year (under 18 ls. 6d.) and new non-resident life members will have to pay 10s. $6 d$. (the committee are to consider giving them a certificate of membership).
The service was held at Christ Church, conducted by the Rev. R. Bryant, who gave an address relating the way of life to bell ringing. God was the composer and conductor, and ringers lives the peal, he said.

Tea was served in the Church Hall. and the next annual meeting will be held at Moreton-in-the-Marsh.

## THE LADIES' GUILD

## Lincolnshire Branch

Prior 10 the service at the annual meeting of the Lincolnshire Branch at Gainsborough or. April 23rd. an all ladies band rang a touch of Grandsire Triples as a silver wedding compliment to the Vicar and Mrs. F. P. Shepherd.

Mrs. Bray presided at tha business meeting and it was agreed to send a message of love and sympathy to Mrs. McGuiness on the illness of her husband. The officers were reelected. Mectings arranged were Gosberton, Junc 18th. Scunthorpe, July 23rd, and Butterwick, September 241 h .

## A CANADIAN VISITOR

A visitor to All Saints belfry. Belton. Isle of Axholme. on April 22nd, was Mr. Harry Bell of 4712. Victory Street. South Burnaby; Vancouver. B.C. Before coming to England. for six months holiday. the last time he rang was at Christ Church Cathedral. Victotia, 13 years ago when he covered with the tenor to Grandsire Triples. His previous last ring in England was in 1904. at his birthplace, Lower Pcover. Cheshire. Where he rang the tenor on Easter Sunday and at Belton he joined in some rounds. The genial personality of this old gentleman delighted the Belton ringers.

A HAPPY PICTURE at the wedding of Dr. David Heighton and Miss Bridget Mutimer, which took place at Saxlingham Nethergate, Norfolk. on Easter Monday. In the group are the Rector (the Rev. C. T. Hearn) and the Rev. Gilbert Thurlow (vice-president of the Central Council), who officiated. Dr. Michael Sorackling (hest man), Dr. Tudor Edwards and Mr. Patrick J. Bird (ushers), who discardeJ their frock coats after the ceremony to ring a congrat!latory peal, are also in the group.

## OUTINGS

## BROMHAM, BEDS.

Bromham ringers, and friends had an enjoyable outing on April 23 rd . despitc the coach driver's theories of map reading which resulted in arriving at Chalfont St. Peter half an hour late. At Waltham St. Lawrence. a trade-mark was left by the coach on a gateway when turning. Ringing on the nine at All Saints". Basingstoke. after lunch somehow - didn't go. On the secast Farnham bells, the part rang for a wedding: but the best ringing of the day was at Dorking. After ringing at Redhill the party had their money's worth on the homeward journey when they managed to cross the Thames about four times. Thank you. Kathleen. for your good arrangements.
K. C. F.

## EMMANUEL, PLYMOUTH.

Several lovely old churches in North Devon were visited by the ringers of Emmanuel. Plymouth. during a half day's tour on April 30th. At Halwill there was not only ringing but cups of tea and cream buns ekindly supplied by a former Plymouth resident). An hour was spent on the beautiful eight at Holsworthy and at Clawton the Rev. John Scolt joined in touches of Grandsire. Stedman and Bob Minor. The last tower was Ashwater. Kinging was under the direction of Mr. J. P. Sims. and the arrangements were made by Mr. H. H. Thomas. A welcome visitor was Mr. Coles. of Hatield.

## STRATTUN, CORNWALL

Three car loads of Stratton ringers made all early start on Easter Monday to ring in three counties. The party was augmented at Ottery St. Mary. where well struck touches of Grandsire and Stedman were brought round. Some very nice ringing was enjoyed at Chard and also on the lovely cight at Crewkernc. At West Coker a death in the village prevented ringing

An adjournment was made to try some of Rene's Cornish pastics before ringing on the grand ten at leovil where a visitor comnented. Stratton boys certainly put their backs into it to make ringing enjoyable. Into Dorset and Sherburne Aobbey where Grandsire. Stedman and Plain Bob was the order of the day and the ringing was very good. The lozals eipresseci a wish to hear something at by calling some Cornish Bob.

On the homeward journey, a stop was made at Honiton where the Devon Guild meeting was being held and a nice touch of Stedman Triples was called by Tom.

## GUILD of DEVONSHIRE RINGERS

The meeting of the S.W. Branch at Ugborough. last visited in 1934. on April 23rd. proved is great attraction and was attended by over 50 ringers. Ringing was under the direction of Mr. T. G Myers and included Grandsire. Stedman. Plain Boh and Kent. These bells. strangely keyed. have a tenor of 24 cwi . and two dating back to 176?

At the mecting memiers stood in symputhy for the passing of Mr. G. H. Myers. Mr. E. W. Biffin and Mrs. Paul Ficld. Mr. L. Cundy and Miss M. Shepherd were admitted members and Guild certificates were presented by the chair$\operatorname{man}$ (Mr. H. H. Thomas) to Mr. Gordon Gilley (Plympton St. Maurice) and Mr. A. J. Sandy (Launceston).

'The Ringing World ' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

## COVENTRY'S ANNUAL WAS ALSO A PILGRIMAGE

TTHE Coventry Diocesan Guild held its 53rd annual general meeting on Saturday, April 23 rd, in the centre of the City of Coventry, literally strrounded by bells, none of which could be rung. The tower of the destroyed Cathedral, which still stands intact, has a ring of 12 bells, with a tenor of 32 cwt . plus two semitone bells, making a total of 14. These bells are cast for ringing but at present are hung 'dead ' in the base of the spire, and apart from providing the quarters and hour bells for the clock-which incidentally has no external faces at all-are used as a chime, and play hymn tunes at intervals during the day.

On the opposite side of the street there is a wooden campanile, belonging to Holy Trinity Church, housing a ring of eight bells with a tenor of 24 cwt . These bells are in the original frame, complete with wheels and fittings to make them a ringable peal, just as they were taken out of the tower when it was declared to be unsafe. It is said that when these bells were tirst put in the campanile they were rung up in peal, but the structure started to rock so violently that the ringers let go and ran for their lives. As the tower still stands it obviously did not fall down. The present vicar has stated as recently as last month in the parish magazine that he hopes to do something about the bells as soon as the organ has been repaired.

Only a few yards away on the side of the bridge crossing Hertford Street there is the Lady Godiva clock, which has a single bell hanging on the outside wall to strike the hours. This bell was in the Market Hall Tower which was destroyed in the Blitz, but the tell was not damaged. Visible from Broadgate and about 200 yards to the west is St. John's Church with a ring of five bells in its tower. This tower has been unsafe for many years, and only complete rebuilding would make it possible to ring the bells. Coventry has two churches each with a ring of eight, both of which are about one-and-a-half miles from the City centre. These are All Saints', Aliesley, and St. Michael's, Stoke, both of which were available during the day for ringing.

So much for the belts. The business meeting was preceded by members attending Evensong in the Chapel of the Cross. This is a part of the basement of the new Cathedral and has been furnished so that services can be held: and but for the fact that the area is long and narrow, the authorities have produced a chapel with seating for about 700 people. The Provost, the Very Rev. H. N. C. Williams, in his address to the ringers said he wanted them to realise that they were a very important part of the churches they represented, and hoped they would do all they could to keep their office alive by bringing in new recruits to their art. He hoped they would make this an annual pilgrimage to their Mother Church.

Immediately after the service the Provost, at a very simple ceremony, was presented with a cheque for $£ 135$ as a gift from the ringers of the diocese. The president (Mr. F. W. Perrens) in making this presentation to the Bishop's Appeal Fund assured the Provost that the ringers of the diocese would be very ready to make a further contribution towards the Cathedral bells when necessary. In reply, the Provost thanked the president and the general secretary, who had organised the fund, for the very handsome donation to the Appeal, and said he did this on behalf of the Bishop, who was unfortunately out of the diocese and unable to attend.

The A.G.M. was held in the Cathedral Huts after tea. In opening the meeting the president thanked Mr. Hunt, of Stratford-on-Avon. for his very generous gift which had made the Appeal possible. He also thanked everyone who had helped to raise a sum of $£ 135$ cowards the Bishop's Appeal, and said that the sum raised was a credit to the Guild.

All the officers were re-clected, with Mr. H. Windsor as Ringing Master, for the ensuing year. The secretary reported progress in the Guild as far as recruits and ringing were concerned. Many towers that had been silent for many years were now very much alive, thanks to the Branch secretaries and their helpers who had made this revival possible. The election of nearly 100 new members from both Districts was confirmed, as was also ten new non-resident members. This surely speaks for itself, and augurs well for the future of the Guild. This Guild is not a peal-crazy one. and only 16 peals had been rung in the year past: the outstanding peal was the six-spliced by the Allesley band after many attempts, and they are justly proud of their achievement.

A committee was set up to look into the Guild rules, as these were now out of date and wanted revising. Many suggestions were put forward for this committee to work on. It was hoped that they would have their report ready for one of the early quarterly meetings so that it could be dealt with at the next annual meeting.

The treasurer reported that the finances of the Guild were sound and looked like remaining so. It was decided to liold the next quarterly meeting at Monks Kirby, if available. Before closing the mecting the chairman thanked the ladies for providing such a splendid tea.
J. L. G. H.

In an endeavour to maintain their bells and ropes BELFRY without asking the church authorities, Whiston, near Rotherham, bell ringers at their annual meeting decided to make a charge of 2 s . 6d. per rope for all peal attempts.
The Shropshire Association have this year rung more peals than in any complete year since 1954. It seems as if some of the Leicester Guild enthusiasm has reached this county.
Congratulations to Mr. John Fryer (15) on calling his first peal at Parramatta. He is the youngest person to conduct a peal in Australia. The peal was a birthday compliment to Mr. George Pipe, who was ringing in it and was on a business trip to Sydney.
'A splendid, well-struck peal was Mr. Albert Walker's opmion of the peal of Stedman Cinques he conducted at Birmingham Cathedral for his 84th birthday. The band wish to associate the name of Mr. George E. Fearn with the peal, as he arranged the tower and the bells.
Burghill, Herefordshire. ringers at their annual meeting, on May 3rd. decided on an outing in Breconshire and Monmouthshire, towards the end of June. Four new ropes are 10 be provided and an emergency light installed in the ringing chamber. Officers for next year are Mr. W. A. Stokes. captain: Mr. Ivor Probert, vice-chairman, and Mr. F. Morris. honorary secretary.
Although unable to ring since his illness last September. Mr. E. A. Stafford was present at the annual general meeting of Si. Maw's Cathedral Society. Glasgow. when he was re-elected honorary secretary and treasurer. Mr. Stafford's absence from the belfry has been a severe blow coming, as it has, soon after the band was depleted by the loss of other ringers leaving Glasgow. Four recruits are making good progress and joined in the ringing on the day of the birth of Prince Andrew and on the evening of the wedding of Princess Margaret.

GOSSIIP Mr. A. R. Peake, of Swindon, write: Mr. George E. Feirn's footnote to his peal of Spliced Major (see page 309) is not quite correct as at Cricklade. Wilts. on May 2nd, 1959, a peal of Spliced Doubles in 53 methods was rung containing 503 changes of method.

Visiting a particularly heavy five in the Vale of Evesham a touring party found several bottles of plum wine in the belfry.
A letter from Cape Town this week states that the state of emergency is over and practice has been resumed at St. Mary's, Woodstock.
With reference to last week's front page article. Mr. Patrick J. Bird asks us to state that it was the tower of Bristol Cathedral that was, for at least the last century, badly cracked and not the tenor, as was inadvertently printed.

While the restored Church of St. Nicholas, Great Yarmouth. will not be open for worship until next year, the new bells are rung each Sunday from 5.30 to 6.30 p.m. to remind Christians of the time of evening services at other churches and chapels. Visiting ringers are cordially invited to take part in this Sunday ringing and also at the weekly practice on Thursdays at 7.30 p.m.
For the special service terminating Rotherham High School's Jubilee at Rotherham Parish Church. the ringing was done by girls and old girls with a little assistance on the two tenors from the local Ringing Master and son. The girls themselves rang Bob Minor. Grandsire Doubles and Little Bob Minor on the front six and the ringing concluded with call changes on the back eight.

Bro. W. Frank Stenson, P.P.G.M.. who for many years has organised bell ringing at the A.M.C. of the Independent Order of Odd Fellows, will. unfortunately, not be present at this year's gathering at Brighton, but he has made the arrangements. For the Sunday afternoon service ringing members should be at St. Peter's Church at 2.30 p.m. The secretary of St. Peter's band is Mr. A. W. Bond, 130, Poplar Avenue, Hove.

## THE WHITECHAPEL BELL FOUNDRY

## THE ROYAL WEDDING

THE wedding of H.R.H. Princess Margaret and Mr. Antony Armstrong-Jones on Mav Gth makes the year 1960 memorable in ringing history. Two big Royal occasions during the year gave the country at large an opportunity of knowing that the art of change ringing is not dead. A glance at our peal and quarter peal columns will reveal the large number of new ringers as indicated by first performances.
Naturally Westminster Abbey was the focal point and Mr. Harold N. Pitstow's band started a peal of Stedman Triples immediately the bride and bridegroom left. This peal was successfully brought round in 3 hours and 7 minutes. In the broadcast at the time the hells of Westminster were well heard. However, in relevision shots in the evening of the Abbey, the bells of St. Clement Danes' were used as a background. Mr. Pitstow's letter on the subject appeats on our correspondence page.
Apart from the Abbey only two other peals have heen recorded in London. The Society of Royal Cumberland Youths sang a peal of Cinques at St. Martin-in-the-Fields and there was a peal at Putney for the Surrey Associa tion.
At the • Britannia • passed St. Mary's. Wool wich, the bells were being rung under the direction of Miss M. R. Andrews.
The peal at South Wigston came round at 4.50 p.m. Probably this was the the second peal to be completed as the peal at Westmin. ster Abbey was undoubtedly the first.
A new method for the occasion was Windsor Detight Major, rung at Wigston Magna. The composition used was that rung to Clacton Surprise Major at Willesden on June 26th 1958.

At Lincoln Cathedral. Lyddington Surprise Maximus was rung for the great occasion This method is given as Oakham Surprise Maximus in Corrigan's Collection. As the extension from Royal does not agree with the new Council ruling another Rutland County name is given in Lyddington

Associated with the wedding will be the first peal on the bells of St. Mary's. Chepstow, since rehanging and augmenting to ten. The peal of Grandsire Triples was rung by seven regular Sunday service ringers and Mr. R. E Coles who stood in for Mr. John Sims. who is recovering from an operation. Steady progress is being made in ten bell ringing here. Chepstow ringers provide ten members of the choir and two Parochial Church Councillors.

## YOUNG PEOPLE

Fourteen year old Michael E. Turner called his first peal at Haselbury Plucknett, Somerset for the wedding. It was Grandsire Doubles with five callings.
Fifteen year old David J. Marshall conducted his first peal of Major for the Royal wedding at Daventry.
One of the youngest to ring a peal for this happy occasion was Antony Fasey at Kingswinford. Staffs. He is 12 years old and this was his first ' inside.

Mr. C. Kenneth Lewis. on May 6th. enabled four ringers to ring their first peal at Bowdon. The other experienced ringer with him was Mr. David Vincent.

Young people at lunch-time on May 6th rang the hells at Glaston. Rutland. for the wedding. They were Jennifer Barrett (13) Christine Russell (14). Philip Heath (15). Rodney. Todd (15). Robert Woodward (15) and Richard Busby (15). This must the youngest team to ring for the wedding

## AT CHICAGO

A chime concert and 'swinging peal' was rung from the Mitchell tower of Chicago University. on May 6th at 12.15 p.m. in honour of Princess Margaret's wedding

The Sunday service band at Middle Littleton, Worcs. have made local history by ringing their first peal as a band.

Packworth ringers scored three peals in a day (Saturday) for the Royal wedding. Two 17 year old ringers-Roger Tallis and Maurice Hughes-stood the test well

## SERVANTS OF THE EXERCISE - No. 21

## MISS HILDA G. SNOWDEN,

## Vice-president, Essex Association.

Miss Hilda Snowden is the type of lady who. having determined on any course of action. tackles the joh with enthusiasm and attains her goal. Whether it is in the field of ringing. motoring, golf or music. she is right at the top. She is highly respected and admired in her native county of Essex. and her achievements are outstanding. She possesses a natural charm and speaks with a broad Essex dialect. which might incline people who did not know her to underestimate her ability. Her friendly disposition has endeared her to the Exercise. for she is well known all over the country
She was born at Halstead in 1916, and learned to ring there in 1931. Her early experiences were not happy, however. as ladies

The band who rang the peal at Hinton-on-the-Green. Worcestershire. for the Royal wedding would like to associate with it the name of Mr. W. J. Newman, who kindly stood down at the last minute to enable a local ringer who had just recovered from a minor illness to participate.

## CONDUCTOR'S GRAVEYARD

The Royal wedding peals include one at Condover. Salop, which was the first on the bells since 1952. despite the many attempts. Locally the tower is known as the "conductor's giaveyard.
At the conclusion of the peal at St. Martin's. Salop. on the Saturday. the band were very pleased to be met by the Vicar at the foot of the belfry stairs. especially as he had thoughtfully brought liquid refreshments with him.
It was not intended to ring Kent Treble Boh Minor in the bell tower at Evesham. hut Kent T.B. Major. This was necessitated by the company meeting short. However, the circumstances did enable Messrs. Geofirey and Gerald Hemming to complese the cycle of Kent from Minor to Maximus.

## SPLICED SURPRISE RECORD

Re-issue of the record, made by the Bushey band, of 4 spliced in hand is now available.
Price 18/6 (including post and packing) From E. A. BARNETT,
26. Iron Mill Lane, Crayford, Kent.
Cheques and Postal Orders made payable to 'Centra: Council of ('hurch Bell Ringers,' please.
in the belfry were not received with enthusiasm. But Hilda had decided to become a ringer and with her brother she cycled to all the neighbouring towers for practice. and obtained a lot of experience that was to prove very useful later. She rang her first peal in 1932. and has, to date. rung 248 peals two of them being silent, and 26 which she has conducted. She is of sturdy build, and has always been eager to ring at the heavy end.
Amongst many of her notable achievements are: ringing the 10th at Exeter ( 33 cwt .) to a peal of Grandsire Caters: ringing in the only peal ever rung on the back eight at the same Cathedral, and ringing the tenors to peals at Dunmow, $21 \frac{1}{2} \mathrm{cwt}$.. Stowmarket. $24 \mathrm{cwt} .$. Woodbridge $25 \frac{1}{2} \mathrm{cwt}$. Debenham, $21 \frac{1}{2} \mathrm{cwt}$. and Waterford. Ireland. 20 cwt. The last-named peal was the first time a lady had rung a tenor in Ireland. She is Double Norwich twice and London once. She rang the tenor to the first and only peal of London rung by the Ladies' Guild. conducted by Edith Fletcher. All her performances on the tenor have been with the tenor 'turned in. She has yet to ring a peal on the tenor 'covering.' Such was her determination to ring a peal of Cambridge Maximus that she travelled the 32 miles several times for practice at Ipswich. and, of course, achieved her object.
She was mainly responsible for the recasting and rehanging of Halstead's bells, in 1957. and she piloted an Appeal Committee through two years' very hard work. It was a terrific struggle to raise th:: necessary funds. but she won through and Halstead now possesses a musical ring of bells, well worthy of the church where they hang. Miss Snowden has taken an active part in the work of the Fssex Association. and was the first lady to hold office of any kind in Essex. She was secretary of the Northern District for 20 years. and Master for 11 years. This loyal service was recognised in 1959 by making her a life vice-president. She has represented the Essex Association on the Central Council since 1945. She loves good ringing, and she has a great regard for those Essex stalwarts. Lewis Wiffin (only survivor of the hand which rang the first ever of Cambridge Maximus) and Frank Claydon, both still going strong at 78 years of age.

## SOCIETY OF SHERWOOD YOUTHS

A warm welcome was extended by Mr. D. Carlisle when the Society of Sherwood Youths held their first meeting at Sandiacre on April 30 h . Mrs. Carlisle provided a very appetising tea for the members and visitors. In the evening Stapleford was visited and methods rung during the dax included London. St. Clement's. Cambridge and Double Court.

## Hints For Beginners-21

In Siedman, the basis of the method is that the three bells as the fromt ring alternately quick and slow sixes. Thus if you are delayed by bobs for an odd mumber of sixes, you must go in the same way that yon came out last time.

## KENT COUNTY ASSOCIATION

## Lewisham District

The Lewisham District had a beautiful afternoon for their quarterly meeting-a joint one with the Kent Branch of the Ladies Guildat Chelsfield on April 30th
Between 40 and 50 members and friends enjoyed a very pleasant service conducted by the Rector (the Rev. L. R. King). who joined the company for an excellent tea which had been prepared and was served by memhers of his congregation. After tea and a short husiness meeting the gentlemen returned to the towe leaving the Ladies' Guild to have their meeting.

Ringing was under the leadership of Mr . I. H. Oram, District Ringing Master.

## GRaNTLEY HALL BELLRINGING COURSE

TWHE first course ever to be held in the North of England took place at Grantley Hall. near Ripon, during the week-end following Easter. After dinner on Friday evening the warden. Mr. C. L. Rigg. told the assembled students that the courses in session. Irish dancing and the art of bellringing, were entirely new ventures at Grantley and while as yet he was unable to discern any affinity between the two subjects he hoped something would emerge before the dispersal of the courses.
All the bellringing students then attended a lecture by Mr. Frederick Sharpe. who dealt in a masterly manner with the history of bells and ringing. illustrated by lantern slides: the students were greatly impressed by this talk as Mr. Sharpe was able to relate his personal experiences and draw on his vast knowledge of the various techniques in founding and tuning.
On Saturday morning the students divided into elementary and advanced groups ; this was accomplished uith some difficulty as the lectures were attractive to all. so whilst Mr. W. E. Moreton dealt with How 10 learn and teach Change Ringing ${ }^{\prime}$ Mr. N. Chaddock lectured on the first stage in conducting. Further lectures followed with Mr. Moreton developing conducting into more advanced stages, whilst Mr. Chaddock with the aid of a model hell in a frame and a film strip showed - How Bells are Hung and Rung.

## PRACTICAL WORK

After lunch the students leff the college for ringing on tower bells. Half the party stayed at Ripon Cathedral with Mr. Sharpe and Mr. Chaddock. The warden, who appeared anxiovs to delve still further into the mysterious art of bellringing. was also present. Provided with raw recruits. Mr. Chaddock demonstrated his system of teaching pupils how to handle a beli: later thic clappers were unlashed and toaches were rung on the ring of ten bells.
Mr. Moreton's party journeyed to Wath, a nearby villige with a beautiful old church having a liglt six where the Rector. the Rev. E. A. Hosband, welcomed the ringers. The instructor called touches of Minor. explaining the change in coursing order when bobs were called.

After dinner Mr. Sharpe gave his second lecture on the Care and Maintenance of Bells and Belfries: during which even the most enlightened student must have gained considerable knowledge ahout the subject. With the aid ofi a comprehensive set of slides the lecturer showed amongst other things the importance of correct positioning of bells in a tower. Owing to number of yuestions a he allotted time for the lecture was exceeded. the allotted time for the of some. Tykes ' who
much to the annoyance of subsequently discovered that the bar had closed! However. hearing the sound of music certain ringers invaded the large lecture room where they were invited to join in the Terpsichorean art and the sight of large hellringers cavorting around the floor in an Irish reel was a sight to be remembered.
Sunday morning commenced with family prayers conducted by the warden. introduced by a solemn louch of Grandsire Triples. tenor size 25 rung by R. A. Lennard 1-2, N.
Chaddock $3-4, ~ F$. Sharpe $5-6$, and W. Moreton Chaddock 3-4. F. Sharpe $5-6$. and W. Moreton
$7-8$ : this touch was repeated after the service. The advanced group joined Mr. Moreton who iectured on Composition and Methos Structure. The methods analysed were Double Bob and London Bob and he also explained Court and Double Court places. The system of checking the possinility of validity of a method at the half lead was
shown. As Mr. Moreton drew a line after
the hand stroke lead of the treble in Plain Bob we got the impression he favoured this point for the lead end. an opinion shared by at least one of his students.

## HANDBELLS-TUNES AND CHANGES

Meanwhile, tune ringing on handbells was in progress in the music room with Mr. Chaddock as tutor; he gave the method of tune ringing used by his band of ringers. This was the ordinary staff notation in four parts: each person had a sheet and rang two or four bells, the music having been adapled from piano scores by the conductor. Oiher methods of music notation were explained briefly, including that used. by Mr. Sharpe's famous band.
In the change ringing on handbells the three position system was advocated by Mr. Moreton in preference to the twin blue lines and he introduced a unique method of presenting his lecture : a tape recorder repeated the six places in Minor ad infinitum, whilst two bells rang in the particular position he was describing. Then the students were each issued with two handbells which were rung in the position required: $1-3,2-4,3-5$. etc. : the sound created by about 15 , hells striking together was remarkable! Mr. Sharpe. who took part, said nothing but like the parrot must have thought a lot! Unfortunately only one lecture could be devoted to this subject but a start was made.

## DEMONSTRATIONS

After lunch the handbell tune ringers gave a demonstration to the whole assembly, with Mr. F Sharpe and Mr. and Miss Chaddock rendering four in hand The Grandfather's Clock. followed by three novices who gave a very creditable performance of The Old Hundred. The dancers next took the floor to display intricate footwork in Irish reels and. not to be outdone, the bellringers followed with a surprise item. The Cumberland Square eight danced wilh great vigour.

Mr. F. Sharpe presided at the final discussion when comments on the course were given by various students. Everyone was unanimous on one point-that the week-end had heen a great success and another course should be arranged. The warden stated that it would be essential to cater for beginners in a future course or the venture would fall flat. Expressions of appreciation were cnthusiastically shown to the tutors. Mr. Sharpe. Mr. Chaddock and Mr. Moreton, also to the Dean of Ripon and the Rector of Wath for the use of the bells.
From a student's angle one was impressed by the preparatory work done by the lecturers and tutor, which portrayed how seriously they had undertaken their duties: Mr. Sharpe had brought his renowned collection of handbells. many founders marks, a model bell hung in a frame and iwo large bells. not forgetting a collection of slides and photographis which must be unsurpassed in the country. Mr. Chaddock presented copies of his conducting lecture. which ran into several pages. to the students and he brought along a goodly number of handbells, film strips and a model bell. The tape recordings used by Mr. Moreton were the outcome of much thought and endeavour as were the charts which he had carefully prepared. A word of thanks to the warden and his staff for our comfort over the week-end and I conclude with the mention of a classic remark made by Mr. Rigg shortly before we dispersed. Mr. Sharpe. in commending the Exercise. said that No two rings of bells are alike. Mr. Rigg retorted. And no two ringers are alike
N. F. M.

## DEDICATION

BURWOOD, NEW SOUTH WALES
The Archbishop of Sydney (the Most Rev H. R. Gough) dedicated the new ring of eight bells (tenor $11 \frac{1}{2}$ cwt.) at St. Paul's Church. Burwood. New South Wales, on April 3rd. in the presence of a congregation numbering 1.000 . The bells, cast by John Taylor and Co., of Loughborough. are the gifts of parishioners and different organisations. The second bell is in memory of the late Archbishop of Sydney and Mrs. Mowell.
In his sermon. the Archbishop said that a ring of bells should perform three functions: to call men to worship. to sound a spiritual warning, and to mark times of rejoicing. The trumpet calls to the Hebrew people fulfilled the same purposes.
Worship was man's highest duty. and the bells had a noble purpose in providing the summons. the archbishop said.

They also served as a warning to the lapsed In Britain they would have indicated that the German invasion was imminent, and their role in marking national danger was a parallel to their announcement of spiritual danger for those who disregarded the call to worship.
Bells also indicated rejoicing and triumph Dr. Gough said. Their sound proclaimed the viciory of the Cross. The danger of a cracked bell, and a cracked message to the world. was one against which the congregation had to guard, he said.
Immediately after the service the bells were rung by K. Stacey, L. Macqueen. Audrey Peters. J. Fryer. T. Goodyer. J. Cummins, R. Clark and R. Ferris. A peal attempt failed but later a quarter peal was rung and a special supper provided at the Rectory for the ringers. All were highly complimentary it the 'go' of the bells. There is no shortage of recruits for St. Paul's bells and these include the Rector (the Rev. R. A. O’Brian).

## AMBITIOUS HOPES FROM SOUTH WALES

South Wales Nomads have taken a practical interest in the three bells at St. Mary's Church Panteg. on the Newport-Abergavenny road Two of the bells were cast by John Palmer in 1661 and were rehung and a new bell added by Llewellin and James. of Bristol, in 1885. Diligent work in the belfry has resulted in a half-hour's ringing for Sunday services instead of chiming, in charge of David Thomas (13). who has taught others to handle.
With the possibility of augmenting the ring to five or six bells the ringers have started : weekly savings scheme. The official opening of the fund will take place with a ringing festival and open day on July 2nd. Those who cannot attend are asked to send their gifts to the Rev. Mr. Curtis-Morgan. St. Mary's Rectory. Panteg. Mon.

## SHEFFIELD AND DISTRICT SOCIETY

The Society's annual cup contest, held at Beighton on May 7h. brought car loads and contestants and others to the small Derbyshire village.

The senior judge. Mr. H. Chant. gave his assessment as follows: Handsworth. 87 faults, time 12 ? mins: Warsop. 80.12 mins; Shelley 75. 13 mins: Sheffield University, 87. 13ł mins: Sheffield Cathedral. 54.11 mins ; Rotherham Parish Church. 63. $12 \frac{\downarrow}{2}$ mins.
Sheffield Cathedral were thus declared the winners. with Rotherham runners-up. The winners. who also had the fastest time. rang Plain Bob as did Rotherham and the University team. Handsworth rang Cambridge and the other two teams Treble Bob.

## LETTERS TO THE EDITOR

## THE ROYAL WEDDING

Dear Sir. On the evening of May 6th B.B.C. Television presented a telerecording of the Royal wedding, the opening shots of which depicted Westminster Abbey from various angles, accompanied by ringig on a ring of eight bells.
Viewers assumed, not unnaturally, that this was part of the wedding peal rung on the Abbey bells, but as a matter of fact the recording used was not of the Abbey bells.
I have protested to the producer of the programme and he admitted, rather reluctantly, that the recording used was of St . Clement Danes".
The most disturbing aspect of the conversation was his attitude towards bellringing. He stated that no one took any interest in bellsthey served only as background-which statemen I refuted, and he would not agree that anyone viewing the programme would associate the bells which they were hearing with the picture of Westminster Abbey appearing on the screen.

It would appear that the Broadcasting and Television Committee of the Central Councıl has a good deal of spade work yet to do to convince the B.B.C. that there is a public interested in bells.-Yours faithfully.
H. N. PITSTOW

## Banstead. Surrey

## DETAILS FOR 'ARTFLL DODGER'

Dear Sir-In reply to 'Artful Dodger (page 296), it is true the Barnsley and District Society hope to hold the annual shield contest at Felkirk. near Barnsley, on Saturday. June 11 th. This contest was formed in 1926. when 11 teams entered and was for towers within a 12 mile radius of St. Mary's, Barnsley. In 1934 this contest was made open to anyone who was a member of the Society. membership being Is. per year. Four members from one tower can be made up with two from any other tower providing they are all members. The entrance fee for the coniest is 10 s. per tower. with prizes according to the number of entries.
It is not for me to say that this contest is to decide who are the champions of England. Perhaps some of the other Societies may ask Why not all cup or shield winners meet at some central tower and then decide who are the champions? This would mean that two or more judges would take part. and be in different places. Our judge will be Mr . Harold Chant. Felkirk. I hope you all have heard about him, and hope this will satisfy Artful Dodger.' of Huddersfield.-Yours elc., JAMES W. BUXTON.
Shelley, Huddersfield.

## BALSHAM, CAMBS

Dear Sir.-Some of your readers might like to know that. after surves, it has been recommended that the five bells of Holy Trinity Church. Balsham, will not be rung again until a new frame and new hangings are provided. The tenor is 16 cwt . and the 4 th is by John Tonne, 1540, the only example of his work in Cambridgeshire. The oak frame is worn out.

The sum of $\$ 1.300$ has to he raised before we can welcome ringers again.-Your faithfully,

ALAN H. NEALE.<br>Churchwarden

## GREATEST NUMBER OF CHANGES OF METHOD

Dear Sir.-In the Belfry Gossip column of the issue of May 6th. you stated that the peal of Spliced Major rung at Cleatham on April 16 th contained the greatest number of changes of method yet rong (461)

A peal of Spliced Major containing 467 changes of method was. however. rung 'in hand by the Cambridge University Guild on November 28th. 1958.
This peal was noteworthy in that it was the first peal of Spliced for three members of the band.-Yours sincerely.
A. ROBIN HEPPENSTALL.

Gainsborough.

## AMERICAN SCHOOLS GET TOGETHER

Dear Sir.-It may be of interest to your readers that the bell ringers from Kent School paid us a visit recently, the second time we have rung together his academic year.
The Kent boys drove for nearly 200 miles, arriving here on Saturday in time for an hour's ringing before supper. There was more ringing atter supper and on Sunday morning for an hour and a half before the main service in the school chapel.

Also present was Mr. James Laker, an English ringer. originally from Kent (England). now residing in Orleans, Massachusetts. We are always happy to see Mr. Laker arrive as he has been one of the mainstays in maintaining liaison between England and America. He came to Groton as early as 1926 with Mr. Tony Price (Middlesex Association) and others. He also took part in a peal attempt at Kent School after the installation of their bells in the early thirties.

Other guest ringers this week-end were Dr and Mrs. D. H. Niblett, of Oxford University. now doing research at Cornell University in lhaca. New York. They drove forty miles from Boston on Saturday and again on Sunday.

The ringing consisted of Grandsire Doubles and Triples. Stedman Doubles and Erin Triples.-Sincerely yours

## Groton School (Mass.)

## DIARY CORRECTION

Dear Sir.-Over the years the 1.260 Stedman Triples shown at middle bottom. page 24 of the Ringers' Diary, has lost some bobs. viz.. one al 8 in the 7 th course, and one at 3 in the 10 th course.
I have not noted any comment on this hefore, and although it may be obvious to a great many. I hring it to notice for the benefit of others who may be perhaps calling their first quarter.-Yours faithfully.
D. SHORT.

## Bridgwater

## APPRECIATION

Dear Sir,-May I. through your columns of - The Ringing World, on behalf of the Shelles ringers. thank the Sheffield Society of Bell Ringers for the enjoyable afternoon at Beighton, near Rotherham, on May 7th, and congratulate the Cathedral ringers on their success. They will have to take the cup back next year.
We brought away with us happy memories of the church and new friends, which will not have to be handed back. Whenever we hear Beighton mentioned again this happy event will come back to our minds: so here's thank you to all who helped with this event and welcomed us into the Society.-Yours etc., Shelley. Huddersfield.

## THE MIDDLE EIGHT OF WORCESTER

 CATHEDRALDear Sir.-The original ring of 12 at Worcester Cathedral was cast in 1870 by J . Taylor and Co.. to the specification of Lord Grimthorpe. the designer of both bells and clock of Big Ben. The bells of Si. Paul's Cathedral were also cast to his specitication. The Grimthorpe 12 at Worcester however. were not a success from the point of view of quality of tone and in 1928 the ring of 12 . plus the three half-tone bells. were recast by Taylor's. resulting in the present grand $1 ?$.

The three half-tones are all hung for ringing and, in theory at any rate, allow quite is number of major and minor combination: from 5 to 12. Only the "flat 6 hh." however. is properly 'in the circle : this bell permits the use of a middle eight.

The other two half-tones are a flat 4 th and a "flat eighth." There bells are outside the proper circle and. as far as is known. have never been used for change ringing. They do, however. increase the scope of the tuncplaying machine which operates every three hours from 9 a.m io 9 p.m. Their use in change ringing is, nevertheless, not impossible and perhaps one day they may he heard. The major eight with the eleventh as the tenor (34-3-4 in C sharp) would surely be worth hearing.

About 23 peals have now heen rung in the tower but until 1957 no attempt had ever been made to ring a peal on the middle eight. as far as is known. The 1957 attempt was arranged as a welcome to the present Dean. the Very Rev. R. L. P. Milburn. hut was unfortunately unsuccessful. The next attempt was, however. and on May 7th a peal of Boh Major was rung to celebrate the marriage of H.R.H. Princess Margaret and Mr. Antony Armstrong-Jones.

The details of the 'middle eight' are as follows: Treble 7-3-16. 2nd 8-0-20. 3rd 8-1-25, 4th $9-0-19$. 5th $10-2-24$. 6th $12-0-1$. 7th 14-3-26. tenor 20-0-6 in E.
Following the example of other towers which possess a "middle eight" the question of naming it has been discussed though without. yet, arriving at a decision. Some sug gestions were the Cattley eight to commemorate Canon Cattley. through whose efforts the original 12 were put in the tower. and the 'St. Dunstan's eight.' St. Dunstan was Bishop of Worcester and patron saint of bell-ringers.-Yours faithfully.

Cheltenham.
DAVID BEACHAM.

## SOCIETY OF ROYAL CUMBERLAND YOUTHS

On April 30th the Royal Cumberland Youths held a quarterly meeting at Brentwood. Essex. and although not so strongly supporteu as was expected, an enjoyable time was had by those present.
Ringing in the afternoon was followed by Evensong, tea in the church hall. and a short husiness meeting with the Master. Mr. D. Beresford. in the chair.
Congratulations were extended to the Essex County Association on their recent achievement in ringing the new record peat of Bob Major, and to the conductor. Mr. Frank Lufkin. The Master was pleased to note that several members of the band. including the conductor, were also members of the Society of Royal Cumberland Youths.

Thanks were accorded to the Vicar for the use of the bells. to the curate for taking the service and to Mr John Sitch and his helpers for arranging an excellent tea and having everything in readiness for the meeting. special word of thanks was due to Mr. Sitch for making the meeting possible.
Ringing up to Spliced Surprise then continued until 8.30 p.m.

# GUILD OF CLERICAL RINGERS 

RINGING WEEK
rIHE week after Low Sunday, which has by now become a traditional date. saw 17 members of the Clerical Guild, together with lour clergy wises and one 'clergy sister' (sic), assembled at a most comfortable hotel at Lytham St. Anne's on the Lancashire coast The day-outings took us to the Preston area, to Leyland and Southport and finally, after a diversion. into hillier country inland, to Blackpool. This part of the country is noted more tor industry than scenery, but it gave some rural clerics from Southern England a valued insight into churches, belfries, church life and the work of the ministry very different from their own.
The general verdict was that the ringing on the tour was of a higher standard than in recent years. Five Surprise Major method: were successfully rung. Cambridge at several towers, Superlative at St. Anne's, Yorkshire at Emmanuel Church. Southport. and St. John s Blackpool. The courses of London at Whittle-le-Woods and Christ Church. Southport, were, in the opinion of our worthy president, the first rung for a number of years, while Bristol at Penwortham was a first ever. There were 10 bell towers in the schedule. St. John s. Preston. and Leyland Parish Church. both excellent rings. At the former. well-struck Grandsire and Stedman led up to Kent Royal. At the latter. local ringers joined happily in the ringing. At the 8 bell towers, apart from the Surprise methods for the experts. Plain Bob. Stedman and Grandsire were assiduously attacked by the others.' A peal attempt on the splendid 8 at Bilsborrow came to grief iffer an hour's good ringing. Some of our peal-band are sadly short of practice.

## THE DIGNITARIES

We hope that ringers do not think of parsons as pompous and stuffy. Anyone who had this opinion would have revised it hastily had he shared the humour and good fellowship of the Clerical Week. We had a notable proportion of dignitaries-two canons. one prebendary. four rural deans and two proctors in Convocation-though there was some doubling " in the last two categories! In addition. we elevated one younger priest to the temporary rank of archdeacon because we are sure that his manner. figure and legs mark him out for high office. Despite such weight of authority there was much humour and laughter on the tour. Much was inevitably made of the fact that a body of respectable Anglican clergy was due to ring in two Roman Catholic churches. One incident will live long in our memories.

We paid a visit to Kirkham on our last evening together. We made our way to the belfry through a trapdoor and procceded to raise-or more accurately to try to raise-the ring in peal. The bells are fairly heavy and very temperamental: ropes flew in all directions: some went up quickly. o.hers did not. The result was chaotic. We rang some very erratic Grandsire Triples and then found that the hasp and staple device for locking the belfry had. of itself. locked us securely in! We thoughi of "firing the bells but decided that this would differ so little from our previous efforts that nobody would notice. Our only hope seemed to be to go on ringing (!) until the locals were driven to haul us out of the belfry to stop the din. But the resourcefulness of the clergy triumphed in the end. A mysterious cupboard in the capacious belfry was ransacked and a long nail found. We had no idea of jts original purpose hut in the hands of a young priest who must have had training in housebreaking before ordination it released the catch and we were free-almost helpless with laughter.
The impact of our visit on Lancashire was varied. This year we hade no publicity from radio or television though our arrival was noted in one national newspaper of immense circulation. Our selfestcem at this was destroyed when we read that we were going to ring tunes on handbells as we journeyed from tower to tower. We were photographed twice for local papers. In one the photographer

IN LANCASHIRE
insisted on the whole party gazing with rapt admiration at four handbeil ringers operating outside the conch-as though we would do this when we could get inside and go off to another tower! While some very creditable ringing was going on at St. John's. Preston, we received a plaintive message imploring us to stop soon as people in an office on the other side of the strect were trying to work. As a result of this-or perhaps because the path of our coach did a neat single dodge with the Preston Motorway and so was inspired to speed-we were early at our next tower. Walton-le-Dale and Higher Walton, a very unusual circumstance on any tour.

## EXPERTS AT WORK

At Christ Church. Southport. we needed the fermission of the Chief Constable to be set down outside the church in the well-known Lord Street. but though our ringing matched the bells and their aristocratic environment. little wis heard of them outside above the roar of the traffic. Enough was audible, however, to draw from an old lady a comment which all ritigens might like to hear. It was to the effect :hat she loved to hear the bells because they showed that we still live in a Christian country. It was otherwise at St. John's. Blackpool, where the 8 are so loud in the main street that one unfortunate police constable was seen trying to shut out the extrancous sound as he tried to report by telephone to headquarters. Whether he was asking for authority to stop us we never knew. At all events we were allowed to complate an enjoyable visit. Later that afternoon at South Shore (Blackpool) one local opined that we were doing 'a reet bit o good ringing' while another constable confided to our coach driver that he thought experts were at work on the bells.

At the business meeting only one change was made in the officials of the Guild, K. W. H. Felstead replacing A. G. G. Thurlow on the committee. It needed skill on the part of our respected president. in the chair. and slick work by members of the meeting to effect the re-election of J. H. B. Andrews before he had time to refuse to be nominated iggain to the post of secretary and treasurer. All was well. however, and we have the satisfaction of knowing that the affairs of the Guild and in particular the arrangement of rext year's week. which is to be in Hampshire, are still in his capable hands.

It would be indeed churlish to conclude the account of so pleasant a week without expressing our gratitude to all who made it possible. Our secretary had the local help and knowledge of R. D. St. John Smith in making all his preparations. They were successful in every respect. Without exception our welcome at towers was all that one would expect of warm-hearted Lancashire. Incumbents or tower captains and sometimes both were at hand waiting our arrival and all seemed pleased to see us. At Leyland and Tarleton the local clergy had arranged sumptuous teas for us with great generosity. Had we not used up many calories in qur exercise we should have been hard put to it to do them justice. We are genuingly grateful for so much kindness and shall look back to our Lancashire visit with many pleasant memories.
F. A.S.

## ST. MARY'S, FLINT

The bells of St. Mary's. Flint. which have been silent for nearly 30 years, may ring again next year.. There are six bells in the tower. five of which require retuning and the tenor recasting. Messrs. John Taylor and Co. have been approached and work suggested includes that mentioned ahove. the provision of two additional trebles and rehanging of the bells in a steel frame instead of the present oak structure. The estimated cost is $\mathfrak{t 1 . 6 0 0}$ and this. states 'The Chester Chronicle.' is to be submitted to a public meeting. Another ring of eight in North Wales will be most welcome

## THE SUFFOLK GUILD <br> Secretary's Hint Of Increased Subscriptions

THE annual meeting of the Suffolk Guild was held at Bury St. Edmunds on April 23 rd . Ringing took place during the afternoon and evening at the Norman tower of the Cathedral and at St. Mary's. in a variety of the standard methods from Triples to Royal.

The Guild service was held in the Cathedral. and conducted by the Precentor. The Ven. H. R. Norton (Archdeacon of Sudbury) gave the address and extended a most cordial welcome to the 60 members and visitors present. In his address he emphasised the importance of bells in the life of the Church and expressed the appreciation of the clergy for the work of the ringers and the faithful manner in which it was carried out. At tea, which was served at Palmer's Restaurant. Archdeacon Norton and Canon R. C. R. Godfrey (Vicar of St. Mary's) were the guests of the Guild.

## OPEN HANDSTROKE LEADS

The business meeting was held in the Abbot Anselm Institu!e. The chairman. Mr. C. W. Pipe (vice-president). welcomed the members and visitors and said how glad he was to see many friends from Cambridge. Essex and Norfolk and hoped they would enjoy their ringing. He reminded members of the need to maintain good striking. There was, he said. a tendency nowadays to overlook the open handstroke lead. Suffolk had always enjoyed a tradition for good striking and he hoped that the members would strive to maintain it.

Once more a number of members had passed to higher service during 1959 and the meeting stood in silence in their memory -

Apologies for absence were received from Mr. C. J. Sedgley (vice-president) and Mr. C. R. Lovett.

The general secretary and treasurer ( Mr J. W. Blythe) presented his report and accounts which were adonted. Mr. Blythe added a note of caution that it might prove necessary to consider increasing the subscription before long.

The Ringing Master (Mr. L. G. Brett) reported that 79 peals were rung during 1959 and that although Sunday service ringing was by 110 means perfect. every effort was being made to improve $1 t$.

The technical adviser (Mr. R. W. M. Clouston) stated that he was still carrying out his inspection of the bells in the diocese and hoped to complete it in due course in spite of the fact that he now resided outside the diocese.

Mr. G. E. Symonds (Pearson handbell trustee) reported that four sets were out on loan and that the remainder were in the St Mary-le-Tower belf:y.

## NEW VICE-PRESIDENTS

The meeting unanimously agreed to elect Mr. G. E. Symonds and Mr. B. Chilvers as vice-presidents. Both had devoted many years of service to the Guild. Mr. Symonds having held various offices in his 74 years as a ringer. whilst Mr. Chilvers had been a District secretary for some 30 years. The existing vicepresidents were all re-elected.
The Ringing Master (Mr. L. G. Bretı). general secretary and treasurer (Mr. J. W Blythe) and honorary auditor (Mr. J. W. H. Preastner) were all re-elected.
The committee was re-elected with one exception. Mr. A. R. Mann replacing Mr R. W. M. Clouston. The secretary pointed out that this would be the last occasion on which the committce would be elected by the annual general meeting if the proposed revision of the rules was accepted as the districts would then elect their own representatives.

The Central Council representatives elected were Miss Rosemary Seabrook and Messrs J. W. Blythe. L. G. Brett and C. W. Pipe. The Pearson handbell trustees (Messrs. C. J. Sedgley and G. E. Symonds) and the technical adviser (Mr. R. W. M. Clouston) were all reelected.

## HERTS COUNTY ASSOCIATION AND THE CRITIC

$\mathrm{A}^{\mathrm{s}}$
$S$ anticipated. the annual meeting of the Hertford County Association. held on April 23 rd. was well supported. including a coach party from the Northern District led by Mr. E. G. Buck. Towers open were Kings Langley. Rickmansworth. Busliey. Elstree, Aldenham and Oxley.
The annual service was held at St. Mary's, Watford. and was conducted by the Vicar. the Rev. J. G. Downward. who gave an interesting and amusing address. Tea was arranged by Mrs. R. G. Bell and other local ladies at the old Free School, where some 120 members and friends were well catered for.

After tea, the president (Mr. G. W. Debenham) welcomed the visitors and opened the business meeting with a reference to the loss by death of Nathan Patmore (Great Munden), G. N. Blake (Cathedral Society). Vic Neale (Hertford steeplekeeper). A. Blakeley (Bengeo). H. Jones (Rickmansworth). H. W. Holland (Tring). W Milton (Wation-at-Stone), A. Wright (Hertford).
New members elected were: Messrs. R. Wilkie. N. D. Cleland and F. Walters (Rickmansworth). Miss M. Gauntett (Cathedral). Mrs. C. M. Harbott (Ashtead). Miss C. White and Miss R. Fleming (Harrow Weald) also Ian D. Zass-Ogilvie (Hampstead).

ALLEGED LACK OF GUILD INTEREST
The president gave an account of information received at the Watford District annual meeting relating to an application by the Rickmansworth band to join the Oxford Diocesan Guild and followed this with a
summary of the recent correspondence in summary of the
Ringing World.,

Mr. Hatchett, after being asked if this Wals at true statement of the facts and being asked for his comments. agreed that the statement was true but explained that there had been a misunderstanding about the application to the Oxford Diocesan Guild. This had not been intended as an application but as an inquiry as to the Oxford Diocesan Guild's views on the subject. He apologised for the apparent lack of normal etiquette in applying for membership of a neighbouring Association prior to notifying the Hertford County Association.
Mr. Hatchett continued. presenting his ideas of how an association should function and in which manner he felt that the Hertford County Association failed.

The subject was then thrown open to discussion. Many members expressed their views and the general consensus of opinion was that as Mr. Hatchett's views of the Association were the result of a very limited experience. he could not possibly be in a position to chastise the Association as a whole. It was felt that the few meetings he haf attended even in his own district did not entitle him to criticise even the functioning of the Watford District. It was pointed out that Mr. Hatchett's correct procedure was to attend meetings of the Watford District and if dissatisfied make an eflort to improve that district; if he should then meet with complete dissatisfaction. then was the time to consider criticism of the Association rather than the district. Many of his suggestions, it was stated. had already been considered by bath the Association as a whole and by individual districts. Some had been discarded as impracticable. some shelved for further consideration and some were actually in operation in some districts.

Mr. Hatchett agreed with the general line of reasoning adopled by the members to his actions and apologised for going into print somewhat too hastily. A full discussion of his proposals would obviously prolong the bu: iness in hand considerably and Mr. Hatchett agreed that they be brought up under any other business.

## BENEVOLENT FUND

Mr. C. W. Woolley proposed that the Benevolent Fund be wound up and that the money at present in the fund be transferred
to the General Fund. Mr. K. K. Dunstan to the General Fund. Mr. K. K. Dunstan
seconded and after a short discussion. the motion was put to the vote and carried with only one dissentient.

The committee's recommendation that all peal fees, compositions and details be sent to the peal secretary and not to the district secretaries was proposed by Mr. H. V. Frost, and seconded by Mr. B. C. Johnson. After long discussion and three amendments, the meeting voted in favour of the committee's recommendation.

The committee's report recorded the success of the 75th anniversary dinner, attended by 170 members and the summer festival with the Bedfordshire Association at Hertford.

Mr. B. C. Johnson, peal secretary, in his report stated that 93 peals were rung during 1959. an increase of seven over the previous year. Leading peal ringers were Mrs. C. A. Critchley 29, G. W. Critchley 27. K. R Dunstan 27. Leading conductor was Mr J. R. Mayne (19). During 195911 new Minor methods were rung and six of them were the first in the method as peals. Major methods rung for the Association for the first time were eight, of which four were new methads.
The accounts showed that the $£ 75$ in the Voluntary Bell Fund had been divided between the five districts and each was now managing its own fund. The Benevolent Fund amounted to $£ 10819 \mathrm{~s}$. 6d.. and this would he transferred to the General Fund. which stood at $£ 355$ 6s. Arising from the librarian's report it was decided to go ahead with the scheme for an extra bookcase for the library.

## ELECTION OF OFFICERS

The following officers were clected: President, Mr. W. C. Hughes (Hemel Hempstead): honorary general secretary. Mr. A. Rex Agg (Hitchin): assistant, Mr. H. V. Frost (St. Plummer (Hitchin) : peal secretary. Mr. G. W. Debenham (St. Albans): honorary librarian, Mr. C. F. Sayer (St. Albans); honorary auditors: Messrs. Mercer and Hole (St. Albans): Central Council representatives.
Messrs. W. Ayre, R. G. Bell. G. W. Critchley, G. Dodds.

The Association agreed to hold over the question of a summer festival until next year.

The position of The Ringing World was discussed and our Central Council representatives were instructed to vote against any levy on peals that might be proposed. The Kimpton annual ringing competition was discussed and the meeting expressed itself in favour.

Mr. Hatchett proposed an instructional course to be held at Rickmansworth and the Association agreed on its usefulness and was prepared to support it. The matter of Mr. Hatchett's membership was cleared up and he agreed to withdraw his remarks in The Ringing World:
The president (Mr. W. C. Hughes) after making very good use of the new gavel and stand, presented to the Association by the retiring president (Mr. G. W. Debenham). proposed a vote of thanks to the clergy of the district. for the use of the bells and to the Vicar of Watford for his address. Mr. R. G. Bell also thanked all others by name who had helped towards the success of the meeting.

## NORWICH DIOCESAN <br> ASSOCIATION

## Southern Branch

For their spring meeting the Southern Branch visited Pulham St. Mary, where the attendance was not quite so large as had been expected.
The service was conducted by the Rector. Rev. J. Huggins, who welcomed the ringers to his church. This was followed by a most enjoyable tea arranged and served by the local ringers and their wives.
In the absence of the chairman. Mr. A. G. Harrison (vice-president) presided over the business meeting, at which three new memhers and the Rector (honorary member). were elected.
It is hoped to visit Attleborough on July 2nd for the ne t meeting where the special methods will be Beverley Surprise and College Exercise

## ELY DIOCESAN ASSOCIATION

## Annual Meeting

Easter Monday again dawned bright for the Ely Association annual meeting which was held this year in the Ely District. Swavesey (6) and Over (8) were both open for ringing at 10 o'clock and over 60 ringers were at these towers awaiting the start. Many well known ringers were present from a long distance, including one who left home at $6 \mathrm{a} . \mathrm{m}$. on a cycle but later found comfort in a car.
Again the printed direction routes proved a great help and ringers were soon able to speed to the other towers in the order of Longstanton, Willingham: Cottenham, Swafiham Prior, Burwell. Soham, I.ittleport, Haddenham, Wilburton and Stretham.

Over 150 ringers and friends assembled in Ely Cathedral for the ringers' service which was held in the Lady Chapel. This was conducted by the president of the Ely District. the Rev. D. Foulds. with Mr. M. J. Dyer as accompanist.
Tea folluwed after which the business meeting was held with Mr. W. W. Cousins in the chair. The officers were re-elected with the exception of Mr. R. J. W. Housden. peal secretary, who will shortly be leaving the district. Mr. C. W. Cook was eleçted to this office. It UR.s proposed to visit the Cambridge District in 1961. After tea Littleport. Haddenham. Wilburton. Stretham and the Sutton towers were again open for further ringing.
It was very pleasing to note the good following of the members of the Association. Two buses were run from around the Hunts and Wisbech districts and visitors included nere from the following areas: Essex Lecestershirc, Lincolnshirc. Suffolk, Peterborough. Lancashire. Worcester. Hoddesdon Surrey, Hertford. London and Middlesex.
H. S. IP.

## UNIVERSITY NEWS <br> \section*{BRISTOL}

The University of Bristol Society at their annual meeting on May 3rd elected the following officers for 1960-61: Master. Mr. John C. Baldwin: secretary. Mr. Ian C. Maycock: tower secretary, Mr. Edward G. Mould! treasurer. Miss Mary Busch. A first year representative is to be elected at the first general meeting next session.

## READING

At the annual general meeting of Reading University Society, on May 5th, the following were clected to serve on the committee for the session 1960-61: Master, Peter M. Wilkinson: secretary. Jennifer M. Davies: treasurer. Patricia Heather: lay members, Felicity Webber and Frederick J. Sage.

## LONDON

About 30 ringers, including visitors from Wolverhampton. Winchester and Birmingham. but not including Manchester University, attended the annual meeting of the University of London Society on May 7th. Ringing was at St. James". Clerkenwell. and St. Olave's, Hart Street, and ranged from rounds to five Spliced. A service at St . Olave's preceded the annual meeting.
Officers re-elected were: Mr. P. M. J. Gray. president: Messrs. David Martin. D. Layton and Alan Thirst. vice-presidents: Marcus Barton. secretary: Michael Rose. treasurer : Peter Layton. auditor: Derek Sibson, committee member. New elections were: Geoffrey Pratt. Master: Miss June Langton and J. Michael Lakin. committee members.

## OXFORD DIOCESAN GUILD <br> Bicester Branch

Mambers of the Bicester Branch, when they met at Souldern for their quarterly meeting on May 7th, were encouraged to learn that these bells werc again being rung for Sunday services. Ringing ranged from rounds to Cambridge Surprise Major.
Six ncw members were welcomed (three from Fritwcll. two from Souldern and one from Brill). The Branch chairman (the Rev. J. H. B. Elkerton) conducted the service and preached. Tea was given by Mrs. W. Deeley and her lady helpers and a collection was taken for the World Refugee Fund.

## ALPHABET FOR BEGINNERS

BY. T. J. LOCK

HALF LEAD.-Although this term is not used very much, it is none the less of considerable interest to the few. As you study method construction you will soon appreciate that whatever work is contained in the first half of a lead in any symmetrical method is repeated in reverse in the second half. In other words. the line diagram showing the work of a bell in the second half of the lead is a mirror image of that of the work of a bell. most likely another bell. in the first half. Proof of this is given by referring to the Collection of 370 Surprise Major Methods bv Andrew J. Corrigan. wherein methods are given by notation up to the half lead only.
So you will see that if you are given figures for only half a lead of any symmetrical method you would have enough information to complete a whole lead, after knowing whether it was a seconds or an eights place method.
HANDBELLS.-One would imagine that to be able to gather at home. but barring the snug comfore of an arm-chair. with only half the number people that would be required to ring in the tower and to sit comfortably to ring a pair of handbells would be most popular. but in practice this is not the case. Although there is a totally different approach in learning double-handed change ringing on handbells to that of learning change ringing on tower bells. it is no more difficult. The trouble really is in trying to learn changes in handbell ringing after and on the same principle that one learned changes in tower bell romging. The experts say it is quite uscless to attempt to split the mind into two and follow the work of each of the pair of handbells separately. The average mind is incapable of maintaining two separate chains of thought simultaneously for any length of time and no amount of mental effort will make this possible. Much more can be read in the Central Council guide entitled Change Ringing on Handbells. price two shillings and sixpence per copy.

HOLT'S ORIGINAL -John Holt, a London horn ringer who died at the early age of 27 years. made a momentous contribution just over two hundred years ago by producing a one part peal of Grandsire Triples, it being the first peal of such composed with ordinary bobs and two ordinary singles only. This composition, containing 150 calls, has but one nameHolt's Original. John Holt was the first person to call it although, because it was then considered to be too complicated and difficult to ring and conduct at the same time, he made the calls from manuscript. seated in the ringing chamber whilst eight other ringers made the performance. The composition cannot be divided up into similar of regular parts but the surprising thing remains that there are so many milestones or checkpoints. including the second and sixth bells never being called before except near the very end, that any mistake in the ringing would soon reveal itself. Also. there are several touches and quarter peals which can be extracted from the composition.
Even today the best advice to the conductor calling the Original for the first tume is for him to ring the treble. to save confusion of mind. The generally accepted way of calling this peal is by the bells "before. and where there are two calls at successive leads to use the letter $D$ meaning doubje, c.g., 7 in the hunt with a double call.
Holt also composed a well known ten-part peal of Grandsire Triples but a special Holt's Boh-Single must be used at halfway and end. Ihis special call may be used instead of the two singles in the one-part peal.
HOME.-We have already referred to ons calling position. Before. The next. in alpabetical order. is Home-sometimes called Right.

Home is the label given to a call (Bob ot Singie) when the observation bell is in the position of the heaviest working hell at the inme it is ahrout to commence changes from rounds lismples would be hellet llian to irs and clatily this explanation. In IPlais Foh

Minor the Home position is when the observation bell is dodging in 5-6 down: in Grandsire Triples the Home position is when the observation bell is dodging in 6-7 up: in Plain Boh Major the Home position is when the observation bell is dodging in 7-8 down.

The effect of a call at Home depends upon the method being rung and whilst I venture to suggest that to make your life more interesting you look up in a textbook a Home in the particular method you have in mind. I would have you know that in methods with 13527486 at the first lead end the Home comes at the end of a course but in methods with 14263857 at the first lead end the Home sometimes comes at that first lead end see Kent Treble Bob Major and Bristol Surprise Major
In setting out some compositions. figures. instead of letters, are resorted to, such as in Double Norwich Court Bob Major where a Bob at 5 (the fifth lead in the plain course) has the samse meaning as a Bob at Home.

## THREE COUNTIES TOUR

Four ringers from Suffolk joined young members of the Kent and Sussex Associations for a tour of towers in Kent. Sussex and Surrey on Apill 30th.
Ringing began early in the morning at Wrotham (8), and from there we travelled with much speed to Sevenoaks (8). Brasted (6), and Westerham (8). Then into Surrey where we were welcomed to ring at the two six bell towers of Limpsfield and Limpsfield Chart. After a picnic lunch on Limpsfield Common we made our way to Chiddingstone (8). where we were joined hy friends from Tenterden and Tunbridge Wells. Then on to Edenbridge (8). and East Grinstead (8). With the help of - Dad Ladd. a good course of London Surprise Major was rung at Coleman's Hatch (8) and we finished the day by ringing at Rotherfield (8), and Mayfield (8).
We wish to thank all incumbents and tower captains for helping us to enjoy a good day's ringing.

## VICTORIAN RINGERS VISIT ADELAIDE

$I^{\mathrm{T}}$is often said that to travel hopefully is better than to arrive. But we take leave to doubt that this applies to visiting ringers. Certainly the 15 ringers from Victoria who visited Adelaide over the Anzac week-end (April 23rd-25th) seemed pleased to have arrived and were very soon in action.
George Pipe and eleven of his merry men (and women) from St. Paul's Cathedral. Melbourne. came together with three from St. Paul's, Bendigo. led by Warne Wilson.
Although Adelaide has only two towers to offer-St. Peter's Cathedral with a heavy Taylor octave ( 41 t cwt . in C. 1946) and the suburban church of St. Andrew. Walkerville. with a light Mears six ( 13 cwt . in F sharp. 1886)-a lot of good ringing was indulged in at both churches.

On Saturday morning at St. Peter's (during uhich we had the television cameras whirring in a corner) Grandsire and Stedman Triples and Bob Major were enjoyed. Enjoyed is the operative word. for these really are lovely bells-full. rich and sonorous in tone. We, at St. Peter's. are naturally biased in their favour but the visitors were so enthusiastic in their praises that it must be granted that Taylors have given us a magnificent eight.

The chime of 13 bells (Taylor 1932-33) at St. Augustine's Church. Unley. were inspected early in the afternoon and a great gathering of ringers met at St. Andrew s, where the first ringing was for a wedding. Before the bells were stood for the night, methods up to Cambridge Surprise Minor had been rung. In the cvening the home of Bill Pitcher, the St. Peter's secretary, was the scene of a convivial gathering which was helped along with handbells, a tape-recording of some of the afternoon's ringing. and food and drink.
On the Sunday, at morning and evening services at both churches the bells were well and truly rung. At St. Andrew's. before Evensong. a quarter peal of Cambridge Surprise Minor was successfulty brought round by a band
of St. Pauls. Melourne. ringers. This is belicved to be the first quarter of Cambridge Surprise Minor rung in Australia. certainly in South Australia. There was additional ringing at St. Peter's during the afternoon whel another event of note was the ringing of the first course of Double Norwich Court Bob Major on the bells.

## ANZAC DAY

Monday. Anzac Day, started with an hour's half-muffied ringing while the march was in progress. During the memorial service ill the gardens below the Cathedral the muffles were removed and the end of the devotions was marked by a burst of open-bell ringing. This was closely followed by another first-the first quarter peal of Major on the bells. rung by tour Adelaide and four Melbourne ringers. who also happened to be four Englishmen and four Australians. The method was Plain Bob. conducted by George Pipe from the tenor. What a joy it was to hear this 41 cw . bell weaving in and out among the others. dominating the music. and to see George's masterly handling of it. Ringers throughout Australia uwe a great debt to George Pipe: he never ceases to encourage us towards greater things. his enthusiasm is highly infectious. and his great abilities as ringer and conductor are a universal inspiration.
After lunch we dashed back to St. Andrew s for Stedman Doubles and Plain Bob. Kent and Cambridge Surprise Minor. and a last ring at St. Peter's produced a final first on the bells-a course of Kcmt Treble Bob Major
A busy and highly enjoyable week-end finished when the visitors were farewelled on the Overland for their 500 -mile journey back to Melbourne (it is the distance of Zurich from London). We in Adelaide know from our interstate trip last year that such a journey for a ringing week-end is well worth while. Apart from the stimulus it gives towards hetter ringing. the friendships made and strengthened in the helfry are of great value.
W. B PITCHER

## TOWERS OF THE FENLAND

## By T. A. BEVIS

(Continued from page 285)

## ST. MARY'S CHURCH, WHITTLESEY

This is a very handsome church.' wrote Cole, during his travels through the Fenlands, with ye most beautiful spire I ever beheld placed on a square noble tower adorned al aboul with fine curious work after ye cathedral fushion; the tower is very lofty, and ye spire of stone. exceedingly taper and elevated. is adorned with leaf work in a most expensive manner. The church is by no means answerable to ye magnificence of jts tower and spire, which may vie with any in England for beauty and strength. All leaded and in good repair

Cole's description is most appropriale for the tower of St. Mary's is regarded as being the finest in Cambridgeshire, and Dr. F. J. Allen has described the spire as the latest and most brilliant spire in cur county, and one of the finest spires in England.

Built in the 15th century and rising in three richly ornamented stages to panelled battlements, the tower has crocketed pinnacles at the angles from which spring flying buttresses to support the spire. Black panels above the west window once contained a Calvary, but this, with attendant figures of Mary and John, was removed under Puritan influence. It may well be that this steeple, adhering as it does to the Northamptonshire style, originated at the Oundle School of Masons.

We read from the Inventory of Church goods, taken July 27th. 1552, that the tower contained at that time " iij great bells, a sanctus bell and ij handbells and a sacrey bell.' In 1544 a parishioner. John Cammings, bequeathed his 'sowl to Allmightie God, to our Ladye St Mary and to all the company of Heaven.: His largest charitable bequest was 'to the bells 2 s .'

If we walk into the church we may see a fine engraving of the building enclosed within an oak frame which was carved from the ancient bell frame, on the occasion of the bells being rehung in 1902. Chimes play lunes four times a day. In 1767 they were arranged to play four tunes on the six bells then existing. They were later enlarged for six tunes on eight bells about 1803. and were rehammered by an anonymous gift in 1925

A newel stair climbs to the large. panclied ringing chamber. which is encumbered by an unsighty overflow tank for the church boiler. The clock is arranged in a box above the heads of the ringers

Before the year 1758 there were five bells in which year they were recast and augmented to six by Joseph Earye. Forty-five years later Osborne and Dobson recast two of the bells and added two more, making the present ring of eight.
The bells were rehung by Messrs. Taylor's in 1954. but have not left the steeple in the past 150 years, therefore the weights are uncertain. It is estimated that the tenor, which is' in the key of E , weighs 18 cwt .
The treble bas inscribed 'The Lord to praise my voice I'll raise.' and the third utters 'Peace and good neighbourhood.' Sound advice is also exhorted hy the fourth, Do justice, love mercy and walk humbly with thy God, and number six gives us useful information. "The live old bells into six was run with additional metal near a tun. 1758: The seventin is inscribed Prosperity to the Established Church and no encouragement to enthusiasm (the last would should have been. I think. 'Fanaticism.

Incidentally. Whittlesey has 16 bells! eight others (tenor 19 cwt .) being contained in the tower of St. Andrew's Church. situated quite close to St. Mary's. The original five were supplied by Joseph Earye in 1759. Thomas Mears recast three of the bells in 1843. and the tenor was recast and two trebles added by Gillett and Johnston, in 1930 .

## WALPOLE ST. PETER

Whittlesey St. Marys is a typical Northamptonshire, church. despite its situation in the 'cold, damp, Fens.' If we would see a church built to an advantage provided by the nature of the land, then we would

ST. MARY'S CHURCH, WHITTLESEY
Photo: A. H. French.
do well to visit the scattered village of Walpole St. Peter. Norfolk.

In size and beauty, with the possible exception of Terrington St. Clement, it is without peer among the famous Marshland churches and is rightly styled 'Queen of the Marshes.' Passageways beneath towers are not uncommon. but at Walpole the case is reversed : the altar is raised so high in the chancel as to enable a passage bencath from north to south!

The tower is the oldest part of the church and is 600 years old: it is. however. plain in comparison with the breathtaking splendour of the rest of the building. The ancient sanctus bell at one time was used as a lime pot and was restored to its original cote over the nave in 1730

There are six bells which are rung from a gallery, the treble by Thomas Lester. of London, 1747. a founder, who experienced hard times until he took a partner, Thomas Pack. The second bell is by John Warner, and the third. fourth and fifth bells by John Draper. 1629. This gentleman became Mayor of Thetford, Norfolk. in 1592. at which town he was established, having moved his husinéss from Bury St . Edmunds. He is best known
for his quaint inscriptions. e.g. at St . Benedict's Church. Cambridge: ' Of all bells in Benet I am the best, and yet for my casting the parish paid less." Another: "This bell was broake and cast againe as plainly doth apeare, wich time church wardens were Edward Dixon for the one whoe stode close by his tackling. And he that was his partner then was Alexander Jacklin.

Thomas Osborne. of Downham Market. who created many bells of fine tonal quality, cast Walpole's tenor ( 12 cwt . in F ) in 1792

The treble of this ring was found to have a crack in the soundbow in 1919 but this was made right in 1939. Messis. Taylor rehung the bells within a steel frame in 1950. they having been proviously contained in a - more than substantial' frame.

EWELME, OXON.-On April 7th. 1,260 Plain Bob Doubles: H. J. Winfield, jun. 1. Ann Winfield (first quarter) 2, Pas Reason 3. R. Baker (cond.) 4, R. Tuckwell 5. H. J. Winfield 6. ## MIDDLESEX COUNTY ASSOCIATION

TMHE 63rd annual meeting of the Middlesex County Association and London Diocesan Guild was held at Feltham. on April 30th. when several of the company of eighty odd accepted the opportunity of ringing on the recently augmented ring for the first time. This is a case, not often to be recommended, where the bell founders did the specialists work of casting the bells and supplying frames and fittings. Whilst the fixing and hanging and other builders' work was entrusted to a "local man. But this man was Tony Price who. through being a competent engineer and knowing what he was doing, has made a first class job of augmentation from eight to ten bells. Also. he was inspired to do the work as a memorial to the late A. J. Lewis. who had lived the life of a generous Christian gentleman, including having interest in the scheme for the provision of the two new trebles. Other towers open for ringing during the afternoon were Bedtont and Stanwell.

The Rev. G. C. Taylor. president. officiated at the service with organist and choir, and gave the address.
At the outset of the business meeting. presided over by that president. a special welcome was given to Mr. W. Webb. Heston. who was present with his wife. Mr. Webb looked very fit and well again after his serious operation. The meeting stood in silence whilst the names of the following deceased members were read:-A. C. Chaplin. Dagenham: C. V. Ebberson. Snettisham: C. W. R. Grimwood Hersham: C', J. Matthews. Southfields: G Pidwell. Ruislip: C. G. Pitcher, Harrow-on-theHill: A. F. Pulling Guildford: H. J. Ranzetta, Buckhurst Hill; F. Shepherd. Sunbury-onThames; A. D. Stone, Brighton: A. B. Wiffen. Richmond: Mrs. Prockson, mother of Bill and Mabel Prockson. was also remembered-she had been a loyal friend of the Association and had on many occasions given assistance at ringers" gatherings at Clerkenwell.

## 50 NEW MEMBERS

In his annual report the honorary secretary listed the several towers where meetings had been held, including the five joint meetings which had again proved to be most successful. Fifty resident and fourteen non-resident ringing members had been elected. Thirty towers shared in the reported total of 135 guarter peals. practically all of which had been rung for Sunday services. One of the quarter peals was Grandsire Caters at St . Clement Danes. rung by a band from St.
John's Hillingdon. Fifty-two peals had been rung. nine of which were on handbells. Eleven methods had been rung to peals for the first time. and an Association record of 105 methods in a 5.040 Spliced Doubles was achieved. An augmentation. from six to eight. had been completed at Hendon and a
restoration finished at Edmonton. Work of restoration finished at Edmonton. Work of
restoration is also going on at Toitenham and restoration is also going on at Toltenham and
a scheme for a complete new ring at Harrow-on-the-Hill is being proceeded with
The honorary Ireasurer in presenting the annual statement of asounts regretted the fall in receipts from subscriptions, which
refiected itself through to the balance sheet. It was accepted that the fall was due to outstanding subscriptions which, it was anticipated, would be recovered.
Mr. Goodfellow reported on arrangements that had been made for the dinner to be held at Ealing on October 1st. to commemorate the life of the late J. Armiger Trollope, one time editor of The Ringing World.'

## SUNDAY SERVICE SURVEY

Mr. Lock gave some details submitted in connection with Survey of Sunday Service Ringing. This Association had returned 46 forms to the Central Council Committee. out of a possible of 64, and information given included 22 towers, where ringing was considered to be satisfactory, ninc towers where bands were depleted. 10 towers where the bells were silent through various reasons and 11 towers where the bells were unringable. Ringers in four towers rang call changes only and in 23 towers call changes and method. Ringing took place only once each Sunday in nine towers and help was required in 11 towers. There were 8 cases where the incumbent was not keenly interested in the bells and the ringers.
The Association officers were elected as follows: President. Rev. G. C. Taylor; Master, J. R. Mayne: treasurer, F. W. Goodfellow: secretary. T. 1. Lock: assistant secretary. Miss R. Foreman, librarian. G. A. Parsons: trustees, A. Cutler. F. W. Goodfellow, T. J. Lock: Fuditor. M. Hodgson. Messrs. F. T. Blagrove,
F. Goodfellow T. J. Lock and J. R. Mayne were re-elected Central Council representatives. A sum of 15 guineas was voted lowards the cost of the new bells at Harrow-on-the-Hill.
It is hoped that the next annual general meeting will be held at St. John-at-Hackney.
Thanks were extended to all clergy for assisting the Association in its work, and to Tony Price and others for making arrangements for this particular meeting.
T. J. L.

> THE PHILIPS RING A PEAL The first "Philips, peal rung on the eve of the Feast of SS. Philip and James, at Birmingham Cathedral, was intended to be Plain Bob Maximus, but a series of unfortunate events reduced it in the end to Major. Firstly, business engagements reduced the band to Royal and then at the appointed time only nine arrived. After an hour's wait it was decided to go for Major. Later, it was learned that Philip Chalk lud met with a car accident near Coventry on his way to Birmingham and, although foriunately not injured, was fully occupied in getting his battered car back to Woodford Green. Philip Davies had produced both peals of Maximus and Royal, and indeed one of Major at short notice, hut to be doubly sure a more familiar composition was used. It is generally thought that the Philips are capable of something better another year.

## OBITUARY

## MR. J. W. BIFFIN

Mr. William A. J. Knight. of Gillingham, writes that he has been connected with Milverton and its ringers since 1900 and started ringing in 1905.6. He thinks Ted Biffin and Alf Harvey came to Milverton station in the latter part of 1912, when 'Old Tout' was stationmaster. Ted Biffin was transferred to Wiveliscombe during the war and started that band method ringing. During the 20 's Old Tout 'got together a Doubles band for peals and Ted rang in two Doubles peals at Chipstable and Ashbrittle. These were his first meals-not that at St. Thomas's, Fxeter, on hetober 25th, 1924, which was his first of Iriples.

## QUARTER PEALS

BEDFORD.-On May 4th, at St. Paul's Church, 1,260 Plain Bob Minor (tenor covering): Katheen Rivett 1. F. Rivett 2, J. H. Edwards 3, R. L. Piron 4. J. B. Leng 5, S. Ivin (cond.) 6, D. Thompson 7. ## SOME CHESHIRE BELLS

THE names of Mottram and Stockport are familiar to our readers. It is an area where change-ringing has a long tradition, an area in which long-length peals have been scored. The bells of these two deaneries constitute Part VI of 'Cheshire Bells,' the work of Mr. J. W. Clarke, Master of the Chester Diocesan Guild, and the publication adds to the extensive records of English bells.

Throughout the last century this was a happy hunting ground for prize ringing and the spectacular side of our art. For example, the Rudhall eight at St. Michael's, Mottram, completed in 1805, were visited by the College Youths of Ashton-under-Lyne, and John Holt's Ten-Part of Grandsire Triples was rung in 2 hours $23 \frac{1}{2}$ minutes, and according to a scribe of that period was described as 'the best and quickest ringing ever performed in this kingdom.' It was also on these bells that the record length of 16,800 Kent Treble Bob was rung in 9 hours 40 minutes in 1906. The bells were recast in 1910, and in 1922 Mottram was again in the news with the peal of 18,240 changes rung in over 11 hours, which was later found to be false.

Nearby is Northenden, now in the county of Lancashire. having a six famous for prize ringing contests. This, as Mr. Clarke points out, is reflected in the inscriptions on the bells, quite different from the usual style. Thus the treble reads: 'Here goes my brave boys,' followed by ' I'll follow with spirit and pleasure,' and 'Hark how merry my friends are before me.' Finally, the Rudhall tenor of 1750 reads: 'When with my sweet tone your cover'd sir the generous subscription of $\mathrm{I}^{\text {no }}$ Worthington gent adds dignity to our sound.' These bells have been quarter turned and rehung.

On the subject of inscriptions, in these days, when Church unity is to the fore, the treble at St. Thomas', Norbury, was the gift of the Nonconformist of Hazel Grove, with the wording 'Behold how good and joyful a thing it is brethren to dwell together in unity.' In this tower the Ringer's Bell is the third and is in memory of Pte. Herbert Wilkinson; Loyal North Lancs Regt., who died on December 15th, 1918. The Freemasons of Hazel Grove gave the fourth. Those associated with the Girl Guide movement will like to note that the treble at St. Mark's, Bredbury, was the gift of St. Mark's Rangers, Guides and Brownies.

There are two cases in this area of the bells of one church being acquired by another. The old six bells from St. Mary's, Stockport, were purchased by All Saints', Marple. in 1813, and after the inscriptions had been 'edited' with hammer and chisel were duly hung in the
tower. The Stockport tower, it should be mentioned, was then in a ruinous condition and the bells had been removed. The worsening of the tower's condition is attributed to the prolonged ringing for Nelson's victory at Trafalgar in 1805. The tower then was cracked and was supported by rough buttresses. However, the tower was rebuilt in 1817, and Rudhall was commissioned to cast a new ring of eight at a cost of $£ 1,087$, of which Marple appears to have contributed $£ 407$. There is now a ring of ten at St. Mary's, Stockport, a restoration, including the recasting of the tenor and the adding of two new trebles, being carried out by Taylors in 1897.

The other case was not so much an acquisition as a presentation. In 1837 Thomas Legh presented the bells of Disley to the newly-built church at Norbury. They were an old six, four being recast in the 17th century by Oldfield. Legh then commissioned Thomas Mears to cast and install a new ring for Disley. The latter bells are still in use, but were rehung with new fittings and oak frame in 1897.
Probably the oldest bell in these two deaneries is a treble at Taxal which was recast from an older bell by Robert Quernby, of Nottingham. This bell is not dated, but the Tudor rose stamp used by Quernby indicates a date between 1570-1592. This bell is still preserved, hanging above the Taylor six of 1904. An interesting story concerns Poynton Church. In the 18th century St. George's, Poynton, was a chapel-of-ease, and the church bell was hung in an adjacent oak tree. This gave rise to the following local rhyme:-

The further you go the more you see
A church without a steeple and a bell hung in a trec.
The bell remained in the tree until 1887. A new church was built in 1859 and the tower added in 1885. Taylors were commissioned to provide a ring of six for the tower in 1887.

A farewell peal was rung on the bells of Holy Trinity, Morecambe. on May 7th to Mr. and Mrs. R. F. Eccles. Mr. Eccles was the honorary secretary of the Lancaster Branch of the Lancashire Association, and Mrs. D. Eccles was tower secretary at Holy Trinity. They will both be very much missed. They are now living at 53, Alexandra Road, Sale,
Thomas Jackson, aged 14. is the youngest ringer in Lancaster ever to ring a quarter peal. His keenness is a great encouragement to his tutor.
Canon C. Carew Cox, Master of the Salisbury Diocesan Guild, marks his fiftieth year in the priesthood on Sunday. Our congratulations to him on reaching such a significant landmark.
The 'Yorkshire Post's' cartoon on the College of Campanology, A.D. 1542, has caused amusement to many north country ringers.
The Warminster and District edition of 'The County Churchman' has a delightful sketch of Mr. Louis Wilson. Ringing Master at Wootton Bassett Church, a post he has held for 63 years. Now 84, he has been ringing for 72 years.
A welcome home peal to D. W. Kerley, after his world's cruise on H.M.S. 'Centaur.; was lost at Aberdare at the end of the 11th part of Parker's 12 part. Honours were, however, done by a quarter peal on May 15th.
Four members of the Rowe family of St. Ann's, Stamford Hill, have rung their first quarter together. This was on May 15 th when Paul, aged 12, rang his first. In about two years time the family hope to ring six beils to a quarter.
A band of youngsters, with the help of Mr. E. M. Atkins and Mrs. Hood, rang the bells of St. Michael's, Teignmouth, immediately after the Royal wedding. The young ringers were Philippa Russell (13). Ian Hay (13), Michael Colquhoun (15). Elizabeth Rossiter 113). Danny McCollough (17). Ian McCollough (18) and Andrew Mackenzie (15).

## GOSSIP

After two hours' ringing in . shire, the seventh bell broke a gudgeon pin and crashed into the pit. The bell was nol cracked, but considerable damage was done to the fittings. The bells are now out of commission until they have received the bell-founders' attention.

The first peal on the bells of Brislington, Bristol, was rung on April 28th.

The latest addition to our press secretaries is Miss Sheila Percival, of The Elms, Pedley Lane, Clifton, who represents the Biggleswade District of the Bedfordshire Association.

Who was the ringer who took the band in his ban for a peal attempt. and, over the usual drink afterwards before a long return journey, said he would rub some grease on his hands and tell his wife he had had a puncture. only to find when he returned to the parked van that he had got-a puncture!

The Misses J. C. Davey and S. A. Hayward. of Brentwood. Essex, visited St. Paul's, Bedford, on May 8 th. and impressed the local band by the way they rang their first course of Grandsire Caters. 'A credit to their instructor and themselves,' comments our correspondent.

Mr . J. Euston. of 28, Fairmile Avenue. Streatham. S.W.16. who is organising this year's veterans' reunion in London in place of Mr. Coles. on June 18th. explains that the date was chosen to give the most hours of daylight. Any of the younger generation who can provide transport or bring or escort a veteran will be welcome.

Unfortunately a quarter peal of Minor only could be rung to celebrate the return of Wakefield Trinity R.L.F.C., following that team's victory over Hull in the Rugby League Cnampionship Cup Final. A break followed ringing on ten bells, and when it was time to begin a quarter peal only six ringers could be mustered, others being presumably lost in the vast crowd ( 40,000 strong according to some reports) which thronged the team's route through Wakefield from the railway station to the Town Hall.

# THE WHITECHAPEL BELL FOUNDRY 

ESTABLISHED

## LINCOLN DIOCESAN GUILD'S GOOD YEAR

THE 61st annual mecting of the Lincoln Diocesan Guild was held, as always, at Lincoln. on April 30th. whell over 150 members enjoyed he usual warm welcome from the city clergy and ringers. There was ringing for all tastes at the Cathedral, St. Giles's, St. Peter at Gowts and Si. Botolph's.
Those attending Cathedral Evensong heard an interesting address given by the Archdeacon of Lindsey, the Ven. E. L. Marsden. Tea was served in the ancient Chapter House by ringers' wives and friends. The Dean. who is president, thanked all who had helped with the preparations of a most enjoyable tea.
At the business meeting, the president presided and all the officers were re-elected. Mr. J. A. Freeman notified the meeting that this would be the last time he would offer himself for re-election as Guild Master. He felt that the time had come when someone better able to keep in touch with all the branches should hold the office.
This was heard with regret and the president expressed the feelings of all when he said that it was typical of the Master to take this difficult decision in this way. Mr. Freeman had felt it was the right thing to do so he must do it

Messrs. John Freeman, G. E. Feirn, J. L. Millhouse and J. Bray were elected representatives on the Central Council for the next three years.

After some discussion it was agreed to include the Guild Librarian on the Guild Committee with the necessary change of rule. Notice was given that a proposal would be put forward at the next annual meeting to include Central Council representatives also on the committee

The president spoke of the successful jubilee dinner and congratulated those responsible for its organisation.

The Master, in his annual report, also referred to the dinner and expressed appreciation to Messrs. J. Bray and J. Freeman for their work in this connection. He repeated what he said ten years ago, that they could look back with satisfaction at the steady progress which had been maintained and they still held a prominent place in the Exercise.

Our record of Sunday service and peal ringing is of a high standard and here let me make it clear that the former should be our first duty as church bell ringers, with regular and punctual attendance. Nevertheless. peal ringing has its place in our life and is a measure of the vitality of the Guild.

Our peal total for the year is 131, much higher than last year. and has only been surpassed twice before, and while no particularly outstanding peal has been rung. I think this has been a very successful year throughout the Guild.'

During the year Coningsby bells have been rehung and Belton bells have been augmented from four to six.
A very pleasing feature of the meeting was the number of young members present.

## A BROADCAST FROM FENLAND

On May 13th. listeners to 'East Anglian Highlights heard an interview between four of the bell ringers of St. Wendreda's Church. March. Cambs. The interview, which took place on the Thursday previous to the broadcast. centred chiefly around the younger ringers. of whom there are 15 , and during the recording the six bells could be heard in the background. ringing to Bob Doubles. Opening the interview. the reporter stated that the hells were not the oldest in the Fenlands but were regarded by East Anglians as possessing fine tonal qualities.
One of the ringers described to listeners the method Bob Doubles, and the difference between full peals and quarter peals, and the younger ringers (two boys and a girl) spoke of their ambitions with regard to bellringing. and told of why they were attracted to the art. It was the first time that the bells of St. Wendreda's Church had been 'on the air.'

## MR. JOSEPH T. DYKE,

## Hon. Member, Central Council.

Mr. J. T. Dyke is one of the great stalwarts who has pionecred for a good standard of ringing in Somerset. Like so many other highly distinguished members of the Exercise he is a teacher by profession. He is amongst that gifted band of people who can not only show how ringing should be done-but can teach how to do it; for as we all know, it's not always the best ringer that makes the best teacher.

His greatest joy is teaching six and eight bell bands to ring, and teaching their conductor the art of conducting a peal. The result of some of his efforts is reflected in the remarkably good ringing which is broadcast on Sunday mornings in the Light Programme. Although Joe is not completely satisfied with
it, there is no doubt that many bands, up and down the country, wish that they could ring half as well Joe Dyke's was the inspiring influence which produced such a satisfactory result.

He was born in 1892 at Burton-on-Trent, and educated at the Grammar School there, and Cheltenham Training College, matriculated at London University in 1910, and commenced teaching in 1912. He learned to ring at Burton, in 1908, and rang his first peal there in 1909. How fortunate he was to be in Burton at that time, for they had a remarkably high quality company with the standards laid down by the Wakleys, Joe Griffin, John Austin, and others in that famous band, which made ringing history in those days! He joined H.M. Forces in 1914, and served overseas in the Gloucester Regiment during the war, transferred to the Machine Gun Corps in 1916, and became a prisoner of war in 1918.
At the conclusion of the war he returned to teaching in Somerset, and he made a great impact on ringing in that county. His ability was soon recognised, for he became a branch secretary of the Bath and Wells Diocesan Association, and was elected general secretary in 1925. serving in that office for 28 years. His peals total is about 700, of which he has conducted 400 . Amongst his notable achievements are turning in the tenor at St. Mary Redcliffe to Cambridge Surprise Major, Royal and Maximus, Queen Camel tenor to Minor, and Sherborne Abbey tenor to Major. He even rang Redcliffe tenor to Major before the bells were rehung, a colossal job at that time. He also took part in the record peal of 15.312 Cambridge Surprise Maximus at Ashton-under-Lyne, conducted by William Pye. On several occasions he took part in two peals of Cambridge Maximus in one day.
He has been a member of the Central Council since 1927, serving on the Standing Committee. and was also a member of "The Ringing World' Committce until illness overtook him. He was mainly responsible for the first beginners instruction book put out by the Council. All his friends in the Exercise will wish him well.

JAFUS.

## ESSEX ASSOCIATION

## Northern District

The usual warm welcome awaited the ringers of the Northern District of the Essex Association and their friends, when they met at the Church of St. Mary, Great Dunmow, on May 14 th.

The Vicar, the Rev. D. Callum, conducted the service, which was choral, and Mrs. Coates was at the organ. An excellent tea was provided in the Church Hall by the local ringers and friends.

Fifty-one members were present in the afternoon and they represented eighteen different parishes. One new ringing member was elected, Mr. R. Martin, of Halstead.

It is hoped to hold the next meeting at Colne Engaine on July 2nd.

Votes of thanks were expressed by the District Master, and Dr. Castleden replied on behalf of the Dunmow ringers.

## THE PROFESSOR WOULD LIKE TO KNOW

If it was pure coincidence that. on the day of the Rugby League Cup Final. a pack of Wakefield ringers descended upon Hull to ring at the reopening of the Holy Trinity's bells?

He understands, however, that there is no truth in the rumour that a little "loose forward' was rung to celebrate the occasion. or that one ringer during a temporary lapse in Stedman was instructed to carry out a 'stand-off half-turn.'
He also dismisses as sheer fabrication the report that a furore was created by the omission of an aspirate when someone suggested it was about time to 'Turner in.'

## LANCASHIRE ASSOCIATION

## Presentation To Mr. R. F. Eccles

 THE annual meeting of the Lancashire Asso1 ciation was held at Morecambe on April 30th. Ringing commenced at 10.30 a.m. and the following towers were available: Lancaster Cathedral R.C. (10), Lancaster Priory (8) and Holy Trinity, Morecambe (8).The annual service was held in Holy Trinity Church, the preacher being the Rev. G. Snowdon.
An excellent tea was enjoyed in the Parish Hall, immediately after which a presentation was made by Mr. John Woods, of Lancaster, on behalf of the branch and friends from an adjacent branch, to Mr. R. F. Eccles. of Morecambe. who had resigned from the secretarysnip of the branch owing to his leaving the district. Mr. Woods thanked Mr Eccles for all he had done for the branch and wished hime every success for the future. Mr. Eccles suitably replied.

The general secretary thanked the Rev. G Snowdon for the welcome extended to the Association. and asked him to convey thanks to the organist and choir for their services.
The honorary vice-president (Mr. P. H Derbyshire) opened the meeting in the absence of the president. The minutes of the last annual general meeting were confirmed, and it was proposed that a vote of thanks be recorded to Mr. G. Thwaites for the tremendous amount of work he was carrying out on the 'Woodhouse Ringing Machine.
Mr. J. Ashcroft was elected vice-president Mr. F. Dunkerley re-elected secretary. and the Rev. R. D. St. John Smith, Messrs. P. Crook, F. Dunkerley and J. Ridyard re-elected representatives to the Central Council.

SOUTHPORT APPRECIATED
The report of the committee stated that it was very gratifying to the Association and to he secretary to have received so many compliments, paid by members throughout the Exercise. on Lancashire's welcome and efforts in making the Central Council's visit to Southport a great success. In this matter Miss P. Grimme had given valuable service and it was unanimously agreed to record appreciation to her. The report on expenses incurred for the Central Council's visit was approved, and gratefulness was expressed to those who gave donations.
The report recorded, with sympathy to the relatives, the following losses by death: nonresident, Herbert Knight. Wolverhampton; life ringing member, E. Roger Martin. Preston (former vice-president and branch secretary) ; ringing members: Joseph Leatherbarrow, Newchurch, former vice-president and for 48 years tower-keeper, captain at Newchurch; Charles W. Blakey, Accrington. a capable organiser who contributed to the success of the visit of the Central Council.
The membership of the Association was made up of honorary life members 68. new 1: non-resident members 633, new 38 ; rringing members 1.116 . new 91 .

MISSING DETAILS OF PEALS
The peal secretary's report recorded 110 peals rung during the year, a decrease of 15 per cent on the previous year. Conductors were reminded that it was their duty to give full particulars of peals rung. Six peals had been received giving place. date and method only. These peals were not included in the report because of lack of information and he had not been able to trace them in The Ringing World.

Twenty-four members rang their first peal: 183 their first in some particular method or on higher numbers ; one first as conductor. In all. 262 members took part in peals, which was 17.1 per cent. of total resident members. Leading conductors were Derek Ogden 11, Edward Jenkins 10 : leading peal ringers. John P. Parkington 36, Edward Jenkins 19, Roger Leigh 19.

## RINGING CHORISTERS FROM LINCOLNSHIRE

The team which rang the quarter peal on Aprit 28th at Saxilby to commemorate the birth of a son to Mr. and Mrs. J. M. Blaikie. As Mr. Blaikie is organist-choirmaster at Saxilby it was thought fitting to choose a team of choristers to do the ringing on this occasion. Back row: M. Keyworth (bass), J. B. Nicholson (bass), H. Dove (tenor). Seated : Shirley Guymer (soprano), J. M. Blaikie (organistchoirmaster), Pamela Cox (soprano). All are members of the Saxilby Sunday service team and the Saxilby church choir. Mr. Blaikie is also a member of the P.C.C. and Lindsey Branch representative to the Lincoin Diocesan Guild.

The following firsts for the Association were rung: Cholmondley Surprise Major; Spliced Plain Major, 9 and 15 methods; Londinium Surprise Maximus

The reports and the audited balance sheet were approved.

The tollowing members were transferred to life membership: Mr. W. H. Fowler. Brindle; Mr. J. Wilson. Kendal: Mr. F. T. Postlethwaite, Lancaster, and Mr. W. H. Ratcliffe, St. Anne's-on-Sea.
The general secretary. on behalf of the Association, closed the meeting with a vote of thanks to all who had in any way contributed to the success of the day, which. he was sure, had been enjoyed by all present.

## BATH AND WELLS DIOCESAN ASSOCIATION

The attendance at the Chew Deanery quarterly meeting at Wrington on April 30th was disappointing during the afternoon and at tea but the tower was filled to capacity in the evening. This was referred to at the business meeting with Mr. H. W. Knight in the chair, when it was decided that members and visiors should signify their names for tea at the quarterly meetings in order that a reasonably accurate estimate for catering could be obtained.

Three new members and one lapsed member rejoined from Portbury: two lapsed members from Clapton-in-Gordano and one new member each from Yatton and Nailsea were elected.

The Rev. C. S. L. Alford conducted the service and ringing reached Cambridge Surprise Royal.

## SALISBURY DIOCESAN GUILD

## Dorchester Branch

Sunny spring weather was the setting for the spring quarterly meeting of the Dorchester Branch of the Salisbury Diocesan Guild of Ringers. at Preston. The Guild service was conducted by the Vicar, the Rev. P. H. W. Isdell-Carpenter, who spoke of the wonderful heritage in the bells of parish churches. Mr. J. Slade (Deputy Ringing Master) was the organist.
The business meeting was conducted by the chairman, the Rev. C. E. C. Brinkworth. The honorary secretary. Mr. R. H. Duke, mentioned that a message of congratulations had been sent to the Queen on the birth of Prince Andrew. and that a reply had been received from the Palace.
There was a new appointment. said Mr. Duke. that of Guild Librarian. a post filled by the Rev. W. Uphill, formerly vicar of Stower Provost and honorary secretary of the North Dorset Branch. New members elected were Mr. M. Thomas (Ringing). Mrs. H. Howard and Mrs. A. Timms, of Wyke Regis (Associate).
The next meeting was fixed provisionally for Bere Regis in June. Branch practices wero arranged as follows: Litton Cheney, Wool. Fordington. Cattistock. Piddletrenthide, Upwey. Abbotsbury, at fortnightly intervals. from May 7th. subject to confirmation.
The chairman thanked the ladies who had served tea. and Mr. J. Rose (Deputy Ringing Master) moved a vote of thanks to the Yicar for his welcome and to the organist
R. H. D.

## LETTERS <br> MORE ABOUT BELL BROADCASTING

Dear Sir. -1 compliment B.B.C. T.V. on the All Your Own programme in which the youthful ringers were interviewed on Sunday afternoon (May 15th). What a contrast in the evening (after fixing up new batteries for my wife to enjoy hearing St. Mary Redclife), and tuning to Home Service in good time wc were rewarded with the last blow only of the tenor of these bells.
Similarly, a week ago, four Isle of Wight peals were broadcast for which my help was enlisted in arranging the recordings. The whole of these were allowed about $1 \frac{1}{2}$ to 2 minutes and one. Godshill. partly obliterated by a voice. while an organ had 4 to
5 minutes. as also a choir of monks from Quarr Abbey. Never again do I put myself out to arrange another recording.-Yours.

## Newport. Isle of Wight.

## 「HEOLOGICALLY INCORRECT•

Dear Sir, - The letter from Mr. W. E. Strawson. of Sarratt. makes strange and dislurbing reading. One hears occasionally of resirinions placed on ringers in their towers by various incumbents with their own individual ideas. but this is. I think the first time that we have hearc of a young ringer (who is. by Baptism, a full member of the Church of God) being forbidden to ring, simply hecause she has not yet received the Sacrament of Confirmation. Neither the Roman Church nor any of the Churches of the Anglican Communion have ever taught that one is not a full member of the Church until one is confirmedindeed. in the Roman Church. Confirmation is not considered essential for the reception of Holy Communion. As one is made a member of the Christian Family through Baptism, I am convinced that the action of the Rector of Sarratt is theologically completely incorrect. It should. cbviously, be the ideal to have a band of ringers all of whom are regular communicants. but surely it is not essential for a young ringer to be a communicant before being allowed to ring for services-particularly when we gather that the young ringer in question regularly attends service after ringing.
It is very difficult in a case like this to
uggest what action Mr. Strawson could take. suggest what action Mr. Strawson could take. as unyuestionably the Rector has the legal right to decide who shall or shall not ring in his tower: but 1 venture to suggest that if action of this kind should become widespread large number of towers which rely on young boys and girls to keep their bells going will soon become silent if Confirmation should hecome an essential qualification for admission to the belfry. Obviously it should be the ideal for all baptised Christians to receive Confirmation and become regular communicants. but in my opinion to apply such a restriction. as is apparently being applied at Sarratt. is going much too far. 1 wonder if one of our more senior clerical ringers could suggest a solution to what is certainly a
dificult question? As the bells at Sarratt have dificult question? As the bells at Sarratt have only very recently been augmented to five. and there is presumably a new band. it would be a great pity if their enthusiasm should be damped so early in their ringing career by completely unnecessary restrictions.-Yours
sincerelv. sincerely.

PETER N. BOND.

## Fordcombe. Kent.

NOTE-We thank other readers who have written on this subject. but at the request of a Heriford County Association official we are closing the correspondence.-Ed.

## LOUGHBOROUGH COMMENT ON KIRKBY-LE-SOKEN RECORD

Dear Sir.-I should like to make a few comments on the reports of the 22.400 Bub Major at Kirkby-le-Soken. I am sure many ringers will agice with me that this peal was but a poor performance compared with the 21,600 Bristol rung by John Norton and his band, even of it was a few changes longer.
Great emplasis was laid on the aspect of progress made-this is doubtful to say the least. Why did they not ring Bristol? you ask. There is an easy answer to that. I think. All this would be excused with good grace. hut for the fact that their conductor and your leader writer have taken the pains to preach a sermon to those of us who have attempted to ring 40.320 Bob Major at Loughborough.
In the first place. we rang 28,000 odd on one occasion. The reason this came to grief sounds to be extremely like one event reported hy Mr. Lufkin. One of the ringers. attempting to snatch some food, momentarily lost control. He 'thought fit' to say ' 4 th after tenor:' or some such thing-like me. I consider he should have thought fit to say - Stand: Their comments upon discipline and talking seem rather superfluous, when it is shown that the old. old bogy-playing around with food -marred their own performance. No. Mr. Lufkin-you have not reached the dizzy heights yet-take your band to Loughborough. and do what we have done, for a startthen learn Bristol and give us something to congratulate you upon.-Yours etc..

## STEPHEN IVIN.

Houghton Conquest.

## CHARGES FOR PEALS

Dear Sir.--In reply to the Rev. L. J. Birch. who thinks a fee should he charged for the wear and tear of ropes and other gear when peals are rung. I should like to pass on to him what arrangement we have with peal hands here at Dorchester St. Peter's.
For an attempted peal rung by a band outside the membership of the tower. there is a fee of $£ 11 \mathrm{~s}$. to be paid. In this way the number of peals that are rung are few, which perhaps is a good thing. as the people living nearby cannot complain that the bells are rung too often. Ariy who do ring a pcal here usually pick a band that is reasonably sure of scoring the peal. and in that way we usually maintain a nigh standard of ringing and striking.
The rule of this fee for peal ringing was made in 1913 when the rules of the St. Peter's Society were drawn up. This rule still stands. although some of the other rules have been revised recently 10 bring them into line with these modern times.
If more towers were to charge a fee as we do. there would be fewer peals rung, which would give more experienced ringers more tume to help the less experienced, and so improve the standard of ringing in their own particular locality.
Whilst on the subject of peals-1 have occasionally noticed reports of peals rung half-muffled in a Major method. How can anyone bear 10 listen to a half-muffied tenor turned in with all the other bells? Any bells always sound their hest half-muffled whether ir be six, eight. ten or twelve, but to do them justice and to appreciate the grandeur and solemnity of half-muffled ringing let us have the tenor covering.-Yours sincerely.
R. H. DUKE

St. Peter's. Dorchester.
Dorset.

## SURREY ASSOCIATION

## Economy Over Report Produces Healthy Balance

FORTY-SIX members and friends sat down to tea ir the brand new hall of St. Johnthe Baplist, Croydon, ort April 30ih, for the annual meeting of the Surrey Association. The Vicar welcomed us and was thanked for taking the service and for his address. The service was read from the Association's new book for the tirst time.

At the business meeting. the committee reported little change in the health of the Association during the past year, but the treasurer announced a $20 \%$ increase in the General Fund bilance to ovei £153. chiefly due to the Central Council representatives paying their own expenses, and the homemade annual report. Three new members were elected.

Before dectaring Mr. F. E. Darby the new Master. Mr. Fr, E. Collins said how much he had enjoyed his term of office, and wished his successor every success. Mr. Darby than took the chair, and declared the following re-elected for 1960: General secretary, Mr. R I. F. Parsons; treasurer, Mrs. K. Chilcott; auditor. Mr. T. A. Blow; assistant secretary. Mr. F. E. Roherts; C.C. representatives. Messrs. A. P. Cannon. F. E. Collins. W. F. Outway, liaison officer to Guldford Guild. Mr. F. E. Collins. It was agreed 10 move the library from St. John's, Croydon, to St. John's Church. Redhill, with Mr. F. E. Roberts as librarian.

Several alterations were made to the rules. including one permitting certain district and general offices to be held by one person beiteen the District and Assuciation annual mectings: and another 10 make the balance between district and general funds more flexihle.

The new Association service hook was next discussed and members complimented those responsible on its excellent contents, style and printing. The bell on the front cover was a drawing of St. Lawrence, Jewry tenor, and also appeared on the report circulated at the meeting. The next annual general meeting was fixed for Reigate. on April 15th. 1961.
A sub-committee of six was appointed to meet the Guildford Guild for discussion on their latest proposal, which suggested exploring ways and means of associating the work of the two bodies. The meeting stood in memory of Mrs Marjoric Kitchen, of Thames Ditton, who had died in February, and after the usual votes of thanks to the retiring officers. to the tea-providers (and a jolly good tea it was!). to the vicar and organist, members returned to the tower to ring anything from rounds to Cambridge Surprise Maximus.
F.E. R.

## YOUNG RINGERS IN THE VALE OF EVESHAM

During the Easter holidays young ringers from Wychbold and Stourbridge toured the Vale of Evesham with the blossom on the trees at its hest.

At St. Stephen's. Redditch. they were told they were the youngest hand to ring the bells. Belfry prayers. led by the Vicar. preceded a good quarter of Doubles at Beoley. The rarely-rung old six at Coughton (Bagley 1686) were raised and rounds rung. The night was spent at Birom Hall Youth Hostel.
With the help of Michacl Sclby, a quarter of Boh Minor was scored at Cleeve Prior the next day. The heary five at Honeybourne went very hadly and only a few rounds were rung. The Vicar remarked that the band's efforts were well up to the average. Lower Quinton was thought to have one of the best sixes in the Midlands. Grandsire and Plain Bob were rung and there were compliments from local residents on the striking. The light six at Clifford Chambers and the eight at Bidford-on-Avon finished the day s programme and night was spent at the youth hostel.

The route on the last day was through the orchards of the l.ench Hills to Salford Priors (a beautiful eight). Church Lench. Bishampton (where a quarter was rung), Upion, Snodsbury and Crowle were visited. The average age of the band was only $14 \frac{1}{2}$ years.

## A ROYAL WEDDING TOUR

On May 7th a party of eight ringers set of at $7.30 \mathrm{a} . \mathrm{m}$. in two cars, one starting from Andover. the other from Thatchum, to visit seven six-bell towers in Wiltshire and Somerset The object was to ring a 720 in each tower and a different method in each.
This was successfully achieved, and ended with a quarter peal. All the ringing was in honour of the Royal wedding.
Towers visited and methods rung were as follows: Devizes St. Mary's, 720 Kent T.B.: Kilmersdon. 720 York Surprise: Radstock, 720 Durham Surprise; Croscombe, 720 Oxford T.B.: Bruton. 720 Cambridge Surprise: Sutton Veny, 720 Plain Boh: Heytesbury, Wilts, 720 London Surprise and 540 Plain Bob.

Taking part were Miss C White. Miss H White. E. Woolgrove B. Mills. G. K. Dodd (conductor). R. Crook and R. W. Rex. At each tower Grandsire Doubles was also rung with Miss Jill Jarrett taking part.

A most enjoyable day ended at 11.30 p.m., with thanks 10 all incumbents and to all who met us.
R. W.R.

## MANCHESTER UNIVERSITY GUILD DINNER

A change of venue for the second annual dinner enticed 31 members and guests 10 gather together for a sumptuous meal. After the coffee, the president, Mr. D. Ferguson, expressed his delight at the growth of the Guild from it: small beginnings. 13 years ago, and then proposed the loyal toast. The secretary, Miss P. Walker. welcomed the visitors and singled out Mr. George fearnehough, who had opened his house (and larder!) to the Guild on many Sunday evenings. Mr. D. Taylur replied for the visitors.

Belying his assertion of not being a good after-dinner speaker. Mr. Fearnehough proposed the toast of The Guild. He was grateful to the Guild-not least for providing his son with a fiancée and for visiting himin spite of the interminable argument which took place whenever ringers met. The Ringing Master. Mr. David James, replied and expressed the hope that visiting would still be allowed.
After the pleasantries, the annual general meeting was held. The Master asked the president about his insignia of office-including the famous mat emblazoned with Parker's twelve-part. Mr. Ferguson oftered the mat to the next president. since he felt that after 13 years he should retire. The Master thanked Mr. Ferguson for his services to the Guild. before giving his report. The year 1959-60 was one of the Guild's best years: twelveSpliced Surprise had been rung at practice night and there had been six peals (so far!). Two memorable ones had been the Rutland, at Hawkshead. and the Yorkshire, with the freshers. Trevor Taylor (unfortunately absent) was congratulated for leaching learners at Hulme and handbells at *Tech.- not forgetting the eleven-hours marathon in Piccadilly on Rag Day.
Presenting her secretary-lreasurer's report. Miss Pat Walker was thankful for the low lavel of illumination-members present could not notice her new dress and "hair-do" or scrutinise the balance sheet.
The following elections were then made Patron: The Bishop of Manchester: president Mr. Derek Ogden: vice-presidents: Mr. D. Ferguson. Mr. G. Fearnchough. Canon R. H. Hussey; Ringing Master: Mr. Robert J. Warrilow: secretary-treasurer: Mr. Ronald J. Johnston: honorary auditor: Mr. Derek Taylor. Committee: Messrs. Trevor Taylor, John Soanes and Barrie Sheppard.
The members of the Guild would like to thank the retiring officers and committee, and especially at this time George Nix for making all the arrangements for the dinner.
B. A T.

## ARCHDEACONRY OF HALIFAX GUILD

A most enjoyable time was spent at Sowerby. set on the top of the Pennines, by the Archdeaconry of Halifax Guild on May 7th. Ringing was well struck and was in boih Minor and Mlajor Surprise methods. Three methods of Triples were rung and of the Minor ringing both open lead and closed lead ringing was 10 be had.

The local hand provided a well laid out tea.
At the business. meeting the committee asked for younger ringers to the encouraged to Guild meetings. About 15 methods were rung and the committee were well pleased with the steady progress being made. Next meetings: Almondsbury (evening). June 4ih: Northowram. July 2nd.

## BARNSLEY \& DISTRICT SOCIETY

Meeting at St. Marv's. Fcclesfield, sometimes called the Minster of the Moors: on May 14th. the Barnsley and District Society elected three new members and Mrs. Doris Kelley, of Handsworth. as the first lady honorary member. Details were given of the outing into Yorkshire (fare and two meals 25 s .). Felkirk was selected for the next meeting, which will be the shield contest. Mr. Noel F. Moxon thanked the local company for making the arrangements and Mr. Jeslic Smith replied.

## ALPHABET FOR BEGINNERS

By T. J. LOCK
" I"
IN COURSE.-For the purposes of composition, method construction. proof, ctc., it is assumed that there are two kinds of rows. This combination has been described as the - in and out of course , of the rows. To distinguish the two rows their kinds are known as-in course and out of course; even and odd: in phase and out of phase : positive and negative. The term used matters little if the idea is clearly understood and this we hope to explain briefly.

First we assume that rounds is in course even. in phase or positive. To determine the nature of any given row we must find out how many pairs will need to be changed to get back into rounds. If it is an even number then the row is positive or even and if it is an odd number then the row is negative or udd. For convenience we use the plus and minus signs of mathematies to denote even and odd rows.

In actual practice it is not necessary to go back to rounds cach time as we proceed from row to row determining the nature as we go along. The rule of mathematics applies, thatEven plus Even gives Even. Even plus Odd gives Odd. Odd plus Odd gives Even. Odd plus Even gives Odd
The following example will probably make it clear-
Rows Nature

## Explanation

123456 t. Even Assumed to be Even.
214365 - Odd Odd number of pairs change. 241635 - Odd Even number of pairs change. 426153 - Even Odd number of pairs change. 452513 + Even Even number of pairs change 645231 - Odd Odd number of pairs change.
IN THE HUNT.-A bell which is coursing the path of the treble is said to be in the hunt. It would naturally be the second bell in at plain course but, of course, could be any of the working bells in a touch. although in order to get the bells back into rounds the second would be the last bell to be called into the hunt. The term is restricted to a very select few of the Plain methods such is Grandsire and Double Norwich Court Bob when rung on an odd number of bells.
INSTRUCTOR-Under this term I want to consider the importance of an instructor, and discuss generally but very briefly some necessary qualities he should possess. Instruction in practically anything has far reaching results within the extent of the subject taught. and with bell ringing there is much at stake.
The ringing instructor 'moulds' his learners and when, as is usual. he is tower captain as well there is the safc conclusion that a competent and thorough instructor will produce competent and thorough ringers-providing le gets the right metal to mould! On the other hand. an incompetent and slovenly ringer reflects bad instruction and his pupils would not reap the enjoyment of good ringing. It follows then that an instructor would be at an advantage if he possessed personality, patience. perseverance and an optimistic outlook. and also the ability to control in a firm but kindly manner all kinds of youthful characters. He should himself handle a bell properly, strike it correctly, be able to conduct and. preferably from experience. have a good hnowledge of the technical terms and various methods. One other vital matter is that he must encourage progress and never. never attempt to stop any of his band becoming a retter ringer than inimself.

## A PRE-REFORMATION FOUR

The four pre-Reformation bells at Spetchley, Wercs. were rung on May 6th to salute the Royal wedding. They had not been raised sine about 1940 and before this was done ropes were fitted and the bells well-greased. The bells went very well and a quarter of Spetchley Minimus was rung. despite the odd rope circle and showers of rubhish descending through the holes in the ceiling. The treble ringer found it necessary to wear a sou-wester' for the quarter.

## OUTINGS

## CHESTER AND DISTRICT

Ringers from Chester, Buckley, Dodleston and Flint had a very enjoyable outing in Shropshire and Staffordshire, on April 27 th when ringing was enjoyed at Oswestry. Westbury. St. Chad's. Shrewsbury. Hodnet, Neweastle-under-Lyme. Tunstall and Crewe.

Four members of the party placed cars at our disposal and in addition to the pleasure of ringing at fresh towers, the bells in each case giving satisfaction in every respect, we fully appreciated the journey through the spring countryside.

A good standard of ringing was maintained throughout the day, and it was very pleasing to note that the younger members, who had never previously rung on 12 bells. acquitted themselves very well at Shrewsbury. Special thanks are due to the Rector of Westbury, who entertained us to mid-morning coffec and cakes, which were most acceptable. J. W. G.

## WYLYE VALLEY TOUR

A company that included such personalities as A. Patrick Cannon, Peter N. Bond, Bill Stote and Clive Smith, all with over 1.000 towers to their credit. met at Wilton. Wilts, on May 7th for a tour of the Wylye Valley.

Towers visited were South Newton (6). Wishford (5), with iron poker stays and the tenor rung from the stairway. Steeple Langford (5) Wylye (5). Chitterne (5), Shrewton (5). Boyton (5). Sutton Veny (6). Norton Bavant (5). the only tower new to all the company Heytesbury (6). the best bells of the day Dinton (6). Compton Fhamberlayne (6) and finally St. Thomas'. Salisbury.

Even plus Odd gives Odd.

## BEDFORDSHIRE ASSOCIATION

Members of the Biggleswade District met at Blunham on Saturday. May 14th. and were pleased to welcome visitors from the Bedford and Luton districts and also from the Ely Diocesan Association.

It was rather a warm afternoon for ringing the heavy six but various methods were rung. including the special methods. York Surprise and Canterbury Pleasure Bob. a method rarely rung in this district.

Ringers joined the local cricketers in the village hall for an excellent tea arranged by Miss J. Harding, one of the local band. After tea. Mr. B. Sims took the chair for the husiness meeting at which threc new members from Blunham were elected. Next meeting at Eaton Socon on June llth
S. P.

## MERROW, SURREY

Organised by Valerie Bundy. Merrow ringers had an enjoyable outing on May 7th, the first tower being the six at Kingsclere. where London Surprise was rung. The ringers of Highclere were enjoying their own outing but left a note of welcome in the belfry. Kintbury was the last lower to be visited before lunch at the Red Lion. Lambourn.

A good course of Cambridge brought the best out of Lambourn bells. The ringing at Newbury (10) was good for six-bell ringers and included Plain Bob. Kent Royal and Grandsire Caters. After tea came Thatcham (8) and the new church at Silchester (5). most difficult to find as it is built on the Roman ruins several miles from the village. The day concluded in prayers led by the Rector.
D.A.R.M.

## PUT'NEY

As usual Putncy ringers, with friends from Barnes, Kingston and Wimbledon, picked a fine day for their outing on May 7th through Hertfordshire and Essex.
Ringing started at North Mymms followed by Walden, where, according to the Rector s instructions. the lock was filed off the belfry door! Yorkshire was managed at Knebworth. where the church has an ideal parkland setting. A cross-country journey followed to Great Hormead where Wells 'was tried.

Saffron Walden, after tea, gave many of the party their first chance of ringing on 12 bells. The bells at Bishop's Stortford were found to be rather hard to handle At the last tower. Much Hadham. most of the party were too tired to do real justice to this long draughted octave. Sincerc thanks go to all clergy and ringers who made such an enjoyable day possible.

## ORSETT, ESSEX

The Constable country was selected by Orsett ringers for their outing on May 7ih. with a picnic lunch by the famous Flatford Mill.

Ringing started on the light six at Wormingford followed by the pleasant eight at Ardieigh and the six at Siratford St Mary. After lunch Easi Burgholt ringers kindly gave az demonstration on their unique bells hung in a hell-cage in the churchyard. With our cars still ringing from these five great bells we went on to St. Peters. Colchester. where on this fine eight our 11 -year-old surprised us all by ringing the treble perfectly to Grandsire Triples.
After tea came the heavy six at Kelvedon and Coggeshall-and who would not enjoy ringing this new eight in the rebuilt church? We are all very grateful to Mr. and Mis. Blatch for organising the day, the incumbents and ringers who met us.
J. E. H.

## 'Prelude ${ }^{\text {' }}$

'Catch hold, then. please!' the Ringing Master calls.
So. jackets pegged. or handbags chaired-they turn
To face the ropes, mute-hanging from the walls.
And first one, then another (with concern
For well-struck go-off) grasps the tufted strand Awaiting now - 'Look to!' - that first command.
Then silence falls, and eyes aside are swung
To upstretched hands, upon the sallies clung.
Now 'Treble's Going!' warns. and ropes grow taut.
As bells on balance poise. before they hurl
Their swinging hammer-tongues each to be caught
Gainst bold metallic lips-in noisesome swirl. Yet one more call. before these sounds come on-
Uncompromising. final-' Treble's Gone!'
1960.

MR. R. BOYLETT
We regret to announce the death. on May $1 /$ hh. of Mr. R. Boylett, of Pirbright. Surrey. aged 51. A loyal and faithful Sunday service ringer he will he missed. Fellow ringers from Pirbright and Worplesdon attended the funeral on May 17 th and rang 720 Grandsire Doubles, half-mufliled, directly after the service.

## OBITUARY

## MR. F. M. MITCHELL

The death occurred in Gravesend Hospital on May 4th of Mr. Frederick M. Mitchell, of Milton-next-Gravesend, after a long illness, at the age of 82 years.
As a young man Mr. Mitchell came in contact with a Rector of Milton, who was a great worker among the youth of his parish. who brought him into the Church of England and introduced him into the belfry. Some years later Mr . Mitchell called a peal of Minor at Milton. in which those taking part had all been baptised and prepared for Confirmation by this Rector.
Somewhere about the end of the 1914-18 war Mr. Mitchell lost his first wife and in 1923 he married Miss Ethel M. Goodship. of Reading, who was one of several gifted lady ringers in that area. After her marriage Mrs. Mitchell kept up her interest in ringing and is now an honoured vice-president of the Ladies' Guild.
In 1930 Mr. Mitchell was instrumental in increasing Milton bells from six to eight and in this connection his name is recorded on one of the new trebles. For twenty years he was in charge of Milton as a six bell tower and during this period he had (except perhaps for Lamberhurst) the most progressive six bell band in the county.
As a member of the Ancient Society of College Youths he was Master of the Society in 1932. This he was extremely proud of.
It is, however, in his work for the Kent County Association that Mr. Mitchell will be remembered for no Association ever had a more faithful servant. He was elected a member in 1908. From 1914-19 he was a district representative on the central committee. For the next ten years he was secretary of the Rochester District, and in 1929 he was elected to succeed Canon Helmore as general secretary of the Association. To accept this office, knowing the man he had to follow. required some courage, but Mr Mitchell filled it with dignity and distinction for 17 years until 1946, when, to the regret of all concerned. due to advancing years and failing health he had to resign.
In 1930 he combined the office of treasurer with his secretaryship and he retained this office after his resignation as secretary until 1956 when his health would no longer allow him to continue. From 1930 to 1950 he also represented the Kent County Association on the Central Council.
His total number of peals is in the region of 250 , most of which were rung in Kent.
The funeral service took place at Christ Church. Milton. followed by cremation at Rochester. Among the family mourners was Mr. Gilbert R. Goodship (brother-in-law) Other ringers present were Mr. E. Barnett. Mr. and Mrs. E. A. Barnett. Mr. J. Burles. Mr. G Butcher. Mr. F. Cullim. Mr. R. Furminger and Mr. G. H. Spice. Mr. C. J. Norris was present at the crematorium.
E. B.

## MR. C. E. AUSTIN

With great regret the Devon Guild, and particularly the Mid-Devon Branch. heard of the death of Mr. Charles F. Austin, of 2, Quarry Terrace. Paignton, which occurred on April 27th. and it was unfortunate that this was not known until after his burial.

Charlie.' as he was always known. was about 85 years of age. and it was only recently that he was made an honorary life member of the Devon Guild. He commenced to learn change-ringing soon after the first world war under the tutorship of the late Mr. Frederick T. Gover. and he was always a good striker. As far as can be ascertained, he took part in four peals of Grandsire Triples. the first one heing in 1928 in his own tower at Paignton (the first peal on the bells). The writer is now the only survivor of that band. For some years he was steeplekeeper at Paignton. and he attended the annual branch meeting at Paignton as recently as. March 19th last. He is survived by a married daughter who learnt to ring in the early twenties.
A. L. B.

## THE GLORIES OF KENT AND ITS RINGING

TTHE appealing title was culled from the letter inviting this article to mark the occasion of the Central Council's third visit to the 'Garden of England.' The writer, of West Country origin and domiciled for a mere two decades, is less likely to look through rose-coloured spectacles than some proud Man of Kent or Kentish Man (or Maid of Kent or Kentish Maid). The distinction, one should explain, is between those born east of the River Medway and those born to its west. though few are ever sure of the correct way round, which is surprising since this same river is the boundary between the dioceses of Canterbury and Rochester, and goes to show that two dioceses or no there is a unity about Kent naturally preserved among its ringers through their county Association.

The county town of Maidstone is itself astride the Medway, and the Maidstone District is the central one of the six into which the county has been divided to give workable units for ringing activities. Londonwards lies the Lewisham District, north and south the Rochester and Tonbridge Districts respectively, matched by the Canterbury and Ashford Districts as you go eastwards. Their boundaries were fixed when railways were enjoying their heyday, but any inclination to revise them in the light of the present day is heavily affected by the weight of tradition. For all the Districts are very different and individual but nevertheless form a cohesive county 'commonwealth' in quite a literal sense. One pertinent reason for thismuch to the credit of the founders of the Association 80 years ago-is that there is a composite and not particulate financial structure, with no continuation funds from year to year in the individual Districts. We sink or swim together. and take pleasurable interest in the variety of activity across the District boundaries.
To reach Folkestone, Central Council members will traverse eastwards through Kent and soe it fresh in its new mantle of green growth the orderly fruit trees. their young fruit beginning to swell, and the hop binds racing up their strings. Free of the outskirts of the Metropolis the rural scene predominates - oast houses and village churches sprinkled around, fringed in the north by the chalky Downs, revealed nostalgically in the white cliffs at Dover. But if the heart of the Kent countryside is the Weald. there is a different loveliness in the wilder Romney Marsh which skirts it in the south. Here sheep abound, with an occasional field of tulips giving an attractive patch of colour. The fine church of Lydd, the 'cathedral' of the Marsh, is a dominating feature, and here one is right away from the holiday crowds. In bygone years the smugglers favoured this outlying corner.

At Folkestone itself another contrast presents itself, between the harbour area and the heights of the Leas Cliff, from where, on a clear day, the coast of France is plainly visible. It is an ideal conference and holiday centre, and non-ringing wives and younger members of the family will have all they need to entertain them while ringing matters are in progress. Fortunately the conference proper is restricted to a single day, so we trust that members, despite all the attractions, will put in a hard day's work.

Already I have hinted that the Kent County is celebrating its 80th birthday, for it was on Whit Monday in 1880 that the foundation meeting was held in the Chapterhouse at Canterbury Cathedral. The two previous meetings of the Central Council in Kent were, not surprisingly, held in Canterbury, the cradle of Christianity, and in 1960 it is hoped that many will include a visit to this most wonderful city. The Archbishop is the Association's president, and we recall with pleasure a recent Association dinner at Rochester when His Grace joined with us and his 'unruly ' Bishop of Rochester.
All members of the Kent County are extremely proud of our one remaining foundation member, Mr. E. S. (' Old Ted ') Ruck, of Willesborough, and it is no coincidence that this tower has such a remarkable record of Sunday service ringing. And here it is appropriate to mention a few names which live in the annals of Kent ringers, beginning with James Barham, of long ago, whose band, the Lenham Youths, displayed remarkable prowess. The ringing of the full extent of Bob Major ( 40,320 changes) at Leeds in 27 hours or so, admittedly with reliefs, was a superb enterprise, and Barham's tombstone in Leeds Churchyard is now maintained by the Association.
As for the Kent County itself, it was built up around the exertions of Canon Helmore, who for 40 years was its general secretary and treasurer. His immediate successor in office was Mr. Fred Mitchell. who has, just died. Ringing is often a family affair. and to exemplify this in Kent who better than the Council's most efficient secretary. Mr. E. A. Barnett. of Crayford, whose father and grandfather achieved distinction before him?
Finally, the bells of Kent, truly a wonderful and varied array. How difficult to pick out individual towers; but the various excursions planned over Whitsun include a goodly sample, ranging from the ring of five in the wooden campanile at Brookland. and the light 12 in the Waterloo Tower at Quex Park, to such lovely octaves as New Romney, Ashford and Headcorn, and the recast ten at Maidstone itself.
Kent, its countryside, its maids and men, its churches and bells, every member of the Kent County welcome the ringers of England to this Garden of England!

## BELFRY

 of ringing at Christ Church. Calgary, flew over the Rocky Mountains to take part in a quarter peal at Christ Church Cathedral. Victoria, on May 6th, in honour of the Royal wedding. She was also able to take part in the ringing for Sunday morning service before flying back to Calgary. The opening of the bells in Calgary, in September, 1958, was attended by Mr. Izard and Miss Margaret Izard, who made the journey by air.Mrs. B. G. Warwick is the first lady to circle Croft, Leicestershire, tower to peals.

Our W'elsh friends inform us that the first peal for the Royal wedding was completed at 12.50 at Cadoxton-juxta-Neath. It started before the wedding ceremony at $10.10 \mathrm{a} . \mathrm{m}$.

The 12 -year-old who rang so competently in the Royal wedding peal at Kingswinford (see page 340) was David Downing and not Antony Fasey. Sorry, David!

The peal rung at Sapcote for the Royal wedding came round at 4.14 p.m. 36 minutes before South Wigston (see page 351). They were 20 minutes late in starting as our correspondent had the cows to milk!

Commenting on 'Alphabet for Beginners' 'H for Home, a varsity ringer writes. ' If Mr. Lock rang Reverse Bob Major he would find 13527486 at the first. lead-end, but the Home "position does not come up at the end of the course.'

Particularly welcome at the Morpeth Watch Towet on May 21st was Mr. R. H. Dove's party from Leeds. When the name of Miss Jennie Aimstrong, who incidentally was celebrating her birthday, was mentioned one lady remarked, 'O yes, we see her name in "The Ringing World."

Miss Monica Collins, of Guildford, and now of the Bush Narsing Hospital. Lilydale. Victoria, tells us that she has already developed an 'Aussie" accent and has also a brand new car to cover the 23 miles to Melbourne. Our peal columns reveal that she has rung two geals in two successive weeks.

## GOSSIP

Mr. George Pipe, from Melbourne. writes: "You might like to record Australia's appreciation of the efforts to improve "The Ringing World." which several ringers here now enjoy. I think that on its present form it has never been better, especially when the 24 page issues appear.
Soham Grammarians finished their peal for the Royal wedding on May 6th at 2.39 p.m.

A peal attempt for the Royal wedding of Bob Royal at St. Peter Mancroft came to grief half-way through owing to a shift course.
Mr. Roy D. Tomlin has called his first peal -Holt's Original! He acknowledges the inspiration of the Beddington. Surrey, band in learning the composition, which he called at the first attempt.

When St. Matthias' choir, Richmond, visited Walthamstow to give a recital of Easter music on April 26th, five members of the local band and tive from St. Matthias': Richmond, Guild (four of whom were choristers), rang in a quarter peal of Plain Bob Royal.
Mr. H. W. Barrett, Ringing Master of the Norwich Diocesan Association, calls our attention to the faultless ringing of three ladsMichael Utton. Richard C. L. Brown and Michael J. Parker-in their first attempt for a peal at Lowestoft on May 21 st.
Mr. Michael Hill Brown, who has left Twickenham for Montreal, Canada, has been a ringer at Twickenham since the installation of the bells in 1950 and a member of the choir since 1948. After the quarter peal the Vicar (the Rev. J. H. A. Charles) presented Michael. on behalf of the choir. with a book and a record of the choir singing a hymn during a broadcast service in which he took part.

Chelmorton. near Buxton, bells are being rededicated on June 26th. Two of the old four have been recast and in order to make a ring of five. Col. J. C. Cavendish. of Derwent. has given two of the old bells from Derwent. One of these has been recast and the metal of the others gone into the new tenor at Chelmorton. There is a frame for six hells.

## THE WHITE CHAPEL BELL FOUNDRY

ESTABLISHED

# Folkestone's Welcome To The Central Council 

## By JOHN WILLIS

Vice-President and Acting Chairman, Kent County Association
Members of the Kent County Association, and especially those residing in East Kent, are particularly pleased that this year, on Whit Tuesday, the Central Council will meet at Folkestone.

Folkestone is well accustomed to conferences of all kinds, and to please the eye of the visitor there are lavish displays of flowers to beautify a naturally lovely locality.

The Council will be honoured by a civic welcome from the Mavor of Folkestone (Ald. F. W. Archer), and the Church will be repkesented by the R1. Rev. the Bishop (Suffragan) of Tonbridge and Canon J. F. Hough, M.A., Vicar of Folkestone.
Hotels and guest houses of all types will seek to provide pleasure 10 the palate and restful comfors for weary ringers.

Weary they will indeed be if they visit all the towers-about 50-listed in 'The Ringing World ' (May 6th, 1960, p. 313) where, through the work of the District secretaries, Messrs. Hillis and Phillimore and Mr. J. R. Cooper (Ringing Master) the kind co-operation of the clergy and other authorities has been secured. Dr Hatcher has been in general charge of arrangements with Mr. A. Berry taking care of reception tickets.

Ringers, old and young, will join in welcoming the Central Council, and they confidently expect to hear striking worthy of such an exalted body.

## CENTRAL COUNCIL VISIT

## Additional ringing arrangements

Owing to a wedding. Newington bells will be available only from 9.30 to $10.30 \mathrm{a} . \mathrm{m}$. on Saturday. June 4th. and not as previously stated.

Folkestone Parish Church will be available on Saturday. June 4ih from 7.30 to 9 p.m.

## MORE BELFRY GOSSIP

Dr. D. J. Neal Smith learnt to ring at All Hallows. Twickenham, and not at St. Catherine's. Felstead, as has been previously stated.
Tenterden ringers appreciated Mr. Paul L. Taylor standing in a quarter peal on May 14 th in place of Miss Yeo, who had strained her shoulder. Mr. Taylor had been inspecting the bells. which require attention

A peal board has been placed in the ringing room of St. Mary's. Hampton. Middlesex. 10 commemorate what must be the campanological performance of the past-quarter century the peal of Scientific Triples rung in July, 1958, under the conductorship of Robin G. Leale
An officers peal of the Kent County Association for the late Mr. F. Mitchell is being arranged to take place at Milton in the near fulure. On the evening of his funeral the whole pull and stand was rung at Milton Parish Church.

After losing a peal of Kent T.B. Minor at Whitchurch. Glam. on the day of the Royal wedding. the band made a second attempt at Peterston-super-Ely on the following Tues day. After about 20 minutes ringing, the Vicar. who had another key. entered the church and asked the band to stop for about 20 minutes. When ringing was resumed there was enly time for a quarter peal.

Among the recent group of registrations of membership of the College of Campanology is yet another overseas one-that of Mrs. Valhalla Grossmith. of Umvukwes (P.O. Box 43). Southern Rhodesia. She will be better remembered as Miss V. Hill. and she sends grectings to all old ringing friends, especially those of whom she has peal-ringing memories, in Oxford and Leicester.

## SERVANTS OF THE EXERCISE - No. 23

## MR. (HARLFS J. SEJ)GLEY

## St. Mary-le-Tower, Ipswich.

Mr. Charles J. Sedgley. although born in Norfolk, has spent most of his life in Suffolk and to him, together with G. E. Symonds, must go the credit of not only maintaining. tut greatly enhancing. the very high standard of ringing established by the late James Motts and his contemporaries in the St. Mary-leTower band at Ipswich.
Mr. Sedgley has excelled in the art of composition. and his contributions have been timely and exceedingly useful. He has some very strong views on how peal compositions should be set out when published and would

Miss Judy, Robinson was ringing her first peal inside, on eight bells and not first inside 'at Shirley (see page 341 ).
The treble in the quarter peal at Bures (see page 360 ) was rung by D. W. Brooks and not as stated. Mr. C. Bower who is leaving for Colchester has resided at Bures for 71 years.
With the peal at Leire on May 18th, Mr. Ernest Morris has rung peals of 5.000 changes and over in every possible in tower in Leicestershire with five bells and over. These comprise: 30 rings of 5.58 of 6.41 of 8 . 4 of 10,2 of 12 a total of 135 . There are four impossibles - Church Langton (8). Shawell (5). Skeffington (5), Stapleford (6 hung dead).

## SHEBBEAR COLLEGE

Shebbear College Society had an enjoyable week-end leaving the College at 4 p.m. on Friday. May 13 th. and arriving at Haslemere at $8.30 \mathrm{p} . \mathrm{m}$. Met by Philip Stevens and a local schoolboy the party set off for London the next day and had the great privilege of ringing at St. Clement Danes' and a visit to the Whitechapel Bell Foundry, where they were conducted around by Mr. A. A. Hughes. The evening was spent at Maresfield. Sussex. where there was ringing before being hospitably entertained by Peter Turner's family

On the Sunday the return journey was broken at Calne. Wilts, for ringing on the eight hells. Junch with the Slee family at Bristol. ringing for Evensong at Minehead with the local band and a late tea with Mr. Clifford. College was reached at 10 p.m. The kindness of the many friends who made the trip possible will not be forgotten. Thank you all.
like the notation to be placed before the resulting course end-not after as is the general practice. Indeed, so strongly is he convinced of this that in 1946 he moved a resolution to get the system changed when the Central Council met at Norwich. Tradition in ringing, however, dies hard, as it does in many other things, and his resolution was not passed.
Born in 1887 at King's Lynn, where his father was a ringer. he learned to ring there, and he rang his first peal at Stow Bardolph in 1906. This was Bob Major. conducted by Frederick R. Borrett. He moved to Ipswich in 1909. where the first peal ever of Cambridge Surprise Maximus had just been rung, and such was his ability that when the second peal was rung, a year later, he took part in

He was in the forefront in developing Surprise Maximus ringing at Ipswich and, jointly with George Symonds. increased the range of methods to an astonishing degree, thus placing Ipswich at the very top, by ringing the first peals ever rung of Superlative. New Cambridge. Yorkshire. Pudsey. Rochester and York Surprise Maximus. This was the position for several years, until the Birmingham men. under the leadership of G. E. Fearn, and the Leicester men, under Harold Poole, took up the challenge.
Mr. Sedgley's first peal as conductor was Cambridge Surprise Major at Henley. Suffolk. called from the 4 th. But 12 bell ringing has been his greatest delight. and of his total of 324 peals. 125 have been on 12 bells. He has conducted 86. He composed and conducted the first peal of 5.040 Cambridge Maximus ever rung. and of his 12 bell peals, no less than 61 are of Surprise Maximus in eight different methods. He was elected Ringing Master of the Suffolk Guild, when it was founded in 1923, and he served in that capacity until 1956, when he resigned. He was also a member of the Central Council from 1927 to 1956 . All his working life was spent in the printing indusfry until his retirement in 1957

Mr. Sedgley is very proud of the performances of the Ipswich company in 1938. when 10 peals of Maximus were rung, which included six of Cambridge, two of Superlative and one each of Rochester and Double Norwich. In addition they rang a peal of Yorkshire Royal. He conducted the first of Cambridge Maximus at Saffron Walden, and the last peal. again Cambridge Maximus, at Great Yarmouth in 1939. These bells were destroyed by enemy action. and have now been replaced by a new ring.

JAFUS.

## Hints For Beginners-23

You can ring more comforiably by standing so that the rope falls in a straight line from the boss-hole and is not pulled at an angle.

## KENT COUNTY ASSOCIATION

## Ashford District

The first meeting to be held by the Association at Lympne attracted some 40 visitors to this quiet backwater off the A20. on May 21 st. It was held under the auspices of the Ashford District.
The church. with its fine Norman tower. overlooking Romney Marsh. completes an impressive mediæval group with the castle beside it. 10 which it was attached for centuries.

The service was conducted by the Vicar. the Rev. J. W. Neilson. Mr. R. Brotherston read the lesson. and Miss M. Atkinson was at the organ. Afterwards an excellent tea was enjoyed in the Village Hall. At the business meeting, nine new memhers were elected to the Association. including five from the local band.

The bells. which were restored in 1928 and augmented to. six by the addition of a treble in 1952, are rung from the centre of the church floor. Ringing was under the direction of Mr. L. T. Pope, of Willesborough.
P. P. and R. D.

## THE YORKSHIRE ASSOCIATION

## Associate Membership

$T^{\text {H }}$HE annual meeting of the Yorkshire Association was held at Sheffield on April 30th when, by kind consent of the respective clergy. the fine ring of eight at St. Marie's and the modern light ten at Ranmoor were available during the afternoon, and the Cathedral (12) following the meeting till 9 p.m.
An excellent tea was enjoyed at the Wolstenholme Hall. followed by the business meeting at which the chair was taken by the president (Archdeacon C. O. Ellison), supported by the general secretary (Mr. L. W. G Morris), the honorary peal secretary (Mr. W. E. Critchley). and Mr. A. E. Marsh, who deputised for the honorary treasurer. Apologies for absence were received from the honorary treasurer (Mr. G. Benfield), also Messrs. E. Hudson. H. Chant. W. F. Moreton, B. Sutton, S. H. Steeel and M. Phipps.

An omnibus vote of thanks to the Cathedral authorities. St. John's, Ranmoor. and St. Marie's R.C. churches for the use of their bells was accorded on the motion of Mr. V. Bottomley, seconded by Mr. P. Birkett. This was acknowledged by Mr. H. O. Chaddock. A similar vote of thanks to the respective local companies was unanimously accorded on the motion of Miss M. E. Wilkinson, seconded by the general secretary. Mr. J. Seager replied
In presenting the 84th annual report, the president said they welcomed 53 new members. who had joined during the year, but they had still a long way to go before the position could be considered as being satisfactory. There were many towers without members, and consequently not affiliated to the Association. This indicates the desirability of some form of Associate membership to attach to the Association those ringers who have not yet mastered the art of change-ringing to the point where they can fulfil the requirement of 720 changes. This and various ancillary matters were now being considered by the committee.
A revision of the rules was also being undertaken. but as yet it was incomplete. So far it has been decided to make no alteration in the title of the Association, and not to relax the conditions for full membership. In future nominations for delegates to the Central Council will be received every third year at the September general meeting. to be followed by election at the ensuing January meeting prior to the first meeting of a new Council. This will transfer the responsibility for the election of representatives from the committee to the general membership of the Association
The peal secretary's report showed that 118 peals had been rung on tower bells. and 18 on handbells. making a total of 136. and of
which the conducting had been shared by 46 which the conducting had been shared by 46
conductors. Thiry-ihree members had rung conductors. Thirty-three members had rung
their first peal. and five had conducted a peal for the first time. Peals had been rung on all numbers from Doubles to Maximus. and Surfleet Surprise Minor. Wath Delight Minor and New Cambridge Surprise Maximus figured in the lists for the first time.
While the balance sheet showed a gain for the year of $£ 17$ 6s. $8 \mathrm{~d} .$. the committee were aware that some difficulty was still being caused by the late payment of subscriptions by some members. and pointed out that a considerable amount of extra work and anxiety is caused by laxity in these matters. The remedy is an easy one. and is in the hands (or rather in the pockets) of the members. Mr. W. Barton gave the auditors report. and
formally moved adoption of the report. Mr. formally moved adoption of the report. Mr .
I. Slack seconded. and the report was unanimously adopted. with thanks to the principal and District officers for continuing to serve the Association so faithfully and well.
The next business was to re-elect the president for the following triennial period. The
general secretary said that no other nomination had been received. and the committee unanimously recommended the re-election of Archdeacon C. O. Ellison. who had now guided their affairs with commendable skill and courtesy for the past 13 years. He had great pleasure in moving that Archdeacon Ellison he re-elected. This was seconded by Mr. A. E. Marsh. and carried with acclamation. In acknowledgment. the president thanked the members for their continued confidence, adding that he would be pleased to do his hest in the interests of the Association at all times.
Mr. W. E. Critchley was unanimously reelected peal secretary, coupled with thanks for his exacting work in the past year on the motion of the president. seconded by Mr.

## J. Seager

It was unanimously decided to accept an invitation to hold the next meeting at Hull on September 171h on the motion of Mr. H Walker. seconded by Mr. I. Slack. The president reminded the meeting that arrangements were in hand concerning the Snowdon Dinner. which would this year be held at Rotherham on October 22nd. Members were asked to note the date, and help to ensure its success by giving it their support.
Miss Carol Fernley, of Hazel Grove, and Mr. E. Bennett. of Ulverston. were elected cut/county members on the motion of the general secretary. seconded by Mr. I. Slack. This concluded the business. and ringing at the Cathedral followed until 9 p.m

## ARCHDEACONRY OF STAFFORD

The bright sunshine and horse chestnut trees in full bloom created a perfect setting for the meeting of the Archdeaconry of Stafford Society at Codsall, near Wolverhampton, on May 14th. A varied programme of ringing on the excellent light eight was ably supervised by Mr. E. Malin, the Ringing Master. The Society has. indeed, a bright future with the large number of young ringers present.
The service was conducted by the Rev. Gilbert Smith and in his address he spoke of the part bells played throughout the ages They formed. he said. an historical background going back 600 years and their message was still the same today as long ago.
Tea followed in the church hall where more than 96 meribers and friends sat down to enjoy the hospitality of the Codsall ringers. Accommodation. needless to say, was rather cramped ind many people were unable to sit at tables. We were indebted to Mr. Albert Richards. the Codsall ringers and their many lady helpers for the excellent meal provided.
Ringin's continued after tea until about 8.30 p.m. Ringers were left with pleasant memories and we look forward to holding further meet ings at Codsall in the future.

## 'LEARNING AND TEACHING BELL CONTROL'

Mr. Norman Chaddock's script of 'Learning and Teaching Bell Control (see Notice page 358) has a preface written by Mr. Edgar C Shepherd who writes: The course itself is thoroughly and thoughtfully prepared, and is clearly planned to provide for the quick learner and the slower student. The material is obligingly selective, and so are the pictures and the experience of a skilled teacher is plainly reveated in such features as suggestions for questioning. paragraphs on stance and poise. and practical hints. The script is valuable without the illustrations. and the illustrations may be used in any normal form of instruction, but the course and the illustrations together make an impressive and valuable addition to the instructor's resources.

## ALPHABET FOR BEGINNERS

## By T. J. LOCK

## "J"

JANGLE, JAR, JEER, JERK, JOG, JOLT, JUGGLE, JUMBLE.-Don't, in the interests of all that life stands for, avoid all these things. There seems to be a complete scarcity of technical terms relating to ringing which commence with the letter J. but something has got to be written in order to continue and complete the alphabet. Some of the above words can be applied to human character. inasmuch you will find no jeering, jolting. juggling or jumbling in a happy, well organised and progressive band. If you feel like committing any of these things at any time. please don't. Endeavour to find a better solution to the situation. Of the other words. jangling. jarring, jogging and jerking can be applied to your success or otherwise at ringing. If you manage not to jangle, jar. jog or jerk you will be making good progress towards becoming a competent ringer. As an aid to achieving this, when you are preparing to ring, stand easy with one foot slightly in front of the other and a few inches apart (all to suit your own stature): stand with your nose not more than six inches from the natural position of the rope; face the centre of the circle of ropes so that you can see them all with the minimum of movement : stretch your arms so that you catch hold of the sally as high as you are able comfortably to do and then when you pull at the sally, make a smooth and straight-down-towards-the-floor movement with your hands. retaining hold of the sally in its downward movement for as long as you can. Your grip of the rope at tail-end will also be at the position. when the bell is at back-stroke. that your arms are again comfortably straightened. When you pull the bell from back-stroke. repeat the smooth and straight-down-towards-the-floor movement as far as you can. Always keep your elbows in to your body, no jogging your colleague on the next rope. never raise your heels off the floor and never twist your body one way or the other. Hold the rope firmly and do not let it slip through your hands. Several photographic examples of correct holding and handling of a bell rope are to be found in - An Elementary Handbook for Beginners in the Art of Change Ringing. issued by the Central Council, price one shilling. When you meet the ringer who does not do any of these Js quoted above, judge him and make him your pattern.
JOHNSON.-Henry Johnson. 1809-1890. one of the illustrious men of the Exercise, is remembered regularly by the annual dinner held in Birmingham, where he spent most of his life. At the age of twenty he called his own 720 changes of Grandsire Minor and at the age of 35 he was an acknowledged leader. He stimulated and sustained Thomas Thurstans in a great struggle for a peal of Stedman Triples and he was the first person to call the famous four-part extent in this method. Johnson composed a notable 26.016 Stedman Caters containing the 120 course ends and wihout a fixed bell in seconds place. He produced compositions in various standard methods. gaining merit with his originality and it was he who first showed how Middleton's composition of 5.600 Cambridge. Surprise Major could be reduced to a convenient 5.056 . To celebrate Johnson's eightieth birthday Sir A. P. Heywood gave a dinner in Birmingham to which all the prominent members of the ringing societies were invited and during which the broad scheme for the formation of a Central Council for Ringers was outlined. Henry Johnson was buried in Aston churchyard and the Exercise showed its raspect and appreciation to a remarkable character by erecting a tombstone on his grave

## LETTERS TO THE EDITOR

## WHEN YOUR OUTING TAKES PLACE

Dear Sir.-I have again been asked to assist in arranging outings in this area. which is becoming increasingly difficult, so I am making an appeal to visitors of all towers. Please remember peimission is granted to ring: the hells are not yours to bang about. You are in God's house and if you were downstairs you would act as such. You are in strange surroundings so why try methods too ambitious for your company?
Here in Bures we try to keep our tower as good as the rest of our church. but last year we had the paintwork all scratched with shoes, a low ceiling so three tailends cut to pieces. three cracked stays and our Vicar has asked me if visiors could be a little quieter. We had five learners in at one time-four could not even catch the sally: the din outside was unbearable. Parishioners have every reason to iry and stop visitors.

Some towers have already been closed on Saturday mornings. The fashion seems to be to grab a quick pull instead of enjoying a nice course of good striking. Can we blame some clergy for thinking we are a company of heathens? Please try to keep our towers open fo: our fellow ringers who wish to come later.-Yours faithfully.

Bures. Suffolk.
LESLIE D. MILLS.

## THE BROADCAST-

## "ONE SOLITARY DONG'

Dear Sir.-Seeing the letter by H. N. Pitstow in a recent Ringing World about the B.B.C. s attitude to ringing reminds me that from church to hear St. Mary Redcliffe. Bristol, bells before the 7.45 p.m. service on the West of England Home Service, as was stated in the then current issue of . The Ringing World:
After some trouble in 'tuning in.' we heard the announcer say that they were just going over to Bristol for the evening service. We did not hear Redcliffe bells, but one solitary dong. As one who spent three years in Bristol and frequently rang at Redcliffe. it is an understatement to say that I was a little disappointed!-Yours faithfully.

## Clacton-on-Sea, Essex.

## EAST ANGLIAN DIALECTS

Dear Sir-On page 351 JAFUS refers 10 hroad Essex dialect. This is the first time I have heard of such existing Of course. with Folks to the north-east. a pair of Shires to the west. Dons in the south and Sex in between. there's hound to be some smattering. The vaice I heard at Yarrmuth bell oupnun, I agree. had a slight Suffolk flavour but no more than a little "Scud orf tha wort'ur' and would certainly be treated as furren in a good many places between the Waveney and Deben valleys. I niver knew she wuss a sarrvunt thom!

## BOR DEARVUD.

## PEAL CORRECTION

Dear Sir.-1 recently sent in a report of a neal of Kent and Oxford combined. rung at All Sainis Church. Dareshury, on May 6th. The names of the ringers should read:
Cecil Raddon treble. Denis Maddock 2 , Harry W. Howard 3. Michael Thompson $\overline{4}$. Mrs. D. Lowe 5. Douglas Lowe 6. Harold Worrall 7. Roger King lenor.

I regret the error-Yours faithfully.
Warrington.

## MANCHESTER UNIVERSITY GUILD NOT UN-CO-OPERATIVE

Dear Sir.-One can obtain an impression from recent correspondence in "The Ringing World:" particularly from the impertinent comment in the report of the London University Guild annual meeting, that the Manchester University Guild has purposely been an aloof and unco-operative member of the Universities Association. This impression is most certainly not a true one. We have never refused to help other Universities in our own area. and any member of other Guilds, including London University, are always welcome in Manchester.
The purpose of the letter from our secretary was to correct a false claim regarding a bigfour group amongst the University Guilds, and to stress that with as many Guilds north of Birmingham as south of it. the viewpoint of certain southerners who consider the northerners as remote outsiders is now quite unjustified.

We have invited the Universities Association to hold a dinner in Manchester, and I believe that if it takes place it will be the first annual dinner held north of Birmingham. We shall certainly do all we can to help if in future members of southern Universities wish to come "up North more frequently than in the past.-Yours faithfully.

DEREK OGDEN,
President.
The Manchester University Guild.

## BRISTOL RINGING FESTIVAL

Dear Sir.-May I express, through your columns. my sincere thanks to the Bristol City Branch of the Gloucester and Bristol Diocesan Association. for the welcome received at their ringing festival on May 14th.
Like many other visitors. I was much impressed by the excellent arrangements and the willingness of local ringers to act as guides, etc.. and this great occasion. given civic recognition by the presence of the Lord Mayor and Lady Mayoress of Bristol at the official luncheon. will long he remembered by those privileged to attend.-Yours faithfully,
Luton. Beds.
A. E. RUSHTON.

## PERFORMANCES

Dear Sir.-I was interested to read Mr. May's letter headed "Quarter Peals, in which he mentions 1.000 changes at Headington.
This, of course, was a performance encouraging to the young ringers included. but, of course. was not intended to be claimed at any time as a quarter peal.- Yours sincerely,
Headington, Oxford.
TOM SMITH.

## METHOD SPLICING

Dear Sir-Although Method Splicing ' has been out of print a good number of years. a copy is at Stockport Central Library. This is recorsed at the Central Library in London and is available for use in any library in Great Britain.-Yours faithfully.

## Loughborough.

One Sunday morning, whilst listening to the broadcast of one of those excellent recordings of Evercreech bells, a prominent North Country ringer, as he lieard the tenors dodging behind. exclaimed. "That's a hob there! His thrifty wife immediately began to search the floor in the hope of finding a shilling. and it was several minutes before he could subdue his laughter enough to explain to her just what kind of a boh ' he meant!

## BRISTOL RINGING FESTIVAL

BRISTOL'S first festival went off very well indeed. How could it have been otherwise when you have the loveliest city in England on a glorious spring day, many fine rings of hells and the whole show organised hy one so able as Bert Bennett, assisted by his committee. We've never had it so good! It is said we had 200 ringers there, but it seemed a lot more when they were all crowded into the belfries at Redcliffe, Kingsdown, or the Cathedral. It was a day for the tenor ringer. for from his lofty elevation he alone could see which of the crowd had a bell-rope and which had not. More than once an innocent bystander was fiercely told to dodge before the conductor realised he was not actually ringing!
It was a hey-day for the tower-grabber, but 140 took time of to lunch informally with Bristol's Lord Mayor. His Worship. feeling no doubt in a somewhat statistical mood after having polled more votes against than for himself in the Council elections two days previously, pointed out that had twelve men set out to ring the extent of Maximus on the day the Gloucester and Bristol Association was formed, they could have done it twice over by now. What opportunities we do let slip!
But still, the respectability of sitting down to lunch with a Lord Mayor. a Dean and the Chanceilor of the Diocese would probably not have heen offered to ringers hack in 1878. Nor perhaps would we then have had the opportunity of attending together, and filling the nave at such a moving service as we had in the Cathedral that afternoon. Ringers together art no ordinary congregation, for it is their ministry to assist in the service of worship, and one often feels a oneness between priest and congregation in ringers' services. which is not always present in parish services. What finer hymn could we have had than that wonderful one by George Herbert:

Let all the world in every corner sing. My God and King.'
And what appropriate hymn to close with than:
'Now thank we all our God.'
The Dean reminded us of the sacred ministry of our calling, and closed his address with this quotation. What we become in the presence of God. so we are all the day through.
This festival. you see, was conceived with a serious purpose in mind: to rededicate our service to God, to promote our Christian fellowship with one another and particularly with our own clergy. Was it successful? That is only known to each one of us in our own hearts as we live the day through.
P. G.

## GUILDFORD DIOCESAN GUILD Chertsey District

A record number of well over 50 people attended the meeting of the Chertsey District at Walton on May 14 th . Most of them came from within the Diocese, but there were also visitors from Petersfield. Kingston and Sunbury:
Prior to the service, a meeting of the District Ringing Masters was held io discuss plans for a memorial to the late Mr. A. H. Pulling. It was decided that a bell should be hung in the new Cathedral. preferably to be installed before the dedication service. which could be used for the Cathedral services, and later bu incorporated in the ring of bells when the tower is completed
Tea was prepared by the local ringers and served in the Church Hall and was followed by a short business meeting. with the Guild Ringing Master. Mr. C. W. Denyer. in the chair.
Ringing continued until 9 p.m.. Oxford Bob Triples being the most successful method attempted.

## OXFORD UNIVERSITY EASTER TOUR

0N Easter Eve the first-comers descended upon Heathfield. in Sussex. where the Society had 'taken over' a guest house, Barratts Park, as a base for the tour. After the first of a series of excellent suppers, they rang sundry unadventurous methods. als if by way of a gentle warm-up hefore the tour proper began. on the sweet-toned six at Warbleton.
On Sunday morning there was ringing for services at Brightling. Dallington. Waldron and Heathtield: at the last, a course of Kent was halted while young Nancy Threlfall protested against the idea of her mother ringing while she was not there to watch. Hoving established, however, that such a thing would not occur again. she preserved an admirable equanimity for the rest of the tour.
After lunch came an impromptu tower-grab: a five was called for, and a good one found at Ewhurst : then followed some pleasant touches on the six at Sedlescombe. After some acrobatics had permitted the recovery of a rope-hook that had run up to its pulley, the heavy-laden vehicles moved on 10 Dallington. Before the band who were 10 ring for evening service at Heathfield went on their way, one member demonstrated his answer to the prevailing Susscx fashion of rope-adjusiment. Disdaining the use of knots. he struck his bell while remaining seated, rising only at the call of ' Stand.
The Master was so moved hy this performance that he organised an immediate quarter peal. which was abandoned only when we were joined by members of the local band for some combined touches.

On Monday morning there arrived the coach which was to carry us about for the next four days. its driver becoming a enthusiastic spectator in every ringing room. After negotiating for the first time the two right-angled corners between Barratts Park and the Heathfield Hotel (which housed the overflow party). we set out for Hailsham. Here we found a neatly-kept ringing loft, and. conditions being favourable. a touch of six-spliced was brought round.
At Eastbourne the party sampled four inerestingly varied rings of eight. At St. Mary's ( $15 \frac{3}{3} \mathrm{cwt}$.) the bells went well but were

a shade thin in tone. There was something of a scramble to give everyone a ring at All Saints ' but in spite of harassed cries up the stairs ("Tell him 10 call it round: theres a service in five minutes and two bands to go yet!') no one was disippointed.

## A CANCELLATION

The rush was the result of an alteration of our schedule following the cancellation of a morning peal attempt. Last year, there were no less than nine peals in the tour programme, and the report in the 'R.W.' contained disturbing phrases such as "anguished moments." considerable furore, 'ceased abruptly with the Master acting on humanitarian principles, and "lack of volunteers.' This year, the reduction of the number of peals to three prevented the appearance of any furore, anguish or necessity to apply humanitarian principles: it did not. however, pronote the appearance of any volunteers.

The Society continued its ringing at Eastbourne after lunch, exercising itself at St . Saviour's ( $24 \frac{1}{3}$ cwt. in an imposing brick lower) hefore relaxing at Christ Church ( $8 \frac{1}{5} \mathrm{cwt}$ ); it then went home by way of Alfriston, where ringers perform in the very centre of the cruciform church. In spite of ominous quiverings of the guide-frame the ropes came down straight.' which was just as well in view of the number of holiday-makers who crowded into the church to witness the spectacle.

The strain of this public performance seemed to tell upon several members : although the careful coaching by our tame Wealdman ensured that we all pronounced correctly the name of our last tower, we did less than justice to Hellingly's sound 11 cwt , six

Tuesday began with visits to Ticehurst. a difficult six, and to Goudhurst ( $8,25 \mathrm{cwt}$.). There was a slight delay before we could get into this tower: those who did not disappear in search of coffee watched the passings and repassings of Frances, who shouted from her car window that she was getting nearer and nearer to success in her quest for the tower key. The secret of the key's hiding-place was eventually learnt. and the wait proved well worth while.

Another very good eight was found at Hawkhurst. After a little difficulty in persuading the tenor to go up right. we discovered that the quaint coconut element in the sound of the bells inspired rhythmic striking. and some of the most enjoyable touches of the tour resulted.

## SI.UMBERING DURING STEDMAN

A pleasant afternoon began at Northiam and Salehurst. At the latter tower the afternoon sunlight filtering into the picturesque ringing room caused people to slumber during Stedman. but eventually Colin Taylor organised some good Double Norwich for the henefit of his tape recorder. Unfortunately. one of the valves died a slow death during the recording. so that the play-back gave the impression that the tower was being wheeled away slowly over the horizon.
After tea. some good London Major at Battle attracted Peter N. Bond, who joined us in a fast and furious touch of Spliced which gradua!ly overtook the conductor and made its escape. In the evening there was a most enjoyable trip to Burwash, where it was shown that a low ceiling can lend atmosphere to a ringing room without interfering with striking
On Wednesday, we found that a taperecorder had been set up to await us at Buxted: perhaps it was stage-fright which thwarted all efforts to ring a really fitting touch. The symptoms persisted at Maresfield. and confidence was not regained until after a grand lunch at the Foresters Arms at Fairwarp. Then everyone found the 15 cwt eight of Christ Church a joy to handle. although the bells have a repressed. reedy tone in the ringing room which bears no relation to their true voice when heard outside.
Lewes bells. our only ten, were kept manned for an hour before the day finished at Ringmer. This time a low ceiling proved disturbing, and although listeners outside liked the tone of these bells, observers inside the ringing room received the impression that
heavy weather was made of most touches. In
the evening. the ringers of Heathfield were kind enough to welcome us to a special practice night

Came Thursday, our last full day, and the weather was as clear and bright as it had remained for the whole of the tour. We started lice day at Mayfield, where the nohle detenations of the tenor delighted everyone. and carried on to Wadhurst. Here the very attractive 12 cwt . eight were rung to a course of Superlative which matched the glass and wrought-steel screen which separates ringers and nave; all aigreed that the idea was excellent. but some had doubts concerning the exccution.

Lunch in Tunbridge Wells was followed by a visit to St. Peter's. where the eight were rung at a variety of tempi: then we tried our hand on the six at Frant, a ring of decided originality. Unfortunately we failed to master these hells before our allotted time was up.

The last tower of the tour, and a most fitting one with which to end. was that of St. Denys", Rotherfield. No one could fail to be impressed by this fine 23 cwt . eight.

There had been a peal attempt planned for Friday: whereas, however. many members would have liked to stand in, too few could remain 10 do so, which meant a reluctant cancellation. Nevertheless, everyone who had come on the tour went away well satistied, and our grateful thanks go to the incumbents and ringers who permitted us to ring their bells and met us on our arrival. Finally, we are all much indebted to Frances Threlfall for making such an excellent job of all the organisation.

## NORWICH DIOCESAN

Twenty-two ringers sat down to tea (provided by the Mothers' Union) at the quarterly meeting of the Northern Branch. held at Cromer on May 14th. The Rev. W. Warr conducted the service and Mr. N. Golden, president. read the lesson. Ringing was under the watchful eyc of the Branch Ringing Master. Mr. J. R. Smith.

Mr. A. G. Bason presided at the business meeting when the following new members were elected: Miss R. A. Burton. R. C. T. Burton. C. M. Frior. $\Lambda$. Gill. J. W. Hornigold. R. E. luuson. O. O. Knight and D. Last (all of Yaxham). Mr. and Mrs. Robinson (Coggeshall. late Chester Guild). P. Squires (Hethersett) and R. A. Jones (Wymondham). Three probationers were also elected. Next meeting Yaxham, July 23rd.

## NORWICH DIOCESAN ASSOCIATION

## President's 1,000 Peals For Home Association

M
EMBERS, representing 30 towers in the Diocesc. together with visitors from London. Suffolk. Lincolnshire and St. Helens, met in Norwich. On the occasion of the annual meeting on Saturday, April 30th, well over 100 sitting down to tea.

The Rev. Giles Galley opened the meeting with prayers. and the company stood for a moment's silence in memory of the 14 members who had passed to higher service during 1959

The president. Mr. Nolan Golden, took the chair, and was given a great welcome after his recent stay in hospital. Thanking them for their good wishes and especially all who had written letters and visited him in hospital, he said it had been a source of strength and encouragement to him to know that so many of his friends had him in their thoughts and prayers. Unfortunately, he would be going back again for a further operation very shortly but hoped that it would result in him being fully recovered and able to play his full part in the activities of the Association once again
The Ringing Master. Mr. H. W. Barrett, said he wished, on behalf of the Association, to olfer their congratulations to the president on his great achievement in ringing over 1.000 peals for his home Association. the great majority of which he had also been the conductor. and composer of many of them. His 1.0001 h peal was a peal of 5.056 of Cambridge Surprise Major, rung at Hingham, August 12tla 1959. He asked this to be fully recorded in the minutes. This was seconded and passed with acclamation. The Association are fortunate to have one of the greatest ringers and composers of all time in their ranks and he wished him a happy outcome to his present indisposition.

The president thanked the Ringing Master for his remarks and said that he looked back with happy memories of his ringing career and of all the friends he made during that time and looked forward to resuming his activities once again. He had not kept detailed records of his peals hut could probably furnish the Association with most of the information that they might require

## YOUTH AND. THE RINGING WORLD

In his review of 1959 the president said seemed a year of consolidation rather than a record one. Membership had gone up to 478 an increase of 22 on the previous year. It was mosi encouraging to see again the large number of young people present. a feature of the last few annual gencral meetings. It was a great pity that several of the older members had lapsed from membership. but he hoped that everything possible would be done to bring them back. He reminded the younger ringers of the importance of laking . The Ringing World: This is essential if they were to get the full enjoyment from the ringing, activities. It would hclp in widening their interest in new methods and could persuade them to learn composition and so eventually be able to call and conduct peals.
The great event of the year was, of course, the dedication and opening of the 13 new hells at Si. Nicholas". Great Yarmouth. He congratulated the Vicar. the Rev. A. G. G Thurlow. and his ringers on the splendid arrangements made for the 200 ringers who attended to have a ring in the time available. Restoration has been completed at Aitlehorough, but comment had been made in the fialure to have the ropes fall in full circle The ten at Aylsham will be restored in the present year. also the five at Kessingland. It is understood that this ring will be augmented to six.

The Ringing Master, in his report. stressed the importance of maintaining and improving Sunday service ringing. He had visited a number of towers without warning during the year, and had been pleased to hear the bells ringing. With a membership of approximately 500 he was sure that a great improvement could be made and appealed for greater support in this dircetion. 85 peals were rung during the

The general secretary and treasurer. Mr. W Love, reported that 82 new members had been elected-60 resident and 22 non-resident life members. The financial position could be termed as satisfactory. Income for the year at $£ 15419 \mathrm{~s} .10 \mathrm{~d} .$, gave an excess of $£ 217 \mathrm{~s} .8 \mathrm{~d}$ over expenditure. The General Fund stands at $£ 2599$ s. 11d.. and the Belfry Repair Fund at $£ 104$ 15s. 7 d .
All the officers were re-elected for 1960, also vice-presidents with the addition of the Rev. Frank Jarvis. Vicar designate of St. Peter Mancroft. and the deletion of the Very Rev J. A. H. Waddington, who had left the Diocese

Particulars of the proposed memorial plaque in mẹmory of the late Cecil Ebberson were given 10 the meeting. It will be in Hopton Wood stone and is to be placed in the ringing chamber at Dersingham. It is hoped the dedication will take place in September.
The service was held in St. Peter Mancroft, the Rev. Gratton Guinness giving the address.

## BEDFORDSHIRE ASSOCIATION <br> Luton District Meeting At Eaton Bray

In an endeavour to stimulate interest in ringing, and in meetings in particular. the May meeting of the Luton District included an interesting ringing competition. the second of such attractions staged by this district.
From 3 p.m. the hells were kept going and all tastes were provided for. the ringing ranging from rounds to Cambridge Surprise, unti 4 p.m. When the competition took place. Over 40 ringers were present. For the compelition rounds only were allowed and each band was allowed 30 seconds to get the "feel" of the bells. after which they were judged on the following 120 rounds. Contesting bands were Eaton Bray. Leighton Buzzard. Husborne Crawley and Westoning, the last named proving to be the winners.
After an excellent tea. provided by the local ladies. the results were declared an additional treat being the playing of a tape recording of the competitors efforts by Mr. K. Fleming.
Meisrs F. J. Plummer and A. E. Rushton were the judges. the latter standing in for Mr. R. J. Sinarp. whose unavoidable absence was regretted by all.
Further ringing took place both before and after Evensong. conducted by the Vicar, Rev. P. Graham.
A. E. R

## IRISH ASSOCIATION

The annual meeting of the Executive Council and the final contest for the Murphy Cup was held at St. Patrick's Cathedral. Dublin. on May 14th. Mr. William Pratt (president) presided at the Council meeting and silent ribute was paid to the memory of Robert S. F. Murphy, P.C.. Ringing Master and librarian (lite member) and George N. Price and Mrs. T. E. G. Taylor (non-resident life member).
The annual report stated that Radio Eircann broadcast Christ Church Cathedral, Dublin, for 15 minutes to ring out 1959. The B.B.C. (Northern Ireland) provided a good programme in which John T. Dunwoody and Harry Brown, assisted by Mr. W. Pratt and Jean Stewart, explained the intricacies of bellringing. During this 30 minute programme on Christmas Eve the bells of cvery tower (except Carrickfergus) and those of Armagh Cathedral were heard. St. Donard's was easily the best of the towers which bruadcast on Christmas Day.
Three visiting parties rang 28 peals and four ocal peals had been rung including Plain Bob Royal at Dundela. Membership totalled 369 (life 15 . honorary 3 , ringing 351 ) and there were 198 non-resident life members.
Arising from the report two resolutions wers passed-to set up ai Reserve Fund into which £4 or £5 would be paid annually and to authorise the investment of Association funds in Republic of Ireland guaranteed stock yielding not less than 5 per cent.

The Irish Bell News showed a profit of 192 s .2 d . after setting aside $£ 210 \mathrm{~s}$. 6 d . to the Renewal Fund. A number of favourable expressions of appreciation for the paper had been received
Mr. William H. Wilson, a ringer at St. Patrick's Cathedral. Dublin. since 1907, president of the Association in 1932 and president of St. Patrick's Society, was elected a life member and presented with his certificate.
The election of officers resulted in the reelection of Mr. William Pratt as president and Mr. F. E. Dukes as general secretary. Mr. John $T$. Dunwoody is the new Ringing Master and also badge secretary and Mr. W. H. Wilson librarian. The Editorial Committee of 'Irish Bell News' is Mr. F. E. Dukes (editor). Mrs. F. E. Dukes. Mrs. J. Jeffrey (nee Jean Stewart) and Mr. G. Bingham The Murphy Cup was won by SI. Peter's. Bandon. 44 faults. followed by Mount Si. Alphonsus, Limerick. 64 faults: Enniskillen 76 and Drogheda 106. The judges were Messrs. W. H Wilson and F. Bogan and Mrs. J. Jeffrey. Bandon won the cup for the first time.

## DEDICATION

## SALTASH, CORNWALL

Until May 23rd, the six bells of SS. Nicholas and Fuith. Saltash. Cornwall, had been unringable for about 15 years. It was because of other urgent work that the bells had to wait. hut now all is well again. On Sunday. May Ist. the bells were hallowed by the Lord Bishop of Truro. the Ri. Rev. J. M. Key, before being hoisted into the tower. The work has entailed a completely new frame and fittings, and the recasting of the third.
The bells were originally a Thomas Bilbie six. cast in 1760 . They were rehung by Aggett. of Chagford, in 1902 when the two tenors were recast. The tenor weighs about 15 cwt . The restoration has been carried out by Messrs. J. Taylor and Co.. and the bells are now tuneful and go well.
The church was filled to capacity for the opening on May 23 rd. Evensong was conducted by the Vicar. Rev. J. C. Boyes, and the sermon preached by the Rev. A. S. Roberts (Vicar of Carbis Bay), who took as his text The seven angels which had the seven trumpets prepared themselves to sound ' (Rev. viii, 6).

Mr. Roberts pointed out that in May of last year they were celebrating the 100 th anniversary of the opening of Brunell's famous Saltash Bridge. and that this May it was exactly two hundred years since Bilbie's six bells were erected. The ringers' work was first of all a dedicated work in the service of the Church. but it was also progressive, and there was a tremendous joy in it. It was an art with a wide interest. and no other body of church workers travelled from place to place like ringers.

To ringers Saltash, without its bells. had hecome rather unimportant, hut now with restored bells. and a new bridge being built, no doubt many visitors might be expected.

Receive them as brothers beloved,' said $\mathbf{M r}$. Roberts. and after cultivating the team spirit in the local tower remember the wider sphere of ringing in the Diocese, the whole country. as well as in many countries of the world. Further, ringing cannot be properly learnt without a text book, and every tower. if not the individual. should take "The Ringing World."
Those present included Mr. Alan Carveth (president. Truro Guild) and Mrs. Carveth. Rev. W. H. R. Trewhella (general secretary). Mr. J. W. Clarke (Assistant Ringing Master). who has been training the new and reconstituted local band at Landulph. and ringers from Teignmouth. Plymouth and many parts of Cornwall. The local band rang the bells first immediately after the service followed by many visitors who kept them going to a late hour.
There was no lack of ringing with Landulph. St. Dominick and St. Stephen-by-Saltash also available. This last. in every circumstance. must be the finest six in Cornwall. With a 161 cwt . tenor. in a spacious tower. a frame for eight. hung low in the tower. perforated slate in place of louvres and the first example of a lantern roof in Cornwall. they sound magnificent both inside and outside. and as another Taylor ring Saltash is now blessed with two splendid rings.
Ringing included several Doubles and Minor methods. and. of course. plenty of well struck Cornish rounds and call-changes.

## A NEW ZEALANDER'S STORY

M
IR. G. NELSON SLOAN, of Christchurch, New Zealand, has sent us the story of his experiences during his memorable trip to England last year, in which he rang in 55 towers, including six cathedrals. As soon as he and Mrs. Sloan arrived at Southampton a welcome awaited them in the person of Dr. R. G. T. Bennett (a past Master of the Christchurch, New Zealand, Society) and Mrs. Bennett, who took them to their home at West Hendred.

His first Sunday in England was, for Mr. Sloan, a memorable day in his life - the ringing of the bells at Christ Church, Oxford. He was met by Mr. Charles Coles, with whom he had been corresponding since 1950, and introduced to Mr. Walter Judge (the Master), Mr. Phil Walker (secretary), Mr. Ted Moore and many others. Later he was taken to St. Martin's and All Saints' Church to ring Grandsire Triples. A tour of the colleges took place in the afternoon, and in the evening there was ringing for evening service at St. Ebbe's with that 88 -year-old veteran Mr. Wilkins.

The following Tuesday was the sixth anniversary of the Queen's coronation, and another great day of ringing with Mr. Coles and other Oxford ringers. The four towers visited included Merton College. As there are only two active ringing Societies in New Zealand-one being in North Island-it is not possible to have ringers' annual outings. It was therefore a wonderful experience to accompany the Oxford Society on their tour and ring in so many towers.

After Oxford came Midsomer Norton, in Somerset, as the guests of Mr. and Mrs. Fred Savage, who for a time lived in New Zealand, and Mr. Savage was Master of their Cathedral Society at the time of the visit of the Queen and Prince Philip. Again the great fellowship of ringers was experienced, and towers visited included Radstock, Marston Bigott, St. Peter's. Evercreech, and 'the best ring in Somerset'Chewton Mendip. The highlight of his ringing in Somerset, however, was the visit to Wells Cathedral and ringing 'inside' to a touch of Graindsire Caters for Evensong, and afterwards, conducted by the Master (Mr. Gwilym Salmon), taken to see the bells and then to the top of the tower to view the countryside. 'It was with real regret we left Mr. and Mrs. Savage : no family could have looked after us better,' he writes.

The scene changes to the hop fields and/or churches of Kent, with a welcome from Mr. Albert J. Lancefield, who during his stay at Christchurch had conducted three peals for the local Society, one being to commemorate the opening of the bells at St. Peter's, Hamilton, in North Island. It was a great pleasure to meet him again and to be introduced to his parents and brother Mark. With the brothers Lancefield and John Cooper, Mr. Sloan visited many towers, including the lovely ten at Maidstone, where ho rang his first touch of Little Bob Royal. At Bethersden came an unexpected honour of making the first entry in the new visitors' book, and supper afterwards with Mr. and Mrs. Marshall.

The experience of attending an Association meeting was something Mr. Sloan had been looking forward to, and the opportunity came with one arranged specially for the 92nd birthday of Mr. E. Ruck, which was held at Willesborough. The day coincided with his own birthday, and Mr . Sloan felt that he could not have spent it in better company. A visit to Canterbury, to ring for Evensong, gave him an opportunity of meeting some of the ringers who had made the recording which was sent to New Zealand for the centenary celebrations of Canterbury in 1950.

The new bells at Lydd were a great joy, and it was on these beils he scored his first quarter of Grandsire Triples. Ringing in this quarter were the Misses Marie Vantom and Kathleen Yeo, and it was a new experience to ring with ladies. "I must congratulate them and other members of the band on their' excellent striking, comments Mr. Sloan.

The next journey was to King's Lynn to meet Miss Betty Dyer and Mr. Norman Harding. Miss Dyer was in New Zealand a few years ago and rang regularly at the Cathedral, and Mr. Harding by corre-
spondence introduced Miss Dyer to him. It was at St. Margaret's, King's Lynn, that Mr. Sloan rang his first quarter of Bob Major. On his last evening he went to Tilney All Saints' to attempt a peal of Plain Bob Minor, which unfortunately failed in the fifth 720 . He sincerely thanks Mr. and Mrs. Harding and Miss Betty Dyer and her family, who made the visit so enjoyable.

On to Clitheroe, Lancashire, to meet Mr. Victor J. C. Wood, with whom Mr. Sloan rang a peal at Christchurch, N.Z., in honour of the visit of the Queen and Prince Philip. They were the guests of Mr. and Mrs. Wood, who not only hospitably entertained them but motored them some 200 miles around the Lake District. At St James' Church. Mr. Sloan rang his first peal of Plain Bob Major, which was arranged by Mr. Wood and conducted by Cyril Crossthwaite, to a composition by H. W. Wilde, a btother of the late Mr. James Wilde, with whom he had often rung in New Zealand.

Another great day in Lancashire was the ringing tour arranged by Mr. Wood. A very happy party set off at $8 \mathrm{a} . \mathrm{m}$. and arrived home at $11.45 \mathrm{p} . \mathrm{m}$. Ringing took place at High Walton and Whittle-le-Woods before an enjoyable lunch with Mr, and Mrs. Tom Barker. In the afternoon visits were paid to Chorley, Eccleston and Leyland. After a lovely tea at the home of Mr. and Mrs. Crossthwaite, there was evening ringing at Preston Parish Church. Mr. Sloan's last ring in Lancashire was at Blackburn Cathedral, where he had another opportunity of ringing Caters.

Next came a visit to Chichester to stay with Mr. and Mrs. C. Pierce and visit a number of Sussex towers. At Chichester Cathedral he was introduced to Mr. Blackburn, and later had the honour to be one of four to ring handbells at the recital given by the Cathedral choir. He knew about Brighton from the late Mr. George Baker, who died in New Zealand, and while there he rang with a university party at St. Nicholas’ Church.

There was a return visit to Dr. and Mrs. Bennett before going to London. Among the towers visited were Arborfield, East Hendred and Wantage. At Abingdon he net Mr. and Mrs. Locke, and rang Grandsire and Stedman Caters at St. Helen's Church.

Finally came the visit to famous London towers. "I shall never forget,' writes Mr. Sloan, 'how very excited I was to receive a very kind letter from Mr. Hughes inviting me to visit St. Paul's Cathedral to meet Mr. Wilfred Williams (Master), Mr. John Chilcott (secretary) and members of the Ancient Society of College Youths, who would be ringing on the Sunday, and also to visit the Whitechapet Bell Foundry. Sunday could not come quickly enough for me. I attended the morning ringing session and received a very warm welcome. I cannot express adequately how I felt to be in the bell chamber and to be shown the bells swinging at this famous Cathedral. I was present again in the afternoon, and what a thrill it was to me to be invited to ring rounds on No. 6 bell and also to ring it down in peal. When I left New Zealand I had often been asked "Will you get a ring at St. Paul's?." and you can imagine how happy I was to be able to say on my return that I had.'
Other trighlights of the London visit were ringing Grandsire Caters and the tenor to Stedman Caters at St. Margaret's. Westminster, a visit to the Whitechapel Foundry, and finally during his last week-end in London to be invited to attend a meeting of the College Youths at St. Olave's. "The monthly meeting of the College Youths was held that evening, writes Mr. Sloan. "and what a wonderful surprise was in store for me. Mr. John Chilcott invited me to become a member of the Society. This great honour I shall always treasure. Upon being elected I was congratulated by the Master who said my election would give ringing in New Zealand seme standing. I felt very lumble to be the first New Zealand born and trained ringer to be elected to the Society. I was invited to Westminster Abbey when the official band would be ringing for the Battle of Britain Service. It was well worth travelling 12,000 miles to be able to accept such a privilege and to ring a touch of Grandsire Triples on that occasion.

I hope I shall be able to use to advantage in New Zealand the valuable knowledge I have gained while ringing in England.'

EDITOR: T. W. Whits.

It was an unexpected honour for the ringers at St. Michael and All Angels; Church. Highclere. to be called upon to ring a quarter peal on Sunday, May 29th, when the Queen and the Duke of Edinburgh attended morning service. The request was made the previous Thursday evening and three Andover ringers were called in to strengthen the local band. Other members of the local band had the pleasure of ringing as the Royal party left the church.
Because of special services, Wednesday practices at Winchester Cathedral will be on Tuesday, June 14th, Tuesday, June 21 st , Thursday, June 30th and Thursday, July 14th.

Ringing the treble in the Royal wedding quarter peal at Ashford, Kent (see page 347), Was Rita E. Gould and not Rosemary E. Gould.

It was very appropriate that for the Commonwealth Youth Sunday service at Epsom, the band for a quarter peal should be composed exclusively of young people. The conductor was Miss Adrienne Gibson, aged 17 years.

Work has started on the restoration of St . Nicholas', Kenilworth, and the rehanging of the present six bells in a new iron frame by Messrs. Taylors. of Loughborough. It is hoped to complete the work in about six months. The local band are appreciative of the invitation to practise in neighbouring towers while awaiting the return of their own bells.

After the peal of Stedman Triples at Ilsley, on May 28 th , the band were entertained sumptuously to tea by Mr. and Mrs. Cyril Hibbert. They then joined the Appleton ringers at their Saturday evening, practice and afterwards came a March 4 th' in retrospect. The member of the band whose birthday coincided with the day could not have been "treated, better or 'more often, had he been Royalty. The peal was a compliment to Mrs. W. East, cousin of three of the band, who has been organist at St. Mary's for nearly 50 years.

## GOSSIP

'The completion of the peal of Plain Bob Major at to many Derby ringers, write our correto many Derby ringers, write our corre-
spondent. Its success was a matter of congratulation to John Harvey on his first peal at first attempt, Deborah Wilson on her first - inside ' and Rosamund Bull on her first on eight. Perhaps, we should also add the conductor.

Somewhat belatedly we have received another Royal wedding peal, making the 122 nd .

The Rev. D. G. Brunning, of Usk, informs us that no one can hold office in the Church unless confirmed and in the Church of Wales all godparents now have to be confirmed.

Within four days, Somerby, Leicestershire, lost two of its veteran bell ringers. They were Mr. William H. Kenney and Mr. James W. Underwood. Both were 78 years of age.

In the peal of Doubles in three methods at Brampford Speke, Devon, on May 21st, there were four first pealers, all of whom are members of the youthful and enthusiastic band at Topsham.
Mr. James H. Musson, the well-known Lincolnshire ringer, had great pleasure in calling a peal for the wedding of Earl Jermyn and Lady Juliet Fitzwilliam, as he had worked on the Lincolnshire estate of the Earl for many years. Unfortunately at the first attempt on April 28th the clapper of the third bell fell on during the fourth extent, but success crowned the second attempt.

How many Quakers have we in the Exercise? Miss Mary Maddison, of Ipswich, has been a member of the Socicty of Friends for eight years and a ringer for the last three years. 'It is my practice, she writes, 'to ring for a church service and then attend meeting for worship. I belong to four ringing associations, and my religious views are well-known, yet I have at all times been warmly welcomed into any tower I have visited, and am proud to have a large circle of ringing acquaintances, including some Anglican priests, whom I respect.' So let it be.

## THE WHITECHAPEL BELL FOUNDRY

## CHESTER GUILD FESTIVAL AT ECCLESTON

THE Chester Diocesan Guild, for its annual festival held at the picturesque village of Eccleston on May 14th, was privileged to have with them the Lord Bishop of the Diocese, who is a ringer, having rung in one peal and many of the churches in his diocese.
Dr. G. A. Ellison preached the festival sermon from Ephesians iv, 13: "Unto a perfect man, unto the measure of the stature of the fulness of Christ': 'We are glad to be perfect,' said the Bishop, 'and the ideal that is set before each one of us is nothing less than perfection. Our Lord says that we are to be perfect as our Father is perfect.'

## MISSING PERFECTION

- Ringing is a pleasant skilled occupation or hobby for a sacred purpose and therefore, although ringers may do their work with great efficiency, it will miss that perfection for which is strives, and only reach it when it has recognised that ultimate purpose for which it has been outpoured. To make a joyful noise to the Glory of God, those who make the glorious music of bells make it an offering to Him who has given the skill and material.

Secondly, we also ring for the purpose of calling our fellow Christians into God's House to come and offer their worship and so by what we are doing we are expressing our unity with Almighty God, also that of the whole of His Church, for as we ring in one particular tower, we ring not only to call the people of that locality, but we ring it across the whole world proclaiming the Glory of God and duty of man.

We must carry that unity out into the life which we live beyond. We learn a unity with God and His Church and that is something which the whole world and every individual in it needs most desperately. We can tell people that through the craft which we exercise we have learnt the joy to do something which is difficult but which we think worth doing. The worry of a broken home and the trouble and ill-feeling in a community, we can tell them from our experience that it is good to do something complete, and how joyiul it is to be in unity. We can also tell the world that unity cannot be achieved fully unless our lives are related to the purpose of Almighty God, who has created His world and has called us to be obedient to His calling.'

The annual meeting followed tea in the Village Hall. when over 130 members and friends enjoyed an excellent meal arranged by the local branch.

## A GUILD BADGE

Among the decisions reached was the provision of a Guild badge for sale to members, the annual dinner to be held on October 8 th, and the festival in 1961 to be held at Macclesfield.
It was also decided to send a letter of congratulation to the band of the Essex Association. which had recently rung the greatest number of changes.
Officers re-elected were Messrs. J. W. Clarke. Master: John Worth. Deputy Master: H. O. Baker, honorary secretary and treasurer: C. K. Lewis, report secretary ; Mrs. C. K. Lewis, peal recorder : librarian, P. Laflin: Central Council representatives, J. W. Clarke. H. O. Baker, A R. Elkins and John Worth.

The annual report recorded the deaths of Mrs. J. Fernley (Norbury), Tom Arrowsmith (Lawton). S. Depledge (Taxal). T. Huxley (Handley). J. Minshull (Macclesfield) and W. O. Wharton (Oxton)

The membership of the Guild is: honorary members 16 . life ringing members 17, ringing members 718. These represent 89 towers.

## PEAL PERFORMANCES

One peal was omitted from last year's report and had been included with the 109 rung during $1959-106$ on tower bells and three in hand. In these peals 137 resident and 30 non-resident members took part. Twenty-two members rang their first peal, 11 their first in the method inside, and 64 their first peal in a new method or methods. There were 30 conductors and three called a peal for the first time.

## MR. A. W. COLES,

Middlesex Association
Mr. A. W. (Bert) Coles will long be remembered as the orginator and organiser of the very successful rallies of veteran ringers held in London for several years past. He conceived the idea that personal invitation would have the effect of making the older ringers feel that they were really wanted, and the result has been that many happy reunions of old acquaintances have been brought about. It has meant the writing of literally hundreds of letters, and the expenditure of not a little money on postage. Truly a labour of love-

The first peals ever of Kinnerton Imperial Bob Major. Littleton I Imperial Major and Overleigh Imperial Bob Major were rung by the Guild. and a record length of 9.568 Spliced Surprise Major rung at Over. Pudsey Surprise Maximus. Superlative Surprise Maximus, Lincolnshire Surprise Royal and Cornwall Surprise Major were rung for the Guild for the first time.

- The appearance of new methods in our records is evidence that the art is vitally alive in the Guild, and we would urge more bands to venture outside what is usually termed standard methods.

The statement of accounts showed an increase of $£ 3818 \mathrm{~s}$. 2 d . in the balance to $£ 61$ 19s. 6 d ., but this included subscriptions from one band for the current year of $\pm 113$ s. 9 d . No charge was made for Central Council representatives' expenses. The Bell Restoration and Augmentation Fund had increased to $£ 1723 \mathrm{~s}$. The report and accounts were approved.
Kinging took place after the meeting at Eccleston and Chester (St. Mary without the Walls).

## Wallingiord Grammar School

For the first time in its long history a team of pupils from Wallingford Grammar School rang the bells of St. Mary-le-More, Wallingford. for the annual Founders' Day service on June 2nd. Only call changes were rung tut the striking was good, taking into account the ages of the boys and the weight of the beils. The ringing was under the supervision of Mr. Claude Corderey, of Blewbury Parish Church.
The boys were: J. Webb (18, Benson), T Howes (17. Benson). G. Mcilone (13. Warborough), R. Howes (14. Warborough). R Partridge (13, Wallingford). A. Esplin 16. P Esplin. 14 (Blewbury). M. Young ( 15 , Cholsey), P. Selwood (17, Dorchester), R. Bird (17, East Hagbourne), R. Hill-Baldwin (13, Cholsey) and M. Corderey (14, Blewbury).
but bringing a rich reward, for the pleasure of the 'old timers' in meeting each other is so obvious and sincere.

Bert Coles, brother of the late C. T. Coles, was born in London in 1888, and followed his father as a writer and embosser. He and Charles learned to ring at St. George's East Charles learned to ring at St. George's East
in 1903 , under the instruction of G. B. Lucas, of Walthamstow. He joined the Middlesex Association in 1905, and rang his first peal (Grandsire Triples) in 1906 at St. George's East. By 1911 he had conducted his first peal (Stedman Triples) at Cubitt Town. Then came a break due to the 1914-18 war, during which he served in the R.A.F

On demobilisation he entered the Engineering Department of the G.P.O. (1919), and also resumed his ringing activities. He began a long period of service in the Middlesex Association, and was elected District Master in 1929 to 1935. On the death of William Pye, he was elected Master, serving until 1935. He was made a vice-president in 1946, and served in this capacity until 1953.

Having a flair for instruction, he was appointed instructor to the bands at Bloomsbury, Clerkenwell, Bethnal Green, and other places. Closely associated with William Pye, he became a member of the pioneer band which rang the first peals of Spliced Surprise Major in three and five to 12 methods, and the first peals of Spliced Surprise Royal and Maximus. In 1948 he was awarded the Imperial Service Order.

His peals total to date is 481 , of which he has conducted 12. Noteworthy amongst these are 10.440 Cambridge Royal, at Walthamstow, in 1923: 7.392 Cambridge Maximus at St. Mary-le-Bow. in 1925: the first peal at Buckfast Abey (old bells) in 1930, and the first peal of Cambridge Maximus, at Exeter Cathedral, in 1932. Bert Coles is a member of 30 Associations or Guilds, and it is gratifying to note that he is bringing up his son, Peter John, in the proper Coles tradition, to be a ringer, for if he turns out to be as good as his father-he'll do!

## GUILD OF MEDICAL RINGERS

The annual meeting of the Guild took place on May 21st. Members gathered first at the Church of Peter, Benington, where ringing began soon after 3 o'clock. It usually takes a little while for this necessarily scratch company to produce their best results in a new tower, and so it proved, but in the half hour before the service at 4.30 good touches of Double Norwich and of Stedman. were achieved.

Unfortunately, the Rector, the Rev. K. O. Morris, was prevented from conducting the service by a car breakdown, and the Guild was most grateful to Mr. J. Thomas, of Benington School, who took the Rector's place at very short notice

Afterwards the party moved on to the recently rehung six at Aston-in fact the whole of the tower has been restored after an outbreak of fire. Comment on the bells was most favourable, and they do great credit to the founders responsible. Methods rung included most of the standard Minor ones, Plain, Treble Bob and Surprise.

The annual general meeting was held at the 'Coach and Horses,' Stevenage, before dinner. After receiving a report on the year past, officers were elected for 1960/61 as follows: President. W. R. Winkerton; Master. D. J. Neal Smith; secretary, D. L. Gullick. The details for the Dorset meeting on July 2nd and 3rd were announced aral it was decided to hold the London meeting on November 12 th, and next year's annual general meeting on May 13th
A most enjoyable dinner followed by handbell touches concluded a very successful occasion. In addition to members of the Guild, during the meeting guests and visitors took a very active part. In particular, the Guild was happy to have as its guest Mr. Rex Agg. the newly appointed secretary of the Hertfordshire Association.

## SALISBURY DIOCESAN GUILD

Subscription To Be Reviewed
THE festival and annual general meeting of the Salisbury Diocesan Guild was held at Wimborne on May 14th, when most towers in the Wimborne Branch were open for ringing during the day. The proceedings commenced with the annual general meeting in the Grammar School, when the Guild was welcomed by the chairman of the Urban District council, Councillor A. R. Maiden.
The Master of the Guild, Canon Cox, presided and opened the meeting with prayer. He replied to the welcome given in suitable terms.

The annual report covering 1958-59, which had been just published, contained the henorary secretary and treasurer's report and it was not deemed necessary to read it to the meeting, it being moved to be taken as read. Mr. West, however, had something to say about the statement of accounts, peinting out to the meeting that the balance in hand in the current account was not enough to cover the expenses. He asked permission to draw on the deposit ascount if required, and also dropped what may be described as a 'bombshell,' when he suggested the members' subscription be raised. This was discussed and after Mr. True had reminded the members that notice of motion must be given under Rule 11, it was proposed and carried that notice be given that the subscription be raised.'

## REVISION OF GUILD OFFICE

A sub-committee had been at work on this. The meeting decided to give permission to act and have sufficient copies printed for the Guild, when the final draft had been passed by the Bishop. In his remarks, the Master complimented those responsible for having the report published before the annual meeting. Continuing, he said a telegram had been sent to the Royal family on the birth of a Prince. Copies of the telegram and reply had been circulated to the Branches. A suggested form of belfry prayers. in card form, had been drawn up and sent to the Bishop who had given his approval. These cards will be sent cut to all towers.

He said some of the Branch reports made good reading; there was a lot of instruction heing done in the form of extra practices, but an increase in members attending Branch meetings would be welcomed. He also asked the secretary to send congratulations to Mr. L. A. Wilson, vice-president, who had just celebrated his diamond wedding.
The whole of the retiring officers were reelected for the ensuing year: Canon CoxMaster; Mr. W. C. West, hon. secretary and treasurer: Mr. F. S. Slatford, hon. assistant
secretary: Mr. J. S. Weeks and Mr. C F secretary; Mr. J. S. Weeks and Mr. C. F,
Andrews, honorary auditors. A new office Andrews, honorary auditors. A new office
which had been created was honorary librarian and to this the Rev. W. Uphill was appointed. Mr. G. H. Harding put the motion that thanks be accorded to all officers for their work. The Guild Committee was re-elected en bloc. Honorary life members elected: the Rev. W. Uphill. Mrs. Day and Mr. Hiscocks (Wareham). Mr. F. Haines (Wilton). Mr. Roberts (Berwick St. John).
Grants of money were made to Warminster £5 5s.. Charminster $£ 3$ 3s., Askerwell (second grant) £2 2 s .

> LOSSES BY DEATH

The following members, who had passed away during the year, were mentioned: William Chalk (honorary life member), Mr. Frank Taylor (Wylye). Mrs. Blanche Híbbard (Tidpit). Mr. Davis (honorary secretary, Wimborne Branch), who had recently lost his wife, and Mr . Paul Field, who although not living in the Guild, having also been bereaved, were coupled with a vote of sympathy expressed by the Master.

It was decided to hold the next annual festival in Calne, the second Saturday in May. 1961.

The service was held in the Minster, the Vicar, the Rev. S. M. Epps, officiating. Canon Cox read the lesson. The Lyme Regis ringers rang a course of Grandsire Caters on handbells. the service being an inspiration to all.
Tea was served in the Grammar School after which a presentation was made to Canon Cox for his great services to the Guild as Master for the past 20 years. The honorary general secretary gave a few details of the work carried through by the Canon and then lianded over the Master to the tender mercies of Rcv. R. N. Longridge. Vicar of Bourton and honorary secretary, North Dorset Branch, for the presentation.

## REDEDICATION <br> CHISLET, KENT

To hear the bells of St. Mary's. Chislet; Kent, ringing once more, after fifiy years' silence, was the stated ambition of Mr. Frank Spanton. In 1951 he set out on the task of raising the necessary money to see the job done and by various means raised $£ 1.308$. With this money in hand he placed the order for the work to be done, only to be met with a setback -the roof timbers of the tower were found to be infested with beetle and another $£ 375$ had to be found. This has been done, and now, with the roof timbers safe, the hells tuned to a proper scale. in a new frame, and complete now fittings, his ambition has been realised.

On Sunday, May 16th. Bishop C. W. A. Rose. former Bishop of Dover. dedicated the bells during Evensong. Among the congregation, which filled the church. were many of Mr. Spanton's farming friends, the villagers and ringers from surrounding parishes. The service was conducted by the Vicar, Rev. G. P. Chidgey, who was assisted by two former vicars. Rev. R. Meredith and Rev. A. P. A. Barnes. The founders were represented by Mr. P. L. Taylor. Following the service. refreshments were served on the lawn at Chislet Court.

Mr. Spanton. who for many years was a churchwarden at Chislet. has also helped to raise $£ 2,000$ for the fabric of the church, and for so small a parish this has been a magnificent effort. and a story that will give him much pleasure in his retirement from farming. Although leaving the farm. he is not leaving the parish, and there is no doubt he will hear the bells of St. Mary's in his new home.
There was still one more snag: with the bells in order there were no ringers, but this is being successfully overcome by the Birchingten ringers. who are going over each week to give instruction to a new band.
B. J. L.

## No Bats In The Bradstone Belfry :

Jackdaws at Bradstone. Devon. Parish Church had a shock over a recent week-end when. to enable the Lifton band of the Guild of Devonshire Ringers to ring to peal of 5,040 Grandsire Doubles on May 16th. two men took five hours to clear out a host of jackdaws nests which had accumulated beneath the bells and was preventing them from being rung.
The jackdaws had obviously been building their nests there for many years, but had remained unnoticed until the accumulation of wood had lifted the slide of a bell up and the bell, when rung, had toppled over.
Members of the above team have visited six bell towers on the borders of Devon and Cornwall and have to their credit three peals of Grandsire Doubles and three quarter peals.

## RAILWAYMEN'S GUILD

Through the kindness of Mr . George E. Fearn, secretary of the St. Martin's Guild, who arranged for the bells, the British Railway Staft Association Guild of Church Bell Ringers held their fourth annual meeting at Birmingham, on May 14th.

Ringers present represented: Taunton, York. Skewen. Swansea. Warwick. Bedford, Swindon Leamington Spa, Wolverhampton. Crewe London, Darlington, Wadhurst. Nantwich, Reading, Biackburn and Birmingham. It was a pleasure to see Mr. Jack Pitman amongst the members present. (You can't keep Jack chained to a T.V. set.)

Ringing commenced at 11 a.m. at St Bartholomew's. Edgbaston, a light ring of eight. and continued during the afternoon at St. Chad's R.C. Cathedral. The Cathedral Church of St. Philip and Aston Parish Church were visited and under the guidance of the Master. Mr. Bert Kynaston, a good standard of ringing was maintained throughout the day.
Tea was laid on at the Co-op Restaurant in the High Street, where everyone refreshed themselves with the good things provided. After tea Mr. George Fearn apologised that St. Martin s bells were not available. so back to the Cathedral where the business meeting was held in the belfry, with the Masizr presiding.

Mr. E. C. Shepherd welcomed the Guild to Birmingham and hoped that all had enjoyed the visit. We want to see the Guild getting on. he said, in wishing it every success for the future.
Apologies were received from Mr . O. J. Whitaker, secretary of the Joint Committee B.R.S. Association. Mr. Rodney Meadows, Mr. Bert Sutton, Miss Wallace, Mr. Fred Hanning ton. Mr. T. R. Barron, Mr. Luton and Mr, Harold Walker. The meeting stood in silence for the late Mr. Fred Seager, who had passed on since last year.

The statement of accounts, with an income of $£ 716 \mathrm{~s}$., showed a balance of $£ 313 \mathrm{~s}$. 2 d . on the right side. The honorary secretary in his report stated that free passes could not be obtained for wives of members attending the Guild meetings.
It was proposed by Mr. Freeman and seconded by Mr. Sid Foskett, that all officers be re-elected for the coming year. The vacancy of Master of the Eastern Region was left open until the next meeting; all other regional Masters were re-elected. Mr. W. Meredith. Shrewsbury, and Mr. John Lindon, Birming ham, were elected members.
A proposal to held the annual general meeting in 1961 at Lincoln was lost by a casting vote in preference for Darlington. The date will be April 29th. 1961. Mr. Tomlin proposed Southend-on-Sea for the autumn meeting and this was carried. The date fixed was September 30th. 1961.
An omnibus vote of thanks was extended to all who had contributed towards the success of the meeting, and was carried with acclamation.
J. A. H.

## TRURO DIOCESAN GULLD

One of the most successful ringing festivals in Mid-Cornwall for several years was that at St. Columb Minor, which was attended by nearly 100 ringers. The service was conducted by the Rev. S. J. Rust, who also gave the address. The tea was arranged by ringers wives and other local helpers.
Judge for the test ringing was Mr . J. Keatt ( St . Merryn) and seven first class and nine second class certificates were awarded. The festival was organised by Mr. D. Burnett (Guild secretary) and Mr. H. Lander (honorary treasurer).

## LETTERS TO THE EDITOR

## BROADCAST RINGING

Dear Sir.-May I be permitted to enlighten Mr. W. Upion concerning the broadcast from Si. Mary Redcliffe. on May 15 th. The bells were not heard over the air before the service owing to an error of $1 \frac{1}{2}$ minutes in the timing arrangements made with Broadcasting House.

The hells were heard, however, at the end of the service and I should like to compliment and thank the Rev. Martin Wilson and the B.B.C. engineers for their efforts in making this possible.
My thanks also to the band who made such a good effort for the broadcast.
It is a matter for consideration by all concerned that Sunday service ringing should take place at the end of the broadcast service rather than at the heginning. it being appreciated that it is much more easy to start ringing than to stop especially when seconds are so important.-Yours sincerely,

## Bristol.

## EMLYN F. HANCOCK.

## NEWS FROM CALGARY

Dear Sir.-Ringing at Christ Church, Calgary. very rarely reaches the news headlines. but readers of The Ringing World. may be interested to hear that we continue to ring there fairly regularly. It seems extremely difficult to keep a band together. However, we now have the faithful few: most of whom have learnt to ring within the past year. Also with the help of Ted Clements. a former Leicester ringer. who is now living in Calgary. I am hoping we shall be able to progress beyond plain hunting.
I have recently spent a short holiday in Vancouver and Victoria, and was very pleased indeed to meet and ring with the ringers at the Cathedral of the Holy Rosary. Vancouver. and especially pleased to stand in a quarter peal of Grandsire Triples at Christ Church Cathedral. Victoria. on the occasion of Princess Margaret's wedding. Unfortunately, the great distance between towers in this country makes visits like this very infrequent!
Any ringers visiting Canada will be most welcome in Calgary.-With best wishes, yours sincerely.

## (129 14 Avenue S.W..

Calgary, Canada.

## PATRON SAINT OF RINGERS

Dear Sir-I was very interested to read the letters in the issue of March 25 th. relating to the patron saint of ringers and naming no less than five saints with their respective claims. Would it be throwing 'a spoke in the wheel: so to speak. by furnishing this piece of information?

## - St. Agatha, Virgin and Martyr.-St. Agatha

 Was a virgin martyred in Sicily. She was held in great honour from the fifth century onwards. and iwo early churches were dedicated 10 her in Rome. She is the patron saint of Catania. where she died. and for some unknown reason is also regarded as the patron of bellringers:"This was printed on page 8. February 51h. 1960, issue of The Anglican. under the heading Saints for the Month, and was probably taken from The English Churchman's Calendar: published by Mowbray and Co.Yours sincerely.

Randwick. N.S.W.

## NOTATION ALPHABET

Dear Sir.-I must apologise to Mr. Hawkins for not naving been sufficiently explicit in my reply ( -R . W. April 8th) 10 his letter on the listing of methods. Perhaps it will be clearer if I say that I use the following notation - alphabel ' in my own lists of Surprise Major methods.
-.12 .1234 .1236 .1238 .1256 .1258 .14 .1456 .1458 .16 .18 . 34.3456.3458.36.38.56.58.78.
(Although I know of no method that contains four contiguous places. I have included 1234 and 3456 in the above alphatet' for the sake of completeness.) Similar alphabets can of course be drawn up for Royal and Maximus methods within a tew minutes. Thus, having an "alphabet." it becomes an easy question of writing out the methods alphabetically.
As for cataloguing purposes the actual lead-end of the method is of minor importance. 1 generally leave it to the end of the place notation. when I use the letters referred to by Mr. Pattison. This seems to me to be simpler than to subdivide the methods into classes by their lead-ends. as Mr. Pattison suggests, and also has another marked advantage. When methods, are listed alphabetically and irrespective of their lead-ends, those with the same work above the treble are at once apparent, as in the following example:
-36-4-58-16-12-5-16-1 a Cranbourne
-36-4-58-16-12-5-16-7 b Painswick
-36-4-58-16-12-5-16-7 g Blackburn
-36-4-58-16-14-3-14-5 f Lindum
$-36-4-58-36-14-5-36-7$ b Superlative
-36-4-58-36-14-5-36-7 g Harleston
Of the above. Cranbourne. Painswick and Superlative are 2nds place methods. and Blackburn. Lindum and Harleston sths place methods.
Conversely, a reverse 'alphabetical' listing will show up those methods having the same work below the treble:

34-38.6-56-36.14-14.5-14-1 m Tottenham
56-56.4-58-36.14-14.5-14-1 m Olney.
-56-4.56-58.36.14-14.5-14-1 m Dublin
34-56.4.56-58.36.14-14.5-14-1 m Suffolk
-58-4.58-58.36.14-14.5-14-1 m Bristoi
-58-4-56-38.14-14.5-14-1 m Hampshire
Neither Mr. Hawkins' nor Mr. Pattison's systems do this. While the former appears to serve no useful purpose. the latter is limited to a pure listing of methods. for which it is. of course. quite adequate.

Finally, I should like to make a small correction 10 R.A.S. report on Kenwyn
Ringers outing. in which he says that Hartley Ringers outing. in which he says that Hartley. Kent has no bellis (•R. W. May 6(h). Having myself had cause to pay occasional visits to Hartley. in the past few months. I can assure him that All Saints" Church has two bells. which. like Fremington's, may be said to have a character of their own!-Yours sincerely.

CYRIL A. WRATTEN.

## Cheltenham.

## ADVICE FROM FATHFR

(On Record Peal Ringing)
Dear Sir.-Congratulations to Stephen Ivin for once again stirring up the correspondence columns. His suggestion to shout Stand after 12 hours ringing when one bell misses a dodge would. if I was ringing. send me completely round the hend:
Carry on rrying for the 40.000 Stephen, and if you hring it off you 100 can share the honour and glory of Frank Lufkin's band, hui don't be so silly and set the bells up at the first bad hlow. Unless you hurry. Frank will heat you 10 it and leave you to learn the Bristol and ring a 40.000 of this method.Yours sincerely.
Highclere. Hants.

## NO SERMON INTENDED

Dear Sir.-I fear that Stephen Ivin has misunderstood much of the report of the long peal at Kirby-le-Soken. In the first place no attempt was made at preaching a sermon about long peal attempts. If this is the way he has interpreted it, it can only be because he has a guilty conscience about his own attempts. realising perhaps that others have succeeded in something lie has tried to do by sheer determination.
I understand that the comments made about the high standard of discipline in the peal were made by a member of the band, who was also in the recent attempts at Loughhorough. This must surely indicate that the discipline during these attempts was not all that it might have been.

Stephen Ivin seems to lay much emphasis on the fact that Plain Bob was rung at Kirby-le-Soken, and not Bristol. Why does he himself not go for a longer length of Bristol? This was, I think, the iden in the mind of the leader writer, when talking about long peals.-Yours sincerely.

MAURICE E. DOWNS.

## Clacton-on-Sea.

## NOT UNDERSTANDABLE

Dear Sir.-Mr. Ivin's letter (page 371) concerning the record peal at Kirby-le-Soken is a jealous and snooty comment written in extremely bad taste, and it is not the first time he has shown such an attitude in your columns. Does he imagine that Bristol is the Everest of all change-ringing? Surely it is the quality of the performance that is of prime importance. Are these Loughborough people so almighty that they can ring peals of Surprise every 'practice ' night? And why don't they ring 40.320 Bristol instead of toying around with a simple method like Bob Major?

No. sir! I cannot understand this ridiculous attitude. Who is Stephen Ivin. anyway?Yours sincerely.
R. BROWN.

Leeds.

## THE KIRBY PEAL

Dear Sir,-Talk about catty remarks! I think the letter from Stephen Ivin concerning the 22.400 Bob Major at Kirby-le-Soken was disgusting. - Yours sincerely,
A. G. CLARK.

Tadworth. Surrey.

## SALISBURY DIOCESAN GUILD <br> North Dorset Branch

The quarterly meeting of the North Dorset Branch was held at Lillington on May 28th. Thete were 26 present in the lovely little mediaeval church of St. Martin. whose five bells sounded very pleasant over the green countryside. on a perfect May afternoon.
At the Guild service, the Rev. $G$. . Buchanan welcomed the ringers on behalf of the Vicar. Canon Wingfield-Digby. He said that the keenness of the Lillington ringers had resulted in young people from the Sherborne schools coming out to learn from them.
An excellent tea, provided by Mrs. Marks and Mrs. Sampson. preceded the meeting At this. two new members were elected to the Guild-David Hopkins. of Lillington, and Graham Davison, of Gillingham. It was unanimously agreed that a message of goodwill be sent to Canon C. Carew Cox. Master of the Guild. on the 50th anniversary of his ordination as priest.
The next quarterly meeting was arranged for September 10th at Maiden Bradley. Atter the meeting ringing was resumed at Lillington and also at Thornford.

## TOWER CLOCKS

NEW INSTALLATIONS OF ALL TYPES REPAIRS AND CONVERSIONS OF HAND WOUND TO ELECTRIC WINDING

## ALPHABET FOR BEGINNERS

## By T. J. LOCK

## "K"

KNEFS. You will notice that those ringers who make bellringing look easy, the good handlers, do not bend at the knees. If bending of the body does occur it should be done from the hips. However. there is a case for the knee-benders when a heavy bell is being rung. The 'pull.' both at sally (or handstroke) and at rope's end (or backstroke). is too long for the average human's reach, so in addition to hip bending knee bending is automatically resorted to. This long pull is due to the large wheel which is attached to a heavy bell and around which the top end of the rope goes. As the result of this a longer length of rope is required below the sally-at the end which is gripped by the ringer-and to overcome the danger of too much rope coiling on the floor at the ringer's feet, boxes are brought into use.

KNOT.-Peculiar to any part of the whole world is the Yorkshire tuft for bellringing. This tuft is another padded part, identical to the sally although much shorter. and is at the rope's end. As you may know. the method of rope with a looped end is merely by threading the end of the rope through the three or four strands of the same rope at a different place so as to make the length of loop longer or shorter as may be required. But the length of rope between the tuft and the sally cannot be adjusted by looping and so other means have to be employed. A knot is used and in itself is quite a simple expedient, because it does not interfere with a ringer handling his bell, it is easily and quickly made and it is easily and quickly unmade. And if one knot does not shorten the rope sutficiently then a second knot may be tied. The sketch will illustrate the knot. which is often referred to as the Yorkshire eight.

KNOWLEDGE.-Your progress in ringing will largely depend on the knowledge you have acquired, and for this short article we shall confine ourselves to two kinds of knowledge. practical and theoretical. Believe me. one kınd is of no use to you without the other kind, and they must both be gained together, bit by hit. Basically, it is up to each ringer the amount of knowledge acquired but there are, of course, the more fortunate ones who have opportunity continually knocking at their door. If it is your door, seize the opportunity or else you may have regrets later on.
I would recommend the raw beginner to gain practical knowledge at the ousset, such as seeing all the works : in the belfry, then receiving demonstrations in bell handling and bell control. and being given experience in ringing rounds and call changes. Even at this slage. rightly or wrongly. I have put some of my pupils on to plain hunting (standing behind them the whole time to Courses of Original telling them over which bells to strike) before I have introduced to them any technical books or impressed upon them the importance of the use of pencil and paper. My word, this is the time when one realises how many learners have deaf ears! At this stage it could be revealed how a litule knowledge can be a dangerous thing because the beginner must have continual and constant practice to become a good, handler and a good striker, for without this practice. should he be quick on the uptake and he one of those easily adaptahle to learning methods, he might sweep through the stages of Plain Bob. Grandsire. Stedman. and Treble Bob and still be a poor striker. But theory, well under control. is an essential and a hnowledge of method construction. lead and course ends, and coursing order is part of the attributes of the complete ringer. So regulate your researches into the theory of ringing in relation to your practical attain.

## SPRING TIME OUTINGS

BARKING AND DISTRICT
Ringers of St. Mary's. Barking, and other members of the Suffolk Guild, spent an enjoyable day in the Fen country on their outing on May 21st. A rather cold, dull day was compensated by good bells and glorious churches.
Ringing in various methods. with call changes for beginners, took place at Elm, Wisbech St. Mary, Leverington. Walsoken, Walpole St Peter, Walpole St. Andrew, Terrington St. Clement. Tilney All Saints and Terrington St. John, with lunch at Wishech and tea at Kings Lynn. To all incumbents. local ringers for their kind help and in particular Mr. J. E. Fox. the party expresses sincere thanks.
R.E. L.

## ST. CUTHBERT'S, DARLINGTON

Ringers of St. Cuthbert's. Darlington, and their friends. went northwards on May 21st. for their annual outing. They stopped for an hour at Chester-le-Street, and were welcomed by Mr. Dennis Bayles and Mr. Sheridan. Touches of Stedman Triples, Plain Bob, Double Norwich and Cambridge Surprise were enjoyed on this fine ring.

The route then lay, through a mixture of industrial squalor and residential suburbs. which preads south of the Tyne, through Blaydon and into the lovely country of Tynedale. At Corbridge, the party spent half an hour full of interest at the remains of the Roman Station at Corstorpitum, and then continued to Hexham, for a fine ham and egg tea at the Beaumont Hotel.
The ringing members of the party accomplished the somewhat complicated ascent of Hexham Abbey-a magnificent building waich is being worthily restored-and raised the bells only te find that, though the clock hammers had been pulled off. three of them were still fouling the bells. There was a very informal lower. and by the time the defect had been semedied it was too late to ring.
There was compensation for this disappointment. however. in the superb countryside. The organiser of this enjoyable expedition. Mr. E. Mashiter. was warmly thanked by the captain, Mr. T. Cooke. during the tea.

## ST. MARY'S, READING

The dismal weather of May 21st did not dampen the spirits of the party from St. Mary's. Reading, which arrived at St. Albans Abbey. the first tower of this year's outing. well on time. Stedman and Grandsire Cinques were rung on the twelve. interspaced with rounds. Having collected the stragglers taking late breakfasts in St. Albans coffee houses. we made for Bengeo. in contrast a light. fast moving octave, where methods up to Spliced came round.
After lunch at the White Hart. Hertford, the lovely ten at All Saints were tackled. Low ropes on the four trebles and the bells being difficult to hear lowered our standards a bit. but two of the party rang Cambridge Royal for the first time.
The main road from Ware to Bishop's Stortford was one of the worst we have ever encountered. However, a patient coach driver soon saw to it that we had the handy ten at Bishop's Stortford ringing out. Highlights of the ringing here were a touch of Stedman Caters and a half-course of Yorkshire Royal, which almost settled to a peal beat. Leaving the eastern borders of Hertfordshire, we journeyed across country to Stevenage, where the Scotch Corner Restaurant provided a
sumptuous tea before we rang the fine Taylor sumptuous tea before we rang the fine Taylor eight in methods up to Spliced.
The route to our last tower. Harpenden (8). lay through Knebworth and Kimpton. We had many on anxious moment rounding blind corners on the amazingly narrow roads through these villages.
The success of the day was due in no small measure to ringing friends from Reading University and elsewhere. who gave us their support. and to those good people waiting at each tower, not forgetting Albert Diserens and Frank Lewis, who saw to it everyone was well satisfied.
R. K. R.

## LEEDS PARISH CHURCH

Eight towers were represented on what would he more aptly described as a Leeds and District "outing on May 21 st . to Northumherland and Durham, with Morpeth as the objective.
Good use was made of the two tens-St. Andrew's. Roker, and All Saints". Gosforthbut the former are marred by excessive noise in the ringing room in spite of a sounddeadening' ceiling.
An hour's ringing on the light eight at the Morpeth Watch Tower catered for all tastes and we were assured that it is the normal custom, owing to the situation of the tower in the middle of the main street. to shutter the bells drastically when they are rung as opposed to chiming from the Ellacombe.

Perhaps. the biggest surprise of the day came at Brancepeth. One half expected to see a pitshaft or some signs of its situation in the Durham coalfield. Instead. we found a church with a 700 year old tower-a church ahounding in seventeenth century woodworkset in lovely surroundings in the grounds of Brancepeth Castle. from which grounds three hundred years ago came the timber for the British Navy's first ithree-decker. 'Sovereign of the Seas. and in which today peacocks strut proudly.
R.H.D.

## HILLINGDON

Ringers of St. John the Baptist. Hillingdon. enjoyed a wonderful day in the West Country on May 14th. Setting sail at 7.30 a.m. Evercreech was reached at 11.30 a.m. Treble Ten and Grandsire Caters allowed the visitors to appreciate the lovely bells and meeting several of the local ringers, including Harry Sanger was a great pleasure.
Atter lunch at Shepton Mallet. Wells Cathedral was reached at 2 p.m. where the party was welcomed. A course of Cambridge Royal foundered towards the end, but Caters on this wonderful ring was more successful. Chewton Mendip was next and one feels almost envious of the folk who live there with such beauty and grandeur all around, enhanced by a lovely example of a Somerset Parish Church, with bells so wonderful as to be difficult to describe. A great consolation was to be able to take their sound home on a tape recorder!
Every favourable comparison was made by some when Trowbridge was reached. This famous ring, so easy to hear and to ring, was very much enjoyed and proved a fitting conclusion to a wonderful ringing outing.
How fortunate we ringers are to have incumbents who will allow us the joy of ringing their bells. the local ringers who meet and welcome us, and captains like Fred Goodfellow who never spare themselves in efforts to organise these perfect days.
W. H. C.

## WATFORD, HERTS

Old Windsor, with its light ring of eight. was the first tower on the list for this year's outing of the Watford company on May 14th. During the ringing. the eight non-ringers in the coach party of 33 were able to look round the church and also enjoy the glorious sunshire on the banks of the Thames.
Leatherhead was visited next. where rounds for the beginners was followed by Grandsire Caters and Plain Bob Royal. Cambridge Major went well on the excellent Taylor eight at Shalford. before the Hampshire border was crossed. The village of Bentley is the home of a member of the Watford band. and after an enjoyable ring on the six, which are unusually deep toned for their weight, the party sat down to an excellent tea prepared her relations. The recast eight at Farnham were put to good use. Little Bob Major being among the methods rung.
The weather had been perfect all day and it was an ideal event for the journey over the Hogs Back to Guildford, where we were met at Holy Trinity, by our respected editor. Ringing on this magnificent octave provided a fitting end to a most enjoyable day, for which thanks are due to incumbents and ringers a the towers visited.
R.G.S.

## THE TOWERS OF THE FENLAND

## By T. A. BEVIS

(Continued from page 357)
ST. WENDREDA'S CHURCH, MARCH
Many church towers have an open ringing gallery overlooking impressive interiors, but few, if any, of such galleries afford a finer view of an ancient double-hammerbeam roof as that of St. Wendreda's Church. March.
Here the ringers are accompanied by a multitude of angels, so realistic that one can almost hear the beating of their outstretched wings. There are one hundred and twenty of these heavenly figures projected from the hammerbeams in triple tiers, holding various musical instruments peculiar to the 16th century, while at the feet of each of the lower angels, saints and martyrs display emblems and symbols of martyrdom. The roof is regarded by experts as being the finest example of its kind in the country.
Wendredar is an obscure - local ' Saxon saint of whom very little is known. It is said that her earthly remains were interred at Ely, and later transferred to Canterbury. The dedication is believed to be unique.
The 14 th century tower stands on two arches and has a groined passage preserving an ancient right-of-way-an unusuai but not uncommon feature. A soaring spire brings the stecple's total height to approximately 140 feet It is unusual for East Anglian towers to possess vertebrae-like exterior turrets from top to bottom, but such is the case at March. and the result of this 'borrowed' West Country style is most pleasing. Dorothy Sayers, author of 'The Nine Tailors." was a frequent visitor th this church. and the roof of her composite fane. 'Fenchurch St. Paul. was directly inspired by the angel roof at St Wendreda's

There are six bells (tenor 15 cwt 2 yrs 18 Jhs. in E) of fine tonal quality, cast at Downham Market hy Thomas Osborn in 1802 They were conveyed to March from Downham on harges via the River Nene and had a lane (Bell Metal Road) named after them. In the spring of 1929 the bells were luned and rehung and the treble recast by Taylor's, and they revolve on ball-bearings in a teak frame
Osborn was a capable founder, being foreman for Edward Arnold, who later formed a partnership with the former at St. Neots foundry. before Osthorn set up for himself at his native town. Downham Market. where he died in 1806. He cast many good bells for Fenland. a notable eight being Hilgay, 1779

The hells at St. Wendreda's carry typical inscriptions of the day in which they were created, the tenor being appropriately inscribed. I to the Church the living call. and to the grave I summon all.' The fifth, how ever, has a most unappropriate inscription for the Fenlands: 'Our voices shall with joyful sound make hills and valleys echo round (poetic licence was surely ohtained in this instance!). These two inscriptions also occur at Marham. Norfolk. the fifth and tenor of the ring of six being identical to those at March. Marham's bells were provided in the same year, 1802.
It is thought that St. Wendreda's bells were cast from the metal of previous ones. for Cole refers to a visit to March about the middle of the 18 th century and mention is made of five bells at that time. Records date back to 1542. and we learn that two bell ropes in 1555 cost three shillings. In 1558 the bells were rung for the Coronation and in 1593 they received a thorough overhaul. The 'greate bell of March' was recast by John Draper: at Thetford. on February 24th 1613: it weighed 12 cwis. Another greate hell ' was recast in 1648
The first peal of 5.040 changes on the present bells was completed by March ringers on November 5th, 1819 (presumably to the accompaniment of exploding fireworks!). A Sunday service team emulated this achievement on September 29:5. 1956. The church was fortunate in having a keen team of ringers as early as 1815 when extents were regularly rung. In 1824 a peal of Doubles was achieved and in the same year the same team rang 1.800 changes of Cambridge Surprise

The church's handbells. which have heen recently renovated. hequeath an amusing story:

Over a hundred years old, they were formerly the property of a neighbouring inn, and according to hearsay the local ringers of yesteryear. having welcomed the New Year in the traditional manner. descended the tower and entered the inn. where they drew lots for the largest handbells. Having done this the clappers were unscrewed, the bells inverted and topped up with ale, and a good time had by all!

ST. GEORGE'S CHURCH, LITTLEPORT
Do not ring and run away,
Leaving other folk to pray;
When a ringer doeth so,
Hand says "Come," but foot says " Go." This 'controversial' advice is prominently displayed to visitors entering the ringing gallery at St. George's Church. Littleport, a large perpendicular building which has been much renewed. The lofty 15 th century tower is very well proportioned and rises gracefully above tree-tops. It once had a passage through the base. similar to that at March, but this has been closed and the space serves now as a miscellaneous store, an 'improvement' very much to be regretted.

There is a good ring of eight bells by John Warner and Sons, the only inscribed instrument ' being the tenor ( 18 cwt 2 qrs. 5 lbs ). which informs us 'We swing to the Glory of God and in memory of William Bonner Hopkins, Vicar 1866-1890.' The bells were rehung in the original oak frame by Messrs. Taylor's, in 1935, at an expense of $£ 170$. Of this amount over $£ 120$ was raised by public subscription.

Dedicated on June 24h. $1891^{\text {. }} \ldots$ at 10 0 clock in the morning the first chimes on the bells were rung : . one remarked that the peal was extremely similar to the beautiful peal of Old Chesterton... The handling of the bells gave much pleasure to the parishioners. and inspired not a few with the desire to become ingers.
The tower contained four bells in the 18th century, the second. third and freble being cast by John Draper in 1622. 1624 and 1640 respectively, and the tenor ( 9 cwt .) was by Thomas Osborn. 1790. This ring was considered to be absolutely imperfect. the treble being out of all proportion to the tenor.

## HERTS COUNTY ASSOCIATION

The village of Essendon. on its hill-top. with a pleasantly tuneless ring of six. is an ideal place for a summer meeting. However, on May 21st. a cold day and the fact that no tea arrangements are possible in the village. kept surprisingly few ringers away from the Ashford District meeting.

A short service was conducted by the Rector. and then a 'picnic' would hardly be the right word to describe the sight of several ringers munching their way around the village.
During the business meeting the secretary. Mr. S. Huckle. stated that he hoped the next meeting would be at Welwyn and Tewin on June 18 th . special methods being Gainsborough and Little Bob. Several new members were elected from Tewin.

## TOWERS OF THE FENLAND

## (Continued from page 405)

At a vestry meeting held on November 4th. 1787. there was recorded 'That the person or persons who broke the bell should be forthwith brought to justice and on January 1788. - That the bells should be forthwith taken down in order that they be run over again with an addition of mettal in order to have five bells for the use of the parish.' Perhaps the treble was the bell which was broken, presumably by a parishioner who could no longer tolerate its discordant note! However. the ecasting of the bells did not materialise and it is believed two of them were later sold.
There are two memorials to ringers. One is to the memory of Benjamin Arber. who died September 25th. 1918. who had rung the bells at this church for 60 years. We leave this imnressive place having thoughtfully read the wall-tablet erected to the memory of Stanley Ellingham, who expired April 29th, 1911, aged 18 years:

Though called away so soon. he had for a considerable time rendered efficient and reverent service in this belfry. May Cod enable each ringer to do his work as faithfully and with as big a motive as he did.

## OBITUARY

MR. AUSTIN B. COOK
The news of the passing of Mr. Austin Bernard Cook, who was secretary of the Eastern District of the Yorkshire Association from 1921 to 1932 , will be received with regret by many old ringers. He died at the age of 78 at the Castle Hill Hospital. Cotting ham. near Hull. His membership of the Yorkshire Association dates back to 1907.

He learnt to ring at St. Mary's, Hull. and afterwards rang at All Saints', Margaret Street, until the bells became unringable. Then followed a long association with Holy Trinity, Hull. until ill-health in the late 1930's compelled him to give up active ringing. Much of his ringing was with the late Mr. Charles Jackson and Mr. George Williams, of Hull. Another great friend of his was Mr. Arthur West. of Sutton-on-Hull, whose home with its 300 clocks and handbells was a great attraction to East Yorkshire ringers.
Mr. Cook was employed as a clerk by the North Eastern Railway Company and for some time was a trustee of the Yorkshire Association. Of late years he did not ofter attend Eastern District meetings owing to illhealth but was always highly respected and welcomed when he could come. He leaves a widow for whom much sympathy is felt. May he rest in peace.
H.S. M.

## MR. SIMON CADE

We regret to announce the death of Mr . Simon Cade, of Scothern, on April 8th, at the age of 86 years. One of the first members of the Lincoln Diocesan Guild, he rang one or two peals with the late Rev. H. Law James.

At his funeral at Scothern Parish Church the Guild was represented by the Master (Mr. J. H. Freeman) and other members. The Guild also supplied the organist.

After the service a quarter peal of Minor was rung. This was made difficult, by the band finding that a bell rope had been broken a few days previously by a touring band and the muffles had inadvertently been cleared away during ' tidying-up, operation. A Ketteham ringer. however, produced the necessary materiais and the ringing was appreciated by several parishioners who had known the late Mr. Cade for many years.

## MR. W. H. KENNEY

On May 13th Somerby, Leicestershire, suffered a sad loss by the death of Mr. William Herbert Kenney, aged 78. He was a member of the Goscote Society of Change Ringers, the old Midland Counties Association and the Leicester Diocesan Guild, and had been a regular service ringer at All Saints' Church for more than fifty years.

A good churchman, he did a lot of work for his church, both inside and in the church yard.
The funeral service at Somerby on May 16 th was attended by a large congregation, including the ringers. who sent a wreath in the shape of a bell. The bells were rung half-muffled in his memory on the following evening by his fellow ringers and friends from Great Dalby.

## MR. J. W. UNDERWOOD

Another old Somerby stalwart passed peacefully away on May 17th. in the person of Mr. James William Underwood. aged 78. He had been in failing health for a long time and had not rung for several years.
A member of the Midland Counties Association. the Framland Association and the Leicester Diocesan Guild, he took a great interest in the church and its bells. At the heginning of the century Somerby had one of the best teams of ringers in the district.
The funeral took place at Somerby on May 2 lst. Amongst the wreaths was one from the ringers, and also from the British Legion. of which he was standard bearer for the local branch for 24 years.

Before evensong. on May 22nd, a quarter peal of Grandsire Doubles was rung with the bells half-muftled as a tribute to him and to the late Mr. W. H. Kenney. It was conducted by Mr. H. T. Bonshor.

The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

## FOLKESTONE, 1960

THE Central Council meeting at Folkestone will pass into history as a happy meeting. There were none of those violent divisions of opinion that disturb the individual tranquillity of life; and while it is true to say that all were not of one voice on the many matters presented, nobody left with a feeling of a grievance. This was the third meeting of the Central Council in Kent. The other two, in 1905 and 1937, were in Canterbury. Genial John Willis, the chairman of the Kent County Association, in his welcome gave a memory of the last meeting from Bert Luck, who recalled that on the occasion of the Council meeting he rang his first plain course of Grandsire Cinques 'in hand' at 1.30 in the morning with a band that then included the Council's secretary, Mr. George Fletcher, and his invaluable assistant, Mrs. Fletcher. Such was the stamina of the Council's officials in those days; despite the heavy demands of the preparation and dealing with the agenda, there was time to get somebody through their first.
There is a real family sense about a Central Council meeting, and this is exemplified by the Holy Communion that marks the beginning of proceedings. The Bishop of Tonbridge was the celebrant at this service and there were more than 100 ringers present. Later in the day the Bishop joined the Mayor in the official welcome, backed up by Canon Hough, the father of a ringing family, and Mr. John Willis on behalf of the host Association.
The fact that the Standing Committee had a very long session on Monday evening-they had a break for a meal and then resumed until 10.30 -led everybody to believe that a long Council meeting was in store. The whispers of an evening session of the Council did not materialisefor which the Editor gives sincere thanks-and the proceedings ended at 4.45 with the prospects of the great union in 1961 not amid south coast sunshine but in the industrialised conglomeration of towns at Stoke-on-Trent, where the visit will coincide with the civic jubilee.
Much of the Council's financial stability depends on ' The Ringing World,' and Mr. J. Frank Smallwood was in a happier frame of mind when he presented the report on the journal. Despite the unavoidable increase in price, he held that there was no room for complacency-the drive for new subscribers must continue. A fact that was not brought out was that the paper's profit for 1959 of $£ 587$ was due to one thing-the strike. Had production been normal throughout the period of the strike there would undoubtedly have been a loss. The larger issues of 1960, including those of 24 pages, indicate the policy of the Committee of giving the maximum of their resources to their readers. The 24 -page issues represent the generosity of those who send contributions with peal and quarter peal reports. The principle of the voluntary levy has been

Devonshire Ringers and the Bath and Wells Association. where a fee is now compulsory. This has been augmented by direct grants from the Oxford and Salisbury Diocesan Guilds. If the movement spreads, fears as to the future will be allayed. This we do know. Even when the accounts of 1960 are completed the true day-to-day position of the paper will not be known, as much of the revenueover $£ 2,000$-was on the old rate of subscription.

Perhaps the biggest surprise of the Council meeting was the recommendation of the Standing Committee, which was accepted without comment by the floor of the house, to recognise a peal of Minimus. How this would have rejoiced the heart of the late Mr. Wilfred Hooton, the librarian of the Council, who on more than one occásion asked that something should be done to stimulate and help forward ringing in 4 -bell towers. We do not expect many peals under this heading as no band of ringers would ring them for choice. Few would care to encounter the monotony. We do recall, however, that before the war two youthful enthusiasts of the Chester Diocesan Guild rang a peal of Bob Minimus 'in hand 'at the second attempt. (They broke down at the first because they had forgotten the number of extents they had rung.)

More and more the Council is endeavouring to widen its doors to embrace all church bell ringers. An enquiry has been received from the Devon Association that if they applied for affiliation would they be welcome. An enthusiastic 'Yes,' led by the Rev. John Scott, of the Guild of Devonshire Ringers, came from all parts of the hall. There was no argument about round ringers and call-change ringers being outside the pale, the feeling being that they were Church ringers. Is this ringing compatible with the views of those who formed the Central Council- "To encourage and assist the development of the art in its scientific aspect as a branch of Church work'? We will leave others to argue this finer point: the writer's view is 'You are doing a job of work for the Church with a bell as I am; can't we both unite? '

In the past there has been a divergence of outlook between the Council and the Central Council of Churches regarding the treatment and care of early bells. A long conference between the two bodies and the bell-founders has resulted in a measure of agreement and a slightly less rigid attitude on the part of 'the Four C's' on the question of recasting. Where an old bell (pre-1600) is ruining a ring of six bells, should it be retained purely on account of its antiquity? There is only one answer that a ringer who has any ear for bell music or appreciation of good striking would give. It is the sincere hope of the Council that "the Four C's' will accept the amendment of Mr. Lewis, and that the suggestion of keeping an old bell in the churchyard will not go forward. If an old bell is worth keeping,

Conducted by Cedric J. A. Brown.
First peal in five methods by all. First on the bells.

## YORKSHIRE ASSOCIATION

## Southern District

A good attendance of over 50 members was one of the factors that contributed towards the success of the annual meeting of the Southern District held jointly with the Doncaster and District Society at All Saints', Arksey, on May 21 st. Early visitors were met by genial host Mr. Ernest Cooper, who entertained with some interesting anecdotes of Arksey. The stories of the ten year old boy who married a woman of 61 and the daughter who died the same year as her mother, the daughter being older than her mother, were proved conclusively by reference to the respective gravestones.
The light ring of eight bells in the central tower of this lovely old church at Arksey were put to good use during the afternoon and evening. Barnby Dun's bells were also made available during the afternoon and so great was the demand for a ring on this handy six that the Rector and local company very kindly volunteered their further use after the tea and meeting.
Tea was provided in the Church Hall by the local ladies. The Vicar. Rev. H. H. Naylor, joined the company at tea and afterwards presided at the business meeting. The chief item of business was the election of Mr. Norman Chaddock to the office of Southern District vice-president. The retiring vicepresident. Mr. Dan Smith, had only been able to attend occasional meetings since his serious illness. four years ago. Tributes to Mr. Smith's work for the District since his election in 1945 and wishes for his future health and happiness were paid by Mr. F. Brunt. Mr. H. Chant and Mr. J. J. L. Gilbert. Mr. David Cubitt was elected to the office vacated by Mr. Chaddock on the General Committee. Mr. T. Cutts was re-elected and Mr. F. J. Jackson and Mrs. E. D. Kelly were elected to sit on the District Committee.
The following were elected new members of the Association: Mr. T. W. Crossley and Miss Linda Gott (Wakefield). Mr. R. Watkinson (Tickhill) and Miss Lynn Thompson (Handsworth).
It was decided that the next meeting of the Southern District should be held jointly with the Sheffield District Society at Rotherham on August Bank Holiday Monday, providing the Sheffield Society were in agreement. A collection made for the Bell Repair Fund realised the sum of $£ 13 \mathrm{~s}$. 9 d . Attention was drawn to the next Jasper Snowdon Commemoration dinner, to be held at Rotherham on October 22nd. There is accommodation for up to 250 .

On handbells: 13 (5).

SERVANTS OF THE EXERCISE - No. 25

MR. T. J. LOCK, A.R.I.C.S., A.I.A.S. Secretary, Middlesex County Association
Mr. Tom Lock is very well known throughout the Exercise, not only because he is secretary of the most important ringing associations, but because of the many successful ringing tours he has organised since 1951, which have extended from Yorkshire to Hampshire, and Suffolk to South Wales. The quality of the performances and the standard of striking on these tours have done much to increase interest in the art, and have encouraged many ringers to avail themselves of the opportunity to tackle the higher methods and improve their standard of ringing. Tom Lock will not tolerate slovenly ringing, and he is very exacting in his demand that the peals rung on his tours shall be an example of what good ringing should be.

He was born at Woolton Hill, Hants, in 1909, and moved from the choir to the ringing

## LINCOLN DIOCESAN GUILD

West Lindsey Branch
Belton, in the Isle of Axholme, whose bells have recently been augmented from four to six. had its first meeting when members of the West Lindsey Branch went there on May 21 st . a number of vistiors being among the 70 ringers present The Guild service was conducted by the Vicar (Rev. A. L. Adams) and the lessgn was read by one of the Belton ringers.

Following an excellent tea in the Village Hall, the Rev. A. L. Adams took the chair for the business meeting in the absence of the vicepresident (Mr. C. H. Baker), who was involved with the B.B.C. in connection with the recent broadcast from Gainsborough Parish Church, where he is Ringing Master.

In congratulating the Belton ringers on their new bells, the secretary (Mr. G. L. A. Lunn) said that the occasion was especially noteworthy as the last augmentation from four to six bells to take place in the Gainsborough District (now the West Lindsey Branch) was over 50 years ago.
Further ringing followed in the evening when Epworth bells were also available.

The peal rung at Compton Dando on May 13th (see page 364 ) consisted of 15 extents of Plain Bob and 27 of Grandsire and not as printed.
chamber when his voice broke in 1924, at the invitation of the captain. Harry Balaam, a one armed ringer who now lives at Basingstoke. Completing his education at Newbury Grammar School, he went to London in 1927 and joined the Willesden band. Here he rang his first peal on December 20th, 1927.
In 1939 he married Kathleen M. Bradford, a well known and highly accomplished ringer; who has served as president of the Ladies Guild. They went to live at North Mymms. and Tom became captain of the local band. His wife serves as assistant organist at the same church. They have two sons, the oldest is reading. Theology at Hertford College, Oxford University, the younger son being still at school. Tom Lock is a chartered quality surveyor by profession, and is a local government officer. responsible for millions of pounds worth of building contract work, which includes the provision of new houses. His services were in great demand as lecturer at evening classes and some of the leading techrical colleges.
He has been a staunch stalwart of the Middlesex Association, and served as District Ringing Master. 1935 to 1938: District secretary. 1938-1958, and was appointed general secretary in 1957, serving in hoth capacities for one year. In succeeding the late E.J. Turner as general secretary, he had a colossal taskbut he has filled the position to everybody"s satisfaction to date, and the Association is now one of the leading ringing organisations. Elected to the Central Council in 1946, he has served on the Standing Committee, and was a member of the sub-committee formed to recommend a successor to Mr. E. H. Lewis
when he retired from the presidency.
His peals total by March. 1960 . was 600 , half of them for the Middlesex Association. His first peal as conductor was in 1934, and he rang his first 12 bell peal at Bow in 1938. His list includes over 100 different Surprise Major methods, over half of that number being methods rung for the first time. He has taken part in namc peals, married couples' peals and silent peals; has circled Willesden tower to peals 10 times, and also once each at South wark. Erith and N. Mymms. He has com pleted 21 years on the Parochial Church Council. served on various committees of that body, and is a sidesman. From all this it will be seen he leads a busy life-but he found time in 1951 to organise and provide accommodation for ringers who visited the Festival of Britain.

JAFUS.

## WOLVERCOTE'S WEEK-END TOUR

Wales was the venue for this year's weekend tour of Wolvercote ringers and friends: from in and around Oxford on May 14tls. Abergavenny was the first stop of the coach and on this fine ten touches of Grandsire and Stedman Caters were rung. Llangattock (8) was visited before lunch at the nearby County House Hotel
Ringing in the afternoon was at St. Mary's. Brecon (8). and Llandovery (6) and after tea at Llanbadarn Fawr (8), where a short service was held. The night was spent at an hotel at Aberystwyth.
On the Sunday morning there was morning service ringing at Llanbadarn Fawr before recurning to the hotel for lunch. Nantmel (6) and New Radnor (6) were visited on the return journey before crossing into Hertfordshire. On the delightful eight at Eardisland. Grandsire and Stedman Triples, Plain Bob and Cambridge Surprise Major were enjoyed. A song dedicated to the tour was written and rendered on the way home.
Thanks are due to Mr. N. Chamberlain for his unceasing enthusiasm in organising such successful and enjoyable week-end and also to incumbents and ringers in towers visited.

Bells will be heard prior to the broadcast service on Sunday morning. June 19th, at 9.45 a.m. on the Midland and West Home Service of the B.B.C., from Diss Parish Church, Norfolk.

## LETTERS

## MISLAID LETTER

Dear Sir.-Some time ago our new vicar, at Tonbridge, received a letter from an outing organiser in Glamorgan-we think. This letter has been mislaid and I would be grateful if you could pubish a short note in The Ringing World asking the writer to contact me at the address below. if Tonbridge bells are still required for his outing.-Yours incerely,
13. Baltic Road
W. H. DOBBIE.

Tonbridge.

## CONGRATULATIONS

Dear Sir,-I would like to congratulate Mr. Roy D. Tomlin on calling his first peal. Holt's Original. Seldom to my knowledge has such a feat been performed, and in these days when peals of Triples are scarce, such a peal comes as a welcome change

Addlestone.
W. SHEPHERD.

## INGENUITY AT ACCRINGTON

Dear Sir.-Our ringing room at St. James'. Accrington. is not large and when the bells were made into eight in 1953. we found that there was no point at which a straight stair could come up hehind the rope circle without having a trap-door on which a ringer would have to stand.

Eventually we built a wooden circular staircase (about 12 feet high) in the centre of the rope circle. It is covered by a hatchway. about three feet high, which, when closed, acts as a table. There are many other towers where this would appear to be the best means of access. The cost was about $£ 10$ and no special joinery work is involved, although we made many experimental plans and cven a quarter scale mode!! We also built a "lantern" roof and have installed new floors in the clock and ringing rooms.-Yours truly.

Hindley. Wigan.
R. LEIGH.

W. G. Wilson.

Editor: T. W. Whits.

Two close peal ringing friends, on the Central Council, decided to stay at the headquarters hotel and their respective wives at another hotel. On the first evening they took their respective wives to the headquarters hotel to dinner. After the meal when the ladies had retired the waiter whispered: 'You two have not taken a lot of time in getting a couple of friends!'
Mr. Alan R. Bridges has taken the post of head cook and catering officer at the British Legion Hospital, Nayland, Colchester.

- A get well quickly message was sent from the Central Council members to Mrs. Marshall, who is still laid up with a broken leg.
On his way to the Central Council meeting, Mr . Peter Bond was involved in a car accident. He was able to be present at the afternoon session.
Who is the young lady who decided to paint her toe nails orange for her hospitalisation? At any rate we send our good wishes for her tonsillatomy operation on June 20th.
Christopher Rogers, the son of Mr . and Mrs, Harold Rogers, of Isleworth, has been awarded a senior scholarship at St. Paul's School. He is a member of the British contingent going to Greece in July to celebrate the 50th anniversary of the establishment of the Boy Scout movement in that country.

Masters of Ceremonies at the social at headquarters following the Central Council meeting. at Folkestone, were two parsons-the Revs. K. W. H. Felstead and the Rev. John Scott. When one was exhausted the other maintained the fun. Round singing followed handbell stunts. We did not know that the Exercise had so many fine basses. We hope to publish the verses of Mr. Scott in an early issue.
A correspondent points out that recently the band of St. Paul's, Bedford, has provided Master for the Cambridge University Guild, the Oxford University Society, and Durham University Society. Secretaries have been provided for Cambridge. Oxford, Reading and Southampton University Guilds or Societies, the Ladies' Guild and two district secretaries of the Bedfordshire Association.

GOSSIP
Some 23 Masonic brethren had an enjoyable meeting in London recently. The ringing included a good half course of Cambridge Royal at St. Clement Danes' and also visits to St. Giles-in-the-Fields and St. Olave's. Hart Street. The next meeting will be on June 3rd, 1961, in Birmingham.
We are sorry to learn that Mr. A. E. Lock, of the Oxford Diocesan Guild, is in hospital. We wish him a speedy recovery.
Mr. E. Orland, of the Peterborough Diocesan Guild, has been accepted for training for the Ministry at Lichfield Theological College.
A pair of kestrel hawks are rearing a family of four on the window sill of the belfry in Tawstock. Devon. Not even the ringing of bells disturbs them.
Ringing in a touch of Grandsire Triples at Lympne during the Whitsun visit were a grandmother, mother and daughter, a father. mother and son and a husband and wife. Who were they?

Mr. Henry C. Lewis, of Fitzwilliam House, Cambridge, who rang his first peal at Meldreth on June 4 th, had his first lesson in 'hunting at Great St. Andrew's Church, Cambridge, in February.

We are asked to state that when a new method is rung, the method and the composition of the peal should he sent to the convener of the Records Committee (Mrs. Fletcher), The White House, Caister-on-Sea, Norfolk.

Latest news from Sydney. N.S.W., is that they are practising Yorkshire Surprise Major and hope to score a quarter peal within a mouth. By the way, Yorkshire was the most popular method for Surprise peals in 1959. there being 120 against 100 of Cambridge.

Fellow ringers in a Midland tower have taken compassion on one young lady member of 18 who sighs that she has not a boy friend. They have asked the Editor to help. her to find a canoodling campanologist.' Although the Editor has many extraneous duties to perform he feels that this is outside the functions he can assist in.

ESTABLISHED

## CENTRAL COUNCIL AT FOLKESTONE

## A GREAT WELCOME FOR RECORD ATTENDANCE - AFFILIATION ACCEPTED - DEVON ASSOCIATION WOULD BE WELCOME - COLOSSAL BUSINESS IN PUBLICATIONS - 'THE RINGING WORLD' IMPROVEMENTS APPRECIATED - EXTOLLING RINGING IN OUTSIDE PUBLICATIONS

OLKESTONE looked its best on Whit Tuesday for the 63rd annual meeting of the Central Council held in the Town Hall, when there was a record attendance of 144 members. In addition there were many interested spectators of the proceedings in the gallery above the conference chamber
Proceedings actually started with a celebration of the Holy Communion for the Council at Folkestone Parish Church at which the celebrant was the Bishop of Tonbridge (the Rt. Rev. G. Russell White), assisted by the Vicar (Canon Hough).

The proceedings at the Council meeting started with an official welcome by the Mayor (Ald. F. W. Archer), who was accompanied by the Bishop of Tonbridge and Canon Hough.
In his good wishes for a successful and happy conference the Mayor said he had been associated with Church work all his life, having been a chorister for 23 years, and it was a pleasure. within 10 days of assuming his year of office, to welcome them. He had read some of their literature about their work and he was amazed at the amount of organisation behind their Council, and the various suggestions made to diocesan bodies that their work could be carried out to the best advantage of the Church.
He noticed that in ringing for service that the church bells were rung to proclaim that Christ lives and to call his people to worship. He thought it was a wonderful way of expressing their work. He was personally very grateful to Canon Hough for the prayers he and the congregation offered for his recovery from illness, which enabled him to hold the office of Mayor.
He noticed that in the recruitment of ringers it was suggested that they should contact choirboys between the ages of 14 and 15 . Knowing choirboys he wondered why. As a hoy chorister it used to be his duty to toll a singlc bell five minutes before the service to announce that all seats were free. In those days it was his greatest delight to stop the bell suddenly and see people rush for their seats and after a pause to start ringing again. He did not think choirboys were the best recruits!
The Bishop of Tonbridge followed with a welcome to the conference on behalf of the
Diocese of Rochester and Canterbury. He recalled that when he was Vicar of Twickenham he made an appeal for bells-unfortunntely they were a carillon. One of the first donations, and a handsome one, was from a Roman Catholic. who lived near the church. He gave his gift because with the bells his dog had stopped barking. (Laughter.)

When he went to Tonbridge they embarked on a scheme of church restoration. The bells were taken down. recast and rehung: and on one of these bells his name was inscribed. Some 18 months ago he left Tonbridge and the local band of ringers then asked him to become their president. The strength of their organisation was the strength of each individual hand and with each individual band strong, they would keep their art alive in this country. Canon Hough proudly proclaimed that he had produced a family of change ringers, and he, alas. was the only 'black sheep.' When on holiday, instead of reading his thriller in his hotel, he was taken out to visit local towers, to find local ringers and ring the bells. There were only two churches in Folkestone where change ringing was practised and he was delighted that his was one of them. I feel that what you do is part of England-like our churches and Shakespeare-and our Christian culture is bound up with such a craft and art as bell ringing and one hopes that England may be made really Christian.
The Central Council was welcomed on behalf of the Kent County Association by Mr. John Willis. He said it was a great honour 10 them that they were paying their third visit. Mr. Willis said he could not speak of the first visit of the Central Council to Kent, but he remembered the visit on June 7th, 1897, when remembered the visit on June 7h, 1897 , when

At the meeting. at Canterbury, he was not present, but his friend. Bert Luck, told him he remembered ringing a plain course of Grandsire Cinques with George and Edith Fletcher at $1.30 \mathrm{a} . \mathrm{m}$. One of the great things about change ringing was continuity and it was a pleasurc to him to see George and Edith Fletcher with them.
The president (Mr. Frederick Sharpe) replied to the welcome and said it was a great pleasure to him to know that the Kent County Association celebrated its 80 th birthday on WhitMonday, and they congratulated the Association on its progress. When the Association was formed there was very little change ringing. now it was the rule rather than the exception as it was then. Kent was now one of the strongholds, as in the past in the days of James Barham in the 18 th century, and it was noted for sts ringing families.

This year had heen an eventful one for the Central Council. There had been a tremendous amount of committee work. Since the end of the last war there had been a growing interest in the Church and now there were more young people taking part in the art than ever before. There were, moreover, ringing courses and as was said they were growing by evolution. In change ringing there were still new fields to be conquered.

THE ATTENDANCE
Ancient Society of College Youths: Messrs. J. E. Chilcott, J. F. Smallwood, C. G. J. Watts and W. Williams.
Bath and Wells Diocesan Association: Messrs. A. H. Reed, G. Salmon and H. J. Sanger.

Honorary members

REPORT AS TO MEMBERSHIP
The honorary secretary reported that 57 Associations were affiliated to the Council with 156 members. The rules provided for 24 honorary members and there were seven life members, making a total membership of 187. There were two vacancies among representative members and three among honorary. All subscriptions had been paid.
(Continued on next page)

## CENTRAL COUNCIL-Cont.

## APPLICATION TO AFFILIATE

An application was received from the University of Bristol Society to affiliate. The Standing Committee recommended that the application be agreed to. It was proposed by Mr. P. M. J. Gray, and seconded by Mr. W. Williams, that the Society be elected a member and this was agreed to.

PRESENTATION OF NEW MEMBERS
The following were presented to the president: Messrs. J. E. Chilcott. C. G. J. Watts (Ancient Society of College Youths) ;-A. H Reed and G. Salmon (Bath and Wells); A. E Rushton (Bedfordshire); Dr. C. M. P. Johnson (Cambridge University); A. R. Elkins, J Worth (Chester); J. L. Garner-Hayward (Coventry); G. A. Halls (Derbyshire) ; Miss B. M. Boyle (Devon) ; Messrs K. Arthur, D. A Bayles (Durham and Newcastle); E. J. Ladd (East Grinstead); D. E. R. Knights, E. H Mastin (Ely) ; P. J. Eves (Essex) ; R. G Hooper, C. A. Wratten (Gloucester and Bristol) ; C. W. Denyer (Guildford); G. Dodds (Hertford) ; P. A. Corby, I. H. Oram (Kent) E. Morris, B. G. Warwick (Leicester) ; J. L Millhouse (Lincoln); D. Smith. P. Walker (Oxford Diocesan) ; D. J. E. Spice (Oxford University) : B. Austin (Peterborough) ; J. T Barrett (Salisbury); H. Poyner (Shropshire): D Beresford (Cumberland Youths): Miss R. J. Seabrook (Suffolk); Messis. R. B. Percy (Sussex) ; A. V. Davis (Winchester and Ports mouth) ; V. Bottomley (Yorkshire); T. P.
Edwards (Bristol University); H. L. Roper Edwards ( B
(honorary).

## ELECTION OF PRESIDENT

With the Rev. A. G. G. Thurlow in the chair nominations were called for the office of president.

Mr. E. H. Lewis proposed Mr. Frederick H Sharpe. We appreciate very much what he has done in the last three years,' he said, "and we hould stick to him.
Mr. A. A. Hughes seconded, and the resolution was carried unanimously and with acclamation.

Taking the chair, Mr. Sharpe returned thanks and said, " I can assure you that I have the interest of bells and ringing at heart and will do my utmost for the work of the Council during the coming years.'

## OTHER OFFICERS

Mr. R. S. Anderson proposed. and Mr. F. I. Hairs seconded, the re-election of the Rev . G. G. Thurlow as vice-president
Mr. J. F. Smallwood proposed. and Mr. A. A. Hughes seconded, the re-election of Mr. E. A. Barnett as honorary secretary and
Mr. F. I. Hairs proposed, and Mr. J. F. Smallwood seconded. the re-election of Mr. F W. Perrens as honorary librarian.

## ELECTION OF HONORARY MEMBERS

The Standing Committee recommended the re-election of the following honorary members: the Earl of Shaftesbury. Messrs. J. T. Dyke, J. P. Fidler. A. A. Hughes. D. Hughes. Mrs. R. F. B. Speed. L. Stilwell. P. L. Taylor. A. Walker, T. W. White and J. Willie and not the re-election of Mr. C. W. Roberts. Also the addition of Mr. W. F. Moreton

This was proposed by Mr. J. F. Smallwood. and seconded by Mr. N. Chaddock, and agreed to. This left three vacancies
The honorary secretary announced that arising from the election of the honorary members he gave notice under Rule 6 (d) that the commiltee would propose, next year, the election as life member of Mr. Albert Walker and Mr. Joseph T. Dyke

HONORARY AUDITORS
It was proposed by Mr. Anderson, and seconded by Mr. Hairs that Messrs, A. A. Hughes and H. N. Pitstow be re-elected honorary auditors.-Agreed.

OTE OF THANKS
Mr. H. W. Rogers moved a vote of thanks to Mrs. Barnett for her continued help to her husband in his work for the Council--Carried with acclamation

## LOSSES BY DEATH

The Council stood while the death of the following members since the last meeting were remembered: Mr. A. H. Pulling. Winchester Guild 1914-1927. Guildford Guild 1928-1956, honorary 1957-59, attended 30 meetings; Mr. R S. F. Murphy. Irish Association 1930-1947, attended one meeting; Mr. Cecil J. Matthews, Society of Royal Cumberland Youths 1934; Mr. A. W. Searle, Devon Guild 1904-1931, attended seven meetings

The following deaths had become known to the Councit during the year: Messrs. R. E. Chichester, Devon Guild: H. C. Chandler, Middlesex County Association: John Clark, Hereford Diocesan Guild: R. B. Blanchard, Surrey Association: A. H. Cocks. Oxford Diocesan Guild and A. N. Hardy, Society of Royal Cumberland Youths.

## TRIBUTES

Mr. F. W. Rogers paid a tribute to the memory of Mr. A. H. Pulling and recalled that he conducted the record peal of Stedman Caters of 19,708 changes in 1912

Mr. C. K. Lewis mentioned that Mr. Pulling called the first peal of Spliced Surprise Major, an action which in those days required courage as the great men of the Exercise were then saying that it was not quite the right thing to do.
Mr. Harry Miles said he first met Mr. Pulling in 1900 when he was engaged on work in a small village in the Cotswolds. He stayed with the foreman ringer in that village. Conditions were primitive and when he retired to bed he took with him a candle, a box of matches and a cigar. If he could not sleep he would light his cigar and learn Holt's Original, a peal which he conducted afterwards on very many occasions
Mr. C. W. Denyer mentioned the great help Mr. Pulling had been to him when he was a young ringer. The Guildford Guild would like them all to do something for him in his memory. They proposed to provide a bell for the new Cathedral at Guildford. to his memory from the ringers of the country. To start with the bell would be rung with an electric gadget but afterwards when the tower was built it would be one of the ring of bells. They wanted between $£ 700$ and $£ 800$ for the bell.

The Rev. John G. M. Scott said Mr. Arthur Searle was a real champion of change ringing in the West Country and rang at St. David's, Exeter. He was an outstanding man and had rung in every tower in Devon.

Mr. F. E. Dukes speaking of Mr. R. S. F. Murphy said he did a tremendous amount of work for change ringing in Ireland. In 1933 he presented a cup with a view to improving the standard of striking and since that day there had been a great improvement.

Tributes to Mr. A. H Cox were given by Mr. A. D. Barker and the president. Mr. Sharpe said Mr. Cox did more research into the history of past bell founders than any other man. His monumental work. "The Bells of Buckinghamshire; was published in 1897.

## MINUTES OF THE LAST MEETING

The honorary secretary reported that the minutes had been circulated. Omitted from those minutes was that the report of the Literature and Press Committee was adopted on the proposition of Mr. E. C. Shepherd and seconded by Mr. F. E. Dukes. Also that the alteration of Rules was seconded by Mr. A. D. Barker and that under Motion (c) the last two were in reverse order. With these amendments he moved the minutes be adopted. This was seconded by Mr. F. I. Hairs and carried.

## REPORT OF THE HONORARY SECRETARY

## Offer To Devon Association

Although in retrospect I can recall comparatively little of an unusual nature which took place during 1959 , I find that 721 letters or receipts were sent out during the year, which shows that the 'secretarial staff' have not been entirely idle.

One rather interesting event. however, was a letter from the Devon Association of Ringers asking for information about the Council's aims and objects, a copy of the Rules and whether we would be prepared to consider the representation of the Association on the Council. On the last point I replied that as the full Council meets only once a year, I could only express an opinion which was that we would consider the Devon Association being represented, particularly if, as I understood to be the case, the Guild of Devonsthire Ringers did not object ; and that in fact most members would be pleased to welcome the Association to our ranks. I hope members will endorse that opinion. So far no further correspondence has taken place but members may think that some official expression of the Council's views should be conveyed to the Devon Association.
Information about ringing was given to: among others, a German author for a boys* year-book, an incumbent in Newfoundland and a Special Correspondent of 'The Times.' The last helped towards what was, as might be expected, a most accurate and balanced article entitled 'Bell Ringing as a Popular Art.' which appeared on August 22nd, 1959, and which seems to have attracted surprisingly little attention in the Exercise. It could well have been reprinted in "The Ringing World.

A letter from myself on the Council's behalf criticising the decision of the Chancellor of the Diocese of Bristol to overrule the Diocesan Advisory Committee's advice not to allow the installation of an electronic apparatus in a Bristol church and referring to the Church Assembly's motion of February 8th. 1954, which deprecated the introduction of such devices into churches, appeared also in 'The Times , of November 21st.
At the time of writing information shows that the following have now ceased to be members of the Council, and we offer our thanks to them for their past services: A. B. Peck. A.S.C.Y. 1933-59: Wg. Cdr. J. S. Mason. A.S.C.Y. 1957-59; R. O. Fry, Bath and Wells, 1954-58; D. Hoare, Bath and Wells. 1959: B. F. Sims. Bedfordshire, 1955-59: Dr. P A. F. Chalk, C.U.G. 1954-59; Rev. J. Kingdon. Chester, 1949-59; W, Allman. Chester, 1957-59: A. J. Martin. Chester. 1957-59: H. Windsor, Coventry, 1959; W. L. Robinson. Derbyshire, 1954-5\%: A. L. Bennett. Devon. 1957-59: F. Ainsley, Durham and Newcastle. 1948-59; W. N. Purk. Durham and Newcastle. 1948-59: C. A. Bassett. East Grinstead. 1951-59: P. Border, Ely, 1954-59; F. W. Lack. Ely. 1951-59: L. S. Woods, Essex. 1958-59: T. Boreham, Gloucester and Bristol. 1954-59: F. Skidmore, Gloucester and Bristol. 1948-59: G. S. Joyce. Guildford, 1957-59: E. Edmondson. Hertford. 1954-59: Dr. E. S. J. Hatcher. Kent. 1954-59: T. E. Sone. Kent, 1933-59: A. E. Rowley. Leicester. 1946-59: J. A. Freeman. Lincoln. 1945-59: Mrs. A. D Barker. Oxford. 1948-59; W. Butler. Oxford. 1957-59: R. B. Meadows, Oxford University. $1951-59:$ Dr. D. H. Niblett. Oxford University. 1957-59: E. Nobles. Peterborough. 1954-59: C. H. Hawkins, St. David's, $1957-59$; J. I. P. Davis, Salisbury, 1957-59: F. H. Bennett, Shropshire. 1957-59: G. H. Cross. S.R.C Y. 1938-59; J. Segar, Southwell. 1953-59: K. G. Brown, Suffolk, $1957-59$; F, H. Dallaway, Sussex, 1938-59: C. H. Kippin. Winchester and Portsmouth, 1949-59: G. Pullinger, Winchester and Portsmouth, 1933-59

## CENTRAL COUNCIL-Cont.

For the eighth time I must record my thanks to Mr. W. G. Wilson and Miss C. L. Groves for typing and duplicating these papers, and for the third and unfortunately the last time to Mr. W. N. Park for preparing the accounts of : The Ringing World. My thanks are also due to all who have kindly sent copies of reports and other publications. and to the Conveners of most Committees for the way in which they have ahided by the new rule that reports must be in by March 31st. I trust they will keep it up and perhaps encourage the others (and certain Association secretaries and treasurers!) by their example.-E. A. Barnett.
Moving the adoption of the report the honorary secretary said with reference to the Devon Association if the Devon Guild had no obiection would the secretary of that Guild write to the Association and tell them.

Mr. F. E. Dukes seconded the adoption.
The Rev. John Scott said as far as he
new ringers in the Devon Guild would be knew ringers in the Devon Guild would be
delighted. There was a good deal of excitement among the Guild that the Devon Association had applied for membership. At the moment their constitution was a little fluid, but hy application to the Council they hoped that they could get their house in order.
The honorary secretary: I would like to make it clear that they have not applied but asked to be considered.
The President: I think the answer from the chair would be that we would be delighted to welcome the Devon Association. Thanks were also due to the secretary for his work.
The report was adopted.

## REPORT OF THE HONORARY LIBRARIAN <br> 6,139 Publications Sold

The outstanding feature of this year is the colossal record figures for the number of publications sold. the total being 6.139 compared with the average for the past eight years of 1.278 . This tremendous increase is due entirely to the issue early in the year of the -Beginners Handbook 'and the sale of over five thousand of these surely augurs well for the future
Although perhaps not quite so big as last year's, there is still a considerable demand for a collection of Minor Methods. which believe has now been out of print since 1954. and an early issue of this book is most desirable.

The stock of 'On Conducting' is now rather low and as there has been a steady sale of this book during the past few years. a reprint will be necessary in 1960 .
The borrowing of books of reference during the year has heen about normal but as books are sometimes kept for very long periods. I would ask borrowers to return books as soon as they have finished with them.
We record our thanks to the people concerned for the following additions to the library: Steeple, Bells and Clocks of Shankill Parish. Lurgan" and the "Irish Bell News." per Mr. F. E. Dukes : six of J. J. Parker's note books. per Mr. A. D. Baker: MSS. by Col.
M. D. Bell on Training of Tune Ringers on Handbells. together with tunes for 8 and 12 bells. per Mr. T. W. White: old peal books and reports of the Midland Counties Association. per Mr. Paul Taylor: Facts and Figures about the Church of England: per Mr. E. A. Barnett: The Church and Other Bells of Aberdeenshire. by the late F. C. Eeles, Clouston. B.Sc.Eng.. F.S.A.Scot.. presented hy the authors.
It now remains for me to attempt an almost impossible task-to express adequately the
thanks due to Mr. R. F. B. Speed for the enormous amount of work he has done for the Council during this year. I am as much at a loss for words to do this as I am to estimate the number of hours he must have spent in despatching over six thousand books. We are indeed very fortunate to have the sales section of the library in such capable and willing hands and we tender most sincere and hearty thanks to Mr . Speed and to his wife, who I feel certain has borne some of the burden.-Frank W. Perrens.

Moving the adoption of the report Mr. Perrens ieiterated his great debt to Mr. and Mrs. Speed. Mr. J. H. Crampion seconded, and the report was adopted.

## SALES AND STOCK

Method sheets: Cambridge. 17; D.N.C.B., 19; Bristol, 12: Stedman and Grandsire, 40; Preservation of Bells, 79, Four way Minor Table. 50. Handbell Ringing. 139, Major Compositions. 37. Collection of Peals. Sect. I11. 13. Report of Conference. S.P.A.B. 4. Doubles Methods. 100. Model Rules, 22, Village Bells. 135. Card of Instruction 28. Plain Major Methods. 61. Merhods Committee Report. 13. On Conducting, 119, Handbook, 59, Electrical Switchgear Card. 9. Grandsire Caters. 80. Beginners' Handbook. 5.103: total 6.139.
the stock at cost at the end of the year was £451 19s. 2 d .

## THE ACCOUNTS <br> BALANCE SHEET

(The figures in parentheses are the corresponding amounts in the previous year's accounts.)

Sundry Creditors, £566 10s. 9d. (£76); Received in advance. $£ 2,0757 \mathrm{~s}$. 9 d . ( $£ 1.040$ ) : Clement Glenn Fund. $£ 807$ Os. 2d. ( $£ 785$ ): Provision for Income Tax and Audit Fee $£ 82$ 1s. 9d. ( $\mathbf{f} 40$ ) : Capital Accounts- The Ringing World. $£ 5.10912 \mathrm{~s}$. : General Fund, $£ 584$ 6s. 2d.: £5.693 18s. 2d. ( $£ 5.091$ ). Total $£ 9,224$ 18 s . 7d. (£7.032).

Goodwill and Blocks 'The Ringing World, $£ 200(£ 200)$; Library, $£ 10$ ( $£ 10$ ): Office and Library Equipment. $£ 28$ 5s. 11d. ( $£ 33$ ): Stock of Publications. $£ 451 \mathrm{19}$. 2d. ( $\mathbf{~} 351$ ); Debtors and Payments in Advance, $\ddagger 863$ 9s. 2d. ( $£ 581$ ); Investments at cost. $£ 4.362 \mathrm{18s} .4 \mathrm{~d}$. ( $£ 4.362$ ): Cash at Bank or in hand. $£ 3.308$ 6s. ( $£ 1.494$ ). Total $£ 9,22418 \mathrm{~s}$. 7d. ( $£ 7.032$ ).

## GENERAL FUND

INCOME ANG EXPENDITURE ACCOUNT
Expenses-Biography Committee. £6 (£5): Sunday Service Committee, £16 3s. 5d. ( $£ 19$ ): Standing Committee. £3 17s. 4d.: Honorary Secretary $£ 10$ ( $£ 10$ ): Stationery and Printing. \pm 23 3s. 2d. ( $\dot{L} 15)$ : Telephone, Telegrams, $\ddagger 2$ 6s. 10 d . (£2): Office and Library Equipment written off. 66 (£6): Insurances Library and Roll of Honour. $£ 116 \mathrm{~s}$. ( $£$ ? ) : Wreath-A. H. Pulling. £2 2s. 6d. (£2): Typing. £2 2s. ( $£ 2$ ) Cheque Book. 8s. 4d.: Sundry Expenses. £1 4s. 9d. (£1): Excess of Income over Expenditure, $£ 1510 \mathrm{~s}$. 9 d . ( $£ 6$ ). Total $£ 101 \mathrm{l4s}$. ( $£ 89$ ).
Affiliation Fees, $£ 77$ 10s. ( $£ 76$ 10s.) ; Balance Publications Account $£ 24$ 4s. ( $£ 3$ ). Total £101 14s. ( $£ 89$ ).

## PUBLICATIONS ACCOUNT

Stock. January 1st. 1959. £350 15s. 3d. (£331): Purchases: Beginners Handbook. 10.027. $£ 340$ 18s.: Postages. Stationery and Sundries. $£ 369 \mathrm{~s} .8 \mathrm{~d}$. (Ell 10s.): Trade Discount. $£ 2 \frac{16 s . ~(~}{2} 2 \mathrm{l} 10 \mathrm{~s}$ ) : Advertisements "The Ringing World: $£ 20$ ( $£ 20$ ): Balance (profit) to General Fund. $£ 244$ s. ( $£ 13$ ). Total $£ 775$ 2s. 1ld. ( t 445 ).
Sale of Publications $£ 3024 \mathrm{~s}$. 11d. ( $£ 94$ ): Sale of Surplus Books. $£ 19$ 18s.: Sundry receipts £1 0s. 10d.: Stock. December 31st. 1959. £ 45119 s . 2 d . ( $£ 351$ ). Total $£ 775$ 2s. 11d. ( $£ 445$ ). The Clement Glenn Bequest showed investments at cost. $£ 76$ ? 18 s . 4 d . : Cash at bank. $£ 44 \mathrm{ls}$. 10 d . Total $£ 807$ 0s. 2d. (£785). The
market value of the investment on December 21 st. 1959. was $£ 834$ 15s.

The honorary secretary and treasurer moved the adoption of the accounts, subject to audit. In regard to the Publications Account. the outstanding item had been the success of The Beginners ${ }^{\circ}$ Handbook. Had it not been for the sale of surplus books and sundry receipts the profit would have been only $£ 3$. It was a small profit and it showed they were continuing their policy of publishing at as low a price as possible. The item of cost for the sianding Committee was due to the extraordinary meeting held to consider the price of "The Ringing World.
Regarding $£ 3.308$ cash in hand, Mr. Barnett said he hoped that nobody would think it was spare money. Over $£ 2,000$ was for sums in advance for postal subscriptions to The Ringing World. and the remainder was the balance of the Clement Glenn Fund.
Mr. V. Bottomley suggested that the surplus cash be put to a profitable use. At the present time banks were giving three per cent on deposit and only required seven days notice of withdrawal.
The honorary treasurer replied that a further $£ 1.000$ was invested this year.
Mr. P. 1. Chapman inquired re $£ 19$ 18s. sale of surplus books. The president replied that with books printed after 1850 where there were more than two copies the librarian had power to sell.
Mr. G. W. Fletcher suggested that this did not form part of the library account and with this the president agreed.

The accounts were adopted, subject to audit. and thanks were expressed to the honorary treasurer for his work.

## REPORT ON THE TRUSTEES OF THE

## CARTER RINGING MACHINE

On July 18th. an open day was held and two parties saw the machine which successfully rang touches or plain courses of Cambridge Maximus, London Major. Stedman Cinques. Bob Minor and Grandsire Doubles. Unly those who have their 'Ringing World "through the post knew of these demonstrations because of the printing dispute, so the total attendance of 20 for the day was rather disappointing.
On September 26th. a demonstration was given for the Leicester Diocesan Guild ringers. who saw and heard the conclusion of a quarter peal of Cambridge Maximus, which had been started before their arrival. also a plain course of Bristol Major (first time on the machine) and a bob course of Stedman Cinques. The attendance on this occasion was 30.

Mr. V. K. Chew. of the Science Museum staff. has made a tape recording of the machine ringing d bob cours z of Stedman Cinques. This is for the benefit of those ringers who call to ask to see the machine at times other than appointed demonstration times, and Mr. Chew feli that as they could not see it actually work. a tape recording would be of some advantage.-A. A. Hughes and A. Walker (Trustees).
The Standing Committee recommended that the report be adopted and this was done on the proposition of Mr. A. A. Hughes, seconded by Mr. R. S. Anderson. The later expressed thanks to Mr. Douglas Mughes and the secretary mentioned the services and interest of Mr. Chew.

## REPORT OF THE STANDING COMMITTEE

The honorary secretary reported that at an extraordinary meeting on November 7th, 1959. the Standing Committee considered various proposals for meeting the increased cost of producing 'The Ringing World' and decided to increase rate of advertisements by 15 per Tht.
The report was adopted.
(Continued on next page)

## 'THE RINGING WORLD' COMMITTEE AND INCREASED PRICE

Since its inception in 1911. States the com mittee's report. the story of 'The Ringing World' has been one of struggle punctuated by periods of crisis. This struggle has not particularly heen in respect of lack of copy, for despite the lukewarm support of the Exercise, sufficient news has always been forthcoming to fill its pages. The difficulties have always been encountered on the financial side. We make no apologies for again emphasising to the Council that were all subscribers to take their copies direct by post many of the financial problems would be resolved.

However, your Committee are, of course, compelled to deal with the position as it is and not on a hypothetical basis and early in 1959 it was evident that some revision would be needed if the liquid position was to be preserved. The situation rapidly became acute on the threat of a strike in the printing industry and the certainty of increased cosis inrougn their wages to the operatives. As you are aware the Editor was able, in spite of many difficulties. to print an cmergency paper at fortmightly intervals and this
was overwhelmingly applauded by the Exercise. There were some grumbies but these your Committee now accept as inevitable.

Several long meetings of the Committee were held when the opportunity was taken to make a thorough examination of the whole position. From previous accounts members of the Council would appreciate operating costs were very low and the salaries of the paid staff bore little relation to the volume of work. It was felt that their remuneration should be more nearly equated to the work done and certain increases were agreed. Even the present figures, however, are still low in comparison to what could legitimately be demanded. Following the award made to and accepted by the printers and the probability of a further increase in two ycars time. the Committee felt that no other course was open to them but to increase the price of The Ringing World to 8 d . or 9 d . per copy.

## NO DRASTIC DROP IN SALES

They also considered that before putting any increase into effect the whole matter be placed before your Standing Committee, who at a special meeting in November endorsed your Committee's report and a recommendation that from January Ist, 1960 the price be 8 d .
Although. as was 10 be expected, the increase was not unanimously applauded, your Committee are pleased to observe that fears of a drastic reduction in circulation have not been realised and in fact it was not until the week of March 1lth that a drop in copies sold was shown. In that issue the figures were 5.570 for 1960 against 5.586 for 1959 . It is carnestly hoped that numbers will not fall further and that new readers can be obtained to replace those lost. The Council cannot have failed to observe the increase in size of The Ringing World and it may possibly be this factor which has persuaded some readers to continue their support.
Council requirements now stipulate that committee reports be with the secretary by March 31st. At this date the annual accounts of The Ringing World were only in draft form and showed a small profit for 1959. An examination of the Profit and Loss Account, however, will quickly reveal that this surplus was only possible through the generosity of readers who voluntarily subscribed $£ 336$ 19s. 1d. Mercly to say 'thank you' for this magnificent gesture seems very inadequate but your Committee are certainly most grateful for these contributions and feel their thanks should be supported by the whole Council.
Your Committee, in conclusion. once more express their appreciation to all who in any way have contributed to 'The Ringing World from those supplying front page articles, to the many sending in short news items and paragraphs of interest. Also to the compiler of the index. Mr. H. L. Roper. To mention even by initials only a few would fill more pages but our thanks are. nevertheless. sincere and our hopes are for a continuance of this help and interest.

Thought must also be given to the Editor and his staff and to Mr. Jeater and we ask the Council and the Exercise to join in thanks to them for their work and to our many advertisers for their support.
In announcing the increase in price of "The Ringing World to 8 d . per copy from January lst, your Committee offered to supply at the current price all who renewed their subscriptions hefore December 31st, 1959. As will be seen from the balance sheet there was a substantial response as shown in the figures for advance payments. Your Committee feel cncouraged by this response although it will, of course. preclude the full benefit of the increased price being achieved before 1961.

Your Committee once more renew their appeal to readers in general and to members of the Council in particular for continued and sustained efforts at all times to seek new readers and to supply attractive copy. The Ringing World' is YOUR paper and as such its success or failure is YOUR responsibility -J. Frank Smallwood (Convener).

## A LITTLE MORE OPTIMISTIC

Moving the adoption of the report Mr. Smallwood said they had had an anxious year which they had got through better than he expected. At the moment they were feeling a little more optimistic than they had found themselves for several years-but they had no grounds for complacency. They had been told that generally there had been an improvement in 'The Ringing World' since the first issue in January. They had received many encouraging letters from all parts of the country and abroad.

In regard to the increase in price, he expected a dismal setback in sales but that had not materalised to any great extent. One thing he would stress was the importance of postal subscribers. At the present time for two pestal subscribers there were three through the newsagents. There had been some improvements in the paper and it might be asked why were not some of these improvements introduced before. It was, however, generally known that they had been travelling in a vicious circle for nine or ten years. They had now taken the "bit between the teeth," increased the price and gone out for a better paper.

They would have noticed that the page size had been increased and credit for that must go to Tom White, as it was his suggestion. The Woodbridge Press had installed a new machine The paper previously wasted in cutting was printed on and this gave the equivalent of a page and a half extra an issue. In addition they had some 24 page issues. He hoped they would not finish in the red this year, as they would not reap the full benefit of the increased price The committee would like to express their Thanks to the Standing Committee for backing up the proposals as to the increased price
Mr. R. S. Anderson seconded the adoption of the report.

## PEAL LEVY

The Rev. John Scott said the Devon Guild last year were very disappointed that a peal levy was not introduced, and at their meeting passed a motion instituting a levy on all peals rung for the Guild. of which 6d. per rope would go to 'The Ringing World.' If other Guilds followed this course it would result in a great increase in revenue.

Mr. B. Austin asked if there could be of a better packing of . The Ringing World.
Mr. John Mayne said the main reason why young people took the paper through the newsagent was because they found it difficult to pay a lump sum down and also because it went on the family's paper bill. Another reason given hy an older ringer was that he preferred $1 t$ to come not covered with mud. Mr. W. C. West said at the annual meeting of the Salisbury meeting on May 14th. a motion was carried deprecating that a peal levy was not charged on all peals published in "The Ringing World.' They had from four to six pages of peals and he felt they should be paid for

Mr. J. W. Crampion said the question of price had been discussed by the Essex Association and they came to the conclusion that there was no other alternative than to in crease the price. They wholeheartedly supported the committee in their action. They also felt that thanks were due to the Editor and apprentices in producing copies during the strike.
Mr. S. Foskett gave the view of the Bedfordshire Association that The Ringing World should not be a charitable production, but placed on a basis that any loss should be met by the territorial Associations.
Mr. John Willis said there were a lew members of the Central Council who did not
take. The Ringing World by post. Had The take ' The Ringing World' by post. Had . The every member took the journal?

Mr. H. Miles said 95 per cent of the ringers in Cornwall were not method ringers, If they were not method ringers what was there of interest to them in 'The Ringing World '? Could a page be devoted to those who were not method ringers?

Mr. H. Sanger: We in the Bath and Wells Association have decided to introduce a peal levy on all peals rung for the Association. We feel that until the crrculation is improved all Associations should pass such a resolution. Mr. Cecil Pipe remarked that now that The Ringing World ' had taken the bit between their teeth they had increased their income by $33 \ddagger$ per cent, which was an extra £2.500 а year.

Mr. R. S. Anderson said it must be rememtered that it was a $33 \frac{1}{3}$ per cent gross. They had to remember that the price of newsprint did not remain stationary and there would be a further increase of wages in the near future The commitree was hoping that the increase in price already made would cover that. The surplus of $£ 587$ included $£ 356$ voluntary donations. They were also hoping to write off the $£ 200$ for goodwill and blocks.
So far as the peal levy was concerned it had been argued that peals were news and no publication paid for news. There was nothing o prevent an Assoziation inposing a peal levy and so increasing the small amount of voluntary donations for peals. Quarter peal ringers had been very generous; peals ringers did not subscribe so generously. As to a reader getting a dirty copy they could not control the postal authorities. As far as Cornwall was concerned if the call change ringers would let hem have the copy nobody would be more delighted than the committee.

The Rev. R. D. St. J. Smith said the committee had made out their case and it was up to them to give it a fair trial.

The president said their thanks were due to the committee for their work. He had had a letter from the American Guild of Handbell Ringers saying how much they appreciated The Ringing World' with its additional items. The report was adopted.

## THE RINGING WORLD <br> \section*{BALANCE SHEET}

Sundry Creditors-Woodbridge Press L.td. £552 10s. 6d.. Editor. $£ 12$ 12s. 9 d . - 5655 3s. 3d ( 74 ): Amounts received in advance-Postal Subscriptions. $£ 2.027$ 11s. 6d.. ( $£ 6,457$ ).
The honorary treasurer presented the accounts and said they were subject to audit as the auditor had been taken ill. He moved their adoption.

Mr. F. 1. Hairs seconded.
Mr. Norman Chaddock asked for a breakdown of the voluntary subscription-peals, Guarte
The honorary treasurer replied that it could be done but it was very complicated. They were extremely grateful to the Oxford Guild for their donation of $£ 20$.

The accounts were adopted.
THE NEW COMMITTEE
The Standing Committee recommended that the committec be re-elected with the exception
of Mr. W. N. Park. who was not now a of Mr. W. N. Park.
member of the Council.
Mr. Wilfred G. Wilson and Mr. Patrick I. Chapman were nominated. Mr. Wilson was elected to the committee and the recommendation of the Standing Committee was adopted.

THE PEAL BOARDS COMMITTEE
The task of recording details of Peal Boards from 1825 to the early part of the present century has been somewhat simplified by the fact that records of a large number of these interesting boards were published in 'Church Bells.' IThe details are being copied prior to their being arranged and typed on a uniform pattern, but as there are well over 500 the work will obviously take some time to complete.
The typing. however, is another problem and the committee would welcome offers of assistance from typists. For those who feel able to help a specimen lay-out will be
provided and in cases where some special provided and in cases where some special
selling out is necessary. details will be be explained. Only with such help can this valuuble record of ringing history be completed in a reasonable time.-J. W. Clarke (Convener). In the absence of the convener, Mr. Walter Ayre moved the adoption of the report.
Seconding. Mr. J. P. Fidler said they had written details from over 5.000 peal boards. It was rather a big task getting them written out in standard form. The typing was now a big problem. Quite a number of these boards were destroyed in the blitz. There were others that were deteriorating rapidly and they asked ringers to have them restored. There were quite al number of boards up and down the country not recorded.

The Rev. K. W. H. Felstead asked ringers to check details of boards that had appeared in Church Bells.' Errors had been found.

## The report was adopted.

The Standing Committee recommended that Messis. J. W. Clarke, W. Ayre and J. P. Fidler be re-elected to the committee. This was agreed to.
THE PEALS COLLECTION COMMITTEE
The collection of Stedman Caters and Cinques is now complete in manuscript form and. allowing time for checking. should be in print within the next few mouths.-W. E. Critchley
Pitman
Moving the adoption of the report. Mr. Critchley said he hoped to start typing in the near future. He would like to thank all the people who had provided peals.

Mr. G. E. Feirn seconded
The President: We should thank the committee for the commendable speed with which they had got the collection together
The Standing Committee recommended that the committee be re-elected with the omission of Mr. C. W. Roberts and the addition of Mr. R. F. W. Speed. This was agreed to.

## Literature \& Press Committee Tell of Highlights of 1959

Once again some notable full-scale articles have come our way, Most of these are by non-ringers, but it is clear that the material has been carefully, collected and discreetly presented. 'Ringers' Rhymes,' by C. V. Hancock, published in the 'Girmingham Post gives the author opportunity to remark: 'The ancient art of bell ringing. thank Heaven, has not been killed by modernity.' Eric Potter in "The British and Commonwealth Review (August, 1958) and F. E. Corfield in 'Venture both present straightforward accounts of bells and ringing. The former stresses the importance of ringing as church work. whilst the latter includes mention of the Central Council and 'The Ringing World.' In 'Readers Digest' (April). Anne Deveson and Barbara Wace write of a visit to St. Paul's. Their description of the ringer in action is slightly distorted but the general substance and tone of the article juslify the title. The Joyous Ringing of Bells.'

The Times,' of August 2^nd. printed 'Bell Ringing as Popular Art.' by a Special Correspondent. an uutstanding piece of work, distinguished by its matter, its arrangement and its writing. It provides an excellent survey of the Exercise and its organisation, and refers to The Ancient Society of College Youths ' and the rules and customs of that body. The
precis of the work of the Central Council is a little masterpiece of compression.

A well illustrated article on the activities of the teenagers, maintaining the 'Old Tradition, at Woolton Church, appeared in the 'Liverpool showed the enthusiastic youngsters ringing both tower- and handbells. The same paper in May published an article by Arthur Turner entitled. Who Will Ring Those Bats Out of the Belfry?' It gives an interesting account of bell usages throughout the centuries

The local press, generally. has given good coverage to dedications. Great Yarmouth, Carbis Bay and Farnham were particularly well reported.

## RINGING IN WORSHIP

Amongst church periodicals we have noted from: 'The Liverpoal Diocesan Leaflet for May the friendly appreciation of the work of ringers, written as a special message by the Bishop of Liverpool. The importance of ringing in worship and the beauty of the fellowship among ringers were the main themes. The 'Harpenden Parish Magazine,' published a series of articles by J. D. Painter and Mrs. Coburn. These essays on the history of bells and the development of change ringing have been devised and written for the editication and instruction of the parishioners. Finally, Cromlyn (who. by the way, is, I understand, a clerical ringer), in his weekly column PANORAMA. in the "Church of Ireland Gazette. devoted considerable space in the issue dated December 8th, to the Central
Council's leaflet The Ringing of Church Bells Councils leaffet 'The Ringing of Church Bells throughout all Dioceses in United Kingdom and Ireland. A touch of humour prevails throughout the article, but on a serious note he says ' Bell ringers need, deserve and should be given a great deal more high level clerical support... It is no reflection on the Holy Order of Deacons to say that an interest in a parish team and attendance at annual regional meetings should not be regarded as the unimportant preserve of the junior curate uould seem to be just the kind of an occasion when a visitation from an $x$, a $y$. or a $z$ (meaning anything in gaiters) would do a lot of good.

From Ireland, too, comes the well written pamphlet by the local tower secretary. Mr. John P. Irwin. giving the history of "The Lurgan. Co. Armagh. The work is the result of much research and it reveals some very interesting facts.

Miss Jean Sanderson has written a wellillustrated booklet on St. Nicholas' Parish Church. Norton. Herts, in which she devotes quite a lot of attention to the bells.

Contributions from the American Continent In a Canadian paper. the name and date of
which are missing, we find an article on Mrs Alice Sullivan (nee White) and her remark able collection of bells. Unfortunately, what might have been a readable and informative account of this notable lady and her early ringing career was spoilt by inaccuracy and slovenly writing. 'The Ocean Press,' published on board the 'S.S. America, outlines a prosfective enterprise by a certain Louis Lamoureux, who proposes to establish a chain of bell shrines on Burke Mountain, Vermont Since April no further news of this somewhat fantastic project has reached us. • Bell-making Brisk since World War II' in the 'Oakville Record Star' has some straightforward lines on bells and bell-founding, but the article can not be held to be in any way distinctive. On July 16 th. 'The Hatchettstown Gazette' dealt with the history of the five bells of St. James Church. Hachettstown. New Jersey. These bells are tolled or chimed. and photograpls show two of the bells and the chiming censole.
Articles in the technical press have been few. Perhaps the one which concerns us most is the reference in • B.T.H. Productions to 'Church Bell Reproduction.' an unusual and interesting application of the $\mathrm{Hi}-\mathrm{Fi}$ equipment made recently at the Church of St. Andiew, Cheadle, Hulme. Cheshire. Here B.T.H. equipment has enabled the sound of the Parish Church bells, previously recorded on tape at the Church of St. Mary, Cheadle. to be broadcast with great fidelity and realism from the daughter church tower. A photograph of the church. with its small turret. makes the whole venture seem unrealistic. More realistic, however, is the description of the electrical equip ment used in connection with the striking anc chiming of the bells of St. Clement Danes' in the Strand. London. This article appeared in the 'Electrical Review' in February. The - Foundry Trade Journey " dealt with the Bilbic family in two feature articles by Ronald Bailey They were entitted Eccentric Bell Founders of the Mendips.

## THE ARCHERS* CHURCH

The cover of the 'Radio Times' of Decem ber 25 th was decorated with a drawing of the inside of a ringing chamber, depicting ringers at the ropes. The "Borchester Echo, on the other hand, provided photographs of the tower at Hanbury. Worcestershire, showing some of the well-known male characters of the daily programme * The Archers " preparing to ring up the bells. Thus we have an intriguing antithesis ; the depiction of an imaginary belfry in a real paper and the portrayal of a real belfry in a fictitious newspaper.

During the year correspondence in the Press has. on several occasions, been directed against ringers and ringing. and amongst these was a notable complaint concerning a peal at Worcester Cathedral. While we cannot ignore these danger signals: we are left with the assurance that provided reasonable restraint is shown, the people of this land are whole heartedly on the side of the bells and the ringers. The 'Burnham (Bucks) Parish Magazine ' in its editorial pleads for public tolerance if the bells are to be rung at all. and the complaint by Sir Percy Sillitoe in the - Daily Telegraph, was admirably answered by M. W. Lewis, of Newark. Canon Carew the opinion that a camp-Garner. We are o the lines of the broadcast from the Northern Ireland Region of the B.B.C. on Christmas Eve. when half an hour was devoted to bell ringing and ringers for the information of the listening public. should do much to interest the public and provide understanding of the ringers' point of view. Such a campaign in the form of well written articles by members of the various Guilds and Associations. or 'Open days' like the one organised at Rotherham. should do much to win the goodwill of the public. The 'Open day' at Rotherham. which was given good publicity in the "South Yorkshire Times. included photographs of teams of handbel ringers from the High School. Over one thousand people visited the tower. whilst many more stopped to listen to the handbel ringers and to hear the ringing from the tower.

## CENTRAL COUNCIL-Cont.

It is discouraging to note that the Chancellor of the Diocese of Bristol has overruled the recommendation of its Advisory Committee in regard to electronic bells proposed to be introduced into the Diocese. The secretary of the Central Council followed up this matter with a letter to "The Times, saying that other Diocesan Chancellors had refused faculties for the 'blatantly false' bells.

Bell ringing publications continue 10 appear.
In March, the long awaited Elementary Handbook for Beginners , was published by the Central Council. The popularity of this useful book can be judged by the fact that the first edition of 5.000 copies was quickly sold. Ernest Morris. of Leicester, continues to find something to write about. In September a further valuable book was added to the indispensable list of books already published by him. 'Tintinnabula.' his latest book. deals mainly with small bells and gives an interesting insight into the customs of various nations. In November. the publication of the Maidstone District of the Kent County Association. The Belfry. celebrated its tenth year of production. As usual. the journal contains interesting material both from an historical and a change ringing point of view. .The Ringers' Magit. zine. - Irish Bell News and • Ringing Towers continue in their own lively ways which meet the needs of rural and local ringers, in particular, and also have an interest far beyond thei:- own boundaries. The Ringers Diary remains a most valuable asset to peal ringers. in particular, and all ringers in general. We cannot now imagine the Exercise without its own diary.
We. finally, desire to express our thanks to all who have sent us articles and newspaper cuttings. which are of the greatest assistance 10 us in formulating our reports.-Edgar C. Shepherd and Fred E. Dukes.
Proposing the adoption of the report. Mr. Shepherd said they fould do with more people sending them cuttings.
Mr. F. E. Dukes seconded

## CHURCH PRESS

Mr. P. A. Corby congratulated the committec on a comprehensive report. He did not see any mention of ringing items in The Church Times.

Mr. Philip Gray said he understood a report of their meeting would appear in " The Church Times.' They needed a little more active evangelism. There was a great deal of bad correspondence about bells. They must see that the right thing was put in the right place
The honorary secretary said notice of the meeting was sent to 'The Church Times' and The Church of England Newspaper
The Rev. John Scolt said be circulated to Church newspapers details of the Sunday service survey. He got no response from "The Church of England Newspaper' and 'The Church Illustrated ' did not think it was "up their street." "The Church Times" wrote a most cordial letter and published a report.
Miss M. E. Cross said particulars of the Oxford Guild's ringing course were published in "The Church Times" and also a report.

The report was adopted.
The Standing Committee recommended the reappointment of Messrs. Shepherd and Dukes and this was agreed to on the proposal of Mr. A. A. Hughes, seconded by Mr. Anderson. (To be continued)

## Gratefully Acknowledged

The Liditorial Committee acknowledges with gratitude the following donations towards the cost of producing The Ringing World :-

## MISS STELLA DAVIS KILLED

We regret to announce that Miss Stellit Davis. of Bucklebury. a vice-president of the Oxford Diocesan Guild. met her death list Saturday while on an outing. She was crosising the road when she was knocked over by a motor-cyclist and died shortly afterwards.

Miss Davis was captain of the Bucklebury band and a past secretary of the Newbury Branch.

## FASTEST ON NASH BELLS

Dear Sir.-The claim by Mr. Hartley for the fastest peal on Nash bells is four years too ate and six minutes too slow,
On Thursday. January 26th. 1956. a peal of Plain Bob Minor was rung on these bells in $\frac{2}{}$ hours and 23 minutes, conducted by me.Yours faithfully.

DAVID J. KING.

## Chepstow. Mon.

## FIRST OF MINOR AT BRILL

Dear Sir.-Mr. Alan R. Pink claims that the peal of Minor he conducted at Brill. Bucks. on May 14th. was the first peal of Minor on the bells. This is incorrect since I took part in a peal of seven Minor methods. conducted by my father. Tony Price. on July 9th. 1949. in 2 hours and 40 minutes. This peal was believed to have been the first of Minor on the bells.-Yours faithfully,
R. E. PRICE.

## Sheffield

## QUEX PARK

THE joy of new discovery should be always with us, for without it we grow old indeed. And since, as Kipling tells us. 'God gave all men all earth to love,' there is no lack of beauty or joy of discovery so long as we have eyes to see, ears to hear, and power to move. Thus it was in a mood of expectancy that we came to Kent, known and loved by many, but a strange land to us; and from the glories of Folkestone Leas, from the vast, stony desert of Dungeness and the monotonous moan of sirens in the sea mist, through the loveliness of Elham and Barham, we came at length to Birchington and the bell tower in Quex Park.

According to Lewis Carroll, it was a golden key that opened the little door and showed Alice the enchanting garden beyond. Ours was a mundane, very ordinary key, hung aslant the notice 'To the Bell Tower': but it beckoned, and we followed into a land so quiet, so seemingly remote, that Birchington and the dreary chain of traffic on the Canterbury road a mile behind might well have been in another world. At the wicket gate our vehicle could go no further, and amid the dripping bushes we gazed across the meadow to a heavy grove of trees, and someone said: 'The tower is in there.'

And so we came to this strange monument, hidden in its fastness, its four turrets rising among the trees that brushed its sides, and the cast-iron spire that imitates Faversham pointing higher to the storm clouds streaming from the west. In a bush close by a blackbird's tiny brood twittered excitedly, and near at hand the powdered upthrow from a badger's earth betrayed the opening from which the shy gentleman would doubtless emerge when dusk had come and we had gone.
Here was a unique memorial to an extraordinary man. John Powell, probably the wealthiest of all the patrons of the art of ringing. According to Trollope, he may have learnt to ring at Fulham, but when he inherited Quex Park he became a wealthy man and was able to indulge his passion for ringing without any restraint save that imposed by his own limitations. And to this end he erected a tower and furnished it with a ring of 12 bells cast at the Whitechapel Foundry; he recruited a band, chiefly from the men on his estate, and he lured William Shipway from London into Kent to act as instructor. With Shipway's aid, he studied composition fervidly and plunged into the problems of Stedman Triples with great perseverance. His results were negligible, but his support of Shipway's work and the incidental benefit to East Kent ringing arising from Shipway's sojourn at Birchington make Powell's contribu-
tions of some importance to the study of change-ringing. And his tower rings with the echoes of the great army of notable ringers visiting and revisiting Quex Park during a period of more than a hundred years.

To us, therefore, it was a privilege to walk where so many famous ringers have walked, from Shipway to our own day; to ring where so many great exponents of the art have stood beneath these bells; to recall the many comings and goings of notable personalities in this sylvan fastness; to chuckle again at the refreshing recollection of John Cheeseman and Armiger Trollope getting down to sleep on this bare floor amid the whisperings from the tall shafts on the night they could find no resting place in Birchington.

The first impact of the 12 bells was stupefying. It was as the sound of a thousand musical boxes punctuated by a hundred chiming clocks, and even the roll-ups of three leads of Treble Twelve came but confusedly to our inexperienced ears. As time went on, this dazzling stream of sound began to resolve itself into familiar patterns, so that by the time that two courses of Stedman Cinques had been rung the primal difficulties had vanished. Outside the tower it is found that the overtones are not so dominant and the changes rung are clearly heard.
We walked back across the meadow as the back eight turned to an excellent course of London, and from the wicket one heard with perfect clearness, and indeed sweetness, every blow of this piece of competent ringing.
The storm clouds were drifting overhead and rain was falling upon the dripping leaves as we gathered ourselves together and departed from this place back to the world of other things, and the copse and the tower were left to their own musings. Alice, alas, despite the golden key, was too big to get through the door to the magic garden; we, more fortunate, have squeezed through, and have for a short time found an enchanted land. When next we come, it may be that the glory will have departed; but there can be no doubt that on this day there has been enchantment at Quex Park.
E. C. S.

WALTHAMSTOW, ESSEX.-On June 12th. 1.344 Grandsire Tripies: F. C. Maynard 1. P. D. Chapman 2. J. Hales 3. C. A. Diggin 4. F. W. Sykes 5.
B. Downes 6. D. Hewitt 7. F. Taylor 8. Rung on the luth anniversary of the ordination of the Rev. J. H. Rumens, son of Mr. H. Rumens, secretary of St. Mars's Society, and for Evencong
WARMLEY, GLOS. On May 12th. 1.260) Plain Bob Minor: Myta J. Wilkins 1. Sandra Lewis 2. H Taysom 3, Gloria H. Newon 4, B. K. Lewis 5 A. W. Gibbs (cond.) 6. For Matins.

WENTVORTH, YORKS.-On June 4th. 1.440 Plain Bob Doubles: A. Besumunt 1, Rev, Canon A. King 2. M. King 3. E. King (first quarter) 4. M Meadows (cond.) 5. R. Wert (first quarter) 6
WILTON. WILTS.-On June $12 \mathrm{th}, 1.260$ Stedman Doubles: E. A. Haines 1. A. Trimby 2, A. F. Haines 3. H. D. Roder 4. R. O. Fry (cond.) 5. . Kiddle 6. The firse quarter of Stedman Doubles by all the band except the conductor,

## OBITUARY

MR. F. A. BULLOCK
We regret to announce the death of Mr . F. A. Bullock. of Swineshead, Lincs, on May 26 th. at the age of 75 years. A member of the Lincoln Diocesan Guild. he had heen a ringer at Swineshead. for over 30 years. A good chuchman, he had been a sidesman and a member of the P.C.C. for over 30 years.

The funeral took place at Swineshead on May 30th and in the evening his fellow ringers ran a quarter peal of Grandsire Triples with the bells half-muffled.
M. E.C.

MR. WKLLAM S. LANGDON
With deep regret we record the passing to higher service of William S. Langdon at St. John's Hospital. Wandsworth, on April 13th. He was in his 84th year and was well known in London ringing circles.

For the past two years. Bill Langdon was in ailing health. but prior to this period he was most active. As tower keeper at St. Mary Abbots, Kensington, he used to tend the bells there with loving care, and such was the respect in which he was held that ringers from several towers used to rally on Sunday mornings at Kensington-although the time allowed for ringing was only about 15 minutes. Bill Langdon was one of four ringing brothers, sons of a ringing father. and Herbert Langdon is the sole survivor of that famous quartet. He had kept no record of his peal performances but they are estimated to be in the region of 800 . During his lifetime he served as a principal ringer at Westminster Abbey, where the practice has been for many years to honour departed Abbey ringers by allowing them to rest in the Abbey for the night before burial.
Bill Langdon was a faultless and most reliable ringer, and in his last peal-Stedman Triples. at St. Lawrence Jewry-he rang and struck his bell perfectly, never making a single mistake although he was in his 81st year. He was a loyal College Youth and was loved and respected by all who knew hini.

The funeral took place at Wandsworth Cemetery, Earlsfield, on April 20th. J. F.S.

## MR. JOHN EALES

The St. Lawrence Long Buckby Society regret to record the death of one of their most respected members, Mr. John Eales. He was one of the few members of the pre-war band who gave active support and encouragement to the present band.

John Eales was one of those ringers whose good influence was far greater than his technical skill: he would never learn to ring an 'inside' bell. but was always happy to see a number of young recruits progress in ringing the variety of Doubles methods for which this band has gained a reputation. He rang three peals and is quarter peals before a serious illness four years ago ended his ringing activities, but his interest in the progress of the Society and of the work of the Guilsborough Branch, of which he was a loyal member. was maintained to the end.

The funeral. on June 4th, was attended by some of his oldest friends, and floral tributes were sent from members of the local company, and from the Guilsborough Branch. A half-muffled quarter peal was rung on the following Wednesday by A. Cooper 1, M. J. Bailey 2. J. E. Goddard 3, A. E. Gautrey 4, E. G. Orland (cond.) 5.

## BARNSLEY \& DISTRICT SOCIETY

Five teams entered for the annual shield contest on June 11th, at Felkirk, with Mr. Harold Chant as judge, and Mr. Daniel Smith as marker. The draw for ringing was: 1 Warsop 10 penalties, 48 faults. 58 total ; 2 Meltham -. 59. 59: 3 Friezland -, 82, 82; 4 Cawthorne 5, 5i. 56: 5 Shelley -, 31. 31. Shelly were declared the winners and the shield was received by their conductor. Mr. Trevor Turbatt, who said to win the shield had been his ambition. Mr. J. W. Buxton thanked the towers for their support.

## THE LADIES' GUILD

A quarterly meeting of the Western District was held at Portishead, on June 1lth. when there was a good attendance. Ringing was followed by a service which was conducted by the Rector. Preb. W. L. M. Coombes, and tea at the White Cot Cafe. At the business meeting two new members were elected-Mrs. Costella. Westbury-on-Trym, and Miss Jean Palmer. Warmley.

Special mention was made of the Ladies' Guild annual meeting on July 2nd, when it will be the turn of the Western District to act as host, and all members are looking forward to welcoming lady ringers from other Districts.

Arrangements are being made for the meeting on September 10th, to be in the form of a half-day outing, if possible in private cars, so will all members who would be willing to assist in this way. please contact the secretary. Further details to be announced later. B.J.

## BELFRY

 50 methods in hand with a new band. In his previous success in 1951 he had Mr. and Mrs. Jack Bray and Mr. Philip Barnes. This time on May 31st he had with him Messrs. A. Robin Heppenstall, John Freeman and Jack L. Millhouse. These are really great achievements and we should be interested to know if in such a great performance the mind works in two separate channels and whether there are any after affects.On comparing notes after a peal of Bristol Surprise Major at Doncaster the halfbrothers, Bill and Eric Critchley found that it was the 489 th peal for each of them.'
The programmes of the Aldeburgh Festival includas a talk on campanology by Mr. Ranald Clouston, supported by handbell ringing by local ringers.
In connection with the visit of the Central Council to Kent, peals were rung at Chislehurst, Maidstone, Ashford. Newington-nextHythe, Appledore and Lydd.

Was it one of the famous Clares whose skirt nearly descended during a touch of Stedman at St. Paul's, Bedford, causing great amusement to many though acute embarrassment to the only female present?

New subscription rates to operate from January 1st, 1961, in the Gloucester and Bristol Diocesan Guild are: performing members, 18 years old and over, 3s. 6d.; non-resident life members 10 s . 6 d .
The six bells of Tortworth. Gloucester, are being rehung by Taylors. Miss Edith Bryant is defraying the whole cost in memory of the Sth Earl of Ducie and her sisters Emma, Countess of Ducie, and Miss Ada Bryant. Miss E. Bryant now resides in Australia.
With sincere regret members of the Swansea and Brecon Giuld, particularly those at Sketty. have said goodbye to Mr. Derick Astridge on completing his three years at Swansea University. His enthusiasm brovzht about the formation of the University of Wales Guild of Bell Ringers, of which he was honorary secretary.

## GOSSIP

The 100th peal on the bells of Gamston, Notts, was rung on June 4 th and in these Mr. H. Denman, the local captain, has rung in 91. Also in the company were the Misses $\mathbf{K}$. and G. Burchnall, from Sutton-on-Trent, who rang in the first peal on the bells. These bells, which were augmented from five to six in 1924 have become a favourite venue for peal ringers from around North Notts. Of the 100 peals. 99 have been Minor and one Doubles.
The quarter peal rung at Stratton, Cornwall, on May 8 th was a 70 th birthday compliment to Mr. S. Stacey and not as stated.

The peal of Bob Major rung at Aylestone, Leics, by the youthful band, for the 21 st birthday and engagement of their secretary to the Ringing Master, is a local stepping stone as it is only the 2nd peal ever to be rung on the bells by a Sunday service band. The last was rung in 1950 by a much older band.
Congratulations to Mr. Herman Rusby on completing 50 years as a chorister at All Saints' Church, Cawthorne. Barnsley, on Trinity Sunday. A peal in six Treble Bob Minor methods, including Trinity Sunday, was rung on Whit Tuesday. Herman started ringing in 1926 and is a most regular attender both at services and practices. He is auditor to the Barnsley and District Society.
Several young bellringers were among those who took part in the Lincoln Diocesan Youth Pilgrimage to Crowland Abbey, on June 4th. The Abbey bells made a pleasing sound at the end of a longish walk on a very warm day, and those pilgrims who joined in ringing before and after the service, appreciated the warm hospitality and friendliness of the local band.
Mr. John W. Evans was a member of the original band who opened Oxton, Cheshire, belis on Ascension L.ay, 1895, and has remained a member even since. Although he finds the 70 steps to the ringing chamber a trial he continues to attend for ringing, when weather permits. He joined in the ringing on Ascension Day. Incidentally, these bells, which are hung on plain bearings, have not received any attention from bellringers and still "go very well after 65 years.

## ALPHABET FOR BEGINNERS <br> By T. J. LOCK

"L."
LENGTHENING LEAD.-This term has same meaning as Extending Lead.
LINE DIAGRAMS-The most usual and the easiest way to learn and memorise the work of any method in change ringing is by way of line diagrams. Apart from learning off pat the work contained in a plain course one can carry the "line" in one's reflective mind. And the best and clearest diagrams, dual colour, are to be found in the current editions of 'Standard Methods.' in which Diagrams and Letterpress are complementary booklets.

LISTENING TO YOUR BELL STRIKING. -If you are at the early stages of learning to ring and you cannot yet hear your bell strike, please address yourself earnestly by saying il must and I will hear my own bell strike.' If you are as far advanced as being able to ring changes and cannot hear your bell strike say Phew! I have missed something, I must start all over again from rounds and call changes. And when you can listen to your own bell striking you can automatically hear all the others, so that the ringing can then produce some decent rhythm in its striking.
It is really important that every ringer should hear all the bells being struck because there are, unhappily, few rings of bells without one or more of the bells being 'false struck.' To produce rhythmic ringing a bell that strikes talse has to be pulled at sally or at rope's end quicker or slower than would otherwise be necessary, and this you will never determine unless you can listen to your bell striking.

LITTLE METHOD.-A Little Method is one which conforms to all the requirements of the class to which it belongs except that the hunt or hunts do not proceed to the same number of places as there are bells employed. Thus in Little Plain Bob the treble is restricted to hunting to fourth's place and back again, and in Little Grandsire Caters the hunts of the two trebles proceed as far as fifth's place and then return to lead. A Little Surprise Major method must have a treble bob hunt which, however, may be restricted to the first four or the first six places.
A Little method cannot produce the extent of the rows by itself.
LONG COURSE. - To all intents and purposes a Long Course is one which contains more changes and consequently more lead ends than the plain course of the method concerned. The best example that can be given is undoubtedly the very well known touch of Plain Bob Major, thus-

This touch. the calling of which is Wrong. three times Before. Middle and Home, has 160 changes with 10 lead ends (compared with 112 changes and seven lead ends in a plain course) but you will see that there is only one course end. i.e.. only one occasion when the tenor has returned to its home or starting olf position.
My inconclusive opening statement is due to lengethening lead methods. such as Kent Treble Bob, Oxford Treble Bob. Bristol Surprise, etc., where a touch may finish with two bobs at Home. Illustrating by figures. the last four lead ends would appear as-

M B W H

2547386
4235678
3425678
2345678
Here is a case where a course end actually comes up two leads before the bells are brought into rounds, but for the purposes of composition it is counted as a long course and

SERVANTS OF THE EXERCISE - No. 26

MR. NORMAN CHADDOCK, Yorkshire Association \& Sheffield Dist, Society. Convener, (:C. Sunday Service Ringing Survey Committec.
Mr. Norman Chaddock, of Rotherham, is, if ever there was one. the right man in the right place. He has a flair for teaching, and is never happier than when giving instruction to learners. Since the war, he has trained over 50 pupils from handling a rope up to ringing their first 720, thus qualifying them for membership of the Yorkshire Association. 29 of them have rung peals in Major methods, including Surprise. He has conducted peals where all taking part with him were his own pupils, including one with seven ladies. In addition he has trained handbell tune ringing
the principle thus adopted is to use the figures of the last lead end prior to the tenor becoming an intermediate place bell. If you look in your Ringers' Notebook and Diary (or, perhaps just a little shyly, someone clse's!) you will see under Kent Treble Bob Major a long course touch extending to 480 changes. This touch has more than twice as many changes as a plain course.

LOWERING.-You may know that when a bell is ready for ringing the mouth of the bell is set upwards and is retained in position by two pieces of selected and shaped timber, a slide and a stay. As it is quite often not safe to leave the bells set up between sessions of ringing they are swung down or lowered so that they all hang freely with their mouths downwards. When all the bells are lowered together so that they continuously strike in rounds on their way down, this is said to be 'lowering in peal.' and to some degree is an aid to bell control.

## Another Course

By arrangement with the Gloucestershire Educational Committee a week-end course in bell ringing will be held by the Gloucester and Bristol Diocesan Association at Hartpury College, near Gloucester. from Friday evening, September 16 th to Sunday afternoon. September 18th. Fee (covering residence and all meals) $£ 22$ s.. plus 5 s. tuition fee. The course is limited to 30 and applications should be made to P. M. J. Gray. Orana, Eastmead Lane, Stoke Bishop. Bristol 9.

## PREPARED FOR A NAP AT C.C. MEETING

A small blanket in the shape of a sleeping bag was left in the Town Hall. Folkestone, after the Central Council meeting. Will the owner please apply to Mrs. Barnett, 26, Iron Mill Lane, Crayford, Kent,
teams at two local schools. These have appeared on television and sound radio, and have raised substantial sums of money for Rotherham Parish Church, and at scores of charity concerts.

Norman Chaddock was born in Rotherham, in 1914. He is a schoolmaster by profession. His wife, Elsie, is an accomplished ringer, as also are their two children, John and Susan. John is at St. John's College, York, and Susan is studying for G.E.C.. advanced level. Elsie Chaddock has materially assisted her husband in his many activities, especially with the paper work.'
Norman is Ringing Master and steeplekeeper at Rotherham Parish Church, and under his direction the bells are rung regularly twice on Sundays. He is a member of the Parochial Church Council. For 23 years he has been an officer of the Sheffield and District Society, serving as secretary, Ringing Master, vice-president, C.C. representative. In all these activities he has been actively supported by those two Sheffield stalwarts, H. O. Chaddock and John J. L. Gilbert-a happy trio these!
The Central Council recognised Norman's talents and he was appointed Convener of the Sunday Service Ringing Survey Committee. whose task is a really colossal one. The job is in good and capable hands, and all who know Norman are confident that he will make a great success of it. He is also involved in the organisation of ringers' schools, one of which was so successful at Ripon recently. He has vigorously tackled ringing in all its aspects, laking in composition and conducting. His peals total, by March. 1960. was 290, of which he has conducted 148:254 have been for the Yorkshire Association. He aims at variety, and has conducted all varieties of methods on all numbers. odd and even, from 5 to 12 bells. He turned in Rotherham tenor. $34 \frac{1}{2}$ cwts.; to Pitman's 4 Spliced Surprise Major, with all the work, and also took part in the Spliced Surprise Major record peal ( 53 methods). conducted by W. E. Critchley. Norman is certainly a live wire and there is no doubt he will leave his mark on the Exercise.

## SWANSEA \& BRECON GUILD'S RINGING SHIELD GOES TO PORTHCAWL

After 10 years the Guild's ringing competition has been revived, and this year on June 1lth five bands met at the Church of St . David. Brecon. one band being unable to compete through speech making at Christ College.
The competition was a great success in every way. The good striking throughout, the keen interest, and the competitive spirit. proved it so. It is now very certain that the competition will be held each year
After tea the general secretary called on the adjudicator, Mr. A. J. Pitman, to give the final results, but before he did so, he said the standard of ringing by all the competitors was extremely good. and he was very pleased to state this. Continuing he then gave the results.
The winner of the shield, with 242 points was Porthcawl, Cadoxton came second with 239 points, Sketty, 238 points, Talgarth, 233 points and Brecon 190 points.
Mr. A. J. Pitman was thanked for coming from Leamington Spa to adjudicate, and in reply he said. he was always willing to oblige on these occasions.
J. A. H.

## Hints For Beginners-26

If you must speak during ringing, do so very clearly and distinctly. Nothing distracts the rest of the band more than to be wondering what has been said.

CENTRAL COUNCIL-Continued from Page 422
NEXT CHRISTMAS DAY BROADCAST

REPORT OF THE BROADCASTING AND TELEVISION COMMITTEE
The broadcasting of bells can be divided nto two categories-ringing for Divine Service and Feature Kinging, the latter would include the Christmas Round-up of Bells.

In the first there is nothing we can do in the selection of towers used. The service is obviously the important thing, the bells being merely incidental. The one thing the committee have again attempted is to get an increase in the time allowed. In Northern Ireland the time has been steadily cut, but after strong protest there has, of late, been some improvement. In England, however, the B.B.C. are adamant in their decision to keep the time allowance at one minute, so that the obvious thing for ringers to do is to see that the maximum co-operation takes place between them. the clergy and the B.B.C. engineers and to ensure that the full minute is put to good use. We feel very strongly that only the best band available should be aliowed to broadcast and that what is rung should be well within the capabilities of the ringers, bearing in mind that good rounds are much to be preferred to poor change ringing. An admirable article by the Rev. Preb. Martin Willson, of the B.B.C. West Region, appeared in 'The Ringing World ' in April last, and any ringers involved in broadcasting would do well to study it and follow his advice.
In the second group we have enjoyed a very pleasant co-operation with Mr. Willson, and a number of his programmes in the - Faith, series have included bells. Each programme has featured three or four towers and although only a short period was allowed to each, some very good efforts were recorded. In all cases we were consulted regarding the selection of towers.

Efforts have been made to get something of a similar nature done in the North Regional Programme 'Calendar, but this has not been possible to date. The B.B.C. have, however, suggested the idea of featuring several types of event such as the restoration of historical rings. or the hanging of new bells. We have promised to keep them informed of anything of the kind.
In the Midlands, Mr. Edgar Shepherd, the Master of the St. Martin's Guild, took part in a radio programme and gave a brief description of ringing and some of the towers within the Diocese of Birmingham.
In the London Region members of the London County Association took part in the annual Oranges and Lemons service, and were featured in 'In Town Tonight.' The item was also reproduced in the Overseas Programme.
In an interview Mr. A. D. Barker discussed ringing in general and change ringing on handbells was also included
In Northern Ireland an excellent programme. entitled "Treble Bob Major. was broadcast on Christmas Eve. Taking part were Mr. Dunwoody and Mr. Harry Brown, assisted by Mr W. Pratt and Miss Jean Stewart. Recordings of all the bells available in the region were heard and the standard of the ringing was extremely good. This broadcast, which was principally for the listener in general, has produced much favourable comment and efforts are being made to persuade the B.B.C. to do a television broadcast on ringing.
Radio Eireann has broadcast bells on a num her of occasions and. in particular, Christ Church Cathedral. Dublin, bells were on the air for fifteen mirutes, ringing out the Old Yean The Christmas Broadcast has again been the subject of considerable criticism. not only of the ringing but of the way in which it was presented by the B.B.C. The committee have
noted all the points and wish to make the following observations: Dealing with the B.B.C. first, after the many expressions of regret at the very short time aliowed each tower in last year's broadcast, the B.B.C. this year increased the time allowance to a full two minutes for each. So far as care in the presentation of the programme was concerned, we have received a copy of the script from the producer and there can be no doubt that every possible care was taken, a clear uninterrupted period of two minutes ensured from each lower, with an interesting mention of each prior to the bells. The trip over Wareham was a technical hitch over which the producer had no control. With regard to the selection of towers, we have on a number of occasions offered assistance to the B.B.C. in this direction and at their request we have submitted lists of towers suitable for broadcasting in the various Regions, but our services, except in Northern Ireland, have never been directly solicited for this programme.
In fairness to the B.B.C. we should point out that to a very great extent the availability of equipment is the main deciding factor in the choice of these towers, and in this respect the church selected for the morning service on Christmas Day in each Region, takes precedence for inclusion in the Round-up of Bells. As far as this year's selection of towers was concerned the following information is relevant:-

Blackburn Cathedral: One of a group previously recommended by the Lancashire Association ringing secretary and passed to the B.B.C. by the committee.

Wareham: Morning service from here, so bells automatically used. Tower on list of recommendations by committee

## Elkstone: Morning service

Beaconsfield: Watch nigfit service from here. Bells automatically included in Round-up.
St. Andrew's: Bells selected by head of Scottish Region.

Talgarth: Bells selected by head of Welsh Region.
Belfast: Bells recommended by the committee.
From this it will be seen that three of the towers were involved in service ringing as well as the Round-up. Two were recommended by the committee and the remaining two were selected by the heads of the regions concerned. Following the broadcast the committee had further correspondence with the B.B.C. and the final result is that Mr. Henry Riddell, the producer. has very kindly agreed to a plan whereby he will request each regional head to consult the member of the committee in his area. with regard to the towers selected for the next Christmas broadcast. We hope this arrangement will prove successful and meet with general approval.-H. J. Sanger (Convener). A. A. Hughes, J. T. Dunwoody, G. E. Fearn. N. Chaddock. A. G. G. Thurlow
Mr. Sanger moved and Mr. Dunwoody econded the adoption of the report.
The honorary secretary said he had had a comment by post that morning from the representative of the Scottish Association. regarding the last paragraph. So far as he knew there was no representative in the area covered by the Scottish B.B.C.

Mr. Sanger replied that there were one or two members in the North who could be helpful regarding Scotland. The same remark applied to Wales.

The Standing Committee recommended that the committee be reappointed with the exception of Mr. A. A. Hughes and that Mr Harold Pitstow be appointed in his place. This was agreed to.

## PROGRESS REPORTED BY BIOGRAPHIES COMMITTEE

We now have in our books the names of 786 persons who, at various times, have been elected to membership of the Council. Or this total 374 are known to be deceased, 294 are completed and either already in the Albums here exhibited or are following. We have with regret included a few without photographs, in cases where the prospect of obtaining them is remote

There are some records. otherwise complete. needing only a photograph known or believed to exist, and we list the names in the hope that members who know of photographs may be able to assist us. These are: T. G. Bartlett, Rev. H. C. Courtney, A. Craven, A. Coppock, A. E. Coles, F. E. Dawe. H. Dew, Rev. C. W. H. Griffiths. R. C. Knowles, G. Longden, W. Walmsley.

We still have some (mostly Council members before the Biographies Committee was functioning) who are to us little more than names. but who performed useful work and whose memory we would wish to perpetuate if possible. One example of this type must suffice. Mr. H. J. Bradley was elected a member of the Council in 1920 and although he never attended a meeting, he did give good service to the Exercise by publishing (1914) a well-written History of Shoreditch Church. He was steeplekeeper at St. Leonard's and his book contains a full story of the extensive restoration of Shoreditch bells in 1913. He died about April, 1925. This is a typical case of a man who fully deserves a worthy place in our records and your committee would welcome the required information which must be in existence at Shoreditch.

In the period under review 30 biography records have been completed and handed over for inclusion in our albums. This number, set against the deaths reported in the 1959-60 period, shows that we are slowly gaining on the accumulated arrears which we inherited after the standstill period of the 1939-45 War.
Your committee again wish to acknowledge with gratitude help freely given by many, both of the Council and outside it. Outstanding among these are the efforts of Mr. Poole, whose careful research at Marlow resulted in the completion of an excellent record of the late Alfred Heneage Cocks. M.A., Mr. J. W. Cotton and Mr. R. H. Dove, who together helped us regarding Joseph Griffin, confirming the date of his first peal, his total number of peals, and a very fine photograph. Mr. J. J. Webb by obtaining a photograph for us has completed our record of the late J. P. Hyett.

The most interesting example is perhaps that of the late John Clark. who was the most unknown of our unknown class. but Mr. William Poston. of Bridstow. very shortly before his own death. supplied some notes which enabled us to complete Mr. Clark's record. excepting a photograph. Mr. F. W. Goodfellow also helped by obtaining photographs of old Middlesex representatives. A. C. Hazelden (Convener).

The report was moved by Mr. John Willis. who asked the new boys and girls, of the Council to fill in the forms supplied hy the Biographies Committee and provide a photograph.

Mr. W. H. Viggers seconded and said a postcard size photograph was most useful.

The report was adopted and the recommendation of the Standing Committee that Messrs. A. C. Hazelden. John Willis and W. H. Viggers be re-elected to the committee was carried.

## PEALS OF MINIMUS RECOGNISED

REPORT OF THE PEALS ANALYSIS COMMITTEE
In submitting their report for 1959 the committec have to announce a decrease in the totals of peals rung during the year on both tower- and handbells.
The grand total of peals accepted to date is 2.410. against 2.512 in 1958, with 2.283 on ower bells (2.372) and 127 on handbells (140) -a total loss of 102 . The analysis breaks down as follows:-

| Tower |  | Handbells |  |
| :---: | :---: | :---: | :---: |
| 1959 | 1958 | 1959 | 1958 |
| 33 | 24 | 2 | 1 |
| 26 | 31 | - | 1 |
| 125 | 133 | 14 | 6 |
| 77 | 81 | 3 | 5 |
| 930 | 894 | 49 | 32 |
| 192 | 218 | 4 | 11 |
| 717 | 689 | 38 | 40 |
| 183 | 302 | 17 | 44 |
| 2.283 | 2.372 | 127 | 140 |

Peals of Cinques are down: Royal are the same: Major up by 53: Triples down by 33: Minor plus 26 . but Doubles slumped badly. The number of persons shown as recording their first peal is 345. Those shown as obtaning their first peal as conductor- 70 .
Once again we find the premier position is held by the Leicester Diocesan Guild, with 188 peals : the Lincoln Diocesan Guild has jumped to second place, with the Yorkshire Association close behind. while the Oxford Diocesan Guild has dropped from second to seventh place.
The first seven places are as follows:-

| Leicester D.G. | 188 |
| :--- | :--- |
| Lincoln D.G. | 132 |
| Yorkshire Assoc. | 131 |
| Chester Guild | 110 |
| Lancashire Assoc. | 109 |
| Kent County Assoc. | 106 |
| Oxford D.G. | 102 |

The committee would like to draw the attention of the Council to the rise in peals of Surprise Major on tower bells. there being 58: in contrast to 349 in all other Major methods.
One peal of Minor, with tenor covering. rung for the Lancashire Association, has not been accepted. The committee ask for guidance regarding a peal of Minor in 10 methods. rung for the Essex Association in which. the ringers of $3: 4$ changed places for the last 720 , as reported in Belfry Gossip.

## OUTSTANDING PERFORMANCES <br> 13.280 Cambridge Surprise Major by Kent

 County Association.92 Methods Spliced Doubles. in which conductor rang $2 / 3$.
54 Minor methods in hand by Yorkshire Association.
May we again urge conductors of peals to ensure reports are sent to The Ringing World immediately they are rung-and not sent in twice. The first portion is particularly important. This year we had 1959 peals published in the middle of February. - W. Ayre. K. W. H. Felstead. H. Miles. H. L. Roper
Moving the adoption of the report Mr. W. Ayre said he had taken some figures out of the analysis. which he felt might be useful to the committee. Methods having had 10 or more peals rung in them during the year were:

Maximus-Cambridge 15
Cinques-Stedman 22 .
Royal-Cambridge 27. London 13. Yorkshire 24. Plain Bob 22.

Caters-Grandsire 32. Stedman 39
Major-Bristol 49. Cambridge 100 . New Cambridge 12. Lincolnshire 28. London 58 . Pudsey 12. Rutland 22. Superlative 36. York*hise 120. Spliced Surprise: 6 methods 12 .

4 methods 23 : Double Norwich 67. Kent T.B 45. Kent and Oxford T.B. 11. Plain Boh 177 Little Bob 20.

Triples-Grandsire 114. Stedman 53
Minor-Seven methods and plus 188
Doubles-Seven methods and plus 33
All these figures were for tower bells and it would be noted that Yorkshire had apparently become more popular than Cambridge.

There were a few extra peals which the Committee think worthy of special mention. being above the usual class of peals: 42 and 31 methods of Doubles. Ely Diocesan; 60 and 51 methods of Minor. Essex Association: 100. 51 and 42 methods of Doubles. Gloucester and Bristol: 100 methods Doubles. Middlesex County: 60 methods Doubles. Oxford University: 36 methods. Doubles. Sussex County; 40 methods Minor, Truro Guild : Spliced Surprise Major, 4 methods silent. Yorkshire Association Handbells-Cambridge Surprise Major Leicester Diocesan Guild : Cambridge Surprise and Yorkshire Surprise Major, Middlesex County: Grandsire Triples. New South Wales Association.
In *The Ringing World ${ }^{\text {t }}$ two miscellaneous performances - a peal on nine bells and a peal on four bells in five methods-were not included in the analysis. There were also two peals of Kent Major, rung by the Lancashire Association last November and published in 'The Ringing World' in March. They were not included. They could not keep their records up to date when peals were sent in so late. There was a peal where two ringers changed bells, which was mentioned in Belfry Gossip. If they wanted a thing kept secret it should not be published in Belfry Gossip. That peal had not been included.

Mr. H. Miles seconded the adoption of the repori.
The Standing Committee recommended that the report be adopted, but the peal of Minimus be included and the peal of 10 Minor methods, where the ringers changed over. should not be included because it did not ocmply with conditions. Since they had a condition that each bell or bells should be rung by the same person the committee had no option but to exclude it. The committee also asked Mr. Cartwright to make the wording more clear.
Mr. F. B. Lufkin said the Essex Association had no qualms about accepting the peal. The rhythm was broken by two rows. While the Essex Association felt that the practice of changing bells should not be encouraged. they should like the peal to be accepted because of the enthusiasm of the young people. This peal was rung by one set of persons. They should not apply a damp squib to these people.
Mr. Harry Miles: What is the exact wording?
The honorary secretary: Each bell or hells shall be rung by the same person or persons.

Mr. Lufkin: The reason for the change over was that the bell was running dry. The person on the fourth was getting white in the face and the ringer next to him took over for the last 720. This is not the first time it has been done. I think it has been done from Annable to Cannon

Mr. F. W. Perrens: Although everybody has sympathy with what Mr. Lufkin has put forward we should keep to our rules
Mr. T. J. Lock supported this view. 'I can see no other interpretation. he added.
Mr. G. McKay: I do suggest that the words do create a patent ambiguity.
The peal was not accepted and the report was adopted.
The Standing Committee recommended that the committee he re-elected as follows: Mr W. Ayre. Rev. K. W. H. Felstead. Messis. H W. Ayre. Rev. K. W. H. Felstead. Messrs. H.
Miles and H. L. Roper. This was agreed to.

## RECORDS COMMITTEE STRENGTHENED

## The Report

The committee beg to report the following new methods and progressive lengths rung during the year ended December 31st. 1959:TOWER BELLS
Date. Changes. Method and Association
Jan. 13, 5.184 Chislehurst S.M.. Kent:
Feb. 7. 5.056 Cotswold S.M... Oxford Dio.
7. 5.056 Bentley Bob Maj., Essex:
23. 5.088 Hackington Imp. Bob Maj

Midland Counties
24. 5.088 Adderbury S.M., Oxford Uni.

Mar. 5. 5.024 Cardiff S.M... Middlesex
10. 5.088 Wittenham S.M.. Oxford Uni.

Apr. 4. 5.056 Holborn S.M.. Middlesex:
18. 5.040 Ilkeston S. Royal, Southwell

23, 5.024 Alperton S.M.. Middlesex :
27. 5.040 Braunstone S. Royal. Leicéster

May 2. 5.088 Cheswardine Imp. Maj. Shropshire
9. 5.088 Ewell Surprise Major Surrey
11. 5.040 Biddenden S. Royal. Leicester
14. 5.056 Oxford Imp. Bob Maj..
xford Dio.
23. 5.184 Gainsborough Bob Royal.

London County
30. 5.024 Gilmorton S.M.. Hertford

June 6. 5.152 Ercall Imp. B.M.. Shropshire
11. 5.120 Yeading S.M.. Middlesex:
13. 5.088 Hampton S.M.. Middlesex:

July 18. 5.040 Swindon Surprise Royal. Gloucester and Bristol
Aug. 27. 5.056 Tottenham S.M.. Middlesex:
Sept. 8. 5.088 Louth S.M.. Irish;
12. 5.056 Kinnerton Imp. Maj.. Chester

Oct. 3, 5.040 Rickmansworth S. Royal.
Hertford :
7, 5.184 Snettisham Imp. C.B. Maj.,
Norwich
15. 5.024 Huddersficid S.M.. Middlesex:
24. 5.088 Overleigh Imp. Bob Maj.

Chester
29. 5.184 F:nsbury S.M.. Middlesex :
31. 5.088 St . Francis Imp. Maj.

Nov. 12. 5.120 Lichfield S.M.. Middlesex
14. 5.056 Barkway S.M.. Hertford:
(i) 14. 5.088 Monaghan S.M.. Midland
19. .280 Birmingham S. Maximus. Guild
21. 5.088 Littleton Imp. Maj. Chester:

Dec. 10. 5.024 Romford S.M.. Middlesex :
12. 5.280 Londinium S. Maximus.

Lancashire:
26. 5.088 Royston S.M.. Hertford:
31. 5.040 Lanscowne Lit. Imp. Boh Maj.. Derbyshire.
PROGRESSIVE LENGTHS
June 13. 9.568 Spliced S.M. (10 methods).
28. 13.280 Cambridge S.M.. Kent.

The committee asks for direction regarding the following peals. as to whether they shail be included in the records under their present names :-
Oct. 19. 5.040 Whitwick S. Royal. Leicester ; Nov. 9. S.040 Lyme S. Royal. Leicester.
(Sgd.) E. K. Fletcher and L. K. Marshall. Mrs. Fletcher. in moving the report. asked for the deletion of Lakeham Imperial College Bob Triples (rung by Norwich Diocesan Association), as it was previously rung as St. Stephen's Triples by the Norwich Diocesan Association in 1957. and Marden Little Surprise Major (by Kent County Association), as it was previously lung as Northrepps Major hy the Norwich Diocesan Association in 1939. She also asked for the addition of a handbell peal of Little Boh Maximus. rung by the I.incoln Diocesan Guild last June.
Mr. F. I. Hairs seconded the adoption of the report
(Continued next page)

## BUSY YEAR BY SUNDAY SERVICE SURVEY COMMITTEE

This committee has been very active since the Council met and in addition to much work by correspondence it was possible for five members to meet for nearly a whole day in Birmingham last January.
The greatest. and what has proved to be the most rruitful and rewarding task, was the preparation and distribution of the leaflet, summarising the results of the survey done last year. The object was not just to set out mere facts but to present them in an attractive and interesting way. We also took the liberty of including a littie information about the Council and its work as so many of our clergy know little or nothing about the Council and this seemed an excellent opportunity to present them with a few facts. 1.250 leaflets were printed and the main batch of 1,049 leaflets were despatched last year, copies being sent 10 :-
E:Diocesan and Cathedral offices.
Wales.-Archdeaconries.

## Diocesan

Cathedral offices.
Scotland-Diocesan and Cathedral offices, and also every incumbent of a Church possessing a ring of bells.
Ireland.-The chief officer of each Representative Body. every Cathedral office and Bishop, and evary incumbent of a Church possessing a ring of bells.
Copres were also sent to every Theological College and the various Regional Directors of religious broadcasting.

BETIER UNDERSTANDING
Undoubtedly the leaflet has done much good with regard to public relations and understanding with the clergy. A suitable covering letter was sent out with each leaflet and the convener received many encouraging letters from clergy. including Bishops, promising sympathetic co-operation. It has been brought to our notice that extracts and comments on the leaflet have appeared in many diocesan, deanery and parish magazines. Several important, newspapers, including the London 'Times, and The East Anglian Times' have referred in considerable detail to the contents of the leaflet.
The booklet on belfry organisation, recruitment, relations within the parishes. etc., which the committee was asked to draft, has been prepared and copies of the draft have been circulated so that the Council may consider and make a decision about printing it. The cost of 1.000 copies will be about $£ 25$ ( 6 d . each) or, if eight line drawings to illustrate it are included. $\pm 30$ (about 7d. each). These figures are the lower of two quotations which have been obtained. We suggest that the hooklet would be. of tremendous value to a band. an incumbent, or even the individual ringer.
Efforts to get information about the contents of the leaflet on the survey into church publications have been less successful, little progress being made with. The Church of England Newspaper: ' Church Illustrated ' and Home Notes.

## RECORDS COMMITTEE-Cont.

Mr. R. F. B. Speed said there was a lot of correspondence in The Ringing World over the naming of peals. He suggested that the committee should provide the answers when asked for.
Mr. Shirley Burton said the Leicester Guild suggested that Whitwick Surprise Royal should he called Gracedieu Surprise Royal and Lyme Surprise Royal. Charmouth Surprise Royal.
Mr. F. T. Blagrove said regarding Marsden little Surprise Royal. he would like the conductor to acknowledge that the figures pubJished in The Ringing World' were correct.
The report, as amended, was adopted.
The Standing Committee recommended that the committee be reappointed with the addition of Mr. F. T. Blagrove.

Mr. J. R. Cooper moved that Mr. John Mayne be also appointed to the committee. Mrs. Fletcher said she would be pleased to have Mr. Mayne on the committee. This was agreed to with the recommendation of the Standing Committee.

It is gratifying to see that so many Associations devote quite a lot of space in their annual reports to their own surveys and, in some cases, they indicate measures which are being planned to improve Sunday service ringing and to inspire greater activity in their areas. In response to one request from a local education authority, a syllabus for a further education course in campanology (an evening school class) was prepared. and the convener has sent copies to a number of people who have requested them. A number of such evening classes in bell ringing have taken place in recent years, including several organised by the convener.

## BELL RINGING COURSES

The recent course in bell ringing at Grantley Hall has provided very useful information regarding the running of such courses. This course was successful beyond expectations and it is almost certain that another similar course will be held next year. The knowledge gained therefrom will be gladly passed on to any association or person interested. Though not the first course in bell ringing provided by a local authority, the establishment of such courses is in its infancy. There are some 20 to 30 such adult courses throughout the country and since there is a free dissemination of information between these colleges it is important that any courses in bell ringing, which may be organised, should be successful if continuity is to be maintained. Whatever arrangements are made it is advantageous for one person to be responsible for the detailed organisation of the course in conjunction with the warden or principal of the adult college. Apart from the instruction offered, the course at Grantley Hall provided excellent opportunities for friendship between all classes of ringers and between ringers and non-ringers on other courses. Students who attended this course were mainly drawn from the County of Yorkshire. They included Surprise ringers, Round ringers, and some who had never handled a bell before. The establishment of more courses of this type can do much for the Exercise both socially and in its technical aspects.
The Oxford Diocesan Guild has recently held a successful week-end course-on its own initiative. At this course the president of the Central Council said that 'courses in bell ring-

WOODWORM

## Eradicate the dangerous pests with ONE application of WYKAMOL

Write for free literature on woodworm
RICHARDSON \& STARLING LTD
The Timber Decay Advice Bureau Dept. R.W.,
HYDE STREET, WINCHESTER Head Office: Hyde Streat, Winchester
ing were growing by evolution, which was perhaps the best way to grow.' The policy of this committee has been, in fact, to feel our way rather than to rush headlong, and is to encourage the gradual introduction of courses similar to those mentioned in consultation with local Associations. A course is to be held in Gloucestershire on September 16th, 17 th and 18 th , and we have been in touch with the Shropshire Association, the North Statfordshire Association and the Peterborough Diocesan Guild. With the agreement of the last mentioned Guild. a week-end course has been arranged for the spring of 1961 at Knuston Hall, in Northants.
We feel that a committee of seven is too large and if it is decided to continue the work of this committee its numbers should be reduced to about three or four. It is felt that in addition to completing the tasks already undertaken by the committee, its main function should be to develop the idea of courses in bell ringing and to maintain contact with the Theological colleges.-(Sgd.) N. Chaddock (convener), P. Gray, W. F. Moreton, F. B. Lufkin, D. N. Layton, J. Scott. A. G. G. Thurlow.

Mr. Norman Chaddock, in moving the adoption of the report. said the two members who did not seek re-election were Mr. Philip Gray and the Rev. John Scott. They owed a vote of thanks to Mrs. Gray and Mrs. Scott, who did a lot of the typing.
Seconding. Mr. Philip Gray said the booklet on the ringing survey had a considerable amount of criticism. If any member had any constructive criticism would he send it to him.
Mr. D. Bayles said he would like to suggest that a recent development might be included on page 16. During the last week or two Mr. Chaddock had published a pamphlet which was very good but he had not seen the film strip. He felt that a film strip might be profitably used especially at a time when the number of projectors was increasing.

The President: I have seen the film and it is an exceedingly good one.
Mr. J. P. Fidler said there was one little item that might be included. That was if a young ringer left his own parish he would invariably find friends among ringers in other parts of the country
Mr. Chaddock agreed that this point might be incorporated. The report was then adopted, and the president expressed thanks to the committee for their work.

The Standing Committee recommended the re-election of Mr. N. Chaddock, Dr. D. N. Layton, Messrs. F. B. Lufkin, W. F. Moreton and the Rev: A. G. G. Thurlow, and this was agreed 10 .

The Council also gave approval to the printing of the pamphlet mentioned in the report, with line drawings,
(To be continued)

## MIDDLESEX COUNTY ASSOCIATION

## South and West District

The monthly meeting for May was held on the 21st. The six bells of St. Mary's, Harmondsworth. were rung from 3 o clock until 4.15 p.m., during which time we were pleased to entertain many of our out-county friends.
Ringing on the light eight of SS. Peter and Paul. Harlington. commenced at 4 oclock and continued until tea, an hour later. The ringing ranged from 'rounds' to Yorkshire Surprise Major.
After a most adequate tea. for which thanks were due to Mrs. Grice and her willing team of young ladies from the Harlington band. the District chairmon expressed thanks on behalf of the gathering to the Vicar of Harmondsworth (Rev. V. G. Sutcliffe), and the Rector of Harlington (Rev, A. I Morgan) for the use of their bells, to Mr. Grice for making the arrangements at Harlington. to the ladies who prepared the tea and to all who had contributed towards the success of the meetting.

It was encouraging to note the increased attendance, and also the representation of many towers in the district. We hope to see this trend continue during the coming months.

## LETTERS

## SUFFOLK DIALECTS

Dear Sir.-On reading Bor Dearvud's bit. brings to mind a short poem where our good old Suffolk speech is fairly well rendered. It concerns the gleaning bell when a church bell was used to tell the villagers when they could go into the fields to glean after harvest.
(Morning)
Why! listen yow be quiet, bo'-the bell is tolling eight
Why don't yow mind what you're about? We re allers kind o' late!
Now Mary, get that mawther dressed-oh dear! how slow yow fare
There comes a lot o' gleaners now. Maw, don't stand gawkin' there!
Dear me! there goo the bell again-tis seven I declare
And we don't fare to have got none:-the gleaning now don't fare
To be worth nothin; but I think-as far as I can tell
We'll try a coomb somehow to scratch, if we be live and well.
The lines are quoted from 'Suffolk Largess ' 1865, the author a policeman stationed at Theberton, using the pseudonym of 'Quill.'Yours faithfully.

ALAN R. BRIDGES.
Suffolk Guild of Ringers,
N.E. District.

## 'I WAS A STRANGER ...'

Dear Sir-I wish to bring to the attention of ringers in general and the Worcester Association in particular. an incident that took place at a tower, which shall remain nameless, in the Droitwich area. Two friends and myself called at this tower after returning from a tower grab in South Worcestershire. On entering the ringing chamber we were wished. 'Good Evening.' by one person only, a lady. The Ringing Master inquired if we were ringers and where we came from. We replied that we came from the Northern Branch of Worcestershire. Then one ringer connected us with the name of Mr Paul Cattermole. who is held in very low esteem by this band of ringers. This put the cap on it. we were compeltely ignored. and we were not even asked to take a seat.

While we were there they tried to ring a method that was completely beyond them and in consequence the striking was absolutely appalling.
Is this unpleasant attitude to the younger generation to be tolerated? It is this selfish and self-sufficient attitude that is going to cause the Exercise to die an extremely hard death in the years to come. I should like to hear other ringers' views on this subject.Yours in disgust,

PETER J. BROWN.
Norton. Worcs. $\qquad$

## ANOTHER QUAKER RINGER

Dear Sir.-Miss Mary Maddison is not alone. for I am also a Quaker and a ringer: perhaps there are more of us. At one time 1 did as Miss Maddison does: I rang for morning service, and then attended meeting for worship at the Mecting House. which was opposite the church. Where I live now, we have a meeting, but the Parish Church. I regrel. has a gramophone record, and my ringing is perforce confied to attendance at practice night in a neighbouring village. and at Guild meetings. I see no incompatibility. There is one instance-I believe it was referred to in "The Ringing World recently-where one of the bells in the Parish Church was presented by the local Methodists. I regard it as a good thing that members of different denominations should find common ground in as many ways as possible: it is no disloyalty to one's particular persuasion to consider the most important thing is that one is a Christian-of whatever label-and to join gladly with fellow Christians whenever opportunity occurs. I hope that no staunch churchman will be offended by these senti-ments.-Yours sincerely.

New Milton. Hants.

## MISS MARGARET BEAMISH MARRIED

MR. THOMAS CHAPMAN, only son of Mrs. D. E. M. Chapman, of 68. Edward Avenue, Bishopstoke. Hampshire. and the late Mr. C. H. Chapman. was married on June 4th to Miss Margaret E. L. Beamish. the only daughter of Mr. and Mrs. A. H. Beamish, of 21. Gipsy Lane. Nuncaton. The ceremony took place at All Saints Church. Chilvers Cotton. and was conducted by the Vicar. Rev. $\mathbb{R}$. R. P. Righy. Mr. F. R. Jukes was the organist. The church was beautifully decorated with blue and white irises, poppies, sweet williams and pyrethrums.

The bride was given away by her father and wore a full-lengih gown of white flocked nylon with a very full skirt and a short veil with a pearl and nylon headdress. She carried a bouquet of deep red rosebuds. lilies of the valley and white miniature gladioli. The two attendants, Miss Valerie Chapman (sister of the bridegroom) and Mrs. Margaret Haswell (friend of the bride) were attired in short blue flocked nylon dresses with blue fioral headdresses. They wore silver bangles (gifts of the bridegroom) and carried bouquets.
The best man was Mr. R. C. Kippin (Southampton and the duties of ushers were carried out by Mr. J. A. Beamish and Mr. W. A.

Harding (cousins of the bride).
The reception was held at the Newdegate Arms Hotel. Nuneaton. 115 guests attending. The square three tiered cake had a church tower in white icing as its ornament. The guests were entertained by tune and change ringing and a musical programme.
Bride and bridegroom left later for a motor tour of the Lake District. the bride travelling in a royal blue and white dress with matching duster coat, white feathered hat and white accesscries. Over 100 gifts were received, the bride and bridegroom giving each other fibreglass luggage.
The newly married are well known members of the Winchester and Portsmouth Guild. the hride being honorary treasurer and also a Central Council representative. She is a founder member of the Southampton University Society and honorary secretary of the St. Mary's. Bishopstoke. tower. where her husband is captain. They first met as participants in a peal of London Surprise Royal at St. Michael's, Southampton, conducted by C. H. Kippin, in December, 1958.

The bells were rung at Chilvers Coton church before and after the service and a quarter peal was rung in the evening.

## THE KIRBY-LE-SOKEN RECORD

Dear Sir.-Regarding the record length of Plain Bob Major at Kirby-le-Soken and the Loughborough comment (page 371). at the outset let me state that I am not what one would term a brilliant ringer, my only claim to fame is that I am a regular Sunday service ringer and try to bear in mind always that I am ringing to The Glory of God.

The fact that others ring peals of various lengths and in innumerable methods does not worry me in the least, although, at the same time I am interested. I felt, however. that I could not let the comment, referred to above. go by without a few observations. one of which is, Sir. that such correspondence deserves to be treated with contempt or taken for what it is worth, which, it would appear, is not much.
In my travels during service with the army 1 had the good fortune to meet Mr. Lufkin, whom I found most unassuming and very definitely not given to "preaching. I also
found that he was all for encouraging and found that he was all for encouraging and
helping his less gifted brethren and would go miles to help a struggling band or ringer to obtain a little more proficiency. He would stand in with the humblest or ring with the mighty, it made no difference to him, although I think he was more for encouraging the underdog.

Now. who is Stephen Ivin? When we have established that. let us ask ourselves. does not his letter give the impression that he is trying to belittle a marvellous feat. or is it because he was not one of the band? I imagine that if the boot had been on the other foot the tone would have been different. or perhaps he seeks sympathy after his abortive attempts to attain the summit. At least Mr. Lufkin and his band did just what was advertised, no more. no less.
In it report published in . The Ringing World: dated February 21st. 1958 (page 125), we read of an attempt where cigarettes were smoked and beer consumed. and. as one reads further. it appears that more thin one person tried to take charge. Another took it upon himself to rebuke hinn. we read, and "During the sharp exchange of words that followed, the Everest party fell. I would imagine that such goings on will not produce many record lengths.

However. in the report published in "The Ringing World ' (dated December 4th. 1959, page 725). we read of a slight improvement. although it seems that the conductor had not learned the composition properly. It would also appear that he lost his grip of the proceedings again around the 28.000 odd mark. as we read of one of the ringers being given incorrect instructions as to what he should have been doing. This. the report says. . Led to some confusion. It would appear that the confusion was bad enough to end the attempt. One might also be tempted to ask. "Was it a combination of confusion and monotony."
If monotony is one of the bagies of long If monotony is one of the bagies of long
lengths. let us read what Mr. George Gilbert says in his letter ( R.W. May 13th. 1960. page 331). Lack of discipline is the cause of most bad striking and no real ringer finds any method monotonous as he is all the time listening to the beat. These are truly the words of a master. Thank you Mr. Gilbert.
In conclusion I would suggest to Mr . Ivin that he gets himself a band together. thoroughly learn Bob Major and a composition of it. and also how to control a band. then get permission to ring on a peal of church bells and try to emulate the Essex band and their performance. NOT tell a man twice his age and with more experience. who was ringing Bristol before. I will venture to say. he knew handstroke from backstroke. 10 learn the method. If he can do that we night have something to congratulate hing upon. Kem sunday service Rincer.

## Kent.

(Name and address supplied).
Dear Sir-I think Steven Ivin's remarks concerning the 22.400 Boh Major at Kirby-leSoken would have sounded hetter had they come from a different pen. as judging by the letters in the R.W': June Sth: a number of ringers now consider Mr. Ivin as quite a horrible person! I'm not prepared to say
whether he's horrible or not because l've never met him but his remarks about the long peal of Boh Major are not so silly after all.
Now a peal 22.400 changes wants a lot of ringing. even though it's only Bob Major. and Mr . Lufkin's hand deserve full credit for their performance: however. the peal is nothing to shout about when compared with $21.600^{\circ}$ Bristol Surprise Major, as any ringer capable of ringing Bristol will agree-in Bob Major all the ringers can sit back and have a jolly good sleep except the conductor, who has to keep wide awake. but you can't go to sleep in Bristol Surprise, no sir!
Should there be any doubt about this among the non-Bristol ringers just compare the iwo diagrams and I'm sure you'll see what I mean.
Anyway, until some band or other rings a longer peal in a method equal to Bristol. I. for one. will continue to regard the 21.600 as by fir the finest performance yet.

Another point worthy of note is the fact that the Loughborough band did. in fact. ring over 28.000 changes before they broke down. roughly 6.000 changes more than the recent record length. Even though it can't be classed as a peal. it must surely be classed as the better performance. I feet as Mr. Ivin does that any band wishing to walk off with the record for Bob Major must endeavour to pass the 28.000 mark.
Perhaps there will now be a race hetween Frank Lufkin and Steven Ivin to see who can ring the extent of Plain Bob first and while we re all awaiting the result. maybe a highclass hand from out of the blue will shake us to our very foundations with 40,320 Spliced Surprise Major in about 100 methods (and Spliced at the half leads just to prove there's no trickery!). -Yours sincerely.
Bechersden. Kent. WILFRED W. RING.
P.S.-Mr. Ivin will please note that Mr. Lufkin won't have to learn Bristol-he can already ring it, and I do mean ring it. W .W. R.

The Ringing World' was founded in the year 1911 by John Sparkes Goldsmith, who remained its proprietor and editor until his death in 1942.

## THE T.V. GUILD

WHILE the Boundaries Commission are battered this way and that by the rival claims of the Duchy of Cornwall and the County of Devon, and people with tidy minds but scanty local knowledge want to make the Tamar the county boundary throughout its length, the ringers of N.W. Devon and N.E. Cornwall decided back in 1889 that the Tamar and the county boundary didn't mean much up here anyway, and founded the Guild you never heard ofthe Tamar Valley Guild of Ringers. Yes, of course that's what T.V. stands for: what else?
Oddly enough, the Tamar Valley Guild was in its inception probably the most far-sighted of all the ringers' societies in Devon. The Guild of Devonshire Ringers at its foundation never admitted the possibility that belfry reform and change-ringing could be separated: hence the missionary zeal with which, in the early days, the pioneers went out into the heathen call-change bush to spread the gospel of Service and Scientific. The call-changers, they thought, sunk in the mire of prize-ringing, could only be pulled out by the Blue Line. It was not long before the call-changers, stung into unity by the invasion, founded the Devon Association for the Promotion of Round Ringing, which is the ancestor of the present D.A.-wedded as it is to competitions (but not for money prizes) and to call-change ringing.

It remained for the remotest corner of the county to produce a ringers' guild which was not constitutionally tied either to method-ringing or to competitions. On November 16th, 1889, the Tamar Valley Guild of Ringers held its first meeting in St. Bridget's Church, Bridgerule, on a fine, dry day, under the leadership of the Rev. Frank Hawker Kingdon, who had been instituted to this, his first living, the previous year. The preacher was the Vicar's brother, Fr. Reggie Kingdon, of St. Peter's, London Docks.

Since that day, the T.V.G.R. has stood for good ringing and good churchmanship; at the festival people ring what they like, though it's almost always call-changes, and something over 100 ringers from 16 towers fill one of the churches for the service to sing a number of remarkable hymns, several of them composed by one or another of the Kingdon brothers. Although there are apparently no rules in existence. and although there is one business meeting and one festival only each year, the fact remains that in the area covered by the Tamar Valley Guild there is
probably a higher proportion of church attendance among ringers than in any comparable area in England; there are very few unmanned towers, and almost every tower affiliated has its bells rung at least once a Sunday. A great deal of the credit for this record must surely be given to the same Fr. Frank Kingdon, who died-still Vicar of Bridgerule and a legend in the diocese-just 69 years and six days after the Guild's first festival. Nor is his record a solitary one: until this year the secretary for 27 years has been Mr. William Slee, of Pyworthy; and Mr. Slee has been a member for 67 years and is now a life member.

The Guild this year has 161 members-perhaps more. They are all genuine ringing members, and there are none unattached, and about 130 of them came to the Festival on May 14th - at Bridgerule, where the first was held and where the green mound above the mortal body of Frank Kingdon. priest, lies to remind us of the immortality of faithfulness and service and the love of God. After the service. a very brief meeting in the churchyard, and then the usual Tamar Valley tea in the Village Hall-splits and cream and saffron cake as much as a man can put awayand then it's the Guild's custom that every tower affiliated is open, and the bands criss-cross the district from Poughill to Bradford, Hartland to Ashwater, for the rest of the evening. Our Guild may not be very big. and it may have some odd aspects; but that's how we do it, and it seems to work. Indeed we feel that the Guild might well take for itself the bell motto-

Quamvis sum parva, tamen audior ampla per arva or its English paraphrase-

> By all I'll have it understood
> That though I'm little, yet I'm good.
J. G. M. S.

WHE tower of St. Anta and All Saints, Carhis Bay, Cornwall, was completed last year. Previously it ended just above the termination of the buttresses, and there was a slate covered pyramid roof. An unusual feature is that there are no louvre openings. The sound of the bells escapes through a roof lantern which is completely concealed by the battlements, and in the roof of this there is a Perspex glass dome which floods the bellchamber with light. The bells are particularly quiet near the church, but as one moves from the church they sound clear and distinct. This is the only ring of ten in Cornwall, outside Truro Cathedral-it is the youngest parish church. The tower is at the south east cornar of the church.

## BEDFORDSHIRE ASSOCIATION

The Biggleswade District's monthly meeting at Eaton Socon on June 11th was well supported by visitors from Huntingdonshire. In all, 25 towers were represented and about 40 ringers managed to squeeze into the room where tea had heen prepared by a local ringer and his wife.

The Vicar (Rev. D. Jackson) conducted the service and welcomed the visitors to the church. He also presided at the business meeting, when five ringers from the Huntingdon District were made non-resident life members. Attention was drawn to the summer festival at Kempston on July 23 rd and the next meeting on August 15th.

Members of the Ely Diocesan Association said how much they enjoyed ringing with their Bedfordshire friends. and Mr. A. Smith. the searetary, said that he had received a suggestion that a joint meeting should be held with the Huntingdon District later in the yenr.

Thanks to the Vicar and to those who had prepared the tea were expressed by Mr. B. Sims. who supervised the ringing during the afternoon. Ringing ranged from Plain Bob 10 Superlative, which was one of the special methods.

## OXFORD DIOCESAN GUHLD

## Presentation To Mr. R. G. Howson

Civic recognition of ringers was forthcoming at the annual meeting of the North Bucks Branch at Buckingham on June 4 th by the presence of the Mayor (Celr. A. G. F. Marrcolt), and at the request of the company he made the presentation of a wallet and cheque to Mr. Reg. H. Howson, of Newport Pagnell. in appreciation of his valued services to the Branch as hon secretary and treasurer for over 20 years.

Tributes paid to Mr. Howson included one from his successor, Mr. Frank Vickers. who said he had done a wonderful job of work for bell-ringing in North Bucks and for the Guild in general. In his reply Mr. Howson said although he had relinquished the position of sec retary he was sure that it was a rrue saying, Once a ringer, always a ringer. He would continue his interest in the Branch.

The Mayor, in an appreciation of ringers. said they were a happy people, whose efforts at their respective churches brought pleasure and happiness to many people. At Buckingham they were indeed most fortunate in having a splendid and conscientious hand, amongst whom was the new Vicar, who was fast becoming keen in the art of change-ringing.

Mr. H. L. Roper, Guild librarian, said that it was most important to encourage youngsters and bring them along to meetings. so that they could be inoculated with the good fellowship of ringers. He was struck that there were so few youngsters in the North Bucks Branch which seemed a Branch of old men.

In his report, Mr. Vickers said the strength of the Branch was 134 ringing and four honorary members, slightly lower than the previous year. He regretted that Great Linford and North Crawley lowers seemed to be "fading away, and suggested missionary work at these places.

Elections.-The Rev. A. Camphell (Bletchley). Branch chairman; Mr. Vickers, secretary and treasurer: Messrs. H. C. Edwards and J. E. Whitlock, Branch representatives.

The service in the Parish Church was conducted by the Vicar (Rev. J. H. B. Elkerton). and a collection for the Guild Restoration Fund amounted to £2 9s. 9d. Tea was provided by members of the Mothers' Union. Ringing was at Buckingham and Maids Moreton.

## OUTING

## ST, AMRROSE GUILD, BRISTOL

An enjoyable day's outing was spent by St. Ambrose Guild on May 21 st in the villages of the Cotswolds. An early start was made at 8 oclock and a run through some of the beauty spots of Gloucestershire. brought us to Northleach for morning coffee, for the party who numbered 41 (not all ringers). Although not ringing in this village. the church was visited. and found to be of exceptional interest with a long history. We then made our way to Blockley. which is the northernmost tower in Gloucestershire. Good use was made of this ring of eight for three yuarters of an hour

At Chipping Norton. Oxfordshire. a ring on the eight at St. Mary:s preceded an excellent lunch at a local hotel.

Brailes. Warwickshire, was the highlight of the day for ringers. This glorious six was really enjoyed, the tenor, 33 cwl .. was turned in on a touch of Plain Boh Minor. A run into Worcestershire. brought the party to Badsey. where the eight bells were sampled hefore proceeding to Evesham. for tea. A band then went to Bretforton, and rang a quarter peal of Kent as a welcome to the new rector, who was in residence, but had not then been inducted. The others enjoyed themselves hoating at Evesham.

This concluded the ringing for the day and a drive through Gloucestershire brought us 10 Chipping Sodbury, where supper had been arranged and which was followed by a singsong. Leaving here about 10.30 p.m. we were soon home, having had a most enjoyahle day with no rain and some very good ringing
P.R.H.

Editor: T. W. Whits.

The peal at Buckfast Abbey on June 15 th was the first peal on the bells in which any of the monks have taken part, and it marks another step forward in change-ringing here. It was the first peal of Minor on the bells and was rung on the back six of the front octave.

We are sorry to learn of the ill health of Mr. P. H. Marshall, the secretary of Yatton ringers, and wish him a speedy recovery to health and ringing.
An attempt for a peal of Little Bob Maximus on June 6th at St. Chad's, Shrewsbury, came to grief after an hour's ringing. As there was not time for a second attempt a quarter of Plain Bob Royal was rung.
Mr. W. M. Rowe. chairman of the N.S.W Association, and captain of St. Jude's, Randwick, has again entered the active ringing lists after being out of action for about four years due to ill-health. He rang a quarter peal on June 12 th.
The University of Nottingham Society have elected the following officers for the session 1960-61: Hon, president, Mr. P. L. Taylor: chairman and Ringing Master, Bruce Grainger; hon. secretary, Martin Bishop; treasurer, Miss Barbara Marsh: committee, Miss Angela Bed well and Christopher Morris.

With the peal of Surprise Minor rung at Yattendon in memory of Miss Stella Davis, Mr. G. K. Dodd has completed 200 peals plus a peal of Bob Caters rung at Basingstoke not recognised by the Central Council. Included in his total are two peals of Minor on previously unringable bells, and peals starting at 1.30 and $4 \mathrm{a} . \mathrm{m} .$, and the first of Minimus on tower bells. Sincerest apologies are offered by Gloucestershire ringers to Thame ringers. Through their coach breaking down they were $1 \frac{1}{3}$ hours late and had to forgo ringing. Troubles did not end there. Standing outside Leighton Buzzard Church, congratulating themselves on being dead on time, the secretary suddently realised that he was at the wrong church and should have been at Lynslade. They made it and had their first ring of the day.

## GOSSIP

Through the ball of the clapper of the tenor parting company with the shank, a peal of Minor in ten methods was lost at Cuddesdon on June 19th. The attempt was arranged to commemorate the consecration that day of a former Principal of Cuddesdon Theological College. the Rev. E. G. Knapp, as Bishop of Pretoria; and its loss, having regard to the object, was a disappointment to the band, which consisted of D. C. Woodward 1, E. Venn 2, D. C. Bowen 3, E. J. Munday 4, M. S. Cloke 5, A. R. Pink (conductor) 6.

Miss Elizabeth Rogers, of Little Chart, Ashford. Kent, is flying to Canada next week. She will be away for three months.
Next Saturday eight veterans of the Kent County Association, each with a continuous membership of 50 years and over, will attempt a peal of Holt's Original at Linton, near Maidstone.

Miss Pamela M. Jervis informs us that the drawing on the Christmas issue of "The Radio Times was not an imaginary belfry but taken from a photograph taken at Capel, Surrey. A copy of the photograph now hangs in Capel belfry.

After $2 \frac{1}{2}$ hours' ringing in a peal of Yorkshire Surprise Major at Holy Trinity, Guildford, on June 18 th, the tenor man (Mr. Philip Meyhew) found the sun beating through the window too much for him, and a halt was called by the conductor' (Mr. Robin G. Leale). Another attempt is planned when the weather is more favourable. The ringing was favourably commented upon by listeners.
On Whit Monday, ringers from a quiet Gloucestershire town left for their annual outing. Some way out an elderly couple in the front seat began to look mystified, and one of them turned round, saying: "Funny we have never been this way to $\quad$ ' (a well-known resort).

Madam!!, spluttered the Ringing Master, ' This is a bellringers' outing to Bedford!' Poor dears, confused probably by the early hour of departure, they had boarded the wrong coach Nohody had noticed them!

# THE WHITECHAPEL BELL FOUNDRY 

## ESTABLISHED

## REDEDICATION

## COTTERSBROOK, NORTHANTS

In the year 1914, Messrs. John Taylor and Co. reported that the bell-frame at Cottersbrooke, Northamptonshire, had become unsafe and recommend that a new steel frame be installed. Not until 45 years later, was it possible for their recommendation to be adopted, when the six bells were rehung in a frame for eight, as part of the restoration to the whole of the fabric and ornaments of the church, at a total cost of $£ 12,000$. The hells are of particular interest, as they form one of the very few complete rings of six entirely from the 18th century, all being cast by Henry Bagley in 1702, probably at Ecton

The original 13th century church was largely restored by the Langham family in the early 18 th century, and transformed from its mediæval character into, what has been described as the prevailing desire for domestic comfort. This had remained almost unaltered until the present day. Now a further restoration has been carried out under the direction of Lord Mottistone and Mr. Paul Paget assisted by Mr. Anthony New, and a careful arrangements of the furnishings has recovered the full beauty of the early 18 th century parish church.

The Lord Bishop of Peterborough, who performed the rededication on May 28th preached upon the text from Isaiah li, 1 : Harken unto me, ye that follow after righteousness, ye that seek the Lord, look unto the rock whence you were hewn.' This, his Lordship said, had been done by the careful consideration given to preserving the work of former generations, but we were to remember our own contribution, as was seen by the position of the new oak reredos and altar, brought westwards towards the nave, reflecting the desire to bring priest and people together in worship.

The ringing, during the service and immediately after, was carried out by a band representing the Guildsborough Branch of the Diocesan Guild. As the Guild annual meeting was being held that day, there was not a large attendance of ringers, but sufficient were present to keep the bells going. Mr. Paul Taylor represented the bell founders, who are to be congratulated upon a fine restoration, the ring now having a tenor of $14-0-21$ in F. The ringers are particularly grateful to $\mathbf{M r}$ Frank Lane, of Naseby, who made the final preparations in the tower

After being out of action for so long, no band of ringers remains in the village, but knowing the spirit of friendship and co-operation that exists amongst the ringers in this districts, we know that help will be forthcoming from neighbouring towers
E. G. O.

## SURREY ASSOCIATION <br> Striking Contest

The fourth annual striking competition attracted four entries to Christ Church. Epsom, which included one new band which had not previously competed-the local band. Once again, the Association was fortunate enough to have Mr. C. H. Kippin as judge and Mrs. Parrott as his marker. Proceedings commenced with a service conducted by the Vicar (Rev Canon A. E. Robins) to the Association's new form of service. The draw then took place and each band in turn rang a test piece of 252 changes. Supervising in the ringing chamber was Mr. N. Bagworth.
After an excellent tea in the Church Hall. prepared by the local ladies, the judge was asked to announce the results and make his comments. These proved as comprehensive and helpful as usual. The team with the fewest faults proved to be Beddington. followed very closely by St. John's, Croydon. In third place was the local band, hut only by a very narrow margin. All the teams except Croydon, who rang Stedman, rang Grandsire Triples
On this occasion the competition was thrown open to any Sunday service band in the county, so Beddington are entitled to call themselves Striking Champions of Surrey. They are too modest to do so ; but if anyone cares to dispute the statement we shall look forward to them proving it at next year's competition. W. P.

## SERVANTS OF THE EXERCISE - No. 27

## MR. HAROLD N. PITSTOW, M.B.E. Hon. Auditor to Central Council

Mr. Harold Pitstow comes from a famous ringing family, the Pitstows of Saffron Walden, He is the son of Ernest Pitstow, and his uncles were Nathan J. and Frederick Pitstow. It was once said that whenever a Pitstow was born, it was with a bell rope in one hand and a musical instrument in the other! Harold certainly comes up to this standard: he is distinguished in both fields, ringing and music.

Born at Saftron Walden in 1897, he learned $t 0$ ring there, was educated at King Edward VI

Grammar School, and on leaving school joined the staff of the local office of a London brewing company. He served in the infantry in World War I, was wounded in 1917 at Passchendale and later was commissioned in the R.G.A. In 1920 he was transferred to the London head office, where he rose to the position of cashier and manager of the cash office. Mr. Pitstow is married, and they have two sons and one daughter, all of whom, of course, can ring.

As secretary and conductor of the Westminster Abbey band, he has been responsible for the ringing on many important State occasions, and conducted the Coronation peal in 1937, the Victory peal, the Queen's wedding peal, and peals for the birth of Prince Charles, and the Coronation in 1953. For his services at the Abbey he was honoured by the award of the M.B.E.

Although not a prolific peal ringer-his total to date being 134, conducted 41 -his performances have been notable, and he has taken part in peals at St. Paul's Cathedral, Southwark, Bow and Cripplegate. He was one of the College Youths' band when the Society rang its first peal of Spliced Surprise, and he took part in a peal of Cambridge Major on the back eight at Southwark with the late Bob Newtonprince of heavy-bell ringers-on the tenor.

In 1926 he moved to Banstead, Surrey, and at once formed a change-ringing band. Such is his determination and tenacity that today, Banstead can boast of a band that can ring Spliced Surprise for service. Mr. Pitstow is very active in the musical world.

He is an accomplished musician being able to play a variety of instruments, including the organ, piano, flute and piccolo. As a boy he played in the local band under his father's baton. In 1932 he was appointed musical director of the Banstead Operatic Society, a post he still holds, and he has conducted all their shows, which have included the Gilbert and Sullivan series and 'Merrie England.' His other hobby is cricket. There is no doubt that whatever Harold takes up he puts everything he has into it. He has now retired from active businessand who knows? he may presently settle down to some steady peal ringing! JAFUS.

## WORCESTERSHIRE DIAMOND WEDDING

Mr. and Mrs. A. J. Skelding, of Oloswinford, Worcs, celebrated their diamond wedding on June loth. Mr. Skelding joined the Worcestershire and Districts Association in 1896 and was secretary for the Northern Branch for 11 years. In recognition of his services he was made a life member and Freeman of the Association some ten years ago. He has been actively associated with chureh work at St. Thomas Stourbridge, and St. Mary's, Oldswinford, serving at both churches as a sidesman and also on the respective Parochial Church Councils.

## St. Martin-in-the-Fields

The ceiling at St. Martin-in-the-Fields, London, has collapsed and at present the church services are being held in the crypt.
Ringing has been suspended for the time being.

## SYNTHETIC BELLS OFFERED TO KIDDERMINSTER

To mark his 82nd birthday. Ald. Sir George Eddy has offered to give synthetic bells to St. John's Church. Kidderminster. similar to a set he presented to Franche Church, Kidderminster, in 1939. In his letter to the Vicar. Sir John wrote: "Since I was a small boy at Kidderminster Grammar School 70 years ago. I have had reminders from time to time that St. John's Church has only had a single bell.

The Parochial Church Council have accepted the offer, and have applied for a faculty to have a system of synthetic bells installed. They are awaiting authorisation.

## Hints For Beginners-27

As an aid to good ringing in peals start fairly slowly and let the speed develop naturally.

## HERTS COUNTY ASSOCIATION

## Eastern District

A meeting was held at Cheshunt, on June 11 th. when some 25 ringers took part in ringing ranging from Plain Bob and Grandsire to Stedman and Kent. One new member was elected at the business meeting, which followed tea. It was agreed to try to hold the next meeting at Benington on July 16 th.
W. F.

## ACCIDENT INSURANCE FOR BELLRINGERS

Many teams of bellringers are insured under the special policies issued by the Ecclesiastical Insurance Office, Ltd.. 11, Norfolk Street, Strand. W.C.2. Particulars will be supplied on application. Those with old policies are recommended to consider increasing the scale of benefits provided.

The Ecclesiastical Insurance Office, Lid. was founded in 1887 to conserve for the Church of England profits arising from Church Insurances. The Office undertakes all kinds of parochial insurance.

## CENTRAL COUNCIL-Continued from Page 436

 OLD BELLS AND RECASTING
## REPORT OF THE TOWERS AND

 BELFRIES COMMITTEEDuring the past year the work of the Towers and Belfries Committee has continued to increase. Requests for inspections and reports on bells, bell-gear and towers were received from 58 parishes. These 58 towers were situated in 16 different counties. The inspections and reports were dealt with by members of the committee as follows: Mr. J. W. Clarke, 11 -all in Cheshire; Mr. F. E. Collins, 3-one each in Kent. Surrey and Sussex; Mr. J. Freeman, 1 -in Lincolnshire; Mr. E. H. Lewis, 1-in Surrey; Mr. W. A. Osborn, 13all in Somerset; Rev. J. G. M. Scott. 2 -both in Devonshire: Mr. F. Sharpe, $27-10$ in Northamptonshire. 4 in Buckinghamshire, 3 in Oxfordshire. 2 each in Berkshire and Cardiganshire, and 1 each in Breconshire, Hampshire, Huntingdonshire, Pembrokeshire, Surrey and Yorkshire.
An analysis of the reports reveals that advice on the rehanging of bells was given in 33 instances. In 5 towers advice was given on recasting. Twenty-three towers sought advice on repairs to bell-gear; 5 on sound control and improvement; and 2 on the augmentation of existing rings of bells. In one tower also advice was given on the restoration of a set of handbells.
No outstanding or unusual problems were reported by members of the committee, but Mr. J. W. Clarke found considerable damage being caused to bells and gear by faulty clock hammers. He suggests a special effort be made to urge church authorities, ringers and steeple keepers to carry out regular periodic inspections and adjustments of these fittitngs.
Besides carrying out inspections and issuing reports, Mr. W. A. Osborn rendered valuable practical assistance to a village church by lowering to safety himself the fourth bell at Closworth. He found this bell hanging in a precarious state in the parish in which was once situated the famous Purdue bell foundry. Mr. Osborn has been assisted during the year
by Mr. R. H. Gardener. who succeeded him by Mr. R. H. Gardener. who succeeded him
as adviser to the Bath and Wells Association. The convener found an increasing number of towers in which considerable repairs were necessary because of complete neglect of routine maintenance work. To quote but one of many instances: in one tower no one had oiled the rope pulleys for 25 years and the oil wells of the brass bearings were rendered useless by being packed with stiff grease.

During the year Messrs. E. H. Lewis and F. Sharpe, as representative; of your committee. attended a joint meeting convened by the Dean of Gloucester. between representatives of the Central Council for the Care of Churches. the bell founders. and our Council's Towers and Belfries Committee. The object of this conference was to debate the Standing Orders of the Central Council for the Care of Churches in regard to bell restoration, and to make suggestions for their amendment and improvement. A copy of the revised draft of these Standing Orders is appended. They have been accepted in their revised form by the Central Council for the Care of Churches and we are asked if our Council would also accept them. and print them in any subsequent editions of our handbooks. They will be printed in the publications of the Central Council for the Care of Churches and issued to all Diocesan Advisory Committees and Diocesan Chancellors responsible for the granting of faculties for restoration work. and new installations.-Frederick Sharpe (convener). J. W. Clarke, F. E. Collins, J. Freeman, E. H. Lewis, W. A. Osborn, J. G. M. Scott.

## APPENDIX

(Version agreed at joint meeting of the Central Council for the Care of Churches, the bell frounders, and representatives of the Towers and Belfries Committee of the Central Council of Church Bell Ringers, November 12th, 1959 Circulatei to all present; with minor amendments proposed by the Central Council for the Care of Churches at their meeting on November 19th. 1959, and subsequently circulated to those who attended the joint meeting.)
(a) Bells cast earlier than 1600 should not be recast. As such bells are of archaeological importance. they should be preserved intact. Sound bells of good tone should be used if possible, either incorporated in a ring or hung as single bells; failing which they should be preserved intact in the church or churchyard. If. in very special circumstances, permission is sought to recast a cracked bell, the petitioners must put forward adequate proposals for the mounting and display of the crown and inscription band in the church.
(b) Bells dated between 1600 and the middle of the 18 th century should not be recast unless cracked. If it is desired. on special grounds, to recast a bell of this period. information should be sought from the Central Council for the Care of Churches as to the rarity and archaeological value of the bell. This application for advice should be accompanied by a statement of the opinion of the bell founder, as to the musical qualities of the bell. If such bell are allowed to be recast. their inscription should be recast in facsimile on the new bells with the date of recasting added
(c) If a bell cast later than 1750 is permitted to ba recast the old inscription should be reproduced in facsimile on the new bell with the date of recasting added
(d) When estimating for major work on bells. the firms tendering should give the date and founder of each bell in the ring, and any points of special interest. including inscriptions, and the approximate age of the frame
(e) No bells should be rehung. or frames altered. in ancient towers without consultation between the bell founder and an architect skilled in handling such buildings: the application for a faculty should contain a note of the result of such consultation.
(f) When bells earlier than 1600 are rehung, the canons should be retained. If it is desired to remove the canons in a particular case. the position of the bells in the ring the weight of the bells and the condition and decoration of the canons must be taken into account. and the proposal for their removal must be supported by this information.
(g) Mechanical or electrical imitations of bells are to be strongly condemned
(h) Ancient wooden bell frames should be carefully preserved wherever possible if sound and fit for continued use. The decision as to the soundness of the frame for continued service should be hased on the bell founder; advice. in conjunction with that of the architect in charge of the church:
A faculty is required for recasting or rehanging bells, for the addition of new bells to an existing ring. for the sale of bells and for major repairs to a bell frame. Minor works of repair to frames and quarter turning of bells may generally be covered by an Archdeacon's certificate. The Diocesan Advisory Committee must be informed of the proposals and can refer cases of difficulty to the Technical Panel of the Central Council for the Care of Churches
The Central Council of Church Bell Ringers, which has members in every diocese, is also prepared to give expert advice on all these matters through their Towers and Belfries Com-
mittee. Application for advice from the Towers and Belfries Committee should be nade to Mr. Fredcrick Sharpe, F.S.A. Derwen.' Launton. Bicester, Oxon.
Moving the adoption of the report. Mr. E. H Lewis said in the last paragraph of the report they would see that two members of the committee (the president and himseln, together with the two bell founders, met the Committee of the Central Council for the Care of Churches 10 see if they could agree on a statement which would modify the statement the Central Council for the Care of Churches had circulated on the retention of old bells. They had a long meeting, and the suggestions of the Central Council for the Care of Churches which they were willing to permit were printed in the appendix to the report. They want the Council to agree to it and have it printed in their handbook. His committee and the Standing Committee did not feel happy about Section (a). They discussed it at some length and pul forward the following slight alteration to see if it was acceptable to the C.C.C.C.

Bells cast earlier than 1600 of archæo logical importance and if sound and of good tone should be preserved intact either incorporated in a ring or hung as single bells. Permission to recast cracked bells or hells of poor tone should be sought only if adequate for mounting and display of the crown and inscription band in the church.
Mr. John Freeman seconded.
The Standing Committee recommended the adoption of the appendix with the substitution of the paragraph Mr. Lewis had read out
The president said it so happened that the Central Council for the Care of Churches was the body which advised diocesan advisory bodies in the country. The Chancellor usually gets the opinion of his own advisory committee.
Mr. R. F. B. Speed: Why do we desire to alter their paragraph?
Mr. E. H. Lewis: We thought the paragraph shown here is not very clear, and also the Four C's' want all bells cast before 1600 preserved intact. We tried to get some concession on that point.
Mr. W. A. Osborn: If you put an old bell in a churchyard as they suggest, it is a short way to lose it.

The President: We did argue with the Dean of Gloucester and we pointed out that it was not always the best place to place an old. cracked bell in the church. In many churches there was not a place where is could be put, and the answer of 'the Four C's' was if there was not room in the church it should go in the churchyard.
Mr. F. B. Lufkin expressed thanks to the committee for their work. A museum was the best place for these old bells, he added
Mr. F. E. Collins thought these old bells should be either in the tower or the melting pot
Mr. Paul Taylor pointed out that if a bell was in a tower it had to be heard in relation o other bells
Mr. A. A. Hughes: If you have a ring of five or six bells in a tower and one is a very bad bell, even if it is 16010 , are you going to let all the other hells suffer by the presence of a very bid bell? I have a feeling that they will accept Mr. Lewis' amendment.
Mr. C. W. Pipe said it seemed to him that the Central Council for the Care of Churches was only interested in bells from the archæological point of view. The parishes were interested in them from the financial view. and to them it seemed a pity that a couple of thousand pounds of metal could not be used. He thought the time had come when the Central Council for the Care of Churches should buy these old bells or compensate the parishes for the value of the bells.

## CENTRAL COUNCIL-Cont.

The Rev. A. G. G. Thurlow pointed out that the last word on these old bells was with the Chancellor.

The Rev. John Scott suggested that all information about old bells should be stored. Sometimes it had not been preserved

The President: Messrs. Taylor and Messrs? Mears and Stainbank keep information of all bells they recast. What you have not got is Gillett and Johnston's and other bell founders. The Council agreed to adopt the report with the amendment of Mr. Lewis
The Standing Committee recommended the re-election of the committee with the addition of Mr. Brian Austin and Mr. Brian Threlfall. This was agreed to.

The President said they felt it would be an advantage to have an architect. as since the death of Mr. Young they had not had an architect on the committee. Mr. Austin was an architect and Mr. Threlfall an A.M.I.C.E.

## MINOR METHODS BOOK

METHODS COMMITTEE REPORT
The section of the Minor Methods book which has been holding up its completion is now finished, and so the final draft is, at long last. almost ready.

Our attention was drawn to the naming of certain Surprise Royal methods. As noted in - The Ringing World of February 19th. 1960. we found that the so-called Lyme. Whitwick and Gainsborough Surprise Royals were not extensions of the corresponding Majoi methods which conformed to the accepted Central Council rules for extension.

We ask the Council to confirm our decision that these Royal methods be renamed by the bands than rang them.-K. W. H. Felstead. F. Nolan Golden, C. H. Kippin. C. K. Lewis.

Moving the adoption of the report Mr. Felstead said that they hoped in two or three weeks that the manuscript of the Minor Book would be in the hands of the librarian. The hold-up had been in the spliced section. The second point about extension had already been answered.

Mr. C. K. Lewis seconded the adoption.
Mr. Brian Warwick said whilst he was not happy about renaming Lyme and Whitwick, as the Leicester Guild was a member of the Central Council they would be renamed. Why did these two methods not conform to rules?
The Rev. K. W. H. Felstead: That is a difficult question to answer without notice. Those who know the Methods Committee report on extension will agree with us. The fact that the methods have been renamed solves the whole matter.
Mr. C. K. Lewis: If Mr. Warwick cares to write to me I will give him the answer.

Mr. John Mayne said the study of method extension was a complicated affair. It was up o the ringing fraternity either to understand the report or subntit the extension to someone who did.
Mr. Mayne also advocated the selection of suilable names for new methods. There were a lot of unsuitable names now being used.
Mr. E. H. Lewis: What is the opinion of the Methods Committee on Major methods which have double ohanges and Royal methods with triple changes?

The Rev. K. W. H. Felstead said there were two things he might say, and he thought a personal opinion came in rather than a mathematical reason. In the new Minor Book they were not including Minor methods where four bells were lying in a pair of rows. They would also not do it in the Major book.

Mr. C. K. Lewis said at Easthourne he said he did nol like it and he was rather shouted down. He still held that view. "We don't want to make ourselves a straight-jacket of rules. The Exercise depends on the good taste of the
people who ring. The people who ring these four methods will gradually realise what rubbish they were.

The president asked what the position was in regard to Gainsborough Bob Royal.
The hon. secretary said when the committee considered this question and the Leicester Guild were prepared to rename Lyme and Whitwick it was decided to approach the band to rename the method. He suggested that it should be left to him to take such action.
The report was then adopted. The president in thanking the committee said it ras stated last night that there were years of work ahead of them.
The Standing Committee recommended that the Rev. K. W. H. Felstead and Mr. C. K. Lewis be re-elected to the committee, and Mr . F . T. Blagrove in the place of Mr. C. H. Kippin who was not now a memher of the Council. This was agreed 10 , together with the addition of Mr. John Mayne. who was proposed by Mr P. A. Corby.

## CONVENORS OF COMMITTEES

The committee elected the following convenors: 'Ringing World: J. F. Smallwood; Literature and Press, $\dot{C}$. $\mathbf{E}$. Shepherd: Biographies, A. C. Hazelden: Peal Boards. J. W. Clarke: Broadcasting and Television, H. J. Sanger: Records, Mrs. G. W. Fletcher: Peals Analysis, W. Ayre: Peal Collection, W. E. Critchley: Sunday Service Survey, N. Chad dock: Towers and Belfries, F. Sharpe; Methods, Rev. K. W. H. Felstead.

The following were elected to the Standing Committee: Mrs. Staniforth. Miss M. R. Cross, Messrs. R. S. Anderson. W. B. Cartwright. P. A. Corby, F. E. Dukes, P. J. Staniforth, C. K Lewis, J. Freeman, F. I. Hairs, T. J. Lock and J. T. Dyke.

## ALTERATION OF RULES

Mr. R. S. Anderson moved the following amendment of rules
To add the following new Rule 2 and renumber the existing Rules 2 to 18 at 3 to 19 respectively.
. The Council shall:-
(i) Use its best endeavours to guard the rights and generally promote the welfare of the Exercise both in its scientific aspect and as a branch of church work.
(ii) Encourage and assist the development of the Art in its scientific. mathematical and historical branches.
(iii) Arbitrate so far as may be deemed advisable in such matters of dispute or perplexity as shall be submitted to its judgmen.
Mr. Anderson said the Council should add to its rules a statement of aims and objects. These were the foundation of the Council, and whilst each affiliated Association was required to subscribe to the rules they were not asked to subscribe to what, in the opinion of his Associalion, was its aims and objects.
Mr. E. A. Barnett formally seconded.
Mr. Vernon Bottomley moved an amendment of the deletion of the words guard the rights. The Rev. John Scott seconded, and remarked that they should be a body for encouraging things. The amendment would read. To use its hest endeavours generally to promote the welfare of the Exercise.
Mr. C. K. Lewis said he did not like to lamper with a thing that had stood the test of 70 years. These were the aims they had in 1890, and even if simes had changed they should stand. They had certain rights as Church officers, and for historical reasons he would deplore any change. Let them keep something
of Sir Arthur Heywood's original intention. He was very much against altering rules without considerable thought, and here they were interfering with one of the foundations of the Exercise.

The amendment was defeated and the motion was carried

## A QUESTION OF QUORUM

Mr . Anderson then moved a second alteration as follows: To amend Rule 14 (Procedure at Meetings) by inserting the words representing Territorial Society between the words "Twenty members' and 'shall.'

The rule to read:-
At the meetings of the Council the president or vice-president shall take the chair, and in the event of their absence the members present shall elect a chairman for that meeting. The chairman shall have a casting vote. Twenty members representing Territorial Societies shall form a quorum
Mr. Anderson said a quorum could consist of honorary and life members, as they had 24 honorary and seven life members. Until that morning they had eight non-territorial Associations, and now they had admitted another, These non-territorial Associations consist of members who were members of territorial Associations.

The hon. secretary formally seconded.
Mr. Brian Threlfall said the proposal was to reate first class and second class members.
Mr. G. W. Fletcher said for 70 years they had worked well with representative members and honorary members, and recently they had had life members, but they were all members of the Council. He was against the alteration.
Mr. D. Beresford asked what would happen about territorial representation segarding London County and the Middlesex or the Sheffield and District and the Yorkshire.

Dr. Layton said he did not think ringing was something associated exclusively with territorial Associations.
The alteration to rules was not accepted.

## PEALS FOR ASSOCIATIONS

Mr. D. A. Bayles moved the following motion.

This Council reaffirms the principle that a peal may not be credited to more than. one affiliated Society. It accordingly instructs the Editor of "The Ringing World" and affiliated Societies to keep their records in ine with the Council's Peals Analysis, adopting the procedure laid. down in the Council's Handhook of 1956 .
Mr. Bayles said the motion was not to solve the vexed question of when a peal was rung by a non-resident band. It was only that it should be credited to one Association. In cricket and football a player at the time could only represent one ream. This principle had been recognised by the Central Council for many years, and it was in the rules and decisions of 1893. It was desirable when a hand of ringers meet to ring a peal that they should decide to which Society it should be credited and that in future no peal should he under more than one Association. That principle was also set out in the Handbook of 1956.

In 1947 there were iwo peals, both in the reports of the Durham and Newcastle and the Yorkshire, alihough they were published in "The Ringing World ' as only for the Durham and Newcasile. 'The Ringing World' was under the direction of the Central Council and instructions could be given to the Editor: instructions could not he given to the late Mr. J. S. Goldsmith.

Mr. W. Ayre formally seconded.
The Standing Committee considered the motion and decided to make no recommendation. (Continued next page)

## CENTRAL COUNCIL-Cont.

Mr. W. Ayre said their practice had been where two Associations were named to take the first name.

Mr. W. L. Critchley considered Mr. Bayles was making rather "a storm in a teacup." It did not matter in the slightest degree what appeared in the two reports so long as the Peals Analysis Committee counted the peal as one. He also strongly objected to the suggestion that the Council instructed the Associations what they included in their reports.
Mr. F. B. Lufkin objected to an instruction to the Editor. He thought "The Ringing World should be run by the committee.

Mr. G. W. Fletcher suggested the word invites ' instead of 'instructs.'
Mr. P. A. Corby said since this did not involve any administrative difficulty either to "The Ringing World or the Peals Analysis Committee he could see no particular purpose in the motion. He moved that the matter be left on the table.
Mr. John Freeman seconded, and this was agreed to by the Council.

THE NEXT MEETING
The hon. secretary reported that the Council had received an invitation to visit Stoke-onTrent next year, and also one for Great Yarmouth. The Standing Committee Linanimously decided to recommend Stoke-on-Trent.

Mr. R. S. Anderson, on behalf of the North Staffordshire Association, extended to the Council a warm welcome to visit Stoke-on-Trent in its jubilee year. Whilst they could not give them sea bathing or a seat on the beach, they could offer them some very charming country.

The Rev. A. G. G. Thurlow said the invitation to Yarmouth came not from Yarmouth hut from the Norwich Diocesan Association.

Mr. E. H. Lewis seconded the resolution in favour of Stoke-on-Trent, which was accepted by the Council.

## RECORD LENGTH ATTEMPTS

The hon. secretary drew attention that in record length attempts notice should be given 10 the Association holding the record length. That had not been done in two recent successes. The president expressed the hope that this should be borne in mind.

## ADDRESS OF LIBRARIAN

The Rev. John Scolt asked that the name and address of the Librarian should appear in - The Ringing World.

The Librarian asked members and others who had books out on loan to notify him.

A vote of thanks to the president for presiding was proposed by Mr. H. Rogers.

## VOTES OF THANKS

The president moved a vole of thanks to the Mayor of Folkestone for his welcome: to the Bishop of Tonbridge for his welcome and being the celebrant at the Corporate Communion: to Canon Hough for the use of his church: to Messrs. A. Berry, J. R. Cooper, C. T. Hillis and Phillimore for the fine local arrangements and for peal attempts; to incumbents and tower keepers for churches visited.

The resolution was carried with acclamation.
Mr. John Willis thanked the Council for the vote of thanks.

## THE RECEPTION

A civic reception was held in the sun lounge of Leas Cliffe Hall, when the members of the Council and their ladies were received by the Mayor of Folkestone (Ald. F. W. Archer) and hospitably entertained by the Corporation.

The Mayor in his welcome expressed his pleasure that the Council meeting had gone extremely well. He understood that one of the things ringers were famous for was their ' underground grape-vine. He hoped by that means they would tell their friends what a wonderful place Folkestone was. [Applause.]
'A real hearty thank you' was expressed to the Mayor and the Corporation by the president.
The usual social evening concluded the day at the headquarters, the Princes Hotel.

His many friends will be sorry to know that Mr. Fred Burnett, tower captain of Portsmouth Cathedral has had to enter hospital for an operation. We all hope he will be ringing again shortly, letters will be forwarded from c/o 20, Haslar Road, Gosport.

## A TRAGIC BALLAD

Dedicated
with deepest respect
Two Societies,
the one Ancient and the other Royal.
Tune: 'Vilikins and his Dinah.'
It is of an old gent that I'll have you to know Who rang at St. Paul's and at Cornhill also.
He lived all alone with young William his son Who was promising well, though not yet forty-

Singing toorali-oorali-oorali-ay. [one,
One evening the father admonished young Will,

- You must come down to practice tonight at Cornhill,
For afore you reach seventy, if no ill befalls,
1 believe I could get you a ring at St. Paul's.'
Singing, \&e.
- O Father, dear Father,' young William replied,
- I can't tell you lies, though you know how I've tried.
I've promised tonight-and I mean to be there-
For to ring at St. Martin's in Trafflegar Square.' Singing, \&c.
- My son, do not darken the door of that sower,

You never shall ring with that horrible shower,
You'll change your mind quickly and avoid the disgrace
When I tell you it's Cumberlands ring in that place.:

## Singing, \&c.

Says William, 'A young lady ringer I've met.
And on her my affections most firmly are set
Your rooted objections to me are no barrier,
For I love her, dear father, and I'm going to marry er.

Singing, \&c.
'Now William,' says Father, 'just listen to me,
If you must persist, then cut off you will be.
And when I pass out, and am laid in the dust. I shall leave all my cash to the Barron Bell Trust.:

## Singing, \&c.

'I've rung all my life, and I still must insist
That what you're describing can't never exist :
I've heard people tell that there's women what ring.
But a lady-why no. boy, there ain't no such thing.

Singing, \&ec.
Next month they was married, this couple so bold,
And the poor father's grief was a sight 10
[behold:
His brain is quite gone, the psychiatrist thinks,
For he even goes wrong in three courses of Cinques.

Singing. \&c.
Now Bill and his bride. I am glad to relate,
They could not escape from the vengeance of Fate:
By poverty pressed, their possessions they sell.
And to fly from their creditors in Devon they dwell.

Singing, \&c.
And there they are forced to go up in the tower, And ring rounds and call-changes hour by
|hour;
But even that fate ain't as bad as it sounds,
For they might live in Cornwall, and only ring rounds.

Singing. \&c.
(First perpetrated before members of the Central Council. Folkestone. 1960. The person responsible forgot the seventh verse, and has here added it: but it is stoutly maintained that the verse was omitted through lapse of memory and not through fear of reprisals. Anyway, the author is not responsible for the views of William's father, now is he?)

The 50 methods Spliced rung in hand referred to in Belfry Gossip (page 432) were in Plain and Little methods and not Surprise as was inadvertently stated.

## LETTERS

## DEVON GUILD AND PEAL LEVY

Dear Sir.-In your report to the Central Council's debate on 'The Ringing World. Committee's report, you quote me as saying that the Devon Guild were very disappointed that a peal levy was not introduced. Either I failed to make myself clear or you misheard me.
What the Guild of Devonshire Ringers are disappointed about is this: Last year, at Southport, the subject of a peal levy was raised and received enough support to make many members feel it was worth continuing with. The Guild of Devonshire Ringers instituted such a levy of their own and hoped that the Central Council would adopt the idea for the Exercise as a whole. But 'The Ringing World' Committee and the Standing Committee, by raising the price of the paper. decided the matter in favour of a section of the Council of unknown numerical strength, although it was known that the matter was likely to be raised at Folkestone and a motion put before the Council.
Now that the paper is out of the financial wood for the time being, it is obvious that the matter will have to rest for the moment: but next time we hope that the Standing Committee will try to find out the Council's views by a vote before taking a step of this kind.- Yours,

Clawton Vicarage,
Holdsworthy.

## TWO CORRECTIONS

Dear Sir.-Your necessarily abbreviated account of the early part of the Council meeting in the issue of June 17th gives a slightly wrong impression in one or two places, and I should be glad if you would allow me to correct these.
On page 419 , it was not the intention that the secretary of the Devon Guild should write to the Devon Association but that I should, and this has in fact been done. The Association has not asked to be considered for membership of the Council but merely inquired whether, if they should apply, they would be considered.

On the same page, only part of the cash in hand remaining after the postal subscriptions in advance represents the Clement Glenn Fundabout $£ 8(0)$. The other $£ 500$ is from various different sources.
In the Standing Committee report it was stated that at the meeting on November 7th the committee also decided to increase the price of the paper, not only the advertisement rate.
While writing, may I ask the ringer who inquired of me about the Barron Bell Trust if he would write to me, as unfortunately ! can't recall who he was-Yours faithfully,
E. A. BARNETT, Hon. Secretary.

Crayford. Kent.

## MR. A. H. COCKS

Dear Sir, -With reference to the minutes of the Central Council's meeting at Folkestone as published in last Friday's issue of "The Ringing World: it appears that a case of mistaken identity has occurred.
The Mr. A. H. Cocks who wrote "The Church Bells of Buckinghamshire died in -Yours faithfully, D. G. WHEELER
Ayleshury. Bucks.
FIRST PEAL OF MINOR AT BRILL
Dear Sir.-I have read Mr. R. E. Price's letter in your issue of June $17 \mathrm{th}, 1960$, and I regret that I should have claimed (falsely) that my peal at Brill on May 14th was the first of Minor on the bells. I hope that he and the rest of the band who rang a 7 -method peal of Minor there on July 9th. 1949. will accept my apologies. I did make careful inquiries before putting forward my claim. and I was informed that the recent peal of Doubles in the same tower was the first peal there.
For those who keep records, may I now amend the footnote to the May $14 t \mathrm{~h}, 1960$, peal to read. First peal of Minor in more than seven methods on the bells.'-Yours faithfully, Oxford.

ALAN R. PINK.
We are pleased to learn that Mr. F. Nolan Golden is making satisfactory progress after his oneration and hopes to leave hospital very soon.

## REDEDICATION

## HANNEY, OXON

Saturday, June 18th, was a most important day in the life of the twin villages of East and West Hanney. lying in the Vale of the White Horse, just to the west of the WantageOxford main road. On this day the tower and rehung bells were rededicated by the Right Rev. E. H. Knell, Bishop of Reading.
The Church of St. James the Great, at West Hanney is probably by reason of ins situation in a village $1 \frac{1}{2}$ miles from a main road. not as well known as it deserves to be. It is a fine cruciform structure of stone. mainly of early English (13th century) character, although the chancel is late perpendicular (early 16 th century). The north (ransept is entered from the nave through a transitional Norman (circa 1170) arch (now blocked), and this transept forms the base of the tower and provides a roomy cool and lofty ririging chamber. One wonders how many churches can boast a ringing chamber with a 14th century piscina, indicating its former use as a chapel.
The perpendicular upper portion of the embatuled tower became unsafe (possibly accentuated by the battering it received fron a moving bell frame! earlier in the present century and had to oe taken down, and a temporary corrugated iron roof was placed over the bells. which also became unringable. This roof in turn hecame dilapidated and the villages made a determined effort to renovate the tower and rehang the bells
The work has cost several thousands of pounds and a large, debt still remains to be discharged but the bells are ringing again after a silence it is said of 27 years. The upper structure of the tower. though still temporary. has a slate roof. and this work was in the hands of the Diocesan architect. Mr. G. W Judd. A.R.I.B.A. Messrs. John Taylor and Co. were responsible for the new frame and the rehanging of the bells which go perfectly. A piece of the old bell frame, worm-eaten and bearing the date 1605 together with other inscriptions can be seen in the north porch.
A large congregation turned up to welcome the Bishop. The service was simple in character and when the time arrived for the dedication ceremony, the clergy in procession were followed out in the sunny churchyard there to hear the dedication prayers read by the Bishop. As the clergy and congregation returned to the church the bells were rung in rounds by a band which included two local ringers and also Miss M. R. Cross, general secretary of the Oxford Diocesan Guild. At the conclusion of the service, and while the Bishop and clergy and congregation walked across to the Manor House there to enjoy light refreshments served on the lawn (a special tea of larger proportions was available for ringers in the spacious Manor House kitchen). a picked band rang three courses of Bob Minor to show off the fine sonorous qualities of these bells with their 17 cwt . tenor.
Ringers were present from Oxford. Radley. Wantage. Blewbury, East Ilsley. Reading. Hinton. Waldrist. etc.. and good use was made of the bells. A new local band will have to be taught. but there is plenty of interest. The bells are rather too noisy at present. but the architect (himself a ringer) is aware of the necessity for providing sound deadening material.
Another tower has been rescued from decay: long may the hells continue to send out their message Sunday by Sunday
$\qquad$

## LYMINGE NOT LYMPE

Dear Sir.-Unless Lympe have had two more hells added to their six, I think the touch of Grandsire Triples (Belfry Gossip. June 171h) look place at Lyminge. The ringers were Mr and Mrs. Staniforth, Mr. and Mrs. Corby and Andrew Corby, my grandmother. Mrs. F. I. Hairs, my mother and myself.-Yours faithfully,

## Crayford, Kent.

JEAN F, BARNETT.

The name of Mr. F. J. Cullum (Society of Royal Cumberland Youths) should be added to the list of new members presented to the president at the Central Council meeting.

## MISS EDITH LOMAS

Miss E. Lomas. of the Devonshire Guild, passed away on June 2nd after a long illness (some nine years). During this time she had many operations but stili kept ringing whenever well enough until approximately two years ago when she had to give up because of her health.
She began ringing in 1924 at Whimple. where she was a ringer for 20 years, many of them as leader (at one time it was an all ladies band there). She was also secretary of the Exeter Branch of the Devonshire Guild for a time.
In 1944 she joined the Clyst Honiton band of ringers and it was here that she rang her only two peals. both of Grandsire Triples. by the local sunday service band. Last year she was made an hon. life member of the Devonshire Guild. and in 1958 an honorary member of the Ladies' Guild. She was for over 30 years secretary at Hele School, Exeter.
The funeral took place at St. Mary's Church. Whimple. on June 4th, conducted by Preb. E. V. Cox (president of the Devonshire Guild of Ringers), assisted by the Rev. H. T. Robins. Rector of Whimple. The bearers were Messrs. J. Salway. D. Callard. E. E. Retter and G. E. Retter. all fellow members of Clyst Honiton band. Included in the large congregation were the Rev. H. V. Christie (vicar of Clyst Honiton and chairman of the Aylesbeare Deanery branch of the Devonshire Guild), Miss A. Christie and Mrs. G. E. Retter (Clyst Honiton ringers). Mr. J. L. S. Glanville (Ringing Master. Aylesbeare Deanery Branch). and also Mr. and Mrs. W. Panter, representing Sowton ringers

In the evening a quarter peal of Grandsire Triples was rung at Clyst Honiton, by her fellow ringers: Miss A. Christie 1. J. Salway 2. Mrs. G. E. Retter 3. D. Callard 4. E. E. Retter 5. Mrs. G. E. Retter (cond.) 6, A. Holway 7, E. R. Retter 8.

## MR. R. J. GARD

While driving his employer's van on June 14th Mr. Reginald John Gard (45). of Yatton. collapsed and died in a nearby house. His sudden death caused a profound shock in the parish.
He had been a member of the church all his life-first as a choir boy and for over 30 years as a ringer. His rule was when he rang for service to attend before returning home-an example many could follow. Sympathy is extended to his widow, son and daughter.
The funeral took place at Yatton on June 18th. the service being conducted by Preb. G. A. Buckley, Vicar, assisted by Mr. H. A. Price. lay reader and captain of the ringers, in the presence of a large congregation.

Following the internment in the churchyard. 1.260 Grandsire Triples was rung halfmuffied by T. A. Price 1. H. W. Knight 2. M. O. Davis 3. R. H. Brice 4. E. A. Price 5.
D. E. Vowles 6. H. A. Price (cond.) 7. J. K. D. E. Vo
H. A. P.

## MR. W. S. LANGDON

The funeral service for Mr. W. S. Langdon. whose death was reported on page 431. took place on June 20th at Wandsworth Cemetery. On the Friday previous the coffin was received at Westminster Abbey by the Dean. who conducted it to St. George's Chapel. where prayers were said. It was left there for the prayers were shered by the Abbey pall.

At the funeral service ringers present were Messrs. H. Langdon. T. H. Taffender. H. Belcher. D. Randall. F. Udall, J. G. A. Prior
(representing the Ancient Society). W. (representing the Ancient. Society). W.
Rawlings. R. Mackrill and H. N. Pitstow. The whole pull and stand and a course of Grandsire Triples were rung at the graveside by Messrs. H. Langdon. T. H. Taffender, H. N. Pitstow and J. G. A. Prior.

## MR. N. D. SMITH

We regret to announce the death of Mr N. D. Smith. of Great Staughton. Hunts, at the County Hospital on June 12 hh, after an operation. A ringer at Great Staughton for over 50 years. he was also for many years a member of the P.C.C. While not a peal ringer. he would occasionally take part in a quarter peal. Until prevented by failing health he was a very regular service ringer. In his younger days Nel? was a regular attendant at meetings and was well known in the surrounding districts.

The funeral service was held in Great Staughton on June 16 h , before cremation at Bedford. On the following Tuesday 1.260 Grandsire Doubles was rung half-muffled by J. S. Spicer 1. F. W. Lack (cond.) 2, Lucy Allen 3. H. S. Peacock 4, J. W. Allen 5 F. Recve 6.
F. W. L.

## SHROPSHIRE ASSOCIATION <br> HALF-DAY OUT

We did not have to go out of the county to spend an enjoyable half-day's outing on May 28th. By car, van and motor bike we travelled first to High Ercall. a typically quiet Shropshire village. Ringing here was made more difficult by the long draught and the anti-clockwise circle. A touch of Stedman Triples came to an untimely end when the treble rope draped itself snake-like round its ringer's shoulder.

Tibberton, a little five-bell tower, provided much interest. Since the bells were reputed to be unringable and uncared for we were pleasantly surprised to find a clean and tidy belfry. Two main difficulties. though: the ropes were yards too long, and whoever rang the third had the choice of falling over hackwards down the trap door. which had no door. or turning his back on the rest of the company. In addition. the second seemed to have no stay -the bell went straight over after we had pulled it up. Two on the rope brought it back again. and we rang Grandsire and Plain Bob fairly successfully.

More ringers joined us at Chetwynd, where we rang various Minor methods. did some canvassing for the Association, and sold copy of the C.C.'s 'Learners' Handbook. After a break for tea. on to Newport where a misunderstanding over time left us only twenty minutes on this pleasant eight. Here the Sheriff Hales ringers turned out in force to see us ring, as did some Newport lads. - Learners' Handbooks' sold like hot cakes.

Finally, Edgmond, a glorious ground-floor six that simply pleads for two more trebles There is already a frame for eight. The Edgmond band is largely self-taught, and have made so much progress with change-ringing that they have already attempted two quarter peals. We stayed from seven until nine and rang most methods in the book, and some that aren't in the book.

Thanks are due to drivers who shared their cars and motor bikes for the occasion, to al - locals ' who met us. and to all incumbents who put up with us.

## YORKSHIRE ASSOCIATION

Good use was made of the fine ring of bells at Bridlington Priory at the annual meeting of the Eastern District, which was attended by over 30 ringers. representing 16 towers. Canon Lamb conducted the service and this was fol lowed by tea

The vice-president (Mr. A. E. Sellers) presided at the business meeting, when members stood in silence in memory of Mr. A. B. Cook Two new members were elected-Mr. H. F Gibson, of Sutton-on Hull, and Mr. T. E Darley, of Hemingbrough. Elections for a period of three years were: Mr. A. E. Sellers vice-president: Messrs. L. Rodmell, F. W. Dale and J. A. Parker, District committee; Mr. L Rodmell. general committee. Next meeting October 1st, York, subject to permission.

## OUTING

## HARLOW, ESSEX

The weather was kind for the outing of Essex Association members, mainly from Harlow, into Kent, on May 28th. At Swanscombe. the first stop. some of the unexperienced members were unwilling to try these bells with their long draught and rather springy ropes. except the youngest learner who handled his rope with comparative ease. An enjoyable hour's ringing included Kent. Bob Major and Stedman. Next came Wrotham which richly deserves its boast of one of the hest rings in the county. A very musical touch of Stedman was a highlight of the ringing here.
An excellent lunch at Maidstone was followed by a visit to the fine ten at the Parist Church. Kent Royal failed but there was a compensation by some good Stedman on the back eight. Harrietsham bells were found to be rather noisy inside. but all enjoyed the ringing especially the vicar. who happily rang some good rounds. Ringing here included Double Norwich and Grandsire. On then to Sittinghourne and tea and with the help of the local band some good ringing including Superlative. The final tower was a heavier ring at Chatham

For the arrangements the company were indebted to the secretary. who found the call of his duty as local cricket captain too strong and also the many who contributed to the enjoyment of the day.

## BARKBY, LEICS

Barkby. Leics. ringers for their second annual outing visited five towers in Lincolnshire with Mr. J. H. Musson, of Silk Willoughby, as guide. Methods ranging from Doubles to Major were rung at Heydour. and at Mr. Musson's own tower a variety of Minor methods. After tea at Folkingham the ancient six bells were rung. A good touch of Grandsire was enjoyed on the light eight at Billingborough. and at the last tower. Horbling the choir stalls had to be moved because the tower is in the centre of the church.

## THE COVENTRY GUILD

IT all started when Mr. Adams came to Warwick; and that was in November, 1899. Of course, there was a band of ringers at St. Mary's before he came, but they did no method ringing. It would not be correct to say that they were just called-change ringers. Actually they were very good ringers with excellent striking and a very full average attendance. The full ten bells were rung for all the chief Sunday services, but it was Mr. Adams who introduced scientific change-ringing.

Mr. E. H. Adams was assistant verger at All Saints’ Church, Fulham, until he came to Warwick. He came to Warwick as verger at St. Mary's. the Collegiate Church, when he was 25 years old. It was his intention to stay at Warwick for two years just to gain experience before moving on to a more important post; but somehow he never left the place, and can still be seen going along Northgate Street every morning shortly after ten o'clock; and he was verger for close on 60 years.

It was not only the ringers at St. Mary's who took up change-ringing at Mr. Adams' instigation. The ringers at All Saints', Emscote, and St. Nicholas', at Warwick, also hecame interested, and by 1902, under his tuition, they were ringing peals. The first attempt for a peal was on Saturday, November 15th, 1902, but it broke down after more than two hours' ringing. There was a Mr. Matthews in the band who was doing some work for Mears' in the locality, and he was going away on the Monday following; so a second attempt was made for Evensong at All Saints’ Church the next day, with Mr. Matthews calling Holt's Original. This came round in 3 hours and 2 minutes, just in time to ring the bells down in time for service. Naturally, by virtue of his duties, Mr. Adams was not in the band that scored what should be termed his first peal in Warwickshire. But Mr. Adams did conduct the second peal which was rung on March 9th, 1903.
The first peals rung by Mr. Adams' pupils at Warwick were scored for the Warwick Society, which was a small group of ringers all included in the three towers mentioned above. This Society came into being about 1900, and little is known of its origin. It is possible that the only three surviving members of that Society are Mr. Adams. Mr. W. Collett and John Pinfold. Mr. Collett started to ring when he was eight years old, and holds the honour of ringing for the golden jubilee. He came to Warwick when he was 19 years old. and was in the St. Mary's band when Mr. Adams came. (Mr. Adams started ringing when he was 12 years old.) Collett called his first peal on January 7th. 1905, and that was at All Saimts', as were most of the peals for the Society.

About the same time, ringers around Coventry were ringing peals for the Midland Counties Association. But in 1907, probably as a result of a proposition by John Pinfold. a meeting was held in the Temperance Hotel in the Old Market Square in Warwick, when the Coventry and other ringers got together with the Warwick Society members and formed the Warwickshire Guild. At this time the area was in the See of Worcester as the Coventry Diocese was not created until 1918. So far as the writer can gather, no peals on a higher number than eight bells were ever scored for the Warwick Society. But in 1910 a peal of Grandsire Caters was called by Mr. Adams at St. Mary's on Wednesday. May 11th. This was in memory of the late King Edward VII and was rung with the bells fully-muffled. except for the tenor which was open at backstroke. Those who know the St. Mary's bells can imagine how impressive that would be. There are four founder members of the Warwickshire Guild still alive, for it was from Coventry that Mr. Frank Smallwood came into the picture, and all four were in that peal.

Although the Coventry Diocese was created in 1918, the name of the Guild was not altered until the late 1930's. It was probably due to the agitation of Mr. Burt, the present captain of the All Saints', Leamington, tower, who pointed out that much of Warwickshire was covered by the St. Martin's Guild and the Staffordshire Association, whilst the activities of the Warwickshire Guild were confined to the churches of the newly-created diocese. At first there was considerable opposition to any alteration of the title, but eventually the present name. 'The Coventry Diocesan Guild of Church Bell Ringers,' came into being.

At the present time the activities of the Guild are greater than they have ever been, and ringing in the diocese is greatly on the increase. There are many alive and ringing who have been faithful Sunday service ringers for over 50 years. There are very many regular service ringers who still have fully 50 years of useful ringing ahead of them, and the seeds which Mr. Adams sowed in Warwick 60 years ago are still producing vigorous plants.

HENRY ALLEN.

## GUILD of DEVONSHIRE RINGERS <br> Memorial Unveiled To Late General Secretary

THE 81st annual festival of the Guild of Devonshire Ringers. held at Exeter on June 18th, was a great success. more than 120 members attending.
During the afternoon a peal-board memorial to the late general secretary. Mr. Ernest G Taylor. was unveiled. in Heavtree belfry, by his widow and dedicated by the Rev. C. G Poulton. The peal, which was the 1.000 th peal to be rung by the Guild. was rung by officers in 1955. It was his last peal. and his son. Stephen. joined the band for the subsequent touch.
The festival service which took place later. at St. Mark's Church, was also conducted by the Rev. C. G. Poulton (Vicar) and the president (Preb. E. V. Cox) read the lesson. A course of Grandsire Triples was rung on handbells before the sermon, which was preached by the Bishop of Exeter. Dr. R. C. Mortimer

The Bishop took as his text a verse from the 81 st Psalm- Make a joyful noise to the God of Jacob. He said we must face it that some people found the sound of bells an ugly noise, but to us, who love the sound especially across the fields, it was very beautiful. Thus ringing affords an almost perfect example of how one and the same action has different qualities. At practice and meetings ringing is for fun. During his journeys abou the diocese he often came across teams of boys and girls who obviously find something in ringing which satisfies It is a good kind of recreation and it makes you feel that it is good.
But Sunday ringing cuts into our time, and has a different moral action. viz-calling to worship. and helping the sick, lonely and remote people, by reminding them that it is church time and letting them feel that they are part of the congregation. At a wedding. the great day for the bride. we ring to express the bride's happiness and her desire to give herself to God and to her husband. and at a funeral we ring a muffled peal or coll a bell. Ringing on both these occasions is an act of charity. But at Christmas and Easter what a wonderful thing it is to ring early and send out the message of love across the sky.

Thus ringing is sometimes for fun. sometimes for charity. and sometimes for love and worship and may be a mixture of all three He hoped that young people would always come forward and that there would always be ringers ready to teach them.
The Bishop joined the members at tea in the Church Hall, but left before the business meeting at which the members stood in silence on being reminded of the deaths of Mr. Harry Myers. of Plymouth, a vice-president : Mr Ted Biffin. of Exeter. a Central Counci representative for 9 years and Ringing Master of the Exeter Branch for 34 years. and two honorary life members. Mr. C. F. Austin, of Paignton. and Miss Lomas. of Honiton Clyst.
The Rev. J. G. M. Scolt gave an account of the Central Council meeting and said that already two other Guilds had followed the Devon Guild's example by instituting a compulsory peal levy for. The Ringing World. It was decided to hold the annual festival in 1961 again in Exeter. and a grant of $£ 25$ from the Bell Restoration Fund was made to Babbacombe.
The general secretary stated thas several of the towers reported in the Sunday Service Survey as being silent were now being heard again on Sundays. He also reported that the general committee had confirmed Miss $M$ Goodman, of Topsham. and Mr. F. C. Smale. of Okehampton. a vice-president and general secretary. 1940-1950. as honorary life members The officers elected were as follows: President. the Rev. Preb. E. V. Cox: general secretary Mr. E. M. Atkins: general treasurer. Mr H. W. Mifford: librarian, the Rev. J. G. M Scott: peal secretary, Mr. W. Simmonds

TALGARTH, BRECONSHIRE. -1.260 Reverse Canterbury Pleasure Bob Doubles ( 6 different callings): C. A. Lewis 1, D. H. Bennett (cond.) 2, P. F. T Smith 3, M. M. Peterson 4, W. G. Smith 5. E. Pugh 6. A birthday compliment to M. M. Paterson,

The young ringers of Thurcaston, Leicestershire, who rang on their own for the wedding of Princess Margaret and Mr. Antony Armstrong-Jones. Left to right, back row: D. Mauby (14), D. Flint (14), J. James (10); R. Illstey (12), G. Waite (12). Front row: V. Goddard (12), C. Adnett (8), M. Tipping (9), A. Beverley (10), G. Hart (12), Mr. F. Bindley writes: 'I think we have one of the youngest bands in the country. We practise on Thursday evenings and Saturday mornings.

## YORKSHIRE ASSOCIATION

## Western District Annual At Almondbury

About 40 members responded to the invitation of the local company to visit Almondbury on June 18 th , the occasion being the annual meeting of the Western District. One might reasonably have expected to find a larger proportion of the total district membership of 320 present, but nevertheless. the meeting was most successful, due to the very efficient arrangemะnts made by the local company under Mr. R. Jobson and their helpers. Due acknowledgment of this was made at the business meeting.
The Vicar, Canon R. G. Clarke, responding to the vote of thanks. welcomed the Association and said what pleasure it gave him and his parishioners to hear their bells being rung. He also invited the visitors not to confine their attention to the tower but spare a few moments to look inside the lovely church

For many people this was their first visit to Almondbury and the very tuneful ring of eight bells was used to full advantage during the afternoon and evening. The tendency to run dry after three or four hours ringing was not confined to the bells on this hot, sunny day, and one suspects that several of the visitors who "had to be going now" were not going very far for the moment!
The main business of the meeting was the election of officers. the vice-president and three committee members being due to retire. Mr W. Barton was re-elected to the vice-presidency for a further term of three years. Messrs. H. Armitage and W. Dixon were re-elected to the District Committee for a similar period. Miss S. M. Schofield, having left the district, was no longer eligible for re-election, and bearing in mind that for several years now it has been the custom to have one lady committee member to represent the interests of her sex. Miss $\mathbf{S}$. Mudd, of Batley. was elected to the vacant seat. Mr. H. Armitage was also re-elected to the General Committee of the Association. Twelve new members were elected.

## THE LADIES' GUILD North-Eastern District

The seventh annual meeting of the North Eastern District of the Ladies' Guild was held at St. Hilda's. South Shields, on June 18th. The bells were available from 3 p.m., and the Guild service was conducted by the Rev. J. Edgar. Tea, prepared by local members of the church and other willing helpers, was enjoyed by 34 ringers and friends.

A vote of thanks to the vicar and churchwardens for the use of the bells, to the Rev. J. Edgar for conducting the service, and to Miss Sim. who accompanied on the piano. was proposed by Mr. D. A. Bayles, and that to the many helpers for preparing the tea was proposed by Mr. W. Tyson
Officers re-elected were: Vice-president, Miss D. M. Killingley: honorary secretary, Mrs. C. N. Lee ; Central Committee. Mrs. K. Arthur. Mrs. K. Lawson: District Committee. Mrs. Bayles. Mrs. Ainsworth and Miss M. Jennings. Miss M. Bertie was elected to the District Committee vice Miss J. Robson. whe had left the district. Miss J. Warwick was elected a ringing member and Mrs. E. Lee an honorary member. Ringing followed until 7.45 when tea and sandwiches were provided to help the ringers on the homeward way.

## KENT COUNTY ASSOCIATION Tonbridge District

On Whit Saturday, the Tonbridge District held a by-meeting at East Peckham. During the afternoon most of the standard methods were ruig and two old friends. Mr. Tom Saunders and Mr. Luther Honess, were welcomed. The Vicar (Rev. J. M. Sergeant) conducted the service. Members then made their way to Mr. Bishop's house, where a wonderful spread was provided by Mr. Saunders.
After tea a presentation was made by Mr. B V. Collison on behalf of the members to Mr. Tom Saunders, who has completed 57 years as a member of the Kent County Association and 60 years as a ringer at East Peckham. Mr. Saunders thanked Mr. Collison and the members for their gift and recalled some of his ringing experiences.

EDITOR: T. W. Whits.

For the first time a band from Cirencester Grammar School rang the bells of BELINK Cirencester Parish Church for the school's Founders' Day service on June 8th. Six extents of Plain Bob Doubles were rung on the middle six bells. The ringers were Bruce, Peter and Roland T. Wakefield. Peter J. Lewis, Bernard Stone, Gordon Land, Sheila Giles and Ann Legg. The standard of ringing was very good, and they were complimented by Mr. $F$. J. Lewis, sen., the captain of the local band.

A newcomer to the band of St. Paul's, Burwood. N.S.W., is Mr. Frank Battishill, who learned to ring as a boy at Thorverton, Devon, and Excter Cathedral.
Although the peal of Stedman Caters at Grantham was arranged many months ago, five of the band rang it with thoughts of deep affection for Miss Stella Davis, of Bucklebury.
We are asked to state that the late Mr. A. H. Pulling did not conduct the first peal of Spliced Surprise Major, but the first of four Spliced Surprise Major (see page 418). The first peal of Spliced Surprise Major (Cambridge and Superlative) was rung at Whitley Bay on May 14th. 1924. composed by Mr. J. W. Parker, and conducted by Mr. J. A. Gofton.

The bells of Bigbury. South Devon. cast in the $1780^{\prime}$ s, have been sent to Messrs. John Taylor and Co., Loughborough, for retuning. Attention is also being given to the frame which has rotted in one corner. The cost is $£ 1.300$ and the parish has raised $£ 962$. Excellent pictures of the removal of the bells appear in "The South Devon Journal,' of June 22nd.
As part of Leeds University Rag Week proceedings three members-Keith Williamson, Michael Swift and Russell Reed-successfully kept six handbells ringing continuously for 12 hours. (Manchester students. please refrain from sarcasm.)

The University of Bristol Society celebrated its affiliation to the Central Council

## G0SSIP

 with a peal of Grandsire Caters at St . Stephen's. Bristol, on June 8th. This was closely followed 10 days later by a peal of Grandsire Cinques at St. Mary Redcliffe. Many non-resident members returned for this occasion and a very enjoyable evening was spent in .The Ship.' with many old friends among the City ringers. The handbells were frequently used and many a peal (and lost attempt!) remembered. Both compositions were by Albert Tyler, to whom the Society is most grateful for all the help and encouragement he has given to members in ringing on higher numbers.Roger Trevitt (12) and Roger Asher (13), both of St. Andrew's. Heckington, Lincs, have called a quarter peal of Plain Bob Doubles.
Congratulations to Felicity Webber, Fred Sage and Brian Shingler. all members of the Reading University Society, who have recently rung their first peal at first attempt.
Mr. Peter Scholfield reminds us that Todmorden has been in Yorkshire since 1888. He adds. It would be interesting to hear George Bolland's views on the latest peal at Tong. Bradford-Plain Bob Doubles in ? hours 34 minutes.

St. Mark's, Darley Point, Sydney, is protesting against a proposal to erect a nine-storey bulding between the church and the rectory If this comes about Sydney ringers will be particularly disappointed as the bells are hard enough to get now without this building next door
Miss J. Armstrong, of Morpeth, was surprised when she went to ring the 8 p.m. curfew at the Watch Tower, on June 20th, to hear the bells ringing in peal. She waited, the bells were ringing after 9 p.m. She is now patiently waiting for the 'R.W.' report of the peal as to where the band came from.
The peal rung at Rippingale (page 429). was the 150 th together for Ronald Russell and Percy D. Baldock.

METHODS - CLASSIFICATION OF,Methods in change ringing require identification not only as regards name and type but number of bells as well. The following table gives classification acceptable to the Exercise: gives classification acceptable to the Exercise :
Changes on 4 bells.. Singles or Minimus

## Doubles Minor

Triples
Major
Caters
Royal
Cinques
Maximus
Sextuples
Fourteen In.
METHODS-EXTENSION OF-A tricky subject, and if you would like to assist the Editor in filling his correspondence columns write to him your views on method extension -it will be certain somebody will disagree with you!
Everyone with a little inside knowledge would be able to extend Plain Bob from Minor to Maximus. also Kent Treble Bob and Oxford Treble Bob. But on what principle would the extension be done? In the case of Plain Bob all that can happen is that every bell plain hunts until the treble leads, when one bell makes seconds place and the other bells above seconds dodge in pairs. Similarly, in Kent and Oxford every bell treble hob hunts until the treble is on the front dodging before leading. leading and dodging after leading when the bells in seconds. thirds and fourths are making places and the other bells above fourths are dodging in pairs. So far however, the principle of extending has been inflexible and the essential condition of maintaining the natural coursing order has been compiled with. i.e.. the fourth will still be coursing the second, the sixth coursing the fourth, the eighth. the sixth, and so on.
When study is given to the extension of any other than the 'straightforward' methods the trouble often starts. Cambridge Surprise is one method which extends from Minor 10 Maximus with everyone satisfied, merely because coursing order is maintained and also the various working bells can be made to do similar work in relation to the position of the treble as it hunts to and from lead Because Norwich Surprise Minor will not extend there is no Norwich Surprise Major, and because Rutland Surprise Major will not extend there is no Rutland Surprise Royal; but perhaps someone would like to know, as there is Yorkshire Surprise Major. Royal and Maximus, why there is no Yorkshire Surprise Minor.
MIDDLE.-Middle is the label given to a call (Bob or Single) when the observation bell is one coursing position or two striking positions away from and in front of the Home position. Again. I would rather clarify by examples. In Major 14263857 with the tenor as observation bell striking in sixth position at the lead end: in Royal 1426385079 with the tenor as observation bell striking in eighth position at the lead end; and in Maximus 142638507 T 9 E with the tenor as observation bell striking in tenth position at the lead end; these are all Middles. Such examples in Grandsire Triples would be 1253746 with the seventh as observation bell striking in fifth position, and Grandsire Caters 125374968 with the ninth as observation bell striking in seventh position. at the lead ends.

One point of interest is that in all the even bells methods it is the same three bells (4. 2. 6. in the coursing order and as shown above) which work around the treble at the call at Middle. Six bell ringers will soon know there is no call at Middle in Minor, the reason being that a bell which is in one coursing position ar two striking positions below the Home position would be one of those which would work around the treble. in other words it would run in to lead at a Bob or take thirds place at a Single.
The effect of a call at Middle and the correct time to call it depends, as was also pointed out under . Home, upon the method being rung.

MR, FRED DUNKERLEY
Secretary, Lancashire Association
Mr. Fred Dunkerley, the popular secretary of the Lancashire Association. is an exceedingly busy man, hut nevertheless he finds the time to enjoy the great pleasures our art offers. He is a man of high standing in the cotton industry, as well as other fields, but is modest and unassuming. He is greatly respected by his fellow members of the Lancashire Association, and his services as secretary are much appreciated.
Born in Shaw, in 1905, he first went to an ordinary Council school and afterwards
took a technological course at the Manchester
School of Technology. He became a mill manager in 1927, and afterwards moved to The Standard Mill, Rochdale, in 1932, as mill manager. He now holds the position of chairman of this company.
He learned to ring at Moorside, Oldham, and rang his first peal (Kent T.B. Major) in 1922. By the beginning of April, 1960, he had rung 431 peals, conducting 61 . These have been rung for 21 different Associations and Guilds. He is proud to have taken part in those two difficult peals-Carter's Odd Bob one part and J. O. Lancashire's Odd Bob and Single. He also rang in the record lengths of 21.600 Major: 9,568 Spliced Surprise Major ( 10 methods) : and 15,480 Cambridge Surprise Royal. In 1948 he was appointed ringing secretary of the Lancashire Association, and on the death of W. H. Shuker, in 1951, was appointed general secretary, in which office he has served with distinction.
His other hobby is air racing, and he won, in 1949. the first race he entered, an international event. He has won most of the national and international races, but his greatest achievement was to win the King's Cup Air Race. in 1957, it a Sparrowjet, the first time a jet had won the race.
Mr. Dunkerley is senior vice-president of the Federation of Master Cotton Spinners Associations Ltd.; and vice president of the Yarn Spinners" Association. He serves on several committees connected with these two associations and the Cotton Trade. He is also a member of the International Federation of Cotton and Allied Textile Industries Management Committee

Whether 't be in the field of ringing, flying or in industry, Fred Dunkerley tackles cverything in a whole-hearted fashion, and members of the Central Council will not easily forget the way he arranged and organised for their comfort when they visited Lancashire last year. Nothing was too much trouble for him, and he made it an occasion which will long be remembered.

## MIDDLESEX COUNTY ASSOCIATION

The June meeling of the South and West District was held on the 18th, at Stanwell and Staines, in brilliant sunshine. A short service was conducted at St. Mary's. Stanwell. by the Rev. C. D. R. Sharpe (Vicar), who also delivered a shori but very pertinent observation on our calling.

After tea, ringing continued at St. Peter's, where some of the company were reluctant to exchange the charm, and comparative cool, of the river bank for a rather warm belfry! Nevertheless, ringing during the evening ranged up to Cambridge Surprise Major.
Although it was pleasing to see the continued interest, and note the encouraging progress of some of the younger clement, the attendance left much to be desired.
E. R. G.

## St. WENDREDA'S, MARCH

Accompanied by relatives and friends. St. Wendreda's. March, ringers had an enjoyable outing into Norfolk on June 11th. The first ringing of the day was at Gaywood. From here the coast road was followed to Holkham, where St. Withiburga's Church. on a hill. is surrounded by thousands of acres of woodlands and overlooks the lake. marshes and sea. The bells were much enjoyed.
Lunch was taken at Wells-on-Sea. where the tourists delighted many by their handbell ringing. Nearly two hours were spent in Cromer, an hour of which was devoted to ringing at Norfolk's highest church tower ( 160 feet). Appetites were appeased at Fakenham after which the eight bells were rung at the 600 -year-old church. There was ringing later at Castle Acre and Shouldham. Sincere thanks to clergy and those who met the tourists.

## Hints For Beginners-No. 28

Do not exaggerate your open handstroke lead on the higher numbers. The required interval on 12 is much less than on eight.

## QUEEN'S BIRTHDAY FESTIVAL AT MELBOURNE

Almost 40 ringers took part in the Queen's birthday week-end (June 11th-13th) ringing festival at Melbourne, including nine from Adelaide and six from Bendigo
Ringing commenced before lunch on Saturday until about 9.30 p.m. with the usual informal breaks for meals. Everybody rang to their fill and many courses 'first in the method were scored
Sunday morning saw the fulfilment of a quarter peal of Kent T.B. Major, with four South Australians taking part. Three of these -Messrs. Bagot. Pitcher and Cox-had only rung a plain course in the method previously. During the quarter others enjoyed" themselves at St. Patrick's Cathedral. There was more ringing after lunch, and a most convivial evening at Barbara Beeson's flat brought Sunday to a close all too quickly.

An uninterrupted day's ringing was Monday's programme and by the afternoon no less than 13 ringers were able to ring Double Norwich C.B. Major. Enthusiasm was the keynote, and everyone felt if these happy gatherings could be maintained and spread farther afield Australian ringing would reach far greater heights.

Methods rung were: Doubles.-Plain. Stedman. Grandsire and St. Simon's. Minor.Plain, Little. Kent, and Oxford. Triples.Plain, Stedman and Grandsire. Major.-Plain, Little. Oxford. Kent. Double Norwich and Spliced. Caters.-Plain. Stedman and Grandsire. Royal.-Plain and Little Bob. Cinques.-

## THE WEST COUNTRYMEN'S TOUR

F
OR the fifth year in succession, a rather smaller but no less able company of nine ringers left their homes in the Bournemouth area and Somerset on May 14th to enjoy a leisurely tour of East Anglia which. for the first time, was "under new management.

Following an uneventful journey, the members met at Luton Parish Church. All was in readiness and so, escorted by the tower captain. they ascended the tower and rang a very good 5.007 of Stedman Caters. The bells, which are modern product of the Loughborough foundry, were delightful, both in tone and
go, and much enjoyed by all.
Headquarters for the first night were to be at Whittlesford Bridge. near Cambridge, where fortified by juicy steaks and suitable refreshment the nine attempted to sleep but were not very successful due to British Railways! However, by 9.30 on Sunday all were well awake and looking forward to a ring upon the twelve at St. Mary-the-Great, Cambridge. for the Family Eucharist. The local ringers extended a very warm welcome and during the short period available. Stedman Cinques. Erin Cinques and Cambridge Royal were rung. Afterwards several went to St . Andrew-the-Great, some to Trumpington, while others attended divine service.

## TOUR OF COLLEGES

It was a great experience later in the day to be given such a comprehensive tour of the colleges by Dermot Roaf. However, those with his party were disappointed that they did not meet the remainder who had hired a punt. for no doubt they would have offered some advice in the art from the safety of the river bank! At last the brief but happy visit to Cambridge drew to its close and the 70 mile journey to Beccles was completed in good time to ring the noble ten at the detached bell tower for Evensong. The King's Head Hotel proved to be an excellent centre for the first part of the week.

On Monday morning the main programme commenced, and the party were heginning to, ring as a team. Despite their difficult "go." Diss bells went well to Stedman and Yorkshire. Mildenhall was to be the day's peal attempt and here, with the kind helo of a Cambridge ringer who cycled 22 miles to complete the band. Cambridge Royal was scored with little trouble. Unfortunately. builders were at work on the church roof and tower and as time progressed, the noise of their work increased until the ringers expected at any moment to see a head appear at the window. Nevertheless, when the peal was finished. it was discovered that the workmen had packed their tools and left in disgust!
The third and final church visited on Monday was Elveden. where eight bells are hung for ringing in a memorial tower connected to the mam body of the church by a covered way resembling cloisters.

## CINQUES AT YARMOUTH

Tuesday started in a very leisurely manner with a ring at St, Margaret's, Lowestoft. Bristol and four-spliced sounded very well and the ringers were greeted by the local captain who told them of the very active company which he had. From Lowestoft the party drove to Great Yarmouth, famous both for its ringing clergy and for its newly-hung twelve. Here the Rev. Giles Galley. Mr. Bert Gogle and a local ringer made a band for Stedman Cinques. With a long touch. a good beat was found and the bells heard at their best. The ringers left feeling that all credit should be given to Mears and Stainbank for a wonderful job. The company was afterwards met by the Rev. Gilbert Thurlow and Mr. George

Fletcher. both of whom conveyed their best wishes for the peal attempt to be made in the evening at St. Peter Mancroft. Erin Cinques was started there almost an hour late, due to the unavoidable late arrival of a Norwich friend. However, despite this, the ringing settled almost immediately, and it was a great disappointment that after two hours two bells changed course. Nevertheless, the ringing was greatly enjoyed by all and a good tape recording made. It was suggested by one member of the party that the two defaulters should be made to wear hair vests for the rest of the week as a penance!

After a last look at Beccles on Wednesday. Stonham Aspal was reached at 11 a.m., where an hour's ringing took place. The peal attempt on this day was to be Bristol at Debenhama mellow eight easily rung. A steady pace was set but two courses from the end a shift was detected and so stand had to be called. Members then drove through flat. but delightful. countryside to Bury St. Edmunds, where in the evening they rang at the Cathedral and later made their headquarters for the remainder of the week at the Angel Hotel.

## MUSICAL 'CLOCKING

So as to bring out the tone of the bells better than by the carillon keyboard, Chicago has experimented by
eight students by pulling ropes moving eight students by pulling ropes moving
the clappers of the 16 largest bells. the clappers of the 16 largest bells.
The ringers have to control their "clockings to the beat given by the conductor, synchronising their notes with higher bells played on the carillon keyboard.

The programme included 'Jesu, joy of man's desiring, (Bach) and Prelude in C Sharp Minor by Rachmaninov.

After the tower bell ringing it was an unexpected pleasure for them to join the local ringers in their tavern. where a ring of handbells is kept. As the result of a little effort and much to the surprise of all, a course of Grandsire Cinques was accomplished!

The next morning was free but everyone decided they they would like to take the opportunity of seeing the famous bell-cage at East Bergholt. which was some 35 miles distant. Permission to enter for a closer inspection unfortunately could not be oblained. In the afternoon, Yorkshire Major was the order of the day at famous Lavenham and after three and a half hours. the bells came into round; without incident. It was a pleasure to be met by Mr. Stedman Symonds who offered his congratulations upon the ringing and for some while told many tales of his, and his family's, achievements.. Long Melford was the second tower on Thursday. The church has been described as "one of the finest and the most symmetrical in the whole of East Anglia.' and this is no idle boast.

TWO PEALS IN A DAY
Thursday morning saw the company following the estuary of the River Deben to Woodbridge where. while the tower key was being located. the modern and well balanced woodwork of the sanctuary was admired. The new Taylor eight were well enjoyed, both fivespliced and Bristol being rung. The ringers must have looked a queer sight this day for as they walked the streets of the town and ate their lunch. everyone was learning Yorkshire Royal and mumbling the blue line! However. not in vain. for at Grundisburgh. joined by Mr. Charles Sedgley, who made the ten, a fine neal was scored in three hours
within the critical earshot of Mr . Cecil Pipe who afterwards joined the ringers for the remainder of the day. Grundisburgh bells are really outstanding for their weight and surprisingly easy to handle and hear.

The evening was spent ringing upon the twelve at St. Mary-le-Tower. Ipswich. Mr George Symonds was very proud to show the company the two peal books of the St. Mary's Society in which were beautifully written the many peals rung in the 1930 s, when Surprise bands were few and far between. Later in the evening. some visitors from Australia were welcomed and had their first view of change ringing.

And so the last full day of the tour arrived all too soon. Miss Hilda Snowden had all in readiness at Halstead and extended a very warm welcome, so typical of the East. An hour was pleasantly spent upon these fine new bells and all agreed that one could find none better for their weight. Saffron Walden was to be the last peal attempt and so, strengthened by two other Hampshire ringers who had driven to Essex specially. Stedman Cinques was started with the kind help of Mr. E Pye, who rang the tenor. Once more, a shift course prevailed and after an hour and a half. the ringing had to be stopped, but like the ather lost peals the ringing had been enjoyable, which was a great compensation.
At the hotel in the evening. members presented their organiser. Mr. Michael Best. with a camera tripod as a small token of appreciation- of all the work he had done and the masterful way in which he had carried through the whole tour. All agreed that it was one of the best ever. and through the medium of this article. they would like to express their very great thanks to all incumbents, tower captains and the ringers who enabled them to participate in ten and twelve bell ringing.
D. H.

## OUTINGS

## CRAYFORD, KENT

With the help of numerous friends and admirers from various other towers, nine - under twenties , and three others. who shall be ageless. from St. Paulinus visited five sixes and two eights in the Seal Chart. Tonbridge and West Malling area on June 11th. The towers were new to most of us and record sheets were much in evidence. Although the weather could have been kinder a very enjoyable day was spent. ending with a convivial evening at 26. Iron Mill Lane, which included some serious and some not-so-serious handbel ringing. with Walter Dobbie as an admirable M.C. Our thanks are due to all who helped and to those who so kindly allowed us to ring at their towers. and our congratulations are offered to the local band at East Farleigh whose ringing for a wedding there was a joy to listen to.
E. A. B.

## OAKHAM, RUTLAND

On May 21st 16 ringers from Oakham and district toured parts of Northamptonshire during a delightful if rather tiring tour. Towers visited. all containing rings of eight bells. were: Northampton (St. Edmund). Welling borough. Irchester. Rushden. Higham Ferrers. Irthlingborough. Finedon and Burton Latimer These towers provided both light rings (Burton Latimer. 100 13) and heavy (Wellingborough. $28119)$.
Methods rung during the day included Stedman. Grandsire. Erin, and St. Clement's Boh Triples. Plain and Little Bob. Kent. Oxford and Granta Kent Treble Bob. Double Norwich Court Bob. Cambridge and York $=$ shire Surprise Major.
Thanks are extended to all incumbents and to local ringers for meeting us at each tower M. E. S.

## LETTERS TO THE EDITOR

## WELCOME TO NEXT <br> \section*{CENTRAL COUNCIL}

Dear Sir-I am very pleased to learn that the Central Council has decided to visit our Association for the annual meeting next year. 1 have not the slightest doubt that our visitors will be very pleasantly surprised at the heauty of North Staffordshire. despite the industrial conglomeration of towns at Stoke-on-Trent referred to on the front page of The Ringing World of June 17th.
Many of the towers which it is proposed 10 make available are in some of the finest scenery of its kind in the country, and we are within a stone's throw of Dovedale. which is acknowledged to be one of the beauty spots of England, and is, in fact. in North Staffordshire.
I look forward to a record attendance at next year's meeting.-Yours faithfully
G. W. BIDDULPH.
Chairman.

North Staffordshire Association.

## ALL PREVIOUS PEALS MUFFLED

Dear Sir.-Re the peal of Bob Major rung at All Saints' Church. Maldon. on June 8th, conducted by H. Egglestone

I have searched diligently through all the Essex Association reports since they were first published. All previous peals on these bells were muffled peals.

Since the bells were augmented from 6 to 8 in 1922. only one previous attempt was made for an 'open' peal and that was way mack in the early 1930's.

This peal will. I hope, be the first of many. -Yours truly.

## Maldon. Essex.

A. HUBbLE

## DECODING GAVE HIM <br> A SURPRISE

Dear Sir.-I suppose the number of our readers who take the trouble to decipher the new Surprise methods which are printed in 'The Ringing World' from time to time is comparatively small. I imagine that not many Plain Bob or Grandsire men ever bother to make the effort. There are others possibly who, when they read the mysterious code like $-36-14-12$ etc., say to themselves. Ah. when I get time I will work that lot out.' and of course, procrastination being the thief of time. it never gets done.

Well now. I find that if one wants to keep abreast of the times and even if one s opportunities seldom run to Surprise methods it is always worth while to unravel these codes (1) supposz they are quite properly Corrigan Codes) to see what they reveal.

I set to work recently on John R. Mayne's Flamstead Surprise Minor ( $\cdot$ R. W. April 24th) and to my surprise I found it to be a method with a bell in the slow just like Kent or Oxford T.B. Minor. This was quite a revelation to me and a method which was worth adding to my repertoire.
I am rather mystified. however, in the classification. If Kent and Oxford with a bell in the slow are T.B. Minor methods, how is it that Flamstead, also with a bell in the slow. is accorded the status of a Surprise Minor method? Perhaps Mr. Mayne or some reader will elucidate this for me.
Also. Mr. Fditor. I wonder if you could prevail on one of our conıributors. a man say like Mr. Wilfred G. Wilson. to deal with this abbreviated style of method writing for us. Make it the subject of an explanatory article so that all our readers can follow ir. I am not sure that all can at present.

Barrow-in-Furness.

## DISCIPLINE AND PEALS

Dear Sir,-I should like to thank Mr. Wilfred Ring for saying so much more clearly what I attempted to say-in great haste-in my previous letter on the subject of the Kirby-le-Soken record It is nice to find one person who will write up and say he agrees with me!

First. let me say that such ideas of discipline and control in the belfry expressed by your correspondents in many letters on this vexed subject are highly repugnant to most of us today. who hate the bluff and hypocrisy which characterised many of the 'great' conductors of the past-and possibly a few are left at the present time. To see the sort of thing I mean, let the reader turn back some years to the excellent articles on Belfrymanship. by Rodney Meadows, which are a grand example of how to speak a true word in jest! To the conductor of today the rest of the hand are his friends, not puppets whose feelings are of no account at all.

Most of your correspondents missed the point which was that at Loughborough we were attempting to ring 40.000 changes-the extent on eight. Had such a length of a more notable method (I don't count Double Norwich) been available, then we would have been in a position to consider ringing that instead. Speaking personally, I found much more concentration was needed when calling Plain Bob-the warning of the treble dodging on the lead is my instinctive reminder that it is time for a bob. More to the point-I am still convinced that far more than outmoded ideas on discipline (degrading to conductor and ringers alike) is necessary to enable eight men to ring with each other for such a length of time.

The point of difference between an attempt for 40.000 and one for 20.000 odd is the immense effort of ringing the second 10.000 , when at the end of it (in the case of the extent) it is still but half way. Even if we ring no further than we have done on several occasions. into the 20.000 's the mental strain and effort is still taking place. I'd happily go for 22.000 as part of the day's work. but 40.000 needs a bit more nerve, believe me.

To the 'Sunday Service Ringer ' from Kent (I too can claim that distinction!), may I say that the incorrect instruction he refers to which caused confusion as we neared 29.000 was not given by me. Nor was the confusion bad enough to end the attempt. My reason for being so scrupulous (please note. Mr. Dodd) was the fact that until that point the ringing had been unblemished. We had by then set our hearts on the best and second best was not good enough. Had Mr. Dodd been in it. I doubt if the situation would have arisen. I think possibly he could manage a peal in that class, but not five in a row.

Finally, since I have been accused of bad taste. may I reiterate that the way the reports of Frank Lufkin's effort emphasised the weak points in our ventures. compared with the success of his own. seemed very like the proverbial kicking of a dog when he's down. proverbial kicking of a dog when he s down. article was quite unforgivable in its naïve and moral tone. In addition. I had imagined Norman Harding to be a better friend to me than his remarks prove him to be. I am not in the least jealous but an attitude of smug success is guaranteed to make me see red. with the hypocrisy it so often involves. No one minds a failure being advertised, but success shouldn't need any.-Yours etc..

STEPHEN IVIN.
Houghton Conquest. Bedford.

## 'LISTEN TO THE STRIKING

Dear Sir.-Your correspondent. Mr. W. Ring ( $\cdot$ R.W. June 24th). seems to be one of those ringers who help to curn the minds of the public against the sound of church bells. I refer to his statement - in Bob Major all the ringers can sit back and have a jolly good sleep.' No Mr. Ring! Keep awake. listen to the striking. The passers-by don'l know what is being ruing. but they can tell whether it's good or bad.-Yours sincerely.

DAVID E. HOUSF.

## Southampion.

## DEVON GUILD AND PEAL LEVY

Dear Sir.-A new rule was brought into force by the Guild of Devonshire Ringers last year relating to a voluntary levy, on all peals rung, of a shilling per rope. sixpence of which should be subscribed to 'The Ringing World.'

Fcr one or two peals for which I was responsible I collected a shilling per man and sent half to The Ringing World: In due course the peals were published and the voluntary subscription acknowledged in the columns of the paper.
In future the conductor of any peal rung for our Guild must pay to the Guild Is, a rope; and at the end of the year, in addition to knowing the number of peals rung. the treasurer will know how much must be paid to 'The Ringing World without having to refer to 'Gratefully Acknowledged to see who has, or has not. paid.-Yours truly.
T. G. MYERS

Plymouth.

## BELFRY MANNERS

Dear Sir.-Whilst we appreciate the ringing merits of certain members of the Central Council. we feel that their belfry manners are singularly lacking. We are led to this unhappy conclusion by an episode during a ringing outing by young members of the Kent County Association on Whit Monday in the Romney Marsh area.
During an attempt to ring a course of Grandsire Triples at the second of two eight hell towers of the day we were invaded by six people. who. it later transpired. were ancient members of the ringing fraternity.
We were due to depart from this particular tower within ten minutes of these individuals appearing. Without any introductions what soever, the visitors proceeded to take hold of six ropes to lower. leaving two for the touring band.
If it had not been for one gentleman waiting at the churchyard gate to introduce himself and tell me who the others were, we would still be wondering who these stranger; If one of the invaders had thought to mention who they were ir the first place the Vicar, who was in the church, could have been approached and possibly another ten minutes ${ }^{\circ}$ ringing obtained in order to give these extra ringers a better ring. After all we weren't to know that they could even handle a bell properly, and it would have been our responsibility had anything gone wrong.
We are glad this is not typical of the example we are to expect trom the Central Council. DAVID C. MANGER.
Chelsfield. Kent.

# DEATH OF MISS STELLA DAVIS 

It was with a sense of personal grief ando loss that the members of the Oxford Diocesan Guild learned of the tragic death of its only woman vice-president. Miss Stella Davis, of the Old Posi Office. Bucklehury. Berkshire, on June 11th. She was 73 years of age.

Miss Davis joined the Guild during the second decade of the present century having learned to ring at Bucklehury, her home tower. She continued to serve that tower and church faithfully until her death. first as a member of the band and during the past 16 years is the captain.

A member of the Guild Committee for many years and since 1951 a vice-president. she served the Guild with the same quiet devotion to duty. Always present at Guild meetings and festivals unless ill-health or domestic duties prevented her, she was wise in her counsels and a well beloved figure.
During the immediate post-war years Miss Davis was the secretary of the Newbury Branch and it is due to her unfailing service that the Branch today is as strong as it is.
Never a prolific peal ringer she must have rung a number of peals over the years, some of them in new methods when the East Berks band was breaking new ground in the 1930 s. During recent years her energies had been devoted to teaching ringing in her own area and such peals as she had rung had been those for beginners. Her last peal was rung at Thatcham, in February.
Miss Stella Davis will always be remembered by those who knew her for her quict Christian gaiety. her quiet devotion to duty in whatever form it came to her-as a school teacher, a daughter, a member of the church and her parish. and as a ringer, and her deep humility. It was not for her the headlines and the bright lights, yet her influence has been felt and will continue to spread. as a stone dropped into a deep lake. Always willing to encourage others to go ahead and with a youthful outlook and spirit, her influence over all the young ringers who came within her orbit was much greater than she ever realised, for they recognised in her, that greatest of all Christian gifts. 'Charity. Of her may it be said with truth. 'Charity
suffereth long. and is kind: charity envieth not ; charity vaunteth not itself. is not puffed up: Doth not behave itself unseemly, seeketh not her own, is not easily provoked, thinketh no evil: Rejoiceth not in iniquity, but rejoiceth in the truth: Beareth all things, believeth all things. hopeth all things, endureth all things.
M. R C

## THE FLNERAI.

The funeral service at Bucklebury Church. on June 16th. was conducted by the Vicar. Rev. D. B. Ashburner. In his address he said. She was the most faithful of Christian souls and was well prepared. spiritually, for death. whenever it might come.

Here, so many of her energies were devoted to the work of the church. She had heen organist since 1941 and foreman of the ringers since 1946. having had the distinction of being the first woman to be allowed to ring in St. Paul's Cathedral. We shall miss her leading of Us in praise and in calling us to worship, and there are many ringers in towers near and far who have lost a good friend.

Stella Davis was also a faithful associate member of the Mothers' Union and played for the services and meetings. and made our Mothers Union banner. She cleaned the church brasses. arranged the altar flowers most heautifully and decorated the pulpit for festivals. She washed the Communion linen. and distributed magazines, and only recently she repaired the white superfrontal for the altar and the white cushion cover at the litany desk. All this and more she did in her quiet way. for she hated any fuss. and few people knew just how much she did and how much we relied on her:
Among the ringers present were Mr. Frederick Sharp (president of the Central Council

Church Bell Ringers, also representing oficers of the Oxford Diocesan Guild). Kev. R. R. Woodfield (chairman). Mr. H. P. Reed (Ringing Master) and Mr. H. Lawrenson (secretary, Newbury Branch), Mr. L. G
Hatines. Mr. J. Tibhits. Mr. W. Jrving and Haines. Mr. J. Tibhits. Mr. W. Jrving and
Mr . J. Knapper (reprcsenting Goring tower) Mrs. P. Lewington and Mr W. Hibbert (St. Laurence tower. Reading). Mr. F. Tuffley (Chieveley tower). Mr. A. Webb. Mr. Frank White. Mr. W. White. Mr. Frederick White Mr. C. G. White. Mr. L. Cox.
Mrs. Birrett. Mrs. Lock (also representing Mr. A. C. Lock). Mr, and Mrs. A. Hawkins.

## APPRECIATIONS

## MISS DAVIS OF BUCKLEBURY

How many times in the last half century has the above phrase been heard. She was christened (quite rightly) Stella, but very, very few outside her family, even some of her most intimate and oldest friends, called her anything but Miss Davis.

She was undoubtedly a personality. especially in the Oxford Guild. and in her heyday was one of the lady ringers of the country, equal 10 any of her own sex, and better than a lot of males.

Younger ringers, who have heard the name and of her exploits, may have gained the impression she was very austere, but such was not the case. In her own words, she was always circumspect. but she was full of fun. and even on March 4th this year at Appleton. she was as young in heart as anyone present. and to see her standing on the stool in the
Thatched Tavern.' singing the choruses of the varicus songs. was a tonic.

Two very charming incidents will stay in the memory of the writer. One: Some years ago we were coming back from an O.D.G. meeting and the driver of the car was expounding at some length that lady ringers were quite good in the tower, but rather apt to be expensive when having refreshment, quoting that the average male was content with his beer, but that lady ringers were rather prone to gin and tonic or whisky mac.

When nearing the journey's end the driver suggested a drink before the parting of the ways. What will you have, Miss Davis?' Without a twitch of the facial muscles, but with a wicked twinkle in her eye came the reply. - Lemon and port. thank you. - giving the gentleman his full title.

The other was a peal of Siedman Triples she was calling in her own beloved tower of Bucklebury. when she called the half way Single a whole pull too soon. The writer said. - Not now. dear. Single now. After the neal Miss Davis came across the tower and without preamble. Thank you very much for your help at the half way. which would have been much more appreciated without the term of endearment.

When ringing was getting into its stride after the 1914-1918 War. Miss Davis took up an appointment at a Maidenhead School. and came under the wing of the late Rcv. C. W.O. Jenkyn and R. T. Hibbert. Who fought hard to break down the prejudice of the old Caversham ringers against lady ringers, but it was not long before her ability was recognised and she rang quite a number of peals with the old uns.
Her handling of a bell was very graceful. her striking most accurate and her concentration wonderful. and those who rang with her must be proud of the fact, and have happy memories

A little Christian lady and a great ringer.
To meet Stella Davis. more than anyone else. was to sense the real purpose for church bell ringing. She might well have been numther one in your scries 'Servants of the Exercise:
We ring for her in grief and in tribute to a life of loyal devotion.
E. Hagbourne.

## PREB. MARTIN WILLSON

By the passing, at the early age of 53 , of Preb. Martin Willson. ringers throughout the West Country have lost a great friend. He had been director of religious broadcasting in the Western Region of the B.B.C. since 1946 and in that time had taken a lively interest in ringers and ringing, A regular reader of "The Ringing World: he often discussed with the writer points raised in the correspondence columns and only last year contributed an excellent leading article on the problems of broadcasting.
Nothing was 100 much trouble for him in his aim to achieve perfection and coupled with this was his great sincerity and appreciation of the work of others. He had the greatest respect for the more humble country ringers and gave them every encouragement, they were very much in his mind when. some two years ago, he started his series of programmes dealing with the 'Faith' in various areas of the West Country. In fact. the Faith in the Mendips, was in process of being prepared during his last days and was to have included some very well known towers. One of his greatest joys was the arrangement for the recordings of Evercreech bells and he was very happy in the result.
Since the formation of the Television and Broadcasting Committee by the Central Council he had been one of our most loyal helpers. not only in the West but by his contacts in other regions. Having been privileged to enjoy a place in his life makes it all the harder to find words adequate to describe all those fine qualities that made up the man that was Martin Willson. All who knew him are the poorer for his passing but remain vastly richer by the experience of his friendship.
H. J. S.

HIS CAREER
Born at Bemerton. Salisbury. Preb. Willson was edueated at Wimborne Grammar School. Sherborne School and Oriel Collcge. Oxford. and following curacies at Warminster, Cowley and Parkstone, he served as a chaplain during the war in South Wales. Palestine, Cyprus, Normandy. Italy and North Africa. On first joining the B.B.C. he was religious broadcasting assistant for the Midlands and West Region jointly. In 1957 he was appointed a Prebendary of Wells Cathedral.
He will be best remembered for his radio series : The Faith in the West.' a religious magazine programme which was the first of its kind. Deeply sincere in his religion, Martin Willson was at the same time markedly tolerant of other people's beliefs and views. He leaves a widow, a son and two daughters.

## BEDFORDSHIRE RINGERS' TOUR

Whit Monday saw ringers from all parts of Bedfordshire join together for an outing into Norfolk and Suffolk.
St. Mary's. Newmarket, was the first stop of the day, at the early hour of 9 a.m. At St. 'erer's. Brandon-Ferry, the ladies did justice to a well struck touch of Boh Minor. The round tower of St. Mary's. Watton, was of particular interest to the visitors.

After lunch, ringing at Si. Nicholas', East Dereham. was a plseant experience: indeed the hest ringing of the day was on these bells From East Dereham we went to the abbey church of SS. Mary and Thomas. Wymondham. where the greater part of the ringing time was spent in the spiral staircase waiting for the key to he passed up. The remainder of the party took this opportunity of looking around the very interesting church. St Mary's. Attleborough. was the last stop of the day. After the conquest of the ascent into the ringing chamber it was good to hear well truck changes
Ringing during the day was of a generally high standard. methods including rounds. Plain Bob. Grandsire. Stedman and Double Court. Thanks are due to the local incumbents, and to those who kindly met us. Also to Krith for his excellent arrangements.

K A. $R$.

## TOWERS OF THE FENLAND

## By. T. A. BEVIS

(Continued from page 405)
SS. PETER AND PAUL. WISBECH
The historic borough of Wisbech is attractively situated amidst acres of profitable orchards. reminding one to a large extent of the Vale of Evesham. Wisbech is. in fact. a port, and ships travel 13 miles inland to discharge their cargoes alongside the borough's ancient wharves.
The town radiates considerable influence to the many picturesque villages in the neighbourhood. most of which are graced with magnificent churchcs. A ringer once said.
'Towers come ten-a-penny here!' It is a true statement and the majority of these stately marshland churches possess rings of bells.
SS. Peter and Paul. Wisbech, is the only church in the Isle of Ely with 10 bells. The tower itself is well worth a visit for it has many points of interest and is attached to a church which is almost as wide as it is long. with three arcades from the 12 th. 14 th and 15th centuries. The tower-overlooking colourful gardens-is regarded as being one of the finest of its kind in Cambridgeshireperhaps the finest. It consists of four stages. rising to richly-carved. pierced battlements, terminating in pleasing displays of pinnacles.

The outer walls are adorned with emblems. among which can be secen that of St. Thomas of Canterbury-a ' T' surmounted by a crown; the episcopal arms of Goodrick. Bishop of Ely. 1534-54, is also displayed, and there is a unique carving of a monstrance. a receptacle in which the Host was borne in processions
Climbing a wide newel stair one enters a commodious ringing chamber and this affords an unimpeded view of a perfect circle. The hells are of good tonal quality, eight of them having been recast and augmented with the addition of two new trebles by William Dohson of Downham Market
One of the original bells bore the date 1566. and iwo others were first cast in 1608 and 1640 . The present ring (rehung by Mears and Stainbank in 1936) were opened on Friday, December 19th. 1823. by a party of ringers who are reputed to have walked 25 miles from Soham. Cambs (another ten of similar weight), for that occasion.
Every bell is inscribed and two testify that they were given by Abraham Jobson. S.T.P., Vicar. 1823. One intones Prosperity to the Town of Wisbech St. Peter and its toast is most appropriate! Another speaks of its many duties: 'I praise the Lord; the people call: convoke the priests; the dead deplore : plagues drive away; and gladden feasts.' .One bell has been chosen to convey the bells' good wishes to newly-weds: 'In wedlocks bands all ye who join. with hands your hearts unite: so shall our tuneful tongues combine to laud the nuptial rite. The tenor ( 21 cwt .2 grs. 15 lhs. in $E$-flat). like a great many other tenor bells. hids folk to church, and also warns them of the grave.

The first peal in the tower was rung on June 24 th, 1771. by a team of eight ringers from Norwich. It consisted of 5.040 changes of Plain Bob Major and those who participated were: John Chamberlain, John Keepus. John Nixon. James Watling, Simon Watling, John Dye. John Trowse and James Vines. Jchn Chamberlain was the conductor.
Since then a number of peals have been rung on the bells. among them compositions of Kent. Stedman and Cambridge. but none has given greater sense of achievement than that of 5.039 charges of Grandsire Caters, on Tuesday, December 9th. 1947. it being the first in the method on the bells by an entirely local Sunday service band of ringers. and was the conductor's (Mr. F. Wigmore) 100 th peal.

## TERRINGTON ST. CLEMENT

Situated not more than four miles from the Wash the great church of St. Clement. Terrington, is affectionately known as the Cathedral of the Marshes.' and worthy it is of this title. Built mostly during the notahle period of church architecture this 14 th century edifice has an amazing display of pinnacles and spirelets which, cogether with the beautiful windows (over 80), lend the effect that the

CHURCH OF SS. PETER AND PALL, WISBECH
whole of this glorious apparition will float away.

The tower-detached from the church by a mere 12 inches-has served in hygone years as a refuge to those Terrington residents who on numerous occasions were mercilessly ejected from their homes by raging torrents which periodically broke through the sea barrier. In 1607 boats toiled over the flooded area between Terrington and Kings Lynn with supplies and comforts for those unfortunate people who had been obliged to seek refuge in this massive place

There are eight bells (tenor 11 cwt 0 grs. ? lbs in $F$ sharp) and one, the sixth. dated 1595 is inscribed. NVNC CLEMENTS EGO CANTO VOBIS ORE JVCVNDO' (Now I. Clement. sing to you with a joyful voice). The treble was given by the last surviving member of the Upwood family in 1925. together with the second which was supplied by public subscrip tion. Both are by Mears and Stainbank Thomas Lester originally cast the third but this bell was taken to the melting pot in 1934 after a neighbouring bell had divorced its headstock and caused considerable damage

The fourth hell dates from 1711 but was recast in 1925: it and number three share identical weight: 5 cwt .0 grs. 10 lhs. Dohson cast the fifth in 1816. and the seventh (recast 1925) was originally created by Thomas Newman. in 1731. The tenor is by Arnold and Dobson. Downham Market. 1778.

An inventory made in the reign of Edward

VI states that in that period St. Clement's Church possessed six hells weighing 2. 11. 13 16. 18 and 20 cwts . From 1716 to 1746 the tower contained five bells and these were later augmented to six. They were further augmented to eight in 1925. when G. Day, of Eyc. Suffolk. rehung the complete ring in a new teak frame. Another overhaul was carried out in 1956.

The first peal on the actave comprised 5.088 changes of Kent Treble Bob Major. rung on Saturday. June 30th. 1925. The conductor was F. R. Borrett

## ACCIDENT INSURANCE <br> FOR BELLRINGERS

Many teams of bellringers are insured under the special policies issued by the Ecclesiastical Insurance Office, L.d... 11., Norfolk Street. Strand, W.C.2. Particulars will be supplied on application. Those with old policies are recommended to consider increasing the scale of benefits provided
The Ecclesiastical Insurance Office, Ltd., was founded in 1887 to conserve for the Church of England profits arising from Church Insurances. The Office undertakes all kinds of parochial insurance.

6175

## NOTICES <br> Scale of Charges

## OUTINGS

## EAST GRINSTEAD, SCSSEX

Ringers from East Grinstead Parish Church. with friends from West Hoathly. held their first annual outing in the West SussexHants border district on May 14th. Ringing was enjoyed at Slinfold, where the bells have just heen overhauled. Milland, after great difficulty in finding the church. Liss. and what a lovely eight they are. Bosham. Lyminster." Findon, a new six. and Cowfold
Methods ranged from rounds to Cambridge Surprise Minor and Bob Major
We are very grateful indeed to Miss E. W Keys for being so helpful. also the incumbents and ringers who met us and helped to make the day so successful.
F. H. H.

## ANDOVER, HANTS

An outing organised by the Misses Hazel and Cherry White in which ringers from St. Mary's. Reading, also participated. look place on Whit Monday. The area chosen was West Surrey, and ringing took place at Seale. St. Mary's and St. Nicolas'. Guildford. Albury and Cranleigh (including three leads of Bristol). A splendid tea was provided by Mrs. White. at Dunsfold. In the evening there was further ringing at Witley and on the new eight at Farnham. where a course of London will be especially remembered.

## OUTINGS-Continued.

## BUCKINGHAM

The 15 th annual outing of Buckingham church ringers went as far as Lincolnshire. By 9.30 a.m. the magnificent eight at Rothwell were ringing merrily. Then into Lincolnshire, the party dividing to ring at Market Deeping and West Deeping.

After lunch at the Greyhound. Spalding, the parish church was visited and a warm welcome received from Mr. and Mrs. R. Noon. The band surpassed themselves in the 10 bell tower of SS. Peter and Paul. Wisbech, and it was with regret that they left for tea at Godmanchester. The evening's ringing was at Godmanchester and Higham Ferrers. A good outing and grateful thanks to incumbents and local ringers.

## ROUGHAM, SUFFOLK

A very pleasant day in North-East Essex was spent by members of St . Mary's, Rougham, and ringing friends from neighbouring towers, on June 11th. Ringing started at 8.30 a.m. at Mistley and towers visited were Harwich. Tendring. Thorpe-le-Soken Kirby-le-Soken. Great Holland, St. Osyth, Thorington and finishing at Bentley, at 9.15 p.m. A big variety of Doubles and Minor methods were also rung as well as Triples and Major up to Double Norwich C.B. At tea time Mr. G. Miller thanked Mr. L. Wright, the organiser for his excellent arrangements and Mrs. Ivings and the ringers' wives. who supplied and served a delightful tea. To all incumbents and tower keepers, sincere thanks.

## ST. LAURENCE'S, READING

An enjoyable day was spent in Bedfordshire, on Whit Monday, by members of the St . Laurence's. Reading, band accompanied by a few friends. Towers visited were Luton, Dunstable. Kempston, Bromham and St. Peter's and St. Paul's, Bedford.
The best ringing of the day was at St. Paul's. Bedford-iwo courses of Stedman Caters and three of Grandsire Caters. Thanks are due to Mr. Sid Foskett, who arranged the outing. and also to incumbents and ringers who met the party.

## SHIPLAKE, OXON

The last ounce of enjoyment was obtained by Shiplake ringers on their outing on Whit Monday. Many of the band were learners and the experiences to them were novel and entertaining.
The first tower. Hurstbourne Priors. provided quite a feat in raising the heavy old creaking bells, during which several of the gentlemen were in danger of losing their trousers, and the treble bell was stayless. The oldest ranger of the party-William Wicks. who had been ringing 60 years climbed the spiral staircase to satisfy his honour. Here the inscription on the tenor bell marks a past vicar's sorrow at the loss of his life :

## Born to Die-Died to live.

The love Thou gavest I give to Thee.
With Thee I joy, Lord weep with me.
The best ring of the day came at Upavon. after a picnic lunch. On the heavy six at Marlborough there was nice ringing, although the low tone-range of the bells seemed rather monotonous. Greatly refreshed by the 'teesupper a move was made to Ramsbury and finally the tiny belfry at Kintbury, approached by a ladder with a rrapdoor between the tenor and treble bells. Very cosy. but we thought Kintbury ringers of old must have been dwarfs.

## Gratefully Acknowledged

## THE PROFESSOR INVESTIGATES

## The Success and Failure of Peals

NOT having heard from the Professor for some little time, I called on him the other day to see what he was up to. As usual I found him immersed in figures, charts and diagrams and making voluminous notes.

## May one mquire what you are interested in now?' I asked.

One may,' he replied. 'I have been making a study of the causes of peal surcesses and failures.
"And as usual, I suppose, you have now got everything docketed, pigeonholed and classified?' I said.
'On the contrary, he muttered gloomily, 'it is one of the most difficult subjects I have yet tackled. One is constantly hampered by the lack of relevant information. If only "The Ringing World" would publish for 12 months not only the peals but the peal attenipts, together with the attributed causes of failure, what interest would be created and valuable data released!'
'Still.' he went on. brightening up a bit, 'I have made some headway. Perhaps you would like to hear how far I have got?' And without waiting for an answer he plunged into his subject.

Ignoring mechanical failures such as broken ropes or clappers, and leaving on one side for a future time complications set up by method difficulty, it can be seen that ultimate success depends upon the attitude and ability of the ringers taking part, of whom the most important is. I suppose, the conductor. But having made a separate study, as you know, of this latter phenomena, may I now confine my attention for the present to the capabilities of individual ringers?'

## You may.,

Thank you! For this purpose I have graded ringers from 1 to 10 according to ability. Now it can be proved that this ability, which I call for the purpose of peal-ringing the Peal Potential ( P ), depends upon two factors:
(a) The ability not to make errors. or Error Avoidance (E).
(b) The ability to right oneself if an error is made, which I call Rectification Ability ( $R$ ).

Let me first deal with $E$. Some ringers are constantly making mistakes while others can be relied upon to ring peal after peal without a single (apparent) error.'

The Professor then produced a graph in the form of a rectangular hyperbola from which he had extracted the following equation :

$$
T=\frac{11}{(E)}-1 \text { or transposed }(E)=\frac{11}{T+1}
$$

where $T=$ time in hours of occurrence of errors. and $E=$ Error Avoidance (ability).
'With this equation.' continued Mr. Dodge. "it is possible for a ringer to grade either himself or others for $E$. The seale varies from an (audible) mistake made on the average every 10 ringing hours (Grade 1) to a mistake made on the average every 6 minutes (Grade 10). A high grading denotes, of course, a low number of errors.'

I was still a bit hazy so I asked if he could give me an example of how this grading operated.

Certainly.' said the ever-obliging Professor. 'Suppose a ringer finds by dint of self-observation that he makes, in peal ringing, about one mistake every peal he rings : that is one mistake about every 3 hours. Then

$$
E=\frac{11}{3+1}-1 \quad \therefore \quad E=2.75
$$

or, supposing a ringer is graded $E=6$ then

$$
T=\frac{11}{6}-1 \text { from which } T=\frac{5}{6}
$$

6 or he will
make on an average a mistake every 50 minutes.'
Seems clear enough,' I commented.
Clear as crystal:' replied the Professor. 'Now let us assume that a band is attempting a peal and the average $E$ of the team is 3 . This means that in a 3 -hour peal there would be in a Minor peal six mistakes-each ringer contributing one error-and in a Major peal 8 mistakes.'

Would you consider that a good or a bad peal?"
Ah. that depends upon the extent to which the errors were allowed to grow. which in turn depends upon the Rectification Ability (R) of the ringers concerned,"

## Explain.'

Well. Even you must have noticed that some ringers can right themselves more quickly than others; in fact "Old" Jack Brothwell used to insist that it was the ability to correct oneself quickly that was the hallmark of a first-class ringer. $\mathbf{R}$ (Rectification Ability) is difficult to assess, as the assessment can only be based on observation (or strict self-analysis) carried out over a long period of time. Most ringers enjoy a period of "coasting." (i.e. ringing instinctively without any conscious effort of thought or concentration). A good ringer suddenly realising that he doesn't know what he should be doing will continue "coasting" and by intuition or shrewd observation will once again find his path without a bad blow being struck or without anyone else knowing that he had, temporarily, been lost. Another ringer will say, "Sorry!" and put himself right without having to be corrected. whilst at the other end of the scale, given exactly the same set of circumstances, a third ringer will plough on for many changes before being forced back into the groove, and even then will accept the least excuse to wobble out of it for many changes more!'
Mr. Dodge then quoted the example of a ringer who was, at one time, constantly in demand as a peal-ringer and who had a very low $\mathbf{R}$ but a very high $E$. This ringer would ring peal after peal without making a single error but once he got wrong it was, in the words of one conductor, 'the devil's own job to get him right.' He had to be told every bell for many changes before he was again sure of himself.
Once his weakness was recognised, however, he presented no problem to the conductor (a very famous one) in whose peals he frequently appeared and who was, apparently prepared to accept this occasional lapse for 10 to 15 hours' faultless ringing.

Now: continued the Professor, "if we accept the first example as Grade 1 (R) and the last as Grade 10 we shall be able to make suitable gradings between these two extremes. I have therefore prepared an empirical formula assuming it takes 2 changes for the first ringer to rectify himself and 20 changes for the second.

Changes to reach stability
i.e. Grade $(\mathrm{R})=$

And to calculate the Peal Potential (P) of any given ringer we can take an average of E and R , i.e.

$$
P=\frac{E+R}{2}
$$

' Few ringers possess a Peal Potential of 1 or 2. and the average ringer varies between 3 and 7. Ringers below 7 will cause a deal of difficulty and many peal failures, although ringers above this grade do their share. A team with an average of 7 would score. I should think. on an average about 3 peals out of 10 and one with an average of 5 about 5 out of 10 . i.e. about half their peals. (Including so-called "False starts" which are really lost peals.)"
(To be continued next week)

## TWELVE BELL PEALS

Grundy 6. L. M. Woodhead (cond.) 7. E. Philpot 8 . Rung for the wedding of Miss Ann Wood and Mr. John Jackson.

## CAMBRIDGE UNIVERSITY GUILD

In previous years transport for the annual end-of-term outing of the Guild has been provided by willing volunteers with cars and motor-cycles, but this year arrangements were simplified by the hiring of a coach which left Cambridge for the Bedford area on June 7th with 24 ringers on board.
The day was fine and clear. which pleased everyone- especially, one imagines. the individualist who was making remarkably good speed on his bicycle. when we passed him. The first tower was St. Owen's, Bromham, a church set in pleasant parkland. One of our prominent ringers was unable to teach a band to ring Grandsire, but Cambridge and London were rung on the excellent bells-and in any case the view from the tower was superb.

We then headed into Bedford. to St. Peter de Merton, by which time members who had been detained in Cambridge by Tripos and other formalities were beginning to catch up with us. One set of rounds was considerably delayed until the treble ringer was reminded of her position, but Spliced Cambridge and Rutland was brought round before we dispersed for lunch.
The first stop after lunch was at the detached tower of the remains of the Abbey Church of SS. Mary and Helena. Elstow whose connection with John Bunyan is too well known to need repeating here. A wellconducted touch of Bob Minor was complicated by the banging of a large drum below. and more Plain Bob was produced on a set of handbells. which had previously been rung exclusively by pigeons. Nevertheless. Spliced Plain and Little Bob was recorded and the church deserved far more attention than we had time for.

At Woburn the bells were magnificent and both Yorkshire and Bristol were rung, as well as other noises less worthy of. their excellence. Envious mutterings about peals were to be heard and yet one less appreciative ringer gratefully accepted a kind offer to drown the bells with the organ.

After a pleasant drive through the parkthe deer seemed never to have seen ringers hefore-we arrived back in Bedford where there was just time for a cup of tea before the last tower. St. Paul's. Here we were
joined by several local ringers and Grandsire joined by several local ringers and Grandsire
Caters and Cambridge Royal were rung, and also the first success in Spliced Caters was achieved with Spliced St. Clement's and Grandsire. For want of anywhere better. an evil course of Plain Bob was rung, in hand, and in extremis on a spiral staircase.
Slight disagreement about the time of the return of the coach was settled by the determination of the lady members. and we arrived safely back in Cambridge in good time to employ the evening. The day was agreed to have been a complete success and our thanks are due to Frances Secker and James Taylor for excellent arrangements, to local ringers who were waiting to welcome us, and to the incumbents who so kindly allowed us to ring.

## QUARTER PEALS

SHOREDITCH, LONDON.-At the Church of St. Leonard. on June 26th, 1.311 Stedman Cinques: Miss M. Prockson 1, Mrs. F. J. Matthews 2, Miss D. A. Deverell 3. Mrs. R. F. Deal 4. T. H. Francis (cond.) 5, C. ## THEOLOGICAL COLLEGE RINGING

Sports fixtures between Chichester and Salisbury Theological Colleges usually provoke bitter rivalry: a joint meeting of the ringers of these Colleges on Ascension Day, however showed that campanology can overcome the acrimony of the cricket and hockey fields! The Chichester party, five in number. and accompanied by four ringers from the Bishop Otter (Teachers' Training) College, travelled in two cars via coffee at Winchester and sandwiches and liquid refreshments at (appropriately) Middle Wallop, meeting the Salisbury party at Britford.

The Salisbury ringers had spent the morning ringing at Durnford ( 5 . 15 cwt .) and Woodford (6. $8 \frac{1}{2} \mathrm{cwt}$.) : at Britford ( 6.8 cwt .) rounds and Grandsire Doubles were rung by bands representative of both Colleges. These bells are rung from the crossing in the church. and have therefore a long draught: the experience of the Chichester Cathedral draught was usefu! to the visiting learners, who otherwise might have been in considerable trouble.
Coombe Bissett ( $6,10 \neq \mathrm{cwt}$.) was next visited: the pleasantly toned bells here are apparently hung immediately above the ringing room ceiling, and made bob-calling difficult.

The last tower of the day was Broadchalke with its fine ring ( 6.15 cwt .). where the party were joined by the local Ringing Master. Throughout the day the Salisbury party were accompanied by Mr. Harry Prout. formerly of Corsham. Wilts, and now living in Salisbury. He also joined the combined party for tea in Salisbury Theological College. and had the misfortune to fall heavily down a staircase in the College when leaving; fortunately he has now recovered.

The Chichester contingent joined the rest of Salisbury Theological College for Even-
song in the College Chapel: then, after further song in the College Chapel: then, after further
refreshment in the King's Arms. came farewells and promises of other joint meetings in the near future.
C. R.C.C.

WARSUP. NOTTS, -On St. Peter's Day, June 291h, 1,440 Londun Surprisc Minor: Miss D. Marshall 1. D. H. Rooke 2. M. Foster 3, G. Challans 4, F. Flint H. T. Rooke (cond.) 6. Rung for Confirmation

## COMBINED MEETING AT HIGHCLERE

The Andover District of the Winchester and Portsmouth Guild and the Newbury Branch of the Oxford Diocesan Guild held a combined mecting at Highclere on June 18th. when the afternoon's ringing was much enjoyed. The new Rector (the Rev. T. Lewis) conducted the service and also presided ir. the business meeting which followed. A minute's silence was observed at the meeting for Miss Stella Davis. Ringing in the evening was at Thatcham and Newbury. It is hoped that this is the first of many joint meetings between the two areas.

## ESSEX ASSOCIATION South-Western Division

The South-Western Division's outing to Saffron Wadden's Great Ringing Day is usually favoured with fine weather and this year was no exception. After a grey start. with an hour's ringing at Harlow Old Town. the day warmed up and from noon onwards a brilliant summer's day was enjoyed by both the ringers and a local plague of greenfly on the wing.
In attempting to ring the eleventh to an opening touch of Stedman Cinques the Master of the S.W. Division. no stranger to heavy bells. was brought almost literally to his knees. After the bell had been examined it was declared dangerously unsafe for further ringing and for the remainder of the day the ringing was reduced to Caters and Major on various combinations of the remaining 11 . The music of Bristol. though well struck. was entirely lost on the front eight. and the funereal minor middle eight did nothing for L.ondon.

Following lunch at the Freemasons ${ }^{\circ}$ Hall. a good afternoons ringing was nevertheless enjoyed. and at $5 \mathrm{p} . \mathrm{m}$. the coach left for Dunmow. At least no fault could be found with this beautiful octave. and a course of Bristol brought forth its full richness.

The usual evening stop for refreshments at the Good Intent, Sawbridgeworth, had heen cleverly extended by omitting tea at Saffron Walden, so that by the time the party reached the cosy inn they were ready to deal with the large cold collation laid out in an upper chamber. helped by mellowing draughts of West Country type cider

Bill Bailey and Lionel Woods provided their ever-popular entertainment on handbells, and the former sang to us the appropriate "Bless this House,' unfortunately reduced to halflength by spontaneous applause from the rock ' $n$ ' roll contingent. at the end of the first verse.
For the fourth successive year our grateful thanks are due to Lionel Woods for his efficient organisution of this very pleasant even

The 90th birthday of Mr. Adolphus ( ${ }^{\text {Bob ') Roberts }}$ was celebrated on June 29th by the ringing of a quarter peal at St . Michael's, Stoke, which was recorded together with a birthday message from his friend, Mr . D. Ellender. The recording was played back to Bob at his home. Until two years ago when an accident prevented him from ringing Mr. Roberts was a tower of strength to the Coventry Diocesan Guild, of which he is a vice-president. He rang his first peal for the Ancient Society of College Youths at the age of 18 .
A memorial service to the late Preb. Martin Willson will be held on July 14 th at St . Paul's Church. Bristol, at 1.45 p.m.
When Spalding ringers, on their outing, visited Whitnash they were mel by Mr. Hawley, now 95, who to the delight of the assemlly joined in the ringing.
The peal rung at Corse, on June 18th, was to welcome the new Rector of Corse with Staunton. the Rev. J. Wynn-Davies, but tragically after being taken to hospital on that day he died on June 24th. Several ringers attended the funeral service at Staunton, which was conducted by the Bishop of Gloucester.
Largely inspired by Mrs. Mossop, the Vicar's wife, the band at Constantine, Cornwall, already ring Grandsire. In the main they are self-taught, but with attendance at meetings and inspiration from 'The Ringing World, a good general knowledge of the art has already been acquired. Mr. John Oldham, of Loughborough, recently visited the tower to hear another of his foundry's recently installed rings.
Two bands attempting to ring the first peal of SS. Peter and Paul Doubles, in a Church of SS. Peter and Paul. within the festival, have failed. An attempt is soon to be made to ring a peal SS. Matthew, Mark, Luke and John, writes a Northampton correspondent. Following this it is hoped to ring a peal of St. Giles Doubles in a Church of St. Giles, and a peal of Spliced St. Thomas and Reverse Canterbury Doubles in a Church of St . Thomas-a-Becket.

## GOSSIP

Mr. Peter G. Richards, who is home at Dartford, on holiday from Australia, rang his first peal in the British Isles on June 25th, at Gravesend. He has previously rung 11 peals - 10 in Australia and one in New Zealand and has great hopes of ringing some more before returning to Australia.
The peal at Mears Ashby (page 444) was conducled by Allan R. Jones. The omission is regretted.
SS. Philip and Jacob's ringers, Bristol, are sorry to lose the services of Mr. R. C. Seager who has been a regular member for over thirty years. It is hoped that he will have a happy retirement and lots of ringing in his new home in Cheshire.

Mr. W. Birmingham, of Slough, is now very happy. After 15 years of effort, he has a Surprise band at his tower. They rang a quarter of Yorkshire for the Patronal Festival. He is hoping the band will stick together to score Cambridge Royal.

Mr. P. Amos is anxious to know what happened to the bells of St. Felix Church. Babingley. Norfolk, about one mile from Castle Rising. The tower stands as a landmark from the main road about a mile away and the church has been used within living memory.

The quarter peal at Buckfast Abbey was the first on 8 bells in which the monks have taken part. It marks another step forward in change ringing at the Abbey. The young ringer on the treble is one of a number of boys and girls who started ringing at Teignmouth about 18 months ago.

Mr. G. E. Symonds. in a letter to the Ipswich 'Evening Star,' suggests that the Church of St. Mary-at-the-Quay, Ipswich, should be made a School of Campanology, All that is required is the strengthening of the tower and a complete overhaul of the bells and fittings. The church is the headquarters of the Boys' Brigade and if the money was forthcoming there would be a golden opportunity for some of the boys to take up ringing.?

## ALPHABET FOR BEGINNERS

## By T. J, LOCK

M " (continued)

MIDDLETON'S. The peal of Cambridge Surprise Major produced by Charles Middleton in 1844 holds a unique place amongst the compositions of the Exercise. This, with its variations, is the only peal of Cambridge to be obtained by the use of conventional bobs and without parting the tenors. That this is so. is of course due to the peculiar falseness of the method. How did Middleton obtain his composition? We cannot answer this question with certainty but by studying the falseness of Cambridge some reasonable guesses can be made.

In common with other would-be composers, Middleton must first have found the courses which are false against the plain course. These are $24365,32546,46253,32465,43265$. Then he would have the task of collecting together courses true against each other and of sufficient number to provide a minimum of 5,000 changes. i.e.. at least 23 courses are required unless bobs Before are used.
Considering first of all the three false course ends 24365,32546 and 46253 , it can quickly be seen that two separate groups of five courses can be written down in which each course of one group has three false course ends in the other. The pair of groups which are mutually false are:-
$\begin{aligned} & 23456 \\ & 3 \\ & 5\end{aligned} 2643435$
$\begin{aligned} & 35264 \\ & 56342546 \\ & 6\end{aligned}$
6452365432

The remainder of the 60 courses may be divided into five more pairs of similar groups. Now considering the other two false course ends 32465 and 43265 . these together with 24365 dictate that no reversals in 56 can be true. Assuming that all the courses in the left-hand block above are to be included in the composition, then no ' 65 s , ' 46 s , ' 24 s , ' 32 s or 53 s may be included. If the six pairs of five-course groups are written out and those containing 65 s . etc.. are marked then one group from each pair remains unmarked. If these are inspected it will be found that five reversals in 56 occur. In each case there is a choice of selecting two courses or one course, e.g., there is a choice of discarding either 25463 and 42563 or 52436 . If in each of the five cases only one course is discarded then a maximum of 25 true courses can be compiled. These 25 courses are frequently referred to as Middleton's courses

How Middleton went about joining the courses together to form a complete peal. we do not know. Inspection of the courses soon reveals that a five-part basis is possible Many blocks can be formed which repeat four times with truth (the block M H W 3H used in T. B. Worsley's 5.024, for instance), but none except Middleton's produces a length of over 5.000 changes

Many composers have since produced ingenious compositions using unconventional calls. The fact that they have resorted to devices such as singles. 6th place bobs. and bobs with the treble lying behind indicates they are satisfied that no other composition can be obtained with conventional calls. This is difficult if not impossible to prove but nevertheless we may be certain that Middleton's composition will remain unique

MUFFLED.-Muffled ringing is restricted to times of mourning or sadness, and should not take the place of Sunday service ringing. Many people prefer half-muffled ringing, but there is no doubt that either half or fully muffled ringing. well struck and with a slower beat than usual. leaves a marked impression upon the listening public.

A muffle is usually a cap or pad of leather which is secured around the ball of the clapper by means of straps so that the bell note is produced by the impact of metal and metal with the leather in between.
For half-muffled ringing it is customary to have the hand-stroke open and the back-stroke muffled as this produces a satisfying echo effect. And for half-muffled ringing one side only of the ball of the clapper is covered with a pad whilst it naturally follows that for fullymuffled ringing both sides of the clapper are covered with pads.

MR. HARRY MILES, M.A. (Oxon), M.R.S.T., M.P.F., M.I.P.S. Truro Diocesan Guild.
Mr. Harry Miles is yet another distinguished member of the teaching profession who has made a great contribution to our art by devoting his talents to the instruction of beginners. London ringers were able to see some of the results of his work when a few years ago one of his pupils came to town to complete his education at London University This youngster was John Waters, and he made a very good impression in London ringing circles when he tackled 12 bell ringing

At this point we would do well to consider the act of fixing the muffles. Unfortunately there is often no room in the pit of the belfry to secure the pads while the bells are down, and so the more dangerous method of doing the job while the bells are up has to be resorted to. However, by taking care (having someone with you and not doing the job hurriedly), and by not taking any risks (seeing where you tread, not reaching too far, and tying the wheel of the bell to the frame with stout rope) any fear of accident can be avoided. Also for half-muffled ringing the muffle has to be fixed on the correct side of the clapper. Did you know that during ringing the clapper travels at a faster pace than the bell, at each stroke the clapper gains on the bell and hits it on the forward or leading side? At the end of a stroke the clapper is resting against the forward side. but when the bell reverses its direction for the next stroke the clapper is then at the backward side and, due to its design. gains in momentum in its downward fall and hits the bell when both are on the upward swing. Thus, when fixing a muffle for half-muffled ringing with the bel set at handstroke the pad would be fixed between the clapper at rest and the bell, and with the bell set at backstroke, the pad would be fixed on the side of the rested clapper which is opposite to the side in contact with the bell.

## ESSEX ASSOCIATION <br> Northern District

A very successful and happy gathering of more than 40 members and friends from 20 towers attended the Northern District meeting at the 14th century Church of St. Mary the Virgin. Stebbing, on July 2nd

The service was conducted by the Rev. J Burslem. of Bocking.
At the business meeting Mr. H. Pratt welcomed the ringers. Two new members were elected. It is hoped to hold the next meeting at Witham, on September 10th.
and was at once an outstanding success. Such had bcen the instruction he had received that his striking was all that could be desired. His general deportment, too, met with approval everywhere. Yes, Harry Miles trains em all right. and when he has done with them they can go anywhere with complete confidence. Cornwall is not an easy territory to work in, from the ringing point of view, but that has not daunted Harry Miles.
Born at Portsmouth in 1884, he learned to ring at Shipton-under-Wychwood when 10 years old and at the age of 15 rang his first peal (Stedman Triples). He is a schoolmaster hy profession, and graduated from Oxford University, so it is natural that in his most active years he was prominent in the affairs of the Oxford University Society, which he helped to revive after the first world war. He became its Master in the 20 's and taught undergraduates for years. Also, he served as Master of the Oxford (City) Society in 1909 and 1929. In 1930 he suggested to the Dean and Chapter of Oxford Cathedral that the University Society and the City Society should combine forces to ring the Cathedral bells for Sunday service. They gladly agreed and this has gone on continuously ever since.
He represented the O.U.S. on the Central Council from 1929 to 1934. On retirement in 1946, he went to live at Carbis Bay, Cornwall, and was elected (1948) to represent the Truro Diocesan Guild on the C.C.
Amongst the notable peals in which he has taken part was the first peal on St. Ebbe's bells. Oxford. which were augmented from six to eight, as a memorial to J. W. Washbrook It had been insisted by Rev. C. W. O. Jenkyn and Tom Hibbert that the bells must be rung very slowly to enable the trebles to be heard. Harry, as conductor. saw to it that these instructions were carried out and the peal, with a $4 \frac{1}{2}$ cwt. tenor, took 3 hours and $37 \frac{1}{2}$ minutes to complete! Hz took part (1905) in Rev. F. E. Robinson's 1,000 th peal, and is sole survivor of a band which included Rev. Canon Coleridge and J. W. Washbrook. In 1950 he took part in the Coronation peal of Stedman Cinques, at St. Paul's Cathedral, London.
In 1949 Mr . Miles was appointed by the Central Council to compile the roll of honour of ringers who were killed in World War II. He made a very fine job of this and at very little cost to the Council. The handsome volume was completed in 1954 and placed. along with the roll of honour of World War I. in an oak case with glass top in St. Paul's Cathedral. where it can be inspected without formality by anyone. The pages are regularly turned by one of the officers of the Ancient Society of College Youths.
Mr. Miles's other interest is music, and he served for some years as assistant organist in an important Oxford church. He was secretary for a time of the Oxford Branch of the Organists' Association. His greatest Jove, however. is education, and for eleven years he was member of the City of Oxford Education Committee, when it had under its care 11.000 children in the Primary Schools and 3.000 in its Secondary Schools. Harry now lives in a place where, it is said. folks live as long as they like, so we expect (and hope) to have him with us for many years!-JAFUS.

## SOCIETY OF FRIENDS OF THE EXERCISE

THE Kings Arms, East Budleigh, was again the headquarters for this Whitsun gathering of old and new members of the S.F.E. Early arrivals this Friday evening were detailed for a peal of Minor which was successfully conducted by Brian Bladon despite heavy opposition from the village organist who nearly made our ringing inaudible to us. By the time the peal had finished most of the company had arrived in the village. We were minus the Warmley contingent this year but they all sent their good wishes.
It was in brilliant sunshine that we left H.Q. early on Saturday morning for a day's ringing in the area west of Torquay. The usual fleet of cars and motor-cycles was abandoned to enable us to travel together in a battered old Bedford 'bus, driven of course by the un-chained. Mayor of East Budleigh. The first stop was at Trusham (6) where a variety of Doubles and Minor methods was rung before we moved off for an hour's ringing on the noble twelve at Buckfast Abbey. We were welcomed here by the Rev. Oswald Mowan and Aubrey Bennett and were soon ringing Grandsire and Stedman Cinques and Stedman Caters followed by a lower on twelve and the tolling in of 'Hosanna,' the 7 ton bourdon bell.
Our next tower was Totnes and it was here that we had the best ringing of the day with well struck Stedman, Bristol and Yorkshire. Afterwards came Abbotskerswell (6) and Kingskerswell (6) and after a quick tea we visited Combeinteignhead (6) and Stokeinteignhead (6) and concluded the day's ringing with a course of London at West Teignmouth. John Hunt led the community singing as the bus sped back to H.Q.

On Sunday morning the group split forces to help man the towers at Withycombe Raleigh. Littleham. East Budleigh and Harpford. At the first mentioned a quarter peal was rung with two of the local ringers standing in. After lunch we set off for Exeter Cathedral to ring for evensong. We were joined here and for the remainder of the tour by Derek Jones and his party, who had the misfortune to lose a peal of Yorkshire Major at Wrington the day before. Luckily the bells were already up and we were left with plenty of time to ring Grandsire Caters. Stedman Cinques and three leads of Kent Maximus to the satisfaction of one of two members of the party who were listening in the precincts. The next tower visited. by way of contrast, was the comparatively light six at Poltimore which was followed by tea at Broadclyst where we were due to ring for evening service. As a last minute arrangement some of the enthusiasts procured Heavitree bells for a quarter of a Superlative. so those who were left at Broadclyst also decided to go for a quarter and succeeded in scoring Yorkshire.
On Whit Monday morning we set off for Exmoor in cars and on motor bikes. Travelling via the Exe Valley. we called at Cadleigh for half an hour's ringing on the six at St. Bartholomew's. The next call was at East Anstey (6) where we were met by Bill Warc. from Tiverton. who joined us for the remainder of the day. We crossed the border into Somerset to ring at Hawkridge. Lunch was taken at Withypool before ringing at the Parish Church. At this juncture Reg Hooper and Bert Woolven said farewell and sped off together on motor-cycle to get to Folkestone in time for the Tuesday session of the Central Council. Exford was our next tower, followed by Winsford where we had tea before ringing. It was here in this picturesque setting. the birthplace, incidentally, of the late Errest Bevin, that the annual photograph of
the Society was taken. This in itself is always an amusing affair but just to add to the humour on this occasion Cyril Savage and his one year old son, who were really only intending to paddle, suddenly slipped and fell into a near-by stream.

The next two towers were Exton and Cutcombe (hoth sixes) where the ropes were so long and the sallies so low that it was necessary to ring kneeling down or sitting on buckets. To add to the novelty at Exton the Society rang its first course of Coal Minor, a new principle devised by Robin Leale. Our last tower was Luxborough, the only 5 on the tour, which some of us nearly missed by making a detour to see some of the best Exmoor scenery from suitable vantage points. The company then dispersed until September with grateful thanks to the organisers. Cyril Savage, John Gilbert and Frank Mack and to all the incumbents and tower captains who so kindly met us.
R. J. B.

## LEEDS UNIVERSITY SOCIETY

On June 21st three members-Keith Williamson. Michael Swift and Russell Read-successfully kept six handbells ringing continuously for 12 hours as part of the University Rag Week proceedings. The ringing varied from rounds and firing to some very good touches of Bob Minor and courses of various minor methods. From time to time Keith Goldthorpe or R. Brown would add two trebles for Bob Major or Grandsire Triples, but the general standard of striking was very good ihroughout the day.

At the end of the day the bells were fired, and the ringers, remarkably fresh after their exertions under the blazing sun, were applauded hy the small crowd which had assembled. Thanks are due to the ladies who so kindly provided food and drink and collected on behalf of Rag: to Grace. Valerie, Stella and Fiona: also to Keith Goldthorpe. A fine supper was afterwards enjoyed in a Chinese restaurant.
A word of appreciation is offered to Mr . D. Thorp, secretary of the Leeds and District Society, for putting in an appearance in the evening. Such an interest in local proceedings is always welcome from an officer.
On June 24th the Society had a very enjoyable outing into Derbyshíre. Towers visited were: Droifield. Old Whittington, Old Brampton. North Wingfield. Darley Dale and Ashover. On the return journey we were warmly welcomed at Chesterfield practice and joined the local ringers for Grandsire Caters and Bob Royal.

Thanks are also due to Grace. for the splendid arrangements for the day, and to Russell. who drove us well and safely all day. Thanks again to Grace for the use of her flat for 3 farewell party on June 27th. An unsuccessful attempt for Bob Minor in hand shall have no further comment. except that no one Horried.
R. B.

## SOCIETY OF SHERWOOD YOUTHS

The meeting of the Society at Colston Bassett was most successful. Bristol. Yorkshire and Rutland were amongst the many various methods rung on this fine eight.
An appetising tea was provided and preceded by a short service. Eleven new members were elected. two or whom were Roland Cooke. of Asfordby, who was celebrating his birthday, and Michael Blore, of Derby, who is a member of the College Youths

## UNIVERSITY OF LONDON SOCIETY

## Whitsuntide Week-end

Memories of the 'Blue Linnet ' week-end of 1955 were revived when members of the University of London Society revisited Kent for their Whitsuntide week-end, though our spacious headquarters at Brasted Theological College bore a marked contrast to those of the previous excursion. So also did the itinerary which allowed a comparatively leisurely pace and ample time to explore the byways, richly coloured with rhododendrons, and to enjoy the fine vistas across the Weald of Kent.
With no ringing arranged for Friday evening each was free to pursue his own interests, and. by common consent, a most pleasant evening was spens at an establishment at Ide Hill. The later arrivals were duly welcomed ani everyone successfully negotiated the long hill oll the return journey, although one member. having omitted to assuage his scooter's thirst, had to walk.
Having set the pace next morning with a course of Bristol at Westerham, with its interesting spiral wooden staircase in a 13th century tower. a brief diversion was made over the border into Surrey. The exterior stairway at Limpsfield Chart caused some apprehension from the ladies. while at Lingfield a missing rope unfortunately confined our ringing to Minor methods. The Society's impressive convoy of transport moved off from here 'in line astern' in search of a suitable site for lunch. The efforts of the leader and his navigator to evade the following column proved surprisingly unsuccessful, and, to the background inside of the Society's new handbells, a lingering picnic was pleasantly relaxing
Despite their weight, the six bells at Cowden proved rather difficult to strike well; though we trust that the approaching bride appreciated our efforts. The programme permitted an opportunity to visit the Sidney home at Penshurst Place. a 14 th century manor house much enlarged at later dates. Before returning to Brasted. an enjoyable hour's ringing at Penshurst drew several interested spectators.
The warden of Brasted Place celebrated Holy Communion in the College Chapel on Sunday morning and later the party divided to assist with service ringing at Westerham. Sevenoaks and Cudham. On Sunday afternoon the kind hospitality of our organiser. Peter Layton, and his wife was greatly appreciated. prior to evening service ringing with local bands.
After ringing at Leigh and Speldhurst on Monday morning. some sampled the Spa water at the Pantiles, Tunbridge. Wells, while others were attracted to the fairground across the road. An attempt by a Society band to steer a clear course in the bumper cars proved as unsuccessful as might be expected.
Following lunch in the hop country, to the accompaniment of a party of 'East Enders in full holiday spirit. the elusive tower of East Peckham was located. A hunt for the key. a battle with the oil lamps, and two attempts to raise the tenor right were necessary before we could enjoy these bells.
Our efforts hardly did justice to the fine hells at Wrotham. though a fair course of Superlative was rung at the second attempt The customary course of London Scholars Pleasure was accomplished at Chelsfield. our final tower. after the inevitable research to produce the method.
Our grateful thanks are due to Peter and Nancy Layton. the incumbents and towerkeepers, who allowed us to ring, and to our keepers, at Brasted Place
WATFORD, HERTS.-On July 3rd. 1.260 Grandsire Triples: S. Laud (first quarter) 1. P. Pratt 2. Mary Batholomew 3, J. Nugent 4, Rosemary Hawkes 5. S. Dolley 6, D. Laud (first as cond.) 7. M. Howard

## LETTERS TO <br> THE EDITOR

## WRONG BELFRY

Dear Sir,-I would point out that information from Miss Pamela M. Jervis in Belfry Gossip is incorrect. The drawing on the Christmas issue of the 'Radio Times' is not from a photograph of Capel belfry, but I helieve may have been from one of Newdigate belfry, which church is about two miles from here. I might add the drawing was recognised by a junior Capel ringer as heing Newdigate by junior capel

HANNAH M. PENFOLD.

## Capel. Surrey

Miss Pamela M. Jervis writes apologising for her error.-Ed.

## THE EXTENT OF BRISTOL

Dear Sir,-In 'The Ringing World dated August 24th, 1956. you published a composition 21.920 of Bristol Surprise Major. When 1 sent this to you I claimed it as the record length of the method. This was not disputed and so far as I know the claim still stands.
Following the Kirby peal there has been some unpleasant, correspondence and Mr . Brown asks. Why don't they ring 40.320 of Bristol? One answer to this is that there is not and never will he a composition for the extent of Major in the method.-Yours sincerely.

JOHN SEGAR

## Retford. Notts

## B.B.C. AND ROYAL WEDDING RECORDING

Dear Sir.-These facts may help to throw some light on the circumstances which led to Mr . Pitstow's letter in your issue of May 20th.
The opening sequence of the recording of the Royal wedding on B.B.C. Television was planned as a montage of photographs of Westminster Abbey. Princess Margaret and Mr. Armstrong-Jones with a musical background. For reasons of copyright we were unable to use music. so bells were substituted; but as the sequence had to be prepared before May 6th. we were unable to use the actual wedding peal.
We wanted the happiest possible background, and the available Abbey recordings at present in our effects library did not give quite the desired result. so we built up the atmosphere by blending the bells of St. Clement Danes' with those of a village church.
It may interest your readers to know that a recording of the Abbey peal on the occasion of the birth of Prince Andrew will shortly be added to the B.B.C. effects library.-Yours faithfully.

ANTONY CRAXTON.

## B.B.C

## 1 WAS a STRA NGER'

Dear Sir.-I know nothing of the incident to which Mr. Peter J. Broun refers. but. if correctly described, his letter rather gives the impression of its being the rule rather than the exception. I can assure him that no association gives more time on encouragement to the younger generation than the Worcestershire.
Since, however, his letter mentions bands and individuals. I must remind him of Association Rule 12. and suggest if he wishes to pursue the matter he can do so through the branch meetings.-Yours faithfully.
G. D. JOHNSON.

Worcestershire Association.
Rule 12 states 'that no member shall forward any communication to the public press reflecting upon any company in union with the Association or any memher thereof without the sanction of the secretary:-Ed.

## CONFIRMATION AND CHURCH OFFICES

Dear Sir.-" 'Tis good sport to see the engineer hoist of his own petard -I seem to remember Rev. D. G. Brunning, in your correspondence columns. saying that he did not take The Ringing World in order to read theology, but campanology. Now he himself joins in theological disputation in your paper. and with a most disputable contention. Certainly baptism is necessary for the holding of office in the Church. but even within the Anglican Communion. Confirmation (or the desire for that Sacrament) is only held necessary for the reception of the Holy Eucharist. It may be the discipline of the Church of Wales to insist that godparents he confirmed -but their very duty is to bring their godchildren to Confirmation. Servers at the Holy Eucharist are frequently unconfirmed, when of tender years: it is ridiculous to say that no office may be held within the Church without (or more accurately. before) Confirma-tion.-Yours, etc..

## DOAN 'EE EVER ZAY <br> JOHN SCOTT

Dear Zur--Us ave just read that there Tragic Ballad thing in 'Ringing World, and us be all steamed up about it down yer in Cornwall.
Tidd'n that us minds they there Collidge Youths an' the Cumbersomes 'avin' a go one to tother, but when they sez that us only rings rounds-well tis gwain a bit too far.
Tis all very well they there Lunnon chaps fer to brag bout their Stedman Sinks an all that muck. but when it comes to a bit of "onest raisin an vallin' they'm all up a gum tree as the zayin goes. Now as fer change ringin there iddn nowt better than to call em into Queens or Tittums-proper ansome it zounds. specially at thirty zeb'm rounds a minnit.

An' us'll ave knaw too that us does a bit of scientific ringin'. why a couple of weeks ago one Thursday night us rung Grandsher Triples. true us 'ad zeb'm visitors with us. but 'twas ansome ringin' an' 'Erbert what was ringin tenor only got lost vower times.
Us did try bob majors one Sunday but Vicar ee doan like to ear tenor all mucked in. an Miss Daisy what plays the orgin got all confused an pulled out the wrong stops: an anyway it shaks the pinnacles somethin* cruel.
Us ad a team down yer from Lunnon way last an they aived the bells up in wans an twoes. caw! dang ee you should ave eard the commotion. First the vire brigade turned out thinkin it were a vire. an Mrs. Briggs cat ad premature kittens. proper to do it were.
1 went up to Lunnon one day an wint up to the church. the chappie what was in charge sez to me, 'Can you ring Bob Maxeemus. 'Ees I' spose sez I.' Caw'! there wuz undreds of ropes an everyone shoutin an ballin wan across tother. Twad'n a bit like our old gaffer at home with is six to $2 \mathrm{cb}{ }^{\circ} \mathrm{m}$ an' drae to vower." somebody told me I should be dodgin wrong and right. I told een to make up is mind as ee couldn' ave it both ways: seemed quite urt ce did. An the ropes too! they all ad big loops in the ends. not like ours where us cuts em off neat like an" ties a nice big knot in the end.
Still 1 reckon tis every man to is own style of ringin. .but doan ee ever zay us only rings rounds down cre cus us don't see! Thankin yew ever so.-Yours trooly.

GARGE.

## FEELINGS IN NORTH WORCESTERSHIRE

Dear Sir.-I would like to point out that the tower referred to by Mr. P. J. Brown ( 'R.W. page 437) is neither Wychbold nor SI. Peter's, Droitwich. as young ringers are much to the fore at both churches, and visitors are always welcome.
When I first came to this district, in 1957. I was told that visitors were not favourably received at Dodderhill. This information was votunteered by the gentleman who was then tower captain at Wychbold, but who left in 1958 to join the Dodderhill band, and is. presumably, the person who connected the young ringers with my name.
In early 1959, Wychbold bells had become silent, and I was asked, by the Vicar, to assist in teaching some youngsters to ring there. This I agreed to do. but was virtually told that if 1 continued teaching these beginners. the aforementioned gentleman and his family. would withdraw their services from Dodderhill belfry rather than ring with me.
Having gone so far, I was reluctant to give up the learners, now a keen and promising young band, and rather than cause further dissension amongst the Dodderhill band, of which I had become a member, I left. so that instead of losing three ringers, they lost only myself (in any case, not a good eight-bell ringer). When I left. I thought that I had made it clear that no slight was intended to the regular members of the band. who had always made me very welcome: apparently I hadn't.
It is my sincere wish that this present illfeeling will soon give way to a more friendly and co-operative relationship between Dodderhill and Wychbold bands.

Behold how good and joyful a thing it is. Brethren. to dwell together in unity," (Psalm 133.)-Yours faithfully,

PAUL, CATTERMOLE,
Honorary Secretary,
St. Mary's Ringers, Wychbold.
Witton, Droitwich,
Worcestershire

## AMBIGUITY!

Dear Sir,-It seems a pity that the Peals Committee refused to recognise the peal of Minor in which two ringers each rang two bells. We are told that the exact wording of the rule it:-
Each bell (or bells) . . . shall be rung by the same person (or persons).

Does this not mean that:-
Any one particular bell: Any two particular bells: More than two bells shall (or may) be rung by any one particular person: Any two particular persons: More than two persons, respectively?
If so, then it follows unconditionally that:-
Any two ringers may ring any two hells, which is exactly what occurred.
This may not have been what was intended when the rule was framed. but it does seem to cover the event in question
Incidentally. I deplore the suggestion made in the report that irregularities in peals should be kept secret if the ringers wish them to be accepted.-Yoars sincerely.
H. S. HOBDEN.

Horam. Sussex.

## C.C. MEMBERSHIP

Dear Sir.-With reference to your issue of June 17 th. I note that the honorary secretary of the Central Council show's that I served as member for the period 1938-59.

To enable the records to be corrected, please note the details are as undermentioned:Si. Clement's Youths. 1929 io 1934: Society of Royal Cumberland Yourhs, 1935 to 1959.Yours faithfully.

GEORGE H. CROSS.

## OBITUARY

## MR. WILLIAM WENBAN

We regret to announce the death of Mr William Wenban, on June 16 th, at the age of 73 . The funeral took place on June 20 ih , at All Saints'. Harrow Weald, and was conducted by the Vicar, the Rev. R. D. Deasy assisted by the Rev. D. Wardrop. The bellis were rung half-mulfled before and after the service, and in the evening a half-muffled quarter peal of Stedman Triples was rung Among ihose present at the service were: Messrs. A. W. Coles. F. W. Brinklow, H Hodgetts, J. Rootes, C. Evins, T. Clark, Mr. and Mrs. E. J. Leversuch. Mr. and Mis H. G. Hart, Mrs. C. W. Woolley, Mrs. H. D Butler. Mrs. P. M. Mayne, Miss F. Clayton and Miss T. Rose. The wreaths included those from the ringers of St. John's, Stanmore, and All Saints: Harrow Weald

William Wenban was born in Kent, and he lived in his native county until the out break of war. when he went to live in Harrow. We are not in a position to write in any details of his early ringing days. He was not only an active peal ringer but also did much work in teaching bands in his own neighbourhood. Of his 321 peals. 152 were rung during the time he lived in Kent. The capability of those peal ringing bands is shown by the large number of peals of Stedman Triples which he rang and conducted during that time. He rang his first' peal at the age of 21 , and his first as conductor one year later.
During the ban on ringing he came to the monthly handbell meetings which were arranged at Bushey, and as soon as the ban was lifted he took an active part in the ringing in the Harrow area. He joined the band at Stanmore, and also rang regularly at Bushey and Harrow Weald. His association with the Bushey band led him to umpire all the post-war record peals of Spliced Surprise Major on handbells. He umpired those in 8. 9. 12, 14 and 16 methods.

The posi-war years provided him with opportunities he had not previously had, and these were his most prolific paal ringing years He rang peals of Surprise Major in 27 different methods, including the first peals ever rung of Stanmore, Harrow. Springfield. Chiswick and Elveden. His last peal was of Sandiacre Surprise Minor at Langleybury, on April 29th. 1959. He rang, peals in all the 41 Surprise Minor methods in the Minor Collection, and his last peal completed this achievement

## We shall miss him very much.

## HIS PEALS

Doubles: Grandsire 1, 2 methods 1, 3 methods 1. 6 methods 1

Minor: Plain Bob 6. Edinburgh Delight 1 2 methods 1. 3 methods 2. 4 methods 1, 5 methods 1. 7 methods 4.
Surprise Minor: Cambridge 4. Norwich 2, and one each of Warkworth. York. Surfleet, Rossendale. Stamford. Hexham. Beverley; Bourne. Allendale. Durham. Ipswich. Bacup. Cunecastre. Wells, London. Caters: Grandsire 6. Stedman 6
Royal: Plain Bob 1. Little Bob 1, Kent Treble Bob 7. Cambridge Surprise 2.
Total: 321 (35).

## AN APPRECIATION

I wish to pay a tribute to my old friend Bill Wenban. In the 1920 's he did a lot
of spade work in Mid-Kent and was a firstclass ringer and conductor, especially with Stedman. For many years he was a highly respected member of the Staplehurst band and chiefly through his efforts our local band rang methods up to Double Norwich
From the year 1920 to $19399^{\circ}$ Bill' cycled many miles to Kent towers for peals, sometimes meeting short owing to bad weather conditions, and often losing the peal, through trying to ring a method the band were incapable of ringing. He rang many peals for the Kent County, and to us in Kent who knew him we cannot forget the good work he did in our early days.
I rang 89 peals with him. some good and some not so good, and I cannot recall any peals being lost ithrough "Bill" missing a bob. He was a good ringer, and friend.
We in Kent mourn his death, and send our condolences to his family and especially to his son. Ralph. T. E. SONE.

## MR. GEORGE FREEBREY

Mr. George Freebrey, of the Derbyshire Association, passed away very suddenly at his home on June 18th at the age of 78 years.
He learnt the art of ringing in his 13 th year in his home village of Fairford, Glos. On settling in Derby several years later he joined the band of St. Luke's Church, where he remained until transferring to St. Alkmund's. Around 1928 he joined St. Andrew's Church, where he remained Ringing Master until now,
Mr. Freebrey was for many years secretary of the Derby District of the Midland Counties Guild. and was also an honorary life member of the Derbyshire Association. A good ringer, he was responsible more than anybody for fostering Surprise ringing in Derby.

As he had rung only two days before his death this means that he gave to the service of bell ringing 66 years of his life. composed many peals and had a great number to his credit.
The funeral took place at St. Andrew's Church on June 21st.

## An Appreciation

It was with the deepest regret that I received the news of the passing of George Freebrey, of St. Andrew's, Derby, whilst I was on holiday at Bournemouth.

George Freebrey will be sadly missed, not only at St. Andrew's, where he had served so long and faithfully, but in the whole of Derby district.
remember with gratitude how much he helped me during the days of the Midland Counties Association, as one of my very best local secretaries, a position he held for many years. When the late president, Alderman R. B. Chambers, passed away, we all wondered how the Association would fare as regards the long list of honorary members we then had-the majority of whom were either the personal friends of the Alderman or business acquaintances, whom he had coerced into joining. George Freebrey, however, retained these and gathered more!
When the Association reached its 50th anniversary it was George's idea. and he carried it out, that a commemorative peal should be rung by a band representing all the branches of the Association, and at St. Andrew's. where the first meeting to form the Association took place. This peal-appropriately 5.050 changes composed by the former president (Sir A. P. Heywood)-I. as general honorary secretary, had the pleasure of conducting. Although not a prolific peal ringer (he rang 60 for the M.C.A. and a few others). he dabbled about with figures. and produced some good peals of Grandsire and Stedman Caters. Surprise Maior. etc.. and I had the
honour to call his 7.008 Bo5 Major as well honour to
as others.

George Freebrey was one of the most conscientious Sunday service ringers who looked upon this as a DUTY, as well as a service, and would very rarely be absent, placing this above all his other activities.

ERNEST MORRIS.

## MORE BELFRY GOSSIP

The band at Netherseale would like to associate their peal with the memory of the late George Freebrey, of Derby, ringer and composer.

The collection in the Witney and Woodstock branch for the World Refugee Year amounts to $£ 7 \mathrm{6s}$. 6d. In addition the branch voted $£ 5$ at its A.G.M

Southern Television in Southern News featured Mr. E. S. Ruck. of Willesborough. on June 28th. This only surviving founder member of the K.C.A. is now 93. Shots and recordings were taken of him and members of the Willesborough band ringing Bob Minor.

Our statement in a front page article that peals of Minimus are too monotonous to make them worth ringing has been challenged by one who rang in the first peal of that category. More monotony. the writer contends. was found in ringing her first in Bob Major.
From Evesham we hear that Robert C. Kippin, now 16, of Southampton, made a first class job of Evesham tenor to a peal of Royal. A member of the hand in sending his congratulations sfates: * He must certainly be the youngest ringer ever to ring a tenor of this weight ( 36 cwt .) to a peal.
Mr. David Smith (Oxford Diocesan Guild) writes to his branch his impressions of the Folkestone Central Council meeting as follows: :The ringing arrangements were very good indeed. and I added 23 new towers to my list. It was very good to meet many of the foremost people in the Exercise and to ring with some of them. Needless to say the striking was wonderful.

Complete tower repairs are now in hand ai St. Mary's. Sunbury-on-Thames. All timber ravaged by wood-worm and dry-rot is being replaced and floors chemically treated. A new floor has been constructed 10 feet below the ringing chamber for the choir robes. External repairs to brick work and decoration of weather vane, woodwork and clock faces is also progressing. Ringing has not been interrupted but temporary removal of sound proofing makes the bells very noisy in the ringing chamber.

## MR. CECLL H. BALLARD

Mr. Cecil H. Ballard, of Tenterden. Kent. passed away at West View Hospital. Tenterden, on June 22nd. after a prolonged illness. He was 73 years of age

Mr. Ballard was a member of the Tenterden band of ringers for over 30 years, though illness had prevented him from climbing the steps for a few years now. A great church worker. he was verger for many years as well as captain of the ringers.
He was a member of the Kent County Association and the Romney Marsh Guild and rang peals for both Associations. The exact numher he rang is unknown but his first peal was Grandsire Triples at Tenterden on December 31st. 1926. and his last peal was Stedman Triples at Tenterden, on May 16th. 1938 (for the 50 th anniversary of Robert (Bob) Edwards' first peal).

Mr. Ballard taught many to ring: he was a good tutor, and was well respected in spite of his outspoken manner. He enjoyed good striking and would make sure his colleagues did strike reasonably well. It is remembered that on one occasion he told a lady to listen to her bell and strike closer. When the bells were set it was discovered that the clapper of his own bell had dropped out!
Mr. Ballard was cremated at Charing, on June 27th, and a quarter peal of Grandsire Doubles was rung half-muffled in the evening as a token of respect to him. The ringers were: Mary Meynell 1. Kathleen M. Yeo (cond.) 2. Violet I. E. Relf 3, W. Tickner 4, P. Relf 5. E. Stanger 6.

## STOP PRESS

Mr. A. E. Lock. of Abingdon. died last week and was buried on Saturday, at Abingdon.

SOUTH WIGSTON, LEICS.-On June 12th, 1,320 Plain Bob Doubles: K. Bodicoat 1. D. Bodicoat 2 Mrs. B. 7. Warwick 3. B. G. Warwick (cond.) 4 for the ordination to the priesthood of the Rev. for the ordinatio
E. G. Symonds.

## RINGERS ON OUTING

BARNSLEY AND DISTRICT SOCIETY
With Mr. Eric Stainrod, a Barnsley ringer, at the wheel. the Barnsley and District Society had an enjoyable outing on July 2nd. At Collingham. near Wetherby, the party were met by Messrs. W. and C. Haugue, ringers there for 50 years. Next came Boroughbridge and some enjoyable ringing and an excellent lunch. The afternoon was spent at Middleham (8). which was followed by tea at the White Swan. Ringing for the day concluded at Birstwith. where the party was met by Mr. J. Ewbank, a ringer here for 60 years. Thanks are due to the president. Mr. Noel F. Moxon, who arranged the outing, and also to incumbents and ringers who met the party.

## NORTH WEALD, ESSEX

On June 18 th North Weald ringers held their annual tour. Four six bell towers near Cambridge were selected. Travelling in private cars the party of 22 made their way to Barley, where some very good ringing took place, although some of the party did not arrive in time to ring. At Melbourne we found the bells very musical, and here we were met by Mr. Cook, from Meldreth. Harston was the next place where tea was had at the Three Horse Shoes: a ring on Harston bells then on to Whittlesford. Duxford was the last tower. We are very grateful to Mr. L. A. Cordell. who made all the arrangements.

## ROTHERHAM

For their annual outing on July 2 nd, Rotherham ringers and friends visited East Lincolnshire. calling at Melton Mowbray on the outward journey. where the fine ten were enjoyed for about an hour before moving on to the heavy melodious six at Deeping St. James. After lunch at Spalding and a short ring on the pleasant octave there, further ringing on the handy eight at Sutterton was followed by a visit to Boston Stump. The enjoyable ringing at this remarkable church made the long climb well worth while. The sixth and last tower of the day (Heckington) was a
pleasure to visit, the ringing chamber being a model.
The homeward journey was enlivened by music on handbells and piano-accordion and community singing. Ringing during the day varied from rounds and call changes to Stedman Caters and Surprise Major. Grateful thanks are extended to incumbents and local ringers for their co-operation.

## MAULDEN, BEDS

On June 18 th the Maulden ringers had their annual outing. when a visit was made to the Wiltshire area.
On this glorious summer's day a promipt start was made and Watlington. Oxon. our first tower. was reached in good time. though one had the feeling that we rather failed to do justice to either the bells or ourselvestoo early in the day, perhaps!

The long hop to Purton worked wonders; however. and here we really "went to town." This ancient and beautiful church possesses a fine ring of six (tenor 20 cwt.) and here many a ringer who had previously thought 6 -bell ringing uninteresting must have undergone a change of mind!
Next stop was Caine. where lunch was taken bafore ringing at the lovely Church of St . Mary, then on to Melksham, another good cight.
Soon we were passing Stonehenge, which had a good crowd of visitors, but we were more us at Amesbury. after which we enjoyed a ring on the bells of the imposing Parish Church.

Another long hop brought us to Wargrave. Berks, whose church stands in beautiful surroundings. near the banks of the Thames, and as this was our last tower, and the day had been very warm, and therefore rather tiring, we appreciated the excellent ' go ' of this splendid eight.
We reached home about midnight. with hearts full of thanks to those by whose permission we had been able to practise our art. to the local ringers, and to our organiser. Colin
Mann.
A.E.R.

## ST. THOMAS', STOURBRIDGE

Ringers of St. Thomas'. Stourbridge. and their friends went westwards on June 4 ih for their annual outing. The first objective was Tewkesbury Abbey. where the bells were set going to rounds. Grandsire and Stedman Caters. On the fine Rudhall eight at Ledbury. methods rung were Grandsire and Stedman Triples and Cambridge Major
After a stop for lunch. the party pressed on to Abergavenny with its glorious ring of ten. Rounds. Grandsire and Stedman Caters, and Cambridge Major allowed the visitors to appreciate the lovely bells. The last tower was Ebbw Vale, but before ringing the party sat down to an excellent tea. kindly provided by the ladies of Ebbw Vale. Double Norwich and Yorkshire were rung here with other methods.

Thanks are due to incumbents and local ringers. Mrs. Bruten tor the tea and Mr, D. H. Watson for organising such an enjoyable owiting.
M. D. F.

## BALDOCK, HERTS

May 28th was a bright. breezy day for the Baldock ringers outing. Diss was the first tower. and to start the day off the 23 cwt . tenor was turned in for Bristol. On to Stradbroke. the 20 cwt. ten. The clean lines of the grey. black and fawn tower were lovely against the scudding clouds in the blue sky.

After an adequate lunch in Eye at the old coaching inn, the White Lion. Debenham bells were rung. The 21 cwt. octave has been popular for long length attempts, one of which was 'with excellent striking by Suffolk men.' Framlingham was next and the bells seemed noisy after Debenham. Tea and ringing at Woodbridge ( 25 cwt.) provided the hest ringing of the day. The last tower was Grundisburgh. where the tenor of ten weighs only 8 cwt . The ringing went well considering this weight. One encour iging imp:ession: the learners improved as the day went on.

## CORNISH WHITSUNTIDE, PILGRIMAGES

Visitors are always welcome to Cornwall and often enable local ringers to manage just that little extra. On Whitsun Eve four ringers from Romsey Abbey, with others from Redruth and Carbis Bay, began a pleasant half day trip at St. Gwinear, where there is a powerful ring of six. tenor $12 \frac{1}{2}$ cwt.. completely restored by Taylors a few years ago.

Then on through country lanes to St. Hilary, one of the few Cornish churches with a spire. Here hangs an older ring in three tiers with 3-4 on the hottom. 5-6 in the middle and 1-2 at the top. Needless to say some bells are heard more than others. They were made six in 1898 from a previous two. The Vicar. Rev. L. E. Glasscott, met us and asked if all was well with the bells. We suggested they should, be oiled, and he promised it would be done. However. the need of this was not bad enough to spoil our ringing. although a lady member of the party found one bell a little beyond her strength.
Ludgvan. with its recently recast Taylor six,
was the next stop (apart from ice cream on was the next stop (apart from ice cream on the way!), and these bells were really enjoyed. Then to Carbis Bay to try out the ten. and no one was disappointed. The sound of the hells meant we were soon joined by Mr. W. O. Farrimond. from Lancashire, who had just arrived on holiday, and his help was appreciated. Two youngsters from Redruth. on their first ringing outing. did particularly well with great determination on ten for the first time. Methods rung were: Grandsire. Stedman and Plain Bob. Wisely. nothing - fancy * was suggested. but strangely Stedman produced the best ringing at each tower.

TORQUAY. DEVON.-On June 29th. 1.260 Piain Bub Minor: A. J. Garbelt 1. T. G. Myers 2. P. A.
L.ock (first of Minor) 3. D, R. Bould (firs of Minor - inside ') 4. W. J. Harvey 5. W. G. Lavers (first of Minor 2s cond.) 6 . Believed to be the first of Minor on the bells.

## ARCHDEACONRY OF STAFFORD SOCIETY

1'HE Society held its annual meeting at Lichfield on Saturday, June 11th. The fine ring of ten bells at the Cathedral was
available and also the eight of St. Mary's, and available and also the eight of St. Mary s, and
the six at St. Michael's. During the morning and evening the nearby towers at Little Aston. Kings Bromley, Yoxall, Longden and Elford were made available for ringers wishing to explore the neighbourhsad.
The annual service was held at St. Michael's Church and was conducted by the Rev. V. W. Allen. We ware privileged to hear an address given by the Society's new president. the Ven. Basil Stratton. Archdeacon of Stafford.

After the service the congregation made its way across the road to St . Michael's Hall for tea, where a good meal was enjoyed by approximately 80 members and friends.
The clerical secretary. the Rev. C. Holroyd Barker, after tea, formally introduced the new president to the meeting. The Archdeacon said how very pleased he was to be with the Society at this meeting. Before coming to Lichfield he had been vicar of Market Drayton and had learnt to handle a bell with the band there. He could just about manage - Churchyard Bob now.

With the Archdcacon in the chair the business meeting began and the honorary treasurer. Mr. Frank Brotherton. gave his report. He said that there had been an improvement during the year and that the Society was in a sound financial position once more. The honorary lay secretary, Mr. D. J. Tranter, then presented the committee's report. He said the year had been one of continued progress with the accent on consolidation rather than on outstanding achievement. Fellowship amongst members had never been better than at present. During the year 48 peals had been rung in various methods. Mr. B. G. Key, who had arrived direct from Folkestone that afternoon, presented the Cintral Council representatives; report. He gave a detailed account of the meeting. including "The Ringing World ' finances

The following elsetions were made: Ringing Master. Mr. E. Malin: Deputy Ringing Master, Mr. J. Allen; honorary treasurer. Mr. F. Brotherton; clerical secretary, Rev. C. H. Barker: lay secretary, Mr. D. J. Tranter, assistant secretary and peal secretary. Mr.
C. M. Smith: honorary auditor, Mr. E. Speake: Central Courcil representatives, Mr. B. G. Key and Mr. G. W. Hughes.

For over fifty years of continuous resident membership of the Society it was agreed to make the following members honorary life ringing members: Messrs. F. Colclough (Bilston). W. H. Lawley (Wolverhampton). C. Wallater (Willenhall), B. Horton (Fallings Park. Wolverhampton), W. R. Hughes (Walsall).

## OXFORD DIOCESAN GUILD Central Bucks Branch

The 32nd annual meeting of the Central Bucks Branch was held at Steeple Claydon on June llth, when the Guild service was conducted by the Vicar. the Rev R. J. Vernon. who gave a most inspiring address. The lesson was read by the Master. the Rev. C. E. Wigg. and the organist was Mrs D. Fawcett.
A salad tea was served in the Library Hall. after which the business meeting was held under the chairmanship of the branch president. Canon G. Dixon. The chairman gave a cordial welcome to the Master. the honorary general secretary (Miss M. R. Cross), and visitors from Beachampton. Bicester and Wavendon.
It was reported that 1959 had been a year of steady progress and that on December 31st the Branch had 161 ringing members. plus ten honorary members.
The Rev. G. H. Isaacson. Vicar of Nether Winchendon, was elected deputy chairman, a new office. A vote of thanks to all who had contributed to the success of the meeting was passed.

Ringing on the pleasant toned ring of six bells continued well into the evening. thus bringing to a close a really enjoyable visit. Next quarterly meeting. Swanbourne, on September 10th.

## NOTICES

## Scale of Charges

Meetings: $3 / 6$ (minimum) for 30 words, afterwards $1 \frac{1}{2}$ d. a word. Each additional insertion balf charge.
Other Notices: 4/- (minimam) for 36 words, afterwards $1 \frac{1}{2} \mathrm{~d}$. a word.
Displayed: $7 / 6$ per single column inch.
No guarantee of insertion after Monday, first post.

## CHANGE OF ADDRESS

Jack P. Kesterton. 30. Royal Road. Leicester, has moved to a temporary new address: c/o 5. Clovelly Road, Glenfield. Leicester. Please send all communications to this address, until further notice.

The address of George and Vivian Francis is now 35. Friday Strect. Warnham. Horsham, Sussex.

## SUSSEX COUNTY ASSOCIATION

The 75th annual meeting of the Sussex County Association took place at the Good Shepherd. Brighton, on May 14th. The
service was conducted by the Vicar, the Rev. Service was conducted by the ve Archdeacon of Chichester. Unfortunately the Bishop of Chichester was unable to attend.
Guests who were very welcome were the secretary of the Central Council (Mr. E. A. Barnett) with his wife and daughter. Mr. and Mrs. A. Harman. Mrs. Stacey and Mr. Cheeseman. Surrey. and Mr. Rogers, Portsea. At the business meeting the chair was taken by the Master. Mr. R. V. Johnson, who welcomed the vice-presidents (the Archdeacon of Chichester and Mr. S. E. Armstrong).
Mr. Barnett. in a short speech. stated that he was pleased to visit Sussex once more and wished the meeting every success.
The meeting stood in silence in memory of those who had passed on. during 1959. The accounts and reports were accepted. and all officers of the Association elected as the previous year. Mr. George Pullinger. formerly of the Portsmouth and Winchester Guild. now resident in Sussex. was elected a member of Willingdon. near Eastbourne. Miss Jean Barnett. daughter of the secretary of the Central Council. was elected a non-resident member.
Mr. F. Dallaway has retired from the Central Council after 21
place will he taken by Mr. R. W. . R. Percy place will be taken by Mr
honorary gencral secretary.
The library was well under way hut was held up at the moment. pending the necessary faculty. Permission was given to purchase 12 old ringing books, found in a Brighton secondhand shop.

## KENT COUNTY ASSOCIATION

About 60 ringers and friends from all over Kent were guests to tea at Willesborough on June 25th. for the Ashford District meeting. This has now become an annual event and was to mark the 93 rd birthday of Mr. Edward S . Ruck: only surviving founder member of the Association.
The service was conducted by the Rector. the Rev. T. G. Williams. Mr. R. J. Carlton read the lesson and Mr. W. P. Garner was at the organ. An excellent lea. served by the Mothers' Union, was enjoyed in the Old Mothers

Mr. J. Willis. a vice-president and chairman of the Association. conveyed the birtinday greetings and good wishes of the gathering to Mr. Ruck
On a motion by Mr. T. Cullingworth. a hearty vote of thanks was accorded to the Rector. the organist. the Mothers' Union, the Willesborough ringers and friends for their hospitality, and Mr. Carlton for making the arrangements.

## SALISBURY DIOCESAN GUILD Dorchester Branch

The summer quarterly meeting was held in bright summer weather at Bere Regis. This was the first quarterly meeting to he held here since 1946. and the members made the most of the bells, which were available during the afternoon.
The Guild service was conducted by the Vicar. the Rev. R. C. Herring. In his address he mentioned that the 'Sermon Bell' was still rung at this church, also the curfew during the winter months. Bellringing is one of the few old crafts that have not changed during the passing of time. It is a great art and. once learnt. never forgotten. Tea was served in the village W.I Hall to a company of 37 members.
The meeting was conducted by the chairman. the Rev. C. E. C. Brinkworth (Rector of Cattistock). Five new memhers were electedMcDonald (Bere Regis) and Mr. B. R. Thomson and Mr. D. Essex (Charminster). Subject to consent the next meeting will be at Litton Cheney.

Branch practices were urranged (subject to confirmation) at fortnightly intervals: Wyke Regis, August 13th: Piddlehinton, August 27th: Wool. Seplember 10th; St. Peter's, Dorchester, September 24th
R. H. D.

## EAST YORKSHIRE VETERANS

On June 4 th seven veteran ringers were kindly entertained at St. Michael's Church. Eastrington. Over the last few years this has been an annual event. kindly organised by Mrs. J. J. Taylor. of Goole. The veteran ringers attending were. Messrs. T. W. Robbins (aged 86). A. E. Sellers (82), H. Rodmell (80), F. Dale (80). L. Rodmell (78), T. Goodin (78), and H. S. Morley (70).
The towers represented by the veterans were: Escrick. Beverley Minster. Hessle. Sutton-on-Hull. and Selby Abbey, and they rang short touches during the afternoon on the six bells.
Mrs. Taylor kindly provided refreshments including an iced cake and it was indeed pleasing to see the old ringers assembled in the rural surroundings.
Unfortunately Messrs. G. Horner. F. Atkinson and S. Bottomley were unahle to altend.

## JOINT MEETING AT SELSTON

The East Derbyshire and Notts Association and the Southwell Diocesan Guild held a joint meeting at Selston on May 28th. which was attended by 40 ringers representing 11 towers. In appreciation of the help of these two bodies in raising money for the rehanging of Selston bells. the Vicar (the Rev. G. N. Pearce) announced that the tea was free. A collection was taken at the tea table for Selston Bell Fund. which raised $£ 34 \mathrm{~s}$. The Vicar was elected an honorary vice-president of the Southwell Guild at the business meeting and it was decided to hold the next mecting on July 16th, at Mansfield Woodhouse. A short Evensong was conducted in the church thy the Vicar. Ringing afterwards varied from call changes to London Surprise.

## LETTER

IN DEFENCE OF STEPHEN IVIN
Dear Sir.-I am not surprised that 'Sunday Service Ringer' (page 438) does not print his name. The lengths to which he is prepared to go to ridicule Stephen Ivin are positively childish.
Nobody will dispute that Stephen's letter was worded in manner which was likely to give offence to the record breaking band. It was obviously written in the heat of the moment. but there was a great deal of truth in many of the remarks.

The Lufkins are very charming people and I have no wish to belittle the feat of ringing 22.400 changes, which was certainly a great achievement. 'Sunday Service Ringer,' however. labels as 'abortive' an attempt at the fuil extent by Stephen's band. which came to grief after 28.000 odd changes. One can either accuse him of intentionally being rude and insulting to Stephen. or take the charitable view that he was trying to increase the sale of - The Ringing World.
I would also like to point out that when Stephen's attempt stopped after some 14 hours' ringing, it had not actually fired out. but that a trip had been corrected. and the rest of the band were very annoyed when Stephen called 'Stand.' He could easily have carried on, and it says much for the high standard he sets that he did not. I feel that this is aln example which might well be followed by many ringers. including those who have been ringing considerably longer than Stephen, many of whom cheerfully claim a peal, having sorted out clash after clash.
I can see no credit in trying to ring long lengths on church bells. There are very few parishes in the country which would tolerate 12 hours' continuous ringing, let alone 24. The people of Kirby seem to be unique in this respect. but I imagine even they might not be so pleased at the prospect of listening to bells all night. It would be a very selfish band who would attempt to impose this on them Long lengths are after all only a stunt, and the most intelligent place to attempt them is where they will not cause annoyance to anyone.
Finally, in view of the large number of letters asking 'Who is Ivin?' why not publish his biography. say under 'Servants of the Exercise.-Yours sincerely.

ALAN GRIFFIN.

## GUILDFORD DIOCESAN GUILD

The meetings of the Chertsey District at Send and Ockham have earned a reputation for attracting visitors from outside the Diocese. and June 25th was certainly no exception. Over 40 people attended during the afternoon and evening.
The service held at Send, was conducted by Mr. Short. a lay preacher, and an excellent tea was served in the Red Cross Hut by the local ringers. A short business meeting followed, during which four new members were elected. Mr. W. Shepherd expressed a vote of thanks to all those concerned in the running of the meeting.

Ringing continued until 9 p.m.. under the leadership of Mr. R. Collins (District Ringing Master) at Send and Mr. J. Martin. at Ockham. H.E.P.

SPLENDID SERVICE AT ROTHWELL
Mr. Arthur York. of Rothwell. Northamptonshire, has just completed 66 years as a ringer at Holy Trinity Church. Rothwell. He rang a few peals at the beginning of the century but his main contribution to ringing has been his regular Sunday service ringing. He has rung for all coronations and other Royal events since 1900. His younger brother, Albert, has been the tower captain for many years and between them represent a fine example to the lesser known. but none the less worthy, 'Servants of the Exercise.

## A REAL SURPRISE FROM BODMIN

IT would be wrong to say that Bodmin has declined; but it has not grown as it might have done. It refused the Cornish main line a hundred years ago, and is served by a branch from Bodmin Road. The County Jail was closed several years ago, so Cornish prisoners on remand travel to and from Exeter. It still retains the Assize Court and County Police Headquarters. Truro accepted the main line, got the Cathedral and so became the Cornish city, and the County Hall was built there. However, Bodmin gives its name to one of Cornwall's two Archdeaconries, and has as its chief glory the largest parish church in the county. Thus hearts often burn as to which is Cornwall's county town.

Bodmin had four bells in the reign of Edward VI, five by 1691 , six in 1699 , and in 1767 a new ring of eight was hung, which was Cornwall's first octave. This gives the town an 8 -bell ringing tradition of almost 200 years. The band today is strong in number, and Canon G. W. S. Harmer, who accompanied his band on the annual outing on July 2nd, told me his eight bells are always rung twice on Sundays. The time for ringing at Carbis Bay was booked for 3 to 4.30, and I determined first to enjoy the ringing in the quiet of my own garden hard by. A gentle 'ting' of discovery as to which bell was which, told me activities were to begin. Not being used to such little trebles, the ten bells were up before even Bodmin ringers or I expected -such experts at rising do not take long to catch up on a tenor of $9 \frac{1}{2}$ cwt.! Silence reigned. Breath was, no doubt, taken and exhortations probably given as to how the bells should be rung. Again the ten rang out; but it was no good, the trebles were far too quick; and as a band of this calibre just will not have such ringing. the trebles were set, and eight continued till they settled to some really good sfuff. After this, single ringing of the trebles explained that their weight was being measured, and that determination was going to overcome the rare experience of ringing ten in Cornwall. Again the ten rang out, and this improved as the trebles were gradually kept away from the tenor. Cornwall is famed for 6 - and 8 -bell ringing, but ten is a new technique to be mastered.

I now went to the tower to offer my welcome and congratulations, to hear more 8 - and 10 -bell ringing, and by invitation to join in a 'peal' myself. It was an occasion both of discovery and surprise. The discovery was that a few ringers from St. Tudy (6) and Cardinham (8) were amongst the party of over 30 . The surprise was this: A call came for some changes on the back six. My natural expectation was call-changes. Middle-aged men caught
hold, and the bells settled to the most regular cartwheel rounds any judge could wish for. 'Go' was called from the treble, and off they went into Grandsire Doubles with the same unvarying regularity, and with no open lead at hand. Bobs and singles were called, and the end of the 120 was unconducted and the bells continued in rounds until 'Go' was called again for yet a different 120. I had heard some time ago that 'Scientific' was being tried at Bodmin. One has heard similar stories before; but to have the fact proved in one's own tower that it was not only being tried but had been 'conquered ' was the biggest surprise ever and a pleasure beyond anticipation

Questions I had to ask. The story is this. Some two years ago a suggestion was made that 'Scientific' be tried. Such a suggestion is usually thrown out of a round-ringing tower immediately, but not this time. Others were sympathetic. A book was obtained plus a blackboard. An evening outside the ordinary practice was chosen, and eight or so of the band met regularly for months. They dedicated themselves to it. They have not disturbed the long tradition of the tower, and respect is paid to the past and older members; but now, without any outside assistancecollege, school, tutor or instructor ringing at Bodmin is intermingled with perfect 120 's rung in their own way. What is more, the older men listen with respect for their colleagues' ability. I had to praise them. I exhorted them to ring a quarter peal, and explained what this entailed. " The Ringing World' must be an addition to their tower. The next step is to be Grandsire Triples; and with the present foundation and the experience that the striking can be just as good as in call-changes, there is no doubt that 'Scientific' has come to stay and will make the future pattern. I could not but be convinced that this surprise result had been achieved by nothing but sheer determination and team spirit. "We made some row when we started,' said one, 'And we had some rows between ourselves,' added another, amidst much good humour, 'But we always went back to the board and followed out the line,' remarked a third. So method ringing has its place right in the centre of Cornwall, for an ancient cross in Lanivet Churchyard, three miles out of Bodmin, is said to be the pivot of the county.

I went outside to hear more ringing and to talk to those who had had their turn. As the bells were rung down it was evident the visitors were as much at home on ten as on eight. It is the team spirit of Bodmin that conquers. In this instance one cannot but feel that this result has been achieved by way of service to the Church first, and then as a body wanting to serve better and in a more perfect way, and never failing in the intention. I asked them all to come again soon.
A. S. R.

## TWELVE BELL PEAL

LINCOLN.

Spreadbury 5 ,

Spreadbury (firs of Minor as cond.) 6. For Evensons and as bitthday compliment to the ringers of 2,4 and $s$.

## OXFORD DIOCESAN GUILD FESTIVAL

IN the large company that attended the annual festival of the Oxford Diocesan Guild. held at Christ Church Cathedral. on July 2nd. were nine boys from Groton School. Mass. U.S.A.. accompanied by a master, Mr. Russell Young, who visited Oxford last year. The Guild was honoured by the presence of the Bishop (the Rt. Rev. H. Carpenter) who is president of the Guild and who gave the address. In accordance with custom, the Master (the Rev. C. E. Wigg) conducted the service and a choir of ringers led the singing. The lesson was read by Mr. F. Sharpe (Deputy Master) and Mr. H. Badger. of Headington, deputised for Dr Watson, as organist.

The Bishop, in his address, said at the present time there were so many other attractions ringers had to be keen. persevering with a gift of loyalty, involving a sacrifice of time from other pursuits to maintain their ringing. The Bishop hoped that young ringers would he steadily forthcoming, for recruits had to he trained. It was the responsibility of the older ringers to pass on the lesson of regular service and the spirit of enjoyment of ringing to recruits.

Three points were made by the Bishop in his address: that what was done for God should be the best and cost something to the giver: that the prime function of the Church was the worship of God; that more people would attend if they presented the Church as a body of people who worshipped rather than as a social club.

## THE BUSINESS MEETING

The Master was supported by the officers at the business meeting held in the Chapter House. He reported the deaths of two vice-presidentsMr . T. Trollope, of Oxford. and Miss S. Davis. of Bucklebury and expressed his regret at the serious illness of Mr. A. E. Lock. (Mr. Lock has since died.)

Miss M. R. Cross, the honorary general secretary, in her report mentioned the wonderful success that had attended the Instruction Course. at Big Wood. Radley. After the report had been accepted. the Master presented Miss Cross with a copy of the life of the late Bishop of Oxford as a token of appreciation of her work done in connection with the course.

The annual report had been printed and the Master congratulated Mr. P. Walker, the editor. on a piece of work which was of a high standard.
The officers reports were accepted as printed in the report and all the officers were re-elected With regard to the subscription for 1961 the honorary treasurer. Mr. A. D. Barker, proposed that this should be discussed at the atuiumn meeting. as by then the finances of the Guild could be more clearly seen. This was agreed to.

## RESTORATION GRANTS

Restoration grants of $£ 20$ each were made to South Newington. Arborfield and Shipton-under-Wychwood. Grants to West Hanney and Eynsham would be considered at the October meeting. The honorary treasurer explained that a certain amount of money came from grants made by Parochial Church Councils of 2 s . a bell in their towers. some from collections and grants from meetings. and the remainder from the investment of a hequest. The annual income was roughly $£ 100$ and this was normally voted out in grants.
It was decided to hold the autumn meeting at Newhury. A committee of branch secretaries, with the general secretary as convener. was appointed to consider the question of celebrating the 80th anniversary of the Guild. Another matter to be discussed is whether the festival should be held in the afternoon instead of the morning.

## THE LUNCHEON

Guests of honour at the luncheon. held in the Dining Hall of Christ Church. were the Lord Bishop of the Diocese and the Dean of Christ Church. The toast of 'Church and State was proposed by the Deputy Master who said ringers as members of Church and State were always ready to ring on all State
occasions. Many of them were loyal members of the Church and in many parishes they formed the nucleus of many Church activities. In a welcome to the Dean. Mr. Sharpe mentioned that this was the first time he had net the Guild and thanked him for allowing the Guild to have its own choir. Thanking Dr. Carpenter for his address at the service, Mr . Sharpe said they hoped to print it in the 1960 report. Before the formation of the Guild ringing was done in about 4 per cent of the parish churches. 80 years later it was 60 per cent and they hoped that in the years to come the Guild would raise it to an even higher percentage.

The Bishop in his reply said he realised that the qualities which were needed to make a good ringer. which he mentioned in his address. were also needed by the State.

## OVERSEAS •BRANCH

Mr . C. H. Kinch in proposing • The Visitors. especially mentioned Mr. W. G. Wilson. who was now known to many of them as one of the lecturers at Big Wood: Mr. G. Lewis (Powick). Mr. Sanger. Mr. L. Cockey and Captain Poyntz, a former Deputy Master. Mr. Russell Young. of Groton School, said Mr. Kinch. was now paying his second visit to the festival and he expressed the wish that it would become a 'hardy annual.' He also welcomed the ringers of Groton School and expressed the hope that perhaps one day some of the Oxford Guild might be able to pay a visit to its 'overseas branch.'

Mr. W. G. Wilson in reply said he had always considered the Oxford Guild as the leading territorial Association in the country. In size it was the largest having, he thought. 365 towers and he was waiting for the day when some young and enthusiastic member of the Guild should set out on the task of ringing in a different tower in the Diocese on each day in the year.
Their Master, continued Mr. Wilson. was one of the incumbents of the Diocese. thus emphasising the close link between ringers and the Church; the Deputy Master in his official capacity as president of the Central Council was the leading ringer in the country; the honorary general secretary had been the convener of the committee which produced that best seller. The Ringer's Handbook' and other officers of the Guild were equally well known. The Guild was the first to run an instruction course without the assistance of an education authority and it led him to do a thing he had never done before-not even in the Army-get up at 5 o'clock on two
mornings running. He suggested that the next course should be run so as to avoid May Morning in Oxford.

## PREMIER GUILD

The Master replied and said the flourishing condition of the Guild was due to the hard work of the other officers. the branch officers and the members. The Guild would do its best to merit the title of the premier Guild.

The vote of thanks to all those who had contributed to the success of the festival was proposed by Mr. H. L. Roper (honorary librarian). who had a special word for the honorary general secretary and also Miss Daphne Pollard, who undertook a great deal of the typewriting and duplicating.
Ringing was available after lunch in no fewer than 19 towers.

## LUTON RINGERS' OUTING

St. Mary's, Luton. ringers had a most enjoyable outing to the Worcestershire area, on July 2nd. A noteworthy feature was that we were a few minutes in advance of schedule throughout the day-not just accidental, but good planning! This happy state of affairs depended on the co-operation of all-thank you, everyone, especially Mr. Secretary.
Our first tower was Moreton-in-the-Marsh, where the light eight were very easily handled. Then on via Broadway (beautiful, as ever!) and Evesham to Worcester, where we found the ten at All Saints none too easy on the muscles. but this was counterbalanced by a most excellent lunch.
At Alcester, our early arrival was the indirect cause of a little embarrassment to one of our young lady ringers. who. wandering off alone to make a quick survey of the town. rather lost her bearings and calied in a sweet shop, ostensibly for a bar of chocolate but really to inquire the way to the church. Oh. you'll find it easily enough. miss." replied the shopkeeper. "there's a crowd of bellringers arriving presently, and they'll be raising ELLSDEELYTE (presumably a local word meaning a pleasant noise) for about an hour!"
But what a joy to ring are those lovely bells! We shall remember Alcester with great pleasure, and hope we have not left too bad an impression behind. The pleasant 10 at Banbury made a grand ending to a good day's ringing.

Our sincere thanks are tendered to the incumbents and the local ringers, who made us so welcome.
A.E.R.

W. G. Wilson.

Editor: T. W. White.

On June 4th. at Cranford. 12-year-old Kenneth Young did very well in ringing -inside to a peal of Cambridge Surprise Minor. The band was planned to consist of all Stanwell Sunday service ringers; as one ringer was not available. Dr. Neal Smith kindly helped out at very short notice by ringing the tenor. Incidentally, the conductor, Mr. Christopher B. Fynes, believes he is the first to ring two tower bells to a peal of Minor in this method.
In reply to a disputation, Cunecastre, also known as Cuneangium, now Chester-le-Street. in Co. Durham, was the seat of a Bishop from 883 and continued to be head of the Diocese until 995.

To people ringing peals for the Devonshire Guild, we are asked to state that the Guild holds them responsible for sending the report of the peal to. The Ringing World ${ }^{\text {P }}$ for publication. The Guild deals with the question of levies.

Members of Hereford Cathedral School Society rang the back eight at the Cathedral for their school Commemoration Day service, July 9 th. The Society is fairly strong. though by the nature of things constantly changing in personnel, but they are a great help in maintaining the service ringing at the Cathedral during term.

The Rev. W. H. R. Trewhella. of Crantock. announced at the Truro Diocesan Guild festival. at Werrington. on July 9th, that he was retiring from the post of Guild secretary next February, an office he has held for 30 years. Mr. Trewhella has the distinction, we believe, of being the senior Guild secretary from the point of view of service among the bodies affiliated to the Central Council.

After an absence of 15 months, through illness. Mr. Roger Fry has returned to the peal lists, by turning in the tenor at St . Saviour's, Bath, $t 0$ a peal of Plain Bob. This was the first peal on the bells for 28 years. The bells are not by any means easy to ring but Roger made a first class job, thus proving to himself as well as the rest of the band that he is fit again.

## GOSSIP

 The detached tower at thunderstorm in mid-June. Lightning smashed the 27 ft . flagstaft, bringing down the weather vane and then pierced and buckled the lead roof. A big hole was made in the brickwork of the bell chamber, and rubble fell among the ten bells, which will not be rung again until the tower has been thoroughly examined.Overheard in a remote West County 5 -bell tower: 'We're going to have the bells done up, and another bell put in: a six do make a much better octave.' (!!)
At the Oxford Guild festival the youngest ringer present was 10 and the oldest. Mr. W. H. B. Wilkins. of St. Ebbe's. Oxford, is now in his 89 th year. Mr. Wilkins was one of the band who, 50 years ago. set up the Double Norwich record for the Kent County Association.

With the recent peal at Sellindge, Kent, a peal of seven Surprise Minor methods has been rung in all six districts of the K.C.A. This tcwer was the 125th for a peal in the county for Mr. Pat Cannon, and the 134th for Mr. Ralph Bird. The peal was also the 600 th for Mr. Bird. 10 whom we offer best wishes for the next few hundred peals.
Councillor M. E. Dockerill. who has been elected Lord Mayor of Dublin. is the first Protestant to hold the office for over 60 years. Those who attended the Central Council meeting at Dublin will remember that it was Mr. Dockerill, as Deputy Mayor, who gave the civic welcome to the Council. We wish him a happy year of office.
We regret to announce the resignation. through ill-health, of Mr. C. H. Hawkins, as through ill-health, of Mr. C. H. Hawkins, as Guild. One of the founder members of the Guild, he has been in office as secretary throughout the Guild's life. and is the Guild's first life vice-president. His services to ringing in South Wales have been exceptional. Although he now cannot take an active part in ringing his interest is unabated. The new honorary secretary is Mr. E. H. Thomas, of 1, Amanwy. Llwynhendy, Llanelly.

## THE WHITECHAPEL BELL FOUNDRY

ESTABLISHED

## WINCHESTER \& PORTSMOUTH DIOCESAN GUILD

OME 80 members and visitors attended the annual meeting of the Winchester and Portsmouth Diocesan Guild, held at Whit church, on July 2nd. Ringing commenced at 8.30 a.m. at East Woodhay, some of the long distance visitors having camped out in the locality during the previous night in order to get a good bag of the 19 towers made available during the day.
The general meeting was held at 2.30 D.m in the Church Hall. Whitchurch, the Master Mr. F. W. Rogers, taking the chair, supported by the general secretary (Mr. R. R. Savory) and the general treasurer (Mrs. T. Chapman) Following the Master's welcome, the meet ing stood in silent iribute to two members lost by death: Messrs. G. Bunday and W. C. Lampard.

The minutes of the last general meeting were confirmed, and this was followed by the presentation and acceptance of the accounts and balance sheets.
The general secretary announced that during the last year two of the Guild's Central Council representatives had resigned their offices, and the Executive Committee had filled the vacancies with the election of Messrs. A. V. Davis and J. Hartless

In the absence of the honorary peal recorder (Mr. D. T. Matkin) his report was read by the general secretary. During the year 10 members had rung their first peal. Although the peal total for the year was rather small. viz. 37 tower-bell and two handbell peals, there had been quite a variety of methods. Conducting had been shared between 17 conductors, and three 'firsts for the Guild, viz. Winchester Boh Major, Oxford Treble Bob Royal and Spliced Plain and Kent Royal, had been scored, all conducted by the general secretary
Mr. A. V. Davis gave a very thorough and lucid report of the Central Council meeting. The only comment arising from this report was from Mr. C. H. Kippin, who expressed the opinion that the Central Council must be daft to recognise a 4 -bell peal and not a 9 -bell pcal "! (Laughter.)

The Rev. K. W. H. Felstead presented the librarian's report, commenting that the library was not used as much as it could be. Members now had an up-to-date list of books contained in the library printed in the back of their triennial reports, and he hoped that more members would use the library in future.

## PEAL BOOKING FEES

A proposal was forwarded by Mr. G. K. Dodd for alteration of the Guild's rule regarding peal booking fees. Mr. Dodd expressed the opinion that this vexed question of nonresident members paying peal booking fees which in fact went towards the printing of peals in the Guild's triennial report, could be relieved by making the fee optional. If ringers from outside the Guild did not want their peal printed in the Guild's report, Mr. Dodd felt that they should be allowed to forgo the payment of their sixpence per rope.

Considerable discussion followed. Mr. A. V. Davis and Mr. C. H. Kippin speaking against the alteration of the Guild rules. Mr. Kippin stated that last year members had not been in favour of an annual subscription increase, and the 6 d . peal fee was part of the solution to the ever growing problem of printing a Guild report. Members had decided then what they wanted in the way of a report. A good triennial report had just been produced. into which a lot of hard work had gone, and Mr. Kippin urged members to keep the report in its current form.

Mr. Dodd then stated that his main objection to the ruling had been the inability of non-resident members to even purchase a report which they may have helped to subsidise by way of peal fees. The Guild Executive Commillee had, however assured Mr. Dodd that surplus copies of the report were available to people outside the Guild at cost price. In view of this decision Mr. Dodd withdrew his motion.
The general secretary announced a request he had received from the Florence Nightingale Memorial Committee for peals to be rung to mark the 50th anniversary of the death of

SERVANTS OF THE EXERCISE - No. 30

## MR. FREDERICK E. COLLINS,

## Surrey Association

In Mr. F. E. Collins (usually known as Ted ') the Exercise possesses one of its best back room boys.' His experience in the bell industry has particularly fitted him to be a member of the Central Council's Towers and Belfries Committee. In this capacity he has made many inspections, given advice on bell restoration, and is prepared to deal with any case or problem within 100 miles radius of London. In certain circumstances he is prepared to travel even further. He has the right idea of ringing, which is that a Servant of the Exercise' is one who, apart from the pleasure and enjoyment that ringing gives, has put far more into the Exercise than he has taken out.

Florence Nightingale. She was a Hampshire woman and is buried at Wellow, near Romsey. A memorial service is to be held at St. Mary's Church. Southampton, on August 14th, in connection with the dedication of a Memoria Chapel at Southampton General Hospital. Any peals rung to mark the occasion, the general secretary stated, should be forwarded to him so that they could be contained as one item in The Ringing World

The place and date of the 1961 annual general meeting was then discussed and upon the proposition of Mr. L. Bailey, it was agreed to go to Newport and Carisbrooke, Isle of Wight. on July 1st, 1961

Two new life members were elected at the meeting: Mr. E. V. Lowten, of Alton, and Mr. E. Lampard, of Winchester

Before closing the meeting the Master thanked all those who had helped to make this such a successful meeting, particularly Mr. G. K. Dodd and Mr. A. W. Alliston Mrs. Kippin then proposed a vote of thanks to all the Officers of the Guild for their work during the past year.

The meeting was followed by the annual service. held in All Hallows' Church. conducted by a Guild member, Rev. P. .K. venner. of Abbot's Ann

Following an excellent tea prepared hy wives of members of the Whitchurch band, ringing was resumed it Whitchurch, Overton. Laver stoke. Deane and Kingsclere until 8.45 p.m.. by whict, time even our visitor, A.P.C., had decided that it was time to turn his attention to Kingsclere's 'White Hart' and a session with the handbells to end a very successful day. R.R.S.

Born at Ringwood, Hants, in 1901, he learned to ring there when he was 15 years old and was also educated in the same place. After ringing call changes for two years, he together with other youngsters in the tower decided to learn to ring Grandsire. They travelled around, and eventually came under the influence of that splendid old stalwart Fred Townsend, of Poole, who taught them how to ring Stedman, and later, that other fine ringer George Williams-who in 1922 called Ted's first peal at Dibden. Hants. Ted struck up a friendship with William Cheater, and together they cycled hundreds of miles in pursuit of ringing
He is an engineer by profession, having served an apprenticeship in general engineering. In 1926 he went to the Croydon Bell Foundry as a bell hanger, and during 11 years there carried out many restorations in all parts of the country, which included Birming ham Cathedral and his own tower at Croydon -both rings of twelve. In 1936 he was appointed to the important position of foreman mechanical engineer of the South Eastern Gas Board. Croydon.
He has been a very active officer of the Surrey Assoc., serving for 10 years as Ringing Master Northern District; Master in 1957-8-9, and again elected in 1960 as Northern Distrie Ringing Master. He has been C.C. representative for the Surrey Association since 1945, and in 1952 was elected to the Towers and Belfries Committee. In addition to teaching youngsters at his own tower, he devotes a considerable amount of time to giving lectures about bells and bellringers to various organisations such as youth clubs, etc., in the Surrey area.
By May, 1960, he had rung 412 peals, and conducted 80 of them. in a wide variety of methods from Grandsire Doubles to Surprise Maximus. He is just as happy calling a peal of Grandsire for youngsters as he is in calling Surprise Maximus with experts. Notable amongst his achievements are peals in connection with College Youths, of which Society he was Master in 1953. They include a peal of Cambridge Maximus at Exeter, Stedman Cinques at St. Paul's, and a past Masters' peal of Stedman Cinques at Croydon. He was also one of the College Youths chosen to take part in the opening of the bells at Liverpool Cathedral in 1951. His wife, Olive is also a ringer, and they are well known all over the country.
Truly an enthusiast. he is the right man in the right place, and no doubt, in view of recent legislation, he will be applying his knowledge and experience to giving expert advice on the important matter of reducing noise in the vicinity of churches where bells could cause annoyance.

JAFUS.

## The Central Council

Mr. E. A. Barnett regrets that, owing to other commitments, he will be unable to deal with any but the most urgent matters concerning the Council until, probably, mid-September. Orders for records will receive attention, but he asks other correspondents to accept his apologies for any delays which may be caused.

## SALISBURY DIOCESAN GUILD Devizes Branch

The Devizes Branch at their meeting at Urchfont, on July 2nd, with Mr. A. Weeks in the chair. decided to send a letter of congratulation to Mr. and Mrs. F. Stephens upon celebrating their golden wedding. Mr. Stephens, who is 77. still rings every Sunday at St. James'. Devizes. . Meetings were arranged for West Lavington, Rowde, and Westbury.
The Vicar (the Rev. R. Owen) was thanked for conducting the service and also the ladies for providing tea. In reply the Vicar hoped the branch would not be too long in paying them another visit.

The 13 th century Church of St. Peter, Stourton, Wilts, overlooks the beautiful pleasure grounds owned by the National Trust. The tower is unsafe and is to be restored. The six bells have been removed to Messrs. John Taylor's and will eventually be rehung with new headstocks and on ball bearings.

- Stourton is visited by many thousands of people annually and we hope when our bells are again ringable many ringers will visit us, writes Mr. F. Fowler, jun., towerkeeper.

## LEARNING WITH THE CAMBRIDGE UNIVERSITY GUILD

## Terms not found in the 'Beginner's Handbook

SALLY.-The motheaten woolly bulge that moults when you touch it.
TAIL-END.-The greasy end of the rope that slithers out of your hand at backstroke.

BELL.-Moving mass of metal with a will of its own.

STAY.-Deceptively bulky baulk of timber (remarkably fragile).

RINGING CHAMBER.-Room in tower. reached by narrow spiral staircase, usually without handrail.

BELL CHAMBER.-Source of cacophony. accessible only by vertiginous climb up ladder (how on earth did they get the bells there in the first place? ).
ROUNDS.-A series of changes not corresponding to any official method.

## BEGINNER'S PROGRESS

"Now try ringing both strokes': Let the rope go slack and lasso the light bulb.

You can't PUSH the bell up with the rope ': Lasso yourself.
'PLEASE don't let the rope go slack': Lasso the instructor.

Orip the sally with all your fingers and it won't slide': Miss the sally.

- Don't look up': Examine rotten floorboard; miss the sally.
'Don't look down': Examine plaques on wall: miss the sally.
'Don't bump it at handstrake ' : Bump it even harder at backstroke.

Now set it': Ring your bell down.
'She's not making any mistakes!': Lose all control of your bell.

- That's rounds': That was.
- Stand ': Spend half an hour trying to set it. You can try rounds on unmuffled bells tonight ': You will make an absolute fool of yourself and the entire Guild, nay the entire town. will know.
-She's not bumping any more ': Break the stay.
Remarks in inverted commas were made by the instructor and the sequel in each case is what happened. 'In spite of this.' writes G. H. Champness and R. L. Taylor, of Cambridge University Guild. 'however, we are continuing to ring undeterred, and hope that this account of our misfortunes may cheer other beginners -and those whose days as heginners are long past.

## Send Your Cards, Please

Dear Sir.-My husband (Rev. I. J. Richards) and I have been readers of . The Ringing W'orld for well over 30 years. Much to our regret the Llanarth Church bells need a large sum of money to put them in ringing order. I am anxious to start a fund for this purpose and thus interest some of the young people in this small country parish. I am asking for used or unused picture postcards (not birthday or Christmas cards). which 1 can sell towards the fund. Will readers please help.Yours very sincerely.
(Mrs.) I RICHARDS.
Llanarth Vicarage.
Llanarth. near Raglan, Mon.

## OXFORD DIOCESAN GUILD'S COURSE

In a report to the Oxford Diocesan Guild on the residential course held at Big Wood. Radley. from April 29 h to May 1st. Miss M. R. Cross stated that it was attended by 53 full time members.
Lectures were: History of Bells and Bell Maintenance. the Deputy Master: Composition and Conducting. Mr. W. G. Wilson: Method Learning and Handbell Ringing. Mr. W. F. Moreton : Bell Handling. Mr. A. YorkBramble, in place of Mr. A. D. Barker, who was indisposed : Rope Splicing. Mr. J. Moore.
Practical demonstrations were held at Iffley, St. Thomas". Oxford. Radley and Sunningwell. Group discussions were held on questions set by the lecturers and also on tower management and problems which could arise in connection with ringers and the clergy. The practical demonstration in rope splicing was well attended.
The age range was typical of the Guild as a whole, ranging from 14 to 70 . Just half the members were under 21 . There was a noticeable lack of people between 25 and 40-the period when marriage and work make their biggest demand. Financially, the course paid for itself and there was a balance of $£ 310 \mathrm{~s}$.
On the Sunday more than half the members rose at 4.30 to attend May morning in Oxford -an experience not to be forgotten. This was followed by corporate Communion at Radley Church, when everyone who could attended.
J.W., who iravelled 250 miles to attend the course, wrote: 'All through dinner. big names like Sharpe. Wilson. and many others. were frequently mentioned. To a relatively new bellringer. these names conjured up pictures of demi-gods, but they turned out to be very human really, and after listening enthralled to all their lectures, it turned out that they were only ordinary people like the rest of us.
O. D. G.--the letters that now mean something quite definite to me: wonderful hospitality and organisation. and a very successful first bellringing course. Let's hope it's not the last.
Mr. York-Bramble. in his stimulating lecture on Bell handling and instruction of beginners." stressed the need for a system of training beginners which ensured that they were encouraged to make steady progress. His scheme was that after giving the would-be ringers an introductory lesson the instructor should point out that a fair amount of time and trouble would be needed to reach any degree of proficiency, but that the ultimate reward and pleasure would make it very worthwhile. A novel idea was that a hanging bellrope. such as that of a lowered bell. should be used for practising the grips and transfer of the hands on the rope until they were automatic. During this rope-handling drill. the pupil must be in the correct position standing on a line drawn from the middle of the 'circle" through the rope and looking ahead through the sally towards the centre of the circle.
The second stage of learning to cing was the handling of a bell. and for this Mr. YorkBramble divided both hand and back-stroke into 'fall' and 'rise sub-strokes. In all sub-strokes it was important to move the bands in a vertical straight line following the natural line of the hanging rope, and for back stroke it was essential to adjust the length of the rope's end and to give not more than two inches below the pupils hands when these were in the raised position. The four substrokes should be taught in the order back pull. hand pull. back rise and hand rise. and should finally be combined in the complete cycle.

## LETTERS TO THE EDITOR

## KIDDERMINSTER AND SYNTHETIC

## BELLS

Dear Sir.-The possibility of synthetic bells being installed in a Kidderminster church. to which you refer in your issue of July 1st, was brought 10 my notice by an office colleague who saw the report in a local paper. I wrote to the secretary of the Diocesan Advisory Committee to express the hope that the committee would advise the Chanceltor not 10 grant a faculty for their installation, and was encouraged to receive his reply to the eflect that the D.A.C. disliked synthetic bells just as much as ringers do. If a faculty is granted therefore. it will evidently be against the advice of the D.A.C.-Yours faithfully.
E. A. BARNETT.

Honorary Secretary.
Central Council of Church Bell Ringers.
Crayford, Kent.
SPLIT MIND FOR HANDBELL RINGING
Dear Sir--Firstly. let me congratulate my good friend Mr. Lock for his excellent articles in . The Ringing World under the tule of "Alphabet for Beginners. They have without doubt proved to be of great interest and value not only to those directly concerned but also to the 'so called experts.'
I did notice. however. under the letter ' $H$," teferring to handbell ringing. that according to the expert it was not possible to ring with a split mind. This caused quite a discussion in the Leicester camp and we realised without any doubt that this is the way we endeavour to ring our peals. In other words we ring two distinct blue lines and to use a phrase, at one time commonly used in the Leicester Guild, don't let your left hand know what your right hand is doing.

It would be very interesting to know if any wther handbell bands ring as we do or whether we are left ' high and dry and in the future not to think of ourselves as experts as we do not conform to the above school of thought.-Yours faithfully.

PETER J. STANIFORTH
Leicester.

## HYPOCRISY

Dear Sir.-The word 'hypocrisy. with which Mr . Ivin makes so free. means the deliberate concealment of inward sin behind a front of outward morality. Our Lord was probably the only man who was ever in a position to apply it to any individual and in fact He never did-only to types-but the things He said about it make it an accusation of appalling gravity, as well as one which can never be substantiated in this life.
This correspondence about the Kirby-leSoken record should never have begun: now it has degenerated to a point where the participants are accusing one another of deadly $\sin$. I suggest that it is time for you, Mr. Editor, to call it 10 a halt-Yours.

JOHN G. M. SCOTT.

## Clawton. Devon.

## MR. A. W. COCKS

Dear Sir.-Regarding my letter, as published in The Ringing World of July 1 st , may I point out that in print the date ' $1928^{\prime}$ at the end was omitted and also that I was, of course, referring to the issue of June 17th.

However, on reading the report of the Biographies Committee in the issue of June 24 th, it turns out that no case of mistaken identity whatsoever has occurred, but that little was known of Mr. Cocks until recently.
With adologies to those concerned.-Yours faithfully,
D. G. WHEELER

Aylesbury, Bucks

## AN INSTRUCTIONAL COLOUR FILM

Dear Sir.-Ringers at St. Mary's Church. Rickmansworth. have, during the last few months, been making a teaching film on bellringing, Details are as follows:-
An 8 mm . colour film, running for about 8-9 minutes, showing briefly the fundamental points of ringing under the following headings:
(1) Handling a Bell :
(2) Ringing up:
(3) Ringing down
(4) Teaching Methods.

The film is being made available to the Exercise at a nominal fee of 5 s . per week plus postage. Within a radius of 20 miles of Rickmansworth it may be possible to arrange for an instructor to attend and give practical demonstrations of the points shown. Otherwise notes will be provided for use when showing.
If sufficient interest is shown. the time change will be used 10 make a copy of the film. which will be presented to the Central Council.
The central characters in the film are two 12 -year-old boys who have been taught in this church during the last 12 months. One has just rung his first quarter peal.-Yours faithrully.
Rickmansworth.

MICHAEL HATCHETT

## HOLT'S ORIGINAL

Dear Sir.-In connection with your entry in the Belfry Gossip of June 3rd concerning my activities. I had not proposed 10 write and correct a slight error in your wording: but as Mr. Shepherd's letter. published recently. accords me praise which I'm not entitled to, I thought it best to write. I would like to thank Mr. Shepherd for his kind remarks and if I may pass on 10 other aspirants to calling the composition that there is an easy way of learning the composition which has been shown to me by Mr. Frank Darby, of Beddington.
First of all. write out the peal dividing the single bobs and double bobs as follows:-

$$
\begin{aligned}
& 5 \longdiv { \text { Single } } \quad \frac { \text { Doubles } } { 3 5 4 5 4 4 4 } \quad \text { 3D 7D 4D } \\
& \text { and so on 5D 7D 7D }
\end{aligned}
$$

Divide the result into 4 or 5 parts as you will and then learn the blocks line by line, each line being self contained and unique.
There are three quarter peals in the composition which can be extracted, learnt and called, before the peal is attempted. Thus having called these three quarters (two of them overlap each other) the conductor has only to learn about one-third of the peal which he will not be able to call prior to the peal attempt. These quarters are:-

5.3. 5D 5D to the end.

The first two quarters are exactly 1.260 changes and the third is 1.526 changes. Incidentally, a quarter peal of 1.316 changes similar to the third one given above. passed to me by a leading Kent ringer which Im told is rung frequently in that county, is false. This quarter starts: Single at one, bob at one...single at three and bob at two. thence the Original from

5D 5D
344 D to the end.
If the would-be conductor is like me. cannot transpose easily in his head or read lead ends (heads'?) easily, he need have no fear about calling this composition as he will only require to know one lead end and that is 234567 . So long as he has learnt the composition and observes rule No. 1 (which says that the 2 nd and 6th are never called before except in the last four calls). all additional effort is unnecessary, Any shift course will become apparent within a couple of hundred changes as the next bell which you wish to call before is safely out of reach in the hunt or the second bob of a double brings the 2 nd or 6th before.
I hope these few comments will help and encourage other would-be conductors of this composition as they did for me and I wish them the same success as I had. - Yours truly,

ROY D. TOMLIN
Hockley. Essex
P.S.-Mr. Darby has told me often that there is a shorter quarter than the 1.526 from the last part of the peal which does run true in about 1.316 changes and if anyone can supply this composition we would both be very grateful-R.D.T.

NEW INSTALLATIONS OF ALL TYPES REPAIRS AND CONVERSIONS OF HAND WOUND TO ELECTRIC WINDING

## SWANSEA \& BRECON GUILD ANNUAL FESTIVAL

It was the first annual festival since the reconsecration of the church in May, 1959, to be held at St. Mary's Church. Swansea, on June 25 th. and with tine weather, it proved a great success. The ringing throughout the day, under the guidance of the Master, was above normal. Amongst the visitors who were welcomed were one from Somerset and one from Gloucester, who were on their first visit to St. Mary's.

To make the service more homely and the atmosphere warm and friendly Canon H. C. Williams decided to hold the festival service in the Trinity Chapel. It was a tight fit, but the Vicar was proved quite right in his judgment. In his address he spoke of unity amongst all church workers. and without it one couldn't go very far. He also said how often young girls and boys who took up bellringing were very interested during the first few week; only to drift away and forget all about it later. Those young ringers who were there today would. he hoped, lake a lasting interest in the art, and become important church workers of the future.

After an excellẹnt tea which had been laid out in the Roting Room. the tables were cleared for the business meeting which followed. We were again honoured with the presence of the Bishop, Mr. J. J. A. Thomas, who presided.

The Bishop, after his welcome, presented the certificates for the ringing competition. The winning band was Porthcawl (Mr. Michael Larchin). second Cadoxton (Mr. Gwyn I. Lewis), and third Sketty (Miss Hazel Way). and a few words of praise were said to each irı turn.

Apologies for absence from members, and the very good wishes from Mr. Ernie Stitch, were read.

Arising out of the minutes a committee meeting was held and the ringing competition successfully carried through. A notice of motion by Mr. T. M. Roderick, altering the rules re membership of affiliated towers, was withdrawn. the matter to be left for discussion in committee

All the officers were re-elected with the exception of the honorary auditor. The exficers are: Master, Mr. John T. Williams;
honcrary general secretary. Mr. J. Arthur Hoare ; honorary treasurer. Mr. David Stokes : honorary auditor, Mr. Magnus Peterson. A proposal to continue with the committee of five members was discussed and after voting on the issue it was lost to a proposal by Mr. John T. Williams. that the committee be made up of one member from each tower, names and addresses to be sent to the general secretary as soon as possible, which was then carried.

In his peal records report. Mr. G. 1. Lewis said seven peals had been rung during the 12 months. The writing of the names of the towers in the Peal Record Book was being carried out during the next week or so.
The general secretary. in his report, thanked all officers of the Guild for their co-operation and help during the year. The Guild, he said, was now in a very satisfactory state. The sale of badges was extremely good, and were still being asked for.

The Ringing Master reported additional interest at Gorseinon and Llanfeigan. Everywhere, he said. there were signs of improvement.

The statement of accounts showed a balance in the general account of $£ 34$, and in the Bell Restoration Fund, after allowing for grants to various churches, $£ 33$. Since this statement, the collection for this fund realised $£ 2$.

The place and date of the ringing competition in 1961 is to be left to committee. It is the Northern District's turn for the annual festival next year and this will be held in the Cathedral at Brecon. The date is to be fixed by the Bishop and the general secretary. A discussion re membership certificates ended by the matter being left to lie on the table. Mr. Trevor Roderick proposed that each tower be supplied with a copy of the rules and the general secretary was asked to carry on with this, as soon as possible.
Mrs. Whitworth and her helpers, also St. Mary's bellringers, were thanked for the tea provided. The Bishop was thanked for presiding at the meeting, and also Canon H. C. Williams for the use of the bells and conducting the service. With further ringing in the tower, this concluded the days festival.

Available In brown, blue or green
Price $11 / 4$ aach, Including postaga

## SHEFFIELD AND DISTRICT SOCIETY

The June meeting of the Sheffield and District Society was held at Dore and apart from the enjoyable ringing and bells, was notable in that 11 new members were elected from the new band now regularly ringing these lovely bells, which for many years had been silent.

Tea was taken on the Vicarage lawn in glorious sunshine, at the kind invitation of the Vicar (the Rev. Garth Heawood). Proceeds of the tea were given to the Appeal Fund for World Refugees.

The August meeting will be at Rotherham on Bank Holiday Monday and will be joint with the Yorkshire Association (Southern Division).
N. C.

## ARCHDEACONRY OF HALIFAX GUILD

On July 2nd the Archdeaconry of Halifax Guild met at Northowram. Ringing was from early afternoon until late evening with a short break for the service and tea. The Vicar addressed the Guild with a very warm welcome and remarked that the bells were ever pleasing to the ear. Also. that he for one was very glad that the age of electronic noises had not come before the art of change ringing in calling people to Church.
The Guild elected six new members. and ringing ranged from rounds and call changes to Cambridge and Superlative. Many thanks to the ladies for a most enjoyable tea. Next meeting: Marsden, September 3rd.

PORTISHEAD AND WRAXALL
Down in New Forest, the people stirred
As the sound of their own church bells they heard.
Just fancy that, not bad,' they said,
Must be they chaps from Portishead.'
Our outing had started one early June morn, When a party of upwards of thirly were borne To Wincanton; for 'Cow and Gate' and racing 'tis noted.
After trying the bells, 'twas for these we voted.
On leaving this place we got off our course
For which our pilot showed little remorse.
The driver said roads were wrongly numbered
But most of us thought itwas he who had blundered.

Through Shaftesbury Town, and then for a In a 37-seater up Zig-Zag Hill! [thrill They say road's not meant for a coach of this size.
Which aptly bore name of 'Enterprise.'
O'er Dorset Down and Cranborne Chase To Cranborne itself-a quite pretty place. Tho' we arrived here a little bit late
No time was lost raising fine Taylor eight.
'Twas here a local was heard to say,
We don't often hear bells rung that way.
After taking refreshments, we once more embark
Pondering on meaning of local's remark.
Lymington was next to do us favour And here we managed a course of Bob Major. We just had time for a quick look round, Then northwards thro' Forest again were
[bound.
Through Fordingbridge we then did pass And stopped for tea at the old 'Hour Glass 'Twas a pity, following this grand repast, That our own time here ran out so fast
Our last ring was Westbury; here bells, of course.
Are almost as famous as Westbury White Horse.
Here we will leave you, with old clock still ticking.
And a ring of eight bells that'll take some licking!
A. J. G.

## OBITUARY

## MR. ALBERT E. LOCK

'I was glad when they said unto me: we will go into the house of the Lord.
How well these words, said with so much feeling and expression at his funeral, on Saturday last epitomised the whole life and work of Mr. A. E. Lock, bellringer, mastercraftsman and churchman.
Albert Lock was born 81 years ago at Sutton Courtney, three miles from Abingdon, where his family had already been monumental masons for nearly 150 years. At Sutton the family owned 'The Plough' and had done so for several generations. One of a large family he was educated at the Culham College Practising School where he received an education well in advance of that of many schools of the time. When he left school he joined the family business and became a master-craftsman, his lettering being some of the finest produced in this century.

He was interested in many things and became well known in North Berkshire as a very fine cricketer (playing for Berkshire at very fine cricketer (playing for Berkshire at
one time) and as a footballer. He played cricket until just before the last war and is still held in very high esteem by the younger generations who played both with and against him . He often played against the Oxford colleges and was considered a worthy opponent. Another of his hobbies was fishing. Here he excelled and a number of families during the Second World War were grateful for the contributions which he made to their larders.

In the First World War he served in the Royal Flying Corps. He was a member of
the Special Police from the time of the the Special Police from the time of the
suffragettes until after the Second World War. Although in his sixties. he did regular duty with the police during the war years.

He was a member of St . Nicholas' Church and of the joint band with which he rang there and at St. Helen's. He was also a member of the P.C.C.

Albert Lock learned to ring as a boy at Sutton Courtney, where his interest was first aroused when. together with some other boys, he used to ring the bells partly up, (they were then rung from the ground floor). leave
the ropes swinging and bolt at the approach the ropes swinging and bolt at the approach
of the ringers. History does not say if they were ever caught. and if so what form of retribution befell them. Whatever it was, it was not an appearance in the Juvenile Court. Eventually he taught himself 'to ring a bell up and finally became the captain of the band at Sutton Courtney. At the beginning of this century he came under the influence of the Rev. F. E. Robinson. Master of the Oxford Diocesan Guild: and went to Drayton to practise method ringing. He rang his first peal. Stedman Triples, at Drayton on April 28th. 1906. In the years before the First World War he rang thirty-six peals. the majority of them with Miss Kathleen Holifield. who was later to become his wife.

## SERVICE TO THE GUILD

In 1921 the North Berks Branch of the O.D.G. was formed and six months after its formation he took over the secretaryship. retaining it until his death. a period of exactly 39 years. During that time Albert Lock built up the branch to its present strength for he was always willing to teach new bands. give help in time of need and it was his habit to visit the towers regularly on practice nights.
Rarely a week went by without one or two towers receiving a visit. Often this was done by bicycle. some visits entailed a ride of thirty miles. In recent years Mrs. Lock has acted as chauffeur as she often did before the last war. Only those who have lived in the branch for many years will realise how much time and energy went into this work and how. in spite of many bitter disappointments. both in his own towers and in the branch towers, A. E. Lock was always willing 'to have another go' to get things going. Very few ringers in North Berks can say that they owe nothing to him. In recent years he had devoted much time and care to the training of the young bands in Abingdon and the recent formation of the Abingdon School Society brought to fruition a long awaited desire.

For many years a committee member of the General Committee of the O.D.G. he was elected. in 1933. to be one of its representatives on the Central Council and had continued as such until his death: the recent Council meeting must have been one of the few that he missed. In argument he was one to be reckoned with but was always open to conviction should the argument prove sound and the change be justified: he loved the old ways but was prepared to accept the new if they proved their worth. This was very evideni in the field of change ringing. Although firmly grounded in the four standard methods, in the 1930 's he joined the Oxford band, which under the leadership of W.J. Judge was breaking new ground and ringing Spliced Surprise-this when he was in his late fifties. He did not call his first peal until 1921. when he called Stedman Triples at the age of 43 . During the next 29 years he called $40-50$ peals in the four standard methods, rang in a silent peal of Stedman, at Goring, in 1937 and a silent peal of Cambridge. at Buckland. Berks, in 1938 . The majority of his peals were of Major or Triples but in the post-war years he rang more peals of Minor than he had before 1939. His peal total is probably not far short of 225 practically all of which were rung for his own branch and Guild and in the company of his wife.
By his death the Oxford Guild has lost a devoted and selfless servant. one of its most faithful of instructors and one who devoted himself wholeheartedly to whatever he undertook. be it work. service to his church, teach ing the young, instructing or helping a band in ditticulties. ringing for the joy of ringing or enjoying the companionship of his fellow ringers. Fond of a good story and a quiet joke he will be very much missed at ringing meetings, on ringing outings and at all places where ringers gather together.

## THE FUNERAL

The funeral service took place at St. Nicholas Church. Abingdon, where he had worshipped Sunday by Sunday for so many years. The whole service by its hymns and psalms expressed a feeling of great thankfulness for a life devoted to an ideal and for work carried out su quietly and unassumingly throughout the years.
How true of A. E. Lock were the words printed in the last Guild report which he read while in hospital: Sometimes I find one bellringer or one choirman who never misses. whose quiet example has inspired successive generations. whose loyal. sometimes lonely service has been a perpetual witness to his faith and devotion. Such men are true servants of God.' (Bishop of Dorchester in his address at O.D.G. festival. 1959.)
M.R.C.

Mr. Lock was cremated and the ashes were interred at Sutton Courtney on July 16th, in a casket of stone made by two of his fellow craftsmen.
Family mourners were Mrs. A. E. Lock (widow). Mr. H. G. Lock (brother). Mrs. Cooper (sister). Mr. and Mrs. G. Townsend, Mr. and Mrs. H. S. Lock.
Clergy present were the Rev. J. H. S. Dixon (Rector of St. Nicholas'). Rev. J. V. Pixell. Rev. C. E. Wigg (Master of the Oxford Diocesan Guild), and the Rev. C. F. Cross (Deputy Master of the Oxford Diocesan Guild)
Others present included Mr. F. Sharpe (Deputy Master of the Oxford Diocesan Guild), Miss M. R. Cross (honorary general secretary. O.D.G.). Mr. A. R. Pink (secretary Diocesan Board of Finance). Mr. W. F. Judge (Ringing Master of the Oxford Society). Mr. P. Walker (honorary secretary, Oxford Society). Mr. G. L. Armitage (representing Sutton Courtney Bellringers), Mr. S. F. Wiggins (representing the Bowyer Lodge of Oddfellows). Mrs, Holifield (representing Mr. Gordon Holifield) and representatives of many towers in the district.

Many of the towers in N. Berks rang quarter peals to his memory. A 720 of Bob Minor was rung as the cortege left the churchconducted by A. R. Pink.

## MR, DAVID WILBUR

A member of the Barwell Society. Leicestershire, for eight years. Mr. David Wilbur was one of a band of ringers taught by the writer who. like many others. have graduated through membership of choir and Sunday school, to become a most loyal ringer.
At the early age of 23. David was killed in a road accident at Earl Shilton, when his car was in collision with a G.P.O. van on June 24th.

Because of his unfailing devotion to his church. David's place in the belfry will not be easy to fill.

For Evensong on Sunday special touches were rung half-muffled to his memory and also for Mr. George Hough, father of the vicecaptain of the Barwell ringers, who died the sáme week.

Those taking part were members of the Barwell Society: Miss P. Hough, Messrs. A. H. Hough. C. Lucas. A. A. Lucas, G. P. Garner, R. Colver. T. Pickering, J. Hill. C. R. Belton, T. C. Belton and Joseph Needham
T. C. B.

## MR. GEORGE PACKHAM AN APPRECIATION

By the passing on June 24th. of Mr. George Packham. St. Peter's. Twineham, lost an old and loyal friend. He was 83
He learned to ring in the neighbouring tower of Bolney, well over 50 years ago, and as far as we know had taken part in five pealsfour of Grandsire Triples, at Bolney. and the first peal on the five bells at Twineham Grandsire and Plain Bob were his limit. but he enjoyed good striking and earned a reputation locally for being one of the best covers? for miles around
Apart from his regular ringing activities, he sang in the choir and was verger and sexten for 35 years. resigning on account of illhealth is few years ago.

A half-muffled quarter of Grandsire Triples was rung at Bolney, on July 5th. in which two of his sons took part. Unfortunately. Mr. C. Wilkins, one of those who had rung with Mr. Packham for many years, was prevented by indisposition fiom participating.
As a man. George Packham was a quiet. lovable character. though not afraid to speak up for what he felt to be right if the occasion demanded The example he set us will long be remembered. May he rest in peace.

## ACCIDENT INSURANCE FOR BELLRINGERS

Many teams of bellringers are insured under the special policies issued by the Ecclesiastical Insurance Office, Lid., 11, Norfolk Street, Strand, W.C.2. Particulars will be supplied on application. Those with old policies are recommended to consider increasing the scale of benefits provided.

The Ecclesiastical Insurance Office. Ltd., was founded in 1887 to conserve for the Church of England profits arising from Church Insurances. The Office undertakes all kinds of parochial insurance.

THE PROFESSOR INVESTIGATES
(Continued from pige 473)
Here then is the formula for a team. Number of successful peals out of $10=10$ average $P$ of team.

Have you proved your last formula? I asked

Only to a limited extent: said Mr. Dodge. It may need modifying in the light of further information. However, we are now in a better position to assess whether a peal is likely to succeed or fail. For an error to grow into sufficient dimension to ruin a peal several things have got to happen. Let us examine the possible sequence.
(a) A ringer with a low $R$ goes wrong and blunders on for several changes
(b) He in turn dislodges someone else with (shall we say) a moderate $R$, who
(c) Blunders on. of the others. some of whom were coasting. forget what they should be doing and join in the fun.
(d) Catastrophe. It is possible for a ringer with a high $R$ to make a mistake and involve a second ringer with a high $E$ but a low $R$ who in turn begins the sequence
' It is in a scramble of this type that "Blueline Bill" comes into his own.' said Mr. Dodge.

## Blue-Line Bill?

Yes, explained the Professor. 'Some ringers have a ". Blue-Line " mind which is sometimes accompanied by a "Blue-Line " action. Where both these accomplishments are combined it often proves an asset in a pealringer. The conductor who knows his team can be certain that this ringer will plod on regardless of the confusion around him and that if and when order is restored he will be in his place. Furthermore. if any ringer finds himself trying to perform a certain operation only to discover that "Blue-Line Bill" is already doing it. he knows immediately that it is time to look around for something else to do!

Such a ringer seldom speaks to correct others-there is no need-although occasionatly he will (if asked) state what he is doing: also he has a Grade I E. This places the conductor in some embarrassment on the very rare occasions when " B-L B " gets off the rails. lt is so difficult to believe that he really can be wrong that the form of address to such an individual is more or less standardised:
"Shouldn't you be doing a 6-5-6?" (or some such operation).

If "Blue-Line Bill" shakes his head (he doesn't deign to reply). it is about time to all -. Stand "!

At what stage of the peal are things likely 10 go wrong?' I enquired. 'Are some periods more vital than others?

Indced they are.' replied the Professor. have discovered that there are two. what I call. Critical Periods. Number one is the first quarter hour or 20 minutes. Many peals are as I have said, preceded by a false start which is, after all, nothing less than a lost peal. The newness of the method, the " feel " of the bells and the rhythm are contributing factors although the knowledge that it is always possible to make a fresh start, or even the desire to do so after a jumble in order to ring a good peal. are reasons not to he ignored.

And the second? I asked.
That is far more serious. said the Professor. 'It musi be remembered that it is a physical impossibility to maintain an unbroken concentration for a period of time ranging from between $2 \frac{1}{1}$ to nearly 4 hours. Even in the most complicated Spliced peals the mind will wander for short periods of time. Towards the end of the peal. particularly the lost half hour. mental fatigue in case of difficult stuff and constant repetition bordering on horedom in the case of comparatively simple methods. or even anxiety about catching a hus or train, tend to make this the second critical period.

- It must also be emphasised. said the Professor. that very good ringing for long
periods tends to induce in some ringers a soporific effect and/or inculcate a sense of false security. There is a story told about that grand old Bolsover ringer. John Flint. that once in a peal he was conducting: and for no apparent reason, he began to inflict verbal punishment on the ringers around him in the manner that only John Flint could. They were told to ${ }^{\text {. }}$ listen to their bells " and "pull themselves logether." with other similar expressions. After the peal was concluded one of the ringers took John on one side and asked him the reason for his attack as the ringing had been apparently first class. "Yes.". said John confidentially. " the ringing was so good and had been excellent so long that I was afraid that the first mistake would mean the end of it.

Which appears to support your argument,' I exclaimed.

Exactly: said Professor Dodge. 'But if there is one factor that contributes to the obliteration of a peal more than any other in the last half hour it is vanity!'

Vanity?" I said incredulously.

- Vanity!' repeated the Professor. "Most ringers at this juncture are already adding the peal 10 their cotal or imagining what it will look like in the ". R. W.". and who will be reading all about it. This. I am convinced. causes more minds to be wandering at the same time. often with the disastrous effects we know so well. than any other reason.

You're a sceptical brute, I said.

- No, just a truthful one,' he answered.

With that noble sentiment echoing in my mind I made my way home.

## JOINT MEETING AT TEESDALE

A joint meeting of the Northern District of the Yorkshire Association and the Southern District of the Durham and Newcastle Association was held in the border country of Teesdale, on July 2nd. The meeting began on the Durham side of the Tees. at Barnard Castle. where there was a good muster of ringers. coming from as far afield as York and Appleby.

Touches of Plain Bob. Stedman. Double Norwich and Cambridge were rung. and the Vicar (Rev. J. B. Brown) conducted a service. After tea at the King's Head Hotel, the party crossed the river to the attractive village of Cotherstone. which was a new tower to most of them. The bells there-a pleasant six with a 7 cwt . tenor-are rarely rung. This was evident from the inordinate length of the ropes. some of which had never had a tuck put in. and most ringers were catching well above the sally.
An additional hazard was the box holding the clock chiming machinery. This structure. over five feet high. penned the ringer of the second against the wall, and threatened skinned knuckles at every handstroke. besides concealing any ringer below average height.

In spite of these handicaps. the bells went well to touches of St. Clement. Grandsire. Double Court. Plain Bob. Cambridge and
London. P.

## BARNSLEY \& DISTRICT SOCIETY

The July meeting of the Barnsley and District Society was held at Darton. the first time the tower had been visited for over 30 years. The visit was most appropriate as the day previous a baby had been born to the Vicar (the Rev. E. G. S. Scott) and Mrs. Scoll. In a warm welcome the Vicar mentioned that this was the first baby born in the Vicarage for ahout 30 years. He thanked Mr. Douglas Stables and Mr . Noel Moxon for their work in checking the bells and tidying the belfry. Nine towers were represented. Next meeting. August 13th. at Eastwood, near Rotherham.

## MORE BELFRY GOSSIP

Aldehurgh. Suffolk. bells are to be taken down for overhaul.
Entering our peal columns for the first time is a peal by Leicester University Socicty, rung by resident members. This was at Wanlip.
Printed notice seen in the rear window of a ringer's car at the annual meeting of the Winchester and Portsmouth Diocesan Guild at Whitchurch: "Ranning in, Running out,

## OUTINGS

## CREWKERNE, SOMERSET

Sunshine. the beautiful countryside of Somerset, magnificent churches and fine bellsthese are the things that make for an enjoyable time. At least. this is certainly what the Crewkerne ringers. plus a few friends from Merriott, found on the afternoon of June llth. when they set out for an afternoon's ringing, plus pienic on Ham Hill.

The first tower visited was Preston Plucknett. Here we found a pleasing little 15 th century tower with six bells (tenor 11 cwt ). Alas, this tower proved to be our Waterloo-and we weren't fighting with Wellington either! We were not really experienced enough to make a good job of ringing these rather difficult going bells. However, it is all added experience and we left Preston realising how much more we all had to learn.
We drove from Preston, through the lovely village of Montacute with its Big House, to the beautiful old church of Stoke-under-Ham -a Norman church basically with a 13th century tower and transept. all beautifully kept. Here we were met by one of the local band who rang with us on these fine bells, probably the best bells of the afternoon. There was certainly some music to be got out of this fine six (tenor 17 cwt .), and this fact spurred us on to ring amongst other things a successful course of Kent.
However, the prospect of food did its work and we reached the top of Ham Hill in record time. Having satisfied the inner man we simply descended to the bottom of the hill to the village of Norton-sub-Hamdon. Here we found a grand Perpendicular church with a 98 foot high tower-after we d climbed the steps to the ringing chamber didn't we know it! The six bells (tenor 18 cwt .) were soon ringing to a variety of methods and, as the lower swayed. the picture frames hanging from the walls almost kept the rhythm of the bells as they too swung from side to side.
This was the last tower of the afternoon and as we left everyone felt that this kind of excursion was something that could well be repeated.
C. J. B. M.

## SPALDING, LINCS

Spalding ringers and friends from neighbouring towers held their annual outing on May 2Ist. An enjoyable hour was spent at the first tower. Lutterworth, before proceeding to Stoke. Coventry, where we had the pleasure of ringing a bride-to-be into the church.
The next stop was for lunch at Warwick. after which we rang at both St. Nicholas' and St. Mary's. many younger members preferring the fete in the castle grounds. Moving out of town we visited the pleasant six at Whitnash. where a G.O.M. of 95. Mr. Hawley. met us and joined in some ringing with us.
We visited Leamington for tea, after which we called at the towers of Lillington. Daventry and Weedon Bee, where we had $t 0$ wait a few minutes for a broken rope to be repaired. We then journeyed on to Northampton where a stop was made for refreshments. and eventually arrived back home at midnight. having had a most enjoyable day We extend our very grateful thanks to all incumbents and our organisers. Mr. and Mrs. Chapman. who did a splendid job at rather short notice. and who were also on their first outing with us

ANON.

## MELTON MOWBRAY, LEICS

A half-day's outing into Derbyshire was enjoyed by Melton Mowbray ringers and young friends from Oakham, on June 18th. Before tea at Long Eaton. ringing took place at Old Sawley and Breaston. At Stanton-by Dale not only the bells but liquid refreshments in the lovely rose gardens at the Old Manor House were much appreciated. The latter is the house of Mr. Buckley and Mr. and Mrs. Crockes. who are Old Meltonians:
The last lower. St. Helen's. Trowell. provided a test with no stays on the second and six: nevertheless, a fine touch of Oxford Bob Minor was rung. The chairman (Mr. R. E. Manton) and secretary (Mr. T. Templeton) were responsible for the arrangements.
J. H. C.

## NOTICES

## Scale of Charges

Meetings: $3 / 6$ (minimum) for 30 words, afterwards 11 d . a word. Each additional insertion half charge.
Other Notices: 4/- (minimom) for 36 words, afterwards $1 \frac{1}{2} \mathrm{~d}$. a word.
Displayed: 7/6 per single column inch.
No guarantee of insertion after Monday, first post.

## BIRTH

PARSONS. - On July 5th. 1960, to Joyce (nee England). wife of David Parsons, of Old Coulsdon. Surrey, a daughter. Susan Jane-a sister for Paul.

## POINTS FROM RECENT PEALS

By the REV. K. W. H. FELSTEAD

$I^{\top}$T is difficult to alter the 'pattern' of this article since I am talking about the same sort of things each time. I hope readers won't think it too monotonous. therefore. At least. over the years most towers will be mentioned occasionally, and I know that interest is created in the towers then from the number of enquiries, etc., I have after each article appears.

We have seen a very rare milestone passed these last few months -Willesden had its 400 th peal. Only two other churches have more than this-Erith and Crayford, of course. The former reached it in 1938 and the latter with its first peal after the war time ban in 1943. Of course, the Loughborough Bell Foundry has more than double this number of peals. but it wasn't until 1949 (December) that it reached 400 . which means that more than 400 peals were rung there between 1949 and 1959! A couple more years should see the 1.000 mark reached at the present rate. However. congratulations to Willesden. It is slowly catching up Erith and Crayford. but at the present rate it will be 20 years before it does so. By the way, in the 400 have been well over 300 peals of Surprise Major in over 100 different methods. That. I am sure, is unique.

There are 13 towers at the moment in the 300 s; the nearest to Willesden being St. Martin's. Birmingham, where I have recorded 376 to date. but I am not sure that I have all the early peals. Frodsham became one of the 35 towers with 200 or more peals on April 23 rd. so congratulations there also. Two towers recently reached the 150 peal milestone-Grundisburgh on May 19th and St. Ebbe's. Oxford. on May 24th. Those making a century are Allesley (on February 19th -the peal for the birth of the new prince). Canterbury (St. Stephen. Hackington). Anstey (as the footnotes claimed) and Holy Trinity. Darlington (also as claimed). The latter tower becomes the fourth 6 -bell tower to reach 100 peals. Gamston will soon be there also (99) and Stisted (95). The other 6-bell towers in the 90's-Wickham Skeith. Lamberhurst and Hanley Castle-don't appear very often in the peals columns these days. neither does Thornham Magna. where most peals have been rung in this class of tower (136). There have only between two peals there since the last war. the last in 1948. Even so. I expect it will keep its lead for a few years yet as it is still 22 peals ahead of its nearest rival (Croft).

Several towers have reached 50 -Wenhaston. Harrow Weald. Macclesfield St. Peter and Bowdon. Those which will do so with their next peal are Woolton. Stonham Aspal. Harston. Eardisland. Millingdon St. John. Shepshed and Wolstanton. Marston. which now holds the lead amongst 5 -bell towers. looks as if it will be the first of these to reach 50 . even though it has some way to go yet. Oxendon (5) is yet another to reach double figures. I see that the peal at Coryton was not only the first on the bells, but the first in a 5-bell tower in Devon. Since there are 33 of these in the county. there is plenty of scope yet, but actually only 89 of the 2476 -bell towers have had a peal. This means that about one-fifth of the unconquered towers in the country are in Devon.

Now for towers making their first appearance in the peal lists. These are Dunkeswell. Lewannick. Newton (Montgomeryshire). Ruyton-XI-Towns. Sully. Dinton, Belstone. Butler's Marston. Halkyn. Selattyn. Arley. Brislington and Thorley-quite a lot this time. The peal at Farnworth St. Luke was the first on the bells since being recast. I fear the claims for first peals at two towers cannot be supported. I have a previous peal at South Stoke on November 10th.

1923 (Minor in 3 methods). Similarly, there was a peal at Belton (Lincs). in 1911. The footnote to the recent peal suggests augmentation from 4 to 6 . The peal in 1911 was on 5 bells, and Dove's book gives Belton as a 5 -bell tower.

During the period under review. Compton Parva seems to have had the longest peal silence. The only previous peal I have there was in 1903. and this was not published! Blakesley also had its only previous peal before the First World War-in 1912. It isn't often that a 10 -bell tower appears in the infrequent visitor's list! But one does this time-Newark, where there hadn't been a peal for nearly 50 years. I have five peals altogether here, spread over 187 years. The first was in 1773, and the next 1816 (both Grandsire Triples). The third was Grandsire Caters in 1897. and the fourth Grandsire Triples in 1913. which was the last one until the recent one of Stedman Caters. I don't suppose we shall have to wait another 50 or so years before Newark appears again in these columns. I confirm that the peal at Broadwas-on-Teme was the first since 1919 (which actually was the only previous peal on the bells). Beighton (where I first pulled a bell) last had a peal in 1921. 'Church Bells' gave details of two rung here in the $1860^{\circ}$ s from peal boards in the belfry. But those boards had disappeared (I think), by the time I came to learn there. 25 years ago.
Next we come to Nether Stowey. Whose only previous peal was in 1927. Two towers last had a peal in 1928. Meriden (two previous peals in 1927 and 1928) and Moreton-in-the-Marsh. The latter had several peals (being an 8 -bell tower) from 1900 onwards. but none of Major. Hence the recent peal was not only the first on the recast bells, but also :he first of Major in the tower. Cartmel. Bugbrooke and South Kilworth all last appeared in 1932. The first has three in all now, and so has the second, but South Kilworth had only had that one before. Darling Point had its last peal during the -Great Adventure' expedition in 1934. Before that there had been two peals of Minor at the beginning of the century. Chart Sutton's only previous peal was of Grandsire Doubles in 1935. In the following year Staunton-on-Wye had its last peal until this year. In the middle twenties. this tower had several peals-two a year or so for about six years. The first peal was in 1908 and it now has 17 in all. Although a 6 -bell tower. they have all been peals of Doubles. 15 of Grandsire and two in 2 methods. In 1937. we find Amersham had its last peal before the recent one. The first on the bells was in 1914. then no more until 1932. Five were rung in the $1930^{\circ}$ s.

Three towers last appeared in the peals columns in 1938. Gorseinon is the first of them-first peal in 1919 and seven in all now. Although an 8 -beii tower. Major has not yet been rung there in a peal. Harmondsworth has a similar history-first peal in 1920 and also seven in all now. The third is St. Cuthbert's. Lytham. Ringing at this tower during the recent Clerical Guild tour. I found several peats recorded on boards and rung at the beginning of the century which had not been published (most unusual). My total for the tower is now 25. 17 from 1875 to 1908. seven from 1929 to 1938 and the one this year. In 1939. Nassington had its only other peal, and the last of the list is Brookfield Unitarian Church. which was last mentioned in these columns in 1940. This tower has had big ups and downs. From the first peal in 1871. 29 peals were rung up to 1906 . Then came a gap until 1924 and three peals were rung in the 1920's. Thirty-five peals were rung from 1932 to 1940 -quite a good average. But then we have had to wait until 1960 for the next. The total is thus in the 60 s.

Finally. one or two 'wrong' claims. which have already been pointed out in letters but which I can confirm. Edinburgh Delight had been previously rung at Cuddington in 1957. and it was not the first peal of Minor at Brill-7 methods had been rung in 1949.

## TWELVE BELL PEALS

BIRMINGHAM
ST. MARTIN'S GUILD FOR THE DIOCESE OF BIRMINGHAM. On Thurs., June 30, 1960, in 3 Hours and 29 Minutes. Ar the Cathedral Church of St. Philip.

## CHRIST CHURCH, SWINDON

An early start was made by ringers and friends of Christ Church. Swindon. on their annual outing on June 25 th. and with the promise of fine weather the coach was soon rolling towards this year's venue-five towers in Hampshire.
The Church of St. Mary. Twyford (8. 11 cwt .) was first visited and the day's ringing began with touches in various standard methods and a good course of London Major. A fair eight awaited us at SS. Peter and Paul. Fareham ( 14 cwt.). where an enjoyable hour's ringing was had. A short ride brought us 10. perhaps. the most eagerly awaited stop of all. namely lunch at a roacitouse in Portchester.
Various glimpses of the sea told us that our farthest point was soon to be reached and everyone was looking forward to the climax of the day's ringing at Portsmouth Cathedral. Here, however. the key did not turn up until five minutes before we were due to leave and it was suggested that in future the Manual of the College of Campanology should contain a paper on memory training.

Arriving at St Mary's. Portsea (8, 17 cwt). we found the bells up after being used for a wedding and we were happy to ring while the photographs were being taken in the churchyard below. The spacious ringing chamber. perfect circle and the tone and "go" of the bells impressed us all and here again there was something for everyone: another course of London being among the methods rung.
An excellent tea was served us at Portsmouth and after listening to tape recordings taken during the day and a wash and brush up. "we set off for what was the last tower and the novelty of the day, the light ring of ten ( 9 cwt.). at North Stoneham. These bells were soon speeding along to a touch of Grandsire Caters, after which Stedman Caters and a half course of Cambridge Royal were successfully brought round.

Home was reached at 11 o'clock but not hefore everyone had voted the outing a huge success and had voiced three cheers for Eric Sutton in appreciation of his faultless organisa tion.

## OUTINGS

## BLEWBURY, BERKS

On July 2nd Blewbury ringers and friends toured the Watford area on the occasion of their annual outing. ringing at Hemel Hempstead. King's Langley. Bushey and Bushey Heath, with a final call on the way home at Burnham. Bucks.

Methods rung were: Grandsire and Stedman Triples. Plain Bob Major and Kent Treble Bob, with call changes and rounds for the learners.

Worthy of special mention is Ernie Garrard who, unable to be with us in the morning. made the journey to Bushey by rail to join is for the afternoon and evening.
We were glad to note that one peal conductor in the party managed to stay awake all day when ringing. although he had to make five attempts to bring round a bob course of Stedman. at Burnham!

## HENBURY, BRISTOL

The Wye Valley was invaded by 12 Henbury ringers and friends in a minibus on July 2nd. Slimbridge. with its well kept belfry, and Newent, with its tenor of disputed weight. provided good appetites for lunch at Ross. Next. a drive down the Wye Valley stopping at Monmouth for a ring on the fine Rudhall eight at St. Briavels. where good views of the surrounding countryside compensated for the unfavourable attributes of the bells for good ringing.
Tea. followed by a ring on the fine ring at Chepstow. brought us to our last tower. Lydney, and a good local welcome. Thanks go to all incumbents and tower captains. and to George Locke for organising a splendid outing.
A. B.

## APSLEY, HERTS

June 25 th dawned drizzly but the party assembled at 6.30 a.m. were nothing daunted. Picking up the St. Albans contingent and various others en route (the last member joining the coach at Newmarket). handbells were soon tapping along merrily. Wymondham was reached by 10 o clock. the party being met by Mr. H. Tooke and other local ringers, who had kindly raised bells which were much enjoyed.

The next objective was the new ring at Great Yarmouth. where the Rev. A. G . Thurlow extended a hearty welcome. Being a little late it was greatly appreciated that the bells had been raised by the Rev. G. Gattey Rounds. Grandsire Cinques and three leads of Treble Twelve had to be sufficient as it was lunch time.

Back to Norwich where Mr. Gowing was ready at St. Michael's. Coslany, to take charge of the party. From St. Michael's 10 St. George s. Colegate, where the Rev. Gordon Paget greeted the ringers. Then to St. Giles", led by our worthy guide, where again local ringers were in attendance. A splendid tea was then enjoyed at the Bedford Buttery.

A lovely run back to Newmarket to find the bells of St. Mary's ready, with Mr. R. Heath and other local ringers in attendance. Many methods including Spliced were rung. It was a tired but contented party that arrived back at Apsley soon after midnight.

Thanks are due to the incumbents and ringers who met the party and last. but not least. to Mr. B. Love, who was so helpful in making the Norwich arrangements.

ASTON, BIRMINGHAM.-On July 17 hh. 1.259 Grandsire Caters: 1. L. Gray 1, A. S. Burbidge 2. M. G. Ingram 3, D. T. Finnemare 4. D. R. Ingram 5. A. Short 6. E. J. Franklin (cond.) 7. J. W Pettigrew 8. R. C. Ingram 9, D. J. Atherley (first of Caters) 10. For Evensong and also as a 21 st birthday compliment to Mr. B. Downic, at present serving in H.M. Forces, in Aden.

Editor: T. W. Whitb.

Miss A. W. Shurcliff. daughter of the late Mrs. Shurcliff. of Boston. U.S.A. BELFRY who was a member of the Ancient Society of College Youths, is on holiday in this country. She rang in a half peal (' in hand ') of Plain Bob Minor, on July 8th. in London, with Mr. Michael P. Moreton and Mr. M. V. Chilcott.

Two rings of bells in North Wales are to be restored-Barmouth and Beaumaris.

The first quarter on the bells of Holy Trinity. Hull. since being augmented to 12 , was rung on July 2nd.

The recast bells of St . Michael's. Aldershot. were rededicated by the Archdeacon of Surrey. on Saturday, July 16 th. Practice is as usual on Fridays.

Bells will be heard prior to the morning service to be broadcast at 9.45 on Sunday. August 7th, in the Home Service, from St. Mary's Church. Westerham. Kent. The service will be conducted by the Vicar. the Rev. P. P. Kirwin; the Master of the ringers is J. S. Igglesden.

The Executive Committee of the Gloucester and Bristol Diocesan Association have appointed Mr. W. H. Trueman, of Swindon. the immediate past master. to carry out the duties of Master until the next annual meeting following the lamented death of Mr. Frank Skidmore.

The peal at Bradley. Bilston. Staffs. while being the first on the recast bells was not the first rung in the tower. There was a peal rung in this tower 53 years ago. Mr. William Davies is the first member of the local band. formed after the installation of the recast ring, to ring a peal.

The fine sonorous ring at St. Hilda's, South Shields, evidently has a powerful attraction to beings other than ringers for during bath a recent meeting and the peal of Rutland Surprise Major, on July 11th, a dog has bounded up and after a few preliminary barks has either howled at or with the bells for about three minutes. Fortunately the peal ringers. used as they are to ships sirens, fire engines and small boys throwing stones at this tower. refused to be put off.

One time ringer at St . Andrew's, Hagbourne. Mr. George Warwick celebrated his 90 th birthday on July 14 th . To mark the occasion the local band rang a quarter peal. This over. George accompanied by the Vicar. the Rev. H. A. Smith-Masters, walked down with the band to the Fleur-de-Lys. to celebrate the occasion and to talk over old times. especially the peal George rang in 1905.

The number of Grandsire in the peal of Spliced Caters, at Wakefield, on June 25th (see page 474), was 4.211 not 4.213 .
Pipe's Pilgrims start their 1960 tour next Sunday. The itinerary includes North Lancashire. the Lake District, Tyneside, Durham. and Yorkshire.
Mr. Albert J. Hughes. of Bangor. is. we are glad to learn, fairly well again after a very rough time. He extends his grateful thanks to ringing friends who have written to him during his long illness.
The quarter peal at Penhow. Mon. on July 16 th, rung after an attempt for a peal of Bob Minor had come to grief towards the end of the third extent. was Ivan J. Page's first quarter. Ivan. who is from Melbourne. Australia, and is at present working in England. rang very well at his first peal attempt.
Mr. W. H. Hibbert, of Reading, writes commending the work being done by Mr. and Mrs. Pares and another ringer working at the A.W.R.E.. Aldermaston, in training at least 20 youngsters to ring at Kingsclere. Hants. He hopes to make another trip to Kingsclere before the winter sets in to watch the progress of a tower from no ringing "to a local band able to ring for both Sunday services and a practice night every Thursday.
On July 13th the first peal was rung for the Bristol Cathedral School Guild at Weston-inGordano. The band comprised three pupils, two masters. and one old boy. Also on July 16 th the first quarter peal was rung by a complete band of pupils from the schoolGrandsire Doubles on the back five at the Cathedral.

# THE WHITECHAPEL BELL FOUNDRY 

## ALPHABET FOR BEGINNERS <br> By T. J. LOCK. <br> " M" continued

## MUFFLED (continued)

Two particular instances can be quoted where special attention was given to control noise of the bells by muffling as the churches are situated in built-up areas. Firstly, the two striking sides of the ball of the clapper were holed and threaded to receive a hard rubber insert, which protruded slightly above the face of the clapper-the effect was that the rubber contacted the metal of the bell first and sufficiently deadened the impact of the clapper to produce a much quieter though not precisely muffled sound. Secondly. to obviate the bad striking at learner stage an ingenious idea was adopted by using cut up motor car tyres. A hole was made through the centre of the tread which fitted over the flight of the clapper and lengths of tyre on both sides fitted over the ball with the ends secured around the shank of the clapper. This produced such a muffled note that it was hardly audible and moreover. when the learners had finished and the normal practice followed open ringing was achieved by merely quarter turning the tyre around the ball of the clapper.

NATURAL COURSE END.-This indicates a course end which is produced naturally, i.e.. without interference by calls. but its use and application is more restricted to the proving of compositions.

The following touch of Plain Bob Major2345678 W B M H

| 3526478 |
| :--- |
| 2345678 |

would, by the use of Natural Course Ends, he set out as-

| $\frac{W}{2345678}$ | $\frac{B}{-3526478}$ |  | $\mathbf{M}$ | $\mathbf{H}$ |
| :---: | :---: | :---: | :---: | :---: |
| -6325478 | 6325478 | -2345678 |  | 3526478 |
| 2345678 |  |  |  |  |

You will notice that 78 are shown throughout with the tenors together at course ends and in their home positions their presence is so obvious that in practice they are not shown. You will also notice that when writing the natural course ends the figures repeat until a call affects the coursing order.
Eventually, you will come across a composition with one or more course ends in brackets -it means that that, particular course end is not actually, rung at ali because. owing to the construction of the method, the call immediately prior prevents it.

NOMENCLATURE.-Much thought has been given in the past to the matter of naming methods. simply, of course, for identification and classification purposes. A collection of methods was prepared in 1935 for the Methods Committee of the Central Council by the late J. Armiger Trollope and the late Ernest C. S. Turner. and this has been accepted by the Exercise. Whilst the Central Council declines to interfere with any individual ringer giving a name to a new method. it does urge the extreme importance of choosing suitable names, and the principle is to choose place names.

NOTATION.-By far the easiest and simplest way to set out a method is by Place Notation. and the printed collection of Surprise Major methods by the late Andrew J. Corrigan is the best known work using this principle. You will also see methods given by Notation from time to time in " The Ringing World. usually at the foot of a peal column. To work out a method from Notation. in addition to the Places given you need only to know one thing more-whether it is a seconds or some other Place Group method at the lead end. Then, to get a line diagram, you follow A. J. Corrigan's instructions, quoting . When writing down a plain lead from place notation use paper ruled in $f$ inch squares and fill in the path of the treble before starting on the working bells.'

## THE REV. K. W. H. FELSTEAD, Winchester Diocesan Guild.

The Rev. K. W. H. Felstead is undoubtedly the statistician of the Exercise, and his : Points from Peals* articles. which appear in this journal from time to time, are most helpful and interesting. He has a flair for collecting data and has built up a monumental record of about 110.000 peals, and the towers in which they were rung, His card index system must be a most efficient one-and a mine of information. He has willed it to the Central Council. hut it is to be hoped that it will be a long time before this body comes into possession!
Mr. Felstead is convener of the Methods Committee. and a few years ago this committee produced a tremendous report to the Council. which revealed that long and arduous work had been done. It is doubtful whether the recent report of the Sunday Service Ringing Survey Committee was so long. Certainly the Council and the Exercise have cause to be grateful to him and his committee for the very efficient way they did their job. Mr. Felstead is a very popular figure at Council meetings. and after the main meeting, when all can relax. he is to be seen as the life and soul of the party. He is a good musician and the possessor of a good voice.
Although he first learned to ring at Beighton. Derbyshire. about 1934. he did not become very active until he moved to Southampton.

## ST. MARY'S, HORNSEY

Only the tower remains of Hornsey Parish Church and in that tower is the only ring of bells in the horough. Both the tower and the bells are worth preserving (states 'The Hornsey Journal') if only to satisfy sentiment, but it was sad to hear it reported at the last meeting of Hornsey Borough Council that the Church Council of the Parish Church were no longer going to use the tower for bellringing.

This decision was bound up with the high cost of repairing the tower. towards which the Borough Council had already agreed in principle to give a grant.

The editorial continues: We feel confident that the Borough Council will see to it that the tower is saved. even if the money is not forthcoming to keep the bells ringing. There are those who say that every effort should be made to save the bells as well: and at a time when more money than ever before is being spent on personal luxuries. it is regrettable that the public as individuals cannot be moved to give what is necessary to preserve the only amenity of its kind within the borough.

He was a contemporary of Paul Taylor, at Sheffield University, and did a little ringing at Handsworth. Sheffield. When he arrived at Southampton, it was not long before George Williams took him in hand, and Mr. Felstead's regret is that he never rang a peal with this wonderful man. His first peal was rung on Easter Monday. 1945. and being a busy parson he has not had the time to build up a large peal total. What he has done, however, is to go for variety, and out of his total of 74 peals. 54 have been on 10 or more bells. He has rung 11 different Surprise Royal methods, and the 20 peals rung on 6 and 8 bells are in 14 different methods. He took part in a peal of 6.400 Cambridge Major, with tenors together and 6th place hob. and a peal of Spliced Surprise Royal in four methods. The other peals of Surprise Royal include several methods rung for the first time.
As Vicar of the important Church of St. Michael. Southampton, he is unquestionably a very busy man-but like all busy men he can always find time to do a little more for our benefit. and the Exercise will always be grateful to him not only for his useful work, but because he inspired the augmentation. from 8 to 10 bells. at St. Michael's. which is a first class ring

JAFUS.

## ST. MARTIN'S GUILD

A quarterly meeting of the St. Martin's Guild was held at Shirley, on July 2nd
The bells are a light octave (tenor $6 \frac{1}{\mathrm{c}} \mathrm{cwt}$.) and were rung to suit all tastes from rounds to Spliced Surprise Major. An excellent tea had been prepared by the Shirley ringers, and thanks were expressed to the organisers, Mr. V. A. Henıming and Miss Judy Robinson.

The Master, Mr. Edgar C. Shepherd, occupied the chair at the meeting and commenced the proceedings by welcoming two visitors-Miss Anne Bullard and Mr. George Morris, of Malvern. The following resident members were elected: Margaret A. Turner, Erdington: Vivienne A. Neal. Packwood; Averill J. Bell, Cedric J. A. Goy and Robert A. Jones, of Hampton-in-Arden, and Victor B. Furber, of Handsworth.

The tower elections. as life members, of the following, were duly ratified: Penelope Sedgwick, and Beryl Cawser of Lichfield: Philip H. Tocock. Oxford: Philip Mehew. Stotfold: Philip Tubbs, Taunton: Philip Walker Oxford. and Philip Walker, of Rotherham. The preponderance of the name 'Philip is the result of the 'Philip' peal rung at Birmingham Cathedral a few weeks ago.

For the place of the October meeting Yardley. Aston and Boldmere were each proposed. and upon being put to the vote Aston was chosen.

## NORWICH DIOCESAN ASSOCIATION

The Eastern Branch visited Happisburgh, on the Norfolk coast. for a meeting on July 9 th. The service was conducted by the Vicar. Rev H R. Chisnell. and after a splendid tea the business meeting was presided over by the branch chairman. Mr. E. R. Goate.
The members heard the glad news that the Association president. Mr. F. Nolan Golden. was out of hospital and making good progress after his recent operation and the branch secretary was instructed to send a suitable message of best wishes.
Mr. A. Cooper and Miss G. Wilson probationers of Gorleston. were elected to full ringing membership as was Miss C. Sadd. of Happisburgh. Mr. P. Banthorpe and Miss A. Hannant were elected probationary members and Mr. A. Mason a ringing member: all these last mentioned belonged to the Happisburgh company

The Association secretary, Mr. W. Love, gave details of the progress of the Memorial Fund for the late Mr. C. V. Ebberson and Mr. H. W. Barrett gave a brief account of the Central Council meeting, at Folkestone

Votes of thanks were accorded the Vicar the organist. M. Hewitt Gibson. and Mr. G Larter. of the local company and the ladies for organising the tea.

## TRURO FESTIVAL IN DEVON

THE CHURCH OF ST. MARTIN OF TOURS, WERRINGTON.

The Diocesan festival was held at Werrington. on July 9 th. Werrington is one of the three parishes in the Truro Diocese situated in the county of Devon, and is about two miles from Launceston.
The Vicar, Rev. W. N. Williams, is keen on his bells, a noble ring of eight. tenor $14 \frac{1}{2}$ cwt.. and this is the second festival held in his church this summer. In his sermon at the service he spoke of the Church being the hody of Christ. and said that if a limb of a human body were not functioning properly the whole body suffered. so with the Church, if any part of the Church did not function the whole Church suffered. and applying it to bells. if at a church possessing bells they were not rung before service. the offering at that church was not complete and that particular church suffered in consequence.
A sumptuous tea was provided in the Church Hall at which the Diocesan secretary thanked the Vicar and all his workers for their hospitality. He also mentioned that having been secretary for 30 years he would be retiring next February and the Guild must find a successor. Thirty years is a long time. but nothing to that of a ringer from Callington, who was being presented with a long service certificate for having been a ringer for over sixty years.
St. Martin's Church. Werrington. replaced a former one which stood in Werrington Park. It was built in 1740 and is an unusual structure. It has three towers. the bell tower and two other small lowers built solid and crowned with pinnacles. It also has two family pewis reached by spiral staircases. one over the vestry and one over the south porch, but these are now blocked off. Outside are niches all round containing statues of the apostles. also a carving in stone depicting a scene from the life of St. Martin.
There were over seventy ringers present at the festival. including Mr. A. Carveth (president). Mr. D. Burnett (Ringing Master) and the Rev. A. S. Roberts (vice-president). The ringers came from all over the Diocese, some as far away as Penzance and Constantine. and there were several visitors. Eight of the neighbouring towers were open for ringing, the most intriguing being Boyton with five bells. These bells were silent for many years and the ringing chamber used to store coke. Due to the energies of the Guild president and a few
others they were made ringable again, but they are a strange ring. The tenor, according to Dove. is 7 cwt .. but feels like 27 , and the fourth sounds like a spring gong in a dining room clock. Bob Minimus was rung but no one attempted turning the tenor. The contortions of those ringing amused the bystanders, but no one would wish to ring there for long. and it would be impossible to teach anyone to ring on them. though there is a local band.

## SURREY ASSOCIATION <br> North-West District

The Surrey Association received its usual warm welcome when the quarterly district meeting was held at Walton-on-Thames. on July 2nd. Ringing in the afternoon was a little unusual in that the sixth bell had no clapper. but apart from this all went along smoothly. The Rev. J. M. Evans conducted the Association's form of service, at 4.30 , and tea followed in the Church Hall. which had heen prepared hy Mrs. Lathbury and Miss Shorter. assisted by the local young ladies.
The highlight of the business meeting was the report of the tower representatives. who had met to discuss a scheme to help towers struggling in the first stages of change ringing. The report was adopted and the secretary instructed 10 proceed with organising the scheme. Ringing continued at Oatlands Park.

## MIDLAND RINGERS IN NORTH OXON

The South Derbyshire and North Leicestershire Association held their annual outing on June 25 th . when 37 members travelled by coach into North Oxfordshire.
At 7 a.m. the coach left Castle Donington and proceeded via Shardlow. Aston-on-Trent and Alvaston to pick up waiting members. Everyone was on time and the party soon headed for Leicester and eventually Banbury.
Towers visited were ali around this lovely old market town. and included Somerton (6). Lower Heyford (6). Sandford (6). and Great Tew with its beautiful ring of eight. A picnic lunch was taken at Hopcroft's Holt and tea in Banbury. The weather was perfect and all went as planned. thanks to the Association secretary. Mr. Reg Barker.

## SCOTTISH ASSOCIATION

This year's annual mecting of the Scottish Association was held at St. James Church. Paisley, and the bells were available from early afternoon. The ringing arrangements wete under the direction of the Ringing Master. Mr. Harry Sargent, of Glasgow. and it varied from rounds to Cambridge and Double Norwich.

The minister of St. James Church conducted a service in church. which preceded the business meeting. when we were pleased to have with us the president. Mr. Ernest Stafford. also of Glasgow. who has been seriously ill and unable to ring for some months. In his report the secretary stated that the Association's new peal book was available for inspection. He also mentioned that Mr. Pickett was shortly to retire and leave Scotland. He would be greatly missed as he had done much for the Association during the years he had been in Scotland. being an officer for 18 years, and a regular ringer. first at St. Mary's Calledral. Glasgow. and later at St. Mary's. Edinburgh. Another loss to ringing in scotland before the next annual meeting. would be Mr. Lloyd. who was returning to live in the south. The reasurer's report showed that the funds of the Association stood, at the end of last year. at over $£ 41$. the largest balance in the Association's history.
The Ringing Master's report was enthusiastically received and it was clear to everyone that Mr. Harry Sargent had the gift of presenting a factual report in a light and humorous way. The Master was unwilling to remain in office, but the members were more unwilling to accept his resignation and he was obliged to stay in office-no doubt members were looking forward to hearing his report for 1961. Because of ill-health Mr. Stafford was anxious $t 0$ resign as president and Miss A. I. Whitson, of Edinburgh. was unanimously elected in his place. The secretary, treasurer and Central Council representative were re-elected. It was agreed to try and arrange meetings for the coming year at Alloa and Dunblane in October. Dundee in February. 1961. and the annual meeting at St. Mary's. Glasgow.
A vote of thanks to the officials for services rendered ended the meeting and members were then entertained to tea by the St. James' Society. Afterwards a very warm vole of thanks was extended to Mrs. Caldwell. the local tower secretary. who had spared no efforts in providing a first class meal. More ringing followed for those who were able to stay.
R. W.

## BEVERLEY AND DISTRICT SOCIETY

Since July. 1960. when the bells of Hutton Cranswick. East Yorks, were dedicated by the Archbishop of York, after being recast at the Whitechapel foundry. the Beverley and District Sociely have held an anniversary meeting at this tower. The Vicar (the Rev G. Storer) worked hard for this augmentation and rarely a day passes when a hymn tune is not played on the bells either by the Vicar of his assistant. Miss M. Elliott.
At the meeting on July 16 th four of the members. who rang in the first touch after the dedication of the bells. were present. An excellent tea. aptly described by Mr. H. Parker (Bridlington) as a feast of home cooking had been provided by the Vicar, and ringing. which included Cambridge and Beverley Surprise Minor, continued until 9 p.m.

## LETTERS TO THE EDITOR

SPLIT-MIND HANDBELL RINGING
Dear Sir-Mr. Peter J. Staniforth need have no fears about being left high and dry as regards ringing handbells by the Blue Line method, as we were taught that way years ago. and do still use the "Blue Line.

In our younger days we had the privilege of ringing quite a lot of handbells with the late Alfred Pulling and the Brothers Pye (William. Ernest and Bob) and they all rang by the - Blue Line method. Bill Pye often used the phrase. Don't let your left hand know what your right hand is doing.'

But. sir, who are the EXPERTS that say ji cannot be done by the 'Blue Line.' Mr. Lock could have explained who were EXPERTS and who were not under the letter

It would appear to us that if you get a new idea and beat the drum ' loud enough then you become an expert -but the fact remains it can be done-so what?-Yours faithfully.
F. I. \& E. HAIRS.
(Two split minds)

## A LEGACY FOR THE DEVON GUILD

Dear Sir.-The late Miss Edith Lomas whose obituary notice appeared in . The Ring ing World, on page 453. bequeathed by her will the Guild of Devonshire Ringers a legacy of $£ 50$ to be axpended on instruction in scientific change-ringing.

This very generous and helpful thought on her part will be much appreciated by members of the Guild. especially by thase endeavouring to revive activity in towers which until recently have been silent.-Yours etc..

> E. M. ATKINS.

## Teignmouth.

## PULLING MEMORIAL

Dear Sir.-The committee who are organising this appeal are grateful to those who have sent donations to the fund towards the bell which it is hoped to hang in Guildford's new Cathedral in memory of Alfred H. Pulling About 6.000 circulars have been sent out and to date the response has been disappointingabout 75 replies only having been received and less than $£ 100$ in cash.
It is proposed to publish a list of subscribers later in the year and the committee urgently appeal to all who can do so to send a donation so that a bell of 12 cwt . may be installed in the new Cathedral by next May when the Cathedral is dedicated. All amounts will be acknowledged. and subscribers' signatures are to be stuck in a volume for permanent record in the Cathedral.
Please send donations as quickly as possible to the undersigned. making cheques. etc.. payable to the "Pulling Memorial." Yours etc.

## CHARLES W. DENYER.

## 15. Crondall Lane

Farnham. Surrey.

## THF PROFESSOR'S INVESTIGATIONS

Dear Sir.-Will the contributor please tell us the Professor's real name, his qualifications. his local tower and how many years of service to our art. I should also like to know a litile more about the grading of ringers from 1 to 10 instead of platitudes such as . Let us assume. I suppose." elc.
It is my feeling there is little practical value in such investigations.-Yours etc..
W. SHEPHERD.

Addlestone. Surrey.

## A TRIBUTE AND A LOST CLAPPER

## Mr. Ranald Clouston's Lecture At Aldeburgh

TYHIS year has seen the 13th annual festival of music and the arts (mainly music) a Aldeburgh. It is always held in June and usually lasts for nine or ten days. This year it was extended to seventeen davs.

Nine years ago the official programme book included an article on change-ringing by the Earl of Cranbrook, who lives near Aldeburgh and is a patron of the Suffolk Guild of Ringers. In 1957 the book included a photograph by Kurt Hutten (alas, he died this spring) of the Aldeburgh ringers in action (lower bells). These included Messrs. Peck Bedford and Pilgrim, with the verger, Mr Howard, wearing his gown, watching intently A peal is always attempted on the bells of the Parish Church (tenor 12 $\frac{3}{3} \mathrm{cwt}$. in F) on the opening day of the festival. Sometimes it is unsuccessful: this year it came off, John W Blythe. secretary of the Suffolk Guild, being the conductor (see ' R.W. page 429). Benjamin Britten, the composer and pianist, and Peter Pears. the tenor. live at Aldeburgh, and Mr Britten has shown interest in ringing. including handbells in at least one of his big compositions.
As mentioned in the 'R.W.' of June 24 th , a talk entitled 'Campanology' was included in this year's festival. It was given on June 23rd. in the Jubilee Hall where many of the musical items of the festival are held. by Mr Ranald W. M. Clouston. and attracted between 60 and 70 of the festival visitors. Among them were Mrs. Stein. mother of the Countess of Harewood (ihe Earl is the festival's president); 'Diapason,' the East Anglian ' Daily Times, music critic: the Countess of Cranbrook. chairman of the festival council: and Miss Imogen Holst, daughter of the composer, Gustav Holst.
Mr. Clouston had with him a number of bell fittings. casts of ancient lettering and shields found on bells. a working model mounted in a frame. a chart of Grandsire Doubles. a handbell cast in Holland in 1725 and a bell weighing if cwt., cast at Bristol about 1530.

## POINTS FROM THE LECTURE

In his talk he referred to the earliest dated bell still existing in England-at Claughton, Lancashire. dated 1296-and the system of moulding, casting and tuning. With some of his many tuning folks he demonstrated the different notes of one bell. Then he went on to hanging, bell frames. striking ( $\frac{1}{6}$ of a second makes a difference!) and the danger of clocking.
Mr. Clouston also referred to the 41.000 ringers and the 5.000 rings of bells in the country, the extent of Major rung at Leeds. Kent. by relays of men in 1761. the recent attempts at the extent by eight men at the loughborough Campanile. chiming and changeringing.
Before the Reformation, he said. few churches had more than five bells. Changeringing became established just before the Civil War. in the 17th century, and this method of ringing, he said. was more mathematical than musicial. Later, explaining this, he said he meant to put over to the audience. it being a musical one. that. by conventional standards, change-ringing is not music. musical notation is not used. and the hasis is notation is
We well remember Mr. Clouston's article in
The Ringing World on the bells hung for ringing at the Church of San Francisco el Grande. Madrid. He referred to these. they reing unique on the Continent where, however. are found many carillons. some of four octaves
After referring to certain big bells, such as the Czar Kolokol at Moscow. Great Paul in St. Paul's Cathedral ( $16 \frac{1}{t}$ tons). Big Ben ( 13 tons, 11 cwt .). Guilds of Ringers. the Central Council and : The Ringing World, he concluded by telling his audience of the friendliness he had experienced as he went round the country when he presented himself, as a ringer. at a strange tower.
Then three local ringers-Jack Pilgrim. James Bailey and Peter Bedford-rang the chart of Doubles with tenor behind. On its
completion, Mr. Clouston told the audience that that was a moderately simple method This brought laughter from the audience, who apparently thought it was extremely com plicated.
Next, the ringers were joined by another local ringer. Ernest Sidney Bailey. Together they rang a course of Plain Bob Major which also brought applause.

## FELLOW MUSICIANS

Now it was time for questions and Miss Imogen Holst was soon on her feet. With a smile she challenged Mr. Clouston's reference to change-ringing being mathematical rather than musical and said that she must disagree (Applause.) She went on to say that bell ringing was organised sound. They had seen a performance by players who concentrate and have the technique to play rhythmically, which was one of the principal things impressed upon all musicians. The ringing that morning had given great pleasure and. turning to the ringers with arms outstretched she said. 'We are happy to greet. as fellow musicians, our players.
This tribute, coming as it did from one who is music from tip to toe and whose life is all music. was a great one, and when I thanked her for it afterwards she said, 'Well. you know, it was from the heart.' If she says so. I believe
Interest in the lecture was illustrated by questions from the listeners. These were some :
Lady: When an old bell is recast. is anyhing left of it-the inscription. etc?
Gent: 'How do you set a bell?
Gent : ' If you hold on to a rope, do you disuppear up to the roof?
Lady: 'How do you raise a bell?
Lady: 'Have all the possible methods been ung?
Lady: a question about the place of a bell in method ringing.
In his replies. Mr. Clouston mentioned that some lings were not of good tone, and some were too loud: when you melt bell metal the tin content tends to evaporate : welding is not very satisfactory so far but new methods are being experimented with, which may find a satisfactory solution: the tower tragedy in the West Country about three years ago: the call changes of the West Country; there are some 3.000 methods 'to suit all tastes some extremely complicated.
Then one of the audience-Mr. William Morland. who used to ring at Lamberhurst. Kent. but has not rung for five or more yearsasked if could join the ringers to attempt a course of Doubles. He took the treble and second and had rung but few changes when the treble clapper fell to the floor.
Mr. Stephen Reiss. the festival secretary. apparently thought this was appropriate as a finale. so took the opportunity to thank Mr Clouston for the lecture
Some twenty of the audience. one from Sweden. then gathered round to speak to Mr. Clouston and see his exhibits. and it was over $1 \frac{1}{2}$ hours hefore everyone had left. However. before they did so. the treble clapper had been replaced and Mr. Morland and his two new acquaintances had got the course of Doubles.

## CLAUDE RUSH

## QUARTER PEALS

CHESTER.-At St. Mary-without-the-Walls. on July 16th. 1.264 Piain. Bob Maior: Dr. E. V. Woodceck (first quarter) 1. Miss R. J. Seabright 2. J. W Grithiths (cond.) 3. J. S. Dean 4. A. B. Close 5 D H. B. Millward 6, P. Swindley 7. G. Parling 8 COGGESHALL. ESSEX.-On July 91h. 1.280 Double Norwich C.B. Major: E. Piper 1. H. Webl 2. K. Smith 3. B. Webb 4. E. Bright 5. H. 1. Millatt (cond.) 6. S. Piper (first in method) 7, W. Arnold 8. Rung after the wedding of Mr. R. V. Borgarty and Miss Christine M. Weinrich.

PACKWOOD, WARWICKS.-()n July 10 th .1 .260 Doubles: Pamela M. Tumer (cond. 240 April Day) 1 P. S. Bennett (cond. 240 Grandsire) 2. J. K. Foot (cond. 240 Stedman) 3. M. C. Hughes (cond. 240 Plain Bob) 4, R. E. Tollis (jun.) (cond. 240 Reverse Canterbury) 5. Also 60 Plain Bob rung, non conducted. First in five Doubles methods by all the bend.

AN OXFORD GULLD WORTHY

To celebrate the 70th birthday of Mr . J. Keyte a quarter peal of Grandsire Triples was rung at Cripping Norion. Oxon. on July 1st. Mr. Keyie. who has been 60 years a ringer. is one of the stalwarts of the Oxford Diocesan Guild. as he has been secretary of the Chipping Norton Deanery years. His first peal was rung for the now defunct Four Shires Guild and the remainder, which range from Doubies to Major. for the Oxford
Diocesan Guild. Mr. Keyte is one of that fast dwindling band who have taken : The Ringing World from its first issue. His wide circle of ringing fiends will wish him many more

MR. J. KEYTE

## RINGERS' SUNDAY AT PORTSMOUTH CATHEDRAL

Sunday. July 17 th. saw the first Ringers Sunday at Portsmouth Cathedral, and, it is believed, in the Diocese

Hundreds of leaflets. giving a note about the uniquely British art of change ringing and the programme for the day. had been previously distributed. Press commen appeared

References to the work of the Cathedral Guild of Ringers were made at each of the services throughout the day, with a special address at Evensong by the Provost, the Very Rev. E. N. Porter Goff. M.A

The tower was open to visitors (ringing and non-ringing) during ringing for Matins (when they packed the large ringing chamber), and in two sessions during the atternoon, also at the ringing for Evensong. A few words of explanation of what was going on were given by the Guild chairman between the touches: and some of the visitors were shown the bells in action.
At Evensong there were three ringing features in addition to the special address in lieu of the anthern. change ringing on handbells in the nave-Grandsire Triples by W. Gray 1-2. K. Knight 3-4. R. Baldwir (cond.) 5-6. T, Taylor 7-8: second lesson read by Guild chairman. Mr. A. York-Bramble: after the sermon, five new members recognised as of the Guild of Ringers of St. Thomas of Canterbury.' by the Provost. at the chancel rails.

The usual 'coffee hour,' in Cathedral House. adjacent. followed the service. during which the Guild ringers chatted with members of the congregation, many of whom expressed great interest and pleasure in what they had seen and heard
Two of these have already become recruits for ringing and have had their initial tuition It is generally agreed that the occasion benefited Church and ringing mutually

## ALTERNATIVE TO BRISTOL

Dear Sir.-As an extent of Major cannot be obtained in Bristol, why not ring Premier instead (Bristol with 2nds and 7hs)-in the words of the prophet (I have forgotten which one) the same sauce kut different gravy.Yours faithfully,

Sevenoaks.

## UNIVERSTTY OF BRISTOL SOCIETY'S SUMMER TOUR

Held in Gloucestershire. Worcestershire and Warwickshire. this year's tour of the University of Bristol Society started at the Church of St. Mary-de-Lode. Gloucester, on June 18th. The main body of the party arrived by train from Bristol and spent half an hour touring Gloucester before finding the right church. To reach the next tower. Churchdown (6), visible for miles on the top of a steep hill. bicycles were abandoned at an early stage, and much use made of the churchyard tap. for the temperature was at traditional summer tour level and the summit had been gained by an almost vertical path.

After ringing on the two fives at St. Mark's, Cheltenham. and Swindon Village (which has an unusual pentagonal tower), we made our way to Clecve Hill yourh hostel where we were met by the four remaining members of the party. who had spent the afternoon ringing in a peal of Grandsire Cinques at St. Mary Redcliffe. The long climb up to the hostel was lightened by a glorious sunset over the Malvern Hills. which provided an excellent excuse for frequent pauses for (rest and) appreciation.
The next morning we were bidden an enthusiastic farewell by the warden after our secretary-elect had emptied the scrapings of the porridge pan into the bread-bin. We rang for morning service at Bishop's Cleeve, a
fascinating blend of Norman and Perpendicular fascinating blend of Norman and Perpendicular
architecture. and in the afternoon at Beckford. Here we rang London and Cambridge on the six excellent bells. admired grotesque animals climbing up the Norman arches. and watched bees beginning to swarm just outside a window of the ringing chamber. After negotiating a jackdaw's nest we were also able to see the surrounding countryside from the top of the tower

At Evesham we cooled off by the river with lemonade and ice lollies before advancing to the bell tower. where we were joined by Brian Wylde. The ringing here included Stedman and Grandsire Caters and Cambridge Major, but unfortunately no change ringing on the twelve. At Evensong the Society was represented at both churches served by the Bell Tower, although the larger detachment was disappointed in not hearing Jesu. Joy of Man's Desiring." which one confident member had asserted would be sung as an anthern and which had proved a great attraction. After the service a ride through orchards and strawberry fields brought us to the luxurious half-timbered ynuth hostel at Broom.

Monday brought the most concentrated grabbing of the week. with seven towers. The first two were eights. Salford Priors and Bidford-on-Avon. Although both were quite easy to ring. the only distinguishing result of our visit was a broken stay at Bidford. After lunch we had better ringing at Cleeve Prior (6) and Middle Littleton (6). before tackling Church Honeybourne. which, we had heard from various sources including the Vicar, are reputed to be almost unringable. After an attempt at rounds which lasted for one stroke because after that the third was half-way down, the men took over and rang Plain Bob Minimus with the tenor covering. These five bells have a deep and very pleasing tone and would be well worth rehanging. Many cups of tea. kindly provided by the Vicar's wife. gave us restored strength to ring at Mickletor (8) and Clifford Chambers (6) before supper in Stratford-on-Avon and bed at Stratford youth hostel.

The next day we were deserted by our secretary who had to return to Bristol for a viva voce examination. Without her expert organisation we lost no time in finding ourselves in the middle of a hayfield. the only visible way of escape a rapidly retreating ferryboat whose occupant pointed wildly in the direction of a distant barn and said "Make straight for that.: Two double barbed wire fences. one stream. and thrce very rough ficlds later. we advanced with some trepidation through a farmyard-and were met not with curses. but with broad grins. People had obviously passed that way before, through probably most of them never would again. especially if they happened to be cyclists. Not surprisingly we were half an hour late at
the first tower of the day. Snitterfield (6).

The only people to arrive on time were those who had elected to go the long way round through Stratford rather than risk the hazards of the ferry.

## DISTURBING THE BREEDING

After lunch two members of the party went for a swim in Wootton Pool, eighteen inches deep and very muddy, before being turned off the premises by an irate owner who used it for breeding fish. At Henley-in-Arden, where we found that the long draught made ringing difficult. the local ringers thoughtfully provided orange squash to quench the raging thirsts induced by the combination of ringing. cycling and hot sun. At Wootton Wawen. a beautiful little six in a well-kept tower. we had rather better ringing than had been usual on this tour in a long touch of Kent. The church here consisted of remains from many architectural periods, including a Saxon sanctuary with an extremely effeztive and beautiful modern stained-glass window. Another fine six at Aston-Cantlow: supper at Stratford youtl hostel: and then we went back into Stratford to ring on the ten at Holy Trinity Church.

Ringing on Wednesday began at Welleshourne Hastings (6), where there was no stay on the third. and the acting Master nearly followed the rope up through the hole in the ceiling. After Sherborne, where a bull regarded us with great malignity from the other side of a frail looking fence, the fine eight at Warwick St. Nicholas provided some of the best ringing of the tour. The touch of Plain and Little Bob Major, which had been tried previously with varying degrees of failure. was at last brought round. Erin Triples was rung on the light and rather odd-struck eight at Lillington. and a touch of Plain. Reverse. and Double Mob Minimus on the very pleasant five at Stoneleigh. In the evening we joined the local practice at Warwick St. Mary.

Leamington youth hostel possess a piano and at last we had some singing, although the bridge-and-solo playing fraternity steadfastly refused to be converted to this more traditional activity. Tradition was also broken by a violent thunderstorm and torrential rain during the night. The sun did not reappear until we had all smothered ourselves in waterproofs and set off for Bishop's Itchington (5) and Harbury, where the bells were rehung and augmented to six only a year ago. They were half-muifled because of the recent death of one of the parishioners. and some very good Kent. Camoridge. Erin and Plain Bob was rung, although by now we were all beginning to feel the strain of six days' cycling and ringing.
The last tower of the tour was Whitnash (6). We were met by Mr. Hawley. who at 94 is proud of being the oldest practising ringer in the country. Afterwards we were entertained
to tea in the church hall. by Mrs. Maycock. before cycling to the station and various ways home. Eigh: of us stayed behind to attempt a peal of Plain Bob Major, at Allesley. the following morning. Mrs. Maycock provided hospitality for us overnight and we should like to record our thanks to her and to those who helped her.

Thank; are also due to all incumbents and tolerant youth hostel wardens concerned. and to Miss Jane Cook for making all the arrangements for us. Worcestershire and Warwick shire remain a land of strawberry fields. Norman arches, and standard rose trecs lining the churchyard paths, as at Stoneleigh. Leamington will always be "the place where it rained on the summer tour.
B. W. A.

## ST. DAVID'S DIOCESAN GUILD

The 14 th annual festival of St. David's Diocesan Guild was held at the Bishop's Palace. Abergwili. on June 18 th . Ringers from Tenby. Llanstephan, Carmarthen. Llandilo, Burry Port and Llanelly met at St. Peter's Church. Carmarthen. where the bells were available from $2.30 \mathrm{p} . \mathrm{m}$. Members then made their way to Abergwili, where they were welcomed by the Lord Bishop. the Rt. Rev. R. Richards, and Mrs. Richards.

A service was held in the Palace Chapel at which the Dean (the Very Rev. T. J. Jenkins) officiated. and the lesson was read by the Master of the Guild (Mr. G. Thomas). who also played the organ.

A very nice tea preceded the business meeting. held on one of the beautiful Palace lawns, at which the Bishop kindly presided.
The Bishop opened the meeting with a welcome to the Guild. The minutes of the last annual meeting were read. and a statement of accounts was given by the treasurer. Mr. E. Sage. Both were adopted. Before the election of officers. the Master spoke of the good work done by Mr. C. H. Hawkins, one of the founder members and honorary secretary since the Guild's formation, who had resigned through ill-health. It was unanimously decided to ask Mr. Hawkins to become the Guild's first life vice-president.
The following officers were elected: Master. Mr. G. Thomas. Tenby: secretary. Mr. E. H Thomas, Llanelly. Carms: treasurer Mr. E.
Sage. Burry Port: Ringing Master. Mr. R. Sage. Burry Port: Ringing Master. Mr. R.
Warburton. Goodwick: auditor. Mr. B. Rees, Burry Port
A collection for the Bell Restoration Fund realised $t$ I 15 s . The committee was asked to discuss the Central Council representative vacancy. A hearty vote of thanks was then extended to the Bishop and Mrs. Richards for having the Guild at the Palace, and to the Dean. The Bishop responded and closed the mecting with prayer
Members then returned to $5 \mathrm{5t}$. Peter's. Carmarthen. to end a memorable day with more ringing until 8.30 p.m.

# OBITUARY 

## A. E. LOCK

AN APPRECIATION
Bert, as he was affectionately known to hundreds of North Berks ringers. will be sadly missed. and nowhere more thay at Hagbourne. where he was a regular visitor. He became a member of the Haghourne Society in 1954. and rarely missed a Tuesday evening practice. always accompanying the local ringers to the Fleur-de-Lys. for refreshments. before returning to Abingdon. On July 9 th. the day of the funeral. a combined band of Hagbourne. Halwell. and Blewbury ringers met together at Hagbourne to pay their last tribute to Bert with a well struck half-muffled quarter peal of Grandsire Triples. May he rest in peace.
M. B.

## MR. W. E. MEASON

To say that Offton. Suffolk, will be the poorct by the passing of Billy Meason. on July 14th. would be an understatement. Retiring from London Transport he came to live in the village nine years ago and at once entered into its activities. He became secretary and treasurer of the Village Hall. the British Legion Branch. Conservative Association and the Parochial Church Council, but his greatest achievement was the restoration of St. Mary's bells. He was not a ringer himself. but had come in contact with ringers whilst at London Transport, including the treasurer of the Oxford Diocesan Guild.
It was the result of meeting a ringer at the local British Legion Branch that gave him the opportunity to undertake the task that had been in his mind for so long. With his usual enthusiasm and efficiency he worked on the P.C.C.. who eventually called in the Diocesan teachnical adviser. Mr. R. W. M. Clouston. The resulting report was that the existing condition of the bells was extremely dungerous. The next move by him was to obtain an estimate from Messrs. J. Taylor and Co.. and then. with faith in the rightness of his views. to persuade the P.C.C. to accept their estimate of $£ 1.122$.
One of the proudest moments of his life was on July 31st. 1959, when the reluned ring of five with the addition of a new treble was dedicated by the Bishop. Dr. A. H. Morris. His greatest joy was to know that the bells had been rung regularly by a local band ever since.

He died suddenly from heart failure in Ipswich Hospital. where he had been laken three weeks previously after a fall in which he fractured his hip. His death was a great shock to all as he hack been making an excellent recovery. He lived the Legion motto. - Service not Self.
G. R. G.

## MR. GEORGE PRYKE

The death occurred on July 15th. of Mr. George Pryke. of Otiey. Suffolk. after a few days illness. at the age of 85 .
A harness maker by trade. George went to Oiley some 50 years ago, and over a long period was a member of the Helmingham kand and took part in several Surprise methods He had an ambition to call one peal: this he did at his own Parish Church. Otley. one of seven methods of Minor. During the peal George in his eayerness called a bob a lead too soon. He was corrected immediately and to the amusement of all he never called the bob, but said. "Weill hev one now.
A very enthusiastic ringer. George would go anywhere on his bicycle for a peal. even to complete a band at the last moment. He rang in all ahout 277 peals for the Norwich Association and Suffolk Guild. His favourite method was London and on his last outing he took part in a coursc. His regularity at all times. till he could no longer cycle. was a great help to the Helmingham hand and hils olace has not been filled.
At the funeral at Oiley the Guild was represented by Messrs. C. W. Beecroft and L. G. Brell.

## MR. HARRY PROLT

We regret to record the death. on July 11 th, of Mr. Harry Prout. aged 77. Harry was weli known in the Somerset and Wiltshire districts. He passed away suddenly in the belfry at Britford. near Salisbury, after ringing a louch of Bob Minor.
He was a skilled blacksmith by trade and first came to Manningford. where he worked in a large grain firm. He afterwards moved to North Somerset and rang many peals for the Bath and Wells Association, under the tuition of Mr. J. T. Dyke. He always spoke of Joe Dyke with great respect. saying it was through him he became a ringer.
He spent some time in the Bolsover District and rang with the late John Flint: he also lived in Warsop for a period. He afterwards came to Melksham and was a member of the local oand for many years. A loyal churchman. he treated his ringing as a duty. As he became older he moved to Corsham. to be nearer his work, and rang with the Corsham ringers. His wife. who came from the Melksham district. predeceased him about three years. After his retirement to went to Salisbury, where he made many friends and was very happy.
He was buried at Melksham on July 15th. Canon C. A. Witcomb. Vicar. conducted the service. Mr. L. Taylor being organist. Among those present were: Messis. F. Haines. A. Haines. H. Roper (Wilton). Robert Fry (Salisbury). Mr. and Mrs. W. C. West. Messrs. S. Cockell. H. Cockell. C. F. Andrews (Melksham). J. Lucas (Trowbridge). E. Hunt (Camberley). Giraham Eyles (Gloucester and Bristol Association). and others. Floral tributes were sent from the following towers: Wilton. Corsham. Melksham. Trowbridge. Warsop and district. St. Thomas:. Salisbury. and associates. Salisbury Branch. and Graham and Ruby Eyles.
The bells were rung open after the committal. Harry having expressed a wish for this. as a thanksgiving for a full life.
Harry Prout will be greatly missed: he was of an impeccable character. unassuming and of great faith. Although small of stature. he was a great man.
W.C.W.

## GRANDDAUGHTER'S THANKS

Dear Sir.-As you probably know of the sudden death of my grandfather. Mr. L. H. Prout. I would be very grateful if you would insert. in your next issue of. The Ringing World: a voice of thanks to all ringers who have taken part in peals for his memory.

I would also like to express my thanks to the ringers at Britford Church for their prompt attention at the time of his death. Lastly, to thank the ringers of Salisbury and district. Warsop and district. especially Mr. H. T. Rooke. Ringing Master at Warsop. for giving him pleasure in his one and only love.-Yours faithtully.

## MORE BELFRY GOSSIP

The bells of Weston Favell. Northampion. have been dismantled, prior to rehanging on nicw bearings. by Richard White and Sons.
The spring issue of the $\cdot$ National Savings Journal features John Taylor and Co. Their employees." states the article. "ring up gearly $£ 1.300$ each year for their National
Savings Holiday Club: The article contains Savings Holiday Club, The article contains picture of Great Paul on its journey to London in 1881.
In the in memoriam peal to Mr. Albert $\mathrm{E}_{\text {: }}$ Lock. rung at Stoke Poges. July 13th. the band would like to associate the names of Miss Dorothy Fletcher. Miss Linda Kew and Mr. Harry Wingrove. who were unable to stand t .
DONCASTER. YORK. -On July 3rd. 1.260 Grandsire Triples: Ann Ayres 1. Marguerite Batram 2. Kathleen Mallender 3. G. Graham 4. F. A. Staveley 5. E. Dalingwater 6. W. E. Critchley (cond.) \%. H.

## SOCIETY OF ROYAL CUMBERLAND YOUTHS

Windsor was the venue of the Society's quarterly meeting on July 2 nd, but the number of members who attended was the lowest for some time. Ringing at the Parish Church of St. John the Baptist was followed by a very pleasant informal service conducted by the Vicar. the Rev. Leslie Badham, who afterwards showed the coppany round the church and pointed out various interesting features. One particular item of interest was a magnificent piece of Gibbon's carving-originally the altar rail of St. George's Chapel. Windsor Castle. and now used to divide the Royal pew from the Chancel.
An excellent tea was provided in the Church Hall. by Mr. J. H. Glass. of the local band. The business meeting was presided over by the Master. Mr. Dennis Beresford. who welcomed those present but deplored the absence of so many members. New members were elected as follows: Miss Claire Dillamore and Messrs. P. Sharp and L. Willder. of Lincoln. Mr. D. Sibson and Mr. J. Baldwin. of Tankerton. Kent. Mr. Ian Oram protested strongly about the date of the next annual general meeting. which had been moved from the customary third Saturday of January to the fourth and clashed with his own annual district meeting of the Kent Association. After some discussion it was agreed to revert to January 21st. 1961. provided that accommodation for tea and meeting could be arranged. The use of the hall at St. Martin-in-the-Fields on that day was out of the question owing to so many other church activities.
A vote of thanks was accorded to the Vicar and also to Mr. H. J. Glass. family and other helpers for providing such an excellent tea. Next quarterly meeting. Northfleet. on September 17th.

## SALISBURY DIOCESAN GUILD
